HSBC Bank plc

(A company incorporated with limited liability in England with registered number 14259)

as Issuer

PROGRAMME FOR THE ISSUANCE OF NOTES AND WARRANTS

Preference Share-Linked Notes

On 24 February 1999, HSBC Bank plc (the "**Issuer**") established a Programme for the Issuance of Notes and Warrants (the "**Programme**").

This document (which expression includes all documents incorporated by reference herein) has been prepared for the purpose of providing disclosure information with regard to certain types of notes issued under the Programme, namely notes ("**Notes**" or "**Preference Share-Linked Notes**") which have a redemption amount payable at maturity which is linked to the performance of underlying preference shares.

The value of and return on the Notes is linked to the performance of one or more preference shares issued by Eukairos Investments Limited (the "**Preference Shares**"), a company incorporated in England and independent of the Issuer, whose business consists of the issuance of Preference Shares in connection with the Programme. The performance of such Preference Shares is in turn linked to the performance of an underlying index or basket of indices (an "**Underlying**") thereby providing investors in the Notes with a return linked to the Underlying.

This document has been approved by the United Kingdom Financial Conduct Authority (the "**FCA**"), which is the United Kingdom competent authority for the purposes of Directive 2003/71/EC, as amended (the "**Prospectus Directive**") and relevant implementing measures in the United Kingdom, as a base prospectus (as from time to time supplemented, the "**Base Prospectus**"). In relation to any Notes, this Base Prospectus must be read as a whole and together also with the relevant final terms (the "**Final Terms**"). Any Notes issued on or after the date of this Base Prospectus and which are the subject of Final Terms which refer to this Base Prospectus are issued subject to the provisions described herein. This does not affect any Notes already in issue or any Notes issued under any other base prospectus published in connection with the Programme. This Base Prospectus will be valid until 12 months from the date hereof.

This Base Prospectus has been prepared for the purpose of providing disclosure in relation to Notes only (and not warrants), and only Preference Share-Linked Notes may be issued under this Base Prospectus.

Applications have been made to admit Notes to listing on the Official List of the FCA and to trading on the regulated market of the London Stock Exchange plc (the "**London Stock Exchange**"), which is a regulated market for the purposes of Directive 2004/39/EC.

Information on how to use this Base Prospectus is set out on page ii and a table of contents is set out on page vi.

The Notes have not been and will not be registered under the United States Securities Act of 1933, as amended (the "**Securities Act**"), or the state securities laws of any state of the United States, and may not be offered or sold within the United States or to, or for the account or benefit of, U.S. persons as defined in Regulation S under the Securities Act ("**Regulation S**") except pursuant to an exemption from, or in a transaction not subject to, the registration requirements of the Securities Act.

The Issuer has been assigned the following long term credit ratings: AA- by Standard & Poor's Credit Market Services Europe Limited ("**Standard & Poor's**"); Aa3 by Moody's Investors Service Limited ("**Moody's**"); and AA- by Fitch Ratings Limited ("**Fitch**"). Each of Standard & Poor's, Moody's and Fitch is established in the European Union and is registered under Regulation (EC) No. 1060/2009, as amended (the "**CRA Regulation**"). As such, each of Standard & Poor's, Moody's and Fitch is included in the list of credit rating agencies published by the European Securities and Markets Authority on its website in accordance with the CRA Regulation.

Neither this Base Prospectus nor any Final Terms nor any further information supplied in connection with the Programme or any Notes should be considered as a recommendation or as constituting an invitation or offer by the Issuer or any Dealer to any recipient of this Base Prospectus to subscribe for or purchase any Notes. Each investor contemplating purchasing any Notes should make its own independent investigation of the affairs, and its own appraisal of the creditworthiness, of the Issuer. Neither this Base Prospectus nor any other information supplied in connection with the Programme or any Notes constitutes an offer by or on behalf of the Issuer, the Programme Arranger or any Dealer to subscribe for or purchase any Notes.

The Issuer accepts responsibility in the United Kingdom (the "**Public Offer Jurisdiction**") for the content of this Base Prospectus in relation to any person in the Public Offer Jurisdiction to whom an offer of any Notes is made by any financial intermediary to whom the Issuer has given its consent to use this Base Prospectus (an "**Authorised Offeror**"), where the offer is made during the period for which that consent is given and is in compliance with all other conditions attached to the giving of the consent, all as mentioned in this Base Prospectus. However, none of the Issuer, the Programme Arranger nor any Dealer has any responsibility for any of the actions of any Authorised Offeror, including compliance by an Authorised Offeror with applicable conduct of business rules or other local regulatory requirements or other securities law requirements in relation to such offer.

The Public Offer Jurisdiction referred to above in which a Public Offer of Notes may be made is the United Kingdom only.

If the Issuer has not consented to the use of this Base Prospectus by an offeror, the investor should check with such offeror whether anyone is responsible for this Base Prospectus for the purposes of section 90 of the United Kingdom Financial Services and Markets Act 2000 (the "**FSMA**") in the context of the Public Offer, and if so, who that person is. If the investor is in any doubt about whether it can rely on this Base Prospectus and/or who is responsible for its contents, it should take legal advice.

A Public Offer may be made during the relevant Offer Period by any of the Issuer, the Programme Arranger, any Dealer or any relevant Authorised Offeror in the Public Offer Jurisdiction and subject to any relevant conditions, as specified in the relevant Final Terms.

None of the Issuer, the Programme Arranger nor any Dealer has authorised the making of any Public Offer of any Notes by any person in any circumstances other than those described above. Any such unauthorised offers are not made by nor on behalf of the Issuer, the Programme Arranger, any Dealer nor any Authorised Offeror and none of the Issuer, the Programme Arranger, any Dealer or any Authorised Offeror accepts any responsibility or liability for the actions of any person making such unauthorised offers.

An investor intending to acquire or acquiring any Notes from an Authorised Offeror will do so, and offers and sales of the Notes to an investor by an Authorised Offeror will be made, in accordance with any terms and other arrangements in place between such Authorised Offeror and such investor including as to price, allocation, settlement arrangements and any expenses or taxes to be charged to the investor (the "Terms and Conditions of the Public Offer"). The Issuer will not be a party to any such arrangements with investors (other than the Programme Arranger and the Dealers) in connection with the offer or sale of the Notes and, accordingly, this Base Prospectus and any Final Terms will not contain such information.

The Terms and Conditions of the Public Offer shall be provided to investors by that Authorised Offeror at the time the Public Offer is made. None of the Issuer, any Dealer or other Authorised Offeror has any responsibility or liability for such information.

An investment in the Notes entails certain risks, which vary depending on the specification and type or structure of the Notes.

It is advisable that investors considering acquiring any Notes understand the risks of transactions involving the Notes and it is advisable that they reach an investment decision after carefully considering, with their financial, legal, regulatory, tax, accounting and other advisers, the suitability of the Notes in light of their particular circumstances (including without limitation their own financial circumstances and investment objectives and the impact the Notes will have on their overall investment portfolio) and the information contained in this Base Prospectus and the relevant Final Terms. The distribution of this Base Prospectus and the offer, distribution or sale of Notes may be restricted by law in certain jurisdictions. None of the Issuer, the Programme Arranger nor any Dealer represents that this Base Prospectus may be lawfully distributed, or that any Notes may be lawfully offered, or assumes any responsibility for facilitating any such distribution or offering, in any other jurisdiction. In particular,

action may be required to be taken to permit a public offering of any Notes or a distribution of this Base Prospectus in any jurisdiction. Accordingly, no Notes may be offered or sold, directly or indirectly, and neither this Base Prospectus nor any advertisement or other offering material may be distributed or published in any jurisdiction, except under circumstances that will result in compliance with any applicable laws and regulations. Persons into whose possession this Base Prospectus or any Notes come must inform themselves about, and observe, any such restrictions.

For details of certain restrictions on the distribution of this Base Prospectus and the offer or sale of Notes in the European Economic Area, the United Kingdom and the United States of America, see the "*Subscription and Sale of Notes*" section of this Base Prospectus.

United States

The Notes have not been and will not be registered under the United States Securities Act of 1933, as amended (the "**Securities Act**") and Notes in bearer form are subject to U.S. tax law requirements. The treatment for taxation purposes of the acquisition, holding or disposal of, or other dealings with, Notes may differ according to the jurisdiction in which the person acquiring, holding, disposing or dealing is subject to taxation. Any person intending to acquire, hold, dispose of or otherwise deal with a Note should inform himself as to the treatment for taxation purposes applicable to him.

SUMMARY

This section provides an overview of information included in this Base Prospectus. It includes blank placeholders for options provided for under the Programme which will only be known at the time of each issuance of Notes. A completed summary of each individual issue will be annexed to the relevant Final Terms.

Summaries are made up of disclosure requirements known as "Elements". These elements are numbered in Sections A – E (A.1 – E.7).

This summary contains all the Elements required to be included in a summary for this type of securities and issuer. Because some Elements are not required to be addressed, there may be gaps in the numbering sequence of the Elements.

Even though an Element may be required to be inserted in the summary because of the type of securities and issuer, it is possible that no relevant information can be given regarding the Element. In this case a short description of the Element is included in the summary with the mention of "Not Applicable".

Section B – Issuer		
B.1	Legal and commercial name of the Issuer:	The legal name of the issuer is HSBC Bank plc (the " Issuer ") and, for the purposes of advertising, the Issuer uses an abbreviated version of its name, HSBC.

B.2	Domicile and legal form of the Issuer, the legislation under which the Issuer operates and its country of incorporation:	<p>The Issuer is a public limited company registered in England and Wales under registration number 14259. The liability of its members is limited. The Issuer was constituted by Deed of Settlement on 15 August 1836 and in 1873, registered under the Companies Act 1862 as an unlimited company. It was re-registered as a company limited by shares under the Companies Acts 1862 to 1879 on 1 July 1880. On 1 February 1982 the Issuer re-registered under the Companies Acts 1948 to 1980 as a public limited company.</p> <p>The Issuer is subject to primary and secondary legislation relating to financial services and banking regulation in the United Kingdom, including, <i>inter alia</i>, the UK Financial Services and Markets Act 2000, as amended, for the purposes of which the Issuer is an authorised person carrying on the business of financial services provision. In addition, as a public limited company, the Issuer is subject to the UK Companies Act 2006.</p>
B.4b	Known trends affecting the Issuer and the industries in which it operates:	<p>The Issuer expects global GDP growth to accelerate modestly in 2014. This improvement reflects a shift from contraction to expansion in the eurozone, a rise in growth in the US and the UK as well as rising emerging markets growth.</p> <p>The Issuer expects UK GDP to rise by 2.6 per cent in 2014 driven by ongoing thawing in credit conditions, rising investment and household consumption supported by loose monetary policy and a recovering housing market.</p> <p>Recent developments in the eurozone economy signal a recovery, although its strength will likely be only gradual and dependent on global trade as there remain significant headwinds to domestic demand. The provision of credit is likely to remain weak which will in turn hinder investment and consumption growth. The Issuer expects the eurozone GDP to grow by only 0.8 per cent in 2014.</p>
B.5	The group and the Issuer's position within the group:	<p>The whole of the issued ordinary and preference share capital of the Issuer is beneficially owned by HSBC Holdings plc ("HSBC Holdings", together with its subsidiaries, the "HSBC Group"). C.5	Description of any restrictions on the free transferability of the securities:	The Notes are freely transferable. However, there are restrictions on the offer and sale of the Notes and the Issuer and [] (the " Dealer[s] ") have agreed restrictions on the offer, sale and delivery of the Notes and on distribution of offering materials in the European Economic Area, the United Kingdom and the United States of America.
C.8	The rights attaching to the securities, including ranking and limitations to those rights:	<p>Status of the Notes: The Notes issued will be direct, unsecured and unsubordinated obligations of the Issuer and will rank equally and without preference among themselves and, at their date of issue, with all other unsecured and unsubordinated obligations of the Issuer (unless preferred by law).</p> <p>Interest Payments: The Notes will not be interest-bearing.</p> <p>Redemption of the Notes at Maturity: The Notes will be redeemed on their maturity date.</p> <p>Early redemption of the Notes: In addition the Notes may be redeemed prior to their started maturity in the following circumstances: <i>For illegality:</i> at the option of the Issuer if the Calculation Agent determines that the performance of the Issuer's obligations has become unlawful or impracticable in whole or in part for any reason. <i>For taxation reasons:</i> at the option of the Issuer if the Issuer were required under the terms and conditions of the Notes (the "Conditions") to pay additional amounts in respect of tax. <i>For a Preference Share Early Redemption Event:</i> following the receipt by the Issuer or any of its affiliates of a notice from Eukairos Investments Limited (the "Preference Share Issuer") that one or more series of preference shares issued by the Preference Share Issuer (the "Preference Shares") are to be redeemed early. <i>For an Extraordinary Event and/or Additional Disruption Event:</i> at the option of the Issuer if the Calculation Agent determines that a merger event, tender offer or insolvency (each, an "Extraordinary Event") and/or change in law or insolvency filing (each, an "Additional Disruption Event") has occurred in relation to the Preference Shares and/or the Preference Share Issuer. <i>For an Event of Default:</i> at the option of the Noteholder in the following circumstances: (i) a continuing default in the repayment of any amount due on the Notes for more than 14 days, provided that the reason for non-payment is not compliance with any fiscal or other law or regulation or court order, or that there is doubt as to the validity of such law, regulation or order in accordance with independent legal advice from advisers which is acceptable to HSBC Bank plc, acting in its capacity as principal paying agent (the "Principal Paying Agent"); or (ii) the passing of a winding-up order in relation to the Issuer.</p> <p>Payments of Principal: Payments of principal in respect of Notes will in all cases be calculated by reference to the percentage change in value of one or more Preference Shares issued by the Preference Share Issuer in respect of the relevant series of Notes. The terms of each series of Preference Shares will be contained in the Articles of Eukairos Investments Limited and the Preference Share terms and conditions relating to such series, which will be annexed to the Final Terms.</p>

		<p>The redemption price of each class of Preference Shares will be calculated by reference to an index or a basket of indices (the "Underlying"). The Underlying for the Notes is [an index/a basket of indices].</p> <p>Modification and substitution:</p> <p>Modifications to the Conditions may be made without the consent of any Noteholders to cure any ambiguity or manifest error or correct or supplement any Conditions provided that: (i) the modification is not materially prejudicial to the interest of Noteholders; (ii) the modification is of a formal, minor or technical nature or to comply with mandatory provisions of the law of the Issuer's jurisdiction of incorporation; or (iii) the modification corrects inconsistency between the Final Terms and the relevant termsheet relating to the Notes. The Notes permit the substitution of the Issuer with its affiliates without the consent of any Noteholders where the Issuer provides an irrevocable guarantee of the affiliate's obligations.</p> <p>Meetings of Noteholders</p> <p>The Conditions contain provisions for calling meetings of Noteholders to consider matters affecting their interests generally. These provisions permit defined majorities to bind all Noteholders including Noteholders who did not attend and vote at the relevant meeting and Noteholders who voted in a manner contrary to the majority.</p> <p>No guarantee or security:</p> <p>The Notes are the obligations of the Issuer only and are unsecured.</p> <p>Taxation:</p> <p>All payments by the Issuer of any amount in respect of the Notes will be made without deduction of any United Kingdom taxes unless the Issuer is required by law to withhold or deduct any such taxes. Therefore, Noteholders will be liable for and/or subject to any taxes, including withholding tax, stamp duty, stamp duty reserve tax and/or similar transfer taxes, payable in respect of the Notes.</p> <p>Governing Law:</p> <p>English law.</p>
C.9	The rights attaching to the securities, the nominal interest rate, the date from which interest becomes payable and due dates for interest, where the rate is not fixed a description of the underlying on which it is based, maturity date and arrangements for amortisation of the loan including repayment procedures, an indication of yield and the name of the representative of debt security holders:	<p>The Notes will be issued on [] (the "Issue Date") at [] per cent. of their aggregate principal amount (the "Issue Price"). The Notes will not be interest-bearing.</p> <p>Representative of the Noteholders:</p> <p>Not Applicable. There is no representative appointed to act on behalf of the Noteholders.</p>
C.10	Derivative components in interest payment:	Not Applicable. The Notes will not be interest-bearing.
C.11	Listing and trading:	[Application [has been] [will be] made to admit the Notes to the Official List of the United Kingdom Financial Conduct Authority and to trading on the regulated market of the London Stock Exchange plc.] [Not Applicable. The Notes will not be admitted to trading on any regulated market.]
C.15	Description of how the value of the investment is affected by the value of the underlying instrument:	The performance of an Underlying determines the redemption price and final value of a series of Preference Shares issued by Eukairos Investments Limited, a company incorporated in England which is independent of the Issuer and whose business consists of the issuance of Preference Shares.

		<p>The percentage change in the final value of the relevant Preference Share compared to its issue price is then used to calculate the value and return on the Notes.</p> <p>As a result, the potential effect of the value of the Underlying on the return on the Notes means that investors may lose some or all of their investment.</p> <p>For the avoidance of doubt, the Notes are not backed by or secured on the Preference Shares and, accordingly, only a nominal amount of the Preference Shares may be issued by Eukairos Investments Limited regardless of the principal amount of the Notes issued by the Issuer.</p> <p>In this section, for ease of explanation rather than refer to the Notes being linked to the value of the Preference Share which is in turn linked to the Underlying, the Notes (including the return on the Notes) are described as being linked to the Underlying.</p> <p>The redemption amount of the Notes is linked to the performance of the [] ["Index"] [a basket of indices ("Indices") specified below:</p> <table border="1" data-bbox="660 651 1182 835"> <thead> <tr> <th data-bbox="660 651 1182 696">Index</th> </tr> </thead> <tbody> <tr> <td data-bbox="660 696 1182 741"></td> </tr> <tr> <td data-bbox="660 741 1182 786"></td> </tr> <tr> <td data-bbox="660 786 1182 835"></td> </tr> </tbody> </table>	Index

If on an observation date the [Index Performance] [Worst Performing Index Performance] in respect of such observation date is equal to or greater than the Bonus Level, []%.

Such redemption price is used to calculate the final value of such Preference Shares. As a result, the potential effect of the value of the Index or Indices on the return on the Notes means that investors may lose some or all of their investment.</p> <p>The calculations which are required to be made to calculate the Final Redemption Amount and any early redemption amount, will be based on the level of the Index or the level of the worst performing of the Indices comprised in a basket of Indices (the "Index Level") determined by the Calculation Agent being [HSBC Bank plc] [HSBC France]. The Calculation Agent will determine the Index Level by reference to the level of the relevant Index quoted on a particular exchange or quotation system at a valuation time.</p>

Section D – Risks		
D.2	Key risks specific to the issuer:	<p>The Issuer has exposure to counterparties in the eurozone which may be affected by a sovereign or currency crisis: In spite of austerity measures and structural reforms, peripheral eurozone countries continue to exhibit a high ratio of sovereign debt to gross domestic product or short to medium-term maturity concentration of their liabilities and further structural reforms are still needed to contain the threat of the exit of one or more countries from the eurozone. Although the Group's exposure to the peripheral eurozone countries is limited and reduced further in 2013, the Group is still exposed to counterparties in core European countries which could be affected by any sovereign or currency crisis.</p> <p>The Issuer's parent company is subject to regulatory commitments and consent orders: HSBC Holdings has entered into agreements with US and UK government agencies to comply with certain forward-looking obligations with respect to anti-money laundering and sanctions requirements. Failure to comply with the terms of such agreements may have a material adverse effect on the Group.</p> <p>UK and European banking structural reform legislation and proposals could materially adversely affect the Issuer: Major changes to the corporate structure and business activities of the Issuer, including the establishment of a ring-fenced bank for retail banking activities, are expected pursuant to UK and European banking structural reform legislation and proposals. The most likely restructuring will involve separating the Issuer's retail activities from the Issuer.</p> <p>The Issuer is subject to a number of legal and regulatory actions and investigations: The Issuer is subject to a number of legal and regulatory actions and investigations, the outcomes of which are inherently difficult to predict. An unfavourable result in one or more of these could result in the Issuer incurring significant expense, substantial monetary damages, loss of significant assets, other penalties and injunctive relief, potential regulatory restrictions on the Issuer's business and/or a negative effect on the Issuer's reputation.</p> <p>Unfavourable legislative or regulatory developments, or changes in the policy of regulators or governments could materially adversely affect the Issuer: The Issuer's businesses are subject to ongoing regulation and associated regulatory risks, including the effects of changes in the laws, regulations, policies, guidance, voluntary codes of practice and their interpretations in the UK, the EU and the other markets where the Issuer operates. This is particularly so in the current environment, where the Issuer expects government and regulatory intervention in the banking sector to continue to increase for the foreseeable future, for example, there remains continued uncertainty as to the ongoing amount and quality of capital that banks will be required to hold under the EU Capital Requirements Directive and Regulation.</p> <p>The Issuer is subject to the substance and interpretation of tax laws in the jurisdictions in which it and members the Group operate: The Issuer is subject to the substance and interpretation of tax laws in all countries in which it and members of its Group operate, the risk associated with changes in tax law or in the interpretation of tax law, the risk of changes in tax rates and the risk of consequences arising from failure to comply with procedures required by tax authorities.</p> <p>The Issuer's operations are highly dependent on its information technology systems: The reliability and security of the Issuer's information and technology infrastructure and the Issuer's customer databases are crucial to maintaining the service availability of banking applications and processes and to protecting the HSBC brand. Critical systems failure, prolonged loss of service, internet crime or fraud or a material breach of security could lead to financial loss and cause damage to the Issuer's business and brand.</p> <p>The Issuer's operations have inherent reputational risk: Reputational risk may arise from negative public opinion about the actual or perceived manner in which the Issuer conducts its business activities, its financial performance, and actual or perceived practices in banking and the financial services industry generally. Negative public opinion may adversely affect the Issuer's ability to keep and attract customers and, in particular, corporate and retail depositors, which in</p>

		<p>turn could have a material adverse effect on the Issuer.</p> <p>The Issuer has significant exposure to counterparty risk both within the financial sector and to other risk concentrations: Financial institutions are necessarily interdependent because of trading, clearing, counterparty or other relationships, which could affect its funding and its ability to manage the risks of its business.</p> <p>The Issuer is subject to risks associated with market fluctuations: The Issuer's businesses are exposed to changes in, and increased volatility of, interest rates, inflation rates, credit spreads, foreign exchange rates, commodity, equity, bond and property prices and the risk that the Issuer's customers act in a manner inconsistent with its business, pricing and hedging assumptions. It is difficult to predict with any accuracy changes in market conditions, and such changes could have a material adverse effect on the Issuer.</p> <p>Liquidity, or ready access to funds, is essential to the Issuer's business: If the Issuer is unable to raise funds, its liquidity position could be adversely affected and the Issuer might be unable to meet deposit withdrawals or obligations under committed financing facilities and insurance contracts, to fund new loans, investments and businesses or to repay borrowings as they mature.</p>
D.3	<p>Key risks specific to the securities and risk warning to the investor:</p>	<p>Credit risk: The Notes are direct, unsecured and unsubordinated obligations of the Issuer and not of any other person. If the Issuer's financial position were to deteriorate, there could be a risk that the Issuer would not be able to meet its obligations under the Notes (the Issuer's credit risk). If the Issuer becomes insolvent or defaults on its obligations under the Notes, in the worst case scenario, investors in the Notes could lose all of their invested amounts. In addition, the Notes are also subject to the credit risk of the Preference Share Issuer. If the Preference Share Issuer becomes insolvent there could be a risk that the Preference Shares are redeemed worthless and therefore the value of the Notes would become zero as well. In such worst case scenario investors would lose all of their invested amount.</p> <p>The Notes are unsecured obligations: The Notes are not secured over any asset. Therefore, the investor would not be able to enforce security as a method of recouping payments due under the Notes if the Issuer were to become insolvent and cease to be able to pay such amounts.</p> <p>The Notes are not ordinary debt securities: The Notes do not pay interest, and, upon redemption, either the Notes may return less than the amount invested or nothing.</p> <p>No ownership rights: The Notes do not confer any legal or beneficial interest or any voting or dividend rights in the Preference Shares or the securities underlying the Index or Indices.</p> <p>There may be no active trading market or secondary market for liquidity for Notes: Any Series of Notes may not be widely distributed and there may not be an active trading market, nor is there assurance as to the development of an active trading market. If there is no liquid market, investors may not be able to realise their investment in the Notes until maturity of such Notes or may not realise a return that equals or exceeds the purchase price of their Notes.</p> <p>Illegality or changes in tax law may cause the Issuer's obligations under the Notes to be redeemed early: If the Calculation Agent determines the performance of the Issuer's obligations under any Notes shall have become unlawful or impracticable, or if the Issuer determines that it has become liable for, or payments under the Notes have become subject to, any taxes, the Issuer may redeem the Notes and pay a sum determined by reference to the value of the Preference Shares at the time of such redemption. As a result, Noteholders will forgo any future appreciation in the underlying Index or Indices and may suffer a loss of some or all of their investments.</p> <p>Taxation: All payments under the Notes will be made without deduction of United Kingdom taxes unless otherwise required. Investors should therefore be aware that they may be subject to taxes in respect of transactions involving Notes depending, amongst other things, upon the status of the potential purchaser and laws relating to transfer and registration taxes.</p> <p>Capital risks relating to Notes: The Notes are not principal protected and accordingly the repayment of any amount invested in Notes and any return on investment is not guaranteed. As a result the investors' capital can fall below the amount initially invested. Unlike a savings account or similar investment, an investment in the Notes is not covered by the UK Financial Services Compensation Scheme.</p> <p>Certain factors affecting the value and trading price of Notes: Amounts payable under the Notes may be affected by fluctuation in value of the Index or securities underlying an Index, changes in interest rates, time remaining to redemption and dividend rates on the securities underlying an</p>

		<p>Index.</p> <p>Conflicts of Interest may arise between the Issuer or its affiliates and the Noteholders: The Issuer or its affiliates may enter into hedging or other transactions (i) relating an Index or to securities underlying an Index or (ii) with issuers of securities underlying an Index. The Issuer or its affiliates may also publish research or other reports relating to Indices or securities underlying an Index. Any such activities may have a positive or negative effect on the value of Notes relating to such Indices. In addition, the Issuer may assume roles as hedging counterparty or calculation agent under the Notes. In respect of any of these roles the Issuer may have interests that conflict with the interests of Noteholders.</p> <p>Furthermore, HSBC Bank plc or HSBC France is the calculation agent in respect of Notes and also acts as calculation agent in respect of the Preference Shares. As a result of this relationship, potential conflicts of interest may arise for HSBC Bank plc and HSBC France in acting in their respective capacities. HSBC France or HSBC Bank plc may contract with the Preference Share Issuer and/or enter into transactions, including hedging transactions, which relate to the Preference Share Issuer or the Preference Shares. In respect of any of these roles HSBC Bank plc and HSBC France may have interests that conflict with the interests of Noteholders.</p> <p>Calculation Agent's discretion and valuations: Calculation of amounts payable in respect of redemption of the Notes may be made by reference to levels published on exchanges or other quotation systems and, in the absence of such display, at an amount determined by the Calculation Agent at its sole and absolute discretion acting in good faith. The Calculation Agent may be permitted to use its proprietary models to set the terms of adjustments which may be made under the Notes which may be difficult to verify without expertise in valuation models.</p> <p>[Commission and cost of hedging: The Issue Price of the Notes may include the distribution commission or fee charged by Issuer and/or its affiliates and the cost or expected costs of hedging the Issuer's obligations under the Notes (if any). Accordingly, there is a risk that, upon issue the price of Notes in the secondary market would be lower than the original Issue Price of the Notes.]</p> <p>Exchange rate risks: The Issuer will pay amounts in respect of the Notes in the Settlement Currency. Where the Settlement Currency is not the same as the investor's preferred currency, the realisable value of the investment in the investor's preferred currency may be at risk from fluctuations in the exchange rate.</p> <p>Market Disruption Events and Additional Disruption Events: In the case of early closure of the relevant exchange, disruption of such exchange or suspension of trading on such exchange ("Market Disruption Events") or a hedging disruption, a change in applicable laws, an increased cost of hedging ("Additional Disruption Events") or in case of an index cancellation or modification or disruption in the publication of the index (each, an "Index Adjustment Event"), postponement or adjustment of valuations in case of a Market Disruption Event or adjustment of terms or redemption of the Notes in case of an Additional Disruption Event or Index Adjustment Event in respect of such Notes may have an adverse effect on the value of such Notes.</p>
D.6	<p>Key risks specific to the securities and risk warning to investors:</p>	<p>Credit risk: The Notes are direct, unsecured and unsubordinated obligations of the Issuer and not of any other person. If the Issuer's financial position were to deteriorate, there could be a risk that the Issuer would not be able to meet its obligations under the Notes (the Issuer's credit risk). assurance as to the development of an active trading market. If there is no liquid market, investors may not be able to realise their investment in the Notes until maturity of such Notes or may not realise a return that equals or exceeds the purchase price of their Notes.

Illegality or changes in tax law may cause the Issuer's obligations under the Notes to be redeemed early: If the Calculation Agent determines the performance of the Issuer's obligations under any Notes shall have become unlawful or impracticable, or if the Issuer determines that it has become liable for, or payments under the Notes have become subject to, any taxes, the Issuer may redeem the Notes and pay a sum determined by reference to the value of the Preference Shares at the time of such redemption. As a result, Noteholders will forgo any future appreciation in the underlying Index or Indices and may suffer a loss of some or all of their investments.

Taxation: All payments under the Notes will be made without deduction of United Kingdom taxes unless otherwise required. Investors should therefore be aware that they may be subject to taxes in respect of transactions involving Notes depending, amongst other things, upon the status of the potential purchaser and laws relating to transfer and registration taxes.

Capital risks relating to Notes: The Notes are not principal protected and accordingly the repayment of any amount invested in Notes and any return on investment is not guaranteed. As a result the investors' capital can fall below the amount initially invested. Unlike a savings account or similar investment, an investment in the Notes is not covered by the UK Financial Services Compensation Scheme.

Certain factors affecting the value and trading price of Notes: Amounts payable under the Notes may be affected by fluctuation in value of the Index or securities underlying an Index, changes in interest rates, time remaining to redemption and dividend rates on the securities underlying an Index.

Conflicts of Interest may arise between the Issuer or its affiliates and the Noteholders: The Issuer or its affiliates may enter into hedging or other transactions (i) relating an Index or to securities underlying an Index or (ii) with issuers of securities underlying an Index. The Issuer or its affiliates may also publish research or other reports relating to Indices or securities underlying an Index. Any such activities may have a positive or negative effect on the value of Notes relating to such Indices. In addition, the Issuer may assume roles as hedging counterparty or calculation agent under the Notes. In respect of any of these roles the Issuer may have interests that conflict with the interests of Noteholders.

Furthermore, HSBC Bank plc or HSBC France is the calculation agent in respect of Notes and also acts as calculation agent in respect of the Preference Shares. As a result of this relationship, potential conflicts of interest may arise for HSBC Bank plc and HSBC France in acting in their respective capacities. HSBC France or HSBC Bank plc may contract with the Preference Share Issuer and/or enter into transactions, including hedging transactions, which relate to the Preference Share Issuer or the Preference Shares. In respect of any of these roles HSBC Bank plc and HSBC France may have interests that conflict with the interests of Noteholders.

Calculation Agent's discretion and valuations: Calculation of amounts payable in respect of redemption of the Notes may be made by reference to levels published on exchanges or other quotation systems and, in the absence of such display, at an amount determined by the Calculation Agent at its sole and absolute discretion acting in good faith. The Calculation Agent may be permitted to use its proprietary models to set the terms of adjustments which may be made under the Notes which may be difficult to verify without expertise in valuation models.

[Commission and cost of hedging: The Issue Price of the Notes may include the distribution commission or fee charged by Issuer and/or its affiliates and the cost or expected costs of hedging the Issuer's obligations under the Notes (if any). Accordingly, there is a risk that, upon issue the price of Notes in the secondary market would be lower than the original Issue Price of the Notes.]

Exchange rate risks: The Issuer will pay amounts in respect of the Notes in the Settlement Currency. Where the Settlement Currency is not the same as the investor's preferred currency, the realisable value of the investment in the investor's preferred currency may be at risk from fluctuations in the exchange rate.

Market Disruption Events and Additional Disruption Events: In the case of early closure of the relevant exchange, disruption of such exchange or suspension of trading on such exchange ("**Market Disruption Events**") or a hedging disruption, a change in applicable laws, an increased cost of hedging ("**Additional Disruption Events**") or in case of an index cancellation or modification or disruption in the publication of the index (each, an "**Index Adjustment Event**"),

RISK FACTORS

This section provides details of the principal risks associated with the Issuer and the Notes.

*Any investment in the Notes is subject to a number of risks. Prior to investing in the Notes, investors should carefully consider risk factors associated with any investment in the Notes, the business of the Issuer and the industry in which it operates, together with all other information contained in this Base Prospectus, including, in particular the risk factors described below and the risk factors contained in pages 3 to 20 of the registration document of the Issuer dated 28 April 2014 (the "**Registration Document**"), incorporated by reference. The Issuer considers such risk factors to be the principal risk factors that may affect the Issuer's ability to fulfil its obligations under the Notes and/or risk factors that are material for the purposes of assessing the market risk associated with the Notes. Words and expressions defined in the Conditions or elsewhere in this Base Prospectus have the same meanings in this section.*

Investors should note that the risks relating to the Issuer, the industry in which it operates and the Notes summarised in the section of this Base Prospectus headed "Summary" are the risks that the Issuer believes to be those key to an assessment by an investor of whether to consider an investment in the Notes. However, as the risks which the Notes are subject to and which the Issuer faces relate to events and depend on circumstances that may or may not occur in the future, investors should consider not only the information on the key risks summarised in the section of this Base Prospectus headed "Summary" (and set out in more detail below) but also, among other things, the other risks and uncertainties described below.

The following is not an exhaustive list or explanation of all risks which investors may face when making an investment in the Notes and should be used as guidance only. Additional risks and uncertainties relating to the Issuer or the Notes that are not currently known to the Issuer, or that the Issuer currently deems immaterial, may individually or cumulatively also have a material adverse effect on the business, prospects, results of operations and/or financial position of the Issuer or the Notes themselves, and, if any such risk should occur, the price of the Notes may decline and investors could lose all or part of their investment. Investors should consider carefully whether an investment in the Notes is suitable for them in light of the information in this Base Prospectus and their personal circumstances.

Risks relating to the Bank

A description of the risk factors relating to the Issuer that may affect the ability of the Issuer to fulfil its obligations under the Notes are set out in (i) the section entitled "Risk Factors" on pages 3 to 20 of the Registration Document (as defined in the section headed "Incorporation by Reference" below) and (ii) the sections entitled "Principal Risks and Uncertainties" on pages 20 to 24 and "Regulation and Supervision" on pages 79 to 81 of the 2013 Annual Report and Accounts (as defined in the section headed "Incorporation by Reference" below).

Risks relating to the Notes

(1) Risks relating to all issues of Notes

Set out below is a description of the principal risks that should be taken into consideration by investors in Notes.

Credit risk

The Notes are direct, unsecured and unsubordinated obligations of the Issuer and not of any other person. If the Issuer's financial position were to deteriorate, there could be a risk that the Issuer would not be able to meet its obligations under the Notes (the Issuer's credit risk). If the Issuer becomes insolvent or defaults on its obligations under the Notes, in the worst case scenario, investors in the Notes could lose all of their invested amounts.

Investors should be aware that any rating of the Issuer reflects the independent opinion of the relevant rating agency and is not a guarantee of the Issuer's credit quality. A credit rating is not a recommendation to buy, sell or hold securities and may be revised or withdrawn by its assigning rating agency at any time.

The Notes are unsecured obligations

It will be particularly important for the investor to evaluate the Issuer's credit risk when considering an investment in the Notes as the Notes are unsecured. If the Issuer became unable to pay amounts owed to the investor under the Notes, such investor does not have recourse to the securities comprising any underlying index (the "**Index**") or basket of indices ("**Indices**") or any other security/collateral and, in a worst case scenario, may not receive any payments under the Notes.

The Notes are not ordinary debt securities

An investment in the Notes is not an equivalent to an investment in a time deposit. The terms of the Notes differ from those of ordinary debt securities because the Notes do not pay interest and on redemption, depending on the performance of the related Preference Share and the underlying Index or basket of Indices, may return less than the amount invested or nothing.

The repayment of any amount invested in the Notes and any return on investment is variable and not guaranteed. Unlike a savings account or similar investment with a lower return and little or no capital risk, the Notes may potentially have a greater return but there is a greater risk of loss of capital. As a result, the investors' capital can fall below the amount initially invested.

Capital risks relating to Notes

The Notes are not principal protected and accordingly, the repayment of any amount invested in Notes and any return on investment is not guaranteed. As a result, the investors' capital can fall below the amount initially invested in such Notes. Unlike a savings accounts or similar investment an investment in the Notes is not covered by the UK Financial Services Compensation Scheme.

No ownership rights

An investment in Notes relating to an underlying Index or basket of Indices is not the same as an investment in the securities underlying the relevant Index or Indices or and does not provide a Noteholder with any of the rights that a holder of a security underlying an Index may have (such as voting rights and rights to receive dividends).

Performance Risk

On redemption, Notes will be redeemed by payment of an amount determined by reference to the performance of the relevant Preference Shares, which depends on the performance of the index or Indices to which the Preference Shares are linked. If the performance of the Index or Indices is negative, the performance of the Preference Shares will be negative and thus the value of the Notes will be adversely affected. Purchasers of Notes risk losing all or a part of their investment if the value of the Preference Shares does not move in the anticipated direction. **If the value of the Preference Shares becomes zero, the value of the Notes will also become zero.**

Credit Risk of Preference Share Issuer

The value of the Notes is dependent not only on the value of the Preference Share, but also on the creditworthiness of the Preference Share Issuer, which may vary over the term of the Notes. The Preference Share Issuer is not an operating company. Its sole business activity is the issue of redeemable Preference Shares. The Preference Share Issuer does not have any trading assets and does not generate any significant net income. As its funds are limited any misappropriation of funds or other fraudulent action by the Preference Share Issuer or person acting on its behalf would have a significant effect on the value of the Preference Shares and will affect the value of the Notes.

There is no active trading market for the Notes

Any Series of Notes will be new securities which may not be widely distributed and for which there is no active trading market (even where, in the case of any particular Tranche, such Tranche is to be consolidated with and form a single series with a Tranche which is already issued). If the Notes are traded after their initial issuance, they may trade at a discount to their initial offering price, depending upon prevailing interest rates, the market for similar securities, general economic conditions,

commissions paid by the Issuer and the financial condition of the Issuer. Accordingly, the investor is subject to the risk that its investment in the Notes may be difficult or impossible to trade.

It is not possible to predict whether any trading market for the Notes will develop or, if it does, the price at which Notes will trade in the secondary market or whether such market will be liquid or illiquid. If any Notes are not traded on any exchange, pricing information for the Notes may be more difficult to obtain and the liquidity of the Notes may be adversely affected. Also, to the extent that Notes are redeemed or purchased and cancelled, the number of Notes outstanding will decrease, resulting in a lessening of the liquidity of the Notes. A lessening of the liquidity of the Notes may cause, in turn, an increase in the volatility associated with the price of the Notes. An investor in the Notes is subject to the risk, therefore, that to the extent that there is no liquid market in the Notes, an investor may have to wait until redemption of such Notes in order to realise the value of its investment and, as such, an investor should proceed on the assumption that it may have to bear the economic risk of an investment in the Notes until the maturity date of the Notes.

Illegality

The Noteholders are subject to the risk that if the Calculation Agent determines in its sole and absolute discretion acting in good faith that the performance of the Issuer's obligations under any Notes (or the Issuer's or the Issuer's designated affiliates' obligations under any hedging or funding arrangement established in connection therewith) shall have become unlawful or impracticable in whole or in part. Following such an illegality event, the Issuer may redeem Notes against payment of an amount determined by the Calculation Agent which will be the Early Redemption Amount of such Note. Noteholders may suffer a loss of some or all of their investment as a result of such early redemption, and will forgo any future appreciation in the securities underlying the relevant Index.

Certain factors affecting the value and trading price of Notes

The value of Notes prior to maturity is expected to depend on a number of factors: (i) the trading price of the Notes; (ii) the value and volatility of the Index or securities underlying an Index; (iii) the time remaining to expiration or maturity; (iv) any change(s) in interim interest rates and dividend yields; (v) any change(s) in currency exchange rates; (vi) market conditions or liquidity of the securities underlying an Index and (vii) any related transaction costs. As a result of these factors the price at which a Noteholder will be able to sell the Notes prior to maturity may be less than the initial amount invested in the Notes. Each of these factors interrelate in complex ways (for example, one factor may offset an increase in the trading value of the Notes caused by another factor). Investors are subject to the risk that the value of Notes may be adversely affected by one or more of the following factors:

Fluctuations in the level of the Index

Fluctuations in the level of the Index or the securities underlying an Index may affect the value of the Notes, but equally an investor in the Notes is subject to the risk that expectations of fluctuation in level of the Index or securities underlying an Index during the remaining period to the maturity of the Notes or any earlier redemption would adversely affect amounts payable in respect of the Notes. The level of the Index or the securities underlying an Index may vary over time and may increase or decrease by reference to a variety of factors which may include corporate actions, macro-economic factors and speculation.

Interest rates

Rising interest rates may lower the value of the Index, and thus, the value of the Notes. Changes in interest rates may also affect the economy of a country in which securities underlying the Index are traded, and which may adversely affect the value of the Notes.

Volatility of the Index

If the size and frequency of market fluctuations in value of the Index or securities underlying the Index increase or decrease, the trading value of the Notes may be adversely affected.

Time remaining to maturity or expiry

The Notes may trade at a value above that which would be expected based on the level of interest rates and the level of the Index. Any such difference will reflect a "time premium" resulting from expectations

concerning the Index during the period prior to the maturity of the Notes. An investor in the Notes should be aware of the risk that, as the time remaining to the redemption of the Notes decreases, this time premium would likely decrease, which would adversely affect the value of the Notes.

Dividend rates

An investor in the Notes is subject to the risk that changes in dividend or other distribution rates on the securities underlying an Index may adversely affect the trading value of the Notes. If the dividend or other income rates on the securities underlying an Index increase, the trading value of the Notes are likely to decrease as the Notes generally do not reflect such distributions by way of increase in amounts payable on exercise or redemption, or pass-through payments of such distributions.

Potential conflicts of interests

The Issuer or affiliates of the Issuer may from time to time advise: (i) the issuers of or obligors in respect of securities underlying the Index regarding transactions to be entered into by them; (ii) engage in transactions involving securities underlying the Index for their proprietary accounts and for other accounts under their management; (iii) carry out hedging activities related to the Notes by purchasing the securities underlying Indices; or (iv) publish research reports relating to certain Indices or to the issuers of certain securities underlying the Indices. Any such activities may have a negative effect on the value of such Indices and therefore on the value of any Notes to which they relate.

Certain affiliates of the Issuer or the Issuer itself may (i) be the counterparty to the hedge of the Issuer's obligations under an issue of Notes; (ii) be the Calculation Agent responsible for making determinations and calculations in connection with the Notes; or (iii) publish research reports which express opinions or provide recommendations that are inconsistent with purchasing or holding the Notes referencing the Indices. Accordingly, there is a risk that certain conflicts of interest may arise both among the Issuer or these affiliates and between the interests of the Issuer or these affiliates and the interests of Noteholders).

Furthermore, HSBC Bank plc or HSBC France is the calculation agent in respect of Notes and also acts as calculation agent in respect of the Preference Shares. As a result of this relationship, potential conflicts of interest may arise for HSBC Bank plc and HSBC France in acting in their respective capacities. HSBC France or HSBC Bank plc may contract with the Preference Share Issuer and/or enter into transactions, including hedging transactions, which relate to the Preference Share Issuer or the Preference Shares. In respect of any of these roles HSBC Bank plc and HSBC France may have interests that conflict with the interests of Noteholders.

Notes may be redeemed prior to maturity

In the event that the Issuer would be obliged to increase the amounts payable in respect of any Notes due to any withholding or deduction for or on account of United Kingdom taxes, the Issuer may redeem all outstanding Notes in accordance with the Conditions. The amount payable by the Issuer in such circumstances will be the Early Redemption Amount which may be less than the amount invested in the Notes or what would have been received under the Notes if the Notes had not been so redeemed. The Noteholder may not benefit from any appreciation in the value of the securities underlying the relevant Index that may occur following such redemption.

Commission and cost of hedging

The original issue price of the Notes may include the distribution commission or fee charged by the Issuer and/or its affiliates and the cost or expected cost of hedging the Issuer's obligations under the Notes (if any). Accordingly, there is a risk that, upon issue, the price, if any, at which the Issuer or its affiliates be willing to purchase Notes from the investor in the secondary market would be lower than the original issue price. Such fee, commission and cost of hedging may also be deducted from the redemption amount payable upon early redemption of the Notes. In addition, any such prices may differ from values determined by pricing models used by the Issuer or affiliates as a result of such compensation or other transaction costs.

Effect of general economic conditions on the Notes

The market for debt securities is influenced by economic and market conditions, interest rates, currency exchange rates and inflation rates in Europe and other countries and areas. There can be no assurance that

events occurring elsewhere will not cause market volatility or that such volatility will not adversely affect the price of Notes of that economic and market conditions will not have any other adverse effect.

Hedging activities of the Issuer and affiliates

The Issuer or its affiliates may carry out hedging activities related to the Notes, including purchasing securities underlying the Index, but will not be obliged to do so. Certain of the Issuer's affiliates may also purchase and sell the securities underlying the Index on a regular basis as part of their securities businesses. Any of these activities could potentially affect the value of the Index and, accordingly, the value of the Notes.

Effect of interest rates on the Notes

Investors in Notes are exposed to the risk that subsequent changes in interest rates may adversely affect the value of the Notes. Investments in the Notes may involve interest rate risk with respect to the currency of denomination of the Notes. A variety of factors influence interest rates such as macro-economic, governmental, speculative and market sentiment factors. Such fluctuations may have an impact on the value of the Notes.

Calculation Agent's discretion and valuation

Calculation of the amount payable in respect of redemption may be by reference to levels published on exchanges or other quotation systems, or if any such level is not displayed at the relevant time a level determined by the Calculation Agent in its sole and absolute discretion acting in good faith. The Notes may be redeemable prior to their scheduled maturity in certain circumstances at an amount determined by the Calculation Agent which may be less than their nominal amount. Accordingly, an investor in the Notes is subject to the risk that the calculation of payment and other determinations under the Notes are conclusively determined by one party which may be the Issuer itself or its affiliates and the investor cannot object to such calculation or determination.

The Calculation Agent may be permitted to use its proprietary models in setting the terms of an adjustment, and it may be difficult for investors to predict the resulting adjustments in advance. In such case, an investor would be subject to the risk that it would be difficult to verify that adjustments made to payments under the Notes are legitimate and consistent with the terms of an issue of Notes without expertise in applying valuation models.

Exchange rate risks

The Issuer will generally pay amounts in respect of the Notes in the Settlement Currency (as referred to in the relevant Final Terms). As a result thereof there are various potential exchange rate risks that investors in the Notes need to consider.

Investor converting amounts paid in the Settlement Currency into the Investor's Currency

If an investor anticipates that it will need to convert payments made under the Notes from the Settlement Currency into a currency of its choice (the "**Investor's Currency**") (for instance, if other obligations of the investor are payable in the Investor's Currency), then the investor is subject to the risk that the currency conversion rate which it must pay for exchanging the Settlement Currency into the Investor's Currency becomes less attractive and therefore decreases the realisable value of its investment.

An appreciation in the value of the Investor's Currency relative to the Settlement Currency at any time would decrease (i) the value any redemption amount payable to the investor and (ii) the market value of the Notes, in each case where converted into the Investor's Currency at that time. As a result, the amount that the investors receive in respect of the Notes, as converted, may be less than expected or zero.

Material risks involved in currency conversion

The material risks involved in the currency conversion include the risk that exchange rates may change significantly (including changes due to appreciation of the Investor's Currency relative to the Settlement Currency). It is impossible to predict whether the value of one such currency relative to another will rise or fall during the term of the Notes.

Market Disruption Events

Investors in the Notes are subject to the risk that a Market Disruption Event will occur in relation to an Index. A Market Disruption Event may occur in respect of Notes if, as determined by the Calculation Agent: a related stock exchange closes early without notice; limitations are imposed on trading; trading is suspended; or market participants are prevented from obtaining valuations or effecting transactions.

If the Calculation Agent determines that a Market Disruption Event has occurred, any consequential postponement of or adjustment of valuation provided in any Notes may have an adverse effect on the value of such Notes. The closing level of the Index may be calculated by reference to the remaining securities comprised in the relevant Index.

Additional Disruption Events

Investors intending to purchase Notes should note that Additional Disruption Events may occur in relation to the relevant Notes in certain circumstances described in the Conditions. If any Additional Disruption Event occurs in relation to the relevant Notes, the Issuer may, at its sole and absolute discretion, declare a valuation date and designate an early redemption date in respect of the Notes and the Noteholders will receive an early redemption amount based on the determinations made by the Calculation Agent.

The following Additional Disruption Events may be specified to be applicable in the relevant Final Terms:

- "Change in Law" may occur where the Issuer determines it will or has become illegal for it to hedge its obligations under the Notes or where the Issuer or its designated affiliates would incur materially increased costs in performing its obligations under the Notes, each due to a change in law;
- "Insolvency Filing" may occur if the Preference Share Issuer institutes or has instituted against it by a regulator, supervisor or any similar official, or it consents to a proceeding seeking a judgment of insolvency or bankruptcy or any other relief under any bankruptcy or insolvency law or other similar law affecting creditors' rights, or a petition is presented for its winding up or liquidation by it or such regulator, supervisor or similar official or it consents to such petition.

Upon the occurrence of such an early redemption prior to the originally scheduled Maturity Date of the relevant Notes, Noteholders may suffer a loss of some or of all of their investment and will forgo any future appreciation in the relevant Index that may occur following such redemption.

Certain considerations regarding hedging

Investors intending to purchase Notes to hedge against the market risk associated with investing in the securities underlying an Index should recognise that there is a risk that the value of the Notes may not correlate with the value of the Index to which they relate. This is, in part, due to fluctuating supply and demand for the Notes. In addition, the formula for redemption or exercise may be subject to a cap. For these reasons, among others, it may not be possible to purchase or liquidate assets in a portfolio at the prices used to calculate the value of any relevant Index or the securities underlying an Index. Accordingly, investors who invest in Notes as a means of hedging may be exposed to risks arising out of such differences in value.

Value of Indices and Baskets

The value of an index or a basket of indices to which any Notes relate may be affected by the number and type of Indices or securities underlying the Index or Indices included in such basket. Investors in the Notes are subject to the risk that other risks relating to the Indices which adversely affect the value of the Notes will be exacerbated due to the number of and/or type of securities underlying an Index or the Indices in a basket.

If a particular Index or a basket of Indices relate to companies which are all in or connected with a particular industry, the value of such Index or basket will be affected to a greater extent by the economic, financial and other factors affecting that industry than if the securities underlying an Index or Indices

included in the basket relate to various industries that are affected by different economic, financial or other factors or are affected by such factors in different ways.

Payments may be delayed or reduced upon the occurrence of an event of default

If the Calculation Agent determines that the Notes have become immediately due and payable following an Event of Default (as defined in the Conditions) with respect to the Notes, investors may not be entitled to the entire principal amount of the Notes, but only to that portion of the principal amount specified in the relevant Final Terms as the Early Redemption Amount.

Successor Index, Index Modification, Index Calculation

In certain circumstances, certain adjustments may be made to the Index, which may result in a loss to the Noteholders. The Issuer considers the following to be material risks of adjustment:

- (i) the replacement of the relevant Index by a successor index if the relevant Index is not calculated or announced by the relevant index sponsor or is replaced by a successor index;
- (ii) the modification of the relevant Index by the relevant index sponsor which may have a material effect on the Notes; and
- (iii) the cancellation of the relevant Index by the relevant index sponsor which may result in either (A) the termination of the relevant Preference Shares (and therefore of the Notes) or (B) the continuation of the Preference Shares, in which case relevant level of the Index will be determined by the Calculation Agent in its sole and absolute discretion.

Notes with multiple denominations

Where the Notes are specified as having a denomination consisting of a minimum denomination plus a higher integral multiple of another smaller amount, it is possible that such Notes may be traded in the clearing systems in amounts in excess of such minimum denomination that are not integral multiples of the minimum denomination. In such a case, should Definitive Notes be required to be issued, Noteholders who, as result of trading such amounts, hold a principal amount that is less than the minimum denomination may not receive a Definitive Note in respect of such holdings and would need to purchase a principal amount of Notes such that their holding amounts to, or is an integral multiple of, the minimum denomination.

Change of law

The Conditions are based on English law and United Kingdom tax law in effect as at the date of this Base Prospectus. There is a risk that the interpretation and/or effect of the Conditions may be subject to change in such a manner as to adversely affect the contractual rights of Noteholders.

Meetings of Noteholders

The Conditions contain provisions for calling meetings of Noteholders to consider matters affecting their interests generally. These provisions permit defined majorities to bind all Noteholders including Noteholders who did not attend and vote at the relevant meeting and Noteholders who voted in a manner contrary to the majority, so investors in the Notes are subject to the risk that the Conditions may be modified without their consent.

Modification, waiver and substitution

Investors in the Notes are subject to the risk that the Conditions may be made without the consent of any Noteholders where the Issuer determines that:

- the modification is not materially prejudicial to the interests of the Noteholders as a whole;
- where the modification of the Notes is of a formal, minor or technical nature or is made to correct a manifest error or comply with mandatory provisions of the law of the Issuer's jurisdiction of incorporation; or

- where the Conditions are inconsistent with the termsheet relating to the relevant Notes.

There is a commercial risk that the obligations of the Noteholder will be owed by a principal debtor other than the Issuer. The Notes permit the substitution of an affiliate of the Issuer as principal debtor in respect of the Notes, **provided that** the Issuer provides a guarantee.

Clearing systems

Notes may be held by or on behalf of Euroclear and Clearstream, Luxembourg. While the Notes are represented by a global Note held by or on behalf of Clearstream, Luxembourg, investors will be able to trade their interests only through Euroclear and/or Clearstream, Luxembourg.

In addition, Notes may be issued as Uncertificated Registered Notes, in which case CREST will maintain records of the interests in such Notes and investors will be able to trade their interests only through CREST. Investors in the Notes will have to rely on procedures of such clearing systems for transfer, payment and communication with the Issuer to receive payments under the Notes. Investors are therefore subject to the risk of those settlement procedures failing such that payments due under the Notes may be delayed and that book entries or entries in the register are entered incorrectly which may lead to difficulties with an investor asserting ownership of its Notes.

The Issuer has no responsibility or liability for the records relating to, or payments made in respect of, interests in the global Notes. Holders of interests in the global Notes will not have a direct right to vote in respect of the relevant Notes. Instead, such holders will be permitted to act only to the extent that they are enabled by Euroclear and/or Clearstream, Luxembourg or CREST to appoint appropriate proxies.

Pricing

Amounts payable in respect of the Notes will be calculated in accordance with the Conditions (an investor-friendly description of how the Notes work is set out in "*Description of the Notes*").

As part of the valuation mechanism, Preference Shares may specify a time and an exchange or other venue in which the level of the Indices are to be observed. Depending on how the level of the Index is calculated, the level of such Index may fluctuate as securities underlying the Index do throughout the trading day, and they may change rapidly. As a result, investors should note that return on any Preference Shares and therefore Notes which reference such Preference Shares may be particularly sensitive to the choice of valuation times and valuation methods. The "price discovery" mechanism used to ascertain the value of the underlying at any given time on exchanges or other venues may not be uniform throughout the trading day. This may affect the valuation of Preference Shares and therefore the Notes which reference such Preference Shares. For example, exchanges may conduct auctions to set an opening or closing price, and trading characteristics and participants in after-hours trading sessions may differ from those during regular hour sessions.

European Resolution Regime

A directive providing for the establishment of a European wide framework for the recovery and resolution of credit institutions and investment firms (the "**Recovery and Resolution Directive**" or "**RRD**"), was published in final form in the Official Journal of the European Union on 12 June 2014 and accordingly enters into force on 2 July 2014. Certain provisions of the RRD also apply to holding companies of credit institutions and investment firms. The stated aim of the RRD is to provide supervisory authorities, including the relevant UK resolution authority, with common tools and powers to address banking crises pre-emptively in order to safeguard financial stability and minimise taxpayers' exposure to losses.

The powers to be granted to supervisory authorities under the RRD include (but are not limited to) a "write down and conversion of capital instruments" power and a "bail-in" power.

The write down and conversion of capital instruments power may be used where the relevant UK resolution authority has determined that the institution concerned has reached the point of non-viability. It may be used before resolution has commenced, and must be used before the bail-in power is used. Any write down effected using this power must reflect the insolvency priority of the written down claims – thus common equity must be written off in full before subordinated debt is affected. Where the write down and conversion of capital instruments power is used, the write down is permanent and investors receive no compensation (save that common equity tier 1 instruments may be required to be issued to

holders of written down instruments). The write down and conversion of capital instruments power is not subject to the "no creditor worse off" safeguard.

The bail-in power will give the relevant UK resolution authority the power to cancel all or a portion of the principal amount of, or interest on, certain unsecured liabilities (which could include the Notes) of a failing financial institution or its holding company, and/or to convert certain debt claims (which could be amounts payable under the Notes) into another security, including ordinary shares of the surviving entity, if any. The RRD provides that the relevant UK resolution authority will apply the "bail-in" power in accordance with a specified preference order which differs from the ordinary insolvency order. In particular, the RRD requires the relevant UK resolution authority to write down or convert debts in the following order: (i) additional tier 1, (ii) tier 2, (iii) other subordinated claims and (iv) eligible senior claims.

The RRD contemplates that the majority of measures (including the write-down and conversion of capital instruments power) will be implemented with effect from 1 January 2015, with the bail-in power expected to be introduced by 1 January 2016. However, as discussed under "Banking Act" below, the anticipated entry into force of the provisions of the Banking Reform Act (as detailed below) will accelerate the implementation timeframe for many of the resolution powers in the United Kingdom.

As well as a "write down and conversion of capital instruments" power and a "bail-in" power, the powers to be granted to the relevant UK resolution authority under the RRD include the power to (i) direct the sale of the relevant financial institution or the whole or part of its business on commercial terms without requiring the consent of the shareholders or complying with the procedural requirements that would otherwise apply, (ii) transfer all or part of the business of the relevant financial institution to a "bridge institution" (an entity created for such purpose that is wholly or partially in public control) and (iii) separate assets by transferring impaired or problem assets to a bridge institution or one or more asset management vehicles to allow them to be managed with a view to maximising their value through eventual sale or orderly wind down. In addition, the RRD proposes, among the broader powers to be granted to the relevant UK resolution authority, to provide powers to the UK resolution authority to amend the maturity date and/or any interest payment date of debt instruments or other eligible liabilities of the relevant financial institution and/or impose a temporary suspension of payments and/or discontinuing the listing and admission to trading of debt instruments.

There remains significant uncertainty regarding the ultimate nature and scope of these powers and, once implemented, how they would (if exercised) affect the Issuer and its securities (including the Notes). Accordingly, it is not yet possible to assess the full impact of the RRD on the Issuer and on holders of its securities (including the Notes), and there can be no assurance that the manner in which it is implemented or the taking of any actions by the relevant UK resolution authority currently contemplated in the RRD would not materially adversely affect the rights of holders of the Notes, the market value of an investment in the Notes and/or the Issuer's ability to satisfy its obligations under the Notes.

The powers which the RRD requires to be conferred on the UK resolution authorities (including especially the write down and conversion of capital instruments power and the bail-in power) could, therefore, materially adversely affect the market value of all of the securities then in issue by the Issuer (including the Notes), and could lead to the holders of those securities (including the Notes) losing some or all of their investment. Moreover, trading behaviour, including prices and volatility, may be affected by the use or any suggestion of the use of these powers. As a result, in such circumstances, the Notes are not necessarily expected to follow the trading behaviour associated with other types of securities.

Banking Act

The Issuer could be made subject to the special resolution regime under the Banking Act 2009 (the "**Banking Act**") which gives wide powers in respect of UK banks and their parent and other group companies to HM Treasury, the Bank of England, the Prudential Regulation Authority and the FCA in circumstances where a UK bank has encountered or is likely to encounter financial difficulties. These powers include powers to: (a) transfer all or some of the securities issued by a UK bank or its parent, or all or some of the property, rights and liabilities of a UK bank or its parent (which would include Notes issued by the Issuer under the Programme), to a commercial purchaser or, in the case of securities, to HM Treasury or an HM Treasury nominee, or, in the case of property, rights or liabilities, to an entity owned by the Bank of England; (b) override any default provisions, contracts, or other agreements, including provisions that would otherwise allow a party to terminate a contract or accelerate the payment of an

obligation; (c) commence certain new insolvency procedures in relation to a UK bank; and (d) override, vary or impose contractual obligations, for reasonable consideration, between a UK bank or its parent and its group undertakings (including undertakings which have ceased to be members of the group), in order to enable any transferee or successor bank of the UK bank to operate effectively. The Banking Act also gives power to HM Treasury to make further amendments to the law for the purpose of enabling it to use the special resolution regime powers effectively, potentially with retrospective effect.

The above powers could potentially be used in such a way as to result in Notes absorbing losses in a manner similar to that described above in the discussion of the "bail-in" power under the RRD (see "*European Resolution Regime*" above).

In December 2013, the Financial Services (Banking Reform) Act (the "**Banking Reform Act**") received Royal Assent. The Banking Reform Act includes amendments to the Banking Act to add a bail-in option to the powers of the UK resolution authority. However, as of the date of this Base Prospectus, parts of the Banking Reform Act, including those relating to the bail-in option, have not yet come into force.

The bail-in option is introduced as an additional power available to the Bank of England, as the relevant UK resolution authority, acting through its special unit as part of the special resolution regime under the Banking Act, to enable it to recapitalise an institution which is in resolution by allocating losses to its shareholders and unsecured creditors in a manner that ought to respect the hierarchy of claims in an insolvency of a relevant financial institution, in accordance with the overriding public principle that shareholders and creditors of financial institutions should not receive less favourable treatment than they would have done in an insolvency. The bail-in option includes the power to cancel a liability or modify the terms of contracts for the purposes of reducing or deferring the liabilities of the bank under resolution and the power to convert a liability from one form to another. The conditions for use of the bail-in option are, in summary, that the PRA determines that (i) the bank is failing or likely to fail and (ii) it is not reasonably likely that any other action can be taken to avoid the bank's failure and the UK resolution authority determines that it is in the public interest to exercise the bail-in option.

The bail-in option under the Banking Act would potentially apply to any debt and derivative securities issued by a bank under resolution or its parent company, regardless of when they were issued. The UK Government has expressed confidence that the bail-in option under the Banking Act can be introduced without the risk of having to adapt to a radically different regime when the RRD is implemented. However, it is possible that the RRD, when adopted, may nevertheless require amendments to the bail-in option implemented under the Banking Act.

Although the exercise of the powers under the bail-in option is subject to certain listed statutory pre-conditions, there remains uncertainty regarding the specific factors (including, but not limited to, factors outside the control of the Issuer or not directly related to the Issuer) which the UK resolution authority would consider in deciding whether to exercise such powers with respect to the Issuer and its securities. Moreover, as the UK resolution authority has considerable discretion in relation to how and when it may exercise such powers, holders of the Issuer's securities may not be able to refer to publicly available criteria in order to anticipate a potential exercise of any such powers and consequently its potential effect on the Issuer and its securities.

(2) Risks relating to taxation of the Notes

UK stamp duty and stamp duty reserve tax in relation to Notes

Transactions involving Notes may be subject to United Kingdom stamp duty or stamp duty reserve tax, and are subject to the risk that instruments effecting or evidencing transfers of Notes and executed in the United Kingdom may not be admissible in evidence in civil proceedings unless duly stamped. An instrument of transfer executed outside the United Kingdom is also subject to the risk that it may be inadmissible in United Kingdom civil proceedings unless duly stamped after it has been first received in the United Kingdom.

U.S. – FATCA Withholding

In certain circumstances payments made on or with respect to the Notes after 31 December 2016 may be subject to U.S. withholding tax under Sections 1471 through 1474 of the U.S. Internal Revenue Code of 1986, as amended (commonly referred to as "**FATCA**").

Whilst the Notes are in global form and held within Euroclear Bank S.A./N.V. or Clearstream Banking, société anonyme (together, the "ICSDs"), in all but the most remote circumstances, it is not expected that FATCA will affect the amount of any payment received by the ICSDs. However, FATCA may affect payments made to custodians or intermediaries in the subsequent payment chain leading to the ultimate investor if any such custodian or intermediary generally is unable to receive payments free of FATCA withholding. It also may affect payment to any ultimate investor that is a financial institution that is not entitled to receive payments free of withholding under FATCA, or an ultimate investor that fails to provide its broker (or other custodian or intermediary from which it receives payment) with any information, forms, other documentation or consents that may be necessary for the payments to be made free of FATCA withholding. Investors should choose the custodians or intermediaries with care (to ensure each is compliant with FATCA or other laws or agreements related to FATCA), and provide each custodian or intermediary with any information, forms, other documentation or consents that may be necessary for such custodian or intermediary to make a payment free of FATCA withholding. Investors should consult their own tax adviser to obtain a more detailed explanation of FATCA and how FATCA may affect them. The Issuer's obligations under the Notes are discharged once it has paid the common depositary for the ICSDs (as registered holder of the Notes through its nominee) and the Issuer has therefore no responsibility for any amount thereafter transmitted through hands of the ICSDs and custodians or intermediaries.

U.S. withholding tax may apply to Notes linked Underlyings that are securities issued by U.S. issuers

Where Notes are linked to Preference Shares which are linked to Underlyings that are securities issued by U.S. issuers, certain payments on the Notes could be subject to U.S. withholding tax (up to 30 per cent., depending on the applicable treaty). In addition, as currently proposed, U.S. withholding tax could be imposed on non-U.S. Noteholders to the extent U.S.-source dividends are paid on the Underlyings, even if no corresponding payment is made on the Notes to the non-U.S. Noteholders.

If U.S. withholding tax is required on Notes linked to Preference Shares which are linked to Underlyings that are securities issued by U.S. issuers, the Issuer will not be required to pay any additional amounts with respect to the withheld amounts. See "*Taxation— Other Taxation Matters — Withholding on Dividend Equivalent Payments*" below.

French FTT

Pursuant to Article 235 ter ZD of the French tax code, acquisitions of equity securities within the meaning of Article L 212-1 A of the French Monetary and Financial Code or similar instruments within the meaning of Article L 211-41 of the French Monetary and Financial Code that provide or could provide access to capital or voting rights, admitted to trading on a French, European or foreign regulated market within the meaning of Articles L 421-4, L 422-1 or L 423-1 of the French Monetary and Financial Code and issued by a company having its head office in France and a market capitalization in excess of €1 billion ("**French Qualifying Securities**"), are subject to the French financial transactions tax ("**French FTT**"), levied at the rate of 0.2%. The French FTT also applies to acquisitions of securities issued by an issuer whose head office is not in France when these securities represent French Qualifying Securities ("**Synthetic French Qualifying Securities**").

The French FTT could also be triggered if the Issuer and/or its affiliates choose to purchase the securities underlying an Index to hedge their exposure under the Notes if such securities underlying an Index are French Qualifying Securities or Synthetic French Qualifying Securities and assuming none of the French FTT exemptions provided for by Article 235 ter ZD of the French tax code applies to the relevant acquisition. Therefore, Noteholders are subject to the risk that payments under the Notes may be adversely affected by the French FTT, where applicable, as this tax may be deducted from the Final Redemption Amount payable to Noteholders.

Italian financial transactions tax may apply to Notes linked to Indices in respect of which the underlying securities that are securities issued by Italian issuers

A financial transaction tax has been introduced under Italian law ("**Italian FTT**"), pursuant to Article 1, Law 24 December 2012, no. 228, as implemented by Ministerial Decree issued on 21 February 2013. The Italian FTT applies, *inter alia*, on cash settled derivatives ("**Italian FTT on Derivatives**") executed or modified on or after 1 September 2013, both traded or not on Qualifying Markets (as defined below) and unlisted, whose underlying are mainly shares or participated financial instruments issued by Italian

resident companies or value of shares issued by Italian resident companies, including warrants and certificates. The condition is met when more than 50% of the equity portion of the underlying is represented by the market value of shares or participated financial instruments issued by Italian resident companies.

Accordingly, there is a risk that the Italian FTT on Derivatives could be triggered where the issuer of a Reference Asset relating to the Notes is an Italian resident or the issuer of a security underlying a Reference Index is an Italian resident. The residence and nationality of the Issuer and any Noteholder and the place of execution of the Note would be irrelevant as the application of the Italian FTT on Derivatives is exclusively dependent on the residence of the issuer of the underlying Reference Asset or securities underlying a Reference Index.

The Italian FTT on Derivatives applies at a fixed amount, due from both parties equally, as follows:

- Index-linked Notes where a security underlying the Reference Index is issued by an Italian-resident company: from €0.01875 to €15, depending on the notional value of the contract; and
- Notes linked to a basket of Reference Assets or Reference Indices: from € 0.25 to € 200 depending on the notional value of the contract.

The above amounts are reduced by 80% where the transaction is implemented in a regulated market or in a multilateral trading facility. An investor in the Notes is subject to the risk that payments under the Notes will be adversely affected by this Italian transaction tax as these charges will be deducted from the Final Redemption Amount.

The issuance of financial instruments qualifying as transferable securities (*valori mobiliari*) according to article (1)(1-ter)(c) or article (1)(1-ter)(d) of Legislative Decree no. 58 of 24 February 1998, is exempt from Italian FTT on Derivatives. The Italian Ministry of finance clarified that, following the issuance, if a number of intermediate transfers (e.g. intermediate transfers between financial intermediaries) are required before the initial placement of the notes to the ultimate investors, said intermediate transfers are exempt from Italian FTT. However, Italian FTT will apply to the transactions following the initial placement. In the case of cash-settled transferable securities, the cash settlement of such transferable securities is a transaction outside the scope of Italian FTT on Derivatives.

Besides the Italian FTT on Derivatives, the Italian FTT also applies to transfers of certain shares and participating financial instruments issued by Italian resident companies and other instruments representing the latter ("**Italian FTT on Shares**") both traded or not on Qualifying Markets (as defined below) and unlisted.

Italian FTT on Shares applies on transactions negotiated and settled as from 1 March 2013. Accordingly, there is a risk that the Italian FTT on Shares could be triggered where the Issuer and/or its Affiliates purchase Reference Assets or securities underlying Reference Indices to hedge their exposure under the Notes if such securities are shares and participating financial instruments issued by Italian resident companies and other instruments representing the latter and are not exempted from the Italian FTT requirement ("**in-scope securities**"). The residence and nationality of the parties to the transaction and the place of execution of the transaction would be irrelevant as the application of the Italian FTT on Shares is exclusively dependent on the residence of the issuer of the in-scope securities.

The Italian FTT on Shares is to be levied at the following rates, which would be due from the Issuer and/or its Affiliates on acquisition of the shares:

- 0.1% of the acquisition price on transfers transacted on a Qualifying Market (as defined below); and
- 0.2% of the acquisition price otherwise.

For the purpose of the application of the lower rate, "Qualifying Markets" are deemed to be:

- (i) regulated markets or multilateral trading facilities pursuant to Directive 1004/39/EC of the European Parliament and Council of 21 April 2004; and

- (ii) markets recognised by the Italian regulator Consob, established in an EU Member State or a state which allows for an adequate exchange of information with Italy.

Italian FTT on Derivatives and Italian FTT on Shares are required to be levied and subsequently paid to the Italian tax authority by financial intermediaries (e.g. banks, trusts and investment companies) or other subjects involved in the execution of the transaction. Where more intermediaries are involved in the execution of the transaction, Italian FTT on Derivatives and Italian FTT on Shares is payable by the subject who receives the order of execution directly from the ultimate purchaser or counterparty. Intermediaries and other non Italian resident subjects having no permanent establishment in Italy which are liable to collect and pay Italian FTT on Derivatives and Italian FTT on Shares to the Italian tax authority may appoint an Italian tax representative for the purposes of collecting and paying Italian FTT on Derivatives and Italian FTT on Shares. If no intermediary or other subjects are involved in the transaction, Italian FTT on Derivatives and Italian FTT on Shares is directly paid by the ultimate purchaser or counterparty.

An investor in the Notes is subject to the risk that payments under the Notes will be adversely affected by the Italian FTT as these charges may be deducted from the Final Redemption Amount.

DESCRIPTION OF THE NOTES

This section provides details of how an investment in the Notes works and how payments under the Notes are calculated, including a number of worked examples, and explains that the Notes are linked to the performance of Preference Shares, which are linked to the performance of an underlying index or basket of indices, in accordance with the type of Preference Shares issued.

(1) **Introduction**

The Notes are investments which are linked to certain preference shares ("**Preference Shares**") which are themselves linked to the performance of one of the following:

- an equities index (an "**Index**"); or
- a basket of Indices.

The relevant underlying Index or basket of Indices is referred to herein as the "**Underlying**".

The Final Terms relating to each issue of Notes will give further details of the Preference Shares to which the Notes are linked, including details of the relevant Indices, and details of how payments in respect of the Notes will be calculated.

(2) **Amounts due under the Notes**

Unless they have been redeemed early, Notes will be redeemed on their stated maturity date. (The amount payable on such date is referred to as the "**Final Redemption Amount**".)

However, if the Notes are Autocallable Redemption Notes, then they may also be redeemed prior to their stated maturity date in the circumstances described below depending on the performance of the relevant Underlying (the amounts payable to investors on such dates are referred to as "**Early Redemption Amounts**").

No interest is payable on any of the Notes.

The redemption amount of each Note will in all cases reflect the percentage change in the value of the Preference Share to which it is linked from the issue date of the relevant Note until its redemption.

The Preference Shares will be issued by Eukairos Investments Limited, a company which is independent from the Issuer. Each issue of Notes will be linked to a different Preference Share which will have a maturity matching the relevant Notes and be linked to a particular Underlying.

The change in the value of a Preference Share (and accordingly the redemption amount of the related Notes) will depend on the performance of the relevant Underlying and on the particular terms and conditions ("**Preference Share Terms and Conditions**") that apply to such Preference Share. These determine the amount payable upon redemption of the Preference Share. There are different types of Preference Shares with particular Preference Share Terms and Conditions for the following types of Note:

- Booster Redemption Notes
- Airbag Redemption Notes
- Bonus Redemption Notes
- Autocallable Redemption Notes

Details of the amounts which will be payable depending on which Preference Share Terms and Conditions apply are set out below, together with some worked examples illustrating how calculations are made in practice.

The Notes are designed so that the return on the Notes matches in percentage terms the change in value of the Preference Share to which they are linked according to the relevant Preference Share Terms and Conditions. However, the Notes are not secured on or backed by the Preference Shares and the Issuer is not dependent on receiving any amounts on the Preference Shares in order to make payments on the Notes.

(3) *Ascertaining the value and performance of the Underlying*

(a) *The value of the Indices*

The calculations which are required to be made to calculate the amount payable on redemption of the relevant Preference Shares will be based on the level of the Index or basket of Indices (the "**Final Index Level**") determined by the Calculation Agent. The Calculation Agent will determine the Final Index Level by reference to the level of the relevant Index quoted on a particular exchange or quotation system at a valuation time.

The value of the Final Index Level will be determined by reference to either a single date or several dates (each such date, a "**Valuation Date**"), as set out in the relevant Preference Share Terms and Conditions.

The Preference Share Terms and Conditions for each issue will provide that the Calculation Agent adopts one of the following valuation methods. To determine the Final Index Level of the relevant Index, the Calculation Agent may:

- o obtain the level of the Index on a given date; or
- o obtain the arithmetic average of the levels over the relevant Valuation Dates.

(b) *The performance of the Index or basket of Indices*

The calculations also rely on a determination by the Calculation Agent of the appreciation or depreciation in the performance of the Index or basket of Indices over time. It does so by comparing the Final Index Level with an initial index level or levels specified in the relevant Preference Share Terms and Conditions to ascertain the "**Index Performance**" of the relevant Index. The Index Performance is a percentage representing any appreciation or depreciation in the relevant Index or the worst performing of the Indices comprised in a basket of Indices in comparison to the initial level of the relevant Index or the worst performing Index comprised in a basket of Indices. In relation to a basket of Indices, the Calculation Agent will take the Index Performance of the worst performing Index (the "**Worst Performing Index Performance**") in the relevant basket in order to make the necessary calculations.

(c) *The performance of the Index or basket of Indices in relation to Autocallable Redemption Notes*

The calculations for the Early Redemption Amount in the case of Autocallable Redemption Notes also rely on a determination by the Calculation Agent of the appreciation or depreciation in the performance of the relevant Index or basket of Indices over time. It does so by comparing the level of the relevant Index or the worst performing of the Indices comprised in a basket of Indices on specified valuation dates (each, an "**Auto-Call Valuation Date**") with an initial index level or levels specified in the relevant Preference Share Terms and Conditions to ascertain the Index Performance of the relevant Index or the Worst Performing Index Performance, as applicable. The Index Performance or Worst Performing Index Performance on an Auto-Call Valuation Date is a percentage representing any appreciation or depreciation in the relevant Index or worst performing Index on an Auto-Call Valuation Date in comparison to the initial level of the relevant Index or the worst performing Index comprised in a basket of Indices.

(4) *Explanations of the Amounts payable under different types of Notes*

Set out below are explanations of how the payments of the various types of Notes work, together with worked examples.

As described above, the redemption amount of each Note will in all cases reflect the percentage change in the value of the Preference Share(s) to which it relates. However, for ease of explanation, the following overviews and worked examples do not set out the Preference Share Terms and Conditions and instead set out only the amounts payable in respect of the Notes. In addition, in this section, for ease of

explanation, rather than refer to the Notes being linked to the value of the Preference Share which is in turn linked to the Underlying, the Notes (including the return on the Notes) are described as being linked to the Underlying. The overviews and worked examples also assume that each Note is linked to a Preference Share which is redeemed in full.

The calculation of the amount payable on redemption of each Note depends on the method specified for determining the Final Redemption Amount in the relevant Preference Share Terms and Conditions annexed to the relevant Final Terms. An investor in the Notes should refer to the corresponding paragraphs below to understand how the redemption amount is calculated for any particular Note.

The relevant Final Terms will specify the Notes as being one of the following:

- Booster Redemption Notes
- Airbag Redemption Notes
- Bonus Redemption Notes
- Autocallable Redemption Notes

(a) *Booster Redemption Notes*

If the Notes are specified as being "**Booster Redemption Notes**" in the relevant Final Terms, then the Final Redemption Amount will be calculated as follows.

- If the Index Performance or the Worst Performing Index Performance (as applicable) is equal to or greater than a level specified in the relevant Preference Share Terms and Conditions as the "**Barrier Level**", then an investor will be entitled on redemption to:
 - (i) the principal amount of the Note; plus
 - (ii) if there has been an appreciation of the relevant Index or each of the Indices in the basket of Indices, an increase in the principal amount of the Note equal to the amount of such increase multiplied by a factor, being a percentage in excess of 100% (the "**Participation**") and subject to a maximum of a "**Cap**".

This is calculated by multiplying the principal amount of the Note by the following formula:

$$100\% + \text{MIN} [\text{Cap}; \text{Participation} \times \text{MAX} [0, (\text{Index Performance} - 100\%)]]$$

OR

$$100\% + \text{MIN} [\text{Cap}; \text{Participation} \times \text{MAX} [0, (\text{Worst Performing Index Performance} - 100%)]]$$

- If the Index Performance or the Worst Performing Index Performance (as applicable) is lower than the Barrier Level, then an investor will be entitled to an amount on redemption equal to the principal amount of each Note multiplied by the Index Performance or the Worst Performing Index Performance (as applicable).

Booster Redemption Notes worked example:

The hypothetical scenario

For the purposes of this example, it is assumed that:

- An investor purchases a Note denominated in GBP linked to the FTSE 100 Index (the "**Index**") which specifies Booster Redemption.
- The principal amount of the Note is GBP 100.
- The initial index level set out in the relevant Preference Share Terms and Conditions against which the performance of the Index will be measured is 3,400.

- The Final Index Level of the Index determined by the Calculation Agent on the specified date at the specified time on the specified exchange is 3,450 using the "Final Index Level" calculation described in paragraph 3(a) above and as specified in the relevant Preference Share Terms and Conditions.
- The Participation is 120%.
- The Cap is 25%.
- The Barrier Level is 50%.

(1) ***What is the Index Performance?***

Using the description referred to in paragraph 3(b) above, the Final Index Level (3,450) is divided by the initial index level (3,400) which is equal to 1.0147 and, when expressed as a percentage, is 101.47%. Therefore, the Index Performance is 101.47%.

(2) ***Is the Index Performance equal to or greater than the Barrier Level?***

In this case, the Index Performance (101.47%) is greater than the Barrier Level (50%). Therefore, the following formula will apply for the purposes of determining the redemption amount:

$$100\% + \text{MIN} [\text{Cap}, \text{Participation} \times \text{MAX} [0, (\text{Index Performance} - 100\%)]]$$

(3) ***Calculating the formula***

When working out the following formula, the first step is to determine the variables in the formula described using "MIN" and "MAX", which mean the lower of and the greater of, respectively.

$$100\% + \text{MIN} [\text{Cap}, \text{Participation} \times \text{MAX} [0, (\text{Index Performance} - 100\%)]]$$

On the basis of the assumptions provided above, the variables can be determined as follows:

- The Index Performance less 100% (101.47% less 100% is equal to 1.47%), and so 1.47% is used in the second part of the formula. Multiplying 1.47 % by the Participation (120%), we obtain 1.764%
- The Cap (25%) is greater than 1.764%. Therefore 1.764% is used to add to the first part of the formula.

Once these variables are re-inserted into the formula, the calculation is 100% + 1.764%, which is equal to 101.764%.

(4) ***Multiplying the result of the formula by the principal amount of the Note***

The Final Redemption Amount per Note will be:

GBP	100	x	(The principal amount of the Note)
	<u>101.764%</u>		(The percentage ascertained from the formula)
GBP	101.764		The Final Redemption Amount per Note

(b) ***Airbag Redemption Notes***

If the Notes are specified as being "Airbag Redemption Notes" in the relevant Final Terms, then the Final Redemption Amount will be calculated as follows.

- If the Index Performance or the Worst Performing Index Performance (as applicable) is equal to or greater than a level specified in the relevant Preference Share Terms and Conditions as the "**Barrier Level**", then an investor will be entitled on redemption to:

- (i) the principal amount of the Note; *plus*

- (ii) if there has been an appreciation of the relevant Index or each of the Indices in the basket of Indices, an increase in the principal amount of the Note equal to the amount of such increase multiplied by a factor, being a percentage in excess of 100% (the "**Participation**").

This is calculated by multiplying the principal amount of the Note by the following formula:

$$100\% + \text{Participation} \times \text{MAX} [0, (\text{Index Performance} - 100\%)]$$

OR

$$100\% + \text{Participation} \times \text{MAX} [0, (\text{Worst Performing Index Performance} - 100\%)]$$

- If the Index Performance or the Worst Performing Index Performance (as applicable) is lower than the Barrier Level, then an investor will be entitled to an amount on redemption equal to the principal amount of the Note multiplied by the Index Performance or the Worst Performing Index Performance (as applicable).

Airbag Redemption Notes worked example:

The hypothetical scenario

For the purposes of this example, it is assumed that:

- An investor purchases a Note denominated in GBP linked to a basket of indices comprised of the FTSE 100 Index AND the S&P 500 Index and which specifies Airbag Redemption.
- The principal amount of the Note is GBP 50.
- The initial index level of the FTSE 100 Index set out in the relevant Preference Share Terms and Conditions is 5,700 and the initial index level of the S&P 500 Index set out in the relevant Preference Share Terms and Conditions is 1,500.
- 2 Valuation Dates are specified in the relevant Preference Share Terms and Conditions.
- The levels of the FTSE 100 Index and of the S&P 500 Index determined by the Calculation Agent on each of the Valuation Dates, at the specified times are:
 - (a) 5,300 and 5,700 for the FTSE 100 Index; and
 - (b) 1,600 and 1,800 for the S&P 500 Index.
- The Participation is 120%
- The Barrier Level is 100%

(1) ***What is the Final Index Level in respect of each of the Indices?***

The levels of the FTSE 100 Index and of the S&P 500 Index determined by the Calculation Agent on each of the Valuation Dates, at the specified times are: (a) 5,300 and 5,700 for the FTSE 100 Index; and (b) 1,600 and 1,800 for the S&P 500 Index. Using the "Final Index Level" calculation described in paragraph 3(a) above and as specified in the relevant Preference Share Terms and Conditions, in order to calculate the Final Index Level in respect of each of the Indices, the Calculation Agent will obtain the arithmetic average of the levels of the relevant Index on each of the Valuation Dates.

Therefore, the Final Index Level in respect of the FTSE 100 Index is 5500 (being (5300 + 5700) divided by 2) and the Final Index Level in respect of the S&P 500 Index is 1700 (being (1600 + 1800) divided by 2).

(2) What is the Worst Performing Index Performance?

Using the description referred to in paragraph 3(b) above:

(a) The Final Index Level of the FTSE 100 Index (5,500) divided by the initial index level (5,700) is equal to 0.9649, which, when expressed as a percentage, is 96.49%. Therefore, the Index Performance of the FTSE 100 Index is 96.49%.

(b) The Final Index Level of the S&P 500 Index (1,700) divided by the initial index level (1,500) is equal to 1.1333, which, when expressed as a percentage, is 113.33%. Therefore, the Index Performance of S&P 500 Index is 113.33%.

Comparing the Index Performance of the FTSE 100 Index and the S&P 500 Index, the FTSE 100 Index is the worst performing Index and so the Worst Performing Index Performance is 96.49%.

(3) Is the Worst Performing Index Performance equal to or greater than the Barrier Level?

In this case, the Worst Performing Index Performance (96.49%) is lower than the Barrier Level (100%).

Therefore, an investor will be entitled to an amount on redemption equal to the principal amount of the Note multiplied by the Worst Performing Index Performance.

(4) Final Redemption Amount

The Final Redemption Amount per Note will be:

GBP	50	x	(The principal amount of the Note)
	<u>96.49%</u>		(Worst Performing Index Performance)
GBP	48.24		The Final Redemption Amount per Note

(c) Bonus Redemption Notes

If the Notes are specified as being "**Bonus Redemption Notes**" in the relevant Final Terms, then the Final Redemption Amount will be calculated as follows.

- If the Index Performance or the Worst Performing Index Performance (as applicable) is equal to or greater than a level specified in the relevant Preference Share Terms and Conditions as the "**Barrier Level**", then an investor will be entitled on redemption to:
 - (i) the principal amount of the Note; *plus*
 - (ii) a fixed percentage increase in the principal amount of the Note (the "**Bonus Amount**"), which expresses an enhanced return following an appreciation or depreciation of the relevant Index or the worst performing Index comprised in a basket of Indices and which is calculated as the sum of each of the percentages (each an "**Bonus Amount Percentage**") determined in accordance with the following provisions:
 - (a) If on an predetermined observation date as specified in the Preference Share Terms and Conditions (an "**Observation Date**") the Index Performance or the Worst Performing Index Performance (as applicable) is equal to or greater than the Bonus Level, a predetermined percentage above 0% as specified in the relevant Preference Share Terms and Conditions; and
 - (b) if on an Observation Date the Index Performance or Worst Performing Index Performance (as applicable) is less than the Bonus Level, 0%.

This is calculated by multiplying the principal amount of the Note by the following formula:

$$100\% + \text{Bonus Amount}$$

- If the Index Performance or the Worst Performing Index Performance (as applicable) is lower than the Barrier Level, then an investor will be entitled to an amount on redemption equal to the principal amount of the Note multiplied by the Index Performance or the Worst Performing Index Performance (as applicable) *plus* the Bonus Amount.

Bonus Redemption worked example:

The hypothetical scenario

For the purposes of this example, it is assumed that:

- An investor purchases a Note denominated in GBP linked to the S&P 500 Index which specifies Bonus Redemption.
- The principal amount of the Note is GBP 1,000.
- The initial index level set out in the relevant Preference Share Terms and Conditions against which the performance of the relevant Index will be measured is 1,000.
- The Final Index Level of the Index determined by the Calculation Agent on the specified date, at the specified time on the specified exchange is 1,500 using the "Final Index Level" calculation described in paragraph 3(a) above and as specified in the relevant Preference Share Terms and Conditions.
- The Barrier Level is 60%.
- Bonus Level is 80%.
- There are three Observation Dates on which the level of the Index is determined by the Calculation Agent at the specified time on the specified exchange using the "Final Index Level" calculation described in paragraph 3(a) above and as specified in the relevant Preference Share Terms and Conditions. The Final Index Levels are 1,600, 900 and 800.
- The Bonus Amount Percentage is 3% or 0%.

(1) ***What is the Index Performance?***

Using the description referred to in paragraph 3(b) above, the Final Index Level (1500) is divided by the initial index level (1000) which is equal to 1.50 and, when expressed as a percentage, is 150%. Therefore, the Index Performance is 150%.

(2) ***Is the Index Performance equal to or greater than the Barrier Level?***

In this case, the Index Performance (150%) is greater than the Barrier Level (60%). Therefore, the following formula will apply for the purposes of determining the redemption amount:

$$100\% + \text{Bonus Amount}$$

(3) ***Calculating the Bonus Amount***

In order to determine the Bonus Amount in respect of each of the three Observation Dates the Bonus Amount Percentages need to be determined. Using the description referred to in paragraph 4(c) above, each of the levels of the Index on the Observation Dates (being 600, 900 and 800) are divided by the initial index level (1,000) in order to determine the Index Performance in respect of each Observation Date. The Index Performances so determined are 0.60, 0.90 and 0.80 respectively and, when expressed as a percentage 60%, 90% and 80%.

The next step is to compare these percentages against the Bonus Level which is 80%. As 60% is less than

80%, therefore the Bonus Amount Percentage in respect of the first Observation Date is 0%. In respect of the two following Observation Dates the Bonus Amount Percentage is 3% as both 90% and 80% are equal to or greater than 80%.

The Bonus Amount is determined by calculating the sum of each of the Bonus Amount Percentages which is 0% plus 3% plus 3%. Therefore, the Bonus Amount is 6%.

Once the Bonus Amount (6%) is inserted into the formula for the purposes of determining the redemption amount, the calculation is 100% + 6%, which is equal to 106%.

(4) **Final Redemption Amount**

GBP	1,000	x	(The principal amount of the Note)
	<u>106%</u>		(The percentage ascertained from the formula)
GBP	1,060		The Final Redemption Amount per Note

(d) **Autocallable Redemption Notes**

If the Notes are specified as being "**Autocallable Redemption Notes**" in the relevant Final Terms, and the Notes have not been redeemed prior to the maturity date, then the Final Redemption Amount will be calculated as follows:

- If the Index Performance or the Worst Performing Index Performance (as applicable) is equal to or greater than a fixed percentage specified in the relevant Preference Share Terms and Conditions as the "**Final Trigger Level**", then an investor will be entitled on redemption to an amount equal to the principal amount of the Note multiplied by a percentage specified in the Preference Share Terms and Conditions;
- If the Index Performance or the Worst Performing Index Performance (as applicable) is less than the Final Trigger Level, and:
 - (i) the Final Index Level of the Index or each Index in the basket of Indices (as applicable) is equal to or greater than the level specified in the relevant Preference Share Terms and Conditions as the "**Barrier Level**", then an investor will be entitled on redemption to an amount equal to the principal amount of the Note multiplied by 100%; or
 - (ii) the Final Index Level of the Index or the any Index in the basket of Indices (as applicable) is less than the level specified in the relevant Preference Share Terms and Conditions as the Barrier Level, then an investor will be entitled on redemption to an amount equal to the principal amount of the Note multiplied by Index Performance or the Worst Performing Index Performance (as applicable).

Autocallable Final Redemption worked example:

The hypothetical scenario

For the purposes of this example, it is assumed that:

- An investor purchases a Note denominated in GBP linked to the FTSE 100 Index which specifies Autocallable Redemption.
- The principal amount of the Note is GBP 1,000.
- The Note has a 5 year term and has not been redeemed prior to its stated maturity date.
- The initial index level set out in the relevant Preference Share Terms and Conditions against which the performance of the Index will be measured is 4,500.
- The Final Index Level of the Index determined by the Calculation Agent on the specified time on the specified exchange is 4,800 using the "Final Index Level" calculation described in paragraph

3(a) above and as specified in the relevant Preference Share Terms and Conditions.

- The Barrier Level is 100%.
- The Final Trigger Level is 85%.
- 150% is the percentage specified in the relevant Preference Share Terms and Conditions as the percentage applicable in respect of determining the Final Redemption Amount in the event the Index Performance is greater than or equal to the Final Trigger Level.

(1) ***What is the Index Performance?***

Using the description referred to in paragraph 3(b) above, the Final Index Level (4,800) is divided by the initial index level (4,500) which is equal to 1.0666 and, when expressed as a percentage, is 106.66%. Therefore, the Index Performance is 106.66%.

(2) ***Is the Index Performance equal to or greater than the Final Trigger Level?***

In this case, the Index Performance (106.66%) is greater than the Final Trigger Level (85%). Therefore, an investor will be entitled on redemption to an amount equal to the principal amount of the Note multiplied by 150% (being the percentage specified in the relevant Preference Share Terms and Conditions as the percentage applicable in respect of determining the Final Redemption Amount in the event the Index Performance is greater than or equal to the Final Trigger Level).

(3) ***Final Redemption Amount***

The Final Redemption Amount per Note will be GBP 1,000 (being the principal amount of the Note) multiplied by 150% which is equal to **GBP 1,500**.

(5) ***Early Redemption Amount***

If the Notes are specified as being "**Autocallable Redemption Notes**" in the relevant Final Terms, the following will apply.

- If on a predetermined valuation date (which is specified in the Preference Share Terms and Conditions as an "**Auto-Call Valuation Date**"), the Index Performance or the Worst Performing Index Performance (as applicable), is equal to or greater than a percentage applicable in respect of the relevant Auto-Call Valuation Date specified in the relevant Preference Share Terms and Conditions (the "**Auto-Call Trigger Level**"), the Note will be redeemed in whole for an amount equal to the principal amount of the Note multiplied by a fixed percentage above 100% specified in the relevant Preference Share Terms and Conditions as the "**Auto-Call Trigger Rate**".
- If on an Auto-Call Valuation Date, the Index Performance or the Worst Performing Index Performance (as applicable), is less than the Auto-Call Trigger Level specified in the relevant Preference Share Terms and Conditions in respect of such Auto-Call Valuation Date, the Note will not be redeemed at that time but will continue until the next Auto-Call Valuation Date (if any).

Autocallable Early Redemption worked example:

The hypothetical scenario

For the purposes of this example, it is assumed that:

- An investor purchases a Note denominated in GBP linked to a basket of indices comprised of the FTSE 100 Index and the S&P 500 Index which specifies Early Redemption for Autocallable Notes as being applicable in the relevant Preference Share Terms and Conditions.
- The principal amount of the Note is GBP 500.
- The initial index level of the FTSE 100 Index set out in the relevant Preference Share Terms and

Conditions is 2,700 and the initial index level of the S&P 500 Index set out in the relevant Preference Share Terms and Conditions is 3,300.

- For the first Auto-Call Valuation Date, the Final Index Level determined by the Calculation Agent on the specified date, at the specified times on the specified exchanges is 3,000 in respect of the FTSE 100 Index and 3,500 in respect of the S&P 500 Index using the "Final Index Level" calculation described in paragraph 3(a) above and as specified in the relevant Preference Share Terms and Conditions.
- The Auto-Call Trigger Level set out in the relevant Preference Share Terms and Conditions is 95%.
- The Auto-Call Trigger Rate specified in respect of the first Auto-Call Valuation Date is 108%.

(1) ***What is the Worst Performing Index Performance?***

Using the description referred to in paragraph 3(b) above:

(a) The Final Index Level of the FTSE 100 Index (3,000) divided by the initial index level (2,700) is equal to 1.11, which, when expressed as a percentage, is 111%. Therefore, the Index Performance of the FTSE 100 Index is 111%.

(b) The Final Index Level of the S&P 500 Index (3,500) divided by the initial index level (3,300) is equal to 1.06, which, when expressed as a percentage, is 106%. Therefore, the Index Performance of S&P 500 Index is 106%.

Comparing the Index Performance of the FTSE 100 Index and the S&P 500 Index, the S&P 500 Index is the worst performing Index and so the Worst Performing Index Performance is 106%.

(2) ***Is the Worst Performing Index Performance equal or greater than the Auto-Call Trigger Level?***

In this case, the Worst Performing Index Performance (106%) is greater than the Auto-Call Trigger Level (95%). Therefore, the Note will be redeemed for an amount equal to the principal amount of the Note multiplied by the relevant Auto-Call Trigger Rate.

(3) ***Calculating the Early Redemption Amount***

The Early Redemption Amount per Note will be:

GBP	500	x	(The principal amount of the Note)
	108%		(The relevant Auto-Call Trigger Rate)
GBP	540		The Early Redemption Amount per Note

Please note: The worked examples provided above are produced for illustrative purposes only. The analysis is based on simplifying assumptions and hypothetical figures, and does not reflect a complete analysis of all possible gain and loss scenarios that may arise under any actual investment in the Notes. No representation or warranty is made by the Issuer or any of its affiliates that any scenario shown above can be duplicated under any actual investment in the Notes. Actual results may vary from the results shown above, and variations may be material. The mark-to-market value of the Notes can fluctuate either upward or downward due to changes in prevailing market conditions. Accordingly, if an investment in the Notes is unwound, repurchased or otherwise redeemed whether at or prior to its stated maturity, investors in such Notes may receive less than the purchase price of the Notes and therefore sustain loss which in a worst case scenario may be equal to their invested amount.

In such circumstances the Issuer will pay to each Noteholder the Early Redemption Amount. Payment will be made in such manner as shall be notified to the Noteholders in accordance with Condition 11 (*Notices*).

(g) ***Redemption Amounts***

5. **Taxation**

All payments by the Issuer in respect of the Notes will be made without withholding or deduction for or on account of any taxes, duties, assessments or governmental charges of whatever nature, present or future, as are imposed or levied by or on behalf of the United Kingdom unless the Issuer is required by law to withhold or deduct any such taxes, duties, assessments or governmental charges.

In the event that the Issuer is so required by law to withhold or deduct, it will pay such additional amounts as may be necessary in order that the net amounts received by the Noteholders after such withholding or deduction shall equal the respective amounts which would have been receivable in respect of the Notes in the absence of such withholding or deduction, except that no such additional amounts shall be payable with respect to any Note:

- (a) to, or to a third party on behalf of, a Holder of a Note who is liable to such taxes, duties, assessments or governmental charges in respect of such Note by reason of it having some connection with the United Kingdom or any other relevant jurisdiction, other than the mere holding of such Note;
- (b) unless it is proved, in the case of Bearer Notes, to the satisfaction of the Principal Paying Agent or the Paying Agent to whom the same is presented, or, in the case of Registered Notes, to the satisfaction of the Registrar, that the Holder is unable to avoid such withholding or deduction by satisfying any statutory requirement or by making a declaration of non-residence or other similar claim for exemption to the relevant tax authorities or by notifying (and/or presenting evidence of such notification to) any tax authorities of such payment or by presenting the relevant Note at the specified office of another Paying Agent;
- (c) more than 30 days after the Relevant Date (defined below) except, in the case of Bearer Notes, to the extent that the Holder thereof would have been entitled to such additional amounts on presenting the same for payment on the last day of such period of 30 days;
- (d) in the case of Registered Notes, unless it is proved to the satisfaction of the Registrar that the Holder, immediately upon becoming the Holder, (i) was eligible for the benefits of a tax treaty with the United Kingdom or any other relevant jurisdiction that provides for a complete exemption from withholding taxes on payments under the Notes, or (ii) was otherwise entitled to a complete exemption from withholding taxes on payments under the Notes;
- (e) where such withholding or deduction is imposed on a payment to an individual and is required to be made pursuant to European Council Directive 2003/48/EC or any Directive implementing the conclusions of the ECOFIN Council meeting of 26-27 November 2000 on the taxation of savings income or any law implementing or complying with, or introduced in order to conform to, such Directive; or
- (f) to, or to a third party on behalf of, a Holder who is not the sole beneficial owner of the Note, or a portion of such Note, or that is a fiduciary or partnership, but only to the extent that a beneficiary or settlor with respect to the fiduciary, a beneficial owner or member of the partnership would not have been entitled to the payment of an additional amount had the beneficiary, settlor, beneficial owner or member received directly its beneficial or distributive share of the payment.

As used herein, the "**Relevant Date**" means the date on which such payment first becomes due but, in the case of Bearer Notes, if the full amount of the money payable has not been received by the Principal Paying Agent or the Registrar, as the case may be, on or prior to such due date, it means the date on which, the full amount of such money having been so received, notice to that

effect shall have been duly given to the relevant Holders in accordance with Condition 11 (*Notices*).

If the Issuer becomes resident for tax purposes in any taxing jurisdiction other than the United Kingdom, references in this Condition 5 (*Taxation*) to the United Kingdom shall be construed as references to the United Kingdom and/or such other jurisdiction.

- (iv) any premium and any other amounts which may be payable under or in respect of the relevant Notes.

Notwithstanding any other provision in these Conditions, the Issuer shall be permitted to withhold or deduct any amounts required by the rules of U.S. Internal Revenue Code of 1986, as amended, Sections 1471 through 1474 (or any amended or successor provisions), pursuant to any inter-governmental agreement, or implementing legislation adopted by another jurisdiction in connection with these provisions, or pursuant to any agreement with the U.S. Internal Revenue Service ("**FATCA withholding**"). The Issuer will have no obligation to pay additional amounts or otherwise indemnify a holder for any FATCA withholding deducted or withheld by the Issuer, a Paying Agent or any other party as a result of any person (other than an agent of the Issuer) not being entitled to receive payments free of FATCA withholding.

6. **Payments**

(a) ***Bearer Notes***

Payments of principal in respect of Bearer Notes will (subject as provided below) be made against presentation and (save in the case of partial payment) surrender of the relevant Note. No payments on Bearer Notes will be made by mail to an address in the United States or by transfer to an account maintained by the Holder in the United States.

If the due date for payment of any amount due in respect of any Bearer Note is not both a Relevant Financial Centre Day and, if such Bearer Note is a Definitive Note, a local banking day, then the Holder thereof will not be entitled to payment thereof until the next day which is such a day and no further payment shall be due in respect of such postponed payment unless there is a subsequent failure to pay in accordance with these Conditions.

(b) ***Registered Notes***

Payment of the amount due on final redemption in respect of Registered Notes will be made against presentation and, save in the case of partial payment of any such amount, surrender of the relevant certificate at the specified office of the Registrar or of the Transfer Agent. If the due date for payment of the Final Redemption Amount or any other redemption amount, as the case may be, of any Registered Note is not both a Relevant Financial Centre Day and, if such Registered Note is not in global form, a local banking day, then the Holder thereof will not be entitled to payment thereof until the next day which is such a day and no further payment shall be due in respect of such postponed payment unless there is a subsequent failure to pay in accordance with these Conditions.

Payment of amounts (whether principal or otherwise) due (other than on final redemption) in respect of Registered Notes will be paid to the Holder thereof (or, in the case of joint Holders, the first-named) as appearing in the Register at the close of business (local time in the place of the specified office of the Registrar) on the fifteenth day prior to the due date for such payment (the "**Record Date**").

Payment will be made in the currency in which such amount is due either by cheque posted to the Noteholder's registered address (or, in the case of joint Holders, the first-named) not later than the relevant due date for payment unless prior to the relevant Record Date the Holder thereof (or, in the case of joint Holders, the first-named) has applied to the Registrar or to the Transfer Agent and the Registrar or, as the case may be, the Transfer Agent has acknowledged such application for payment to be made to a designated account denominated in the relevant Settlement Currency, in each case as specified in Condition 6(c) (*Payments – Uncertificated Registered Notes*).

(c) ***Uncertificated Registered Notes***

The Issuer shall pay or cause to be paid when due payments of principal in respect of Uncertificated Registered Notes to the relevant Noteholder's cash memorandum account (as shown in the records of the Operator), such payment to be made in accordance with the rules of the Operator. Each of the persons shown in the Operator register of corporate securities as holder of a particular principal amount of Uncertificated Registered Notes must look solely to the settlement bank or institution at which its cash memorandum account is held for its share of each such payment so made by or on behalf of the Issuer.

(d) ***General Provisions***

The following provisions apply to both Bearer Notes and Registered Notes (and do not apply to Uncertificated Registered Notes). Payments of amounts due (whether principal or otherwise) in respect of Notes will be made in the relevant Settlement Currency either by cheque or, at the option of the payee, by transfer to an account in the relevant Settlement Currency specified by the payee other than, for payments in respect of Bearer Notes, any such account in the United States.

Payments and deliveries will be subject in all cases to any fiscal or other laws and regulations applicable thereto in the place of payment, but without prejudice to the provisions of Condition 5 (*Taxation*).

Without prejudice to the generality of the foregoing, the Issuer reserves the right to require any person receiving payment of principal to provide a Paying Agent with such certification or information as may be required to enable the Issuer or any parent or holding company of the Issuer or any subsidiary of any such parent or holding company to comply with the requirements of the U.S. Federal Income Tax laws or such other laws as the Issuer or any such parent or holding company or subsidiary thereof may be required to comply with.

Any amount payable with respect to a Note shall be rounded to the nearest applicable sub-unit of the currency in which such amount is payable (one half of any such sub-unit being rounded upwards).

7. **Redenomination**

General

Where redenomination is specified in the relevant Final Terms as being applicable, and in respect of Notes denominated in a National Currency Unit, the Issuer may, without the consent of the Noteholders, upon giving at least 30 days' prior notice to the Noteholders in accordance with Condition 11 (*Notices*), designate a Redenomination Date.

With effect from the Redenomination Date:

- (i) each Note shall (unless already so provided by mandatory provisions of applicable law) be deemed to be redenominated into such amount of euro in the denomination of euro 0.01 with a principal amount for each Note equal to the principal amount of that Note in the Settlement Currency, converted into euro at the rate for the conversion of the relevant Settlement Currency into euro established by the Council of the European Union pursuant to the Treaty (including compliance with rules relating to rounding in accordance with EC regulations); **provided, however, that** if the Issuer determines, with the agreement of the Principal Paying Agent, then market practice in respect of the

redenomination into euro 0.01 of internationally offered securities is different from that specified above, such provisions shall be deemed to be amended so as to comply with such market practice and the Issuer shall promptly notify the Noteholders, each listing authority, stock exchange and/or quotation system (if any) by which the Notes have then been admitted to listing, trading and/or quotation and the Paying Agents of such deemed amendments;

- (ii) if Notes are in definitive form:
 - (A) the payment obligations contained in all Notes denominated in the Settlement Currency will become void on the Euro Exchange Date but all other obligations of the Issuer thereunder (including the obligation to exchange such Notes in accordance with this Condition 7 (*Redenomination*)) shall remain in full force and effect; and
 - (B) new Notes denominated in euro will be issued in exchange for Notes denominated in the relevant Settlement Currency in such manner as the Principal Paying Agent may specify and as shall be notified to the Noteholders in the Euro Exchange Notice;
- (iii) all payments in respect of the Notes (other than, unless the Redenomination Date is on or after such date as the relevant Settlement Currency ceases to be a sub-division of the euro, payments of interest in respect of period commencing before the Redenomination Date) will be made solely in euro, as though references in the Notes to the Settlement Currency were to euro. Such payments will be made in euro by credit or transfer to a euro account (or any other account to which euro may be credited or transferred) maintained by the payee with a bank in the principal financial centre of any member state of the European Union; and
- (iv) such other changes will be made to the Conditions as the Issuer may decide, with the prior approval of the Principal Paying Agent, to conform such Notes to conventions then applicable to Notes denominated in euro. Any such other changes will not take effect until after it has been notified to the Noteholders in accordance with Condition 11 (*Notices*).

Neither the Issuer nor the Principal Paying Agent will be liable to any Noteholder or other person for any commissions, costs, losses or expenses in relation to or resulting from the credit or transfer of euro or any currency conversion or rounding effected in connection therewith.

8. **Events of Default**

If any one or more of the following events (each, an "**Event of Default**") shall occur and be continuing in relation to a Series of Notes:

- (a) there is a default for more than 14 days in the repayment of any principal due on the Notes of such Series or any of them, **provided that** it shall not be such a default to withhold or refuse any such payment (1) in order to comply with any fiscal or other law or regulation or with the order of any court of competent jurisdiction, in each case applicable to such payment or (2) in cases of doubt as to the validity or applicability of any such law, regulation or order, in accordance with advice given at any time during the said period of 14 days by independent legal advisers acceptable to the Principal Paying Agent as to such validity or applicability; or
- (b) an order is made or an effective resolution is passed for the winding-up of the Issuer in England (otherwise than in connection with a scheme of reconstruction or amalgamation the terms of which shall previously have been approved in writing by an Extraordinary Resolution of the Holders of the relevant Series of Notes),

then any Noteholder may, by written notice to the Issuer, effective upon the date of receipt thereof by the Issuer (such date, the "**Early Redemption Date**"), declare the Note held by the Holder to be forthwith due and payable whereupon the same shall become forthwith due and

payable at the Early Redemption Amount without presentment, demand, protest or other notice of any kind.

9. **Prescription**

Notes will become void unless presented for payment within a period of 10 years from the Relevant Date (as defined in Condition 5 (*Taxation*)) in respect thereof. Any monies paid by the Issuer to the Principal Paying Agent for the payment of the principal in respect of any Notes and remaining unclaimed when such Notes become void will then revert to the Issuer and all liability of the Principal Paying Agent with respect thereto will thereupon cease.

10. **Replacement, Exchange and Transfer**

Should any Note be lost, stolen, mutilated, defaced or destroyed, it may be replaced at the specified office (in the case of a Bearer Note) of the Issue Agent or (in the case of Registered Notes) of the Registrar or of the Transfer Agent upon payment by the claimant of such costs and expenses as may be incurred in connection therewith and on such terms as to evidence and indemnity as the Issuer may reasonably require. Mutilated or defaced Notes must be surrendered before replacements will be issued.

Upon the terms and subject to the conditions set out in the Issuing and Paying Agency Agreement and the relevant Final Terms, a Registered Note may be exchanged for a Registered Note or Notes of equal aggregate principal amount in such different authorised denominations as may be requested by the Noteholder by surrender of such Registered Note at the specified office of the Registrar or of the Transfer Agent, together with a written request for the exchange.

Upon the terms and subject to the conditions set out in the Issuing and Paying Agency Agreement, a Registered Note, in definitive form, may be transferred in whole or in part only (**provided that** such part is, or is an appropriate multiple of, the minimum denomination set out in the Final Terms) by the Holder or Holders surrendering the Registered Note for registration of transfer at the specified office of the Registrar or the Transfer Agent, duly endorsed by, or accompanied by a written instrument to transfer in form satisfactory to the Issuer and the Registrar or the Transfer Agent, duly executed by the Holder or Holders thereof or his or their attorney duly authorised in writing. A new Registered Note will be issued to the transferee and, in the case of a transfer of part only of a Registered Note, a new Registered Note in respect of the balance not transferred will be issued to the transferor.

If so set out in the relevant Final Terms, the Holder of Bearer Notes may exchange the same for the same aggregate principal amount of Registered Notes upon the terms and subject to the conditions set forth in the Issuing and Paying Agency Agreement. In order to exchange a Bearer Note for a Registered Note, the Holder thereof shall surrender such Bearer Note at the specified office outside the United States of the Principal Paying Agent or of the Registrar or the Transfer Agent, together with a written request for the exchange.

Each new Registered Note to be issued upon the transfer of a Registered Note or the exchange of a Bearer Note for a Registered Note will, within three Relevant Banking Days of the transfer date or, as the case may be, the exchange date be available for delivery at the specified office of the Registrar or the Transfer Agent, or, at the option of the Holder requesting such exchange or transfer be mailed (by uninsured post at the risk of the Holder(s) entitled thereto) to such address(es) as may be specified by such Holder.

The costs and expenses of effecting any exchange or registration of transfer pursuant to the foregoing provisions, except for the expenses of delivery by other than regular mail or insurance charges that may be imposed in relation hereto, shall be borne by the Issuer.

The Registrar or the Transfer Agent, as the case may be, shall not be required to register the transfer or exchange of Registered Notes for a period of 15 days preceding the due date for any payment in respect of such Notes.

11. **Notices**

(a) ***Notices to Noteholders***

All notices to the Holders of Notes will be valid: (i) if published, in the case of Bearer Notes, in one leading daily newspaper with circulation in London (which is expected to be the *Financial Times* or, if such publication is not practicable, in a leading English language daily newspaper having general circulation in Europe); (ii) in the case of Registered Notes, if mailed to their registered addresses (as advised by the Registrar) or to that of the first named of them in the case of joint Holders; **provided that**, in each case, in the case of Notes admitted to listing, trading and/or quotation by any listing authority, stock exchange and/or quotation system the rules of such listing authority, stock exchange and/or quotation system by which the Notes have then been admitted to listing, trading and/or quotation have been complied with; and (iii) in the case of Uncertificated Registered Notes, if sent by first class mail or (if posted to an address overseas) by airmail to the holders at their respective addresses appearing in the Record and will be deemed to have been given on the fourth day after mailing and, in addition, for so long as any Uncertificated Registered Notes are listed by or on a competent authority or stock exchange and the rules of that competent authority or stock exchange so require, such notice will be published in a daily newspaper of general circulation in the places or places required by that competent authority or stock exchange. Any such notice shall be deemed to have been given on the date of such publication or delivery or, if published more than once, on the date of the first such publication (or, if required to be published in more than one newspaper, on the first date on which publication shall have been made in all the required newspapers).

If in the determination of the Calculation Agent a Preference Share Early Redemption Event, an Extraordinary Event or an Additional Disruption Event occurs and the Issuer elects to terminate the Notes, the Issuer will give notice to Noteholders in accordance with this Condition 11 (*Notices*).

(b) ***Notices from Noteholders***

Notices given by any Noteholder shall be in writing and given by lodging the same, together with relevant Note or Notes (if applicable), with the Principal Paying Agent or other Paying Agent or with the Registrar (as the case may be) at its specified office.

- (c) All calculations and determinations made by the Calculation Agent pursuant to the Conditions for the purposes of the Notes shall be made in good faith.

13. **Meetings of Noteholders, Modification and Substitution**

- (a) ***Meetings of Noteholders***

The Master Note Issuance Agreement contains provisions for convening meetings of the Holders of the Notes of any Series to consider any matter affecting their interests, including the sanctioning by Extraordinary Resolution (as defined in the Master Note Issuance Agreement) of a modification of the Notes or any of the provisions of the Master Note Issuance Agreement. Such a meeting may be convened by the Issuer or by Holders of the Notes of any Series holding not less than five per cent. in nominal amount of the Notes for the time being remaining outstanding. The quorum at any such meeting for passing an Extraordinary Resolution is one or more persons holding or representing not less than 50 per cent. in nominal amount of the Notes for the time being outstanding, or at any adjourned meeting one or more persons being or representing Holders of the Notes of any Series whatever the nominal amount of the Notes so held or represented, except that at any meeting the business of which includes the modification of certain provisions of the Notes (including modifying the date of maturity of the Notes, reducing or cancelling the amount of principal payable in respect of the Notes or altering the currency of payment of the Notes), the quorum shall be one or more persons holding or representing not less than 75 per cent. in nominal amount of the Notes for the time being outstanding, or at any adjourned such meeting one or more persons holding or representing a clear majority, in nominal amount of the Notes for the time being outstanding. An Extraordinary Resolution passed at any meeting of the Holders of the Notes of any Series shall be binding on all the Noteholders, whether or not they are present at the meeting.

- (b) ***Modification***

Subject in case of the Issuing and Paying Agency Agreement and the Master Note Issuance Agreement (as applicable) to the agreement of the other parties thereto, the Issuer may agree, without the consent of the Noteholders, to:

- (i) any modification (except as mentioned above) of the Issuing and Paying Agency Agreement, the Master Note Issuance Agreement or the Conditions which is not materially prejudicial to the interests of the Noteholders as a whole;
- (ii) any modification of the Conditions, the Issuing and Paying Agency Agreement or the Master Note Issuance Agreement which is of a formal, minor or technical nature or is made to correct a manifest error or to comply with mandatory provisions of the law of the jurisdiction in which the Issuer is incorporated; or
- (iii) any modification of the Notes which is made to correct an inconsistency between the final terms and conditions of the Note issue (comprising these Conditions as completed by the relevant Final Terms) and the relevant termsheet relating to the Notes.

Any such modification shall be binding on the Noteholders and any such modification shall be notified to the Noteholders in accordance with Condition 11 (*Notices*) as soon as practicable thereafter.

- (c) ***Substitution***

The Issuer may also agree, without the consent of the Noteholders, to the substitution of a subsidiary or holding company of the Issuer or any subsidiary of any such holding company (the "**New Issuer**") in place of the Issuer as principal debtor under the Notes of any Series, **provided that** such Notes are irrevocably guaranteed by the Issuer. In the event of any such substitution, any reference in these Conditions to the Issuer shall be construed as a reference to the New Issuer. Any such substitution shall be promptly notified to the relevant Noteholders in accordance with Condition 11 (*Notices*). In connection with such right of substitution, the Issuer shall not be obliged to have regard to the consequences of the exercise of such right for individual Noteholders resulting from their being for any purpose domiciled or resident in, or otherwise connected with, or subject to the jurisdiction of, any particular territory, and no

Noteholder shall be entitled to claim from the Issuer any indemnification or payment in respect of any tax consequence of any such substitution upon such Noteholder.

14. **Further Issues**

The Issuer shall be at liberty from time to time with the consent of the Holders of Notes of any Series to create and issue further notes ranking equally in all respects with the Notes of such Series so that the same shall be consolidated and form a single series with such Notes for the time being outstanding.

15. **Third Party Rights**

FORM OF NOTES AND SUMMARY OF PROVISIONS RELATING TO THE NOTES WHILE IN GLOBAL FORM

This section provides information regarding Notes issued in global form and issued into certain clearing systems.

Notes may, subject to all applicable legal and regulatory requirements, be issued in Tranches or Series comprising either Bearer Notes, Registered Notes or Uncertificated Registered Notes as specified in the relevant Final Terms. The summary that follows is only in relation to Bearer Notes and Registered Notes.

Bearer Notes

Bearer Notes will be issued in classic global note form.

Bearer Notes treated as issued in bearer form for U.S. federal income tax purposes will be issued in accordance with the provisions of United States Treasury Regulations 1.163-5(c)(1)(ii) and 1.163-5(c)(2)(i)(D) ("**TEFRA D**", which definition shall include any successor rules in substantially the same form as TEFRA D for the purposes of Section 4701 of the U.S. Internal Revenue Code of 1986, as amended), unless the relevant Final Terms provides that such Notes will be issued in accordance with the provisions of United States Treasury Regulations 1.163-5(c)(1)(ii) and 1.163-5(c)(2)(i)(C) ("**TEFRA C**", which definition shall include any successor rules in substantially the same form as TEFRA C for the purposes of Section 4701 of the U.S. internal Revenue Code of 1986, as amended). Bearer Notes issued in accordance with TEFRA D will be represented upon issue by a temporary global note in bearer form (a "**Temporary Global Note**"). Bearer Notes issued in accordance with TEFRA C will be represented upon issue by a permanent global note in bearer form (a "**Permanent Global Note**") or by a Temporary Global Note. Each Temporary Global Note or, as the case may be, Permanent Global Note will be deposited on or around the issue date of the relevant Tranche of the Notes with a depositary or a common depositary for Euroclear Bank SA/NV as operator for Euroclear and/or Clearstream, Luxembourg ("**Common Depositary**"). Beneficial interests in a Temporary Global Note issued in accordance with TEFRA C will be exchangeable at any time and without any requirement for certification for Bearer Notes in definitive form ("**Definitive Bearer Notes**"), in accordance with the terms of such Temporary Global Note and as specified in the relevant Final Terms. Interests in a Temporary Global Note issued in accordance with TEFRA D will be exchangeable either for Definitive Bearer Notes or for interests in a Permanent Global Note, on or after the date which is 40 days after the date on which such Temporary Global Note is issued and upon certification as to non-U.S. beneficial ownership thereof or otherwise as required by U.S. Treasury Regulations, in accordance with the terms of such Temporary Global Note and as specified in the relevant Final Terms.

For the purposes of complying with TEFRA D, Bearer Notes may not be offered or sold to a United States person. "**United States person**" means any person who is, for U.S. federal income tax purposes, (i) a citizen or resident of the United States, (ii) a corporation, partnership or other entity created or organised under the laws of the United States or any political subdivision thereof or therein or (iii) an estate or trust the income of which is subject to United States taxation regardless of its source.

The forms of Temporary Global Note and Permanent Global Note (each, a "**Global Note**") will contain provisions applicable to the Notes represented thereby, some of which may modify the effect of the Conditions of the Notes. Certain of these are summarised in this section.

All payments, if any, in respect of Bearer Notes when represented by a Temporary Global Note or Permanent Global Note will be made against presentation and surrender or, as the case may be, presentation of the relevant Temporary Global Note or Permanent Global Note at the specified office of any of the Paying Agents. On each occasion on which a payment is so made, the Issuer shall procure that record of such payment is noted on a schedule to the relevant Global Note and the payment is entered *pro rata* in the records of Euroclear and Clearstream, Luxembourg.

In respect of Bearer Notes represented by Global Notes, each of the persons shown in the records of Euroclear and/or Clearstream, Luxembourg as being entitled to an interest in a Global Note (each, a "**Accountholder**") must look solely to Euroclear and/or Clearstream,

Luxembourg for such Accountholder's share of each payment made by the Issuer to the bearer of such Global Note and in relation to all other rights arising under the Global Note. The extent to which, and the manner in which, Accountholders may exercise any rights arising under the Global Note will be determined by the respective rules and procedures of Euroclear and Clearstream, Luxembourg from time to time. For so long as the relevant Notes are represented by the Global Note, Accountholders shall have no claim directly against the Issuer in respect of payments due under the Notes.

The records of the relevant clearing systems which reflect the amount of Noteholders' interests in the Notes shall be conclusive evidence of the nominal amount of Notes represented by the Global Notes.

An exchange of a Temporary Global Note for Definitive Notes or, as the case may be, a Permanent Global Note will be made only on or after the Exchange Date (as set out in the relevant Final Terms) and provided certification as to the beneficial ownership thereof as required by the U.S. Treasury Regulations (in substantially the form set out in the Temporary Global Note or in such other form as is customarily issued in such circumstances by the relevant clearing system or depository) has been received. An exchange for Registered Notes will be made at any time after the Exchange Date without any requirement for certification, subject as set out in the relevant Global Note or Final Terms.

The bearer of any Temporary Global Note shall not (unless, upon due presentation of such Temporary Global Note for exchange (in whole or in part) for a Permanent Global Note or for delivery of Definitive Notes, such exchange or delivery is improperly withheld or refused and such withholding or refusal is continuing at the relevant payment date) be entitled to receive any payment in respect of the Notes represented by such Temporary Global Note which falls due on or after the Exchange Date or be entitled to exercise any option on a date after the Exchange Date.

If any date on which a payment of principal is due on the Notes of a Tranche occurs whilst any of the Notes of that Tranche are represented by a Temporary Global Note, the related principal payment will be made on the Temporary Global Note only to the extent that certification as to the beneficial ownership thereof as required by the U.S. Treasury Regulations (in substantially the form set out in the Temporary Global Note or in such other form as is customarily issued in such circumstances by the relevant clearing system or depository) has been received by Euroclear or Clearstream, Luxembourg. Payments of amounts due in respect of a Permanent Global Note will be made through any of Euroclear or Clearstream, Luxembourg without any requirement for certification.

Interests in a Permanent Global Note will be exchanged, at the cost and expense of the Issuer, by the Issuer in whole (but not, subject to (b)(ii) below, in part only), for Definitive Notes (a) at the option of the holder of such Permanent Global Note, for Definitive Notes, (i) if the Notes of the relevant Series become immediately repayable in accordance with Condition 8 (*Events of Default*), or (ii) if any of Euroclear or Clearstream, Luxembourg is closed for business for a continuous period of 14 days (other than by reason of public holidays) or announces an intention to cease business permanently or in fact does so, or (b) at the option of the Issuer: (i) unless otherwise provided in the Final Terms, where the Issuer or any Paying Agent, by reason of any change in, or amendment to, the laws of the United Kingdom, is or will be required to make any deduction or withholding from any payment under the Notes which would not be required if the Notes were in definitive form or (ii) if the Issuer would suffer a material disadvantage in respect of the Notes as a result of a change in the laws or regulations (taxation or otherwise) of any jurisdiction which would not be suffered were the Notes in definitive form or, as the case may be, in registered form.

Where a Permanent Global Note is exchangeable for Definitive Notes, then such Notes shall be tradable only in principal amounts of at least the Denomination (or if there is more than one Denomination, the lowest Denomination).

The Issuer may, at any time in writing, waive or limit its right to exchange a Permanent Global Note for Definitive Notes in the circumstances described above, where the Issuer at its sole discretion considers such limitation or waiver to be desirable in respect of a particular Series of Notes.

Following redenomination of the Notes pursuant to Condition 7 (*Redenomination*), if Notes are required to be issued in definitive form, they shall be issued at the expense of the Issuer in the denominations of euro 0.01, euro 1,000, euro 10,000, euro 100,000 and such other denominations as the Principal Paying Agent shall determine and notify to the Noteholders.

All notices to the Holders of Notes will be valid, in the case of Notes in global form, if delivered to Euroclear and/or Clearstream, Luxembourg for communication by them to the persons shown in their respective records as having interests therein; **provided that**, in each case, in the case of Notes that have been admitted to listing, trading and/or quotation by any listing authority, stock exchange and/or quotation system, the rules of such listing authority, stock exchange and/or quotation system have been complied with. Any such notice shall be deemed to have been given on the date of such delivery or, if the Notes are admitted to listing, trading and/or quotation and publication is required under the applicable rules of the relevant listing authority, stock exchange and/or quotation system, on the date of publication or, if published more than once, on the date of the first such publication (or, if required to be published in more than one newspaper, on the first date on which publication shall have been made in all the required newspapers).

Registered Notes

Registered Notes will be issued under the classic safekeeping structure.

In the case of Registered Notes, the relevant Final Terms may specify that the Notes will be issued in global form ("**Global Registered Notes**") held in specified clearing systems, as described below, or in definitive form ("**Definitive Registered Notes**").

Regulation S Global Registered Notes

In the case of a Series or Tranche of Registered Notes offered and sold solely outside the United States (as defined in Regulation S) in reliance on Regulation S to non-U.S. persons, such Series or Tranche of Registered Notes may be represented by a Global Registered Note (a "**Regulation S Global Registered Note**"), which will be deposited on or about the issue date for the relevant Tranche with, and registered either in the name of the Common Depositary (or its nominee). Interests in any Regulation S Global Registered Note will be exchangeable (in circumstances described below under "*Exchange and Transfer of Global Registered Notes for Definitive Registered Notes*") for Definitive Registered Notes ("**Regulation S Definitive Registered Notes**").

Each Regulation S Global Registered Note will have an ISIN code.

Owner of Global Registered Notes and Payments

Subject to certain provisions of the Issuing and Paying Agency Agreement relating to directions, sanctions and consents of Holders of Registered Notes and to meetings of Holders of Notes, so long as Euroclear, Clearstream, Luxembourg or the nominee of their Common Depositary (or its nominee) is the registered owner or holder of a Global Registered Note, Euroclear, Clearstream, Luxembourg or such nominee, as the case may be, will be considered the sole owner or holder of the Notes represented by such Global Registered Note for all purposes under the Issuing and Paying Agency Agreement and the Notes. Payments of principal and additional amounts, if any, pursuant to Condition 6 (*Payments*), on Global Registered Notes will be made to Euroclear, Clearstream, Luxembourg or such nominee thereof, or common service provider acting as agent for Euroclear and Clearstream, Luxembourg, as the case may be, or the registered holder thereof. None of the Issuer, the Registrar, or any Paying Agent or any affiliate of any of the above or any person by whom any of the above is controlled for the purposes of the Securities Act will have any responsibility or liability for any aspect of the records relating to or payments made on account of beneficial ownership interests in Global Registered Notes or for maintaining, supervising or reviewing any records relating to such beneficial ownership interests. Each such payment in respect of a Global Registered Note will be made to the person shown as the Holder thereof (or, in the case of joint Holders, the first-named) as appearing in the Register at the close of business (in the relevant clearing system) on the business day on which each clearing system for which the Global Registered Note is being held is open for business which is the business day of each such clearing system before the due date for such payment.

Exchange and Transfer of Global Registered Notes for Definitive Registered Notes

Beneficial interests in a Regulation S Global Registered Note will be exchangeable, in whole but not in part, for Regulation S Definitive Registered Notes: (i) if Euroclear or Clearstream, Luxembourg is closed for business for a continuous period of 14 days (other than by reason of legal holidays) or announces an intention permanently to cease business; (ii) the Issuer, at its option, elects to terminate the book-entry

system through Euroclear and Clearstream, Luxembourg; (iii) the Notes become immediately repayable in accordance with Condition 8 (*Events of Default*); or (iv) at the option of the Issuer, if the Issuer would suffer a material disadvantage in respect of the Notes as a result of a change in the laws or regulations (taxation or otherwise) of any jurisdiction which would not be suffered were the Notes in definitive form.

The holder of a Registered Note may transfer such Registered Note in accordance with the provisions of Condition 2 (*Form, Denomination and Title*) of the Conditions of the Notes.

The holder of a Definitive Registered Note may transfer such Note by surrendering it at the specified office of the Registrar or any Transfer Agent, together with the completed form of transfer thereon.

The Registrar will not register the transfer of or exchange of interests in a Global Registered Note for Definitive Registered Notes for a period of 15 calendar days preceding the due date for any payment in respect of the Notes.

THE UNDERLYING**

**[The following Index disclaimer is applicable in respect of the [] Index, as agreed between the
Index Sponsor and the Issuer: []]** A21

The following are the completed terms and conditions of the Preference Shares:

[]

DESCRIPTION OF THE PREFERENCE SHARES

In respect of each Series of Notes, preference shares (the "**Preference Shares**") will be issued by Eukairos Investments Limited (the "**Preference Share Issuer**"), a private company limited by shares incorporated in England on 30 April 2010 (with registered number 7240905) which is independent of the Issuer.

The Preference Share Issuer is governed by the laws of England and Wales and has its registered office at 35 Great St Helens, London, EC3A 6AF, United Kingdom.

A copy of the Preference Share Issuer's constitutional documents, its audited, non-consolidated annual financial statements, when published, and the Preference Share Terms and Conditions (as defined below) are available (free of charge) from the registered office of the Preference Share Issuer.

The sole business activity of the Preference Share Issuer is to issue redeemable Preference Shares. Accordingly, the Preference Share Issuer does not have any trading assets and does not generate any significant net income.

The Preference Share Terms and Conditions, and any non-contractual obligations arising out of or in connection with the Preference Share Terms and Conditions, shall be governed by and construed in accordance with English law.

The Notes are not secured by the Preference Shares and, accordingly, only a nominal amount of the Preference Shares are expected to be issued regardless of the principal amount of the applicable issuance of Notes by the Issuer.

Each issuance of Preference Shares will be designated as a specified series (a "**Series of Preference Shares**"). The Final Redemption Amount of each Series of Notes will be linked to the percentage change in value of the relevant Series of Preference Shares as more fully set out in Condition 4(a) (*Redemption and Purchase — At maturity*) of the Notes. The redemption price of the Preference Shares (the "**Redemption Price**") will in turn be linked to the level or performance of an index or a basket of indices, as set out in a set of terms and conditions ("**Preference Share Terms and Conditions**") which apply to that Series of Preference Shares.

The provisions governing each Series of Preference Shares will be made up of two components:

- (i) the general provisions set out in the Articles of Association of the Preference Share Issuer; and
- (ii) the particular Preference Share Terms and Conditions that relate to that Series of Preference Shares.

A separate set of Preference Share Terms and Conditions will apply to each Series of Preference Shares and will have features that depend on the type of Note to which they are to be linked. Two sets of pro forma Preference Share Terms and Conditions for the Preference Shares to be issued in connection with the various types of Notes are set out in the next section of this Base Prospectus entitled "*Terms and Conditions of the Preference Shares*". The following table sets out which pro forma set of Preference Share Terms and Conditions applies to which type of Notes, each of which are also described below, and where the relevant Preference Share Terms and Conditions can be found:

Booster Redemption Notes	Pages []
Airbag Redemption Notes	to []
Bonus Redemption Notes	
Autocallable Redemption Notes	Pages [] to []

The completed Preference Share Terms and Conditions for the Preference Shares relating to each Series of Notes will be annexed to the Final Terms relating to the relevant Series of Notes. The Final Terms of

each Series of Notes will also provide details of, among other things, the underlying index or a basket of indices to which the related Series of Preference Shares are linked.

The Preference Share Issuer has issued ordinary shares for cash consideration. The subscription proceeds of the same, together with the subscription proceeds of the Preference Shares issued by it and certain amounts paid to it by the Issuer from time to time in connection with its issuance of Preference Shares, are expected to cover all redemption amounts payable by it under the Preferences Shares.

Types of Notes

The following section described the four types of Notes that Preference Shares will be linked to. The Final Redemption Amount of each Series of Notes will be linked to the percentage change in value of the relevant Preference Shares. The redemption price of the Preference Shares will in turn be linked to an Index or basket of Indices. However, for ease of explanation, in the following description the Notes (including the return on the Notes) are described as being linked to an Index or basket of Indices.

Booster Redemption Notes

If the Notes are specified as being "**Booster Redemption Notes**" in the relevant Final Terms, then the Final Redemption Amount will be calculated as follows.

- If the Index Performance or the Worst Performing Index Performance (as applicable) is equal to or greater than a level specified in the relevant Preference Share Terms and Conditions as the "**Barrier Level**", then an investor will be entitled on redemption to:
 - (i) the principal amount of the Note; plus
 - (ii) if there has been an appreciation of the relevant Index or each of the Indices in the basket of Indices, an increase in the principal amount of the Note equal to the amount of such increase multiplied by a factor, being a percentage in excess of 100% (the "**Participation**") and subject to a maximum of a "**Cap**".

This is calculated by multiplying the principal amount of the Note by the following formula:

$$100\% + \text{MIN} [\text{Cap}; \text{Participation} \times \text{MAX} [0, (\text{Index Performance} - 100\%)]]$$

OR

$$100\% + \text{MIN} [\text{Cap}; \text{Participation} \times \text{MAX} [0, (\text{Worst Performing Index Performance} - 100%)]]$$

- If the Index Performance or the Worst Performing Index Performance (as applicable) is lower than the Barrier Level, then an investor will be entitled to an amount on redemption equal to the principal amount of each Note multiplied by the Index Performance or the Worst Performing Index Performance (as applicable).

Airbag Redemption Notes

If the Notes are specified as being "**Airbag Redemption Notes**" in the relevant Final Terms, then the Final Redemption Amount will be calculated as follows.

- If the Index Performance or the Worst Performing Index Performance (as applicable) is equal to or greater than a level specified in the relevant Preference Share Terms and Conditions as the "**Barrier Level**", then an investor will be entitled on redemption to:
 - (i) the principal amount of the Note; *plus*
 - (ii) if there has been an appreciation of the relevant Index or each of the Indices in the basket of Indices, an increase in the principal amount of the Note equal to the amount of such increase multiplied by a factor, being a percentage in excess of 100% (the "**Participation**").

This is calculated by multiplying the principal amount of the Note by the following formula:

$$100\% + \text{Participation} \times \text{MAX} [0, (\text{Index Performance} - 100\%)]$$

OR

$$100\% + \text{Participation} \times \text{MAX} [0, (\text{Worst Performing Index Performance} - 100\%)]$$

- If the Index Performance or the Worst Performing Index Performance (as applicable) is lower than the Barrier Level, then an investor will be entitled to an amount on redemption equal to the principal amount of the Note multiplied by the Index Performance or the Worst Performing Index Performance (as applicable).

Bonus Redemption Notes

If the Notes are specified as being "**Bonus Redemption Notes**" in the relevant Final Terms, then the Final Redemption Amount will be calculated as follows.

- If the Index Performance or the Worst Performing Index Performance (as applicable) is equal to or greater than a level specified in the relevant Preference Share Terms and Conditions as the "**Barrier Level**", then an investor will be entitled on redemption to:
 - (i) the principal amount of the Note; *plus*
 - (ii) a fixed percentage increase in the principal amount of the Note (the "**Bonus Amount**"), which expresses an enhanced return following an appreciation or depreciation of the relevant Index or worst performing Index comprised in the basket of Indices and which is calculated as the sum of each of the percentages (each an "**Bonus Amount Percentage**") determined in accordance with the following provisions:
 - (a) If on an predetermined observation date as specified in the Preference Share Terms and Conditions (an "**Observation Date**") the Index Performance or the Worst Performing Index Performance (as applicable) is equal to or greater than the Bonus Level, a predetermined percentage above 0% as specified in the relevant Preference Share Terms and Conditions; and
 - (b) if on an Observation Date the Index Performance or Worst Performing Index Performance (as applicable) is less than the Bonus Level, 0%.

This is calculated by multiplying the principal amount of the Note by the following formula:

$$100\% + \text{Bonus Amount}$$

- If the Index Performance or the Worst Performing Index Performance (as applicable) is lower than the Barrier Level, then an investor will be entitled to an amount on redemption equal to the principal amount of the Note multiplied by the Index Performance or the Worst Performing Index Performance (as applicable) *plus* the Bonus Amount.

Autocallable Redemption Notes

If the Notes are specified as being "**Autocallable Redemption Notes**" in the relevant Final Terms, and the Notes have not been redeemed prior to the maturity date, then the Final Redemption Amount will be calculated as follows:

- If the Index Performance or the Worst Performing Index Performance (as applicable) is equal to or greater than a fixed percentage specified in the relevant Preference Share Terms and Conditions as the "**Final Trigger Level**", then an investor will be entitled on redemption to an amount equal to the principal amount of the Note multiplied by a percentage specified in the Preference Share Terms and Conditions;
- If the Index Performance or the Worst Performing Index Performance (as applicable) is less than the Final Trigger Level, and:

- (i) the Final Index Level of the Index or each Index in the basket of Indices (as applicable) is equal to or greater than the level specified in the relevant Preference Share Terms and Conditions as the "**Barrier Level**", then an investor will be entitled on redemption to an amount equal to the principal amount of the Note multiplied by 100%; or
- (ii) the Final Index Level of the Index or any Index in the basket of Indices (as applicable) is less than the level specified in the relevant Preference Share Terms and Conditions as the Barrier Level, then an investor will be entitled on redemption to an amount equal to the principal amount of the Note multiplied by Index Performance or the Worst Performing Index Performance (as applicable).

Pursuant to the Conditions the Calculation Agent has a number of discretions. These are necessary since certain circumstances or the occurrence of certain events may materially affect the costs to the Company and/or a Hedging Counterparty (including in relation to any Related Financial Product) and/or any issuer or obligor of a Related Financial Product of maintaining the Preference Shares or a Related Financial Product or hedging arrangements for the Preference Shares or a Related Financial Product, in each case before and after the occurrence of such event in a way which has not been reflected in the pricing of the Preference Shares and/or the Related Financial Product. In addition, certain circumstances may arise where it is not reasonably practicable or otherwise not appropriate for certain valuations to be carried out in relation to relevant reference assets and in these circumstances the Calculation Agent also may exercise certain discretions.

3. Early Redemption if there is an Early Preference Share Redemption Event

If the Company, or the Calculation Agent on behalf of the Company, determines that there is an Early Preference Share Redemption Event falling within paragraphs (a) to (c) of the definition of Early Preference Share Redemption Event, the Company, or the Calculation Agent on behalf of the Company, may, but shall not be obliged to elect to redeem early the Preference Shares by giving an Early Preference Share Redemption Notice to Shareholders in accordance with Condition 6 (*Notices*) below, and if the Company, or the Calculation Agent on behalf of the Company, determines that there is an Early Preference Share Redemption Event falling within paragraph (d) of that definition then the Company, or the Calculation Agent on behalf of the Company, must redeem early the Preference Shares by giving an Early Preference Share Redemption Notice to Shareholders in accordance with Condition 6 (*Notices*) below.

For the purposes of this Condition 3 (*Early Redemption if there is an Early Preference Share Redemption Event*) only, following the delivery of an Early Preference Share Redemption Notice, each Shareholder shall have the right exercisable from and including the Early Preference Share Valuation Date to and including the Early Preference Share Redemption Date to require the

Company to redeem the Preference Shares immediately (and if that right is not exercised the Company will redeem all of the Preference Shares on the Early Preference Share Redemption Date) at the Early Preference Share Redemption Amount in respect of each Preference Share, subject to applicable laws, the Articles and the Conditions.

4. **Dividends**

In accordance with the Articles, no dividends will be paid in respect of the Preference Shares.

5. **Further Preference Shares**

The Company shall be entitled to issue further Preference Shares from time to time to be consolidated and form a single class with the Preference Shares **provided that** the rights conferred upon the Shareholders shall not be varied, amended or abrogated by the creation, allotment or issue of any further Preference Shares of the same class as the Preference Shares or any different class.

6. **Notices**

Notices to Shareholders shall be delivered to Shareholders at the address for each Shareholder set out in the register of members of the Company with a copy to the Calculation Agent. Any such notice will become effective on the first calendar day after such delivery to such address. Where a notice is being delivered in accordance with Condition 3 (*Early Redemption if there is an Early Preference Share Redemption Event*), such notice shall specify the relevant Early Preference Share Valuation Date. A copy of any Early Preference Share Redemption Notice shall also be delivered to any Hedging Counterparty.

Notices to the Company shall be delivered to the Company at the address of the registered office of the Company with a copy to the Calculation Agent. Any such notice will become effective on the first calendar day after such delivery to such address.

7. **Calculations and Determinations**

Any calculations, determinations and adjustments to be made in relation to the Conditions shall, unless otherwise specified, be made by the Calculation Agent and in such a manner as the Calculation Agent determines is appropriate acting in good faith and in a commercially reasonable manner (having regard in each case to the criteria stipulated in the Conditions and the hedging arrangements entered into with any Hedging Counterparty).

Notwithstanding that certain calculations, determinations and adjustments in the Conditions may be expressed to be on a certain date, the Calculation Agent may make such calculations, determinations and adjustments in respect of that date on a date after that date determined by it in its discretion.

Pursuant to the Conditions the Calculation Agent has a number of discretions. These are necessary since certain circumstances or the occurrence of certain events may materially affect the costs to the Company and/or a Hedging Counterparty (including in relation to any Related Financial Product) and/or any issuer or obligor of a Related Financial Product of maintaining the Preference Shares or a Related Financial Product or hedging arrangements for the Preference Shares or a Related Financial Product, in each case before and after the occurrence of such event in a way which has not been reflected in the pricing of the Preference Shares and/or the Related Financial Product. In addition, certain circumstances may arise where it is not reasonably practicable or otherwise not appropriate for certain valuations to be carried out in relation to relevant reference assets and in these circumstances the Calculation Agent also may exercise certain discretions.

8. **Severability**

Should any one or more of the provisions contained in the Conditions be or become invalid, the validity of the remaining provisions shall not in any way be affected thereby.

9. **Governing Law And Jurisdiction**

The Conditions and all non-contractual obligations arising from or in connection with the Conditions shall be governed by and construed in accordance with English law. The English courts shall have exclusive jurisdiction to deal with any dispute and all non-contractual obligations arising from or in connection with the Conditions.

10. **Contracts (Rights of Third Parties) Act 1999**

No person shall have any rights to enforce any terms or conditions of the Preference Shares under the Contracts (Rights of Third Parties) Act 1999, but this does not affect any right or remedy of any person which exists or is available apart from the Contracts (Rights of Third Parties) Act 1999.

11. **Calculation Agent Modifications**

The Calculation Agent will employ the methodology and comply with the provisions described in the Conditions to determine the amounts payable in respect of the Preference Shares. The Calculation Agent's determination in the application of such methodology and compliance with the provisions shall be final, conclusive and binding on the Company and Shareholders except in the case of manifest error.

The Calculation Agent shall be free to modify such methodology or provisions from time to time, acting in good faith and in a commercially reasonable manner, (1) as it deems appropriate in response to any market, regulatory, juridical, fiscal or other circumstances which may arise which, in the opinion of the Calculation Agent, necessitates or makes desirable (taking into account the interests of the Company and any obligor of a Related Financial Product) a modification or change of such methodology or provisions or (2) for the purposes of (i) preserving the intended economic terms of the Preference Shares or (ii) curing any ambiguity or correcting or supplementing any provision of the Conditions or (iii) accounting for any change in the basis on which any relevant values, levels or information is calculated or provided which would materially change the commercial effect of any provision or provisions of the Conditions or (iv) replacing any information provider or source or (v) making amendments to the provisions of a formal, minor or technical nature or (vi) correcting any manifest or proven errors or (vii) making such amendments to comply with mandatory provisions of any applicable laws, **provided that** no modification by the Calculation Agent constituting a variation (or deemed variation) of the rights of the Preference Shares (or any other class of shares of the Company) for the purposes of sections 630-640 of the Companies Act 2006 and/or the Articles shall have effect unless previously approved in accordance with the Companies Act 2006 and the Articles.

Other than with respect to payments, where the Company fails to exercise any discretion or take any action provided to it in the Conditions when the exercise of such discretion or action would be necessary or desirable (as determined by the Calculation Agent), the Calculation Agent may exercise such discretion on its behalf.

12. **Consequences of Disrupted Days**

If any Scheduled Valuation Date in respect of an Index is a Disrupted Day in respect of such Index, then the Strike Date, the Valuation Date or the Auto-Call Valuation Date, as the case may be, for such Index shall be the first succeeding Scheduled Trading Day for such Index that is not a Disrupted Day relating to that Index, unless each of the eight Scheduled Trading Days for such Index immediately following the relevant Scheduled Valuation Date is a Disrupted Day relating to that Index. In that case, (a) that eighth Scheduled Trading Day shall be deemed to be the Strike Date, the Valuation Date or the Auto-Call Valuation Date, as the case may be, for the relevant Index notwithstanding the fact that such day is a Disrupted Day for such Index, and (b) the Calculation Agent shall determine the level of such Index as of the Valuation Time on that eighth Scheduled Trading Day in accordance with (subject to the Adjustment Provisions), the formula for and method of calculating that Index last in effect prior to the occurrence of the first Disrupted Day using the Exchange traded or quoted price as of the Valuation Time on that eighth Scheduled Trading Day of each security comprised in that Index (or, if an event giving rise to a Disrupted Day has occurred in respect of the relevant security on that eighth Scheduled Trading Day, its good faith estimate of the value for the relevant security as of the Valuation Time on that eighth Scheduled Trading Day).

13. **Adjustments**

(a) ***Successor Index***

If a relevant Index is (i) not calculated and announced by the Index Sponsor but is calculated and published by a successor to that Index Sponsor (the "**Successor Index Sponsor**") acceptable to the Calculation Agent or (ii) replaced by a successor index using, in the determination of the Calculation Agent, the same or a substantially similar formula for and method of calculation as used in the calculation of such Index, then in each case that Index (the "**Successor Index**") will be deemed to be the Index.

(b) ***Index Adjustment Events.***

If (i) on or prior to the Strike Date, the Valuation Date or an Auto-Call Valuation Date the relevant Index Sponsor announces that it will make a material change in the formula for or the method of calculating the relevant Index or in any other way materially modifies the Index (other than a modification prescribed in the formula or method to maintain that Index in the event of changes in its constituent securities, capitalisation and other routine events) (an "**Index Modification**") or permanently cancels that Index and no Successor Index exists (an "**Index Cancellation**") or (ii) on the Strike Date, the relevant Auto-Call Valuation Date or the Valuation Date, as the case may be, such Index Sponsor or, if applicable, the Successor Index Sponsor, fails to calculate and announce the relevant Index Level (an "**Index Disruption**" and, together with an Index Modification and an Index Cancellation, each an "**Index Adjustment Event**"), then (A) in the case of an Index Modification or an Index Disruption, the Calculation Agent shall determine if such Index Adjustment Event has a material effect on the Preference Shares and, if so, shall calculate any relevant adjustment to the Conditions which may include, without limitation (i) an adjustment to any value, date, variable or other provision to take into account the relevant Index Adjustment Event, (ii) delaying the Strike Date, the relevant Auto-Call Valuation Date or the Valuation Date, as the case may be, until the relevant Index Adjustment Event no longer exists or (iii) determining the Index Level for such Index for each date following such change, failure or cancellation on which the Index Level is required for the purposes of the Preference Shares, using, in lieu of a published level for that Index, the level for that Index on such date as determined by the Calculation Agent in accordance with the formula for and method of calculating that Index last in effect prior to the change, failure or cancellation, but using only those securities that comprised such Index immediately prior to that Index Adjustment Event and (B) in the case of an Index Cancellation, the Company may, at any time thereafter, determine that all but not some only of the Preference Shares shall be redeemed in accordance with Condition 3 (*Early Redemption if there is an Early Preference Share Redemption Event*).

14. **Additional Disruption Events**

- (a) Following the occurrence of an Additional Disruption Event, the Company will determine whether or not the Preference Shares shall continue or be redeemed early.
- (b) If the Company determines that the Preference Shares shall continue, the Calculation Agent may make such adjustment as the Calculation Agent considers appropriate, if any, to any one or more of the Conditions to account for the Additional Disruption Event and determine the effective date of that adjustment.
- (c) If the Company determines that the Preference Shares shall be redeemed early, then the Company shall redeem all but not some only of the Preference Shares in accordance with Condition 3 (*Early Redemption if there is an Early Preference Share Redemption Event*).
- (d) Upon the occurrence of an Additional Disruption Event, the Company, or the Calculation Agent on behalf of the Company, shall give notice as soon as practicable to the Shareholders stating the occurrence of the Additional Disruption Event, giving details thereof and the action proposed to be taken in relation thereto **provided that** any failure to give, or non-receipt of, such notice will not affect the validity of the Additional Disruption Event.

"**Additional Disruption Event**" means any of Change in Law, Hedging Disruption and/or Increased Cost of Hedging.

"Change in Law" means that on or after the Issue Date, (i) due to the adoption of or any change in any applicable law or regulation (including, without limitation, any tax law), or (ii) due to the promulgation of or any change in the interpretation by any court, tribunal or regulatory authority with competent jurisdiction of any applicable law or regulation (including any action taken by a taxing authority), the Company determines that (A) it has become illegal for the Company or the Hedging Counterparty to hold, acquire or dispose of any securities comprising any Index or it has become illegal for the Company or the Hedging Counterparty to hold, acquire, purchase, sell or maintain one or more (x) positions or contracts in respect of any securities, options, futures, derivatives or foreign exchange in relation to the Preference Shares, any Related Financial Product, or in relation to the Company's or the Hedging Counterparty's hedging activities in connection with the Preference Shares or any Related Financial Product (y) stock loan transactions in relation to the Preference Shares or any Related Financial Product or (z) other instruments or arrangements (howsoever described) held by the Company or the Hedging Counterparty in order to hedge, individually or on a portfolio basis, the Preference Shares or any Related Financial Product relating to any Index or (B) the Company or any Hedging Counterparty will incur a materially increased cost in performing its obligations in relation to the Preference Shares or any Related Financial Product (including, without limitation, due to any increase in tax liability, decrease in tax benefit or other adverse effect on the tax position of the Company and/or any Hedging Counterparty).

"Hedging Disruption" means that the Company and/or any Hedging Counterparty is unable, after using commercially reasonable efforts, to (i) acquire, establish, re-establish, substitute, maintain, unwind or dispose of any transaction(s) or asset(s) it deems necessary to hedge the equity or other price risk of the Company issuing and performing its obligations with respect to the Preference Shares or of any obligor of a Related Financial Product issuing and performing its obligations with respect to a Related Financial Product, or (ii) realise, recover or remit the proceeds of any such transaction(s) or asset(s).

"Increased Cost of Hedging" means that the Company and/or any Hedging Counterparty would incur a materially increased (as compared with circumstances existing on the Issue Date) amount of tax, duty, expense or fee (other than brokerage commissions) to (i) acquire, establish, re-establish, substitute, maintain, unwind or dispose of any transaction(s) or asset(s) it deems necessary to hedge the equity or other price risk of the Company issuing and performing its obligations with respect to the Preference Shares or of any obligor of a Related Financial Product issuing and performing its obligations with respect to a Related Financial Product, or (ii) realise, recover or remit the proceeds of any such transaction(s) or asset(s), **provided that** any such materially increased amount that is incurred solely due to the deterioration of the creditworthiness of the Company and/or any Related Financial Product obligor shall not be deemed an Increased Cost of Hedging.

15. **Correction of Index Levels**

If the level of an Index published by the Index Sponsor at any time and used or to be used by the Calculation Agent for any calculation or determination under the Preference Shares is subsequently corrected and the correction is published by such Index Sponsor within one Settlement Cycle after the original publication, the Calculation Agent will make such adjustment as it determines to be appropriate, if any, to the settlement or payment terms of the Preference Shares to account for such correction **provided that** if any amount has been paid in an amount which exceeds the amount that would have been payable if the correction had been taken into account, no further amount in an amount at least equal to the excess is payable in respect of the Preference Shares and the Calculation Agent determines that it is not practicable to make such an adjustment to account fully for such correction, the Company shall be entitled to reimbursement of the relevant excess payment (or, as the case may be, the proportion thereof not accounted for by an adjustment made by the Calculation Agent) by the relevant Shareholder, together with interest on that amount for the period from and including the day on which payment was originally made to (but excluding) the day of payment of reimbursement by the Shareholder (all as calculated by the Calculation Agent). Any such reimbursement shall be effected in such manner as the Company shall determine.

CALCULATION AGENT DISCLAIMERS

The Calculation Agent makes no express or implied representations or warranties as to (a) the advisability of investing in or obtaining exposure to the Preference Shares, (b) the value of the Preference Shares at any particular time on any particular date, or (c) any amounts that may become payable in respect of the Preference Shares. The Calculation Agent shall not act as agent or trustee for the holders of the Preference Shares or any Related Financial Product.

Without limiting any of the foregoing, in no event shall the Calculation Agent have any liability (whether in negligence or otherwise) to any Shareholders or Related Financial Product investors for any direct, indirect, special, punitive, consequential or any other damages (including loss of profits) even if notified of the possibility of such damages.

In addition, to providing calculation agency services to the Company, the Calculation Agent or any of its Affiliates, may perform further or alternative roles relating to the Company and any series of Preference Shares. Furthermore, the Calculation Agent or any of its Affiliates may contract with the Company and/or enter into transactions which relate to the Company, the Preference Shares or the Indices and as a result the Calculation Agent may face a conflict between its obligations as Calculation Agent and its and/or its Affiliates' interests in other capacities. Subject to all regulatory obligations, neither the Company nor the Calculation Agent in respect of the Preference Shares owes any duty or responsibility to any Shareholder or Related Financial Product investor to avoid any conflict or to act in the interest of any Shareholder or Related Financial Product investor.

USE OF PROCEEDS

This section provides details of what the Issuer intends to do with the subscription monies it receives for the Notes it issues.

Unless otherwise specified in the relevant Final Terms, the net proceeds from each issue of Notes will be used by the Issuer for profit making or risk hedging purposes.

TAXATION

This section provides a summary of the withholding tax position in relation to the Notes in the United Kingdom and also provides information in relation to the EU Savings Directive and the proposed financial transactions tax.

Transactions involving the Notes may have tax consequences for investors which may depend, amongst other things, upon the status of the investor and laws relating to transfer and registration taxes. Investors who are in any doubt about the tax position of any aspect of transactions involving the Notes should consult their own tax advisers.

United Kingdom Taxation – Notes

The following is a summary of the United Kingdom withholding taxation treatment at the date hereof in relation to payments of principal and interest and certain other payments in respect of the Notes. It is based on current law and the practice of Her Majesty's Revenue and Customs ("HMRC"), which may be subject to change, sometimes with retrospective effect. The comments do not deal with any other United Kingdom tax aspects of acquiring, holding or disposing of Notes. The comments relate only to the position of persons who are absolute beneficial owners of the Notes. Noteholders should be aware that the particular terms of issue of any Series of Notes as specified in the relevant Final Terms may affect the tax treatment of that and other Series of Notes. The following is a general guide for information purposes and should be treated with appropriate caution. It is not intended as tax advice and it does not purport to describe all of the tax considerations that may be relevant to a purchaser. Noteholders who are in any doubt as to their tax position should consult their professional advisers. Noteholders who may be liable to taxation in jurisdictions other than the United Kingdom in respect of their acquisition, holding or disposal of the Notes are particularly advised to consult their professional advisers as to whether they are so liable (and if so under the laws of which jurisdictions), since the following comments relate only to certain United Kingdom taxation aspects of payments in respect of the Notes. In particular, Noteholders should be aware that they may be liable to taxation under the laws of other jurisdictions in relation to payments in respect of the Notes even if such payments may be made without withholding or deduction for or on account of taxation under the laws of the United Kingdom.

(A) United Kingdom Withholding Tax – Interest

1. Any payments made with respect to the Notes which are considered to be interest for United Kingdom taxation purposes and where such Notes are issued for a term of less than one year (and which are not issued under arrangements the effect of which is to render the Notes part of a borrowing with a total term of one year or more) may be paid by the Issuer without withholding or deduction for or on account of United Kingdom income tax.
2. Notes issued by the Issuer which carry a right to interest will constitute "quoted Eurobonds" provided they are and continue to be listed on a recognised stock exchange. Whilst the Notes are and continue to be quoted Eurobonds, payments on such Notes which are considered to be payments of interest for United Kingdom tax purposes may be made without withholding or deduction for or on account of United Kingdom income tax. Securities will be regarded as "listed on a recognised stock exchange" for this purpose if (and only if) they are admitted to trading on an exchange designated as a recognised stock exchange by an order made by the Commissioners for HMRC and either they are included in the United Kingdom official list (within the meaning of Part VI of the FSMA) or they are officially listed, in accordance with provisions corresponding to those generally applicable in European Economic Area states, in a country outside the United Kingdom in which there is a recognised stock exchange. The London Stock Exchange is a recognised stock exchange for these purposes, and accordingly the Notes will constitute quoted Eurobonds provided they are and continue to be included in the United Kingdom official list and admitted to trading on the regulated market of the London Stock Exchange.
3. In addition to the exemptions set out in paragraphs 1 and 2 above, payments on the Notes which are considered to be interest for United Kingdom taxation purposes may be paid without withholding or deduction for or on account of United Kingdom income tax so long as the Issuer is a "bank" for the purposes of section 878 of the Income Tax Act 2007 and so long as such payments are made by the Issuer in the ordinary course of its business. In accordance with

4. HMRC's Statement of Practice 4/96, such payments will be accepted as being made by the Issuer in the ordinary course of its business unless either:
 - (a) the borrowing in question conforms to any of the definitions of additional tier 1 or tier 2 capital adopted by the United Kingdom Prudential Regulation Authority whether or not it actually counts towards additional tier 1 or tier 2 capital for regulatory purposes; or
 - (b) the characteristics of the transaction giving rise to the interest are primarily attributable to an intention to avoid United Kingdom tax.

In a technical note published in December 2013 in connection with the introduction of an exemption from withholding for regulatory capital securities, HMRC announced that Statement of Practice 4/96 will be withdrawn in due course and guidance will be issued reflecting HMRC's views on certain matters described therein.

5. In all other cases, falling outside the exemptions described in paragraphs 1, 2 and 3 above, payments on the Notes which are considered to be interest for United Kingdom tax purposes may fall to be paid under deduction of United Kingdom income tax at the basic rate (currently 20 per cent.) subject to such relief as may be available following a direction from HMRC pursuant to the provisions of any applicable double taxation treaty or to any other exemption which may apply.
6. Any payments made by the Issuer under the Deed of Covenant may not qualify for the exemptions from United Kingdom withholding tax described above.

(B) United Kingdom Withholding Tax – Other Payments

Where a payment on a Note does not constitute (or is not treated as) interest for United Kingdom tax purposes, it would potentially be subject to United Kingdom withholding tax if, for example, it constitutes (or is treated as) an annual payment, a manufactured payment, rent or similar income or royalties for United Kingdom tax purposes (which will be determined by, amongst other things, the terms and conditions specified by the Final Terms of the Note). In such a case, the payment may fall to be made under deduction of United Kingdom tax (the rate of withholding depending on the nature of the payment), subject to any exemption from withholding which may apply and to such relief as may be available following a direction from HMRC pursuant to the provisions of any applicable double tax treaty.

(C) Provision of information

1. HMRC have powers to obtain information, including in relation to interest or payments treated as interest and payments derived from securities. This may include details of the beneficial owners of the Notes (or the persons for whom the Notes are held), details of the persons to whom payments derived from the Notes are or may be paid and information in connection with transactions relating to the Notes. Information obtained by HMRC may be provided to tax authorities in other countries.
2. Information may also be required to be reported in accordance with regulations made pursuant to the EU Savings Directive (see below).

(D) Other Rules Relating to United Kingdom Withholding Tax

1. Where interest or any other payment has been paid under deduction of United Kingdom income tax, Noteholders who are not resident in the United Kingdom may be able to recover all or part of the tax deducted if there is an appropriate provision in any applicable double taxation treaty.
2. The references to "**interest**" above mean "interest" as understood in United Kingdom tax law. The statements above do not take any account of any different definitions of "interest" or "principal" which may prevail under any other law or which may be created by the terms and conditions of the Notes or any related documentation. Noteholders should seek their own professional advice as regards the withholding tax treatment of any payment on the Notes which does not constitute "interest" or "principal" as those terms are understood in United Kingdom tax law.

3. The above summary under the heading of "*United Kingdom Taxation – Notes*" assumes that there will be no substitution of the Issuer pursuant to Condition 13 (*Meetings of Noteholders, Modification and Substitution*) of the Notes and does not consider the tax consequences of any such substitution.

Other Taxation Matters

EU Savings Directive

Under EC Council Directive 2003/48/EC on the taxation of savings income, Member States are required to provide to the tax authorities of another Member State details of payments of interest (or similar income) paid by a person within its jurisdiction to, or collected by such person for, an individual resident in that other Member State or to certain limited types of entities established in that other Member State. However, for a transitional period, Luxembourg and Austria are instead required (unless during that period they elect otherwise) to operate a withholding system in relation to such payments (the ending of such transitional period being dependent upon the conclusion of certain other agreements relating to information exchange with certain other countries).

Luxembourg has announced that it will no longer apply the withholding tax system as from 1 January 2015 and will provide details of payments of interest (or similar income) as from this date.

A number of non-EU countries and territories including Switzerland have adopted similar measures (a withholding system in the case of Switzerland).

The Council of the European Union formally adopted a Council Directive amending the Directive on 24 March 2014 (the "**Amending Directive**"). The Amending Directive broadens the scope of the requirements described above. Member States have until 1 January 2016 to adopt the national legislation necessary to comply with the Amending Directive. The changes made under the Amending Directive include extending the scope of the Directive to payments made to, or collected for, certain other entities and legal arrangements. They also broaden the definition of "interest payment" to cover income that is equivalent to interest. Investors who are in any doubt as to their position should consult their professional advisers.

EU Taxation - Proposed Financial Transactions Tax ("FTT")

On 14 February 2013, the European Commission published a proposal for a Directive for a common FTT in Belgium, Germany, Estonia, Greece, Spain, France, Italy, Austria, Portugal, Slovenia and Slovakia (the "**participating Member States**").

The proposed FTT has very broad scope. If introduced in the form proposed on 14 February 2013, it could apply to certain dealings in Notes (including secondary market transactions) in certain circumstances. The issuance and subscription of Notes should, however, be exempt.

Under the 14 February 2013 proposal, the FTT could apply in certain circumstances to persons both within and outside of the participating Member States. Generally, it would apply to certain dealings in Notes where at least one party is a financial institution, and at least one party is established in a participating Member State. A financial institution may be, or be deemed to be, "established" in a participating Member State in a broad range of circumstances, including (a) by transacting with a person established in a participating Member State or (b) where the financial instrument which is subject to the dealings is issued in a participating Member State.

The FTT proposal remains subject to negotiation between the participating Member States. Additional EU Member States may decide to participate, although certain other Member States have expressed strong objections to the proposal. The FTT proposal may therefore be altered prior to any implementation, the timing of which remains unclear. If the FTT comes into force in its current form, it could affect certain aspects of the Issuer's business. Prospective holders of Notes are advised to seek their own professional advice in relation to the FTT.

On 6 May 2014 the participating Member States issued a statement reaffirming their intention to establish an FTT in some form by 1 January 2016.

Transactions involving the Notes may have tax consequences for purchasers which may depend, amongst other things, upon the status of the purchaser and laws relating to transfer and registration taxes. Purchasers who are in any doubt about the tax position of any aspect of transactions involving the Notes should consult their own tax advisers.

Withholding of U.S. tax on account of FATCA

The United States has enacted rules, commonly referred to as "FATCA", that generally impose a new reporting and withholding regime with respect to certain U.S. source payments (including dividends and interest), gross proceeds from the disposition of property that can produce U.S. source interest and dividends and certain payments made by, and financial accounts held with, entities that are classified as financial institutions under FATCA.

The United States has entered into an intergovernmental agreement regarding the implementation of FATCA with the United Kingdom (the "IGA"). Under the IGA, as currently drafted, the Issuer does not expect non-U.S. source payments made on or with respect to the Notes to be subject to withholding under FATCA. However, significant aspects of when and how FATCA will apply remain unclear, and no assurance can be given that withholding under FATCA will not become relevant with respect to payments made on or with respect to the Notes in the future.

Whilst the Notes are in global form and held within the ICSDs, it is expected that FATCA will not affect the amount of any payments made under, or in respect of, the Notes by the Issuer, any paying agent or the common depositary, given that each of the entities in the payment chain beginning with the Issuer and ending with the ICSDs is a major financial institution whose business is dependent on compliance and participation with FATCA and that any alternative approach introduced under an intergovernmental agreement will be unlikely to affect the Notes. The documentation expressly contemplates the possibility that the securities may go into definitive form and therefore that they may be taken out of the ICSDs. If this were to happen, then a non-FATCA compliant holder could be subject to withholding. However, definitive Notes will only be printed in remote circumstances. An investor should be aware that if any payments in relation to a Note were subject to withholding or deduction under FATCA, the Issuer would have no obligation to pay any additional amounts in relation to such withholding or deduction in accordance with Condition 5 (*Taxation*) of the Notes.

Withholding on Dividend Equivalent Payments

The U.S. Treasury Department has released proposed regulations under Section 871(m) of the Code, which require withholding of up to 30 per cent. (depending on whether an income tax treaty or other exemption applies) on payments or deemed payments made to non-U.S. persons on certain financial instruments to the extent that such payments are treated as being contingent upon, or determined by reference to, U.S.-source dividends. Significant aspects of the application of these regulations to the Notes are uncertain. Payments on Notes made after 31 December 2015 that are treated by the applicable Treasury regulations as being contingent upon, or determined by reference to, any U.S. source dividends may be subject to this withholding. In addition, as currently proposed, the regulations could impose withholding tax on Non-U.S. Holders to the extent U.S.-source dividends are paid on the underlying equity securities, even if no corresponding payment is made on the Notes to the Non-U.S. Holders. Withholding under Section 871(m) will not be imposed on Notes that are issued prior to the date that is 90 days after the final regulations under 871(m) of the Code are published. The Issuer would have no obligation to pay any additional amounts in relation to such withholding or deduction.

SUBSCRIPTION AND SALE OF NOTES

This section sets out details of the arrangements between the Issuer and the Dealers as to the offer and sale of Notes and summarises selling restrictions that apply to the offer and sale of Notes in various jurisdictions.

General

- (1) The Dealer has, in a Master Note Issuance Agreement, agreed with the Issuer a basis upon which it may from time to time agree either as principal or agent of the Issuer to subscribe for or purchase, to underwrite or, as the case may be, to procure subscribers or purchasers for Notes. When entering into any such agreement to subscribe for or purchase, to underwrite, or as the case may be, to procure subscribers for or purchasers for any particular Series of Notes, the Issuer and the relevant Dealer(s) will agree details relating to the form of such Notes and the Conditions relating to such Notes, the price at which such Notes will be purchased by the relevant Dealer(s) and the commissions or other agreed deductibles (if any) payable or allowable by the Issuer in respect of such subscription or purchase. The Master Note Issuance Agreement contains provisions for the Issuer to appoint other Dealers from time to time either generally in respect of the Programme or in relation to a particular Tranche of Notes.
- (2) No action has been or will be taken in any country or jurisdiction by the Issuer or the relevant Dealer(s) that would permit a public offering of Notes, or possession or distribution of any offering material in relation thereto, in any country or jurisdiction where action for that purpose is required other than in the United Kingdom. Persons into whose hands this Base Prospectus or any Final Terms comes are required by the Issuer and the relevant Dealer(s) to comply with all applicable laws and regulations in each country or jurisdiction in or from which they purchase, offer, sell or deliver Notes or have in their possession or distribute the Base Prospectus or any Final Terms or related offering material, in all cases at their own expense.

European Economic Area

Public Offer Selling Restriction Under the Prospectus Directive

In relation to each Member State of the European Economic Area which has implemented the Prospectus Directive (each, a "**Relevant Member State**"), with effect from and including the date on which the Prospectus Directive is implemented in that Relevant Member State (the "**Relevant Implementation Date**"), an offer of Notes which are the subject of the offering contemplated by this Base Prospectus as completed by the Final Terms in relation thereto (or are the subject of the offering contemplated by a drawdown prospectus, as the case may be) to the public in that Relevant Member State may not be made except that, with effect from and including the Relevant Implementation Date, an offer of such Notes to the public in that Relevant Member State may be made:

- (a) **Approved prospectus:** if the Final Terms or drawdown prospectus, as applicable, in relation to the Notes specify that an offer of those Notes may be made other than pursuant to Article 3(2) of the Prospectus Directive in that Relevant Member State (a "**Non-exempt Offer**"), following the date of publication of a prospectus in relation to such Notes which has been approved by the competent authority in that Relevant Member State or, where appropriate, approved in another Relevant Member State and notified to the competent authority in that Relevant Member State, **provided that** any such prospectus which is not a drawdown prospectus has subsequently been completed by the Final Terms contemplating such Non-exempt Offer, in accordance with the Prospectus Directive, in the period beginning and ending on the dates specified in such prospectus or final terms, as applicable, and the Issuer has consented in writing to its use for the purpose of that Non-exempt Offer;
- (b) **Qualified investors:** at any time to any legal entity which is a qualified investor as defined in the Prospectus Directive;
- (c) **Fewer than 100 offerees:** at any time to fewer than 100 or, if the Relevant Member State has implemented the relevant provision of the 2010 PD Amending Directive, 150, natural or legal persons (other than qualified investors as defined in the Prospectus Directive), subject to

- (d) obtaining the prior consent of the relevant Dealer or Dealers nominated by the Issuer for any such offer; or
- (e) **Other exempt offers:** at any time in any other circumstances falling within Article 3(2) of the Prospectus Directive,

provided that no such offer of Notes referred to in (b) to (d) above shall require the Issuer or any Dealer to publish a prospectus pursuant to Article 3 of the Prospectus Directive, or supplement a prospectus pursuant to Article 16 of the Prospectus Directive.

For the purposes of this provision only, the expression an "**offer of Notes to the public**" in relation to any Notes in any Relevant Member State means the communication in any form and by any means of sufficient information on the terms of the offer and the Notes to be offered so as to enable an investor to decide to purchase or subscribe the Notes, as the same may be varied in that Member State by any measure implementing the Prospectus Directive in that Member State, the expression "**Prospectus Directive**" means Directive 2003/71/EC of 4 November 2003 (and amendments thereto, including, when implemented, the 2010 PD Amending Directive, to the extent of such implementation in the Relevant Member State) and includes any relevant implementing measure in the Relevant Member State and the expression "**2010 PD Amending Directive**" means Directive 2010/73/EU.

Selling Restrictions Addressing Additional United Kingdom Securities Laws

An invitation or inducement to engage in investment activity (within the meaning of section 21 of the FSMA) may only be communicated or caused to be communicated in connection with the issue or sale of Notes in circumstances in which section 21(1) of the FSMA would not, if it was not an authorised person, apply to the Issuer.

All applicable provisions of the FSMA must be complied with in respect of anything done in connection with the Notes in, from or otherwise involving the United Kingdom.

United States of America

The Notes have not been and will not be registered under the Securities Act and may not be offered or sold within the United States or to, or for the account or benefit of, U.S. persons except pursuant to an exemption from, or in a transaction not subject to the registration requirements of the Securities Act. Terms used in this paragraph have the meanings given to them by Regulation S.

The Bearer Notes are subject to U.S. tax law requirements and may not be offered, sold or delivered within the United States or its possessions or to a United States person, except in certain transactions permitted by U.S. tax regulations. Terms used in this paragraph have the meanings given to them by the U.S. Internal Revenue Code of 1986, as amended, and regulations thereunder.

Each Dealer has agreed that, except as permitted by the Master Note Issuance Agreement, (a) it will not offer, sell or deliver Notes, (i) as part of their distribution at any time or (ii) otherwise until 40 days after the completion of the distribution of the Notes of a Tranche, as certified to the Principal Paying Agent or the Issuer by such Dealer (or, in the case of a sale of a Tranche of Notes to or through more than one Dealer, by each of such Dealers as to the Notes of such Tranche purchased by or through it, in which case the Principal Paying Agent or the Issuer shall notify each such Dealer when all such Dealers have so certified) within the United States or to, or for the account or benefit of, U.S. persons, and (b) it will send to each dealer to which it sells Notes during the periods referred to in (a)(i) and (ii) above a confirmation or other notice setting forth the restrictions on offers and sales of the Notes within the United States or to, or for the account or benefit of, U.S. persons.

In addition, until 40 days after the commencement of the offering of Notes comprising any Tranche, any offer or sale of Notes within the United States by any dealer (whether or not participating in the offering) may violate the registration requirements of the Securities Act.
