as Issuer

PROGRAMME FOR THE ISSUANCE OF NOTES AND WARRANTS

On 24 February 1999, HSBC Bank plc (the "**Issuer**") established a Programme for the Issuance of Notes and Warrants (the "**Programme**").

This Offering Memorandum (which expression shall include each of Parts A to G hereof and all documents incorporated by reference herein) has been prepared for the purpose of providing disclosure information with regard to the notes (the "**Notes**") and warrants (the "**Warrants**") to be admitted to the Official List of the Irish Stock Exchange and trading on its Global Exchange Market. The Irish Stock Exchange's Global Exchange Market is not a regulated market for the purposes of the Markets in Financial Instruments Directive (2004/39/EC). **This Offering Memorandum constitutes listing particulars for the purposes of listing on the Irish Stock Exchange's Official List and trading on its Global Exchange Market and does not constitute a prospectus for the purposes of Directive 2003/71/EC (as amended), (the "Prospectus Directive").** Application has been made for this Offering Memorandum to be approved by the Irish Stock Exchange and the securities to be admitted to the Irish Stock Exchange's Official List and to trading on its Global Exchange Market. Investors should note that securities to be admitted to the Irish Stock Exchange's Official List and trading on its Global Exchange Market will, because of their nature, normally be bought and traded by a limited number of investors who are particularly knowledgeable in investment matters.

This Offering Memorandum does not comprise (i) a prospectus for the purposes of Part VI of the Financial Services and Markets Act 2000 (as amended) or (ii) a base prospectus for the purposes of the Prospectus Directive. This Offering Memorandum has been prepared solely with regard to Notes and Warrants that are not to be admitted to listing or trading on any regulated market for the purposes of Directive 2004/39/EC and not to be offered to the public in a Member State (other than pursuant to one or more of the exemptions set out in Article 3.2 of the Prospectus Directive).

In relation to any Notes or Warrants, this Offering Memorandum must be read as a whole and together also with the relevant pricing supplement (the "**Pricing Supplement**"). Any Notes or Warrants issued under the Programme on or after the date of this Offering Memorandum are issued subject to the provisions described herein. This does not affect any Notes or Warrants already in issue.

This Offering Memorandum will be valid until 12 months from the date hereof.

Any person (an "**Investor**") intending to acquire or acquiring any securities from any person (an "**Offeror**") will do so, and offers and sales of the securities to an Investor by an Offeror will be made, in accordance with any terms and other arrangements in place between such Offeror and such Investor including as to price, allocations and settlement arrangements. The Issuer will not be a party to any such arrangements with Investors (other than the Dealers as defined herein) in connection with the offer or sale of the securities and, accordingly, this Offering Memorandum and any Pricing Supplement will not contain such information and an Investor must obtain such information from the Offeror.

The Programme also permits Notes or Warrants to be issued on the basis that they will not be admitted to listing, trading and/or quotation by any listing authority, stock exchange and/or quotation system or will be admitted to listing, trading and/or quotation by such other or further listing authorities, stock exchanges and/or quotation systems as may be agreed with the Issuer.

The Issuer has been assigned the following long term credit ratings: AA- by Standard & Poor's Credit Market Services Europe Limited ("**Standard & Poor's**"); Aa2 by Moody's Investors Service Limited ("**Moody's**"); and AA- by Fitch Ratings Limited ("**Fitch**"). Each of Standard & Poor's, Moody's and Fitch is established in the European Union and is registered under Regulation (EC) No. 1060/2009, as amended (the "**CRA Regulation**"). As such, each of Standard & Poor's, Moody's and Fitch is included in the list of credit rating agencies published by the European Securities and Markets Authority on its website in accordance with the CRA Regulation.

Notes and Warrants issued under the Programme may include securities that are PRIIPs under Regulation (EU) No 1286/2014 of the European Parliament and of the Council of 26 November 2014 on key information documents for packaged retail and insurance-based investment products (PRIIPs) (the "**PRIIPs Regulation**"). From the date that the PRIIPs Regulation applies, such securities may only be sold to retail investors (as defined in the PRIIPs Regulation) in the European Economic Area ("**EEA**") if a key information document prepared in accordance with the PRIIPs Regulation (a "**KID**") is made available to such investors. The Issuer only intends to prepare KIDs in relation to those Notes and Warrants that it intends to be distributed to such retail investors. If the Issuer has not prepared a KID in relation to any Series of Notes or Warrants, this will be stated in the related Pricing Supplement and any offer or sale of such Notes or Warrants to retail investors in the EEA may be unlawful once the PRIIPs Regulation applies. Persons purchasing such Notes or Warrants will be deemed to represent, warrant and undertake to the Issuer and the Dealer(s) that they have not offered and sold, and that they will not offer or sell, any such Notes or Warrants to retail investors in the EEA and that they have complied and will comply with the PRIIPs Regulation in relation to such Notes or Warrants. HSBC Bank plc as Issuer and Dealer expressly disclaims any responsibility for offers and sales of Notes and Warrants to retail investors in circumstances where it is stated in the relevant Pricing Supplement that such Notes or Warrants are not intended to be sold to retail investors in the EEA and that no KID has been prepared.

The Notes and Warrants have not been and will not be registered under the United States Securities Act of 1933, as amended (the "**Securities Act**"), the state securities laws of any state of the United States, and may not be offered or sold within the United States or to, or for the account or benefit of, US persons (as defined in Regulation S under the Securities Act ("**Regulation S**")) except pursuant to an exemption from, or in a transaction not subject to, the registration requirements of the Securities Act. Accordingly, the Notes and Warrants are being offered and sold (A) in the United States only to "qualified institutional buyers" (as defined in

Rule 144A under the Securities Act ("**Rule 144A**") and (B) to non-U.S. persons in offshore transactions in reliance on Regulation S. Prospective purchasers are hereby notified that the sellers of Notes and Warrants pursuant to clause (A) above may be relying on the exemption from the provisions of Section 5 of the Securities Act provided by Rule 144A thereunder.

To the best of the knowledge of the Issuer, which has taken all reasonable care to ensure that such is the case, the information contained in this Offering Memorandum is in accordance with the facts and does not omit anything likely to affect the import of such information.

The Issuer does not intend to provide post-issuance information.

None of the Programme Arranger nor any dealer for an issue of Notes nor any manager for an issue of Warrants (each such dealer or manager a "Dealer") has separately verified the information contained herein. Accordingly, no representation, warranty or undertaking (express or implied) is made and no responsibility or liability is accepted by the Programme Arranger or any Dealer as to the accuracy or completeness of the information contained in this Offering Memorandum or any other information provided by the Issuer in connection with the Programme or the Notes or the Warrants or their distribution.

No person is or has been authorised to give any information or to make any representation not contained in or not consistent with this Offering Memorandum and, if given or made, such information or representation must not be relied upon as having been authorised by the Issuer, the Programme Arranger or the Dealer.

Neither this Offering Memorandum nor any Pricing Supplement nor any further information supplied in connection with the Programme or any Notes or any Warrants should be considered as a recommendation or as constituting an invitation or offer by the Issuer or the Dealer to any recipient of this Offering Memorandum to subscribe for or purchase any Notes or any Warrants. Each investor contemplating subscribing for or purchasing any Notes or any Warrants should make its own independent investigation of the affairs, and its own appraisal of the creditworthiness, of the Issuer. Neither this Offering Memorandum nor any other information supplied in connection with the Programme or any Notes or any Warrants constitutes an offer by or on behalf of the Issuer or the Dealer to subscribe for or purchase any Notes or any Warrants.

This Offering Memorandum has been prepared on the basis that any offer of Notes or Warrants in any Member State of the European Economic Area which has implemented the Prospectus Directive (each, a "Relevant Member State") will be made pursuant to an exemption under the Prospectus Directive, as implemented in that Relevant Member State, from the requirement to publish a prospectus for offers of Notes or Warrants. Accordingly any person making or intending to make an offer in that Relevant Member State of Notes or Warrants which are the subject of an offering/placement contemplated in this Offering Memorandum as completed by a Pricing Supplement in relation to the offer of those Notes or Warrants may only do so in circumstances in which no obligation arises for the Issuer or any Dealer to publish a prospectus pursuant to Article 3 of the Prospectus Directive or supplement a prospectus pursuant to Article 16 of the Prospectus Directive, in each case, in relation to such offer. Neither the Issuer nor any Dealer have authorised, nor do they authorise, the making of any offer of Notes or Warrants in circumstances in which an obligation arises for the Issuer or any Dealer to publish or supplement a prospectus for such offer. For the purposes of this paragraph only, the expression "Prospectus Directive" means Directive 2003/71/EC (and amendments thereto), and includes any relevant implementing measure in the Relevant Member State.

An investment in the Notes or Warrants entails certain risks, which vary depending on the specifications and type or structure of the Notes or Warrants.

It is advisable that investors considering acquiring any Notes or Warrants understand the risks of transactions involving the Notes or Warrants and it is advisable that they reach an investment decision after carefully considering, with their financial, legal, regulatory, tax, accounting and other advisers, the suitability of the Notes or Warrants in light of their particular circumstances (including without limitation their own financial circumstances and investment objectives and the impact the Notes or Warrants will have on their overall investment portfolio) and the information contained in this Offering Memorandum and the relevant Pricing Supplement. Investors should consider carefully the risk factors set forth under "Risk Factors" in this Offering Memorandum.

The Issuer disclaims any responsibility to advise investors of any matters arising under the law of the country in which they reside that may affect the purchase of, or holding of, or the receipt of payments or deliveries on the Notes and Warrants.

The distribution of this Offering Memorandum and the offer, distribution or sale of Notes or Warrants may be restricted by law in certain jurisdictions. None of the Issuer or the Dealer represents that this document may be lawfully distributed, or that any Notes or Warrants may be lawfully offered, or assumes any responsibility for facilitating any such distribution or offering, in any such jurisdiction. In particular, action may be required to be taken to permit a public offering of any Notes or Warrants or a distribution of this Offering Memorandum in any jurisdiction. Accordingly, no Notes or Warrants may be offered or sold, directly or indirectly, and neither this Offering Memorandum nor any advertisement or other offering material may be distributed or published in any jurisdiction, except under circumstances that will result in compliance with any applicable laws and regulations. Persons into whose possession this Offering Memorandum or any Notes or Warrants come must inform themselves about, and observe, any such restrictions.

Part A – Information Relating to the Programme Generally – Risk Factors

PART A - INFORMATION RELATING TO THE PROGRAMME GENERALLY

RISK FACTORS

This section provides details of the principal risks associated with the Issuer and the Notes and Warrants.

*Any investment in the Notes and Warrants is subject to a number of risks. Prior to investing in the Notes, prospective investors should carefully consider risk factors associated with any investment in the Notes or Warrants, the business of the Issuer and the industry in which it operates together with all other information contained in this Offering Memorandum, including, in particular the risk factors described below and the risk factors contained in the registration document of the Issuer dated 14 April 2016 (the "**Registration Document**"), incorporated by reference. The Issuer considers such risk factors to be the principal risk factors that may affect the Issuer's ability to fulfil its obligations under the Notes and Warrants and/or risk factors that are material for the purposes of assessing the market risk associated with the Notes and Warrants. Words and expressions defined in the Conditions or elsewhere in this Offering Memorandum have the same meanings in this section.*

The following is not an exhaustive list or explanation of all risks which investors may face when making an investment in the Notes or Warrants and should be used as guidance only. Additional risks and uncertainties relating to the Issuer or the Notes and Warrants that are not currently known to the Issuer, or that the Issuer currently deems immaterial, may individually or cumulatively also have a material adverse effect on the business, prospects, results of operations and/or financial position of the Issuer or the Notes and Warrants themselves, and, if any such risk should occur, the price of the Notes and Warrants may decline and investors could lose all or part of their investment. Investors should consider carefully whether an investment in the Notes or Warrants is suitable for them in light of the information in this Offering Memorandum and their personal circumstances.

Risks relating to the Issuer

A description of the risk factors relating to the Issuer that may affect the ability of the Issuer to fulfil its obligations under the Notes and Warrants are set out in (i) the section entitled "*Risk Factors*" on pages 1 to 19 of the Registration Document (as defined in the section headed "*Incorporation by Reference*" below).

(1) Risks relating to all issues of Notes and Warrants

A wide range of Notes and Warrants may be issued under the Programme. The Issuer may issue Warrants linked to, or Notes with principal and/or interest determined by reference to, one or more variables such as an index, formula, securities, commodities, currency exchange rates, interest rates, inflation indices, the credit of one or more entities or other factors (each underlying, commodity, currency or other asset being a "**Reference Asset**" or, if it is comprised in a basket of assets, a "**Reference Asset Component**"). A number of these Notes or Warrants may have features which contain particular risks for investors. Set out below is a description of some of the risks that should be taken into consideration by prospective purchasers of Notes or Warrants.

Credit risk

The Notes and Warrants are direct, unsecured and unsubordinated obligations of the Issuer and not of any other person. If the Issuer's financial position were to deteriorate, there could be a risk that the Issuer would not be able to meet its obligations under the Notes and Warrants (the Issuer's credit risk). If the Issuer becomes insolvent or defaults on its obligations under the Notes and Warrants, in the worst case scenario investors in the Notes and Warrants could lose all of their invested amounts.

Part A – Information Relating to the Programme Generally – Risk Factors

Investors should be aware that any rating of the Issuer reflects the independent opinion of the relevant rating agency and is not a guarantee of the Issuer's credit quality. A credit rating is not a recommendation to buy, sell or hold securities and may be revised or withdrawn by its assigning rating agency at any time.

The Notes and Warrants are unsecured obligations

It will be particularly important for the investor to evaluate the Issuer's credit risk when considering an investment in the Notes and Warrants as the Notes and Warrants are unsecured. If the Issuer became unable to pay amounts owed to the investor under the Notes or Warrants (as applicable), such investor does not have recourse to the Reference Assets or Reference Asset Component or any other security/collateral and, in a worst case scenario, may not receive any payments under the Notes or Warrants (as applicable).

The Notes and Warrants are not ordinary debt securities

An investment in the Notes and Warrants is not an equivalent to an investment in a time deposit. The terms of the Notes and Warrants may differ from those of ordinary debt securities because the Notes may not pay interest, the Warrants do not pay interest and, on redemption or expiry (as applicable), depending on the performance of the Reference Asset(s) or Reference Asset Component(s), as applicable, may return less than the amount invested or nothing.

The repayment of any amount invested in Notes and Warrants and any return on investment may be variable and is not guaranteed. Unlike a savings account or similar investment with a lower return and little or no capital risk, the Notes and Warrants may potentially have a greater return but there is a greater risk of loss of capital. As a result, the investors' capital can fall below the amount initially invested.

Notes and Warrants are designed to track the value or level of the underlying Reference Asset(s). The value or level of the Reference Assets can alter sharply because they reflect the performance of the underlying value or general stock and other market conditions. Therefore, there is a risk that, if the underlying Reference Asset(s) does not move in the anticipated direction, the Notes or Warrants may return less than the amount invested or, in a worst case scenario, nothing. In such circumstances, investors could lose their entire invested amount. In addition, investors should note that there may be a risk that if the issuers of an underlying Reference Asset(s) become insolvent, the value of such Reference Asset(s) will become zero. As a result thereof the value of the Notes or Warrants will be adversely affected and in a worst case scenario become zero as well. Investors in the Notes or Warrants would then lose all of their invested amounts.

Capital risks relating to Notes and Warrants: Unless the relevant Series of Notes or Warrants is fully principal protected, the repayment of any amount invested in the Notes or Warrants is not fully guaranteed. As a result the investors' capital can fall below the amount initially invested in such Notes or Warrants. Unlike a savings account or similar investment, an investment in the Notes or Warrants is not covered by the UK Financial Services Compensation Scheme.

No ownership rights

An investment in Notes or Warrants relating to a Reference Asset or Reference Asset Component is not the same as an investment in the Reference Asset or any Reference Asset Component and does not (prior to settlement of any exchange of Notes for the Reference Asset, where applicable) provide a Noteholder or Warrantholder with any of the rights that a holder of such security underlying a Reference Asset or any Reference Asset Component may have (such as voting rights and rights to receive dividends).

There may be no active trading market or secondary market liquidity for Notes or Warrants

Any Series of Notes or Warrants issued will be new securities which may not be widely distributed and for which there is no active trading market (even where, in the case of any particular Tranche, such Tranche is to be consolidated with and form a single series with a Tranche which is already issued). If the Notes or Warrants are traded after their initial issuance, they may trade at a discount to their initial offering price, depending upon prevailing interest rates, the market for similar Notes or Warrants (as applicable), general economic conditions, commissions paid by the Issuer and the financial condition of the Issuer. Accordingly, the investor is subject to the risk that its investment in the Notes and Warrants may be difficult or impossible to trade.

Part A – Information Relating to the Programme Generally – Risk Factors

It is not possible to predict whether any trading market for the Notes and Warrants will develop or, if it does, the price at which Notes and Warrants will trade in the secondary market or whether such market will be liquid or illiquid. If any Notes and Warrants are not listed or traded on any exchange, pricing information for the Notes and Warrants may be more difficult to obtain and the liquidity of the Notes and Warrants may be adversely affected. Also, to the extent that Notes are redeemed or purchased and cancelled or Warrants are exercised or purchased and cancelled, the number of Notes or Warrants outstanding will decrease, resulting in a lessening of the liquidity of the Notes and Warrants. A lessening of the liquidity of the Notes and Warrants may cause, in turn, an increase in the volatility associated with the price of the Notes and Warrants. An investor in the Notes or Warrants is subject to the risk therefore, that to the extent that there is no liquid market in the Notes and Warrants, an investor may have to wait until redemption of such Notes or until it is able to exercise such Warrants in order to realise the value of its investment and, as such, an investor should proceed on the assumption that they may have to bear the economic risk of an investment in the Notes or Warrants until their redemption or exercise date.

Illegality

The Noteholders and Warrantholders are subject to the risk that the Issuer may terminate its obligations under the Notes or Warrants if the Calculation Agent determines in its sole and absolute discretion acting in good faith that the performance of the Issuer's obligations under any Notes or Warrants (or the Issuer's designated affiliates' obligations under any hedging or funding arrangement established in connection therewith) shall have become unlawful or impracticable in whole or in part. Following such a determination of illegality, the Issuer may terminate its obligations under the Notes or Warrants against payment of an amount determined by the Calculation Agent which may be, if so specified in the relevant Pricing Supplement, the Fair Market Value of such Note or Warrant immediately prior to such termination (adjusted to account fully for any reasonable expenses and costs incurred by the Issuer and/or its designated affiliates in connection with the Issuer's obligations under the Notes or Warrants or any related hedging or funding arrangements as a result of such events). Noteholders and Warrantholders may suffer a loss of some or all of their investment as a result of such early termination, and will forego any future appreciation in the securities underlying the relevant Reference Asset and, in the case of Notes only, future interest payments applicable to such Notes (if any).

Certain factors affecting the value and trading price of Notes and Warrants

The value of Notes and Warrants prior to expiry or maturity (as applicable) is expected to depend on a number of factors including, without limitation: (i) the trading price of the Notes and Warrants; (ii) the value and volatility of the Reference Asset(s) or Reference Asset Component(s); (iii) the time remaining to expiration or maturity; (iv) any change(s) in interim interest rates and dividend yields; (v) any change(s) in currency exchange rates; (vi) market conditions or liquidity of the Reference Asset(s) or Reference Asset Component(s); and (vii) any related transaction costs. As a result of these factors the price at which a Noteholder or Warrantholder will be able to sell the Notes or Warrants prior to maturity or expiry (as applicable) may be less than the initial amount invested in the Notes or Warrants. Each of these factors interrelate in complex ways (for example, one factor may offset an increase in the trading value of the Notes or Warrants caused by another factor). Investors are subject to the risk that the value of Notes or Warrants may be adversely affected by one or more of the following factors:

(a) *Fluctuations in the level or value of the Reference Asset(s) or Reference Asset Component(s)*

Fluctuations in the value or level of the Reference Asset(s) or Reference Asset Component(s) may affect the value of the Notes or Warrants, but equally an investor in the Notes or Warrants is subject to the risk that expectations of fluctuation in value or level of the Reference Asset(s) or Reference Asset Component(s) during the remaining period to the maturity of the Notes or expiry of the Warrants (as applicable) or any earlier redemption or exercise date would adversely affect amounts payable in respect of the Notes or Warrants. The level of the reference factor, Reference Asset or Reference Asset Component may vary over time and may increase or decrease by reference to a variety of factors which may include corporate actions, macro-economic factors and speculation.

(b) *Interest rates*

Rising interest rates may lower the value of the Reference Asset(s) or Reference Asset Component(s), and thus, the value of the Notes and Warrants. Changes in interest rates may also

Part A – Information Relating to the Programme Generally – Risk Factors

affect the economy of a country in which securities underlying the Reference Asset(s) or Reference Asset Component(s) are traded, and which may adversely affect the value of the Notes and Warrants.

(c) *Volatility of the Reference Asset(s) or Reference Asset Component(s)*

If the size and frequency of market fluctuations in value of the Reference Asset(s) or Reference Asset Component(s) increase or decrease, the trading value of the Notes and Warrants may be adversely affected.

(d) *Time remaining to maturity or expiry*

The Notes and Warrants may trade at a value above that which would be expected based on the level of interest rates and the level of the Reference Asset(s) or Reference Asset Component(s). Any such difference will reflect a "time premium" resulting from expectations concerning the Reference Asset(s) or Reference Asset Component(s) during the period prior to the maturity of the Notes or the expiry of the Warrants. An investor in the Notes and Warrants should be aware of the risk that, as the time remaining to the redemption or exercise (as applicable) of the Notes and Warrants decreases, this time premium would likely decrease, which would adversely affect the value of the Notes and Warrants.

(e) *Dividend rates*

An investor in the Notes and Warrants is subject to the risk that changes in dividend or other distribution rates on the Reference Asset(s) or Reference Asset Component(s) may adversely affect the trading value of the Notes and Warrants. If the dividend or other income rates on the Reference Asset(s) or Reference Asset Component(s) increase, the trading value of the Notes and Warrants are likely to decrease as the Notes and Warrants generally do not reflect such distributions by way of increase in amounts payable on redemption or exercise, or pass-through payments of such distributions.

Pricing

As part of the valuation mechanism, Notes and Warrants may specify a time and an exchange or other venue in which the level or value of the Reference Asset(s) are to be observed. Depending on how the level or value of the Reference Asset(s) is calculated, the level or value of such Reference Asset(s) may fluctuate throughout the trading day, and they may change rapidly. As a result, investors should note that return on any Notes and Warrants may be particularly sensitive to the choice of valuation times and valuation methods. The "price discovery" mechanism used to ascertain the value of the underlying at any given time on exchanges or other venues may not be uniform throughout the trading day. This may affect the valuation of any issuance of Notes and Warrants. For example, exchanges may conduct auctions to set an opening or closing price, and trading characteristics and participants in after-hours trading sessions may differ from those during regular hour sessions.

Potential conflicts of interest

The Issuer or affiliates of the Issuer may from time to time: (i) advise or engage in business with the issuers of or obligors in respect of Reference Assets or Reference Asset Components regarding transactions to be entered into by them; (ii) engage in transactions involving Reference Assets or Reference Asset Components for their proprietary accounts and for other accounts under their management; (iii) carry out hedging activities related to the Notes and Warrants by purchasing the Reference Assets or Reference Asset Components; (iv) publish research reports relating to certain Reference Assets or Reference Asset Components; or (v) acquire non-public information about a Reference Asset or Reference Asset Component. Any such activity by the Issuer or its affiliates (as applicable) may have a negative effect on the value of such Reference Assets or Reference Asset Components and therefore on the value of any Notes and Warrants to which they relate.

Certain affiliates of the Issuer or the Issuer itself may: (i) be the counterparty to the hedge of the Issuer's obligations under an issue of Notes and Warrants; (ii) be the Calculation Agent responsible for making determinations and calculations in connection with the Notes and Warrants; or (iii) publish research reports which express opinions or provide recommendations that are inconsistent with purchasing or holding the Notes and Warrants referencing the Reference Assets. Accordingly, there is a risk that certain

Part A – Information Relating to the Programme Generally – Risk Factors

conflicts of interest may arise both among the Issuer or these affiliates and between the interests of the Issuer or these affiliates and the interests of Noteholders or Warrantholders (as applicable).

Commission and cost of hedging

The original issue price of the Notes or Warrants may include the distribution commission or fee charged by the Issuer and/or its affiliates and the cost or expected cost of hedging the Issuer's obligations under the Notes or Warrants (if any). Accordingly, there is a risk that, upon issue, the price, if any, at which the Issuer or its affiliates would be willing to purchase Notes or Warrants from the investor in the secondary market would be lower than the original issue price. Such fee, commission and cost of hedging may also be deducted from the redemption amount payable upon early termination of the Notes or Warrants. In addition, any such prices may differ from values determined by pricing models used by the Issuer or affiliates as a result of such compensation or other transaction costs.

Effect of general economic conditions on the Notes and Warrants

The market for debt securities is influenced by economic and market conditions, interest rates, currency exchange rates and inflation rates in Europe and other countries and areas. There can be no assurance that events occurring elsewhere will not cause market volatility or that such volatility will not adversely affect the price of Notes or Warrants or that economic and market conditions will not have any other adverse effect.

Hedging activities of the Issuer and affiliates

The Issuer or its affiliates may carry out hedging activities related to the Notes and Warrants, including purchasing Reference Assets or Reference Asset Components, but will not be obliged to do so. Certain of the Issuer's affiliates may also purchase and sell the Reference Assets or Reference Asset Components on a regular basis as part of their securities businesses. Any of these activities could potentially affect the value of the reference factor, Reference Asset or Reference Asset Component and, accordingly, the value of the Notes or Warrants.

Calculation Agent's discretion and valuation

Calculation of the interest payments (if applicable) and/or amount payable in respect of redemption or expiry or exercise may be by reference to certain specified screen rate(s), level(s) or value(s) published on an exchange or other quotation system, or if any such rate(s), level(s) or value(s) is not displayed at the relevant time, rate(s), level(s) or value(s) (as applicable) determined by the Calculation Agent in its sole and absolute discretion acting in good faith, or otherwise, an exercise of its discretion in accordance with and pursuant to the terms and conditions of the applicable Notes and Warrants. The Calculation Agent may also have other discretionary powers (including without limitation, powers to (i) adjust terms and conditions of Notes and Warrants; (ii) in certain circumstances, substitute the Reference Asset; (iii) postpone payment; (iv) redeem or terminate the Notes and Warrants prior to their scheduled maturity or expiry, as applicable; or (v) apply any combination of the foregoing). Investors should be aware that, in circumstances where the Issuer has entered into hedging arrangements (or otherwise), the exercise of its discretionary powers as Calculation Agent under the conditions of the Notes and Warrants, or as calculation agent under its related hedge, may have an adverse impact on the performance of the Notes and Warrants, which may result in a lower return, or no return at all. The Notes may be redeemable prior to their scheduled maturity and the Warrants may expire prior to their scheduled expiry in certain circumstances at an amount determined by the Calculation Agent which may be less than their nominal amount. Accordingly, an investor in the Notes and Warrants is subject to the risk that the calculation of payments and other determinations under the Notes and Warrants are conclusively determined by one party which may be the Issuer itself or its affiliates and the investor cannot object to such calculation or determination.

The Calculation Agent may be permitted to use its proprietary models in setting the terms of an adjustment, and it may be difficult for investors to predict the resulting adjustments in advance. In such case, an investor would be subject to the risk that it would be difficult to verify that adjustments made to payments under the Notes and Warrants are legitimate and consistent with the terms of an issue of Notes and Warrants without expertise in applying valuation models.

Part A – Information Relating to the Programme Generally – Risk Factors

All calculations and determinations made by the Calculation Agent in relation to the Notes and Warrants shall (save in the case of manifest error at the time the relevant determination is made) be final and binding on the Issuer and all Noteholders and Warrantholders. The Calculation Agent shall have no obligations to the holders of Notes or Warrants, and shall only have the obligations expressed to be binding on it pursuant to the Conditions.

Exchange rate risks and exchange control risks

The Issuer will generally pay amounts in respect of the Notes and Warrants in the Settlement Currency (as referred to in the relevant Pricing Supplement). As a result there are various potential exchange rate risks that investors in the Notes or Warrants need to consider.

Investor converting amounts paid in the Settlement Currency into the Investor's Currency

If an investor anticipates that it will need to convert payments made under the Notes or Warrants from the Settlement Currency into a currency of its choice (the "**Investor's Currency**") (for instance, if other obligations of the investor are payable in the Investor's Currency), then the investor is subject to the risk that the currency conversion rate which it must pay for exchanging the Settlement Currency into the Investor's Currency becomes less attractive and therefore decreases the realisable value of its investment.

An appreciation in the value of the Investor's Currency relative to the Settlement Currency at any time would decrease (i) the value of any redemption (in the case of Notes) or cash settlement (in the case of Warrants) payable to the investor and (ii) the market value of the Notes or Warrants, in each case where converted into the Investor's Currency at that time. As a result, the amount that the investors receive in respect of the Notes or Warrants, as converted, may be less than expected or zero.

Material risks involved in currency conversion

The material risks involved in the currency conversion include the risk that exchange rates may change significantly (including changes due to appreciation of the Investor's Currency relative to the Settlement Currency). It is impossible to predict whether the value of one such currency relative to another will rise or fall during the term of the Notes and Warrants.

Amounts converted from another currency into the Settlement Currency or calculated by reference to an underlying currency pair

The Pricing Supplement in relation to some Notes may specify that Conversion provisions apply in relation to specified payments under the Notes, in which case the amounts of such payments will be converted into the Settlement Currency in accordance with provisions set out in the relevant Pricing Supplement. The relevant Pricing Supplement may also specify in relation to a Series of Notes or Warrants that certain amounts payable in respect of the Notes or Warrants are to be determined by reference to the exchange rate(s) between one or more underlying currencies. In any such case, the exchange rate and exchange control risks set out above in relation to the Settlement Currency and the Investor's Currency may apply to the Settlement Currency and/or a Cross Currency and the underlying currency and/or such underlying currency pair(s).

In addition, if Price Source Disruption is specified in the relevant Pricing Supplement as being applicable to any Notes or Warrants, then if for any reason a relevant rate of exchange is not available the Calculation Agent may (i) use alternative sources to determine an exchange rate (such source as may be determined by the Calculation Agent), (ii) postpone the determination of the rate of exchange (subject to a postponement cut-off of 30 calendar days (or such other number of calendar days as may be specified in the Pricing Supplement) after which the Calculation Agent, acting in a commercially reasonable manner, shall determine its good faith estimate of the rate and use exchange rates prevailing at later times or (iii) determine the rate of exchange as the arithmetic mean of exchange rates provided by leading dealers in the relevant foreign exchange market. The exchange rate so determined may differ from the rate which would have prevailed but for the occurrence of the Price Source Disruption and this may lead to a decrease in the amount payable to the investors. In addition, if the Calculation Agent postpones the determination of the rate of exchange the due dates for any payments in respect of the Notes or Warrants (including, without limitation, the maturity date or cash settlement payment date) and/or the date of delivery, where physical settlement applies, may also be postponed.

Part A – Information Relating to the Programme Generally – Risk Factors

If a specified fixing date for the determination of a relevant exchange rate is an Unscheduled Holiday, the fixing date will be postponed to the next relevant currency business day which is not an Unscheduled Holiday, (subject to a postponement cut-off of 30 calendar days (or such other number of calendar days as may be specified in the Pricing Supplement) after which the Calculation Agent, acting in a commercially reasonable manner, shall determine its good faith estimate of the relevant rate).

If the Issuer is unable to settle payments in the Settlement Currency, the Issuer may, in certain circumstances, settle any payments due under the Notes or Warrants by payment of the Alternative Payment Currency Equivalent (which will be an amount in USD or such other currency specified as the Alternative Payment Currency in the relevant Pricing Supplement) (see "*Payment of Alternative Payment Currency Equivalent*" below).

Exchange control risks

Investors in Notes and Warrants should also be aware that there is the risk that authorities with jurisdiction over the Investor's Currency or Settlement Currency such as government and monetary authorities may impose or modify (as some have done in the past) exchange controls that could adversely affect an applicable exchange rate or transfer of funds in and out of the country. It is impossible to predict whether the value of one such currency relative to another will rise or fall during the term of the Notes and Warrants. As a result of exchange controls and restrictions the Issuer may not be able to make payments under the Notes and Warrants in the Settlement Currency and will therefore pay the equivalent of the amounts due under the Notes in U.S. dollars or another currency. Investors in the Notes and Warrants will therefore forego any future appreciation of the Settlement Currency. See for further details "*Risks relating to Emerging Markets*".

Payment of Alternative Payment Currency Equivalent

Notes and Warrants may provide that, if by reason of an FX Disruption Event (as defined in the Conditions) or the relevant clearing system ceasing to accept payments in the Settlement Currency or the occurrence of an event specified in the Pricing Supplement as an Alternative Payment Currency Event, the Issuer is not able to satisfy its obligations to pay any amounts due under the Notes or Warrants (as applicable) in the Settlement Currency, then the Issuer is entitled to make the payments in an alternative payment currency (the "**Alternative Payment Currency**").

Certain considerations regarding hedging

Investors intending to purchase Notes or Warrants to hedge against the market risk associated with investing in a Reference Asset should recognise that there is a risk that the value of the Notes or Warrants may not exactly correlate with the value of the Reference Asset to which they relate. Due to fluctuating supply and demand for the Notes or Warrants, there is no assurance that their value will correlate with movements of the Reference Asset. This is, in part, due to fluctuating supply and demand for the Notes and Warrants. In addition, the formula for redemption or exercise (as applicable) may be subject to a cap. For these reasons, among others, it may not be possible to purchase or liquidate assets in a portfolio at the prices used to calculate the value of any relevant Reference Asset. Accordingly, investors who invest in Notes or Warrants as a means of hedging may be exposed to risks arising out of such differences in value.

Value of Baskets

The value of a basket of Reference Assets to which any Notes or Warrants relate may be affected by the number of Reference Assets included in such basket. Generally, the value of a basket that includes Reference Assets from a number of companies or obligors or other components or which gives relatively equal weight to each Reference Asset will be less affected by changes in the value of any particular Reference Asset included therein than a basket that includes fewer Reference Assets or that gives greater weight to some Reference Assets.

In particular, if the Reference Assets included in a basket are all in or relate to a particular industry, the value of such a basket will be affected to a greater extent by the economic, financial and other factors affecting that industry than if the Reference Assets included in the basket relate to various industries that are affected by different economic, financial or other factors or are affected by such factors in different ways.

Part A – Information Relating to the Programme Generally – Risk Factors

Investors in the Notes and Warrants are subject to the risk that other risks relating to the Reference Assets which adversely affect the value of the Notes or Warrants will be exacerbated due to the number of and/or type of Reference Assets.

Change of law

The Conditions of the Notes and the Conditions of the Warrants are based on English law and United Kingdom tax law in effect as at the date of this Offering Memorandum. There is a risk that the interpretation and/or effect of the Conditions may be subject to change in such a manner as to adversely affect the contractual rights of holders of the Notes and Warrants. The value of the Notes and Warrants may also be affected by changes in the laws of the jurisdiction of listing or incorporation of the issuers of or obligors under the Reference Asset(s) or Reference Asset Component(s).

No assurance can be given as to the impact of any possible judicial decision or change to English law or administrative practice after the date of this Offering Memorandum.

Clearing systems

Because Notes and Warrants may be held by or on behalf of the relevant clearing system as specified in the relevant Pricing Supplement investors will be able to trade their interests only through the relevant clearing system. In addition, Notes and Warrants may be issued as Uncertificated Registered Notes or Uncertificated Registered Warrants. CREST will maintain records of the interests in such Notes and Warrants and investors will be able to trade their interests only through CREST. Investors will have to rely on their procedures for transfer, payment and communication with the Issuer to receive payment under the Notes and Warrants. Investors are therefore subject to the risk of those settlement procedures failing such that payments due under the Notes or Warrants may be delayed and that book entries or entries in the register are entered incorrectly which may lead to difficulties with an investor asserting ownership of its Notes or Warrants.

The Issuer has no responsibility or liability for the records relating to, or payments made in respect of, interests in the global Notes or global Warrants. Holders of interests in the global Notes or global Warrants will not have a direct right to vote in respect of the relevant Notes or Warrants. Instead, such holders will be permitted to act only to the extent that they are enabled by the relevant clearing system to appoint appropriate proxies.

Modification, waiver and substitution

Investors in the Notes or Warrants are subject to the risk that modifications to the Conditions of the Notes or Warrants may be made without the consent of any Noteholders or Warrantholders, as the case may be, where the Issuer determines that:

- the modification is not materially prejudicial to the interests of the Noteholders and the Warrantholders as a whole;
- where the modification of the Notes or Warrants is of a formal, minor or technical nature or is made to correct a manifest error or comply with mandatory provisions of the law of the Issuer's jurisdiction of incorporation; or
- where the Conditions are inconsistent with the termsheet relating to the relevant Notes or Warrants.

There is a commercial risk that the obligations of the Warrantholder or the Noteholder will be owed by a principal debtor other than the Issuer. The Notes and Warrants permit the substitution of an affiliate of the Issuer as principal debtor in respect of the Notes and the Warrants, **provided that** the Issuer provides a guarantee.

Applicable Bank Resolution Powers

The EU Bank Recovery and Resolution Directive (Directive 2014/59/EU) (the "**Bank Recovery and Resolution Directive**" or "**BRRD**") provides an EU-wide framework for the recovery and resolution of credit institutions and their parent companies and other group companies. The BRRD is designed to provide relevant authorities with a set of tools to intervene sufficiently early and quickly in an unsound or

Part A – Information Relating to the Programme Generally – Risk Factors

failing institution so as to ensure the continuity of the institution's critical financial and economic functions, while minimising the impact of an institution's failure on the economy and financial system. In the United Kingdom the Banking Act 2009 (the "**Banking Act**") implements the provisions of the BRRD.

Statutory Intervention Powers

The Issuer is subject to the Banking Act which gives wide powers in respect of UK banks and their parent and other group companies to HM Treasury, the Bank of England, the Prudential Regulation Authority and the United Kingdom Financial Conduct Authority (each a "**relevant UKRA**") in circumstances where a UK bank has encountered or is likely to encounter financial difficulties.

These powers include powers to: (a) transfer all or some of the securities issued by a UK bank or its parent, or all or some of the property, rights and liabilities of a UK bank or its parent (which would include the Notes and Warrants issued by the Issuer under the Programme), to a commercial purchaser or, in the case of securities, to HM Treasury or an HM Treasury nominee, or, in the case of property, rights or liabilities, to an entity owned by the Bank of England); (b) override any default provisions, contracts or other agreements, including provisions that would otherwise allow a party to terminate a contract or accelerate the payment of an obligation; (c) commence certain insolvency procedures in relation to a UK bank; and (d) override, vary or impose contractual obligations, for reasonable consideration, between a UK bank or its parent and its group undertakings (including undertakings which have ceased to be members of the group), in order to enable any transferee or successor bank of the UK bank to operate effectively.

The Banking Act also gives power to HM Treasury to make further amendments to the law for the purpose of enabling it to use the special resolution regime powers effectively, potentially with retrospective effect.

Power to reduce Noteholders' and Warrantheolders' claims

The powers granted to the relevant UKRA also include powers to vary or extinguish the claims of certain creditors. These powers include a "bail-in" power.

The bail-in power gives the relevant UKRA the power to cancel all or a portion of the principal amount of, or interest on, certain unsecured liabilities (which could include the Notes and/or Warrants) of a failing financial institution or its holding company, to convert certain debt claims (which could be amounts payable under the Notes and/or Warrants) into another security, including ordinary shares of the surviving entity, if any and/or to amend or alter the terms of such claims, including the maturity of the Notes or the expiry of the Warrants or amendment of the amount of interest payable on the Notes, or the date on which interest becomes payable, including by suspending payment for a temporary period. The Banking Act requires the relevant UKRA to apply the bail-in power in accordance with a specified preference order which differs from the ordinary insolvency order. In particular, the relevant UKRA must write-down or convert debts in the following order: (i) additional tier 1, (ii) tier 2, (iii) other subordinated claims and (iv) eligible senior claims. The claims of some creditors whose claims would rank equally with those of the Noteholders and/or Warrantheolders may be excluded from bail-in. The impact of bail-in on the Noteholders and/or Warrantheolders will be greater the more of such creditors there are.

Although the exercise of bail-in power under the Banking Act is subject to certain pre-conditions, there remains uncertainty regarding the specific factors (including, but not limited to, factors outside the control of the Issuer or not directly related to the Issuer) which the relevant UKRA would consider in deciding whether to exercise such power with respect to the Issuer and its securities (including the Notes or the Warrants). Moreover, as the relevant UKRA may have considerable discretion in relation to how and when it may exercise such power, holders of the Issuer's securities may not be able to refer to publicly available criteria in order to anticipate a potential exercise of power and consequently its potential effect on the Issuer and its securities.

Powers to direct restructuring of the Issuer and its subsidiaries

As well as a bail-in power, the powers of the relevant UKRA under the Banking Act include the power to (i) direct the sale of the relevant financial institution or the whole or part of its business on commercial terms without requiring the consent of the shareholders or complying with the procedural requirements that would otherwise apply, (ii) transfer all or part of the business of the relevant financial institution to a

Part A – Information Relating to the Programme Generally – Risk Factors

"bridge institution" (an entity created for such purpose that is wholly or partially in public control) and (iii) separate assets by transferring impaired or problem assets to one or more publicly owned asset management vehicles to allow them to be managed with a view to maximising their value through eventual sale or orderly wind-down (this can be used together with another resolution tool only). In addition, the Banking Act gives the relevant UKRA power to amend the maturity date or expiry date and/or any interest payment date of debt instruments, securities or other eligible liabilities of the relevant financial institution and/or impose a temporary suspension of payments and/or discontinue the listing and admission to trading of debt instruments or securities.

The exercise by the relevant UKRA of any of the above powers under the Banking Act (including especially the bail-in power) could lead to the holders of the Notes or Warrants losing some or all of their investment.

Moreover, trading behaviour in relation to the securities of the Issuer (including the Notes and Warrants), including market prices and volatility, may be affected by the use of, or any suggestion of the use of, these powers and accordingly, in such circumstances, the Notes and Warrants are not necessarily expected to follow the trading behaviour associated with other types of securities. There can be no assurance that the taking of any actions under the Banking Act by the relevant UKRA or the manner in which its powers under the Banking Act are exercised will not materially adversely affect the rights of holders of the Notes or Warrants, the market value of the Notes or Warrants and/or the Issuer's ability to satisfy its obligations under the Notes and Warrants.

Although the BRRD also makes provision for public financial support to be provided to an institution in resolution subject to certain conditions, it provides that the financial public support should only be used as a last resort after the relevant UKRA has assessed and exploited, to the maximum extent practicable, all the resolution tools, including the bail-in power. Accordingly, it is unlikely that investors in the Notes or Warrants will benefit from such support even if it were provided.

Reform of LIBOR and EURIBOR and other interest rate index and equity, commodity and foreign exchange rate index "benchmarks"

The London Inter-Bank Offered Rate ("**LIBOR**"), the Euro Interbank Offered Rate ("**EURIBOR**") and other indices which are deemed "benchmarks" are the subject of recent national, international and other regulatory guidance and proposals for reform. Some of these reforms are already effective whilst others are still to be implemented. These reforms may cause such "benchmarks" to perform differently than in the past, or to disappear entirely, or have other consequences which cannot be predicted. Any such consequence could have a material adverse effect on any Notes or Warrants linked to a "benchmark".

Key international proposals for reform of "benchmarks" include IOSCO's Principles for Financial Market Benchmarks (July 2013) (the "**IOSCO Benchmark Principles**") and the European Commission's proposed regulation on indices used as "benchmarks" in certain financial instruments and financial contracts (the "**Proposed Benchmark Regulation**").

The IOSCO Benchmark Principles aim to create an overarching framework of principles for benchmarks to be used in financial markets, specifically covering governance and accountability as well as the quality and transparency of benchmark design and methodologies. A review published by IOSCO in February 2015 of the status of the voluntary market adoption of the IOSCO Benchmark Principles noted that, as the benchmarks industry is in a state of change, further steps may need to be taken by IOSCO in the future, but that it is too early to determine what those steps should be. The review noted that there has been a significant market reaction to the publication of the IOSCO Benchmark Principles, and widespread efforts being made to implement the IOSCO Benchmark Principles by the majority of administrators surveyed.

On 28 April 2016 the EU Parliament approved the final compromise text of the Proposed Benchmark Regulation, and on 17 May the European Council adopted the final text. The text will be translated into the 24 official languages and published in the Official Journal mid-2016, and will enter into force on the day following publication. The Proposed Benchmark Regulation will apply from the date 18 months after entry into force, currently expected to be late 2017 or early 2018.

The Proposed Benchmark Regulation will apply to "contributors", "administrators" and "users" of "benchmarks" in the EU, and will, among other things, (i) require benchmark administrators to be authorised (or, if non-EU-based, to have satisfied certain "equivalence" conditions in its local jurisdiction,

Part A – Information Relating to the Programme Generally – Risk Factors

to be "recognised" by the authorities of a Member State pending an equivalence decision or to be "endorsed" for such purpose by an EU competent authority) and to comply with extensive requirements in relation to the administration of "benchmarks" and (ii) ban the use by "supervised entities" of "benchmarks" of unauthorised administrators. The scope of the Proposed Benchmark Regulation is wide and, in addition to so-called "critical benchmark" indices such as LIBOR and EURIBOR, could also potentially apply to many other interest rate indices, as well as equity, commodity and foreign exchange rate indices and other indices (including "proprietary" indices or strategies) which are referenced in certain financial instruments (including securities or OTC derivatives traded on an EU regulated market, EU multilateral trading facility (MTF), EU organised trading facility (OTF) or "systematic internaliser"), certain financial contracts and investment funds. Different types of "benchmark" are subject to more or less stringent requirements, and in particular a lighter touch regime may apply where a "benchmark" is not based on interest rates or commodities and the value of financial instruments, financial contracts or investment funds referring to a benchmark is less than €50bn, subject to further conditions.

The Proposed Benchmark Regulation could have a material impact on any listed Notes or Warrants linked to a "benchmark" index, including in any of the following circumstances:

- a rate or index which is a "benchmark" could not be used as such if its administrator does not obtain authorisation or is not able to rely on one of the regimes available to non-EU administrators. In such event, depending on the particular "benchmark" and the applicable terms of the Notes or Warrants, the Notes or Warrants could be de-listed, adjusted, redeemed or otherwise impacted; and
- the methodology or other terms of the "benchmark" could be changed in order to comply with the terms of the Proposed Benchmark Regulation, and such changes could have the effect of reducing or increasing the rate or level or affecting the volatility of the published rate or level and, depending on the particular "benchmark" and the applicable terms of the Notes or Warrants, could lead to adjustments to the terms of the Notes or Warrants, including Calculation Agent determination of the rate or level in its discretion.

Any of the international, national or other proposals for reform or the general increased regulatory scrutiny of "benchmarks" could increase the costs and risks of administering or otherwise participating in the setting of a "benchmark" and complying with any such regulations or requirements. Such factors may have the effect of discouraging market participants from continuing to administer or participate in certain "benchmarks", trigger changes in the rules or methodologies used in certain "benchmarks" or lead to the disappearance of certain "benchmarks". The disappearance of a "benchmark" or changes in the manner of administration of a "benchmark" could result in adjustment to the terms and conditions, early redemption or termination, discretionary valuation by the Calculation Agent, delisting or other consequence in relation to Notes or Warrants linked to such "benchmark". Any such consequence could have a material adverse effect on the value of and return on any such Notes or Warrants.

Taxation in relation to the Notes and Warrants

Transactions involving Notes or Warrants may have tax consequences for potential purchasers which may depend, amongst other things, upon the status of the potential purchaser and laws relating to transfer and registration taxes. Stamp duty, stamp duty reserve tax and/or similar transfer taxes may be payable on any conveyance or transfer (actual or deemed) or agreement to transfer assets in cases where obligations of the Issuer under the Notes or Warrants are or may be physically settled.

Transactions involving Notes or Warrants may be subject to United Kingdom stamp duty or stamp duty reserve tax, and are subject to the risk that instruments effecting or evidencing transfers of Notes or Warrants and executed in the United Kingdom may not be admissible in evidence in civil proceedings unless duly stamped. An instrument of transfer executed outside the United Kingdom is also subject to the risk that it may be inadmissible in United Kingdom civil proceedings unless duly stamped after it has been first received in the United Kingdom.

U.S. – FATCA Withholding

In certain circumstances payments made on or with respect to the Notes or Warrants after 31 December 2018 may be subject to U.S. withholding tax under Sections 1471 through 1474 of the U.S. Internal Revenue Code of 1986, as amended (commonly referred to as "FATCA").

Part A – Information Relating to the Programme Generally – Risk Factors

Whilst the Notes and Warrants are in global form and held within Euroclear Bank S.A./N.V. or Clearstream Banking, *société anonyme* (together, the "ICSDs"), in all but the most remote circumstances, it is not expected that FATCA will affect the amount of any payment received by the ICSDs. However, FATCA may affect payments made to custodians or intermediaries in the subsequent payment chain leading to the ultimate investor if any such custodian or intermediary generally is unable to receive payments free of FATCA withholding. It also may affect payment to any ultimate investor that is a financial institution that is not entitled to receive payments free of withholding under FATCA, or an ultimate investor that fails to provide its broker (or other custodian or intermediary from which it receives payment) with any information, forms, other documentation or consents that may be necessary for the payments to be made free of FATCA withholding. Investors should choose the custodians or intermediaries with care (to ensure each is compliant with FATCA or other laws or agreements related to FATCA), and provide each custodian or intermediary with any information, forms, other documentation or consents that may be necessary for such custodian or intermediary to make a payment free of FATCA withholding. Investors should consult their own tax adviser to obtain a more detailed explanation of FATCA and how FATCA may affect them. The Issuer's obligations under the Notes and Warrants are discharged once it has paid the common depository or common safekeeper for the ICSDs (as registered holder of the Notes and Warrants through its nominee) and the Issuer has therefore no responsibility for any amount thereafter transmitted through hands of the ICSDs and custodians or intermediaries.

France – French Financial Transactions Tax

Pursuant to article 235 ter ZD of the French tax code, acquisitions of equity securities within the meaning of article L 212-1 A of the French Monetary and Financial Code or similar instruments within the meaning of Article L 211-41 of the French Monetary and Financial Code that provide or could provide access to capital or voting rights, admitted to trading on a French, European or foreign regulated market within the meaning of articles L 421-4, L 422-1 or L 423-1 of the French Monetary and Financial Code and issued by a company having its head office in France and whose market capitalisation as of 1 December of the preceding year exceeds €1 billion ("**French Qualifying Securities**"), are subject to the French financial transactions tax ("**French FTT**"), levied at the rate of 0.2%. A list of companies within the scope of the French FTT is published every year. The French FTT also applies to an acquisition of securities (irrespective of which entity issued such securities) when these securities represent French Qualifying Securities ("**Synthetic French Qualifying Securities**"). If applicable, the cost of the French FTT may be deducted from the amounts payable to the Warrantheolders and/or Noteholders.

The French FTT could also be triggered if the Issuer and/or its affiliates choose to purchase Reference Assets or securities underlying Reference Indices to hedge their exposure under the Warrants and/or the Notes if such Reference Assets or securities underlying Reference Indices are French Qualifying Securities or Synthetic French Qualifying Securities and assuming none of the French FTT exemptions provided for by Article 235 ter ZD of the French tax code apply to the relevant acquisition. If applicable, the cost of this French FTT may be deducted from the amounts payable to the Warrantheolders and/or Noteholders.

If physical settlement of the Notes or Warrants would give rise to an acquisition of French Qualifying Securities or Synthetic French Qualifying Securities, the French FTT would apply to this acquisition (assuming none of the French FTT exemptions provided for by Article 235 ter ZD of the French tax code applies) and the corresponding cost may be charged to the Noteholders or Warrantheolders (as applicable).

Italy – Italian Financial Transactions Tax

Italian financial transaction tax may apply to Notes and Warrants linked to Reference Assets that are securities issued by Italian Issuers.

A financial transaction tax has been introduced under Italian law, ("**Italian FTT**"), pursuant to Article 1, Law 24 December 2012, no. 228, as implemented by Ministerial Decree issued on 21 February 2013 and amended by Ministerial Decree issued on 16 September 2013. The Italian FTT applies, *inter alia*, on cash-settled derivatives ("**Italian FTT on Derivatives**") executed or modified on or after 1 September 2013, both traded or not on Qualifying Markets (as defined below) and unlisted, whose underlying are mainly shares or participating financial instruments issued by Italian resident companies or the value of shares issued by Italian resident companies, including warrants and certificates. The condition is met when more than 50 per cent. of the equity portion of the underlying is represented by the market value of shares or participating financial instruments issued by Italian resident companies.

Part A – Information Relating to the Programme Generally – Risk Factors

Accordingly, there is a risk that the Italian FTT on Derivatives could be triggered where the issuer of a Reference Asset relating to the Warrants and, where deemed to represent the underlying equity instruments or characterised as derivative instruments, the Notes (together with the Warrants, the "**Affected Instruments**") is an Italian resident or the issuer of a security underlying a Reference Index is an Italian resident. The residence and nationality of the Issuer and any holder of the Affected Instrument and the place of execution of the Affected Instrument would be irrelevant as the application of the Italian FTT on Derivatives is exclusively dependent on the residence of the issuer of the underlying Reference Asset or of the securities underlying a Reference Index.

The Italian FTT on Derivatives applies at a fixed amount, due from both parties equally, as follows:

- Index-Linked Affected Instruments where a security underlying the Reference Index is issued by an Italian-resident company: from €0.01875 to €15, depending on the notional value of the contract;
- Equity-Linked Affected Instruments where an underlying Reference Asset is issued by an Italian-resident company: from €0.125 to €100, depending on the notional value of the contract; and
- Affected Instruments linked to a basket of Reference Assets or Reference Indices: from €0.25 to €200 depending on the notional value of the contract.

The above amounts are reduced by 80 per cent. where the transaction is implemented in a regulated market or in a multilateral trading facility. An investor in the Affected Instrument is subject to the risk that payments under the Affected Instruments will be adversely affected by this Italian transaction tax as these charges will be deducted from the Cash Settlement Amount or Final Redemption Amount.

The issuance of financial instruments qualifying as transferable securities ("*valori mobiliari*") according to article (1)(1-bis)(c) or article (1)(1-bis)(d) of Legislative Decree no. 58 of 24 February 1998, is exempt from Italian FTT on Derivatives. The Italian Ministry of finance clarified that, following the issuance, if a number of intermediate transfers (e.g. intermediate transfers between financial intermediaries) are required before the initial placement of the notes or warrants to the ultimate investors, said intermediate transfers are exempt from Italian FTT. However, Italian FTT will apply to the transactions following the initial placement. In the case of cash-settled transferable securities, the cash settlement of such transferable securities is a transaction outside the scope of Italian FTT on Derivatives.

Besides the Italian FTT on Derivatives, the Italian FTT also applies to transfers of certain shares and participating financial instruments issued by Italian resident companies and other instruments representing the latter ("**Italian FTT on Shares**"), both traded or not on Qualifying Markets (as defined below) and unlisted.

Italian FTT on Shares applies on transactions negotiated and settled as from 1 March 2013. Accordingly, there is a risk that the Italian FTT on Shares could be triggered where the Issuer and/or its affiliates purchase Reference Assets or securities underlying Reference Indices to hedge their exposure under the Affected Instruments if such securities are shares and participating financial instruments issued by Italian resident companies and other instruments representing the latter and are not exempted from the Italian FTT requirement ("**in-scope securities**"). The residence and nationality of the parties to the transaction and the place of execution of the transaction would be irrelevant as the application of the Italian FTT on Shares is exclusively dependent on the residence of the issuer of the in-scope securities.

The Italian FTT on Shares would be applicable in the case in scope securities are transferred to investors in Affected Instruments upon physical settlement of the relevant Affected Instruments.

The Italian FTT on Shares is levied at the following rates, which would be due from the Issuer and/or its affiliates on acquisition of the shares:

- 0.1 per cent. of the acquisition price on transfers transacted on a Qualifying Market (as defined below); and
- 0.2 per cent. of the acquisition price otherwise.

Part A – Information Relating to the Programme Generally – Risk Factors

For the purpose of the application of the lower rate, "**Qualifying Markets**" are deemed to be:

- (i) regulated markets or multilateral trading facilities pursuant to Article 4, paragraph 1, points 14 and 15 of Directive 2004/39/EC of the European Parliament and Council of 21 April 2004 of an EU Member State and of an EEA Member State which allows an adequate exchange of information with Italy; and
- (ii) markets recognised by the Italian regulator Consob, established in an EU Member State or a state which allows for an adequate exchange of information with Italy.

Italian FTT on Derivatives and Italian FTT on Shares are required to be levied and subsequently paid to the Italian tax authority by financial intermediaries (e.g. banks, trusts and investment companies) or other subjects involved in the execution of the transaction. Where more intermediaries are involved in the execution of the transaction, Italian FTT on Derivatives and Italian FTT on Shares is payable by the subject who receives the order of execution directly from the ultimate purchaser or counterparty. Intermediaries and other non Italian resident subjects having no permanent establishment in Italy which are liable to collect and pay Italian FTT on Derivatives and Italian FTT on Shares to the Italian tax authority may appoint an Italian tax representative for the purposes of collecting and paying Italian FTT on Derivatives and Italian FTT on Shares. If no intermediary or other subjects are involved in the transaction, Italian FTT on Derivatives and Italian FTT on Shares is directly paid by the ultimate purchaser or counterparty.

An investor in the Notes and/or Warrants is subject to the risk that payments under the Affected Instruments will be adversely affected by the Italian FTT as these charges may be deducted from the Cash Settlement Amount or Final Redemption Amount.

Korea

Filing with Korean government in connection with the issuance of Warrants

In order for the Issuer to issue Warrants linked to the lawful currency of Korea (the "**Korean Won**"), the Issuer is required to file a prior report of the issuance with the Ministry of Strategy and Finance (the "**MOSF**"). In addition, the Issuer is also required to submit a report to the MOSF upon receipt of the full proceeds from the offering of the Warrants promptly after the issuance of the Warrants. Unless and until the MOSF accepts the prior report, the issuance of the Warrants is not permitted. If the Issuer issues the Warrants without such prior report being filed and accepted, it may be subject to criminal penalties and administrative sanctions.

People's Republic of China – China Connect

General

In respect of Notes linked to China Connect Underlyings that are eligible securities listed and traded on any stock exchange (each a "**China Connect Market**") in the PRC which are acceptable to SEHK under any securities trading and clearing links programme developed by SEHK, any such China Connect Market, the HKSCC and the CSDCC for the establishment of mutual market access between SEHK and any such China Connect Market ("**China Connect**", such securities being "**China Connect Underlying**" and the trading of China Connect Underlying through SEHK being "**Northbound Trading**"), such Notes reflect the risks of an investment in such Underlyings by an investor (a "**China Connect Investor**") purchasing such Underlyings through Northbound Trading under China Connect.

If the rules and regulations relating to China Connect become subject to change in the future, the Calculation Agent may determine that a Hedging Disruption or Change in Law has occurred and redeem the Notes at fair market value or terminate the Notes at an amount that the Calculation Agent determines to be fair in the circumstances, by way of compensation to the Noteholders. The China Connect Investor is subject to the risk that such value may be less than what the Noteholders have expected. Furthermore, if a China Connect Share Disqualification or a China Connect Service Termination occurs, the Issuer may, at its sole and absolute discretion, determine to adjust certain terms of the Notes or terminate the Notes early. Noteholders may suffer a loss of some or of all of their investment as a result of such adjustment or early termination (as the case may be) and will forego any future appreciation in the relevant Underlying that may occur following such redemption.

Part A – Information Relating to the Programme Generally – Risk Factors

Regulatory Requirement

Investments by China Connect Investors under Northbound Trading are subject to, amongst other things, restrictions on maximum percentage holding of the shares issued by a PRC listed company (both on a single foreign investor basis and on an aggregate foreign investor basis).

The investor in the Notes and Warrants will be subjected to the effect of equivalent restrictions and controls to those imposed on China Connect Investors. Therefore, if China Connect Investors became unable to invest directly in or alternatively hold China Connect Underlying or China Connect Investors were not allowed to sell or receive proceeds from the sale of such China Connect Underlying, the value of the Notes and Warrants may be adversely affected and, in the worst case, may become worthless.

Trading Quotas under China Connect

Purchases of China Connect Underlying through China Connect are subject to certain quota controls as detailed below. Unlike the Qualified Foreign Institutional Investor ("QFII") programme (where a certain amount of investment quota is granted to each QFII licence holder), the Aggregate Quota and Daily Quota (as defined below) under China Connect are applicable to the whole market and will be used by all China Connect Investors on a "first-come-first-served" basis. As a result, there is no assurance that a buy order can be successfully placed through China Connect. The aggregate quota (the "**Aggregate Quota**") caps the absolute amount of funds inflow into the PRC under Northbound Trading at a level specified by the SEHK and the China Connect Market. The daily quota (the "**Daily Quota**") caps the net buy value of cross-boundary trades under China Connect on each trading day. The Aggregate Quota or the Daily Quota may change from time to time and investors are advised to refer to the Hong Kong Exchanges and Clearing ("**HKEx**") website and other information published by the HKEx for up-to-date information.

Under the SEHK rules, it will be possible to sell China Connect Underlyings through China Connect irrespective of whether there is a breach of the Aggregate Quota or Daily Quota. If Northbound Trading is suspended as a result of a breach of the Aggregate Quota or Daily Quota, none of the entities in the HSBC Group will be able to submit any further buy orders and any buy orders received but not yet routed to the market may be rejected or delayed until sufficient quota is available. The regulators may also announce further requirements on China Connect which may vary, amend or supplement the requirements as currently known. Any corporate action adjustment shall be determined by the Calculation Agent in accordance with the terms of the Notes and Warrants, with reference to the then applicable laws, rules, regulations and guidance in relation to China Connect. Therefore, if China Connect Investors became unable to invest directly in or alternatively hold China Connect Underlying or China Connect Investors were not allowed to sell or receive proceeds from the sale of such China Connect Underlying, the value of the Notes and Warrants may be adversely affected and, in the worst case, may become worthless.

Taxation Issues

The amount of a payment to the investor under the Notes and Warrants may be decreased to take into account the effect of taxes (including financial transaction taxes, any PRC taxes, duties and similar charges, including, without limitation, any enterprise income tax, any business tax or value-added tax) on or in connection with an investment in the Reference Assets. There is a risk that tax law or practice will change in the future resulting in the imposition of or increase in tax on an investment in, or disposition of, Reference Assets. This will result in a decrease of the amounts payable under the Notes or Warrants.

On 14 November 2014, the PRC Ministry of Finance, the State Administration of Taxation ("**SAT**") and China Securities Regulatory Commission jointly released Caishui [2014] No.81 dated 31 October 2014 granting temporary exemption from enterprise income tax ("**EIT**") and business tax for the gains arising from the sale of shares in a PRC company listed on the Shanghai Stock Exchange and traded through the China Connect, effective from 17 November 2014. It is uncertain whether or when such exemptions may expire. On 23 March 2016 the Ministry of Finance and SAT jointly issued Caishui [2016] No.36 which provides detailed implementation guidance on the further rollout of the Value-Added Tax ("**VAT**") reform. From 1 May 2016 VAT will replace Business Tax ("**BT**") to cover all sectors that used to fall under the BT. Caishui [2016] No.36 grants VAT exemption on gains arising by Hong Kong market investors from trading A-shares listed on the Shanghai Stock Exchange and traded through the Shanghai-Hong Kong Stock Connect. If any PRC taxes, duties and similar charges (including, without limitation, any enterprise income tax, any business tax or value-added tax) are applicable to the trading of Reference Assets, it may result in a Hedging Disruption or an Increased Cost of Hedging and the Issuer will

Part A – Information Relating to the Programme Generally – Risk Factors

determine in its sole and absolute discretion whether to terminate the Notes or Warrants. If the Issuer determines to terminate the Notes or Warrants, the Calculation Agent may make such adjustments as it, in its sole and absolute discretion, determines to be appropriate to the terms of the Notes or Warrants. This may result in a lower payment by the Issuer to the Noteholders or Warrantholders.

Limitations on exercise or trading size

If so indicated in the relevant Pricing Supplement, an investor must tender a specified minimum number of Warrants (and integral multiples of Warrants thereafter) or minimum trading size or total consideration of Notes at any one time in order to exercise or on-sell the Notes or Warrants. Thus, investors with fewer than the specified minimum number of Warrants (or specified multiples thereof) or minimum trading size or total consideration of Notes will either have to sell their Notes or Warrants or purchase additional Notes or Warrants, incurring transaction costs in each case, in order to realise their investment. Furthermore, investors in such Notes or Warrants incur the risk that there may be differences between the trading price of such Notes or Warrants and the Cash Settlement Amount or the Physical Settlement Value (in the case of Physical Settlement Warrants) of such Warrants or the Final Redemption Amount or Early Redemption Amount of such Notes (as applicable).

If specified in the applicable Pricing Supplement, Notes or Warrants which settle physically in the underlying Reference Asset may only be exercised or redeemed (as applicable) in such amounts as will ensure that the number of relevant Reference Assets to be delivered is equal to an integral multiple of the minimum allowed trading amount of the relevant Reference Asset on the relevant stock exchange as from time to time specified by such stock exchange or other market in which the Reference Asset is traded (the "**Minimum Trading Amount**"). Where the exercise of a holding of such physically settled Notes or Warrants would not result in the purchase of a number of relevant Reference Assets equal to an integral multiple of the relevant Minimum Trading Amount, the Holder will receive the maximum number of relevant Reference Assets equivalent to the maximum integral multiple of the Minimum Trading Amount and may be entitled to a payment in lieu at the option of the Issuer, determined in the sole and absolute discretion of the Issuer, in respect of the remaining Reference Assets unless any such payment is of a *de minimis* amount, in which case, Holders shall not receive anything in respect of the remaining Notes or Warrants. Holders will, therefore, either have to sell their Notes or Warrants or purchase additional Notes or Warrants, incurring transaction costs in each case, in order to realise their investment.

Risk of early termination (Knock out risk)

In relation to certain types of Notes or Warrants mandatory early redemption or termination occurs if certain conditions set out in the relevant Pricing Supplements are met. Investors should therefore be aware that certain types of Notes and Warrants may terminate prior to the stated maturity date or expiry date (as applicable). As a result investors in such Notes or Warrants may forego any future interest or other payments as well as any appreciation or depreciation (as applicable) in the underlying Reference Assets.

(2) Risks relating to the Notes

General

An investment in the Notes is speculative and entails substantial risks. Noteholders should understand that in some instances they could suffer a partial or complete loss of their investment subject, if applicable, to any minimum redemption amount specified in the relevant Pricing Supplement. In the case of Notes linked to a Reference Asset or Reference Assets, any investment return on a Note determined by reference to changes in the level and/or the value of the Reference Asset(s), is subject to fluctuation and may be less than would be received by investing in a conventional debt instrument. Changes in the level and/or the value of the Reference Asset(s) cannot be predicted. If so provided in the relevant Pricing Supplement, the Notes may be subject to early redemption by reference to changes in the level and/or the value of the Reference Asset(s). On redemption, the Notes may be redeemed in such manner as the Pricing Supplement provides or, in certain circumstances, may be exchanged for other securities.

Notes issued at a substantial discount or premium

The market values of Notes issued at a substantial discount to or premium above their principal amount tend to fluctuate more in relation to general changes in interest rates than do prices for conventional

Part A – Information Relating to the Programme Generally – Risk Factors

interest-bearing securities. Generally, the longer the remaining term of the Notes, the greater the price volatility.

Notes may be redeemed prior to maturity

In the event that the Issuer would be obliged to increase the amounts payable in respect of any Tranche of Notes due to any withholding or deduction for or on account of United Kingdom tax, the Issuer may redeem all outstanding Notes in accordance with the Conditions of the Notes. If specified in the relevant Pricing Supplement, the amount payable by the Issuer in such circumstances may be less than the amount invested in the Notes or what would have been received under the Notes if the Notes had not been so redeemed and investors will forego any further interest payments (if any) in respect of the Notes. The Noteholders may not benefit from any appreciation in value or level of the Reference Asset(s) or Reference Asset Component(s) that may occur following such redemption.

Notes with multiple denominations

Where the Notes are specified as having a denomination consisting of a minimum denomination plus a higher integral multiple of another smaller amount, it is possible that such Notes may be traded in the clearing systems in amounts in excess of such minimum denomination that are not integral multiples of the minimum denomination. In such a case, should Definitive Notes be required to be issued, Noteholders who, as result of trading such amounts, hold a principal amount that is less than the minimum denomination may not receive a Definitive Note in respect of such holdings and would need to purchase a principal amount of Notes such that their holding amounts to, or is an integral multiple of, the minimum denomination.

Payments may be delayed or reduced upon the occurrence of an event of default

If the Calculation Agent determines that the Notes have become immediately due and payable following an Event of Default (as defined in the Conditions) with respect to the Notes, investors may not be entitled to the entire principal amount of the Notes, but only to that portion of the principal amount specified in the applicable Pricing Supplement, together with accrued but unpaid interest, if any.

Meetings of Noteholders

Conditions of the Notes contain provisions for calling meetings of Noteholders to consider matters affecting their interests generally. These provisions permit defined majorities to bind all Noteholders including Noteholders who did not attend and vote at the relevant meeting and Noteholders who voted in a manner contrary to the majority, so investors in the Notes are subject to the risk that the Conditions may be modified without their consent.

Specific risks relating to Fixed Rate Notes

Investment in Fixed Rate Notes involves the risk that subsequent changes in market interest rates may adversely affect the value of the Fixed Rate Notes.

Investors will not benefit from any increases in market interest rates above the fixed rate payable in respect of the relevant Notes.

Specific risks relating to Floating Rate Notes

Floating Rate Notes have returns that are variable as a result of the method by which the interest is calculated. The rate of interest is not fixed and is tied to the performance of an underlying benchmark and, if so specified in the relevant Pricing Supplement, may be subject to a maximum rate or minimum rate on the interest payable. The rate of interest can periodically go down and therefore return on the Notes is not guaranteed and may in a worst case become zero. Investors should be aware that in respect of Floating Rate Notes which are subject to a maximum return on the Notes is limited to such maximum and therefore investors will not benefit from any further increases of the underlying benchmark above such maximum return.

Part A – Information Relating to the Programme Generally – Risk Factors

Notes subject to optional redemption by the Issuer

An optional redemption feature is likely to limit the market value of Notes. During any period when the Issuer may elect to redeem Notes, the market value of those Notes generally will not rise substantially above the price at which they can be redeemed. This may also be true prior to any redemption period.

The Issuer may be expected to redeem Notes when its cost of borrowing is lower than the interest rate on the Notes. At those times, an investor generally would not be able to reinvest the redemption proceeds at an effective interest rate as high as the interest rate on the Notes being redeemed and may only be able to do so at a significantly lower rate. Investors should consider reinvestment risk in light of other investments available at that time. As a result of the exercise of a call right by the Issuer, investors will forego any further interest payments (if any) in respect of the Notes and, if so specified in the Pricing Supplement, investors may receive less than their invested amount.

Effect of interest rates on the Notes

Investors in Notes are exposed to the risk that subsequent changes in interest rates may adversely affect the value of the Notes. Investments in the Notes may involve interest rate risk with respect to the currency of denomination of the Notes. A variety of factors influence interest rates such as macro economic, governmental, speculative and market sentiment factors. Such fluctuations may have an impact on the value of the Notes.

(3) Risks relating to the Warrants

Certain factors affecting the value and trading price of Warrants

The Cash Settlement Amount (in the case of cash-settled Warrants) or the difference in value of the Physical Settlement amount and the Strike Price (the "**Physical Settlement Value**") at any time prior to expiration is typically expected to be less than the trading price of such Warrants at that time. Any difference between the trading price and the Cash Settlement Amount or Physical Settlement Value will reflect, among other things, a "time value" for the Warrants. The "time value" of the Warrants will depend partly upon the length of the period remaining to expiration and expectations concerning the value or level of the Reference Asset(s) to which the Warrant relates. Warrants offer hedging and investment diversification opportunities but also pose some additional risks with regard to interim value. The interim value of the Warrants varies with the price, value and/or level of the Reference Asset(s) as well as by a number of other interrelated factors, including those specified herein.

Before acquiring, exercising or selling Warrants, investors should carefully consider, among other things, (i) the trading price of the Warrants, (ii) the value and volatility of the Reference Asset(s), (iii) the time remaining to expiration, (iv) any change(s) in interim interest rates and dividend yields, (v) any change(s) in currency exchange rates, (vi) the depth of the market or liquidity of the Reference Asset(s) and (vii) any related transaction costs.

As a result of these factors the price at which a Warrantholder may be able to sell the Warrants prior to expiry may be less than the initial amount invested in the Warrants. Investors should also note that each of these factors interrelate in complex ways (for example, one factor may offset an increase in the trading value of the Warrants caused by another factor).

Variation of settlement

The Issuer may, if specified in the applicable Pricing Supplement, vary the settlement in respect of a particular Series of Warrants and thereby at its sole and absolute discretion elect not to pay the relevant Holders the Cash Settlement Amount or to deliver or procure delivery of the Physical Settlement Value to the relevant Holders, as the case may be, and, in lieu thereof, deliver or procure delivery of the Physical Settlement Value or make payment of the Cash Settlement Amount on the Settlement Date to the relevant Holders.

Time lag after exercise

Unless otherwise specified in the Pricing Supplement, in the case of any exercise of Warrants, there will be a time lag between the time a Warrantholder gives instructions to exercise and the time the applicable Cash Settlement Amount or the deliverable Reference Assets relating to such exercise is determined.

Part A – Information Relating to the Programme Generally – Risk Factors

Any such delay between the time of exercise and the determination of the Cash Settlement Amount or the deliverable Reference Assets, as the case may be, will be specified in the applicable Pricing Supplement or Conditions of the Warrants. However, such delay could be significantly longer, particularly in the case of a delay in the exercise of Warrants arising from any daily maximum exercise limitation, or following the imposition of any exchange controls, other similar regulations affecting the ability to obtain or exchange any relevant currency (or basket of currencies) or if there is any Settlement Disruption Event on the Valuation Date (as such terms are defined in the Conditions of the Warrants). The applicable Settlement Price or the value of the deliverable Reference Assets may change significantly during any such period and such movement or movements could decrease the Settlement Price or the value of the deliverable Reference Assets in respect of the Warrants being exercised and may result in such Settlement Price or the value of the deliverable Reference Assets being zero.

The time remaining to the expiration of Warrants

As the time remaining to the expiration of the Warrants decreases, the trading value of a Warrant is expected to decrease.

(4) Risks relating to Emerging Markets

Notes and Warrants issued may relate to Reference Assets which are located in an emerging market. Investors in such Notes or Warrants should be aware that these markets are subject to greater risks than well-developed markets. The value or level of the Reference Asset(s) or Reference Asset Component(s) which are linked to an emerging market country may therefore be volatile and investment in such Notes and Warrants will involve additional risks and special considerations not typically associated with investing in Notes or Warrants which are linked to other more established economies.

The Issuer considers the following risks to be material:

(a) *Settlement procedures*

Many emerging market countries have only recently developed organised securities markets, and the institutions on which they depend, with the result that the procedures for settlements, clearing and registration of securities transactions can give rise to technical and practical problems. In addition, since most emerging markets have civil law systems, which do not recognise a distinction between legal and beneficial ownership, it is not usually possible to use nominees (which may affect how interests in the Reference Asset(s) or Reference Asset Component(s) are held) and the provision of custody services is a relatively novel practice in most emerging markets, and the controls put in place in more mature markets may not be available. Inefficient systems may result in delayed payments on the Reference Asset(s) or Reference Asset Component(s), which may in turn delay payments under the Notes or Warrants.

(b) *Exchange controls and repatriation of profits*

Most emerging market countries operate exchange controls affecting the transfer of money in and out of the country and the convertibility of the local currency. Some countries also impose restrictions on the ability of foreign investors to repatriate profits or the proceeds of sale of their investments without an official permit. In some cases the currency is non-convertible although many currencies are "semi-convertible". An investor in the Notes or Warrants where the underlying Reference Asset(s) or Reference Asset Component(s) are linked to an emerging market country or in Notes or Warrants which are denominated and/or settling in an emerging market currency are subject to the risk that, if such Notes or Warrants cease to be convertible into the Settlement Currency or become only semi-convertible, then unless "Payment of Alternative Currency Equivalent" is specified as applicable in the relevant Pricing Supplement, the Notes or Warrants may return less on exercise or expiry or maturity (respectively) than the amount invested or nothing.

Moreover the value of investments in the underlying Reference Asset(s) or Reference Asset Component(s) can fluctuate significantly due to volatile exchange rates and high inflation. Emerging markets may experience higher volatility in their foreign exchange rate movements than other countries, and changes in the foreign exchange rates may have a negative impact on issuers of Reference Asset(s) and Reference Asset Component(s) whose businesses are heavily

Part A – Information Relating to the Programme Generally – Risk Factors

reliant on exports and, as a consequence, the general economic conditions in emerging market countries which are heavily reliant on exports. The risk for an investor in the Notes or Warrants is that the price of the Note or Warrant might be more volatile (as the amounts payable under the Note or Warrant are linked to the value of the Reference Asset or Reference Index) or that issuers of the underlying Reference Assets or constituent securities of a Reference Index will not perform at an expected level, which may cause payments due under the Notes or Warrants to be lower than expected.

(c) *Disclosure and information*

The level of disclosure of information relating to a company's business and ownership to shareholders, and to the stock exchange on which its shares are listed, is much less extensive in most emerging markets than in more sophisticated markets. Although many emerging markets now have insider dealing laws, it cannot be assumed that the regulatory authorities have both the ability and the will to enforce the legislation rigorously. Similarly, although money laundering regulations have been introduced in some jurisdictions, their practical effect has yet to be assessed.

Accordingly, an investor in Notes or Warrants linked to an emerging market country are subject to the risk that information available on the Reference Assets and Reference Indices which might form the basis of its investment decision in respect of the Notes or Warrants may be of poorer quality than that available on Reference Assets and Reference Indices linked to well-developed markets and investors may not receive relevant information relating to the Reference Assets and Reference Indices at the same time as other market participants, which may cause price volatility and the market price of the Notes or Warrants may drop at a later point in time once all relevant information becomes available.

(d) *Market liquidity and volatility*

The stock exchanges of emerging market countries are generally much smaller (in terms of market capitalisation, turnover, and number of stocks traded) and are still in a premature stage when compared to the well-developed markets. The likelihood of exchange or market disruption e.g. temporary exchange closures, broker defaults, settlement delays and broker strikes and disputes among listed companies, the stock exchanges and other regulatory bodies, could be higher than the well-developed markets. These disruptions could have adverse effect on the overall market sentiment and on the value of the Reference Asset(s) or Reference Asset Component(s). The capital market of emerging market countries could be heavily influenced by government policies and a limited number of major shareholders. The governing bodies could from time to time impose restrictions on trading in certain securities, limitations on price movements and margin requirements. Such events in turn may affect overall market sentiment and lead to fluctuations in the market prices of the Reference Asset(s), thus adversely affecting the value of the Notes or Warrants.

Therefore, there is a risk that the trading price of such Notes or Warrants may be more volatile and that the value of the underlying Reference Asset(s) or Reference Asset Component(s) may be adversely affected (following which, amounts payable under the Notes or Warrants would be adversely affected as a consequence).

(e) *Accounting standards*

In some emerging market countries, accounting standards and practices vary significantly from internationally accepted standards. It is therefore difficult in such jurisdictions to obtain reliable historic financial information on Reference Asset(s) and Reference Asset Component(s) which may underlie the Notes or Warrants even where accountancy laws have been reformed to bring them into line with international standards (a problem which hyper-inflation has exacerbated in some markets). Great care must therefore be taken to assess asset and business valuations. Entities in emerging market countries may not generally be subject to uniform accounting, auditing and financial reporting standards and auditing practices and requirements may not be comparable to those applicable to obligors located in developed countries.

Part A – Information Relating to the Programme Generally – Risk Factors

(f) *Political risks*

The pace of political and social change will be more rapid than in well-developed markets. This is a common feature of emerging market countries and is often related to the transition from a centrally planned economy to a modern market economy. Far-reaching legal and political reforms have inevitably resulted in new constitutional and social tensions, and the possibility of continuing instability and even a reaction against market reforms cannot be discounted. Such instability may discourage investors from investing in the particular emerging market, which could reduce the market value of the underlying Reference Asset(s) or Reference Asset Component(s) and therefore reduce the market value of the Notes or Warrants and any amounts payable thereunder.

The unique political and diplomatic status of each emerging market relative to other countries, for example potential tensions between South Korea and North Korea, may also make the equities and debt markets in such emerging markets more volatile and more price sensitive to global or regional economic and political developments than other markets. Such increased price volatility could lead to the Notes' or Warrants' trading price (during the life of the Notes or Warrants) or the relevant amount payable thereunder being lower than expected.

There is a particular risk that policies in emerging markets encouraging foreign investment may be abandoned or reversed. Restrictions imposed on foreign investment or restrictions which concern the repatriation of capital invested in emerging markets may increase the transaction costs payable by the Issuer and/or its affiliates which, as such costs are passed to the investor, may thereby decrease the payments due under the Notes or Warrants, or entitle the Issuer to terminate the Notes or Warrants early. On a political level, such restrictions could lead to renationalisation of privatised industries and expropriation of private property without compensation which may have a negative effect on the financial position of the issuers of the Reference Asset(s) or the Reference Asset Component(s).

(g) *Economic risks*

The economies of individual emerging market countries may differ favourably or unfavourably from the economies of developed countries in such respects as growth of gross domestic product, rate of inflation, volatility of currency exchange rates, depreciation, capital reinvestment, resource self sufficiency and the balance of payments position. In the past, a number of emerging market countries' markets have experienced significant adverse economic developments, including substantial depreciation in currency exchange rates against major currencies, increased interest rates and inflation, reduced economic growth rates, increases in foreign currency debts, corporate bankruptcies, declines in market values of listed shares and government imposed austerity measures. All of these economic factors may adversely affect the value and performance of Reference Asset(s) or Reference Asset Component(s) and therefore the value of the Notes or Warrants.

(h) *Restrictions and controls*

Notes and Warrants may be subject to risk that restrictions and controls on the Reference Asset(s) or Reference Asset Component(s) are imposed by governments, governmental or regulatory bodies, regulators or exchanges of emerging markets jurisdictions. As a result of such restrictions and controls, potential delays might occur in respect of payments due under the Notes or Warrants linked to such Reference Asset(s) or even that funds may not be payable under the Notes or Warrants on settlement following the exercise, sale, redemption or termination of the Notes or Warrants. Also, taxes and charges levied in respect of buying and selling equity or debt securities relating to such restrictions and controls may be deducted from amounts payable under the Notes or Warrants.

(i) *Legal and Regulatory framework*

The sophisticated legal and regulatory systems necessary for the proper and efficient functioning of modern capital markets may yet to have been developed in some emerging market countries. A high degree of legal uncertainty may therefore exist as to the nature and extent of investors rights and the ability to enforce those rights in the courts. Many advanced legal concepts which

Part A – Information Relating to the Programme Generally – Risk Factors

now form significant elements of mature legal systems are not yet in place or if they are in place, have yet to be tested in the courts. It is difficult to predict with any degree of certainty the outcome of judicial proceedings (often because the judges themselves have little or no experience of complex business transactions), or even the quantum of damages which may be awarded following a successful claim. It may also be difficult to obtain and enforce a judgment relating to emerging markets debt in the jurisdiction in which the majority of the assets of an obligor is located.

Specific risks relating to Notes and Warrants settling in emerging markets currencies

Notes and Warrants issued may be denominated and/or settle in an emerging market currency. Investors in such Notes and Warrants should be aware that these markets are subject to greater risks than well developed markets. Investment in the Notes and Warrants will involve additional risks and special considerations not typically associated with investing in Notes and Warrants which are settled in more conventional currencies such as Euro or U.S. dollar.

Currency exchange rate fluctuations

The rapid pace of political and social change in emerging market countries increases the likelihood that currency exchange risks will eventuate where the Settlement Currency is linked to an emerging market country. Currency exchange risks are described in detail above in the section entitled "*Risks relating to all issues of Notes and Warrants – Exchange rate risks and exchange control risks*".

Specific risks relating to Notes and Warrants linked to Reference Asset(s) denominated in Offshore RMB and traded outside the PRC and Notes and Warrants settled in Offshore RMB outside the PRC

Notes and Warrants linked to Reference Asset(s) denominated in Offshore RMB and traded outside the PRC and Notes and Warrants settled in Offshore RMB outside the PRC may be issued under the Programme. For the purpose of those Notes and Warrants and where the context requires, "**Offshore RMB**" shall refer to Chinese RMB that is freely deliverable between accounts in the relevant Offshore RMB Centre as specified in the relevant Pricing Supplement in accordance with the law and applicable regulations and guidelines issued by the relevant authorities in the relevant Offshore RMB Centre as specified in the relevant Pricing Supplement prevailing as of the Trade Date of the Notes and Warrants. Set out below is a description of some of the risks that should be taken into consideration by prospective investors in such Notes and Warrants.

- (a) *RMB is not freely convertible; Restrictions on RMB conversion through relevant Offshore RMB Centres (as specified in the relevant Pricing Supplement) may adversely affect the liquidity of the Notes and Warrants*

Renminbi is not freely convertible at present. The government of the PRC (the "**PRC Government**") continues to regulate conversion between Renminbi and foreign currencies, including the Hong Kong dollar. However, there has been a significant reduction in control by the PRC Government in recent years, particularly over trade transactions involving import and export of goods and services as well as other frequent routine foreign exchange transactions. These transactions are known as current account items.

On the other hand, remittance of Renminbi by foreign investors into the PRC for the purposes of capital account items, such as capital contributions, is generally only permitted upon obtaining specific approvals from, or completing specific registrations or filings with, the relevant authorities on a case-by-case basis and is subject to a strict monitoring system. Regulations in the PRC on the remittance of Renminbi into the PRC for settlement of capital account items are developing gradually.

Although starting from 1 October 2016, the Renminbi will be added to the Special Drawing Rights basket created by the International Monetary Fund, there is no assurance that the PRC Government will continue to liberalise control over cross-border remittance of Renminbi in the future, that the pilot schemes for Renminbi cross-border utilisation will not be discontinued or that new regulations in the PRC will not be promulgated in the future which have the effect of restricting or eliminating the remittance of Renminbi into or out of the PRC. In the event that funds cannot be repatriated out of the PRC in Renminbi, this may affect the overall availability of

Part A – Information Relating to the Programme Generally – Risk Factors

Renminbi outside the PRC, which may negatively impact on the liquidity of the Notes and Warrants and thus the value of the Notes and Warrants. In addition, if Renminbi outside the PRC is unavailable, this will impact on the ability of the Issuer to source Renminbi to perform its obligations under Notes and Warrants denominated in Renminbi.

(b) *RMB interest rate risk*

The PRC Government has gradually liberalised its regulation of interest rates in recent years. Further liberalisation may increase interest rate volatility and, as a result, the value of the Notes and Warrants may fluctuate as well. In addition, the interest rate for Renminbi in markets outside the PRC may significantly deviate from the interest rate for Renminbi in the PRC as a result of foreign exchange controls imposed by PRC law and regulations and prevailing market conditions.

Renminbi-denominated Notes may carry a fixed interest rate ("**Fixed Rate Notes**") or have a resettable interest rate ("**Resettable Notes**"). Consequently, the trading price of Renminbi-denominated Notes which are Fixed Rate Notes or Resettable Notes will vary with the fluctuations in the Renminbi interest rates. If holders of such Renminbi-denominated Notes propose to sell their Renminbi-denominated Notes before their maturity, they may receive an offer lower than the amount they have invested.

(c) *RMB exchange rate risk*

Offshore RMB represents a market which is different from that of RMB deliverable in the PRC. The exchange rate of Offshore RMB against the U.S. dollar, Hong Kong dollar or other foreign currencies may be different from the exchange rate of RMB deliverable in the PRC against such currencies. Apart from its own supply and demand, the Offshore RMB exchange rate may be influenced by the onshore exchange rate (which currently trades within a band set by authorities in the onshore interbank market), and the two rates may converge with or diverge from each other.

Further liberalisation (if any) of foreign exchange control in Mainland China and further progress on RMB internationalisation may or may not occur, and even if it does occur, it may or may not influence the Offshore RMB exchange rate. Should the prevailing Offshore RMB exchange rate fluctuates as a result, the value of the Notes and Warrants may fluctuate as well. If the value of Offshore RMB depreciates against the U.S. dollar, Hong Kong dollar or other foreign currencies, the value of a Noteholder's or Warrantholder's investment in U.S. dollar, Hong Kong dollar or other applicable foreign currency terms will decline.

(d) *RMB payment risk*

If the Settlement Currency for the Notes or Warrants is Offshore RMB and "Payment of Alternative Payment Currency Equivalent" is specified as applicable in the relevant Pricing Supplement, an investor is subject to the risk that payments in respect of such Notes or Warrants will be made in the Alternative Payment Currency specified in the relevant Pricing Supplement instead of Offshore RMB. To the extent the Issuer is not able, or it is impracticable for it, to satisfy its obligation to pay the Final Redemption Amount and/or Cash Settlement Amount (as applicable) and/or any other amounts due as a result of Offshore RMB Disruption (as defined in the Conditions), the Issuer will be entitled to settle any such payment in the Alternative Payment Currency specified in the relevant Pricing Supplement on the due date at the Alternative Payment Currency Equivalent (as defined in the Conditions) of any such Final Redemption Amount and/or Cash Settlement Amount (as applicable) and/or any other amounts due. In this case, the risk factors in the section entitled "(1) Risks relating to all issues of Notes and Warrants - Exchange rate risks and exchange control risks" would apply as if the relevant Alternative Payment Currency were the Settlement Currency.

(e) *Payments with respect to the Notes and Warrants may be made only in the manner through Renminbi bank accounts maintained at banks in the relevant Offshore RMB Centre.*

Investors in the Notes and Warrants should be aware that all Offshore RMB payments under the Notes and Warrants will be made solely by credit to Renminbi bank accounts maintained at

Part A – Information Relating to the Programme Generally – Risk Factors

banks in the relevant Offshore RMB Centre as specified in the relevant Pricing Supplement in accordance with the law and applicable regulations and guidelines issued by the relevant authorities in the relevant Offshore RMB Centre as specified in the relevant Pricing Supplement.

(5) Risks relating to Equity/Index-Linked Notes and Warrants

Information

No investigation has been made of the financial condition or creditworthiness of any issuer of any Reference Asset(s) or Reference Asset Component(s) in connection with the issue of any Equity/Index-Linked Notes or Warrants. Investors in the Equity/Index-Linked Notes or Warrants should obtain and evaluate the same information concerning the Reference Asset(s), each Reference Asset Component and each such issuer as they would if they were investing directly in the Reference Asset(s) or Reference Asset Component(s). In addition, investors should understand that the historical performance of the Reference Asset(s) or any Reference Asset Component should not be viewed as predictive of future results.

Actions or omissions of the issuer of the securities, the sponsor of an index or other

In certain circumstances, the actions or omissions of the issuer of securities to which the Equity/Index-Linked Notes or Warrants relate or for which the Equity/Index-Linked Notes or Warrants are exchangeable, the sponsor of an index to which Equity/Index-Linked Notes or Warrants are linked or others outside the control of the Issuer, may adversely affect the rights of the Noteholders or Warrantheolders (as applicable) and/or the value of the Equity/Index-Linked Notes or Warrants, including actions that may give rise to an adjustment to, or early redemption or termination (as applicable) of, the Equity/Index-Linked Notes or Warrants.

Disrupted Day

Investors in the Equity/Index Linked Notes and Warrants are subject to the risk that a Disrupted Day may occur in relation to a Reference Asset or Reference Asset Component. A Disrupted Day may occur in respect of Notes and Warrants if, as determined by the Calculation Agent: a stock exchange or related stock exchange fails to open for trading during its regular trading session, or, in relation to China Connect Underlying, on which the China Connect Service fails to open for order routing during its regular order-routing session; or on which a Market Disruption Event has occurred; or if an index sponsor fails to publish the level of an index.

If the Calculation Agent determines that a Disrupted Day has occurred, the Calculation Agent may postpone the Valuation Date to a later date which is not a Disrupted Day, provided that the Valuation Date will not be postponed beyond the eighth consecutive Scheduled Trading Day (or such other number of Scheduled Trading Days as may be specified in the Pricing Supplement) after the Scheduled Valuation Date (the "**Limit Valuation Date**"). If the Calculation Agent postpones the Valuation Date the due dates for any payments or delivery in respect of the Notes or Warrants (including, without limitation, the maturity date, settlement date or cash settlement payment date) may also be postponed.

Market Disruption Events

Investors in the Equity/Index-Linked Notes and Warrants are subject to the risk that a Market Disruption Event will occur in relation to a Reference Asset or Reference Asset Component. A Market Disruption Event may occur in respect of Notes and Warrants if, as determined by the Calculation Agent: a related stock exchange closes early without notice; limitations are imposed on trading; trading is suspended; or market participants are prevented from obtaining valuations or effecting transactions, and, in relation to China Connect Underlying, in the case of early closure of the relevant exchange (the "**China Connect Market**"), disruption of such exchange or suspension of trading on such exchange including the early closure or disruption of the securities trading and clearing links programme developed or to be developed by The Stock Exchange of Hong Kong Limited (the "**SEHK**"), the China Connect Market, the Hong Kong Securities Clearing Company Limited and the China Securities Depository and Clearing Corporation for the establishment of mutual market access with SEHK and the China Connect Exchange.

If the Calculation Agent determines that a Market Disruption Event has occurred, any consequential postponement of or adjustment of valuation provided in any Notes or Warrants may have an adverse effect on the value of such Notes or Warrants. The closing level or value of the Reference Asset or

Part A – Information Relating to the Programme Generally – Risk Factors

Reference Asset Component may be calculated by reference to the remaining securities comprised in the relevant Reference Asset or Reference Asset Component.

Additional Disruption Events

Investors should note that Additional Disruption Events may occur in relation to the relevant Notes and Warrants in certain circumstances described in the Conditions. If any Additional Disruption Event occurs in relation to the relevant Notes and Warrants, the Issuer may, at its sole and absolute discretion, declare a valuation date and designate an early redemption date in respect of the Notes or an exercise date in respect of the Warrants (as applicable) and the Noteholders or Warrantheolders will receive an early redemption amount or termination amount (as applicable) based on the determinations made by the Calculation Agent.

The following Additional Disruption Events may be specified to be applicable in the relevant Pricing Supplement:

- "**Change in Law**" may occur where the Issuer determines it will or has become illegal for it to hedge its obligations under the Notes and Warrants or where the Issuer or its designated affiliates would incur materially increased costs in performing its obligations under the Notes and Warrants, each due to a change in law;
- "**Hedging Disruption**" may occur if the Issuer or its affiliates become unable to hedge or would suffer material delay in conducting any hedging transactions relating to the Notes and Warrants;
- "**Increased Cost of Hedging**" may occur where the Issuer would incur a materially increased cost, other than as a consequence of deterioration in its own creditworthiness, in hedging its obligations under the Notes and Warrants;
- "**China Connect Share Disqualification**" may occur where the Underlying Securities cease to be accepted as "China Connect Securities" (as defined in the rules of SEHK) for the purpose of the China Connect Service; and
- "**China Connect Service Termination**" may occur where one or more of the China Connect Market, SEHK, the China Securities Depository and Clearing Corporation, Hong Kong Securities Clearing Company Limited or any regulatory authority with competent jurisdiction permanently suspends or terminates the China Connect Service or a part thereof for any reason which materially affects the routing of orders in respect of, or holding of, the Underlying Securities through the China Connect Service.

Upon the occurrence of such an early redemption prior to the originally scheduled maturity date of the relevant Notes or of an exercise date prior to the originally scheduled exercise dates or expiry dates of the relevant Warrants, Noteholders may suffer a loss of some or of all of their investment and will forego any future appreciation in the relevant Reference Asset that may occur following such redemption or termination.

Specific risk factors relating to Index-Linked Notes and Warrants

Successor Index, Index Modification, Index Calculation

In certain circumstances, certain adjustments may be made to the index or indices to which Notes or Warrants are linked (a "**Reference Index**"), which may result in a loss to the Noteholders or Warrantheolders. The Issuer considers the following to be material risks of adjustment:

- (i) the replacement of the relevant Reference Index by a successor index if the relevant Reference Index is not calculated or announced by the relevant Index Sponsor or is replaced by a successor index;
- (ii) the modification of the relevant Reference Index by the relevant Index Sponsor which may have a material effect on the Notes and Warrants; and
- (iii) the cancellation of the relevant Reference Index by the relevant Index Sponsor which may result in either (A) the termination of the relevant Notes or Warrants upon payment of such amount as

Part A – Information Relating to the Programme Generally – Risk Factors

may be determined by the Calculation Agent to be the fair market value of the Notes or Warrants immediately prior to such termination or (B) the continuation of the Notes and Warrants, in which case the relevant level of the Reference Index will be determined by the Calculation Agent in its sole and absolute discretion.

Calculation of HSBC proprietary Indices / HSBC Bank plc as index sponsor

With respect to Notes or Warrants which are linked to one or more HSBC proprietary Reference Indices, investors should understand that, although the Issuer may be the sponsor of such HSBC proprietary Reference Indices, such Reference Indices are calculated independently and the Issuer, if it is acting as sponsor, will make determinations of the level of the HSBC proprietary Reference Indices, and of any adjustments that need to be made to the HSBC proprietary Reference Indices, without considering the interests of investors in the Notes or Warrants.

HSBC proprietary Reference Indices may have an index sponsor which is the same entity as the Issuer or an entity within the HSBC group. The role of the Issuer as index sponsor may be performed by different divisions of the Issuer. The roles of these various divisions within the Issuer may give rise to various potential and actual conflicts of interest.

In addition, HSBC Bank plc, acting in the capacity of index sponsor, may appoint, at any time, a third party (a "**Third Party**") to perform any of its roles and responsibilities (including, without limitation, any administration functions) in relation to the HSBC proprietary Reference Indices.

The index sponsor, (whether it be HSBC Bank plc or any Third Party) does not act as fiduciary for or an adviser to the Warrantholder or Noteholder in respect of any determination or judgement or otherwise. The index sponsor may have economic interests adverse to those of the Warrantholders and Noteholders, including with respect to certain determinations and judgements that the index sponsor may be required to make pursuant to the terms of the HSBC proprietary Reference Index, any of which may affect payments in respect of the Warrants or Notes. The index sponsor may act in its own interests in such capacities and need not have regard to the interests of the Noteholders or Warrantholders.

The HSBC proprietary Reference Indices are calculated by a third party calculation agent as defined in the relevant index rules or summary thereof. HSBC Bank plc or the index sponsor (if different) has no responsibility for the calculation of the HSBC proprietary Reference Indices and does not guarantee or represent or warrant the accuracy or completeness of the HSBC proprietary Reference Indices or the data comprised therein. Furthermore, HSBC Bank plc has no responsibility in relation to the administration by any Third Party of the HSBC proprietary Reference Indices.

In respect of any Notes or Warrants linked to HSBC proprietary Reference Indices, this Offering Memorandum contains either a full set of the relevant index rules (see "*Annex 1 to Part D – HSBC Proprietary Indices Rules*") or a summary of the relevant index rules (see "*Annex 2 To Part D – Summaries of HSBC Proprietary Indices Rules*"). Notes or Warrants linked to one or more HSBC proprietary Reference Indices are subject to any applicable risk factors and disclaimers set out in the index rules or the summary of the index rules provided in this Offering Memorandum. To the extent this Offering Memorandum does not contain the full index rules for any HSBC proprietary Reference Indices, these are available from the Issuer upon request.

Specific risk factors relating to Equity-Linked Notes and Warrants

Extraordinary Events

There is a risk in respect of Equity-Linked Notes or Warrants that certain events may occur in respect of Reference Asset(s) (such as a merger, a takeover or exchange offer, delisting, nationalisation or transfer to a governmental agency or the insolvency or bankruptcy of the issuer of the Reference Asset(s)). If such event has occurred, the Calculation Agent may take certain actions, such as adjusting certain Conditions or redeeming the Notes or terminating the Warrants.

Upon the occurrence of such an early redemption or termination of the relevant Equity/Index-Linked Notes or Warrants, the holders thereof may suffer a loss of some or all of their investment and will forego any future appreciation in the relevant Reference Asset(s) that may occur following such redemption or termination.

Part A – Information Relating to the Programme Generally – Risk Factors

FX Rates

The value of the relevant Equity-Linked Notes or Warrants may be affected by changes in foreign exchange rates. For example, an appreciating USD relative to local currency may lower the value of the relevant Equity-Linked Notes or Warrants while a depreciating USD may increase the value of the relevant Equity-Linked Notes or Warrants.

Potential Adjustment Events

Investors in Equity-Linked Notes or Warrants are subject to the risk that certain circumstances in respect of Reference Asset(s) occur (such as a subdivision, consolidation or reclassification of securities, a distribution of dividend or extraordinary dividend or any other event that may have a diluting or concentrative effect on the theoretical value of the relevant Reference Asset(s)). If the Calculation Agent determines that such circumstances have occurred, the Calculation Agent may make a corresponding adjustment(s) as it in its sole and absolute discretion determines to be appropriate, to the number of Reference Asset(s) to which each Equity-Linked Note or Warrant relates and to any other exercise, settlement, payment or other term of the relevant Equity-Linked Notes or Warrants and determine the effective date(s) of such adjustment(s). As a result of such adjustments the value of the relevant Equity-Linked Notes or Warrants may be adversely affected and the holders thereof may suffer a loss of some or all of their investment as a result.

U.S. withholding tax may apply to Notes or Warrants linked to Reference Assets that are securities issued by U.S. issuers

Where Notes or Warrants are linked to Reference Assets or Reference Asset Components that are securities issued by U.S. issuers, certain payments on the Notes or Warrants could be subject to U.S. withholding tax (up to 30%, depending on the applicable treaty or other exemption). In addition, U.S. withholding tax could be imposed on non-U.S. holders of the Notes or Warrants to the extent U.S.-source dividends are paid on the Reference Assets, even if no corresponding payment is made on the Notes or Warrants to such non-U.S. holders.

If U.S. withholding tax is required on Notes or Warrants linked to Reference Assets or Reference Asset Components that are securities issued by U.S. issuers, the Issuer will not be required to pay any additional amounts with respect to the withheld amounts. See "*Taxation— United States Taxation— Withholding on Dividend Equivalent Payments*" below.

Specific risks relating to Equity-Linked Notes and Warrants where Securities are Units in a fund

In respect of Equity-Linked Notes and Warrants where the Reference Asset(s) are units in a fund, one of the following events may occur:

- (i) the relevant fund is (or is to be) wound-up or similar, or makes a restructuring arrangement with its creditors or certain insolvency proceedings or similar are commenced against the fund;
- (ii) breach by the relevant fund of any applicable leverage restriction or any contractual restriction binding on or affecting the fund or any of its assets;
- (iii) resignation, termination or replacement of the fund adviser;
- (iv) any change or modification of the fund documents that could reasonably be expected to affect the value of the Units or the rights or remedies of any holders thereof from those prevailing on the Issue Date;
- (v) any breach of any strategy or investment guidelines stated in the fund documents that is reasonably likely to affect the value of the Units or the rights or remedies of any holders thereof;
- (vi) it becomes impractical or impossible for the Issuer to hedge its obligations under the Notes or Warrants, as applicable;
- (vii) cancellation, suspension or revocation of the registration or approval of the Units or the fund by any governmental, legal or regulatory entity with authority over the Units or the fund;

Part A – Information Relating to the Programme Generally – Risk Factors

- (viii) any change in the legal, tax, accounting or regulatory treatments of the fund or the fund adviser that is reasonably likely to have an adverse impact on the value of the Units or on any investor therein;
- (ix) the relevant fund becoming subject to any investigation, proceeding or litigation by any relevant governmental, legal or regulatory authority involving the alleged breach of applicable law for any activities relating to or resulting from the operation of the fund;
- (x) it becomes impractical or impossible for the Calculation Agent to be able to determine the value of the units in the fund and this is likely to continue for the foreseeable future, or if there is an information failure which would make it difficult to monitor the fund;
- (xi) the Calculation Agent has determined that it has become illegal to hold the units in the fund or that the Issuer would incur a materially increased cost in performing its obligations under the Notes or Warrants;
- (xii) the Issuer would incur a materially increased amount of tax on its hedge of the Notes and Warrants except for where this is solely due to a deterioration in the Issuer's creditworthiness; or
- (xiii) the index underlying a fund is cancelled, or there is a material change in the formula or method of calculating the underlying index or other material modification of the relevant index, or the index sponsor fails to calculate and announce the underlying index.

Following the occurrence of such event ("**Extraordinary Fund Event**"), the Calculation Agent may make certain adjustments to or substitutions for the Affected Units as the Calculation Agent may determine in its sole and absolute discretion, or the Calculation Agent may determine in its sole and absolute discretion that the relevant Notes or Warrants shall be terminated upon payment to the holders thereof such an amount as in the opinion of the Calculation Agent is fair in the circumstances, each of which may result in a loss to such holders.

Tax and Currency Risk

The tax status of funds in those jurisdictions in which they conduct their business and/or any change in taxation rules or treatment in such jurisdictions could affect the value of the assets of such funds or the ability of funds to achieve their investment objectives. Consequently this could adversely affect the value of the Notes or Warrants linked to such funds. In addition, remittance of income and capital gains generated by underlying investments of funds in certain countries may be dependent on there being liquidity in the relevant local currency and the absence of foreign exchange controls which inhibit or prevent the repatriation of such gains. In any such circumstances, the value of the notional shares of funds may be adversely affected and as a result the relevant funds and the value of the Notes or Warrants may be adversely affected.

Class of Investments

Prospective purchasers or investors should note that funds may have legal or other discretions in relation to their investments and no assurance can be given that the exercise of such discretions will achieve the investment objectives of such funds. Therefore, there is a risk that return on an investment in funds may not be achieved. This would have an adverse effect on the value of the Notes or Warrants and any amounts payable thereunder.

Investment Risk

There can be no assurance that any fund will achieve its investment objectives. The investment income of each fund is based on the income earned on the securities it holds, less expenses incurred. Therefore, the funds' investment income may be expected to fluctuate in response to changes in such expenses or income and this may have an adverse affect on the value of the Notes or Warrants and any amounts payable thereunder.

High yield

Some reference funds may invest in high yield securities. High yield securities are typically medium or lower rated securities and are sometimes referred to as "junk bonds". Such securities are more likely to

Part A – Information Relating to the Programme Generally – Risk Factors

react to developments affecting market and credit risk than are more highly rated securities, which primarily react to movements in the general level of interest rates. The risk of loss due to default by issuers of high yield securities is significantly greater because lower rated and unrated securities of comparable quality generally are unsecured and frequently are subordinated to the prior payment of senior indebtedness. In addition, funds which invest in such securities may find it more difficult to sell high yield securities or may be able to sell the securities only at prices lower than if such securities were widely traded. Furthermore, such funds may experience difficulty in valuing certain securities at certain times. Prices realised upon the sale of such lower rated (or unrated) securities, under these circumstances, may be less than the prices used in calculating the value of such funds. All such risks could adversely affect the value of Notes or Warrants linked to funds which invest in high yield securities.

Provision of information

None of the Issuer or any of its affiliates is under any obligation to provide information in respect of any fund underlying the Notes or Warrants (including any information relating to the creditworthiness of such funds) or monitor whether or not any event or circumstance in respect of any funds underlying the Notes or Warrants has occurred. The Issuer may have acquired, or during the term of the Notes or Warrants may acquire, non-public information with respect to one or more funds. The Issuer is not under any obligation to make such information available to holders of such Notes or Warrants. Therefore, an investor in the Notes or Warrants should obtain and evaluate information concerning the relevant funds as it would if it were investing directly in such funds.

Additional considerations/ risk factors set out in offering documents relating to funds

Investors in the Notes and/or Warrants which are linked to funds (including, but not limited to, exchange-traded funds) should note that there may be particular investment considerations and risk factors set out in the offering documentation relating to such funds and are advised to read and consider such offering documentation in making an investment decision to invest in such Notes and/or Warrants. Such information is not incorporated by reference and does not form part of this Offering Memorandum.

(6) Risks relating to Preference Share-Linked Notes

General

On redemption Preference Share-Linked Notes will be redeemed by payment of an amount determined by reference to the performance of the relevant preference shares, which depends on the performance of the relevant underlying asset(s) or basis of reference to which the preference shares are linked (the "**Preference Share Underlying**"). If the performance of the Preference Share Underlying is negative, the performance of the preference shares will be negative and thus the value of the Preference Share-Linked Notes will be adversely affected. Purchasers of Preference Share-Linked Notes risk losing all or a part of their investment if the value of the preference shares does not move in the anticipated direction. **If the value of the Preference Shares becomes zero, the value of the Preference Share-Linked Notes will also become zero.**

Preference Share Underlying

The Preference Share Underlying may be a specified index or basket of indices, a specified share or basket of shares, a specified currency or basket of currencies, a specified debt instrument or basket of debt instruments, a specified commodity or basket of commodities, a specified fund share or unit or basket of fund shares or units or such other underlying instruments, bases of reference or factors as may be determined by the Preference Share Issuer and specified in the terms and conditions of the relevant series of Preference Shares.

Credit Risk of Preference Share Issuer – Preference Share-Linked Notes are linked to the performance of the relevant preference shares issued by the Preference Share Issuer. Investors bear the Preference Share Issuer risk. The value of the Preference Share-Linked Notes is dependent not only on the value of the preference share, but also on the creditworthiness of the Preference Share Issuer, which may vary over the term of the Preference Share-Linked Notes. The Preference Share Issuer is not an operating company. Its sole business activity is the issue of redeemable preference shares. The Preference Share Issuer does not have any trading assets and does not generate any significant net income. As its funds are limited any misappropriation of funds or other fraudulent action by the Preference Share Issuer or person acting on its

Part A – Information Relating to the Programme Generally – Risk Factors

behalf would have a significant effect on the value of the preference shares and will affect the value of the Preference Share-Linked Notes.

Potential conflicts of interest

HSBC Bank plc is the Issuer and HSBC France is the Calculation Agent in respect of Preference Share-Linked Notes and also acts as calculation agent in respect of the Preference Shares (the "**Preference Share Calculation Agent**"). HSBC Bank plc and HSBC France are both members of the HSBC group of companies. As a result of this relationship, potential conflicts of interest may arise for HSBC Bank plc and HSBC France in acting in their respective capacities. Subject to any relevant regulatory obligations, the Issuer and the Preference Share Calculation Agent owe no duty or responsibility to any Noteholder to avoid any conflict or to act in the interests of any Noteholder. The Preference Share Issuer may also rely on other HSBC entities (including the Preference Share Calculation Agent) or other service providers to perform its operational requirements. In the event any relevant HSBC entities or other service providers fail to perform any obligations, this may adversely affect the value of the Preference Shares and potentially the amounts payable under the Notes.

In addition to providing calculation agency services to the Preference Share Issuer, HSBC France or any of its affiliates may perform further or alternative roles relating to the Preference Share Issuer and any series of Preference Shares including, but not limited to, being involved in arrangements relating to any Preference Share Underlying (for example as a calculation agent). Further, HSBC France or any of its affiliates (including HSBC Bank plc) may contract with the Preference Share Issuer and/or enter into transactions, including hedging transactions, which relate to the Preference Share Issuer, the Preference Shares or any Preference Share Underlying and as a result HSBC France may face a conflict between its obligations as Preference Share Calculation Agent and its and/or its affiliates' interests in other capacities.

(7) Risks relating to Commodity/Commodity Index-Linked Notes and Warrants

Factors affecting the performance of both Commodities and Commodity Indices

Commodities comprise physical commodities, which need to be stored and transported, and commodity contracts, which are agreements either to buy or sell a set amount of a physical commodity at a predetermined price and delivery period (which is generally referred to as a delivery month), or to make and receive a cash payment based on changes in the price of the physical commodity.

Commodity contracts may be traded on regulated specialised futures exchanges (such as futures contracts) or may be traded directly between market participants "over-the-counter" (such as swaps and forward contracts) on trading facilities that are subject to lesser degrees of regulation or, in some cases, no substantive regulation.

The performance of commodity contracts are correlated with, but may be different to, the performance of physical commodities. Commodity contracts are normally traded at a discount or a premium to the spot prices of the physical commodity. The difference between the spot prices of the physical commodities and the futures prices of the commodity contracts, is, on one hand, due to adjusting the spot price by related expenses (warehousing, transport, insurance, etc.) and, on the other hand, due to different methods used to evaluate general factors affecting the spot and the futures markets. In addition, and depending on the commodity, there can be significant differences in the liquidity of the spot and the futures markets.

The performance of a commodity, and consequently the corresponding commodity contract, is dependent upon various factors, including supply and demand, liquidity, weather conditions and natural disasters, direct investment costs, location and changes in tax rates as set out in more detail below. Commodity prices are more volatile than other asset categories, making investments in commodities riskier and more complex than other investments.

- (i) *Supply and demand* - The planning and management of commodities supplies is very time-consuming. This means that the scope for action on the supply side is limited and it is not always possible to adjust production swiftly to take account of demand. Demand can also vary on a regional basis. Transport costs for commodities in regions where these are needed also affect their prices. The fact that some commodities take a cyclical pattern, such as agricultural products which are only produced at certain times of the year, can also result in major price fluctuations.

Part A – Information Relating to the Programme Generally – Risk Factors

- (ii) *Liquidity* - Not all commodities markets are liquid and able to quickly and adequately react to changes in supply and demand. The fact that there are only a few market participants in the commodities markets means that speculative investments can have negative consequences and may distort prices.
- (iii) *Weather conditions and natural disasters* - Unfavourable weather conditions can influence the supply of certain commodities for the entire year. This kind of supply crisis can lead to severe and unpredictable price fluctuations. Diseases and epidemics can also influence the prices of agricultural commodities.
- (iv) *Direct investment costs* - Direct investments in commodities involve storage, insurance and tax costs. Moreover, no interest or dividends are paid on commodities. The total returns from investments in commodities are therefore influenced by these factors.
- (v) *Governmental programmes and policies, national and international political, military and economic events and trading activities in commodities and related contracts* - Commodities are often produced in emerging market countries, with demand coming principally from industrialised nations. The political and economic situation is however far less stable in many emerging market countries than in the developed world. They are generally much more susceptible to the risks of rapid political change and economic setbacks. Political crises can affect purchaser confidence, which can as a consequence affect commodity prices. Armed conflicts can also impact on the supply and demand for certain commodities. It is also possible for industrialised nations to impose embargos on imports and exports of goods and services. This can directly and indirectly impact commodity prices. Furthermore, numerous commodity producers have joined forces to establish organisations or cartels in order to regulate supply and influence prices.
- (vi) *Changes in tax rates* - Changes in tax rates and customs duties may have a positive or a negative impact on the profitability margins of commodities producers. When these costs are passed on to purchasers, these changes will affect prices.

These factors may affect in varying ways the value of a Note or Warrant linked to a Commodity or a Commodity Index.

Factors affecting the performance of Commodity Indices

Commodity Indices track the performance of a synthetic production-weighted basket of commodity contracts on certain physical commodities. The level of a Commodity Index replicates an actual investment in commodity contracts, and therefore goes up or down depending on the overall performance of this weighted basket of commodity contracts. Although Commodity Indices track the performance of the commodity markets, in a manner generally similar to the way in which an index of equity securities tracks the performance of the share market, there are important differences between a commodity index and an equity index. First, an equity index typically weights the shares in the index based on market capitalisation, while the commodities included in a Commodity Index are typically, though not always, weighted based on their world production levels and the dollar value of those levels with the exception of any sub-index of a Commodity Index based upon such sub-index. Second, unlike shares, commodity contracts expire periodically and, in order to maintain an investment in commodity contracts, it is necessary to liquidate such commodity contracts before they expire and establish positions in longer-dated commodity contracts. This feature of a Commodity Index, which is discussed below – see the risk factor "*Exposure to "Rolling" and its impact on the performance of a Commodity Index*", has important implications for changes in the value of a Commodity Index. Finally, the performance of a Commodity Index is dependent upon the macroeconomic factors relating to the commodities that underpin the commodities contracts included in such Commodity Index, such as supply and demand, liquidity, weather conditions and natural disasters, direct investment costs, location and changes in tax rates – see the risk factor, "*Factors affecting the performance of both Commodities and Commodity Indices*". The performance of commodity contracts in one sector may offset the performance of commodity contracts in another sector.

While holding an inventory of physical commodities may have certain economic benefits (for example, a refinery could use a reserve of crude oil for the continuation of its operations), it also poses administrative burdens and costs, including those arising from the need to store or transport physical commodities.

Part A – Information Relating to the Programme Generally – Risk Factors

These requirements and costs may prove unattractive to investors who are interested solely in the price movement of commodities. Commodity contracts permit an investor to obtain exposure to the prices of commodities without directly incurring these requirements and costs. However, an investor in commodity contracts, or in an index of commodity contracts, can be indirectly exposed to these costs, which may be reflected in the prices of the commodity contracts and therefore in the level of a Commodity Index. In addition, the fact that commodity contracts have publicly available prices allows calculation of an index based on these prices. The use of commodity contracts, therefore, allows the index sponsor, to separate the exposure to price changes from the ownership of the underlying physical commodity, and thus allow participation in the upside and downside movement of commodity prices independently of the physical commodity itself.

Exposure to risk that if the price of the underlying physical commodities increases, the level of the Commodity Index will not necessarily also increase

If the price of the underlying physical commodities increases, the level of the Commodity Index will not necessarily also increase, for two reasons. The redemption amount payable on Notes or the settlement amount of the Warrants that reference a Commodity Index is linked to the performance of such Commodity Index, which in turn tracks the performance of the basket of commodity contracts included in such Commodity Index, rather than individual physical commodities themselves. Changes in the prices of commodity contracts should generally track changes in the prices of the underlying physical commodities, but, as described above, the prices of commodity contracts might from time to time move in ways or to an extent that differ from movements in physical commodity prices. Therefore, the prices of a particular commodity may go up but the level of the Commodity Index may not change in the same way. Second, because commodity contracts have expiration dates – i.e. dates upon which trading of the commodity contract ceases, there are certain adjustments that need to be made to the Commodity Index, in order to retain an investment position in the commodity contracts. These adjustments, which are described below and primarily include the mechanic of "rolling" may have a positive or negative effect on the level of the Commodity Index. This feature of a Commodity Index is discussed below – see the risk factor "*Exposure to "Rolling" and its impact on the performance of a Commodity Index*". As a result, these adjustments may, in certain instances, cause a discrepancy between the performance of the Commodity Index, and the performance of the commodity contracts underlying such Commodity Index. Accordingly, purchasers of Notes or Warrants that reference Commodity Indices may receive a lower payment upon redemption of such Notes or settlement of such Warrants than such purchaser would have received if he or she had invested directly in commodities underlying such Commodity Indices, or a Note whose redemption amount or Warrants whose settlement amount was based upon the spot price of physical commodities or commodity contracts that were scheduled to expire on the maturity date of the Notes or the expiry date of the Warrants.

Exposure to "Rolling" and its impact on the performance of a Commodity Index

(i) *"Rolling"*

Since any commodity contract has a predetermined expiration date on which trading of the commodity contract ceases, holding a commodity contract until expiration will result in delivery of the underlying physical commodity or the requirement to make or receive a cash settlement. "Rolling" the commodity contracts means that the commodity contracts that are nearing expiration (the "**near-dated commodity contracts**") are sold before they expire and commodity contracts that have an expiration date further in the future (the "**longer-dated commodity contracts**") are bought. This would allow an actual investor to maintain an investment position without receiving delivery of physical commodities or making or receiving a cash settlement. As Commodity Indices replicate an actual investment in commodity contracts, it takes into account the need to roll the commodity contracts included in such Commodity Index. Specifically, as a near-dated commodity contract approaches expiration, the Commodity Index is calculated as if the near-dated commodity contract is sold and the proceeds of that sale are used to purchase a longer-dated commodity contract of equivalent value in the delivery month applicable for such commodity contract included in such Commodity Index.

(ii) *"Backwardation"*

When the price of the near-dated commodity contract is greater than the price of the longer-dated commodity contract, the market for such contracts is referred to as in "*backwardation*". If the

Part A – Information Relating to the Programme Generally – Risk Factors

rolling process occurs when the price of a commodity contract is in backwardation, this results in a greater quantity of the longer-dated commodity contract being acquired for the same value. Rolling contracts in a backwardated market can (putting aside other considerations) create a "roll yield".

(iii) *"Contango"*

When the price of the near-dated commodity contract is lower than the price of the longer-dated commodity contract, the market for such contracts is referred to as in "*contango*". If the rolling process occurs when the price of a commodity contract is in contango, this results in a smaller quantity of the longer-dated commodity contract being acquired for the same value. Rolling contracts in a contango market can (putting aside other considerations) result in negative "roll yields" which could adversely affect the level of a Commodity Index tied to that contract.

(iv) *"Rolling" can affect a Commodity Index in two ways.*

Firstly, if the Commodity Index, synthetically owns more commodity contracts as a result of the rolling process, albeit at a lower price (backwardation), the gain or loss on the new positions for a given movement in the prices of the commodity contracts will be greater than if the Commodity Index, had owned the same number of commodity contracts as before the rolling process. Conversely, if the Commodity Index, synthetically owns fewer commodity contracts as a result of the rolling process, albeit at a higher price (contango), the gain or loss on the new positions for a given movement in the prices of the commodity contracts will be less than if the Commodity Index, had owned the same number of commodity contracts as before the rolling process. These differentials in the quantities of contracts sold and purchased may have a positive or negative effect on the level of the Commodity Index (measured on the basis of its dollar value).

Secondly, in a contango market, and in the absence of significant market changes, the prices of the longer-dated commodity contracts which the Commodity Index, synthetically buys and holds are expected to, but may not, decrease over time as they near expiry. The expected decrease in price of these longer-dated commodity contracts as they near expiry can potentially cause the level of the Commodity Index, to decrease. Conversely, in a backwardated market, and in the absence of significant market changes, the prices of the longer-dated commodity contracts are expected to, but may not, increase over time as they near expiry. The expected increase in price of these longer-dated commodity contracts as they near expiry can potentially cause the level of the Commodity Index to increase.

(v) *The effects of "Rolling" may be mitigated.*

The trend in prices of the commodity contracts may mitigate the effects of rolling. Also, as the Commodity Index includes many different types of commodity contracts, each of those commodity contracts may be in a different type of market, either backwardation or contango, and therefore may offset any losses and gains attributable to rolling.

Market Disruption Events relating to Commodity/Commodity Index-Linked Notes and Warrants

If a Market Disruption Event occurs then:

- (i) the Calculation Agent will determine if such event has a material effect on the Notes and Warrants and, if so, will calculate the relevant Interest Amount and/or make another relevant calculation using, in lieu of a published price for the relevant Commodity or Commodity Index, the price for that Commodity or Commodity Index as at the time specified on the relevant Pricing Date, as determined by the Calculation Agent taking into consideration the latest available quotation for such Commodity or Commodity Index and any other information that in good faith it deems relevant; or
- (ii) unless Delayed Redemption on the Occurrence of a Market Disruption Event is specified as being applicable in the relevant Pricing Supplement, on giving notice to holders, the Issuer will redeem, the Notes or terminate the Warrants, and pay in respect of each Note or Warrant an amount equal to the fair market value of such Notes or Warrants less any Associated Hedging Costs, all as determined by the Calculation Agent in its sole and absolute discretion; or

Part A – Information Relating to the Programme Generally – Risk Factors

- (iii) where Delayed Redemption on the Occurrence of a Market Disruption Event is specified as being applicable in the relevant Pricing Supplement, the Calculation Agent will calculate the fair market value of each Note or Warrant, taking into account the Market Disruption Event less any Associated Hedging Costs (the "**Calculated Market Disruption Amount**") as soon as practicable following the occurrence of the Market Disruption Event (the "**Calculated Market Disruption Amount Determination Date**") and, on the Maturity Date or Expiry Date (as applicable), shall redeem each Note or terminate the Warrants at an amount calculated by the Calculation Agent equal to the Calculated Market Disruption Amount plus interest accrued (if any) from and including the Calculated Additional Market Disruption Amount Determination Date to but excluding the Maturity Date or Expiry Date (as applicable) at a rate equal to Issuer's funding cost at such time. Consequently the occurrence of a Market Disruption Event in relation to a Commodity or Commodity Index may have an adverse effect on the value or liquidity of the Notes and Warrants.

Additional Factors Relating to Market Disruption Events

If an issue of Notes and Warrants includes provisions dealing with the occurrence of a Market Disruption Event on a Pricing Date or any other relevant date and the Calculation Agent determines that a Market Disruption Event has occurred or exists on such Pricing Date or any other relevant date, any consequential postponement of the Pricing Date or any other relevant date or any alternative provisions for valuation provided in any Notes and Warrants may have an adverse effect on the value and liquidity of such Notes and Warrants. The occurrence of such a Market Disruption Event to any Commodity or Commodity Index comprising a basket may also have such an adverse effect on Notes and Warrants related to such basket.

(8) Risks relating to Interest Rate-Linked Notes and Warrants and Inflation Rate-Linked Notes and Warrants

Volatility

Interest rates and inflation rates can be volatile and unpredictable. Investors should be aware of the possibility of significant changes in interest rates and inflation rates resulting in a decrease in the value of interest payments and the principal payable on the Notes at maturity or Warrants at expiry or exercise. As a consequence the market value of the Notes or Warrants may also fall.

Interest income risk

In relation to certain types of Interest Rate-Linked Notes and Warrants and Inflation Rate-Linked Notes and Warrants, interest only accrues on days on which the interest related Reference Asset fixes within a predetermined range set out in the Pricing Supplement. If the interest-related Reference Asset does not fix within such range on one or more days during the term of the Notes or Warrants, then the return on the Notes or Warrants may be lower than traditional fixed rate securities, or even zero. Holders should note that no interest accrues on days when the interest-related Reference Asset fixes outside of the range.

(9) Risks relating to Currency-Linked Notes and Warrants

Volatility of exchange rates

Exchange rates can be volatile and unpredictable. Investors should be aware of the possibility of significant changes in rates of exchange between the Specified Currency and Reference Currencies, the Denomination Currency and the Settlement Currency and the Settlement Currency and Alternative Payment Currency (as applicable) may result in a decrease in the value of interest payments or the principal payable on the Notes at maturity or the payments on Warrants at expiry or exercise. As a consequence, the market value of the Notes or Warrants may also fall.

FX Disruption Event

Investors in the Notes or Warrants should be aware that, following the occurrence of a FX Disruption Event (as defined in the Conditions) the Issuer may elect to redeem the Notes or terminate the Warrants (as applicable) against payment of an amount determined by the Calculation Agent to be the fair market value of the Notes or Warrants less the cost to the Issuer of unwinding any underlying related hedging arrangements (such amount may be less than any amount received at maturity or expiry or exercise and

Part A – Information Relating to the Programme Generally – Risk Factors

may result in a loss to the investors) or instruct the Calculation Agent to make such adjustments to the Conditions of the Notes or Warrants as it determines to be necessary or desirable to reflect any market practice which develops in respect of the FX Disruption Event.

If, by reason of an FX Disruption Event, the Issuer is unable to settle payments under the Notes or Warrants in the Settlement Currency the Issuer may settle payments by payment of the Alternative Payment Currency Equivalent (which will be an amount in USD or such other currency specified as the Alternative Payment Currency in the relevant Pricing Supplement). Also, if the Notes are redeemed early or the Warrants are terminated early, investors will forego any future appreciation or depreciation in the underlying currency.

Notes linked to an index, formula or other underlying and multi-currency and Dual Currency Notes

The Issuer may issue Notes with principal or interest payable in one or more currencies which may be different from the currency in which the Notes are denominated ("**Dual Currency Notes**"). Prospective investors should be aware that:

- (i) the market price of such Notes may be very volatile;
- (ii) payment of principal or interest may occur at a different time or in a different currency than expected;
- (iii) they may lose all or a substantial portion of their principal and/or interest payments;
- (iv) the relevant currencies may be subject to significant fluctuations that may not correlate with changes in interest rates, currencies or other indices; and
- (v) the timing of changes in a relevant currency may affect the actual yield to investors, even if the average level is consistent with their expectations. In general, the earlier the change in the relevant currency, the greater the effect on yield.

(10) Risks relating to Credit-Linked Warrants to which Part F – Product Supplement for Credit-Linked Warrants applies

General

The Issuer may issue Warrants where the amount (if any) payable on exercise is dependent upon whether certain events ("**Credit Events**") are determined (by an ISDA Credit Derivatives Determinations Committee or the Calculation Agent) to have occurred in respect of one or more entities (together "**Reference Entities**" and each a "**Reference Entity**") and, if so, on the value of certain specified assets of such Reference Entity(ies). In this respect the Warrants provide investors with a return linked to the credit of the Reference Entity or Reference Entities, as well as the credit risk of the Issuer in performing its obligations under the Warrants.

An investor's exposure to the credit of the Reference Entity(ies) shall be, unless otherwise stated in the relevant Pricing Supplement, to the full extent of their investment in the Warrants and will not provide protection of investment. *The terms of the Warrants are designed to reflect the credit exposure of a buyer of credit protection in respect of each Reference Entity and accordingly in certain circumstances (including if during the life of the Warrants no Credit Event occurs or if the Cash Settlement Amount in respect of any Credit Event is zero) the Warrants may expire worthless.*

Prospective investors in any Warrants should be aware that (i) they will receive no return by way of interest or other periodic payments, (ii) payment of any cash amount due on exercise of their Warrants may occur at a different time than expected and (iii) they may lose all or a substantial portion of their investment. It is the responsibility of investors to ensure that their accounting, regulatory and all other treatments of the Warrants are consistent with the conditional nature of their entitlement to receive payments under the Warrants.

The market price of the Warrants may be volatile and will be affected by factors that interrelate in complex ways, including amongst other things, the Issuer's creditworthiness, the time remaining to final expiration of the Warrants and the creditworthiness of the Reference Entity, which in turn may be affected by the economic, financial and political events in one or more jurisdictions. It is important for

Part A – Information Relating to the Programme Generally – Risk Factors

investors to understand that the effect of one factor may offset the increase in the market price of the Warrants caused by another factor, and that the effect of one factor may exacerbate the decrease in the market price of the Warrants caused by another factor. For example, an increase in the creditworthiness of a Reference Entity may more than offset any increase in the Issuer's creditworthiness. The market price of the Warrants may be zero.

The Additional Terms and Conditions relating to Credit-Linked Warrants in Part F of this Offering Memorandum contains Additional Terms and Conditions for Credit Linked Warrants with terms based on the 2014 ISDA Credit Derivatives Definitions (the "**2014 ISDA Definitions**"). The 2014 ISDA Definitions are different from the 2003 ISDA Credit Derivatives Definitions (as supplemented) (the "**2003 ISDA Definitions**") (see further "*Differences between the 2003 ISDA Definitions and the 2014 ISDA Definitions*" below).

The Calculation Agent may exercise its right to deliver a Credit Event Notice even if the relevant Credit Event is no longer continuing and Warranholders will have no right to compel the exercise of this right or to control the timing of a Credit Event Determination Date. Notwithstanding this, in most cases a Credit Event can only be triggered (whether by a Credit Derivatives Determinations Committee determination or the Calculation Agent) if the relevant event occurred within a 60 calendar day look-back period. These provisions mean that there is a time limit on the ability to act on a Credit Event.

In the event that a Credit Event occurs but the Calculation Agent does not exercise its discretion to deliver the notices which result in a Credit Event Determination Date and a Credit Event Determination Date does not otherwise arise as a result of a Credit Derivatives Determinations Committee determination, no amounts will be payable under the Warrants in respect of that Credit Event. In such circumstances investors in Warrants linked to a basket of Reference Entities will lose that portion of their investment exposed to the relevant Reference Entity and investors in Warrants linked to a single Reference Entity will lose their entire investment and their Warrants will expire worthless.

The Calculation Agent is the Issuer and accordingly conflicts of interest arise with respect to the exercise of such discretion – see also "*Conflicts of Interest*" below.

Not all Credit Events are triggered by events which are easily ascertainable and disputes can and have arisen as to whether a specific event did or did not constitute a Credit Event. Under the terms of the Warrants, subject to certain Credit Derivatives Determinations Committee determinations, the Calculation Agent's determination will be binding on the Issuer and Warranholders and may be different from the view of Warranholders, other financial institutions and/or commentators.

The Issuer may determine that certain terms of the Warrants (for example the applicable Credit Events, Deliverable Obligations and Obligations) be those set in the Credit Derivatives Physical Settlement Matrix for the Transaction Type(s) specified in the Pricing Supplement for the Reference Entity(ies), rather than being specified in the Pricing Supplement. The Physical Settlement Matrix sets out a number of terms which, depending on the Transaction Type specified, will apply to standard credit derivatives transactions if incorporated into the documentation for those transactions and is published by ISDA on its website at www.isda.org (or any successor website thereto). If applicable to the Warrants, the version of the Physical Settlement Matrix which will apply will be that dated the date specified in the relevant Pricing Supplement.

Settlement on a Credit Event and Credit Event Determination Date

If a Credit Event occurs the value of obligations of the relevant Reference Entity, which will affect the Cash Settlement Amount (if any) due on the related exercise of the Warrants if a Credit Event Determination Date occurs, may fluctuate during the period between the Credit Event Determination Date and settlement of the Warrants.

Any Cash Settlement Amount will be calculated by reference to (amongst other things) the "Auction Final Price" determined pursuant to an ISDA auction relating to obligations of the relevant Reference Entity of appropriate seniority (see further "*Risks relating to Auction Settlement of Credit Linked Warrants*" below) or, depending upon the circumstances, the value (described as the "Final Price") of one or more Valuation Obligations of the relevant Reference Entity. In such circumstances the Issuer will select the Valuation Obligations in its sole and absolute discretion irrespective of their market value or

Part A – Information Relating to the Programme Generally – Risk Factors

liquidity and will not be obliged to consider the interests of Warrantheolders or any recovery of their investment and/or increase of their return.

If a Credit Event and Credit Event Determination Date occur but the Cash Settlement Amount is zero, no payment will be due from the Issuer to Warrantheolders on the related exercise of the Warrants. In such circumstances investors in Warrants linked to a basket of Reference Entities will lose that portion of their investment exposed to the relevant Reference Entity and investors in Warrants linked to a single Reference Entity will lose their entire investment and their Warrants will expire worthless.

Investors in the Warrants are accordingly exposed to the credit risk of the Reference Entity(ies). If a Credit Event Determination Date occurs, investors' exposure to the credit performance of the Reference Entity(ies) may not correspond to actual market losses on any such Reference Entity. The maximum loss to an investor in the Warrants is 100 per cent. of their initial investment.

Additional risks associated with Basket Credit Linked Warrants

If a Credit Event Determination Date occurs in respect of a Reference Entity and the hedging costs arising in relation to the Issuer's and/or any of its affiliates' hedging arrangements in connection with the related exercise and settlement of the Warrants exceed the losses in connection with such Credit Event (being the Reference Entity Notional Amount, reflecting the Warrants' exposure to the relevant Reference Entity, multiplied by one minus the Auction Final Price or the Final Price, as applicable), such shortfall (and any such shortfalls in respect of any other Credit Event Determination Dates) will be deducted in the calculation of any Cash Settlement Amounts in respect of any future Credit Event Determination Dates until met. Therefore investors' exposure to each Reference Entity may exceed the exposure that they might incur in respect of having entered into a standard single name credit default swap as protection seller in respect of each Reference Entity and investors may lose the entire amount invested.

Successors

A Reference Entity may be replaced as Reference Entity by one or more Successor(s). For these purposes the relevant Succession Date must occur within a 90 calendar day look-back period, other than in the case of a universal succession, where the Succession Date must have occurred on or after 1 January 2014. These provisions mean that there is a time limit on the ability to act on a succession and that it is possible that the Warrants could be affected by a succession that took place prior to the Trade Date.

The Calculation Agent may, if it determines appropriate, select an alternative Transaction Type for any Successor to a Reference Entity and adjust such of the Conditions, the Credit Linked Conditions and/or the relevant Pricing Supplement as it determines appropriate to reflect such new Transaction Type and determine the effective date of any such change and adjustment.

In addition, where more than one Successor to a Reference Entity has been identified the Calculation Agent shall adjust such of Conditions, the Credit Linked Conditions and/or the relevant Pricing Supplement as it shall determine to be appropriate (including, without limitation, the relevant Reference Entity Notional Amount and (if applicable) the relevant Transaction Type) to reflect that the relevant Reference Entity has been succeeded by more than one Successor and shall determine the effective date of that adjustment.

iTraxx® Europe Basket Credit Linked Warrants

If the Warrants are linked to a basket of Reference Entities and iTraxx® Europe is specified as applicable in the relevant Pricing Supplement, the Reference Obligations as of the issue date of the Warrants will be those set out in the Index Annex (the list for the relevant iTraxx® Europe Index with the Annex Date specified in the relevant Pricing Supplement, as published by the Index Publisher, being Markit Group Limited as of the date of this Offering Memorandum) and notwithstanding "Successors" above determinations by the Index Sponsor (being Markit Indices Limited as of the date of this Offering Memorandum) with respect to replacement Reference Obligations and/or Successors, will apply for the purposes of the Warrants. In addition, if ISDA publicly announces a Successor prior to the Trade Date but following the "Roll Date" specified in the Index Annex, such Successor will apply for the purposes of the Warrants, notwithstanding such announcement occurring prior to the Trade Date.

Part A – Information Relating to the Programme Generally – Risk Factors

Settlement suspension

The Credit Linked Conditions also provide that if, following the determination of a Credit Event Determination Date but prior to a cut-off date, there is a DC Credit Event Meeting Announcement, the Calculation Agent may at its option determine that the applicable timing requirements of the Credit Linked Conditions and the definitions of Cash Settlement Payment Date and Valuation Date and any other Credit Linked Condition as determined by the Calculation Agent, shall toll and be suspended and remain suspended (such period of suspension, a "**Suspension Period**") until the date of the relevant DC Credit Event Announcement or DC Credit Event Question Dismissal (with no action being taken in connection with the settlement of the Notes during such Suspension Period). At that point, the relevant timing requirements of the Credit Linked Conditions that have previously tolled or been suspended shall resume on the Business Day following such public announcement by the DC Secretary.

In the event of any such Suspension Period, the Calculation Agent may make (i) such consequential or other adjustment(s) or determination(s) to or in relation to the Credit Linked Conditions as may be desirable or required either during or following any relevant Suspension Period to account for or reflect such suspension and (ii) determine the effective date of such adjustment(s) or determination(s).

Amendment of Credit Linked Conditions in accordance with market convention

The Calculation Agent may from time to time amend any provision of the Credit Linked Conditions (i) to incorporate and/or reflect further or alternative documents or protocols from time to time published by ISDA with respect to the settlement of credit derivative transactions and/or the operation or application of determinations by the ISDA Credit Derivatives Determinations Committees, including without limitation, in relation to settlement, credit events and successors and/or (ii) in any manner which the Calculation Agent determines in a commercially reasonable manner is necessary or desirable to reflect or account for market practice for credit derivative transactions and/or reflect hedging arrangements of the Issuer.

ISDA Credit Derivatives Definitions

Whilst there are many similarities between the terms used in this Offering Memorandum (in particular, in Part F in the Additional Terms and Conditions relating to Credit-Linked Warrants) and the terms used in the 2014 ISDA Definitions, there are many substantial differences and a prospective investor should understand that the complete terms and conditions of the Warrants are as set out in the relevant sections of the Offering Memorandum and the relevant Pricing Supplement and that the 2014 ISDA Definitions are not incorporated by reference herein. Consequently, investing in Credit Linked Warrants is not necessarily equivalent to investing a credit default swap that incorporates the 2014 ISDA Definitions.

While ISDA has published and, where appropriate, supplemented the 2014 ISDA Definitions in order to facilitate transactions and promote uniformity in the credit derivatives market, the credit derivatives market has evolved over time and is expected to continue to change. Consequently, the 2014 ISDA Definitions and the terms applied to credit derivatives generally, including Credit Linked Warrants are subject to further evolution. Past events have shown that the view of market participants may differ as to how sets of ISDA Definitions operate or should operate. As a result of the continued evolution of the market, the Credit Linked Warrants may not conform to future market standards. Such a result may have a negative impact on the Credit Linked Warrants and there can be no assurances that changes to the terms applicable to credit derivatives generally will be predictable or favourable to the Issuer or the Warrantholders.

Differences between the 2003 ISDA Definitions and the 2014 ISDA Definitions

There are a number of important differences between the 2003 ISDA Definitions and the 2014 ISDA Definitions. In particular the 2014 ISDA Definitions have:

- (a) introduced a new Credit Event of "Governmental Intervention", which is intended to capture "bail-in" procedures to which financial institutions may be subject;
- (b) made certain amendments to the Restructuring Credit Event to provide for the possibility of a Euro exit;

Part A – Information Relating to the Programme Generally – Risk Factors

- (c) reduced the number of buckets applicable in circumstances where Mod Mod R is applicable and deleted the concept of the "Enabling Obligation" which was previously applicable to both Mod R and Mod Mod R;
- (d) introduced the concept of Asset Package Delivery in respect of certain Financial Reference Entities and Sovereigns. This provides that if Deliverable Obligations are exchanged into non-Deliverable assets or written-down in part or in full, in certain circumstances, the credit protection buyer will be able to deliver the resultant package of Assets or the written-down Deliverable Obligation to realise its protection;
- (e) split credit protection between senior and subordinated coverage in respect of a Governmental Intervention and Restructuring Credit Event for Financial Reference Entities, i.e. a Senior Transaction will only be triggered by a Restructuring or Governmental Intervention of Senior Obligations and a Subordinated Transaction will not be capable of being triggered by a Restructuring or Governmental Intervention of an obligation which is Subordinated to the Subordinated Reference Obligation;
- (f) made a number of changes to the provisions for determining a Successor to a Reference Entity, particularly with respect to Financial and Sovereign Reference Entities;
- (g) provided for a new election of "Standard Reference Obligation" which, if chosen, will mean that the Reference Obligation will be the obligation of the relevant seniority level published in respect of the relevant Reference Entity on a List maintained by ISDA. A transaction on the terms of the 2014 ISDA Definitions may elect not to apply that election such that the Reference Obligation would remain as chosen by the parties, although, if this is the case, the procedure for selecting a Substitute Reference Obligation has also changed significantly in the 2014 ISDA Definitions;
- (h) replaced the Not Contingent Deliverable Obligation Characteristic with the concept of Outstanding Principal Balance. In order for an obligation (including the Reference Obligation) to constitute a Deliverable Obligation, it must have an Outstanding Principal Balance greater than zero;
- (i) amended the definition of "Qualifying Guarantee" to expand the universe of guarantees that can constitute Qualifying Guarantees (with a particular emphasis on including, to some extent, guarantees with caps or transfer provisions); and
- (j) introduced a large number of technical and other changes.

These changes in the 2014 ISDA Definitions as compared to the 2003 ISDA Definitions have been reflected in the Additional Terms and Conditions relating to Credit-Linked Warrants in Part F of this Offering Memorandum, but in each case subject to important differences, including to reflect the nature of the Warrants as compared to "over-the-counter" transactions and to reflect any hedging arrangements the Issuer may put in place. Some changes, such as the inclusion of a new Credit Event, may have significant economic effect on the Credit Linked Warrants and may mean the value of the Credit Linked Warrants and the return (if any) to investors is significantly different from credit-linked Warrants whose terms reflect the 2003 ISDA Definitions. Some changes may be disadvantageous to Warrantheolders and prospective investors should review carefully the terms of any issue of Warrants and, where in any doubt, take advice from suitably qualified professional advisers.

Risks relating to Auction Settlement of Credit Linked Warrants

Where an Auction Final Price Determination Date occurs in respect of Credit Linked Warrants, the Auction Final Price will be determined according to an auction procedure set out in the applicable Transaction Auction Settlement Terms, a form of which will be published by ISDA on its website at www.isda.org (or any successor website thereto) from time to time and may be amended from time to time. The Auction Final Price determined pursuant to an auction may vary from the market value that would otherwise have been determined in respect of the relevant Reference Obligation.

The Issuer and the Warrantheolders may have little or no influence in outcome of any such auction. However, there is a possibility that the Issuer or the Calculation Agent (or one of their affiliates) would act as a participating bidder in any such auction. In such capacity, it may take certain actions which may influence the Auction Final Price including (without limitation): (a) providing rates of conversion to

Part A – Information Relating to the Programme Generally – Risk Factors

determine the applicable currency conversion rates to be used to convert any obligations which are not denominated in the auction currency into such currency for the purposes of the auction; and (b) submitting bids, offers and physical settlement requests with respect to the relevant Deliverable Obligations. In deciding whether to take any such action (or whether to act as a participating bidder in any auction), neither the Issuer nor the Calculation Agent (or any of their affiliates) shall be under any obligation to consider the interests of any Warrantholder.

No representation by Issuer, Calculation Agent and affiliates

None of the Issuer, the Calculation Agent nor any of their respective affiliates makes any representation whatsoever with respect to any Reference Entity, Reference Obligation(s) or other underlying obligation(s).

Dealings by Issuer, Calculation Agent and affiliates

The Issuer, the Calculation Agent and any of their respective affiliates may deal in Reference Obligation(s) or other underlying obligation(s) of any Reference Entity and may accept deposits from, make loans or otherwise extend credit to, and generally engage in any kind of commercial or investment banking or other business with, any Reference Entity, any affiliate of any Reference Entity, and/or any other person or entity having obligations relating to any Reference Entity and may act with respect to such business in the same manner as each of them would if the Warrants had not been issued, regardless of the effect any such action might have on any Reference Entity, Reference Obligation(s) or other underlying obligation(s) or the Warrantholders or otherwise (including, without limitation, any action which might reduce the likelihood of a Credit Event occurring).

No disclosure of information

The Issuer, the Calculation Agent and any of their respective affiliates may, whether by virtue of the types of relationships described herein or otherwise, on the issue date of any Warrants or at any time thereafter, be in possession of information in relation to any Reference Entity, Reference Obligation(s) or other underlying obligation(s) thereof that is or may be material in the context of the issue of Warrants and that may or may not be publicly available or known to Warrantholders. There is no obligation on the part of the Issuer, the Calculation Agent or any such affiliates to disclose to the Warrantholders any such relationship or information (whether or not confidential).

Conflicts of interest

HSBC Bank plc as Calculation Agent or Issuer will be entitled to make certain determinations and actions and exercise certain discretions under the Credit Linked Conditions including (inter alia) as to whether an event constituting a Credit Event has occurred and, in connection with certain types of Restructuring Credit Event, whether to partially exercise the Warrants and in certain circumstances as to the exercise of the Movement Option (which will determine whether an Auction Final Price determined according to an auction procedure set out in Transaction Auction Settlement Terms for which the permitted obligations differ from those otherwise contemplated under the Warrants (and if applicable the relevant Transaction Auction Settlement Terms), or a Final Price, is used in the calculation of the Cash Settlement Amount), any of which may affect whether there are any payment(s) under the Warrants and the level of any such payment. A number of these determinations, discretions and actions are those which would typically be exercisable under market standard credit default swap transactions by the buyer of credit protection, which in the case of the Warrants, is the position of the Warrantholders. As a result, conflicts of interest exist between HSBC Bank plc and the Warrantholders. In its capacity as Calculation Agent or Issuer, HSBC Bank plc does not act as fiduciary for or as an adviser to any of the Warrantholders in respect of any such or otherwise.

No post-issuance information

The Issuer will not provide investors with any post-issuance information regarding any Reference Entity, Reference Obligation(s) or other underlying obligation(s). In addition, prospective investors should understand that historical performance of a Reference Entity, Reference Obligation or other underlying obligation should not be viewed as predictive of future results.

Part A – Information Relating to the Programme Generally – Risk Factors

Currency risk

Exchange rates can be volatile and unpredictable. Investors should be aware of the possibility of significant changes in rates of exchange between (i) the Settlement Currency, (ii) the currency of any relevant underlying obligation(s) of a Reference Entity and (iii) the relevant local currency of the investor's domicile.

Loss of Issue Price

The issue price of the Warrants will reflect the present value of the cost of purchasing credit protection on the relevant Reference Entity(ies) for a term up to the Scheduled Cut-off Date. If the Warrants are terminated early (for example for an illegality or, in the case of Reference Obligation Only Warrants, following a Substitution Event) or a Credit Event Determination Date occurs in respect of a Reference Entity prior to the Scheduled Cut-off Date, no amounts will be payable to investors in respect of such issue price on such termination or on settlement following the relevant Credit Event Determination Date.

(11) Risks relating to Credit-Linked Notes to which Part G – Product Supplement Credit-Linked Notes applies

General

The Issuer may issue Notes where the amount of principal and/or interest payable is dependent upon whether certain events ("**Credit Events**") have occurred in respect of one or more entities (together "**Reference Entities**" and each, a "**Reference Entity**") and, if so, unless the Notes are "zero recovery" or "fixed recovery" Notes on the value of certain specified assets of such Reference Entity(ies) or, where, if such events have occurred, the Issuer's obligation is to deliver certain specified assets upon redemption of the Notes. In this respect, the Notes provide investors with a return linked to the credit of the Reference Entity or Reference Entities, as well as the credit risk of the Issuer in performing its obligations under the Notes, and will not provide protection of principal or a guarantee of interest.

Prospective investors in any such Notes should be aware that depending on the terms of the Credit-Linked Notes (i) they may receive no or a limited amount of interest, (ii) payment of principal or interest or delivery of any specified assets may occur at a different time than expected, and (iii) they may lose all or a substantial portion of their investment. It is the responsibility of investors to ensure that their accounting, regulatory and all other treatments of the Notes are consistent with the conditional nature of their entitlement to receive payments under the Notes.

The market price of such Notes may be volatile and will be affected by factors that interrelate in complex ways, including amongst other things, the Issuer's creditworthiness, the time remaining to the redemption date and the creditworthiness of the Reference Entity which in turn may be affected by the economic, financial and political events in one or more jurisdictions. It is important for investors to understand that the effect of one factor may offset the increase in the market price of the Notes caused by another factor, and that the effect of one factor may exacerbate the decrease in the market price of the Notes caused by another factor. For example, a drop in the creditworthiness of a Reference Entity may more than offset any increase in the Issuer's creditworthiness. The market price of the Notes may be zero.

The Additional Terms and Conditions relating to Credit Linked Notes in Part G of this Offering Memorandum contains Additional Terms and Conditions for Credit-Linked Notes with terms based on the 2014 ISDA Credit Derivatives Definitions (the "**2014 ISDA Definitions**"). The 2014 ISDA Definitions are different from the 2003 ISDA Credit Derivatives Definitions (as supplemented) (the "**2003 ISDA Definitions**") (see further "*Differences between the 2003 ISDA Definitions and the 2014 ISDA Definitions*" below).

The Issuer's obligations in respect of Credit-Linked Notes are irrespective of the existence or amount of the Issuer's and/or any affiliates' credit exposure to a Reference Entity and the Issuer and/or any affiliate need not suffer any loss nor provide evidence of any loss as a result of the occurrence of a Credit Event.

The holders of Credit-Linked Notes will be exposed to the credit of one or more Reference Entities, which exposure shall be, unless otherwise stated in the relevant Pricing Supplement or the Notes are "fixed recovery" Notes, to the full extent of their investment in such Notes. Upon the occurrence of any of the default events comprising a Credit Event with respect to any Reference Entity, the Noteholders may suffer significant losses at a time when losses may be suffered by a direct investor in obligations of such

Part A – Information Relating to the Programme Generally – Risk Factors

Reference Entity. However, the holding of a Note is unlikely to lead to outcomes which exactly reflect the impact of investing in an obligation of a Reference Entity, and losses could be considerably greater than would be suffered by a direct investor in the obligations of a Reference Entity and/or could arise for reasons unrelated to such Reference Entity. Noteholders should also note that a Credit Event may occur even if the obligations of a Reference Entity are unenforceable or their performance is prohibited by any applicable law or exchange controls.

The Calculation Agent may exercise its right to deliver a Credit Event Notice even if the relevant Credit Event is no longer continuing and Noteholders will have no right to compel the exercise of this right or to control the timing of a Credit Event Determination Date. Notwithstanding this, in most cases a Credit Event can only be triggered (whether by an ISDA Credit Derivatives Determinations Committee determination or the Calculation Agent) if the relevant event occurred within a 60 calendar day look-back period. These provisions mean that there is a time limit on the ability to act on a Credit Event and that it is possible that the Notes could be affected by a Credit Event that took place prior to the Trade Date.

Not all of the Credit Events require an actual default with respect to the Reference Entity's obligations. Thus Noteholders may bear losses based on a deterioration in the credit of a Reference Entity short of default. Also, not all Credit Events are triggered by events which are easily ascertainable and disputes can and have arisen as to whether a specific event did or did not constitute a Credit Event. Under the terms of the Notes, subject to certain Credit Derivatives Determinations Committee determinations, the Calculation Agent's determination will be binding on the Issuer and Noteholders and may be different from the view of Noteholders, other financial institutions and/or commentators.

The Issuer may determine that certain terms of the Notes (for example the applicable Credit Events, Deliverable Obligations and Obligations) be those set in the Credit Derivatives Physical Settlement Matrix ("**Physical Settlement Matrix**") for the Transaction Type(s) specified in the Pricing Supplement for the Reference Entity(ies), rather than being specified in the Pricing Supplement. The Physical Settlement Matrix sets out a number of terms which, depending on the Transaction Type specified, will apply to standard credit derivatives transactions if incorporated into the documentation for those transactions and is published by ISDA on its website at www.isda.org (or any successor website thereto). If applicable to the Notes, the version of the Physical Settlement Matrix which will apply will be that dated the date specified in the relevant Pricing Supplement.

Redemption following a Credit Event

Where cash settlement (other than for "fixed recovery" Notes) or auction settlement applies, the occurrence of a Credit Event in relation to any Reference Entity from time to time may result in a redemption of the Notes in a reduced nominal amount or at zero, and interest-bearing Credit-Linked Notes may cease to bear interest on or prior to the date of occurrence of such circumstance. The value of obligations of the relevant Reference Entity which will affect the amount (if any) due on such redemption may substantially decrease in value during the period between the Credit Event and settlement of the Notes.

In such circumstances, where cash settlement applies and the amount (if any) due on redemption of the Notes is to be calculated by reference to the value of one or more Valuation Obligations of the relevant Reference Entity, the Issuer will select the relevant Valuation Obligations in its sole and absolute discretion irrespective of their market value or liquidity and will not be obliged to consider the interests of Noteholders or mitigate their losses.

Where physical settlement is intended to apply, unless the Issuer does not deliver a Notice of Physical Settlement following the occurrence of a Credit Event because it determines that it would not have any relevant assets to deliver or that all of the relevant assets would be impossible, illegal or impractical to deliver (in which case auction or cash settlement will apply as above), the occurrence of a Credit Event may result in the redemption of the Notes by delivery of certain direct or indirect obligations of the affected Reference Entity and/or obligations received under certain transactions which may be entered into by the Issuer and/or its affiliates in connection with the Issuer's obligations under the Notes, which obligations are likely to have a market value which is substantially less than their par amount (and may substantially decrease in value during the period between the Credit Event and settlement of the Notes), and interest-bearing Credit-Linked Notes may cease to bear interest on or prior to the date of occurrence of such circumstance. Where the Notes provide for physical delivery and the Issuer delivers a Notice of Physical Settlement, the Calculation Agent may nonetheless determine that the specified assets to be

Part A – Information Relating to the Programme Generally – Risk Factors

delivered are either (a) assets which, for any reason (including, without limitation, failure of the relevant clearance system or due to any law, regulation, court order or market conditions or the non-receipt of any requisite consents with respect to the delivery of assets which are loans), are impossible, illegal or impractical to deliver on the specified settlement date, or (b) assets which the Issuer and/or any affiliate has not received under the terms of any transaction entered into by the Issuer and/or such affiliate in connection with the Issuer's obligations under the Notes. Any such determination may delay settlement in respect of the Notes (in the case of paragraph (b)) and/or cause the obligation to deliver such specified assets to be replaced by an obligation to pay a cash amount (if any) which, in either case, may affect the value of the Notes and, in the case of payment of a cash amount, will affect the timing of the valuation of such Notes and as a result, the amount of principal payable on redemption. In this respect investors should note that neither the Issuer nor its affiliates are under any obligation to acquire any assets for delivery under the Notes and if no such assets are held for these purposes the Notes will be redeemed by payment of a cash amount (if any). Prospective Investors should review the *"Additional Terms and Conditions relating to Credit-Linked Notes"* and the relevant Pricing Supplement to ascertain whether and how such provisions should apply to the Notes.

Where cash settlement applies and the Notes are "fixed recovery" Notes, the occurrence of a Credit Event in relation to any Reference Entity from time to time will result in a redemption of the Notes at an amount less than the nominal amount or at zero, and interest-bearing Credit-Linked Notes may cease to bear interest on or prior to the date of occurrence of such circumstance. The amount payable on redemption will be dependent upon the fixed Final Price specified in the relevant Pricing Supplement. In such circumstances, if that fixed Final Price is lower than the price that could have been determined pursuant to the auction (as described under *"Risks relating to Auction Settlement of Credit-Linked Notes"* below) or on valuation of the Valuation Obligation(s), as applicable, had auction settlement or cash settlement as described above have applied to the Notes, the redemption amount will be lower than would otherwise have been the case.

Where the Notes are "zero recovery" Notes, the occurrence of a Credit Event in relation to any Reference Entity from time to time will result in cancellation of the Notes at zero, with no amounts being payable under the Notes in this respect and interest-bearing Credit-Linked Notes may cease to bear interest on or prior to the date of occurrence of such circumstance.

Investors in the Notes are accordingly exposed, as to both principal and (if applicable) interest, to the credit risk of the Reference Entity. The maximum loss to an investor in the Notes is 100 per cent. of their initial principal investment, together with (if applicable) any accrued interest amounts.

A Credit Event may occur prior to the Trade Date

As mentioned above, holders of the Notes may suffer a loss of some or all principal amount of the Notes in respect of one or more Credit Events that occur prior to the Trade Date or the Issue Date. Neither the Calculation Agent nor the Issuer nor any of their respective affiliates has any responsibility to inform any Noteholder, or avoid or mitigate the effects of a Credit Event that has taken place prior to the Trade Date or the Issue Date.

Increased credit risk is associated with Basket Credit-Linked Notes

Where the Notes are Basket Credit-Linked Notes, the Notes may be subject to redemption in part as described above upon the occurrence of a Credit Event in relation to each Reference Entity in respect of which a Credit Event occurs, on the basis of the proportional weighting of each such Reference Entity in the basket. The credit risk to Noteholders may further be increased as a result of the concentration of Reference Entities in a particular industry sector or geographic area or the exposure of the Reference Entities to similar financial or other risks.

Investors' exposure to the credit performance of the Reference Entities may not correspond to actual market recovery on such Reference Entities.

Interest and principal repayments on the Notes may be calculated by reference to the Adjusted Credit Outstanding Nominal Amount. As at the Issue Date the Adjusted Credit Outstanding Nominal Amount is an amount equal to the Aggregate Principal Amount. If a Credit Event occurs in respect of a Reference Entity, then the Adjusted Credit Outstanding Nominal Amount will be reduced by (i) an amount equal to a predefined portion of the Aggregate Principal Amount (reflecting the Notes' exposure to such Reference

Part A – Information Relating to the Programme Generally – Risk Factors

Entity) and (ii) if the Notes are "zero recovery" Notes, the hedging costs arising in relation to the Issuer's and/or any of its affiliates' hedging arrangements in connection with the partial redemption of the Notes or, for any other types of Note, if such hedging costs exceed the Recovery Value, such excess. Therefore, investors' exposure to each Reference Entity may exceed the exposure that they might incur in respect of having entered into a standard single name credit default swap as protection seller in respect of each Reference Entity and investors may lose the entire principal amount invested.

Index Basket Credit Linked Notes

For Index Basket Credit Linked Notes, the Reference Obligations as of the issue date of the Notes will be those set out in the Index Annex, being the list for the relevant Markit iTraxx® Europe Index (in the case of iTraxx Index Basket Credit Linked Notes) or Markit CDX™ Index (in the case of CDX Index Basket Credit Linked Notes) with the Annex Date specified in the relevant Pricing Supplement, as published by the Index Publisher, being Markit Group Limited as of the date of this Offering Memorandum). Notwithstanding "Successors" below, determinations by the Index Sponsor (being Markit Indices Limited in the case of iTraxx Index Basket Credit Linked Notes and Markit North America, Inc. in the case of CDX Index Basket Credit Linked Notes, in each case as of the date of this Offering Memorandum) with respect to replacement Reference Obligations and/or Successors, will apply for the purposes of the Notes. In addition, if ISDA publicly announces a Successor prior to the Trade Date but following the "Roll Date" (in the case of iTraxx Index Basket Credit Linked Notes) or "Effective Date" (in the case of CDX Index Basket Credit Linked Notes) specified in the Index Annex, such Successor will apply for the purposes of the Notes, notwithstanding such announcement occurring prior to the Trade Date.

Successors

A Reference Entity may be replaced as Reference Entity by one or more Successor(s). For these purposes the relevant Succession Date must occur within a 90 calendar day look-back period, other than in the case of a universal succession, where the Succession Date must have occurred on or after 1 January 2014. These provisions mean that there is a time limit on the ability to act on a succession and that it is possible that the Notes could be affected by a succession that took place prior to the Trade Date.

The Calculation Agent may, if it determines appropriate, select an alternative Transaction Type for any Successor to a Reference Entity and adjust such of the Conditions, the Credit Linked Conditions and/or the relevant Pricing Supplement as it determines appropriate to reflect such new Transaction Type and determine the effective date of any such change and adjustment.

In addition, where more than one Successor to a Reference Entity has been identified the Calculation Agent shall adjust such of Conditions, the Credit Linked Conditions and/or the relevant Pricing Supplement as it shall determine to be appropriate (including, without limitation, the relevant Reference Entity Notional Amount and (if applicable) the relevant Transaction Type) to reflect that the relevant Reference Entity has been succeeded by more than one Successor and shall determine the effective date of that adjustment.

Maturity Date extension, interest postponement and settlement suspension

Investors should note that the maturity of the Notes may be extended beyond the Scheduled Maturity Date in circumstances where a Credit Event may have occurred in relation to a Reference Entity or a Potential Credit Event has or may have occurred in relation to a Reference Entity. As a result, repayment to the Noteholders may be delayed for a significant period of time even in circumstances where it transpires no Credit Event has occurred. In addition, the maturity of the Notes may be extended and ongoing interest payments may be delayed if there is a pending Credit Derivatives Determinations Committee decision at the relevant time.

The Credit Linked Conditions also provide that (other than in respect of "zero recovery" Notes) if, following the determination of a Credit Event Determination Date but prior to a cut-off date, there is a DC Credit Event Meeting Announcement, the Calculation Agent may at its option determine that the applicable timing requirements of the Credit Linked Conditions and the definitions of Credit Event Redemption Date, Credit Event Payment Date, Valuation Date, Maturity Date, Physical Settlement Period and PSN Cut-off Date and any other Credit Linked Condition as determined by the Calculation Agent, shall toll and be suspended and remain suspended (such period of suspension, a "**Suspension Period**") until the date of the relevant DC Credit Event Announcement or DC Credit Event Question Dismissal

Part A – Information Relating to the Programme Generally – Risk Factors

(with no action being taken in connection with the settlement of the Notes during such Suspension Period). At that point, the relevant timing requirements of the Credit Linked Conditions that have previously tolled or been suspended shall resume on the Business Day following such public announcement by the DC Secretary.

In the event of any such Suspension Period, the Calculation Agent may make (i) such consequential or other adjustment(s) or determination(s) to or in relation to the Credit Linked Conditions as may be desirable or required either during or following any relevant Suspension Period to account for or reflect such suspension, and (ii) determine the effective date of such adjustment(s) or determination(s).

In the case of interest-bearing Credit-Linked Notes:

- (a) if a Suspension Period falls in any one or more Interest Period(s), then no interest shall accrue during each portion of an Interest Period during which a Suspension Period exists; and
- (b) if an Interest Payment Date falls in a Suspension Period, payment of the relevant interest will be deferred until after the end of the Suspension Period.

Amendment of Credit Linked Conditions in accordance with market convention

The Calculation Agent may from time to time amend any provision of the Credit Linked Conditions (i) to incorporate and/or reflect further or alternative documents or protocols from time to time published by ISDA with respect to the settlement of credit derivative transactions and/or the operation or application of determinations by the ISDA Credit Derivatives Determinations Committees, including without limitation, in relation to settlement, credit events and successors, and/or (ii) in any manner which the Calculation Agent determines in a commercially reasonable manner is necessary or desirable to reflect or account for market practice for credit derivative transactions and/or reflect hedging arrangements of the Issuer.

ISDA Credit Derivatives Definitions

Whilst there are many similarities between the terms used in this Offering Memorandum (in particular, in Part G in the Additional Terms and Conditions relating to Credit-Linked Notes and the terms used in the 2014 ISDA Definitions, there are many substantial differences and a prospective investor should understand that the complete terms and conditions of the Notes are as set out in the relevant sections of this Offering Memorandum and the relevant Pricing Supplement and that the 2014 ISDA Definitions are not incorporated by reference herein. Consequently, investing in Credit-Linked Notes is not necessarily equivalent to investing a credit default swap that incorporates the 2014 ISDA Definitions.

While ISDA has published and, where appropriate, supplemented the 2014 ISDA Definitions in order to facilitate transactions and promote uniformity in the credit derivatives market, the credit derivatives market has evolved over time and is expected to continue to change. Consequently, the 2014 ISDA Definitions and the terms applied to credit derivatives generally, including Credit-Linked Notes are subject to further evolution. Past events have shown that the view of market participants may differ as to how sets of ISDA Definitions operate or should operate. As a result of the continued evolution of the market, the Credit-Linked Notes may not conform to future market standards. Such a result may have a negative impact on the Credit-Linked Notes and there can be no assurances that changes to the terms applicable to credit derivatives generally will be predictable or favourable to the Issuer or the Noteholders.

Differences between the 2003 ISDA Definitions and the 2014 ISDA Definitions

There are a number of important differences between the 2003 ISDA Definitions and the 2014 ISDA Definitions. In particular, the 2014 ISDA Definitions have:

- (a) introduced a new Credit Event of "Governmental Intervention", which is intended to capture "bail-in" procedures to which financial institutions may be subject;
- (b) made certain amendments to the Restructuring Credit Event to provide for the possibility of a Euro exit;
- (c) reduced the number of buckets applicable in circumstances where Mod Mod R is applicable and deleted the concept of the "Enabling Obligation" which was previously applicable to both Mod R and Mod Mod R;

Part A – Information Relating to the Programme Generally – Risk Factors

- (d) introduced the concept of Asset Package Delivery in respect of certain Financial Reference Entities and Sovereigns. This provides that if Deliverable Obligations are exchanged into non-Deliverable assets or written-down in part or in full, in certain circumstances, the credit protection buyer will be able to deliver the resultant package of Assets or the written-down Deliverable Obligation to realise its protection;
- (e) split credit protection between senior and subordinated coverage in respect of a Governmental Intervention and Restructuring Credit Event for Financial Reference Entities, i.e. a Senior Transaction will only be triggered by a Restructuring or Governmental Intervention of Senior Obligations and a Subordinated Transaction will not be capable of being triggered by a Restructuring or Governmental Intervention of an obligation which is Subordinated to the Subordinated Reference Obligation;
- (f) made a number of changes to the provisions for determining a Successor to a Reference Entity, particularly with respect to Financial and Sovereign Reference Entities;
- (g) provided for a new election of "Standard Reference Obligation" which, if chosen, will mean that the Reference Obligation will be the obligation of the relevant seniority level published in respect of the relevant Reference Entity on a List maintained by ISDA. A transaction on the terms of the 2014 ISDA Definitions may elect not to apply that election such that the Reference Obligation would remain as chosen by the parties, although, if this is the case, the procedure for selecting a Substitute Reference Obligation has also changed significantly in the 2014 ISDA Definitions;
- (h) replaced the Not Contingent Deliverable Obligation Characteristic with the concept of Outstanding Principal Balance. In order for an obligation (including the Reference Obligation) to constitute a Deliverable Obligation, it must have an Outstanding Principal Balance greater than zero;
- (i) amended the definition of "Qualifying Guarantee" to expand the universe of guarantees that can constitute Qualifying Guarantees (with a particular emphasis on including, to some extent, guarantees with caps or transfer provisions); and
- (j) introduced a large number of technical and other changes.

These changes in the 2014 ISDA Definitions as compared to the 2003 ISDA Definitions have been reflected in the Additional Terms and Conditions relating to Credit-Linked Notes in Part G of this Offering Memorandum, but in each case subject to important differences, including to reflect the nature of the Notes as compared to "over-the-counter" transactions and to reflect any hedging arrangements the Issuer may put in place. Some changes, such as the inclusion of a new Credit Event, may have significant economic effect on the Credit-Linked Notes and may mean the value of the Credit-Linked Notes and the return (if any) to investors is significantly different from credit-linked Notes whose terms reflect the 2003 ISDA Definitions. Some changes may be disadvantageous to Noteholders and prospective investors should review carefully the terms of any issue of Notes and, where in any doubt, take advice from suitably qualified professional advisers.

Risks relating to Auction Settlement of Credit-Linked Notes

Where an Auction Final Price Determination Date occurs in respect of Credit-Linked Notes, the Auction Final Price will be determined according to an auction procedure set out in the applicable Transaction Auction Settlement Terms, a form of which will be published by ISDA on its website at www.isda.org (or any successor website thereto) from time to time and may be amended from time-to-time. The Auction Final Price determined pursuant to an auction may be less than the market value that would otherwise have been determined in respect of the relevant Reference Obligation.

The Issuer and the Noteholders may have little or no influence in outcome of any such auction. However, there is a possibility that the Issuer or the Calculation Agent (or one of their affiliates) would act as a participating bidder in any such auction. In such capacity, it may take certain actions which may influence the Auction Final Price including (without limitation): (a) providing rates of conversion to determine the applicable currency conversion rates to be used to convert any obligations which are not denominated in the auction currency into such currency for the purposes of the auction; and (b) submitting bids, offers and physical settlement requests with respect to the relevant Deliverable

Obligations. In deciding whether to take any such action (or whether to act as a participating bidder in any auction), neither the Issuer nor the Calculation Agent (or any of their affiliates) shall be under any obligation to consider the interests of any Noteholder.

No representation by Issuer, Calculation Agent and affiliates

None of the Issuer, the Calculation Agent nor any of their respective affiliates makes any representation whatsoever with respect to any Reference Entity, Reference Obligation(s) or other underlying obligation(s).

Dealings by Issuer, Calculation Agent and affiliates

The Issuer, the Calculation Agent and any of their respective affiliates may deal in Reference Obligation(s) or other underlying obligation(s) of any Reference Entity and may accept deposits from, make loans or otherwise extend credit to, and generally engage in any kind of commercial or investment banking or other business with, any Reference Entity, any affiliate of any Reference Entity, and/or any other person or entity having obligations relating to any Reference Entity and may act with respect to such business in the same manner as each of them would if the Notes had not been issued, regardless of whether any such action might have an adverse effect on any Reference Entity, Reference Obligation(s) or other underlying obligation(s) or the Noteholders or otherwise (including, without limitation, any action which might constitute or give rise to a Credit Event).

No disclosure of information

The Issuer, the Calculation Agent and any of their respective affiliates may, whether by virtue of the types of relationships described herein or otherwise, on the issue date of any Notes or at any time thereafter, be in possession of information in relation to any Reference Entity, Reference Obligation(s) or other underlying obligation(s) thereof that is or may be material in the context of the issue of Notes and that may or may not be publicly available or known to Noteholders. There is no obligation on the part of the Issuer, the Calculation Agent or any such affiliates to disclose to the Noteholders any such relationship or information (whether or not confidential).

Potential conflicts of interest

HSBC Bank plc as Calculation Agent or Issuer will be entitled to make certain determinations and actions and exercise certain discretions under the Credit Linked Conditions including (*inter alia*) as to whether an event constituting a Credit Event has occurred. In doing so, potential conflicts of interest may exist between HSBC Bank plc and the Noteholders. In its capacity as Calculation Agent or Issuer, HSBC Bank plc does not act as fiduciary for or as an adviser to any of the Noteholders in respect of any such or otherwise.

No post-issuance information

The Issuer will not provide investors with any post-issuance information regarding any Reference Entity, Reference Obligation(s) or other underlying obligation(s). In addition, prospective investors should understand that historical performance of a Reference Entity, Reference Obligation or other underlying obligation should not be viewed as predictive of future results.

Currency risk

Exchange rates can be volatile and unpredictable. Investors should be aware of the possibility of significant changes in rates of exchange between (i) the Settlement Currency, (ii) the currency of any relevant underlying obligation(s) of a Reference Entity, and (iii) the relevant local currency of the investor's domicile.

(B) Factors relating to Emerging Market Credit-Linked Notes

Possible Negative Effects of Emerging Markets Risk on the Notes

There may be a high degree of uncertainty and volatility associated with obligors from emerging market countries (including the Reference Entity) and the performance and payment under the Notes may be directly impacted by certain political, economic and legal events and conditions. The price of the

Part A – Information Relating to the Programme Generally – Risk Factors

Reference Obligations (which are linked to an emerging market country) may therefore be volatile and investment in the Notes (which are credit-linked and market-linked to such Reference Obligations) will involve additional risks and special considerations not typically associated with investing in credit-linked Notes which are linked to other more established economies. See the more detailed description of emerging markets risks in "*Risks relating to Emerging Markets*" above.

CLEARING AND SETTLEMENT

Custodial and depository or safekeeping links have been established with Euroclear, Clearstream, Luxembourg, DTC and CREST to facilitate the initial issuance of Notes and Warrants and, in relation to Euroclear, Clearstream, Luxembourg and DTC only, cross-market transfers of Notes and Warrants between investors associated with secondary market trading. Transfers within Euroclear, Clearstream, Luxembourg, DTC and CREST will be in accordance with the usual rules and operating procedures of the relevant system.

CREST

Please refer to Condition 2(d) of the Notes and Condition 2(d) of the Warrants for information regarding clearing and settlement through CREST.

Euroclear and Clearstream, Luxembourg

Euroclear and Clearstream, Luxembourg each holds securities for participating organisations and facilitates the clearance and settlement of securities transactions between their respective participants through electronic book-entry changes in accounts of such participants. Euroclear and Clearstream, Luxembourg provide to their respective participants, among other things, services for safekeeping, administration, clearance and settlement of internationally traded securities and securities lending and borrowing. Euroclear and Clearstream, Luxembourg participants are financial institutions throughout the world, including underwriters, securities brokers and dealers, banks, trust companies, clearing corporations and certain other organisations. Indirect access to Euroclear or Clearstream, Luxembourg is also available to others, such as banks, brokers, dealers and trust companies which clear through or maintain a custodial relationship with a Euroclear or Clearstream, Luxembourg participant, either directly or indirectly.

Distributions of principal and interest (if any) with respect to book-entry interests in the Notes and Warrants held through Euroclear and Clearstream, Luxembourg will be credited, to the extent received by the Principal Paying Agent, in the case of Notes, or the Principal Warrant Agent, in the case of Warrants, to the cash accounts of Euroclear or Clearstream, Luxembourg participants in accordance with the relevant system's rules and procedures.

DTC

DTC is a limited-purpose trust company organised under the laws of the State of New York and a "banking organisation" within the meaning of the New York Banking Law, a member of the Federal Reserve System, a "clearing corporation" within the meaning of the New York Uniform Commercial Code and a "clearing agency" registered pursuant to the provisions of Section 17A of the Exchange Act. DTC holds securities for DTC participants and facilitates the clearance and settlement of securities transactions between DTC participants through electronic book-entry changes in accounts of DTC participants. DTC participants include securities brokers and dealers, banks, trust companies and clearing corporations and certain other organisations. Indirect access to DTC is also available to others, such as banks, brokers, dealers and trust companies which clear through or maintain a custodial relationship with a DTC participant, either directly or indirectly.

Holders of book-entry interests in the Notes and Warrants holding through DTC will receive, to the extent received by the Principal Paying Agent, in the case of Notes, or the Principal Warrant Agent, in the case of Warrants, all distributions of principal and interest (if any) with respect to book-entry interests in the Notes and Warrants from the Principal Paying Agent through DTC. Distributions in the United States will be subject to relevant US tax laws and regulations.

Interests in Global Registered Notes and Warrants held through DTC, Euroclear and Clearstream, Luxembourg

The laws of some states of the United States require that certain persons receive individual certificates in respect of their holdings of Notes or Warrants. Consequently, the ability to transfer interests in a Global Registered Note or Warrant to such persons may be limited. Because DTC, Euroclear and Clearstream, Luxembourg can only act on behalf of participants, who in turn act on behalf of indirect participants, the ability of a person having an interest in a Global Registered Note or Warrant to pledge such interest to

Part A – Information Relating to the Programme Generally – Clearing and Settlement

persons or entities which do not participate in the relevant clearing system, or otherwise take actions in respect of such interest, may be affected by the lack of a physical certificate in respect of such interest.

The aggregate holdings of book-entry interests in the Notes and Warrants in Euroclear, Clearstream, Luxembourg and DTC will be reflected in the book-entry accounts of each such institution.

In respect of Registered Notes and Warrants, as necessary, the Registrar will adjust the amounts of Notes and Warrants on the Register for the accounts of (i) Euroclear and Clearstream, Luxembourg and (ii) DTC to reflect the amounts of Notes and Warrants held through Euroclear and Clearstream, Luxembourg and DTC, respectively. Beneficial ownership in Notes or Warrants (as applicable) will be held through financial institutions as direct and indirect participants in Euroclear, Clearstream, Luxembourg and DTC. Euroclear, Clearstream, Luxembourg or DTC, as the case may be, and every other intermediate holder in the chain to the beneficial owner of book-entry interests in the Notes and Warrants, will be responsible for establishing and maintaining accounts for their participants and customers having interests in the book-entry interests in the Notes and Warrants. The Registrar will be responsible for maintaining a record of the aggregate holdings of Notes and Warrants registered in the name of the common depository (or its nominee) or the Common Safekeeper (or its nominee) for Euroclear and Clearstream, Luxembourg, a nominee for DTC and/or Holders of Notes or Warrants represented by Definitive Registered Notes or Holders of Warrants represented by Definitive Registered Warrants. The Principal Paying Agent, in the case of Notes, or the Principal Warrant Agent, in the case of Warrants, will be responsible for ensuring that payments received by it from the Issuer for Holders of interests in the Notes or Warrants holding through Euroclear and Clearstream, Luxembourg are credited to Euroclear and Clearstream, Luxembourg, as the case may be. The Principal Paying Agent and the Principal Warrant Agent, as the case may be, will also be responsible for ensuring that payments received by it from the Issuer for Holders of interests in the Notes or Warrants holding through DTC are credited to DTC.

The Issuer will not impose any fees in respect of the book-entry interests in the Notes and Warrants; however, Holders of book-entry interests in the Notes or Warrants may incur fees normally payable in respect of the maintenance and operation of accounts in Euroclear, Clearstream, Luxembourg or DTC.

Interests in Unrestricted Global Registered Notes and Warrants and Restricted Global Registered Notes and Warrants will be in uncertificated book-entry form. Purchasers electing to hold book-entry interests in the Notes or Warrants through Euroclear and Clearstream, Luxembourg accounts will follow the settlement procedures applicable to conventional eurobonds. Book-entry interests in the Global Registered Notes or Warrants will be credited to Euroclear participants' securities clearance accounts on the business day following the relevant issue date against payment (value such issue date), and to Clearstream, Luxembourg participants' securities custody accounts on the relevant issue date against payment in same day funds. DTC participants acting on behalf of purchasers electing to hold book-entry interests in the Notes or Warrants through DTC will follow the delivery practices applicable to securities eligible for DTC's Same-Day Funds Settlement ("**SDFS**") system. DTC participant securities accounts will be credited with book-entry interests in the Notes or Warrants following confirmation of receipt of payment to the Issuer on the relevant issue date.

Secondary Market Trading in relation to Global Registered Notes and Warrants

Trading between Euroclear and/or Clearstream, Luxembourg participants: Secondary market sales of book-entry interests in the Notes and Warrants held through Euroclear or Clearstream, Luxembourg to purchasers of book-entry interests in the Notes and Warrants through Euroclear or Clearstream, Luxembourg will be conducted in accordance with the normal rules and operating procedures of Euroclear and Clearstream, Luxembourg and will be settled using the procedures applicable to conventional eurobonds (subject, in the case a of a transfer of an interest in the Notes or Warrants from accountholders of a beneficial interest in an Unrestricted Global Registered Note or Warrant to an accountholder wishing to purchase a beneficial interest in a Restricted Global Registered Note or Warrant (and *vice versa*), to the certification procedure provided in the Issuing and Paying Agency Agreement).

Trading between DTC participants: Secondary market sales of book-entry interests in the Notes and Warrants between DTC participants will occur in the ordinary way in accordance with DTC rules and will be settled using the procedures applicable to United States corporate debt obligations in DTC's SDFS system in same-day funds, if payment is effected in US dollars, or free of payment, if payment is not effected in US dollars. Where payment is not effected in US dollars, separate payment arrangements outside DTC are required to be made with the DTC participants.

Part A – Information Relating to the Programme Generally – Clearing and Settlement

Trading between DTC seller and Euroclear/Clearstream, Luxembourg purchaser: When book-entry interests in Notes and Warrants are to be transferred from the account of a DTC participant holding a beneficial interest in a Restricted Global Registered Note or Warrant to the account of a Euroclear or Clearstream, Luxembourg accountholder wishing to purchase a beneficial interest in an Unrestricted Global Registered Note or Warrant (subject to the certification procedures provided in the Issuing and Paying Agency Agreement), the DTC participant will deliver instructions for delivery to the relevant Euroclear or Clearstream, Luxembourg accountholder to DTC by 12 noon, New York time, on the settlement date. Separate payment arrangements are required to be made between the DTC participant and the relevant Euroclear or Clearstream, Luxembourg participant. On the settlement date, the Custodian will instruct the Registrar to (i) reduce the amount of Notes and Warrants registered in the name of Cede & Co. and evidenced by the Restricted Global Registered Note and (ii) increase the amount of Notes and Warrants registered in the name of the common depository (or its nominee) or the Common Safekeeper (or its nominee) for Euroclear and Clearstream, Luxembourg, as evidenced by the Unrestricted Global Registered Note and Warrant. Book-entry interests will be delivered free of payment to Euroclear or Clearstream, Luxembourg, as the case may be, for credit to the relevant accountholder on the first business day following the settlement date.

Trading between Euroclear/Clearstream, Luxembourg seller and DTC purchaser: When book-entry interests in the Notes and Warrants are to be transferred from the account of a Euroclear or Clearstream, Luxembourg accountholder to the account of a DTC participant wishing to purchase a beneficial interest in a Restricted Global Registered Note or Warrant (subject to the certification procedures provided in the Issuing and Paying Agency Agreement), the Euroclear or Clearstream, Luxembourg participant must send to Euroclear or Clearstream, Luxembourg delivery free of payment instructions by 7.45 p.m., Brussels or Luxembourg time, one business day prior to the settlement date. Euroclear or Clearstream, Luxembourg, as the case may be, will in turn transmit appropriate instructions to the common depository for Euroclear and Clearstream, Luxembourg or the Common Safekeeper (as the case may be) and the Registrar to arrange delivery to the DTC participant on the settlement date. Separate payment arrangements are required to be made between the DTC participant and the relevant Euroclear or Clearstream, Luxembourg accountholder, as the case may be. On the settlement date, the common depository for Euroclear and Clearstream, Luxembourg or the Common Safekeeper (as the case may be) will (a) transmit appropriate instructions to the Custodian who will in turn deliver such book-entry interests in the Notes and Warrants free of payment to the relevant account of the DTC participant and (b) instruct the Registrar to (i) decrease the amount of Notes and Warrants registered in the name of the common depository (or its nominee) or the Common Safekeeper (or its nominee) for Euroclear and Clearstream, Luxembourg as evidenced by the Unrestricted Global Registered Note or Warrant and (ii) increase the amount of Notes and Warrants registered in the name of Cede & Co. as evidenced by the Restricted Global Registered Note or Warrant.

Although the foregoing sets out the procedures of Euroclear, Clearstream, Luxembourg and DTC in order to facilitate the transfers of interests in the Notes and Warrants among participants of Euroclear, Clearstream, Luxembourg and DTC, none of Euroclear, Clearstream, Luxembourg or DTC is under any obligation to perform or continue to perform such procedures, and such procedures may be discontinued at any time. None of the Issuer, the Principal Paying Agent, the Registrar, any Paying Agent, any Transfer Agent, any Dealer or any affiliate of any of the above, or any person by whom any of the above is controlled for the purposes of the Securities Act, will have any responsibility for the performance by Euroclear, Clearstream, Luxembourg and DTC or their respective direct or indirect participants or accountholders of their respective obligations under the rules and procedures governing their operations or for the sufficiency for any purpose of the arrangements described above.

TAXATION

Transactions involving the Notes and Warrants may have tax consequences for potential purchasers which may depend, amongst other things, upon the status of the potential purchaser and laws relating to transfer and registration taxes. Potential purchasers who are in any doubt about the tax position of any aspect of transactions involving the Notes and Warrants should consult their own tax advisers.

United Kingdom Taxation - Notes

The following is a summary of the United Kingdom withholding taxation treatment at the date hereof in relation to payments of principal and interest and certain other payments in respect of the Notes. It is based on current law and the practice of Her Majesty's Revenue and Customs ("HMRC"), which may be subject to change, sometimes with retrospective effect. The comments do not deal with any other United Kingdom tax aspects of acquiring, holding or disposing of Notes. The comments relate only to the position of persons who are absolute beneficial owners of the Notes. Noteholders should be aware that the particular terms of issue of any Series of Notes as specified in the relevant Pricing Supplement may affect the tax treatment of that and other Series of Notes. The following is a general guide for information purposes and should be treated with appropriate caution. It is not intended as tax advice and it does not purport to describe all of the tax considerations that may be relevant to a purchaser. Noteholders who are in any doubt as to their tax position should consult their professional advisers. Noteholders who may be liable to taxation in jurisdictions other than the United Kingdom in respect of their acquisition, holding or disposal of the Notes are particularly advised to consult their professional advisers as to whether they are so liable (and if so under the laws of which jurisdictions), since the following comments relate only to certain United Kingdom taxation aspects of payments in respect of the Notes. In particular, Noteholders should be aware that they may be liable to taxation under the laws of other jurisdictions in relation to payments in respect of the Notes even if such payments may be made without withholding or deduction for or on account of taxation under the laws of the United Kingdom.

(A) United Kingdom Withholding Tax

1. Interest on Notes issued for a term of less than one year (and which are not issued under arrangements the effect of which is to render the Notes part of a borrowing with a total term of one year or more) may be paid by the Issuer without withholding or deduction for or on account of United Kingdom income tax.
2. Notes issued by the Issuer which carry a right to interest will constitute "quoted Eurobonds" provided they are and continue to be listed on a recognised stock exchange within the meaning of section 1005 of the Income Tax Act 2007. Whilst the Notes are and continue to be quoted Eurobonds, payments of interest on such Notes may be made without withholding or deduction for or on account of United Kingdom income tax. Securities will be regarded as "listed on a recognised stock exchange" for this purpose if (and only if) they are admitted to trading on an exchange designated as a recognised stock exchange by an order made by the Commissioners for HMRC and either they are included in the United Kingdom official list (within the meaning of Part VI of the FSMA) or they are officially listed, in accordance with provisions corresponding to those generally applicable in European Economic Area states, in a country outside the United Kingdom in which there is a recognised stock exchange. The Irish Stock Exchange is a recognised stock exchange for these purposes, and accordingly the Notes will constitute quoted Eurobonds provided they are and continue to be listed on the Irish Stock Exchange and admitted to trading on its Global Exchange Market.
3. In addition to the exemptions set out in paragraphs 1 and 2 above, interest on the Notes may be paid without withholding or deduction for or on account of United Kingdom income tax so long as the Issuer is a "bank" for the purposes of section 878 of the Income Tax Act 2007 and so long as such payments are made by the Issuer in the ordinary course of its business. In accordance with HMRC's Statement of Practice 4/96, such payments will be accepted as being made by the Issuer in the ordinary course of its business unless either:
 - (a) the borrowing in question conforms to any of the definitions of additional tier 1 or tier 2 capital adopted by the United Kingdom Prudential Regulation Authority whether or not it actually counts towards additional tier 1 or tier 2 capital for regulatory purposes; or

Part A – Information Relating to the Programme Generally – Taxation

- (b) the characteristics of the transaction giving rise to the interest are primarily attributable to an intention to avoid United Kingdom tax.

In a technical note published in December 2013 in connection with the introduction of an exemption from withholding for regulatory capital securities, HMRC announced that Statement of Practice 4/96 will be withdrawn in due course and guidance will be issued reflecting HMRC's views on certain matters described therein.

4. In all other cases, falling outside the exemptions described in paragraphs 1, 2 and 3 above, interest on the Notes may fall to be paid under deduction of United Kingdom income tax at the basic rate (currently 20 per cent.) subject to such relief as may be available following a direction from HMRC pursuant to the provisions of any applicable double taxation treaty or to any other exemption which may apply.
5. Any payments made by the Issuer under the Deed of Covenant may not qualify for the exemptions from United Kingdom withholding tax described above.

(B) United Kingdom Withholding Tax - Other Payments

Where a payment on a Note does not constitute (or is not treated as) interest for United Kingdom tax purposes, it would potentially be subject to United Kingdom withholding tax if, for example, it constitutes (or is treated as) an annual payment, a manufactured payment, rent or similar income or royalties for United Kingdom tax purposes (which will be determined by, amongst other things, the terms and conditions specified by the Pricing Supplement of the Note). In such a case, the payment may fall to be made under deduction of United Kingdom tax (the rate of withholding depending on the nature of the payment), subject to any exemption from withholding which may apply and to such relief as may be available following a direction from HMRC pursuant to the provisions of any applicable double tax treaty.

(C) Other Rules Relating to United Kingdom Withholding Tax

1. Notes may be issued at an issue price of less than 100 per cent. of their principal amount. Any discount element on such Notes will not generally be subject to any United Kingdom withholding tax pursuant to the provisions mentioned above.
2. Where Notes are to be, or may fall to be, redeemed at a premium, as opposed to being issued at a discount, then any such element of premium may constitute a payment of interest. Payments of interest are subject to United Kingdom withholding tax as outlined above.
3. Where interest or any other payment has been paid under deduction of United Kingdom income tax, Noteholders or Couponholders who are not resident in the United Kingdom may be able to recover all or part of the tax deducted if there is an appropriate provision in any applicable double taxation treaty.
4. The references to "**interest**" above mean "interest" as understood in United Kingdom tax law. The statements above do not take any account of any different definitions of "**interest**" or "**principal**" which may prevail under any other law or which may be created by the terms and conditions of the Notes or any related documentation. Noteholders or Couponholders should seek their own professional advice as regards the withholding tax treatment of any payment on the Notes which does not constitute "interest" or "principal" as those terms are understood in United Kingdom tax law.
5. The above summary under the heading of "United Kingdom Taxation – Notes" assumes that there will be no substitution of the Issuer pursuant to Condition 15 (*Meetings of Noteholders, Modifications and Substitution*) of the Notes and does not consider the tax consequences of any such substitution.

United Kingdom Taxation - Warrants

The following is a summary of the United Kingdom withholding taxation treatment at the date hereof in relation to payments in respect of the Warrants and of the treatment of Warrants for the purposes of United Kingdom stamp duty and stamp duty reserve tax. It is based on current law and the practice of

Part A – Information Relating to the Programme Generally – Taxation

HMRC, which may be subject to change, sometimes with retrospective effect. The comments do not deal with other United Kingdom tax aspects of acquiring, holding or disposing of Warrants. The comments in relation to United Kingdom withholding tax relate only to the position of persons who are absolute beneficial owners of the Warrants. The following is a general guide and should be treated with appropriate caution. It is not intended as tax advice and it does not purport to describe all tax considerations that may be relevant to a prospective purchaser. Warrantheolders who are in any doubt as to their tax position should consult their professional advisers. Warrantheolders who may be liable to taxation in jurisdictions other than the United Kingdom in respect of their acquisition, holding or disposal of the Warrants are particularly advised to consult their professional advisers as to whether they are so liable (and if so under the laws of which jurisdictions), since the following comments relate only to certain United Kingdom taxation aspects of payments in respect of the Warrants. In particular, Warrantheolders should be aware that they may be liable to taxation under the laws of other jurisdictions in relation to payments in respect of the Warrants even if such payments may be made without withholding or deduction for or on account of taxation under the laws of the United Kingdom.

(A) **United Kingdom Withholding Tax**

Warrants that are not derivatives

Payments under the Warrants which do not amount to interest, rent or annual payments (and are not treated as, or as if they were, interest, rent or annual payments for United Kingdom tax purposes) may be made without any withholding or deduction for or on account of United Kingdom tax.

Payments where the Warrants constitute derivative contracts

The Issuer should not be required to withhold or deduct sums for or on account of United Kingdom income tax from payments under Warrants that are treated as derivatives for the purposes of Financial Reporting Standard 25 (or International Accounting Standard 32).

(B) **United Kingdom Stamp Duty and Stamp Duty Reserve Tax**

United Kingdom stamp duty or stamp duty reserve tax may be payable on any issue, transfer or agreement to transfer the Warrants or any interest in the Warrants.

EU Taxation – Proposed Financial Transactions Tax ("FTT")

On 14 February 2013, the European Commission published a proposal (the "**Commission Proposal**") for a Directive for a common FTT in Belgium, Germany, Estonia, Greece, Spain, France, Italy, Austria, Portugal, Slovenia and Slovakia (the "**participating Member States**"). However, Estonia has since stated that it will not participate.

The proposed FTT has very broad scope. If introduced in the form proposed on 14 February 2013, it could apply to certain dealings in Notes or Warrants (including secondary market transactions) in certain circumstances. The issuance and subscription of Notes or Warrants should, however, be exempt.

Under the 14 February 2013 proposal, FTT could apply in certain circumstances to persons both within and outside of the participating Member States. Generally, it would apply to certain dealings in Notes or Warrants where at least one party is a financial institution, and at least one party is established in a participating Member State. A financial institution may be, or be deemed to be, "established" in a participating Member State in a broad range of circumstances, including (a) by transacting with a person established in a participating Member State or (b) where the financial instrument which is subject to the dealings is issued in a participating Member State.

However, the Commission Proposal remains subject to negotiation between the participating Member States. It may therefore be altered prior to any implementation, the timing of which remains unclear. Additional EU Member States may decide to participate.

Prospective holders of the Notes and Warrants are advised to seek their own professional advice in relation to the FTT.

United States Taxation

Transactions involving the Notes and Warrants may have tax consequences for potential purchasers which may depend, amongst other things, upon the status of the potential purchaser and laws relating to transfer and registration taxes. Potential purchasers who are in any doubt about the tax position of any aspect of transactions involving the Notes and Warrants should consult their own tax advisers.

The following summary describes certain of the principal U.S. federal income tax consequences resulting from the purchase, ownership and disposition of Notes that are principal protected and Warrants that require the payment of a substantial exercise price. Investors are directed to review any discussion of Notes that are not principal protected and Warrants that do not require the payment of a substantial exercise price in a relevant supplement to this Offering Memorandum or relevant Pricing Supplement. This summary does not purport to consider all the possible U.S. federal income tax consequences of the purchase, ownership and disposition of the Notes and the Warrants and is not intended to reflect the individual tax position of any beneficial owner of Notes. The summary also does not address any aspect of U.S. federal taxation other than U.S. federal income taxation (such as the estate and gift tax (except to the extent explicitly addressed below) or the Medicare tax on net investment income). The summary is based upon the U.S. Internal Revenue Code of 1986, as amended (the "**Code**"), its legislative history, existing and proposed U.S. Treasury regulations promulgated thereunder, published rulings by the U.S. Internal Revenue Service ("**IRS**") and court decisions, all as of the date hereof, all of which authorities are subject to change or differing interpretations, which changes or differing interpretations could apply retroactively. This summary is limited to investors who purchase the Notes or the Warrants at initial issuance and hold the Notes or the Warrants as "capital assets" within the meaning of section 1221 of the Code (i.e., generally, property held for investment) and does not purport to deal with investors in special tax situations, such as financial institutions, tax exempt organisations, insurance companies, regulated investment companies, dealers in securities or currencies, persons purchasing Notes or Warrants other than at original issuance, persons holding notes as a hedge against currency risks or as a position in a "straddle," "conversion transaction," or "constructive sale" transaction for tax purposes, or persons whose functional currency (as defined in section 985 of the Code) is not the U.S. dollar. The summary does not include any description of the tax laws of any state, local or foreign governments that may be applicable to the Notes or the Warrants or the holders thereof.

Prospective purchasers of the Notes or the Warrants should consult their own tax advisers concerning the application of U.S. federal income tax laws to their particular situations as well as any consequences of the purchase, ownership and disposition of the Notes and the Warrants arising under the laws of any other taxing jurisdiction.

As used herein, the term "**U.S. Holder**" means a beneficial owner of a Note or a Warrant who or which is for U.S. federal income tax purposes (i) an individual who is a citizen or resident of the United States, (ii) a corporation created or organised in or under the laws of the United States or of any state thereof (including the District of Columbia), or (iii) any other person who is subject to U.S. federal income taxation on a net income basis with respect to the Notes or the Warrants. As used herein, the term "**Non-U.S. Holder**" means a beneficial owner of a Note or a Warrant that is not a U.S. Holder. In the case of a holder of Notes or Warrants that is a partnership for U.S. federal income tax purposes, each partner will take into account its allocable share of income or loss from the Notes or Warrants, and will take such income or loss into account under the rules of taxation applicable to such partner, taking into account the activities of the partnership and the partner.

Treatment of Notes

Except as otherwise provided in a supplement to this Offering Memorandum or the Pricing Supplement, the Issuer intends to treat Notes that are principal protected as indebtedness for U.S. federal income tax purposes; however, the IRS is not bound by this determination and the Notes could be recharacterised. Any such recharacterisation could materially affect the timing or character of the income required to be recognised by a U.S. Holder for U.S. federal income tax purposes. Prospective investors are urged to consult with their tax advisers as to the likelihood and likely effect of any such recharacterisation. The remainder of this summary assumes the Notes discussed herein are properly characterised as indebtedness for U.S. federal income tax purposes.

Part A – Information Relating to the Programme Generally – Taxation

U.S. Holders of Notes

Payments of Interest

Except as described below, payments of interest on a Note will be taxable to a U.S. Holder as ordinary interest income at the time such payments are accrued or are received, in accordance with the U.S. Holder's regular method of accounting for U.S. federal income tax purposes.

Original Issue Discount

General

The following summary is a general discussion of the U.S. federal income tax consequences to U.S. Holders of the purchase, ownership and disposition of a Note issued with original issue discount ("**OID**") (a "**Discount Note**"). Special rules apply to OID on a Discount Note that is denominated in a Foreign Currency. See "*— Foreign Currency Notes — OID*".

For U.S. federal income tax purposes, OID is the excess of the stated redemption price at maturity of a Note over its issue price, if such excess equals or exceeds a *de minimis* amount (generally defined as 1/4 of 1-per cent. of the Note's stated redemption price at maturity multiplied by the number of complete years to its maturity from its issue date). The issue price of each Note in an issue of Notes is the first price at which a substantial amount of such issue of Notes has been sold to the public (ignoring sales to bond houses, broker-dealers, or similar persons or organisations acting in the capacity of underwriters, placement agents, or wholesalers). The stated redemption price at maturity of a Note generally is the sum of all payments provided for by the Note other than qualified stated interest payments. The term "**qualified stated interest**" generally means stated interest that is unconditionally payable in cash or property (other than debt instruments of the issuer) at least annually at a single fixed rate.

Payments of qualified stated interest on a Note are taxable to a U.S. Holder as ordinary interest income at the time such payments are accrued or are received, in accordance with the U.S. Holder's regular method of accounting for U.S. federal income tax purposes. A U.S. Holder of a Discount Note having a maturity of more than one year from the date of issue must include OID in income as ordinary interest income for U.S. federal income tax purposes as it accrues under a constant yield method in advance of receipt of the cash payments attributable to such income, regardless of such U.S. Holder's regular method of tax accounting. In general, the amount of OID included in income by the initial U.S. Holder of a Discount Note is the sum of the daily portions of OID with respect to such Discount Note for each day during the taxable year on which such U.S. Holder held such Discount Note. The "daily portions" of OID on any Discount Note are determined by allocating to each day in an accrual period a rateable portion of the OID allocable to that accrual period. An "accrual period" may be of any length and the accrual periods may vary in length over the term of the Discount Note as long as (i) each accrual period is no longer than one year, and (ii) each scheduled payment of principal and interest occurs either on the final day of an accrual period or on the first day of an accrual period. The amount of OID allocable to each accrual period is generally equal to the excess of (i) the product of the Discount Note's adjusted issue price at the beginning of such accrual period and its yield to maturity (determined on the basis of compounding at the close of each accrual period and appropriately adjusted to take into account the length of the particular accrual period) over (ii) the amount of any qualified stated interest payments allocable to such accrual period. The "adjusted issue price" of a Discount Note at the beginning of the first accrual period is its issue price of the Discount Note. Thereafter, the "adjusted issue price" of a Discount Note is the sum of the issue price of the Discount Note plus the amount of OID previously includible in the gross income of the holder reduced by the amount of any payments previously made on the Discount Note other than payments of qualified stated interest. Under these rules, U.S. Holders generally will have to include in income increasingly greater amounts of OID in successive accrual periods.

Election to Treat all Interest as OID

A U.S. Holder of a Note may elect to include in gross income all interest that accrues on the Note by using the constant yield method described in "*— Original Issue Discount — General*" with certain modifications. The election must be made for the taxable year in which the U.S. Holder acquires the Note and will generally apply only to the Note (or Notes) identified by the U.S. Holder in a statement attached to the U.S. Holder's timely filed U.S. federal income tax return. The election may not be revoked without the consent of the IRS. If a U.S. Holder makes the election with respect to a Note with "amortisable bond

Part A – Information Relating to the Programme Generally – Taxation

premium" (as described in "*— Amortisable Bond Premium*"), then the electing U.S. Holder is deemed to have elected to apply amortisable bond premium against interest with respect to all debt instruments with amortisable bond premium (other than debt instruments the interest on which is excludible from gross income) held by the electing U.S. Holder as of the beginning of the taxable year in which any Note (with respect to which the election is made) is acquired and any such debt instrument thereafter acquired. The deemed election with respect to amortisable bond premium may not be revoked without the consent of the IRS.

Variable Rate Debt Instruments

Generally, Notes that are issued with a variable rate of interest (a "**Floating Rate Note**") are subject to special rules whereby a Floating Rate Note will qualify as a "variable rate debt instrument" if (a) its issue price does not exceed the total non-contingent principal payments due under the Floating Rate Notes by more than an amount equal to the lesser of (i) 0.015 multiplied by the product of the total non-contingent principal payments and the number of complete years to maturity from the issue date or (ii) 15 per cent. of the total non-contingent principal payments, (b) it does not provide for any stated interest other than stated interest, paid or compounded at least annually, at (i) one or more qualified floating rates, (ii) a single fixed rate and one or more qualified floating rates, (iii) a single objective rate, or (iv) a single fixed rate and a single objective rate that is a qualified inverse floating rate, and (c) it provides that a qualified floating rate or objective rate in effect at any time during the term of the Note is set at a current value of that rate (i.e., the value of the rate on any day that is no earlier than three months prior to the first rate day on which the value is in effect and no later than one year following that first day).

A "**qualified floating rate**" is any variable rate where variations in the value of such rate can reasonably be expected to measure contemporaneous variations in the cost of newly borrowed funds in the currency in which the Floating Rate Notes are denominated. Although a multiple of a qualified floating rate will generally not itself constitute a qualified floating rate, a variable rate equal to the product of a qualified floating rate and a fixed multiple that is greater than 0.65 but not more than 1.35 will constitute a qualified floating rate. A variable rate equal to the product of a qualified floating rate and a fixed multiple that is greater than 0.65 but not more than 1.35, increased or decreased by a fixed rate, will also constitute a qualified floating rate. In addition, two or more qualified floating rates that can reasonably be expected to have approximately the same values throughout the term of the Floating Rate Notes together will constitute a single qualified floating rate. Two or more qualified floating rates will be conclusively presumed to meet the requirements of the previous sentence if the values of all rates on the issue date are within 25 basis points of each other. A variable rate is not a qualified floating rate if it is subject to certain restrictions (including caps floors, governors, or other similar restrictions) unless such restrictions are fixed throughout the term of the Floating Rate Note or are not reasonably expected to significantly affect the yield on the Floating Rate Note.

An "**objective rate**" is a rate other than a qualified floating rate that is determined using a single fixed formula and that is based upon objective financial or economic information, other than information that is within the control of the issuer or a related party, or that is unique to the circumstances of the issuer or a related party such as dividends, profits or the value of the issuer's (or related party's) stock (but not the issuer's credit quality). Despite the foregoing, a variable rate of interest on Floating Rate Notes will not constitute an objective rate if it is reasonably expected that the average value of such rate during the first half of the Floating Rate Notes term will be either significantly less than or significantly greater than the average value of the rate during the final half of the Floating Rate Notes' term. A "**qualified inverse floating rate**" is any objective rate where such rate is equal to a fixed rate minus a qualified floating rate, as long as variations in the rate can reasonably be expected to reflect inversely contemporaneous variations in the qualified floating rate (disregarding any caps, floors, governors or other restrictions that are fixed throughout the term of the Floating Rate Notes or are not reasonably expected to significantly affect the yield on the Floating Rate Notes).

Generally, if a Floating Rate Note provides for stated interest at a fixed rate for an initial period of one year or less followed by a variable rate that is either a qualified floating rate or an objective rate for a subsequent period, and the value of the variable rate on the Floating Rate Note's issue date is intended to approximate the fixed rate, then the fixed rate and the variable rate together will constitute either a single qualified floating rate or objective rate, as the case may be. A fixed rate and a variable rate will be conclusively presumed to meet the previous requirements if the value of the variable rate on the issue date of the Floating Rate Notes does not differ from the value of the fixed rate by more than 25 basis points.

Part A – Information Relating to the Programme Generally – Taxation

If a Floating Rate Note provides for stated interest at a single qualified floating rate or objective rate that is unconditionally payable in cash or in property (other than debt instruments of the issuer) or that will be constructively received by the U.S. Holder at least annually, then (a) all stated interest with respect to the Note is qualified stated interest, (b) the amount of qualified stated interest and the amount of OID, if any, is determined by assuming that the variable rate is a fixed rate equal to (i) in the case of a qualified floating rate or qualified inverse floating rate, the value, as of the issue date, of the qualified floating rate or qualified inverse floating rate, (ii) in the case of an objective rate (other than a qualified inverse floating rate), a fixed rate that reflects the yield that is reasonably expected for the Note, and (c) the qualified stated interest allocable to an accrual period is increased (or decreased) if the interest actually paid during an accrual period exceeds (or is less than) the interest assumed to be paid during the accrual period under the foregoing rules.

If a Floating Rate Note does not provide for stated interest at a single qualified floating rate or objective rate, or at a single fixed rate (other than at a single fixed rate for an initial period of one year or less), the amount of qualified stated interest and OID on the Note are generally determined by (i) determining a fixed-rate substitute for each variable rate provided under the Floating Rate Note (generally, the value of each variable rate as of the issue date or, in the case of an objective rate that is not a qualified inverse floating rate, a rate that reflects the yield that is reasonably expected for the Note), (ii) constructing the equivalent fixed rate debt instrument (using the fixed-rate substitutes described above), (iii) determining the amount of qualified stated interest and OID with respect to the equivalent fixed-rate debt instrument (by applying the general OID rules as described in "*Original Issue Discount – General*"), and (iv) making the appropriate adjustments for actual variable rates during the applicable accrual period.

If a Floating Rate Note provides for stated interest either at one or more qualified floating rates or at a qualified inverse floating rate and in addition provides for stated interest at a single fixed rate (other than a single fixed rate for an initial period), the amount of interest and OID is determined as in the immediately preceding paragraph with the modification that the Floating Rate Note is treated, for purposes of the first three steps of the determination, as if it provided for a qualified floating rate (or qualified inverse floating rate, if the Note provides for a qualified inverse floating rate) rather than the fixed rate. The qualified floating rate (or qualified inverse floating rate) replacing the fixed rate must be such that the fair market value of the Note as of the issue date would be approximately the same as the fair market value of an otherwise identical debt instrument that provides for a qualified floating rate (or qualified inverse floating rate) rather than a fixed rate.

Notes that are Contingent Payment Debt Instruments

Interest Accruals on the Notes

For U.S. federal income tax purposes certain of the Notes may be contingent payment debt instruments ("CPDIs"). A CPDI is any class of Notes which provide for one or more payments, either of interest or principal, that are contingent (usually as to timing of payment or amount of payment). If the Issuer intends to treat a Note as a CPDI, this will be specified in the applicable Pricing Supplement with respect to such Note.

Under Treasury Regulations governing the treatment of CPDIs (the "**CPDI Regulations**"), regardless of a U.S. Holder's regular method of accounting, accruals of income, gain, loss and deduction with respect to a CPDI are determined under the "non-contingent bond method." Under the non-contingent bond method, a U.S. Holder of a CPDI will accrue OID over the term of such Note based on the Note's comparable yield. In general, the comparable yield of a CPDI is equal to the yield at which the Issuer would issue a fixed rate, non-contingent debt instrument with terms and conditions otherwise similar to those of the CPDI, including level of subordination, term, timing of payments, and general market conditions. The applicable Pricing Supplement for any Note that is a CPDI will specify its comparable yield. A U.S. Holder will accrue OID at the comparable yield even if the comparable yield differs from the stated Interest Rate on the CPDI (if any).

The amount of OID allocable to each accrual period will be the product of the "adjusted issue price" of the CPDI at the beginning of each such accrual period and the comparable yield. The "adjusted issue price" of a CPDI at the beginning of an accrual period will equal the issue price *plus* the amount of OID previously includible in the gross income of U.S. Holder *minus* the amount of any Projected Payments (as defined below) with respect to such Note. The amount of OID includible in the income of each U.S. Holder will generally equal the sum of the "daily portions" of the total OID on the CPDI allocable to each

Part A – Information Relating to the Programme Generally – Taxation

day on which a U.S. Holder held such Note. Generally, the daily portion of the OID is determined by allocating to each day in any accrual period a rateable portion of the OID allocable to such accrual period. Such OID is included in income and taxed at ordinary income rates.

The Issuer also is required by the CPDI Regulations to determine, solely for U.S. federal income tax purposes, a projected payment schedule of the projected amounts of payments (the "**Projected Payments**") on any Note that is a CPDI. The schedule must produce the comparable yield. The applicable Pricing Supplement for any Note that is a CPDI will specify the Projected Payments for such Note. Under the non-contingent bond method, the Projected Payments are not revised to account for changes in circumstances that occur while the Notes are outstanding. See "*Adjustments to Interest Accruals*" below.

For U.S. federal income tax purposes, the Issuer's reasonable determination of the comparable yield and schedule of Projected Payments is generally respected and will be binding on the holders of the Notes, unless such holder timely discloses and justifies the use of other estimates to the IRS.

THE COMPARABLE YIELD AND THE SCHEDULE OF PROJECTED PAYMENTS ARE NOT PROVIDED FOR ANY PURPOSE OTHER THAN THE DETERMINATION OF U.S. HOLDERS' INTEREST ACCRUALS AND ADJUSTMENTS THEREOF AND DO NOT CONSTITUTE AN ASSURANCE BY THE ISSUER AS TO THE ACTUAL YIELD OF THE NOTES. THE ISSUER MAKES NO REPRESENTATION AS TO WHAT SUCH ACTUAL YIELD WILL BE, AND THE COMPARABLE YIELD DOES NOT NECESSARILY REFLECT THE EXPECTATIONS OF THE ISSUER REGARDING THE ACTUAL YIELD.

Adjustments to Interest Accruals

If, during any taxable year, the sum of any actual payments with respect to a CPDI for that taxable year (including, in the case of the taxable year which includes the maturity date, the amount of cash received at maturity) exceeds the total amount of Projected Payments for that taxable year, the difference will produce a "Net Positive Adjustment" under the CPDI Regulations, which will be treated as additional interest for the taxable year. If the actual amount received in a taxable year is less than the amount of Projected Payments for that taxable year, the difference will produce a "Net Negative Adjustment" under the CPDI Regulations, which will (i) reduce the U.S. Holder's interest income for that taxable year and (ii) to the extent of any excess after the application of (i), give rise to an ordinary loss to the extent of the U.S. Holder's interest income on the Notes during prior taxable years (reduced to the extent such interest was offset by prior Net Negative Adjustments).

Short-Term Notes

Generally, an individual or other-cash basis U.S. Holder of Notes having a fixed maturity date not more than 1 year from the date of issue ("**Short-Term Notes**") is not required to accrue OID for U.S. federal income tax purposes unless it elects to do so. An election by a cash basis U.S. Holder applies to all short-term obligations acquired on or after the beginning of the first taxable year to which the election applies, and for all subsequent taxable years unless the consent is secured from the IRS to revoke the election. Accrual-basis U.S. Holders and certain other U.S. Holders, including banks, regulated investment companies, dealers in securities, common trust funds, U.S. Holders who hold Short-Term Notes as part of certain identified hedging transactions, certain pass-through entities and cash-basis U.S. Holders who so elect, are required to accrue OID on Short-Term Notes on either a straight-line basis or, at the election of the U.S. Holder, under the constant yield method (based on daily compounding). In the case of a U.S. Holder not required and not electing to include OID in income currently, any gain realised on the sale or retirement of the Short-Term Notes will be ordinary income to the extent of the OID accrued on a straight-line basis (unless an election is made to accrue the OID under the constant yield method) through the date of sale or retirement. U.S. Holders who are not required and do not elect to accrue OID on Short-Term Notes will be required to defer deductions for interest on borrowings allocable to Short-Term Notes in an amount not exceeding the deferred income until the deferred income is realised.

Amortisable Bond Premium

Generally, a U.S. Holder that purchases a Note for an amount that is in excess of the sum of all amounts payable on the Note after its acquisition date (other than payments of qualified stated interest) will be

Part A – Information Relating to the Programme Generally – Taxation

considered to have purchased the Note with "amortisable bond premium" equal to such excess. A U.S. Holder of such a Note will not be subject to OID and may elect to amortise such premium using a constant yield method over the remaining term of the Note and may offset qualified stated interest otherwise required to be included in respect of the Note with respect to an accrual period by the bond premium allocable to the accrual period. If the bond premium allocable to the accrual period exceeds the qualified stated interest allocable to the accrual period, the excess is treated as a bond premium deduction for the accrual period. However, the amount treated as a bond premium deduction is limited to the amount by which the U.S. Holder's total interest inclusions on the Note in prior accrual periods exceed the total amount treated by the U.S. Holder as a bond premium deduction on the Note in prior accrual periods. If the bond premium allocable to an accrual period exceeds the sum of the qualified stated interest allocable to the accrual period and the amount treated as a bond premium deduction for the accrual period as described above, the excess is carried forward to the next accrual period and is treated as bond premium allocable to that period. Special rules apply for determining the amortisation of bond premium on Notes that are classified as "variable rate debt instruments", Notes that provide for certain alternative payment schedules, and Notes that provide for certain contingencies. Any election to amortise bond premium with respect to any Note (or other general debt obligations) applies to all taxable debt obligations held by the U.S. Holder at the beginning of the first taxable year to which the election applies and to all debt obligations thereafter acquired in such taxable year and all subsequent tax years. The election may not be revoked without the consent of the IRS.

Sale, Exchange or Retirement of a Note

Except as discussed above, upon the sale, exchange or retirement of a Note, a U.S. Holder generally will recognise a taxable gain or loss equal to the difference between the amount realised on the sale, exchange or retirement (other than amounts representing accrued and unpaid interest, which amounts will be taxable as ordinary income) and such U.S. Holder's adjusted tax basis in the Note. A U.S. Holder's adjusted tax basis in a Note generally will equal such U.S. Holder's initial investment in the Note increased by any OID included in income, decreased by the amount of any payments that are not qualified stated interest payments and any amortisable bond premium applied to reduce interest income with respect to such Note. Such gain or loss generally will be a long-term capital gain or loss if the Note has been held by such U.S. Holder for more than one year at the time of such sale, exchange or retirement.

Certain of the Notes may be redeemable at the option of the Issuer prior to their stated maturity and/or may be repayable at the option of the holder prior to their stated maturity. Notes containing such features may be subject to the rules that differ from the general rules discussed above. U.S. Holders intending to purchase Notes with such features should consult their own tax advisers regarding the U.S. federal income tax consequences to them of the purchase, holding and disposition of such Notes, since the OID consequences will depend, in part, on the particular terms and features of such Notes.

Foreign Currency Notes

The following summary relates to Notes that are denominated in a currency or basket of currencies other than the U.S. dollar ("**Foreign Currency Notes**" and "**Foreign Currency**", respectively). It does not apply to U.S. Holders whose functional currency is not the U.S. dollar.

Payments of Interest In a Foreign Currency

Cash Method

A U.S. Holder who uses the cash method of accounting for U.S. federal income tax purposes and who receives a payment of interest on a Note (other than OID) will be required to include as income the U.S. dollar value of the Foreign Currency payment (determined on the date such payment is actually or constructively received) regardless of whether the payment is in fact converted to U.S. dollars at that time, and such U.S. dollar value will be the U.S. Holder's tax basis in such Foreign Currency.

Accrual Method

A U.S. Holder who uses the accrual method of accounting for U.S. federal income tax purposes, or who otherwise is required to accrue interest prior to receipt, will be required to include as income the U.S. dollar value of the amount of interest income (including OID and reduced by amortisable bond premium to the extent applicable) that has accrued and is otherwise required to be taken into account with respect

Part A – Information Relating to the Programme Generally – Taxation

to a Note during an accrual period. The U.S. dollar value of such accrued income will be determined by translating such income at the average rate of exchange for the accrual period or, with respect to an accrual period that spans two taxable years, at the average rate for the partial period within each taxable year. A U.S. Holder may elect, however, to translate such accrued interest income using the rate of exchange on the last day of the accrual period or, with respect to an accrual period that spans two taxable years, using the rate of exchange on the last day of the first taxable year. If the last day of an accrual period is within five business days of the date of receipt of the accrued interest, a U.S. Holder may translate such interest using the rate of exchange on the date of receipt. The above election will apply to other obligations held by the U.S. Holder and may not be revoked without the consent of the IRS. Prior to making such an election, a U.S. Holder of Notes should consult his own tax adviser as to the consequences resulting from such an election with respect to his own particular situation.

A U.S. Holder will recognise exchange gain or loss (which will be treated as ordinary income or loss) with respect to accrued interest income on the date such income is received. The amount of ordinary income or loss recognised will equal the difference, if any, between the U.S. dollar value of the Foreign Currency payment received (determined on the date such payment is received) in respect of such accrual period and the U.S. dollar value of interest income that has accrued during such accrual period (as determined above).

Purchase, Sale, Exchange and Retirement of Notes

A U.S. Holder who purchases a Note with previously owned Foreign Currency will recognise ordinary income or loss in an amount equal to the difference, if any, between such U.S. Holder's tax basis in the Foreign Currency and the U.S. dollar fair market value of the Foreign Currency used to purchase the Note, determined on the date of purchase.

Generally, upon the sale, exchange or retirement of a Note, a U.S. Holder will recognise a taxable gain or loss equal to the difference between the amount realised on the sale, exchange or retirement and such U.S. Holder's adjusted tax basis in the Note. Such gain or loss generally will be a capital gain or loss and will be a long-term capital gain or loss if at the time of sale, exchange or retirement the Note has been held by such U.S. Holder for more than one year. To the extent the amount realised represents accrued but unpaid interest, however, such amounts must be taken into account as ordinary interest income, with the exchange gain or loss computed as described in "*— Payments of Interest In a Foreign Currency*" above. If a U.S. Holder receives Foreign Currency on such a sale, exchange or retirement the amount realised will be based on the U.S. dollar value of the Foreign Currency on the date the payment is received or the instrument is disposed of (or deemed disposed of). A U.S. Holder's adjusted tax basis in a Note will equal the cost of the Note to such U.S. Holder, increased by the amounts of any OID previously included in income by the U.S. Holder with respect to such Note and reduced by any amortised acquisition or other premium and any principal payments received by the U.S. Holder. A U.S. Holder's tax basis in a Note, and the amount of any subsequent adjustments to such holder's tax basis, will be the U.S. dollar value of the Foreign Currency amount paid for such Note, or of the Foreign Currency amount of the adjustment, determined on the date of such purchase or adjustment.

Gain or loss realised upon the sale, exchange or retirement of a Note that is attributable to fluctuations in currency exchange rates will be U.S. source ordinary income or a loss which will not be treated as interest income or expense. Gain or loss attributable to fluctuations in exchange rates will equal the difference between the U.S. dollar value of the Foreign Currency principal amount of the Note, determined on the date such payment is received or the Note is disposed of, and the U.S. dollar value of the Foreign Currency principal amount of the Note, determined on the date the U.S. Holder acquired the Note. Such Foreign Currency gain or loss will be recognised only to the extent of the total gain or loss realised by the U.S. Holder on the sale, exchange or retirement of the Note.

OID

In the case of a Discount Note, CPDI or Short-Term Note, (i) OID is determined in units of the Foreign Currency, (ii) accrued OID is translated into U.S. dollars as described in "*— Payments of Interest In a Foreign Currency — Accrual Method*" above and (iii) the amount of Foreign Currency gain or loss on the accrued OID is determined by comparing the amount of income received attributable to the discount (either upon payment, maturity or an earlier disposition), as translated into U.S. dollars at the rate of exchange on the date of such receipt, with the amount of OID accrued, as translated above.

Part A – Information Relating to the Programme Generally – Taxation

Amortisable Bond Premium

Amortisable bond premium on a Note will be computed in the units of the Foreign Currency in which the Note is denominated (or in which the payments are determined). Amortisable bond premium properly taken into account will reduce the interest income in units of the Foreign Currency. Exchange gain or loss is realised with respect to the bond premium with respect to a Note issued with amortisable bond premium by treating the portion of premium amortised with respect to any period as a return of principal. With respect to any U.S. Holder that does not elect to amortise bond premium, the amount of bond premium will constitute a market loss when the bond matures.

Exchange of Foreign Currencies

A U.S. Holder will have a tax basis in any Foreign Currency received as interest or on the sale, exchange or retirement of a Note equal to the U.S. dollar value of such Foreign Currency, determined at the time the interest is received or at the time of the sale, exchange or retirement. Any gain or loss realised by a U.S. Holder on a sale or other disposition of Foreign Currency (including its exchange for U.S. dollars or other use) will be U.S. source ordinary income or loss.

Taxation of U.S. Holders of Warrants

The discussion below addresses only Warrants requiring the payment of a substantial exercise price that are cash-settled.

Characterisation

Currently, there are no statutory provisions, regulations, published rulings or judicial decisions addressing or involving the characterisation and treatment, for U.S. federal income tax purposes, of securities with terms substantially the same as the terms of the Warrants. Accordingly, the proper U.S. federal income tax characterisation and treatment of a Warrant is at present uncertain. Prospective investors are urged to consult their tax advisers regarding the U.S. federal income tax consequences of an investment in a Warrant (including alternative characterisations of a Warrant) and with respect to any tax consequences arising under the laws of any state, local or foreign taxing jurisdiction. The Issuer intends to treat the Warrants as cash-settled options for U.S. federal income tax purposes. Alternatively, a Warrant may be classified as a financial contract such as a prepaid forward contract or an equity swap, or as ownership of the Reference Assets. The timing of recognition of income and the amount and character of income recognised by a U.S. Holder that owns a Warrant may vary significantly depending on the tax characterisation of the Warrant.

On 7 December 2007, the IRS released a notice that may affect the taxation of holders of Warrants. According to the notice, the IRS and the U.S. Treasury Department are actively considering whether the holder of instruments such as Warrants should be required to accrue ordinary income on a current basis, and they are seeking taxpayer comments on the subject. It is not possible to determine what guidance they will ultimately issue, if any. It is possible, however, that under such guidance, holders of Warrants will ultimately be required to accrue income currently and this could be applied on a retroactive basis. The IRS and the U.S. Treasury Department are also considering other relevant issues, including whether additional gain or loss from such instruments should be treated as ordinary or capital, whether foreign holders of such instruments should be subject to withholding tax on any deemed income accruals, and whether the special "constructive ownership rules" of Section 1260 of the Code might be applied to such instruments. The Issuer intends to continue treating Warrants for U.S. federal income tax purposes in accordance with the treatment described in this Offering Memorandum unless and until such time as the IRS and the U.S. Treasury Department determine that some alternative treatment is more appropriate. **Prospective investors are urged to consult their own tax advisers concerning the significance, and the potential impact, of the above considerations.**

Sale, Exchange or Exercise of a Warrant

Upon the sale or exchange of a Warrant to a person other than the Issuer, or upon an exercise of a Warrant, a U.S. Holder will be required to recognise a taxable gain or loss in an amount equal to the difference between the amount realised upon the sale, exchange or exercise and the U.S. Holder's adjusted tax basis in the Warrant and the exercise price, in the case of an exercise of a Warrant. In general, a U.S. Holder's tax basis for a Warrant is the U.S. dollar value of the amount paid for the Warrant. Such gain or

Part A – Information Relating to the Programme Generally – Taxation

loss would generally be treated as short-term or long-term capital gain or loss, depending on the U.S. Holder's holding period for the Warrant.

Foreign Tax Credit with Respect to Notes

The total gross amount of interest, OID, plus any additional amounts (pursuant to Condition 7 (*Taxation*) of the Conditions) with respect thereto, will constitute interest income subject to U.S. federal income tax. This amount will be considered income from sources outside the United States.

The amount of foreign tax, if any, withheld on this gross amount will be considered to be a foreign income tax that may either be deducted when computing U.S. federal taxable income or, subject to limitations personal to the U.S. Holder, claimed as a credit against U.S. federal income tax liability. A U.S. Holder may be required to provide the IRS with a certified copy of the receipt evidencing payment of withholding tax imposed in respect of payments on a Note in order to claim a foreign tax credit in respect of such foreign withholding tax.

Potential purchasers of Notes should carefully consider the applicable Pricing Supplement for information regarding the U.S. federal income tax consequences of payments by the Issuer of other taxes and of additional amounts.

Taxation of Non-U.S. Holders

With respect to the Notes, subject to the discussion below on dividend equivalent payments, FATCA and backup withholding, (a) payment of principal, premium, redemption amount and interest by the Issuer or any paying agent to a Non-U.S. Holder will not be subject to U.S. federal income or withholding tax, **provided that** such Non-U.S. Holder provides the Issuer, when necessary, with appropriate documentation evidencing its status as a Non-U.S. Holder, (b) a gain realised by a Non-U.S. Holder on the sale or redemption of the Notes is not subject to U.S. federal income tax or withholding tax and (c) the Notes are not subject to U.S. federal estate tax if held by an individual who was a Non-U.S. Holder at the time of his death. Special rules may apply in the case of Non-U.S. Holders (i) that are engaged in a U.S. trade or business, (ii) that are former citizens or long-term residents of the United States, "controlled foreign corporations", "passive foreign investment companies", corporations which accumulate earnings to avoid U.S. federal income tax, and certain foreign charitable organisations, each within the meaning of the Code, or (iii) certain non-resident alien individuals who are present in the United States for one hundred and eighty-three days or more during a taxable year. Such persons are urged to consult their U.S. tax advisers before purchasing Notes.

A Non-U.S. Holder generally will not be subject to U.S. federal withholding tax with respect to amounts received, if any, with respect to a Warrant, subject to the discussion below of dividend equivalent payments, FATCA and backup withholding, assuming that: (i) the Warrant is not held in connection with a U.S. trade or business or, in the case of a resident of a country that has an income tax treaty with the United States, such Warrant is not attributable to a permanent establishment (or, in the case of an individual, a fixed place of business) in the United States; (ii) in the case of an individual, the Non-U.S. Holder is not present in the United States for one hundred and eighty-three days or more during a taxable year and certain other conditions are met; and (iii) such Non-U.S. Holder is not subject to the rules applicable to certain former citizens and long-term residents of the United States.

Withholding on Dividend Equivalent Payments

Section 871(m) of the U.S. Internal Revenue Code of 1986 treats a "dividend equivalent" payment as a dividend from sources within the United States. Under Section 871(m), such payments generally would be subject to a 30% U.S. withholding tax that may be reduced by an applicable tax treaty, eligible for credit against other U.S. tax liabilities or refunded, provided that the beneficial owner timely claims a credit or refund from the IRS. A "dividend equivalent" payment is (i) a substitute dividend payment made pursuant to a securities lending or a sale-repurchase transaction that (directly or indirectly) is contingent upon, or determined by reference to, the payment of a dividend from sources within the United States, (ii) a payment made pursuant to a "specified notional principal contract" that (directly or indirectly) is contingent upon, or determined by reference to, the payment of a dividend from sources within the United States, and (iii) any other payment determined by the IRS to be substantially similar to a payment described in (i) and (ii). Recently published final U.S. Treasury regulations issued under Section 871(m) (the "**Section 871(m) Regulations**") will, when effective, require withholding on certain non-U.S.

Part A – Information Relating to the Programme Generally – Taxation

holders of the Notes or Warrants with respect to amounts treated as attributable to dividends from certain U.S. securities. Under the Section 871(m) Regulations, only a Note or Warrant that has an expected economic return sufficiently similar to that of the underlying U.S. security, as determined on the Note's or Warrant's issue date based on tests set forth in the Section 871(m) Regulations, will be subject to the Section 871(m) withholding regime (making such Note or Warrant a ("**Section 871(m) Note or Warrant**"). The Section 871(m) Regulations provide certain exceptions to this withholding requirement, in particular for instruments linked to certain broad-based indices.

Withholding in respect of dividend equivalent payments will generally be required when cash payments are made on a Section 871(m) Note or Warrant or upon the date of maturity, expiry, lapse, redemption, termination (as applicable) or other disposition by the non-U.S. holder of the Section 871(m) Note or Warrant. If the underlying U.S. security or securities are expected to pay dividends during the term of the Section 871(m) Note or Warrant, withholding generally will still be required even if the Section 871(m) Note or Warrant does not provide for payments explicitly linked to dividends. If the Issuer or any withholding agent determines that withholding is required, neither the Issuer nor any withholding agent will be required to pay any additional amounts with respect to amounts so withheld.

The Section 871(m) Regulations generally apply to a Section 871(m) Note or Warrant issued on or after 1 January 2017. If the terms of a Note or Warrant are subject to a "significant modification" such that the Note or Warrant is treated as retired and reissued, it could lose its "grandfathered" status and might become a Section 871(m) Note or Warrant based on economic conditions in effect at that time.

The Section 871(m) Regulations require complex calculations to be made with respect to Notes or Warrants linked to U.S. securities and their application to a specific issue of Notes or Warrants may be uncertain. Prospective investors should consult their tax advisers on the potential application of Section 871(m) to the Notes or Warrants.

Information Reporting and Backup Withholding

Payments of interest on a Note made within the United States or through certain U.S.-related financial intermediaries, and the proceeds of a taxable exercise or a sale or other disposition of Warrants payable to a U.S. Holder or through certain U.S.-related financial intermediaries, generally are subject to information reporting and to backup withholding, unless, the holder of the Note or Warrant, as applicable, (i) is a corporation or comes within certain other exempt categories listed below, and if required, demonstrates this fact, or (ii) in the case of backup withholding, provides certain information discussed below. For each calendar year in which the Notes or Warrants are outstanding, each DTC participant or indirect participant holding an interest in a Note or a Warrant on behalf of a beneficial owner of a Note or a Warrant, as applicable, and each paying agent making payments in respect of a Registered Note or a Warrant will generally be required to provide the IRS with certain information, including such beneficial owner's name, address, taxpayer identification number (either such beneficial owner's Social Security number, its employer identification number or its IRS individual taxpayer identification number, as the case may be), and the aggregate amount of payments made to such beneficial owner during the calendar year. These reporting requirements, however, do not apply with respect to certain beneficial owners, including corporations, securities broker-dealers, other financial institutions, tax-exempt organisations, qualified pension and profit sharing trusts and individual retirement accounts. In the event that a U.S. beneficial owner of a Note or a Warrant fails to establish its exemption from such information reporting requirements or is subject to the reporting requirements described above and fails to supply its correct taxpayer identification number in the manner required by applicable law, or underreports its tax liability, as the case may be, the DTC participant or indirect participant holding such interest on behalf of such beneficial owner or paying agent making payments in respect of a Note or a Warrant, as applicable, may be required to "backup" withhold a tax on each payment with respect to Notes or Warrants. This backup withholding tax is not an additional tax and may be credited against the beneficial owner's U.S. federal income tax liability if the required information is furnished to the IRS in a timely manner. Compliance with the certification procedures contained in IRS Forms W-8BEN, W-8BEN-E, W-8ECI or W-8EXP as appropriate will establish an exemption from information reporting and backup withholding for those Non-U.S. Holders who are not otherwise exempt recipients.

U.S. Holders should consult their own tax advisers regarding any reporting obligations they may have as a result of their acquisition, ownership or disposition of Notes or Warrants.

Part A – Information Relating to the Programme Generally – Taxation

Reportable Transactions

A U.S. taxpayer that participates in a "reportable transaction" will be required to disclose its participation to the IRS. The scope and application of these rules is not entirely clear. A U.S. Holder may be required to treat a foreign currency exchange loss from the Notes or the Warrants as a reportable transaction if the loss exceeds U.S.\$50,000 in a single taxable year, if the U.S. Holder is an individual or trust, or higher amounts for other non-individual U.S. Holders. In the event the acquisition, holding or disposition of Notes or Warrants constitutes participation in a reportable transaction for the purposes of these rules, a U.S. Holder will be required to disclose its investment by filing Form 8886 with the IRS. A penalty in the amount of U.S.\$10,000 in the case of a natural person and U.S.\$50,000 in all other cases is generally imposed on any taxpayer that fails to timely file an information return with the IRS with respect to a transaction resulting in a loss that is treated as a reportable transaction. Accordingly, if a U.S. Holder realises a loss on any Note or Warrant (or, possibly, aggregate losses from the Notes or Warrants) satisfying the monetary thresholds discussed above, the U.S. Holder could be required to file an information return with the IRS, and failure to do so may subject the U.S. Holder to the penalties described above. In addition, the Issuer and its advisers may also be required to disclose the transaction to the IRS, and to maintain a list of U.S. Holders, and to furnish this list and certain other information to the IRS upon written request. Prospective purchasers are urged to consult their tax advisers regarding the application of these rules to the acquisition, holding or disposition of Notes and the Warrants.

Additional Reporting Requirements

Certain U.S. Holders that hold an interest in a "specified foreign financial asset" will be required to attach certain information regarding such assets to their income tax return for any year in which the aggregate value of all such assets exceeds a specified threshold amount. A "specified foreign financial asset" includes any depository or custodial accounts at foreign financial institutions, non-publicly traded debt or equity interest in a foreign financial institution, and to the extent not held in an account at a financial institution, (i) stocks or securities issued by non-U.S. persons; (ii) any financial instrument or contract held for investment that has an issuer or counterparty which is not a U.S. person; and (iii) any interest in a non-U.S. entity. Penalties may be imposed for the failure to disclose such information regarding specified foreign financial assets. U.S. Holders are advised to consult their tax advisers regarding the potential reporting requirements that may be imposed on them with respect to their ownership of the Notes and the Warrants.

Withholding of U.S. tax on account of FATCA

The United States has enacted rules, commonly referred to as "FATCA", that generally impose a new reporting and withholding regime with respect to certain U.S. source payments (including dividends and interest), gross proceeds from the disposition of property that can produce U.S. source interest and dividends and certain payments made by, and financial accounts held with, entities that are classified as financial institutions under FATCA.

The United States has entered into an intergovernmental agreement regarding the implementation of FATCA with the United Kingdom (the "IGA"). Under the IGA, as currently drafted, the Issuer does not expect non-U.S. source payments made on or with respect to the Notes or Warrants to be subject to withholding under FATCA. However, significant aspects of when and how FATCA will apply remain unclear, and no assurance can be given that withholding under FATCA will not become relevant with respect to payments made on or with respect to the Notes or Warrants in the future.

Whilst the Notes and Warrants are in global form and held within the ICSDs, it is expected that FATCA will not affect the amount of any payments made under, or in respect of, the Notes and Warrants by the Issuer, any paying agent or the common depository, given that each of the entities in the payment chain beginning with the Issuer and ending with the ICSDs is a major financial institution whose business is dependent on compliance and participation with FATCA and that any alternative approach introduced under an intergovernmental agreement will be unlikely to affect the Notes or Warrants. The documentation expressly contemplates the possibility that the securities may go into definitive form and therefore that they may be taken out of the ICSDs. If this were to happen, then a non-FATCA compliant holder could be subject to withholding. However, definitive Notes and Warrants will only be printed in remote circumstances. An investor should be aware that if any payments in relation to a Note or Warrant were subject to withholding or deduction under FATCA, the Issuer would have no obligation to pay any

additional amounts in relation to such withholding or deduction in accordance with Condition 8 (*Taxation*) of the Notes or Condition 9 (*Taxes*) of the Warrants.

Part A – Information Relating to the Programme Generally – Certain Erisa Considerations

CERTAIN ERISA CONSIDERATIONS

The U.S. Employee Retirement Income Security Act of 1974, as amended ("**ERISA**"), imposes certain restrictions on employee benefit plans that are subject to Title I of ERISA ("**ERISA Plans**") and on persons who are fiduciaries with respect to such ERISA Plans. In accordance with the ERISA's general fiduciary requirements, a fiduciary with respect to any such ERISA Plan who is considering the purchase of Notes and/or Warrants on behalf of such ERISA Plan should determine, to the extent applicable, whether such purchase is permitted under their governing ERISA Plan documents and is prudent and appropriate for the ERISA Plan in view of its overall investment policy and the composition and diversification of its portfolio. Other provisions of ERISA and Section 4975 of the U.S. Internal Revenue Code of 1986, as amended (the "**Code**") prohibit certain transactions between an ERISA Plan or other plan subject to Section 4975 of the Code (such plans and ERISA Plans, together "**Plans**") and persons who have certain specified relationships to the Plan ("parties in interest" within the meaning of ERISA or "disqualified persons" within the meaning of Section 4975 of the Code). Thus, a Plan fiduciary, to the extent permitted, considering the purchase of Notes and/or Warrants should consider whether such a purchase might constitute or result in a prohibited transaction under ERISA or Section 4975 of the Code.

The Issuer or dealers selling Notes and/or Warrants may each be considered a "party in interest" or a "disqualified person" (collectively, "**Parties in Interest**") with respect to many Plans. The purchase of Notes and/or Warrants by a Plan with respect to which the Issuer or the dealers selling Notes and/or Warrants is a party in interest or a disqualified person may constitute or result in a prohibited transaction under Section 406 of ERISA or Section 4975 of the Code. The types of transactions between the Plans and Parties in Interest that are prohibited include: (a) sales, exchanges or leases of property, (b) loans or other extensions of credit and (c) the furnishing of goods and services. Certain Parties in Interest that participate in a non-exempt prohibited transaction may be subject to an excise tax under ERISA or the Code. In addition, the persons involved in the prohibited transaction may have to rescind the transaction and pay an amount to the Plan for any losses realised by the Plan or profits realised by such persons and certain other liabilities could result that have a significant adverse effect on such persons. Certain exemptions from the prohibited transaction provisions of Section 406 of ERISA and Section 4975 of the Code may be applicable, depending in part on the type of Plan fiduciary making the decision to acquire Notes and/or Warrants and the circumstances under which such decision is made. Included among these exemptions are Prohibited Transaction Class Exemption ("**PTCE**") 95-60 (relating to investments by insurance company general accounts), PTCE 91-38 (relating to investments by bank collective investment funds), PTCE 84-14 (relating to transactions effected by a "qualified professional asset manager"), PTCE 90-1 (relating to investments by insurance company pooled separate accounts) and PTCE 96-23 (relating to transactions determined by an in-house asset manager). There can be no assurance that any exception or exemption from the prohibited transaction rules will be available with respect to any particular transaction involving Notes and/or Warrants, or that, if an exemption is available, it will cover all aspects of any particular transaction. Any purchaser that is a Plan (to the extent Plans are permitted to purchase Notes and/or Warrants) should consult with counsel regarding the application of the exemption or any other statutory or administrative exemption.

Certain employee benefit plans, such as governmental plans (as defined in Section 3(32) of ERISA), if no election has been made under Section 410(d) of the Code, church plans (as defined in Section 3(33) of ERISA) and non-U.S. plans (as described in Section 4(b)(4) of ERISA), are not subject to Section 406 of ERISA or Section 4975 of the Code. However, such plans may be subject to the provisions of applicable federal, state or local or other laws, rules or regulations ("**Similar Law**") similar to the foregoing provisions of ERISA or the Code. Fiduciaries of such plans ("**Similar Law Plans**") should consider applicable Similar Law when investing in Notes and/or Warrants.

The Pricing Supplement applicable to each Tranche of Notes or Warrants will specify either "ERISA prohibited" (in which case purchases of such Notes or Warrants (as the case may be) by benefit plan investors ("**Benefit Plan Investors**") are prohibited) or "ERISA terms apply" (in which case certain such purchases are permitted, subject to restrictions). "**Benefit Plan Investors**" include (1) any employee benefit plan (as defined in Section 3(3) of ERISA), that is subject to Part 4 of Title I of ERISA, (2) any plan described in Section 4975(E)(1) of the Code, including, without limitation, individual retirement accounts and Keogh plans, and (3) any entity whose underlying assets include plan asset by reason of a plan's investment in the entity pursuant to the Plan Asset Regulation issued by the United States Department of Labor, 29 C.F.R. § 2510.3-101, as modified by Section 3(42) of ERISA.

Part A – Information Relating to the Programme Generally – Certain Erisa Considerations

If the Pricing Supplement in relation to a Tranche of Notes or Warrants specifies that it is "ERISA prohibited", then each purchaser or transferee, and each person causing such purchaser or transferee (as applicable) to purchase or hold any interest in the Note or Warrant (such as an investment manager), by such purchase or holding of any offered Note or Warrant (or any interest therein) will be deemed to represent (the latter, in its fiduciary and individual capacity), on each day from the date on which the purchaser or transferee (or any party on whose behalf it is acting) acquires any interest in any offered Note or Warrant through and including the date on which the purchaser or transferee (or any party on whose behalf it is acting) disposes of its interest in such offered Note or Warrant, that such purchaser or transferee is not (and for so long as it holds such Note or Warrant or an interest therein will not be), and is not (and for so long as it holds such Note or Warrant or an interest therein will not be) acting on behalf of, (A) a Benefit Plan Investor (as defined in Section 3(42) of ERISA), or (B) a governmental, church or non-U.S. plan whose acquisition, holding and disposition of such Note or Warrant or interest therein would result in a violation of any Similar Law.

If the Pricing Supplement in relation to a Tranche of Notes or Warrants specifies that "ERISA terms apply", then each purchaser or transferee and each person causing such purchaser or transferee (as applicable) to purchase or hold any interest in the Note or Warrant (such as an investment manager), by such purchase or holding of any offered Note or Warrant (or any interest therein) will be deemed to represent (the latter, in its fiduciary and individual capacity), on each day from the date on which the purchaser or transferee (or any party on whose behalf it is acting) acquires any interest in any offered Note or Warrant through and including the date on which the purchaser or transferee (or any party on whose behalf it is acting) disposes of its interest in such offered Note or Warrant, that either (A) such purchaser or transferee is not (and for so long as it holds such Note or Warrant or an interest therein will not be), and is not (and for so long as it holds such Note or Warrant or an interest therein will not be) acting on behalf of, a Benefit Plan Investor as defined in Section 3(42) of ERISA or a governmental, church or non-U.S. plan which is subject to any Similar Law, including any entity whose underlying assets include the assets of any Benefit Plan Investor or Similar Law Plan, the inclusion of which for the purposes of ERISA or any Similar Law, as the case may be, would result in such entity being deemed a Benefit Plan Investor or Similar Law Plan, or (B) (i) such purchaser or transferee's acquisition, holding and disposition of such Note or Warrant or an interest therein does not and will not constitute a non-exempt prohibited transaction in violation of Section 406 of ERISA or Section 4975 of the Code as a result of satisfying all of the applicable conditions of one or more of the following exemptions: PTCE 84-14, PTCE 90-1, PTCE 91-38, PTCE 95-60 or PTCE 96-23, or such other prohibited transaction exemption for which the purchaser or transferee (and, if applicable, any person or entity acting on behalf of such purchaser or transferee) demonstrates to the satisfaction of the Issuer that all applicable conditions are satisfied (or, in the case of a governmental, church plan or non-U.S. plan, will not result in a violation of any Similar Law), and (ii) neither Issuer nor its affiliates has (A) provided any advice or recommendation with respect to the management of any interest in the Note or Warrant or the advisability of acquiring, holding, disposing or exchanging any interest in the Note or Warrant, (B) directed any such advice specifically to, or rendered any such advice based on the particular needs of, any purchaser or transferee, or (C) taken any other action with respect to the acquisition, holding, or disposition of the Note or Warrant that would make the Issuer or an affiliate a 'fiduciary' within the meaning of Section 3(21) of ERISA and Section 4975(e)(3) of the Code.

The sale of Notes and/or Warrants to a Plan or a Similar Law Plan is in no respect a representation by the Issuer or any of its affiliates that such an investment meets all relevant legal requirements with respect to investments by Plans or Similar Law Plans generally or any particular Plan or Similar Law Plan, or that such an investment is appropriate for a Plan or a Similar Law Plan generally or any particular Plan or Similar Law Plan.

In addition, the purchaser or transferee of a Note or Warrant may be required to deliver to the Issuer and the relevant dealers a letter, in the form available from the Issuer and dealers, containing certain representations, including those contained in the preceding paragraph.

The Pricing Supplement in relation to any Tranche may specify other terms and conditions which shall, to the extent so specified or to the extent inconsistent with the following terms and conditions, replace or modify the following terms and conditions for the purpose of such Tranche. Terms and conditions applicable to any Note in global form will differ from those terms and conditions which would apply to the Note were it in definitive form to the extent described under "Summary of Provisions Relating to the Notes while in Global Form" below.*

The Notes are issued by HSBC Bank plc (the "**Issuer**") pursuant to a programme for the issuance of notes and warrants (the "**Programme**") established by the Issuer, are constituted by, and have the benefit of, a deed of covenant dated on or about 10 June 2016 (the "**Deed of Covenant**"). The Notes also have the benefit of a master note issuance agreement dated 24 February 1999 as most recently modified, supplemented and/or restated on or about 10 June 2016 (as further modified and/or amended from time to time, the "**Master Note Issuance Agreement**") and made between the Issuer and HSBC Bank plc as dealer (the "**Dealer**", which expression shall include any successor Dealer) and an issuing and paying agency agreement dated 24 February 1999 as most recently modified, supplemented and/or restated on or about 10 June 2016 (as further modified and/or amended from time to time, the "**Issuing and Paying Agency Agreement**") and made between the Issuer, HSBC Bank plc and HSBC France as calculation agents (HSBC Bank plc or, as the case may be, HSBC France being the "**Calculation Agent**" with respect to the Notes if so specified in the relevant Pricing Supplement, which expression includes any successor or other Calculation Agent appointed pursuant to the Issuing and Paying Agency Agreement and specified in the relevant Pricing Supplement), HSBC Bank plc and HSBC Bank USA, National Association as transfer agent (HSBC Bank plc or, as the case may be, HSBC Bank USA, National Association being the "**Transfer Agent**", which expression shall include any successor or other Transfer Agent appointed pursuant to the Issuing and Paying Agency Agreement), HSBC Bank plc as the principal paying agent (HSBC Bank plc being the "**Principal Paying Agent**", which expression shall include any successor or other Principal Paying Agent appointed pursuant to the Issuing and Paying Agency Agreement and, together with any additional paying agent appointed pursuant to the Issuing and Paying Agency Agreement or the Computershare Agency Agreement (as defined below), as specified in the relevant Pricing Supplement, the "**Paying Agents**"), HSBC Bank plc as issue agent (HSBC Bank plc being the "**Issue Agent**", which expression shall include any successor or other Issue Agent appointed pursuant to the Issuing and Paying Agency Agreement) and HSBC Bank plc and HSBC Bank USA, National Association as registrar (HSBC Bank plc or, as the case may be, HSBC Bank USA, National Association being the "**Registrar**", which expression shall include any successor or other Registrar appointed pursuant to the Issuing and Paying Agency Agreement), and the other parties specified therein.

In addition, the Issuer has entered into an agreement with Computershare Investor Services PLC dated 23 April 2010 (such agreement, as amended and/or supplemented and/or restated from time to time, the "**Computershare Agency Agreement**") appointing the latter as registrar and paying agent (the "**CREST Registrar**", which expression shall include any successor registrar and paying agent) with respect to Uncertificated Registered Notes (as defined below).

All Notes will be issued in series (each, a "**Series**") and each Series may comprise one or more tranches (each, a "**Tranche**") of Notes issued on different issue dates. All transactions in relation to Uncertificated Registered Notes (including transfers of Uncertificated Registered Notes) in the open market or otherwise must be effected through an account at the Operator subject to and in accordance with the rules and procedures for the time being of the Operator.

No provision of these Conditions as amended in accordance with the relevant Pricing Supplement shall (notwithstanding anything contained therein) apply or have effect to the extent that it is in any respect inconsistent with (I) the holding of title to Uncertificated Registered Notes in uncertificated form, (II) the transfer of title to Uncertificated Registered Notes by means of a relevant system or (III) the Uncertificated Securities Regulations. Without prejudice to the generality of the preceding sentence and notwithstanding anything contained in these Conditions or the relevant Pricing Supplement, so long as the Uncertificated Registered Notes are participating securities, (A) the Operator register of corporate securities relating to the Uncertificated Registered Notes shall be maintained at all times in the United Kingdom, (B) the Uncertificated Registered Notes may be issued in uncertificated form in accordance with and subject as provided in the Uncertificated Securities Regulations, and (C) for the avoidance of doubt, the Conditions and the relevant Pricing Supplement in relation to any Uncertificated Registered Note shall remain applicable notwithstanding that they are not endorsed on any certificate for such Uncertificated Registered Note.

As used herein each of "**Operator register of corporate securities**", "**participating securities**", "**record of uncertificated corporate securities**" and "**relevant system**" is as defined in the Uncertificated Securities Regulations and the relevant Operator (as such term is used in the Uncertificated Securities Regulations) is CREST (or any additional or alternative operator from time to time approved by the Issuer and the CREST Registrar in relation to the Uncertificated Registered Notes and in accordance with the Uncertificated Securities Regulations). Any reference herein to the "**Operator**" shall, whenever the context so permits, be deemed to include a reference to any such additional or alternative Operator from time to time and notified to the holders of the Uncertificated Registered Notes in accordance with Condition 14 (*Notices*).

If at any time:

- (i) a Noteholder ceases for any reason to be a member of CREST; or
- (ii) the Uncertificated Registered Notes cease for any reason to be participating securities capable of being held in CREST,

Part B - Information relating to the Notes Generally – Terms and Conditions of the Notes

then the Issuer shall, in accordance with the rules and procedures governing CREST, ensure that Registered Notes are issued in exchange for the Uncertificated Registered Notes and that such Registered Notes are registered in such names as the Operator shall notify to the Issuer.

3. Status

- (a) The Notes are direct, unsecured and unsubordinated obligations of the Issuer and rank *pari passu* without any preference among themselves and, at their date of issue, (save for certain obligations required to be preferred by law) with all other unsecured and unsubordinated obligations of the Issuer for the time being outstanding.
- (b) The Notes do not create or transfer in favour of the Noteholder any legal, proprietary, beneficial or other interest in (including, without limitation, voting rights, as applicable) or right to acquire or dispose of any underlying (including, without limitation any reference asset or reference index) or any related purchase, sale, entry into or maintenance of one or more (i) positions or contracts in securities, funds, options, futures, other derivatives or foreign exchange, (ii) stock loan transactions or (iii) other instruments or arrangements (howsoever described) as determined in its absolute discretion by the Issuer or an affiliate in order to hedge, individually or on a portfolio basis, a Note ("**Hedging Positions**") and Noteholders shall have no legal, proprietary, beneficial or other interest in any underlying or Hedge Position by virtue of any investment in the Notes.
- (c) The Issuer is not required to hedge the Notes by holding any corresponding Hedging Positions in any underlying and has discretion to decide its hedging strategy.

4. Fixed Rate Note Provisions

(a) Application

This Condition 4 (*Fixed Rate Note Provisions*) is applicable to the Notes only if the Fixed Rate Note provisions are specified in the relevant Pricing Supplement as being applicable.

(b) Accrual of interest

Fixed Rate Notes bear interest from the Interest Commencement Date at the Rate of Interest payable in arrear on each Interest Payment Date, subject as provided in Condition 9 (*Payments*). Each Note will cease to bear interest from the due date for final redemption unless, upon due presentation, payment of the Final Redemption Amount or any other redemption amount, as the case may be, is improperly withheld or refused, in which case it will continue to bear interest in accordance with this Condition 4 (*Fixed Rate Note Provisions*) (as well after as before judgment) until whichever is the earlier of (i) the day on which all sums due in respect of such Note up to that day are received by or on behalf of the relevant Noteholder and (ii) the day which is seven days after the day the Calculation Agent has notified the Noteholders that it has received all sums due in respect of the Notes up to such seventh day (except to the extent that there is any subsequent default in payment, in which case the Notes will continue to bear interest as aforesaid).

(c) Fixed Coupon Amount

Only if Fixed Coupon Amount is specified in the relevant Pricing Supplement, the amount of interest payable in respect of each Note for any Interest Period shall be the relevant Fixed Coupon Amount and, if the Notes are in more than one denomination (as specified in the relevant Pricing Supplement), shall be the relevant Fixed Coupon Amount in respect of the relevant denomination.

(d) Calculation of interest amount

The amount of interest payable in respect of each Note for any period for which a Fixed Coupon Amount (the "**Variable Fixed Coupon Amount**") is not specified shall be calculated by applying the Rate of Interest to the Calculation Amount, multiplying the product by the relevant Day Count Fraction, rounding the resulting figure to the nearest sub-unit of the Settlement Currency (as defined in Condition 1 (*Definitions*)) (half a sub-unit being rounded upwards) and multiplying such rounded figure by a fraction equal to the denomination of such Note (as specified in the relevant Pricing Supplement) divided by the Calculation Amount. For this purpose a "**sub-unit**"

Part B - Information relating to the Notes Generally – Terms and Conditions of the Notes

means, in the case of any currency other than euro, the lowest amount of such currency that is available as legal tender in the country of such currency and, in the case of euro, means one cent.

5. Floating Rate Note, Index-Linked Interest Note and other variable-linked interest Note Provisions

(a) Application

This Condition 5 (*Floating Rate Note, Index-Linked Interest Note and other variable-linked interest Note Provisions*) is applicable to the Notes only if the Floating Rate Note provisions, the Index-Linked Interest Note provisions or other variable-linked interest Note provisions are specified in the relevant Pricing Supplement as being applicable.

(b) Accrual of interest

Floating Rate Notes bear interest from the Interest Commencement Date at the Rate of Interest payable in arrear on each Interest Payment Date, subject as provided in Condition 9 (*Payments*). Each Note will cease to bear interest from the due date for final redemption unless, upon due presentation, payment of the Final Redemption Amount or any other redemption amount, as the case may be, is improperly withheld or refused, in which case it will continue to bear interest in accordance with this Condition 5 (*Floating Rate Note, Index-Linked Interest Note and other variable-linked interest Note Provisions*) (as well after as before judgment) until whichever is the earlier of (i) the day on which all sums due in respect of such Note up to that day are received by or on behalf of the relevant Noteholder and (ii) the day which is seven days after the day the Calculation Agent has notified the Noteholders that it has received all sums due in respect of the Notes up to such seventh day (except to the extent that there is any subsequent default in payment, in which case the Notes will continue to bear interest as aforesaid).

(c) Screen Rate Determination

If Screen Rate Determination is specified in the relevant Pricing Supplement as the manner in which the Rate(s) of Interest is/are to be determined, the Rate of Interest applicable to the Notes for each Interest Period will be determined by the Calculation Agent on the following basis:

- (i) if the Reference Rate is a composite quotation or customarily supplied by one entity, the Calculation Agent will determine the Reference Rate which appears on the Relevant Screen Page as of the Relevant Time on the relevant Interest Determination Date;
- (ii) in any other case, the Calculation Agent will determine the arithmetic mean of the Reference Rates which appear on the Relevant Screen Page as of the Relevant Time on the relevant Interest Determination Date;
- (iii) if, in the case of (i) above, such rate does not appear on that page or, in the case of (ii) above, fewer than two such rates appear on that page or if, in either case, the Relevant Screen Page is unavailable, the Calculation Agent will:
 - (A) request the principal Relevant Financial Centre office of each of the Reference Banks to provide a quotation of the Reference Rate at approximately the Relevant Time on the Interest Determination Date to prime banks in the Relevant Financial Centre interbank market in an amount that is representative for a single transaction in that market at that time;
 - (B) determine the arithmetic mean of such quotations; and
- (iv) if fewer than two such quotations are provided as requested, the Calculation Agent will determine the arithmetic mean of the rates (being the nearest to the Reference Rate, as determined by the Calculation Agent) quoted by major banks in the principal financial centre of the Settlement Currency, selected by the Calculation Agent, at approximately 11.00 a.m. (local time in the principal financial centre of the Settlement Currency) on the first day of the relevant Interest Period for loans in the Settlement Currency to leading European banks for a period equal to the relevant Interest Period and in an amount that is representative for a single transaction in that market at that time,

Part B - Information relating to the Notes Generally – Terms and Conditions of the Notes

and the Rate of Interest for such Interest Period shall be the sum of the Margin and the rate or (as the case may be) the arithmetic mean so determined; **provided, however, that** if the Calculation Agent is unable to determine a rate or (as the case may be) an arithmetic mean in accordance with the above provisions in relation to any Interest Period, the Rate of Interest applicable to the Notes during such Interest Period will be the sum of the Margin and the rate or (as the case may be) the arithmetic mean last determined in relation to the Notes in respect of a preceding Interest Period.

(d) ***ISDA Determination***

If ISDA Determination is specified in the relevant Pricing Supplement as the manner in which the Rate(s) of Interest is/are to be determined, the Rate of Interest applicable to the Notes for each Interest Period will be the sum of the Margin and the relevant ISDA Rate where "**ISDA Rate**" in relation to any Interest Period means a rate equal to the Floating Rate (as defined in the ISDA Definitions) that would be determined by the Calculation Agent under an interest rate swap transaction if the Calculation Agent were acting as Calculation Agent for that interest rate swap transaction under the terms of an agreement incorporating the ISDA Definitions and under which:

- (i) the "**Floating Rate Option**" (as defined in the ISDA Definitions) is as specified in the relevant Pricing Supplement;
- (ii) the "**Designated Maturity**" (as defined in the ISDA Definitions) is a period specified in the relevant Pricing Supplement; and
- (iii) the relevant "**Reset Date**" (as defined in the ISDA Definitions) is either (A) if the relevant Floating Rate Option is based on LIBOR, the first day of that Interest Period or (B) in any other case, as specified in the relevant Pricing Supplement.

(e) ***Index-Linked Interest***

If the Index-Linked Interest Note provisions are specified in the relevant Pricing Supplement as being applicable, the Rate(s) of Interest applicable to the Notes for each Interest Period will be determined in the manner specified in the relevant Pricing Supplement.

(f) ***Maximum or Minimum Interest Rate***

If any Maximum Interest Rate or Minimum Interest Rate is specified in the relevant Pricing Supplement, then the Rate of Interest shall in no event be greater than the maximum or be less than the minimum so specified.

(g) ***Calculation of Interest Amount***

The Calculation Agent will, as soon as practicable after the time at which the Rate of Interest is to be determined in relation to each Interest Period, calculate the amount of interest (the "**Interest Amount**") payable in respect of each Note for such Interest Period. The Interest Amount will be calculated by applying the Rate of Interest for such Interest Period to the Calculation Amount, multiplying the product by the relevant Day Count Fraction, rounding the resulting figure to the nearest sub-unit of the Settlement Currency (half a sub-unit being rounded upwards) and multiplying such rounded figure by a fraction equal to the denomination of the relevant Note divided by the Calculation Amount. For this purpose a "**sub-unit**" means, in the case of any currency other than euro, the lowest amount of such currency that is available as legal tender in the country of such currency and, in the case of euro, means one cent.

(h) ***Calculation of other amounts***

If the relevant Pricing Supplement specifies that any other amount is to be calculated by the Calculation Agent, the Calculation Agent will, as soon as practicable after the time or times at which any such amount is to be determined, calculate the relevant amount. The relevant amount will be calculated by the Calculation Agent in the manner specified in the relevant Pricing Supplement.

Part B - Information relating to the Notes Generally – Terms and Conditions of the Notes

(i) **Publication**

The Calculation Agent will cause each Rate of Interest and Interest Amount determined by it, together with the relevant Interest Payment Date, and any other amount(s) required to be determined by it together with any relevant payment date(s), to be notified to the Paying Agents and each competent authority, stock exchange and/or quotation system (if any) by which the Notes have then been admitted to listing, trading and/or quotation as soon as practicable after such determination but (in the case of each Rate of Interest, Interest Amount and Interest Payment Date) in any event not later than the first day of the relevant Interest Period. Notice thereof shall also promptly be given to the Noteholders. The Calculation Agent will be entitled to recalculate any Interest Amount (on the basis of the foregoing provisions) without notice in the event of an extension or shortening of the relevant Interest Period. If the Calculation Amount is less than the minimum denomination, the Calculation Agent shall not be obliged to publish each Interest Amount but instead may publish only the Calculation Amount and the Interest Amount in respect of a Note having the minimum denomination.

(j) **Linear interpolation**

Where "**Linear Interpolation**" is specified as applicable in respect of an Interest Period in the relevant Pricing Supplement, the Rate of Interest for such Interest Period shall be calculated by the Calculation Agent by straight-line linear interpolation by reference to two rates based on the Relevant Screen Page, one of which shall be determined as if the Interest Period were the period for which rates are available next shorter than the length of the relevant Interest Period and the other of which shall be determined as if the Interest Period were the period for which rates are available next longer than the length of the relevant Interest Period; **provided, however, that** if there is no rate available for a period of time next shorter or, as the case may be, next longer, then the Calculation Agent shall determine such rate at such time and by reference to such sources as it determines appropriate.

(k) **Notifications etc.**

All notifications, opinions, determinations, certificates, calculations, quotations and decisions given, expressed, made or obtained for the purposes of this Condition 5 (*Floating Rate Note, Index-Linked Interest Note and other variable-linked interest Note Provisions*) by the Calculation Agent will (in the absence of manifest error) be binding on the Issuer, the Paying Agents, the Noteholders and the Couponholders and (subject as aforesaid) no liability to any such person will attach to the Calculation Agent in connection with the exercise or non-exercise by it of its powers, duties and discretions for such purposes.

6. **Zero Coupon Notes**

(i) This Condition 6 (*Zero Coupon Notes*) is applicable to the Notes only if the Zero Coupon Note provisions are specified in the relevant Pricing Supplement as being applicable.

(ii) If any amount payable in respect of a Zero Coupon Note is improperly withheld or refused, such an amount shall thereafter be an amount equal to the sum of:

(A) the Zero Coupon Note Reference Price; and

(B) the product of the Accrual Yield (compounded annually) being applied to the Zero Coupon Note Reference Price on the basis of the relevant Day Count Fraction as may be specified in the relevant Pricing Supplements for the purposes of this Condition 6 (*Zero Coupon Notes*) and Condition 7(e) (*Redemption and Purchase – Early Redemption of Zero Coupon Notes*) (or, if no such relevant Day Count Fraction is specified, a Day Count Fraction of 30E/360 shall apply) from (and including) the Issue Date to (but excluding) whichever is the earlier of (i) the day on which all sums due in respect of such Note up to that day are received by or on behalf of the relevant Noteholder and (ii) the day which is seven days after the Principal Paying Agent has notified the Noteholders that it has received all sums due in respect of the Notes up to such seventh day (except to the extent that there is any subsequent default in payment).

Part B - Information relating to the Notes Generally – Terms and Conditions of the Notes

7. Redemption and Purchase

(a) *At Maturity*

Unless previously redeemed or purchased and cancelled, and subject as otherwise set out in the relevant Pricing Supplement, each Note will be redeemed by the Issuer at an amount (the "**Final Redemption Amount**") as determined by the Calculation Agent in its sole and absolute discretion and as calculated in accordance with the formula or other means specified in the relevant Pricing Supplement, where applicable, in the relevant Settlement Currency on the date specified in the relevant Pricing Supplement as the scheduled date on which such Note is to be redeemed (the "**Maturity Date**") (or, in the case of Instalment Notes, in such number of instalments and in such amounts ("**Instalment Amounts**") as may be specified in, or determined in accordance with the provisions of, the relevant Pricing Supplement), in accordance with the provisions set out in the relevant Pricing Supplement.

(b) *Redemption for Taxation Reasons*

If the Issuer satisfies the Principal Paying Agent immediately prior to the giving of the notice referred to below that, in respect of a Series of Notes:

- (i) on a subsequent date for the payment of interest on such Series of Notes the Issuer would be required to pay any additional amounts in accordance with the provisions of Condition 8 (*Taxation*); or
- (ii) if the Issuer were to seek to redeem such Notes (for which purpose no regard shall be had to whether or not the Issuer would otherwise be entitled to redeem such Notes), the Issuer would (notwithstanding its having made such endeavours as the Principal Paying Agent shall determine, in its sole and absolute discretion, to be reasonable) be required to pay any additional amounts in accordance with the provisions of Condition 8 (*Taxation*);

the Issuer may, having given not less than 30 nor more than 45 days' notice (ending, in the case of Floating Rate Notes, on an Interest Payment Date) to the Noteholders in respect of such Series of Notes, redeem all, but not some only, of such Notes, at their Early Redemption Amount as determined by the Issuer in its sole and absolute discretion and calculated in accordance with the formula or other means specified in the relevant Pricing Supplement together with interest accrued and unpaid, if any, to the date fixed for redemption **provided that** no such notice of redemption shall be given earlier than 90 days (or in the case of Floating Rate Notes a number of days which is equal to the lesser of the aggregate of the number of days in the then current Interest Period plus 60 days and 90 days) prior to the earliest date on which the Issuer would be obliged to pay such additional amounts were a payment in respect of the Notes then due.

The Issuer may exercise such option in respect of any Note notwithstanding the prior exercise by the Holder thereof or the Issuer of their respective options to require the redemption of such Note under Condition 7(c) (*Redemption and Purchase – Redemption at the Option of the Issuer (Call Option)*) and 7(d) (*Redemption and Purchase – Redemption at the Option of the Noteholder (Put Option)*) respectively, below, if the due date for redemption under this Condition 7(b) (*Redemption and Purchase – Redemption for Taxation Reasons*) would occur prior to that under Condition 7(c) (*Redemption and Purchase – Redemption at the Option of the Issuer (Call Option)*) and 7(d) (*Redemption and Purchase – Redemption at the Option of the Noteholder (Put Option)*), respectively, but not otherwise and, in such circumstances, the exercise of the option under Condition 7(c) (*Redemption and Purchase – Redemption at the Option of the Issuer (Call Option)*) and 7(d) (*Redemption and Purchase – Redemption at the Option of the Noteholder (Put Option)*), respectively shall be rendered ineffective.

Subject only to the obligation of the Issuer to use such endeavours as aforesaid, it shall be sufficient to establish the circumstances required to be established pursuant to this Condition 7(b) (*Redemption and Purchase – Redemption for Taxation Reasons*) if the Issuer shall deliver to the Principal Paying Agent a certificate of an independent legal adviser or accountant satisfactory to the Principal Paying Agent to the effect either that such a circumstance does exist or that, upon a change in or amendment to the laws of the United Kingdom (including any regulations pursuant thereto), or in the interpretation or administration thereof, which at the date of such certificate is

Part B - Information relating to the Notes Generally – Terms and Conditions of the Notes

proposed and in the opinion of such legal adviser or accountant is reasonably expected to become effective on or prior to the date on which the relevant payment of principal or interest in respect of the Notes would otherwise be made, becoming so effective, such circumstances would exist.

(c) **Redemption at the Option of the Issuer (Call Option)**

Where the Notes are specified in the relevant Pricing Supplement as being redeemable at the option of the Issuer, the Issuer may at any time (in the case of Fixed Rate Notes or Zero Coupon Notes), on any Interest Payment Date (in the case of Floating Rate Notes) or otherwise as set out in the relevant Pricing Supplement, having given not less than 5 nor more than 30 days' notice (or such other notice period as may be specified in the relevant Pricing Supplement) to the Noteholders in accordance with Condition 14 (*Notices*) (which notice shall be irrevocable), redeem on the Optional Redemption Date (Call Option) all or some only of the Notes then outstanding on the Optional Redemption Date (Call Option) and at the Redemption Amount (Call Option) as determined by the Issuer in its sole and absolute discretion and as calculated in accordance with the formula or other means specified in the relevant Pricing Supplement, together with interest accrued but unpaid thereon to the date fixed for redemption.

If the Notes of a Series are to be redeemed in part only on any date in accordance with this paragraph (c):

- (i) in the case of Bearer Notes (other than a Note which is a Temporary Global Note or a Permanent Global Note), the Notes to be redeemed shall be drawn by lot in such European city as the Principal Paying Agent may specify, or identified in such other manner or in such other place as the Principal Paying Agent may approve and deem appropriate and fair, subject to the rules and procedures of Euroclear and/or Clearstream, Luxembourg (such redemption to be reflected in the records of Euroclear and Clearstream, Luxembourg as either a pool factor or a reduction in nominal amount, at their discretion); and
- (ii) in the case of Registered Notes, the Notes shall be redeemed (so far as may be practicable) *pro rata* to their principal amounts, **provided always that** the amount redeemed in respect of each Note shall be equal to the minimum denomination thereof or an appropriate multiple thereof,

subject always to compliance with all applicable laws and the requirements of each listing authority, stock exchange and/or quotation system (if any) by which the Notes have then been admitted to listing, trading and/or quotation.

Where a Minimum Redemption Amount (Call Option) and/or a Maximum Redemption Amount (Call Option) is specified in the relevant Pricing Supplement, the Redemption Amount (Call Option) shall not be less than the Minimum Redemption Amount and shall not be more than the Maximum Redemption Amount.

In the case of the redemption of part only of a Registered Note, a new Registered Note in respect of the unredeemed balance shall be issued in accordance with Condition 13 (*Replacement, Exchange and Transfer*) which shall apply as in the case of a transfer of Registered Notes as if such new Registered Note were in respect of the untransferred balance.

(d) **Redemption at the Option of the Noteholder (Put Option)**

Where the Notes are specified in the relevant Pricing Supplement as being redeemable at the option of Noteholders, then where a Noteholder has given not less than 15 nor more than 30 days' notice to the Issuer with a copy to the Issue Agent in accordance with Condition 14 (*Notices*), (which notices shall be irrevocable), the Issuer shall, following receipt of such notice from the Noteholder and confirmation from the Issue Agent that it has been duly notified, redeem on the Optional Redemption Date (Put Option), so many of the Notes in respect of which such Noteholder has exercised such option as are outstanding on the Optional Redemption Date (Put Option) and at the Redemption Amount (Put Option) as determined by the Issuer in its sole and absolute discretion as calculated in accordance with the formula or other means specified in the

Part B - Information relating to the Notes Generally – Terms and Conditions of the Notes

relevant Pricing Supplement, together with interest accrued but unpaid thereon to the date fixed for redemption.

Where a Minimum Redemption Amount (Put Option) and/or a Maximum Redemption Amount (Put Option) is specified in the relevant Pricing Supplement, the Redemption Amount (Put Option) shall not be less than the Minimum Redemption Amount (Put Option) and shall not be more than the Maximum Redemption Amount (Put Option).

In order for any such notice given by a Noteholder to be effective, the Noteholder shall, on or prior to the date on which such notice is given, deposit the Note or Notes in respect of which such notice is given (together, in the case of an interest-bearing Definitive Note, with any unmatured Coupons appertaining thereto) with, in the case of a Bearer Note, any Paying Agent, or, in the case of a Registered Note, the Registrar together with a duly completed redemption notice in the form which is available from the specified office of any of the Paying Agents or, as the case may be, the Registrar. The Holder of a Note may not exercise such option in respect of any Note which is the subject of an exercise by the Issuer of its option to redeem such Note under Condition 7(b) (*Redemption and Purchase - Redemption for Taxation Reasons*), 7(c) (*Redemption and Purchase - Redemption at the Option of the Issuer*) or Condition 7(f) (*Redemption and Purchase - Illegality*).

(e) *Early Redemption of Zero Coupon Notes*

(i) The redemption amount payable on redemption of a Zero Coupon Note at any time before the Maturity Date shall be an amount equal to the sum of:

- (A) the Zero Coupon Note Reference Price; and
- (B) the product of the Accrual Yield (compounded annually) being applied to the Zero Coupon Note Reference Price from (and including) the Issue Date to (but excluding) the date fixed for redemption or (as the case may be) the date upon which the Note becomes due and payable.

(ii) Where such calculation is to be made for a period which is not a whole number of years, the calculation in respect of the period of less than a full year shall be made on the basis of such Day Count Fraction as may be specified in the relevant Pricing Supplement for the purposes of Condition 6 (*Zero Coupon Notes*) and this Condition 7(e) (*Redemption and Purchase – Early Redemption of Zero Coupon Notes*) (or, if no such relevant Day Count Fraction is specified, a Day Count Fraction of 30E/360 shall apply).

(f) *Early Redemption for Illegality*

The Issuer shall have the right to terminate its obligations under the Notes, if the Calculation Agent shall have determined in its absolute discretion that the performance of such obligations under the Notes (or the Issuer's or the Issuer's designated affiliates' obligations under any hedging arrangements established in connection therewith) shall have become unlawful or impracticable in whole or in part, including, without limitation, as a result of compliance with any applicable present or future law, rule, regulation, judgment, order or directive or with any requirement or request of any governmental, administrative, legislative or judicial authority or power. In such circumstances the Issuer will pay to each Noteholder the Early Redemption Amount. Payment will be made in such manner as shall be notified to the Noteholders in accordance with Condition 14 (*Notices*).

(g) *Purchases*

Each of the Issuer and any person directly or indirectly connected with the Issuer may at any time purchase Notes at any price in the open market or otherwise, and such Notes may be held, reissued, resold or, provided such Notes are held by the Issuer, at the option of the Issuer deissued or cancelled.

Part B - Information relating to the Notes Generally – Terms and Conditions of the Notes

(h) **Cancellation**

All Notes which are redeemed pursuant to Condition 7(a) (*Redemption and Purchase – At Maturity*), 7(b) (*Redemption and Purchase – Redemption for Taxation Reasons*), 7(c) (*Redemption and Purchase – Redemption at the Option of the Issuer (Call Option)*), 7(d) (*Redemption and Purchase – Redemption at the Option of the Noteholder (Put Option)*) and 7(e) (*Redemption and Purchase – Early Redemption of Zero Coupon Notes*) shall, and all Notes purchased, pursuant to this Condition 7(h) (*Redemption and Purchase – Cancellation*) may, at the option of the Issuer, be cancelled forthwith (together with, in the case of Definitive Notes, all unmatured Coupons and unexchanged Talons attached thereto or surrendered therewith). All Notes redeemed or purchased and cancelled as aforesaid may not be re-issued or resold.

(i) **No Other Redemption Provisions**

The Issuer shall not be entitled to redeem the Notes otherwise than as provided in Condition 7(a) (*Redemption and Purchase – At Maturity*), 7(b) (*Redemption and Purchase – Redemption for Taxation Reasons*), 7(c) (*Redemption and Purchase – Redemption at the Option of the Issuer (Call Option)*), 7(d) (*Redemption and Purchase – Redemption at the Option of the Noteholder (Put Option)*), 7(e) (*Redemption and Purchase – Early Redemption of Zero Coupon Notes*) and 7(f) (*Redemption and Purchase – Early Redemption for Illegality*).

8. **Taxation**

All payments by the Issuer of principal and interest in respect of the Notes will be made without withholding or deduction for or on account of any taxes, duties, assessments or governmental charges of whatever nature, present or future, as are imposed or levied by or on behalf of the United Kingdom unless the Issuer is required by law to withhold or deduct any such taxes, duties, assessments or governmental charges.

In the event that the Issuer is so required by law to withhold or deduct, it will pay such additional amounts as may be necessary in order that the net amounts received by the Noteholders or Couponholders, as the case may be, after such withholding or deduction shall equal the respective amounts of principal and interest which would have been receivable in respect of the Notes and/or, as the case may be, Coupons, in the absence of such withholding or deduction, except that no such additional amounts shall be payable with respect to any Note or Coupon:

- (a) to, or to a third party on behalf of, a Holder of a Note or Coupon who is liable to such taxes, duties, assessments or governmental charges in respect of such Note or Coupon by reason of it having some connection with the United Kingdom or any other relevant jurisdiction, other than the mere holding of such Note or Coupon;
- (b) unless it is proved, in the case of Bearer Notes, to the satisfaction of the Principal Paying Agent or the Paying Agent to whom the same is presented, or, in the case of Registered Notes, to the satisfaction of the Registrar, that the Holder is unable to avoid such withholding or deduction by satisfying any statutory requirement or by making a declaration of non residence or other similar claim for exemption to the relevant tax authorities or by notifying (and/or presenting evidence of such notification to) any tax authorities of such payment of principal or interest or by presenting the relevant Note or Coupon at the specified office of another Paying Agent;
- (c) more than 30 days after the Relevant Date (defined below) except, in the case of Bearer Notes, to the extent that the Holder thereof would have been entitled to such additional amounts on presenting the same for payment on the last day of such period of 30 days;
- (d) in the case of Registered Notes, unless it is proved to the satisfaction of the Registrar that the Holder, immediately upon becoming the Holder, (i) was eligible for the benefits of a tax treaty with the United Kingdom or any other relevant jurisdiction that provides for a complete exemption from withholding taxes on payments under the Notes, or (ii) was otherwise entitled to a complete exemption from withholding taxes on payments under the Notes; or

Part B - Information relating to the Notes Generally – Terms and Conditions of the Notes

- (e) to, or to a third party on behalf of, a Holder who is not the sole beneficial owner of the Note or any Coupon, or a portion of either, or that is a fiduciary or partnership, but only to the extent that a beneficiary or settlor with respect to the fiduciary, a beneficial owner or member of the partnership would not have been entitled to the payment of an additional amount had the beneficiary, settlor, beneficial owner or member received directly its beneficial or distributive share of the payment.

As used herein, the "**Relevant Date**" means the date on which such payment first becomes due but, in the case of Bearer Notes, if the full amount of the money payable has not been received by the Principal Paying Agent or the Registrar, as the case may be, on or prior to such due date, it means the date on which, the full amount of such money having been so received, notice to that effect shall have been duly given to the relevant Holders in accordance with Condition 14 (*Notices*).

If the Issuer becomes resident for tax purposes in any taxing jurisdiction other than the United Kingdom, references in this Condition 8 (*Taxation*) to the United Kingdom shall be construed as references to the United Kingdom and/or such other jurisdiction.

Any reference in these Conditions to principal or interest or both in respect of the relevant Notes shall be deemed to include, as applicable:

- (i) any additional amounts which may be payable under this Condition 8 (*Taxation*);
- (ii) the principal amount payable on the relevant Notes on the Maturity Date;
- (iii) the principal amount payable on redemption of the relevant Notes prior to such Maturity Date; and
- (iv) any premium and any other amounts which may be payable under or in respect of the relevant Notes.

Notwithstanding any other provision in these Conditions, the Issuer shall be permitted to withhold or deduct any amounts required by the rules of U.S. Internal Revenue Code Sections 1471 through 1474 (or any amended or successor provisions), pursuant to any inter-governmental agreement, or implementing legislation adopted by another jurisdiction in connection with these provisions, or pursuant to any agreement with the U.S. Internal Revenue Service ("**FATCA withholding**"). The Issuer will have no obligation to pay additional amounts or otherwise indemnify a holder for any FATCA withholding deducted or withheld by the Issuer, a Paying Agent or any other party as a result of any person (other than an agent of the Issuer) not being entitled to receive payments free of FATCA withholding.

9. **Payments**

(a) ***Bearer Notes***

Payments of principal and interest (if any) in respect of Bearer Notes will (subject as provided below) be made against presentation and (save in the case of partial payment or payment of an Instalment Amount (other than the final Instalment Amount)) surrender of the relevant Note or, in the case of payments of interest, surrender of the relevant Coupon at the specified office of any Paying Agent outside the United States (subject to the next paragraph). No payments on Bearer Notes will be made by mail to an address in the United States or by transfer to an account maintained by the Holder in the United States.

Payments of amounts due in respect of interest on Bearer Notes and exchanges of Talons for Coupon sheets will not be made at the specified office of any Paying Agent in the United States or its possessions (as defined in the U.S. Internal Revenue Code of 1986, as amended (the "**Code**")) and Regulations thereunder) unless (a) payment in full of amounts due in respect of interest on such Notes when due or, as the case may be, the exchange of Talons at all the specified offices of the Paying Agents outside the United States is illegal or effectively precluded by exchange controls or other similar restrictions and (b) such payment or exchange is permitted by applicable United States law, in which case the Issuer shall forthwith appoint a further Paying Agent with a specified office in New York City.

Part B - Information relating to the Notes Generally – Terms and Conditions of the Notes

If the due date for payment of any amount due in respect of any Bearer Note is not both a Relevant Financial Centre Day and, if such Bearer Note is a Definitive Note or if the Pricing Supplement so specifies, a local banking day, then the Holder thereof will not be entitled to payment thereof until the next day which is such a day and no further payment on account of interest or otherwise shall be due in respect of such postponed payment unless there is a subsequent failure to pay in accordance with these Conditions in which event interest shall continue to accrue as provided in Condition 4 (*Fixed Rate Note Provisions*), 5 (*Floating Rate Note, Index-Linked Interest Note Provisions*) or 6 (*Zero Coupon Notes*), as appropriate.

Payment of Instalment Amounts (other than the final Instalment Amount) in respect of an Instalment Note which is a Definitive Note with Receipts will be made against presentation of the Note together with the relevant Receipt and surrender of such Receipt.

The Receipts are not and shall not in any circumstances be deemed to be documents of title and if separated from the Note to which they appertain will not represent any obligation of the Issuer. Accordingly, the presentation of a Note without the relative Receipt or the presentation of a Receipt without the Note to which it appertains shall not entitle the Holder to any payment in respect of the relevant Instalment Amount.

Upon the due date for redemption of any Definitive Note other than a Fixed Rate Note, all unmatured Coupons and Talons (if any) relating to such Definitive Note (whether or not attached) shall become void and no payment shall be made in respect of them.

Definitive Notes which are Fixed Rate Notes should be presented for payment with all unmatured Coupons appertaining thereto, failing which the face value of any missing unmatured Coupon (or, in the case of payment not being made in full, that portion of the amount of such missing unmatured Coupon which the sum of principal so paid bears to the total amount of principal due) will be deducted from the sum due for payment. Any amount of principal so deducted will be paid in the manner mentioned above against surrender of the relevant missing Coupon within a period of 10 years from the Relevant Date (as defined in Condition 8 (*Taxation*)) for the payment of such principal, whether or not such Coupon has become void pursuant to Condition 12 (*Prescription*) or, if later, five years from the date on which such Coupon would have become due.

Notwithstanding the above, if any Definitive Notes should be issued with a Maturity Date and an interest rate or rates such that, on the presentation for payment of any such Definitive Note without any unmatured Coupons attached thereto or surrendered therewith, the amount required to be deducted would be greater than the amount otherwise due for payment, then, upon the due date for redemption, such unmatured Coupons (whether or not attached) shall become void (and no payment shall be made in respect thereof) as shall be required so that the amount required to be deducted would not be greater than the amount otherwise due for payment. Where the application of the foregoing sentence requires some but not all of the unmatured Coupons relating to a Definitive Note to become void, the relevant Paying Agent shall, in its sole and absolute discretion, determine which unmatured Coupons are to become void, and shall select, in its sole and absolute discretion, for such purpose Coupons maturing on later dates in preference to Coupons maturing on earlier dates.

Upon any Definitive Notes becoming due and repayable prior to their Maturity Date, all unmatured Talons (if any) appertaining thereto will become void and no further Coupons will be issued in respect thereof.

In relation to Definitive Notes initially delivered with Talons attached thereto, on or after the due date for the payment of interest on which the final Coupon comprised in any Coupon sheet matures, the Talon comprised in the Coupon sheet may be surrendered at the specified office of any Paying Agent outside the United States (save as provided above) in exchange for a further Coupon sheet (including any appropriate further Talon), subject to the provisions of Condition 12 (*Prescription*) below. Each Talon shall, for the purpose of these Conditions, be deemed to mature on the due date for the payment of interest on which the final Coupon comprised in the relative Coupon sheet matures.

Part B - Information relating to the Notes Generally – Terms and Conditions of the Notes

If (otherwise than by reason of the application of the above) the due date for redemption of any Bearer Note is not the due date for the payment of a Coupon appertaining thereto, interest accrued in respect of such Note from and including the last preceding due date for the payment of a Coupon (or from the Issue Date or the Interest Commencement Date, as the case may be) will be paid only against surrender of such Bearer Note and all unmatured Coupons appertaining thereto.

(b) *Registered Notes*

Payment of the amount due on final redemption in respect of Registered Notes will be made against presentation and, save in the case of partial payment of any such amount, surrender of the relevant certificate at the specified office of the Registrar or of the Transfer Agent. If the due date for payment of the Final Redemption Amount or any other redemption amount, as the case may be, of any Registered Note is not both a Relevant Financial Centre Day and, if such Registered Note is not in global form or if the Pricing Supplement so specifies, a local banking day, then the Holder thereof will not be entitled to payment thereof until the next day which is such a day and no further payment on account of interest or otherwise shall be due in respect of such postponed payment unless there is a subsequent failure to pay in accordance with these Conditions in which event interest shall continue to accrue as provided in Condition 4 (*Fixed Rate Note Provisions*), Condition 5 (*Floating Rate Note, Index-Linked Interest Note Provisions*) or Condition 6 (*Zero Coupon Notes*), as appropriate.

Payment of amounts (whether principal, interest or otherwise) due (other than on final redemption) in respect of Registered Notes will be paid to the Holder thereof (or, in the case of joint Holders, the first-named) as appearing in the Register at the close of business (local time in the place of the specified office of the Registrar) on the fifteenth day prior to the due date for such payment (the "**Record Date**").

Payment will be made in the currency in which such amount is due either by cheque posted to the Noteholder's registered address (or, in the case of joint Holders, the first-named) not later than the relevant due date for payment unless prior to the relevant Record Date the Holder thereof (or, in the case of joint Holders, the first-named) has applied to the Registrar or to the Transfer Agent and the Registrar or, as the case may be, the Transfer Agent has acknowledged such application for payment to be made to a designated account denominated in the relevant Settlement Currency (as defined in Condition 1 (*Definitions*)), in each case as specified in Condition 9(c) (*Payments – Uncertificated Registered Notes*) below.

(c) *Uncertificated Registered Notes*

The Issuer shall pay or cause to be paid when due payments of principal and interest (if any) in respect of Uncertificated Registered Notes to the relevant Noteholder's cash memorandum account (as shown in the records of the Operator), such payment to be made in accordance with the rules of the Operator. Each of the persons shown in the Operator register of corporate securities as holder of a particular principal amount of Uncertificated Registered Notes must look solely to the settlement bank or institution at which its cash memorandum account is held for its share of each such payment so made by or on behalf of the Issuer.

(d) *General Provisions*

The following provisions apply to both Bearer Notes and Registered Notes (and do not apply to Uncertificated Registered Notes). Subject to Condition 9(e) (*Payments – Payment of Alternative Payment Currency Equivalent*), payments of amounts due (whether principal, interest or otherwise) in respect of Notes will be made in the relevant Settlement Currency either by cheque or, at the option of the payee, by transfer to an account in the relevant Settlement Currency specified by the payee other than, for payments in respect of Bearer Notes, any such account in the United States.

Payments and deliveries will be subject in all cases to any fiscal or other laws and regulations applicable thereto in the place of payment, but without prejudice to the provisions of Condition 8 (*Taxation*).

Part B - Information relating to the Notes Generally – Terms and Conditions of the Notes

Without prejudice to the generality of the foregoing, the Issuer reserves the right to require any person receiving payment of principal or, as the case may be, payment of interest with respect to any Note or Coupon to provide a Paying Agent with such certification or information as may be required to enable the Issuer or any parent or holding company of the Issuer or any subsidiary of any such parent or holding company to comply with the requirements of the US Federal Income Tax laws or such other laws as the Issuer or any such parent or holding company or subsidiary thereof may be required to comply with.

Any amount payable with respect to a Note shall be rounded to the nearest applicable sub-unit of the currency in which such amount is payable (one half of any such sub-unit being rounded upwards).

(e) ***Payment of Alternative Payment Currency Equivalent***

If "Payment of Alternative Payment Currency Equivalent" is specified as applicable in the relevant Pricing Supplement, then if by reason of a FX Disruption Event, a Clearing System Currency Eligibility Event or any other event specified in the relevant Pricing Supplement as an Additional Alternative Payment Currency Event, the Issuer is not able to satisfy payments in respect of the Notes when due in the Settlement Currency, the Issuer may, settle any such payment in U.S. dollars or any other currency specified as the Alternative Payment Currency in the relevant Pricing Supplement on the due date at the Alternative Payment Currency Equivalent of any such amount due.

All notifications, opinions, determinations, certificates, calculations, quotations and decisions given, expressed, made or obtained for the purposes of the provisions of this Condition 9(e) (*Payments – Payment of Alternative Payment Currency Equivalent*) by the Calculation Agent, will (in the absence of wilful default, bad faith or manifest error) be binding on the Issuer, the Agents and all Noteholders. By acceptance thereof, purchasers of the Notes will be deemed to have acknowledged and agreed and to have waived any and all actual or potential conflicts of interest that may arise as a result of the calculation of the Alternative Payment Currency Equivalent by the Calculation Agent.

(f) ***Price Source Disruption and FX Disruption***

If "Price Source Disruption" is specified as being applicable in the relevant Pricing Supplement, then, if on any day on which the Calculation Agent is required to determine a Relevant Rate (a "**Scheduled FX Fixing Day**"):

- (i) a Price Source Disruption occurs, (other than as a result of an Unscheduled Holiday) and no Alternative Payment Currency Exchange Rate Fall-Back provisions, Underlying Currency Pair Exchange Rate Fall-Back provisions and/or Conversion Rate Fall-Back provisions (as applicable) are specified in the relevant Pricing Supplement, then the Calculation Agent shall:
 - (A) determine the Relevant Rate by reference to the rate of exchange published by available recognised financial information vendors (as selected by the Calculation Agent acting in good faith and in a commercially reasonable manner) on the Scheduled FX Fixing Day (the "**Fallback Reference Price**"); or
 - (B) unless the Pricing Supplement specifies Dealer Poll as not applicable, in the event that the Calculation Agent is unable to determine a Fallback Reference Price in accordance with paragraph (A) above or the Calculation Agent determines in its sole and absolute discretion that the Fallback Reference Price so determined does not accurately represent the rate which the Calculation Agent determines (in its sole and absolute discretion) that the Issuer would be able to obtain in the general foreign exchange market, the Calculation Agent will on the Scheduled FX Fixing Day request four Reference Dealers to provide a quotation of their rate for the Relevant Rate on such day. If at least two quotations are provided, the Relevant Rate will be the arithmetic mean of such quotations; and

Part B - Information relating to the Notes Generally – Terms and Conditions of the Notes

- (C) if (i) the Pricing Supplement specifies Dealer Poll as not applicable and the Calculation Agent is unable to determine a Fallback Reference Price in accordance with paragraph (A) above or the Calculation Agent determines in its sole and absolute discretion that the Fallback Reference Price so determined does not accurately represent the rate which the Calculation Agent determines (in its sole and absolute discretion) that the Issuer would be able to obtain in the general foreign exchange market; (ii) the Calculation Agent determines, in its sole and absolute discretion, that the Relevant Rate determined in accordance with paragraph (B) above does not accurately represent the rate which the Calculation Agent determines (in its sole and absolute discretion) that the Issuer would be able to obtain in the general foreign exchange market; or (iii) fewer than 2 quotations are provided by Reference Dealers following the Calculation Agent's request pursuant to paragraph (B) above, the Calculation Agent will determine the Relevant Rate on the first succeeding Business Day on which the Price Source Disruption ceases to exist; **provided, however, that** if the Price Source Disruption continues for thirty consecutive calendar days (or such other number of calendar days as may be specified in the relevant Pricing Supplement) after the Scheduled FX Fixing Day (the "**FX Cut-off Date**"), the Calculation Agent shall determine its good faith estimate of the Relevant Rate on that FX Cut-off Date; or
- (ii) an Unscheduled Holiday occurs (whether or not a Price Source Disruption also occurs), the Scheduled FX Fixing Day for such Relevant Rate and all other Relevant Rates which have the same Scheduled FX Fixing Day shall be postponed to the first succeeding Relevant Currency Business Day; **provided, however that** in the event that the Scheduled FX Fixing Day is postponed as a result of the occurrence of an Unscheduled Holiday (a "**Postponed FX Fixing Day**"), and if the Postponed FX Fixing Day has not occurred on or before the thirtieth consecutive calendar day (or such other number of calendar days as may be specified in the relevant Pricing Supplement) after the Scheduled FX Fixing Day (any such period being a "**Deferral Period**"), then the next day after the Deferral Period that is or would have been a Relevant Currency Business Day but for an Unscheduled Holiday, shall be deemed to be the Postponed FX Fixing Day and the Calculation Agent, acting in a commercially reasonable manner, shall determine its good faith estimate of the Relevant Rate on that Postponed FX Fixing Day.

If at any time, a FX Disruption Event occurs, the Issuer, in its sole and absolute discretion, may elect to either:

- (i) having given not less than five days' notice to the Noteholders in accordance with Condition 14 (*Notices*), redeem all, but not some only, of the Notes at their Fair Market Value (and, if the FX Disruption Event occurs on a Scheduled FX Fixing Day on which there is a Price Source Disruption or Unscheduled Holiday, for the purposes of determining such Fair Market Value the Calculation Agent shall first determine any Relevant Rate in accordance with sub-paragraph (i) or (ii), as applicable, of Condition 9(f) (*Price Source Disruption and FX Disruption*)) on the date notified to the Noteholders; or
- (ii) instruct the Calculation Agent to make such adjustment(s) to the Conditions as it, acting in good faith and in a commercially reasonable manner, determines to be necessary or desirable to reflect or account for any market practice that develops in respect of the FX Disruption Event,

provided, however that in relation to (i) and (ii) above, if as a result of the FX Disruption Event the Issuer is not able to satisfy payments in respect of the Notes when due in the Settlement Currency, the Issuer may settle any such payment pursuant to the provisions of Condition 9(e) (*Payment of Alternative Payment Currency Equivalent*);

If a Scheduled FX Fixing Day is postponed in accordance with this Condition 9(f), any Related Payment Date will also be postponed, if needed, such that the Related Payment Date shall fall at least three (3) local banking days (or such other number of local banking days as may be specified in the applicable Pricing Supplement) following the postponed Scheduled FX Fixing Day or, if later, the FX Cut-off Date or Postponed FX Fixing Date, as applicable.

Part B - Information relating to the Notes Generally – Terms and Conditions of the Notes

(g) *LBMA Physical Settlement*

The following provisions apply where LBMA Physical Settlement is specified as being applicable in the relevant Pricing Supplement.

A. *LBMA Transfer Notice*

- (i) Each Noteholder shall, on or before 4:00 pm (London time) on the date falling 5 Conversion Rate Business Days or Underlying Currency Pair Business Days (as applicable) before the relevant Interest Payment Date, the Maturity Date or date of early redemption of the Notes (as applicable) (or such earlier date as the Issuer shall determine is necessary for the Issuer, the Paying Agents, the relevant Clearing System to perform their respective obligations hereunder and notify to the Paying Agents and the Noteholders accordingly) send to the relevant Clearing System, in accordance with its then applicable operating procedures, and copied to the Principal Paying Agent, an irrevocable notice (an "**LBMA Transfer Notice**") in the form from time to time approved by the Issuer, which must:
- (A) specify the name and address of the Noteholder;
 - (B) specify the number of Notes in respect of which he is the Noteholder;
 - (C) specify the number of the Noteholder's account at the relevant Clearing System, to be debited with such Notes;
 - (D) irrevocably instruct and authorise the relevant Clearing System, (1) to debit the Noteholder's account with such Notes on the relevant Interest Payment Date, the Maturity Date or the relevant early redemption date of the Notes (as applicable) and (2) that no further transfers of the Notes specified in the LBMA Transfer Notice may be made;
 - (E) contain a representation and warranty from the Noteholder to the effect that the Notes to which the LBMA Transfer Notice relates are free from all liens, charges, encumbrances and other third party rights;
 - (F) specify the number and account name of the account in London with a member of the LBMA where the relevant amount of interest, Final Redemption Amount, Early Redemption Amount and/or any other amount in respect of the Notes shall be credited;
 - (G) contain an irrevocable undertaking to pay the Transfer Expenses (if any) and an irrevocable instruction to the relevant Clearing System, to debit on or after the relevant Interest Payment Date, the Maturity Date or the relevant early redemption date of the Notes (as applicable) the cash or other account of the Noteholder with the relevant Clearing System, specified in the LBMA Transfer Notice with such Transfer Expenses; and
 - (H) authorise the production of the LBMA Transfer Notice in any applicable administrative or legal proceedings.
- (ii) An LBMA Transfer Notice, once delivered to the relevant Clearing System, shall be irrevocable and may not be withdrawn without the consent in writing of the Issuer. A Noteholder may not transfer any Note which is the subject of an LBMA Transfer Notice following delivery of such LBMA Transfer Notice to the relevant Clearing System. A LBMA Transfer Notice shall only be valid to the extent that the relevant Clearing System have not received conflicting prior instructions in respect of the Notes which are the subject of the LBMA Transfer Notice.
- (iii) Failure properly to complete and deliver a LBMA Transfer Notice may result in such notice being treated as null and void with the consequence set out in subparagraph (C). Any determination as to whether such notice has been properly completed and delivered as provided shall be made by the relevant Clearing System, after consultation with the

Part B - Information relating to the Notes Generally – Terms and Conditions of the Notes

Principal Paying Agent and shall be conclusive and binding on the Issuer and the Noteholder.

- (iv) The Principal Paying Agent shall promptly on the local banking day following receipt of a LBMA Transfer Notice send a copy thereof to the Issuer or such person as the Issuer may previously have specified.

B. *Delivery obligation*

Subject to the other provisions of this Condition 9(g), if the LBMA Physical Settlement provisions are specified in the relevant Pricing Supplement as being applicable, the Issuer shall discharge its obligation to deliver the relevant amount of interest, Final Redemption Amount, Early Redemption Amount and/or any other amount in respect of the Notes by crediting, or procuring the credit of, the same on the relevant Interest Payment Date, the Maturity Date or the date of early redemption of the Notes (as applicable) to the account in London with a member of the LBMA specified in the LBMA Transfer Notice of the relevant Noteholder.

C. *LBMA Physical Settlement Fallback Redemption Amount*

In the event that any Noteholder fails to deliver a valid LBMA Transfer Notice by 4:00 pm on the day falling 5 Conversion Rate Business Days or Underlying Currency Pair Business Days (as applicable) before the relevant Interest Payment Date, the Maturity Date or the date of early redemption of the Notes (as applicable) (or such earlier date as the Issuer shall determine is necessary for the Issuer, the Paying Agents, the relevant Clearing System to perform their respective obligations hereunder and notify to the Paying Agents and the Noteholders accordingly), the Calculation Agent shall determine the LBMA Physical Settlement Fallback Redemption Amount and the Issuer shall pay the LBMA Physical Settlement Fallback Redemption Amount in respect of each Note held by such Noteholder on the Maturity Date, the relevant Interest Payment Date or date of early redemption of the Notes.

D. *Disruption*

(i) *LBMA Physical Settlement Market Disruption Event*

If a LBMA Physical Settlement Market Disruption Event occurs or exists on any date on which the Conversion Rate or Underlying Currency Pair Exchange Rate (as applicable) is to be determined, the Conversion Rate or Underlying Currency Pair Exchange Rate (as applicable) shall be the rate determined by the Calculation Agent taking into consideration the latest available Conversion Rate or Underlying Currency Pair Exchange Rate (as applicable) as of a date on which no LBMA Physical Settlement Market Disruption Event occurred or existed and any other information which the Calculation Agent considers relevant.

(ii) *Settlement Disruption of LBMA Physical Settlement*

The Calculation Agent shall determine whether or not at any time a LBMA Physical Settlement Disruption Event has occurred and where it determines such an event has occurred and has prevented any delivery on the original day that but for such LBMA Physical Settlement Disruption Event would have been the relevant Interest Payment Date, the Maturity Date or the date of early redemption of the Notes (as applicable), then such date will be the first succeeding day on which the relevant delivery can take place unless a LBMA Physical Settlement Disruption Event prevents settlement on each of the ten (10) Business Days immediately following the original date that, but for the LBMA Physical Settlement Disruption Event, would have been the relevant Interest Payment Date, the Maturity Date or the date of early redemption of the Notes (as applicable). In that case, (a) if the relevant delivery can be effected in any other commercially reasonable manner, then the relevant Interest Payment Date, the Maturity Date or the date of early redemption of the Notes (as applicable) will be that tenth (10th) Business Day with delivery being effected in such manner, and (b) if such delivery cannot be effected in any

Part B - Information relating to the Notes Generally – Terms and Conditions of the Notes

other commercially reasonable manner, then the relevant Interest Payment Date, the Maturity Date or the date of early redemption of the Notes (as applicable) will be postponed until delivery can be effected in another commercially reasonable manner.

(h) **Conversion**

If Conversion provisions are specified as being applicable in the relevant Pricing Supplement in relation to any specified amount payable in respect of the Notes, the relevant amount payable in respect of the Notes will be determined in accordance with the relevant Conversion provisions specified in the relevant Pricing Supplement. Notwithstanding anything contained in these Conditions or the relevant Pricing Supplement, the currency of payment in respect of such amount shall be as determined in accordance with such Conversion provisions, such currency shall be deemed to be the Settlement Currency in respect of such payment and the "Settlement Currency Jurisdiction" specified in the relevant Pricing Supplement shall be deemed to be modified accordingly in relation to such amount.

10. **Redenomination**

(a) **General**

Where redenomination is specified in the relevant Pricing Supplement as being applicable, and in respect of Notes denominated in a National Currency Unit (as defined in Condition 1 (*Definitions*)), the Issuer may, without the consent of the Noteholders, upon giving at least 30 days' prior notice to the Noteholders in accordance with Condition 14 (*Notices*), designate a Redenomination Date.

With effect from the Redenomination Date:

- (i) each Note shall (unless already so provided by mandatory provisions of applicable law) be deemed to be redenominated into such amount of euro in the denomination of euro 0.01 with a principal amount for each Note equal to the principal amount of that Note in the Settlement Currency, converted into euro at the rate for the conversion of the relevant Settlement Currency into euro established by the Council of the European Union pursuant to the Treaty (including compliance with rules relating to rounding in accordance with EC regulations); **provided, however, that** if the Issuer determines, with the agreement of the Principal Paying Agent, then market practice in respect of the redenomination into euro 0.01 of internationally offered securities is different from that specified above, such provisions shall be deemed to be amended so as to comply with such market practice and the Issuer shall promptly notify the Noteholders, each listing authority, stock exchange and/or quotation system (if any) by which the Notes have then been admitted to listing, trading and/or quotation and the Paying Agents of such deemed amendments;
- (ii) if Notes are in definitive form:
 - (A) all unmatured Coupons denominated in the relevant Settlement Currency (whether or not attached to the Notes) will become void with effect from the date (the "**Euro Exchange Date**") on which the Issuer gives notice (the "**Euro Exchange Notice**") to the Noteholders that replacement Notes and Coupons denominated in euro are available for exchange (**provided that** such Notes and Coupons are available) and no payments will be made in respect thereof;
 - (B) the payment obligations contained in all Notes denominated in the Settlement Currency will become void on the Euro Exchange Date but all other obligations of the Issuer thereunder (including the obligation to exchange such Notes in accordance with this Condition 10(a)(ii) (*Redenomination – General*)) shall remain in full force and effect; and
 - (C) new Notes and Coupons denominated in euro will be issued in exchange for Notes and Coupons denominated in the relevant Settlement Currency in such manner as the Principal Paying Agent may specify and as shall be notified to the Noteholders in the Euro Exchange Notice;

Part B - Information relating to the Notes Generally – Terms and Conditions of the Notes

- (iii) all payments in respect of the Notes (other than, unless the Redenomination Date is on or after such date as the relevant Settlement Currency ceases to be a sub-division of the euro, payments of interest in respect of periods commencing before the Redenomination Date) will be made solely in euro, as though references in the Notes to the Settlement Currency were to euro. Such payments will be made in euro by credit or transfer to a euro account (or any other account to which euro may be credited or transferred) maintained by the payee with a bank in the principal financial centre of any member state of the European Union; and
- (iv) such other changes will be made to the terms and conditions of the Notes as the Issuer may decide, with the prior approval of the Principal Paying Agent, to conform such Notes to conventions then applicable to Notes denominated in euro. Any such other changes will not take effect until after it has been notified to the Noteholders in accordance with Condition 14 (*Notices*).

Neither the Issuer nor the Principal Paying Agent will be liable to any Noteholder or other person for any commissions, costs, losses or expenses in relation to or resulting from the credit or transfer of euro or any currency conversion or rounding effected in connection therewith.

(b) *Interest*

Following redenomination of the Notes pursuant to 10(a) (*Redenomination – General*):

- (i) where Notes are in definitive form, the amount of interest due in respect of the Notes will be calculated by reference to the aggregate principal amount of the Notes presented (or, as the case may be, in respect of which Coupons are presented) for payment by the relevant holder and the amount of such payment shall be rounded down to the nearest euro 0.01;
- (ii) in respect of Fixed Rate Notes where interest is payable annually, any interest required to be calculated for a period of less than one year in respect of the Notes shall be calculated on the basis of the actual number of days elapsed divided by 365 (or, if any of the days elapsed fall in a leap year, the sum of (a) the number of those days falling in a leap year divided by 366 and (b) the number of those days falling in a non-leap year divided by 365); **provided, however, that** if the Issuer determines, with the agreement of the Principal Paying Agent, that the market practice in respect of internationally offered euro denominated securities is different from that specified above, the above shall be deemed to be amended so as to comply with such market practice and the Issuer shall promptly notify the Noteholders, and each listing authority, stock exchange and/or quotation system (if any) by which the Notes have then been admitted to listing, trading and/or quotation and the Paying Agents of such deemed amendment;
- (iii) in respect of Fixed Rate Notes where interest is payable quarterly or semi-annually, the amount of interest payable in respect of each Note on any Interest Payment Date shall be calculated by applying the Rate of Interest to the principal amount of such Note, dividing the product by four or two (as the case may be) and rounding the figure down to the nearest euro 0.01. If interest is required to be calculated for any other period, it shall be calculated on the basis of the actual number of days elapsed divided by 365 (or, if any of the days elapsed fall in a leap year, the sum of (a) the number of those days falling in a leap year divided by 366 and (b) the number of those days falling in a non-leap year divided by 365); **provided, however, that** if the Issuer determines, with the agreement of the Principal Paying Agent, that the market practice in respect of internationally offered euro denominated securities is different from that specified above, the above shall be deemed to be amended so as to comply with such market practice and the Issuer shall promptly notify the Noteholders, and each listing authority, stock exchange and/or quotation system (if any) by which the Notes have then been admitted to listing, trading and/or quotation and the Paying Agents of such deemed amendment;
- (iv) in respect of Floating Rate Notes, the Interest Amount payable in respect of the Notes for each Interest Period will be calculated by applying the Rate of Interest for such Interest Period to the principal amount of such Note during the Interest Period, multiplying the

Part B - Information relating to the Notes Generally – Terms and Conditions of the Notes

product by the actual number of days in such Interest Period divided by 360 and rounding the resulting figure down to the nearest euro 0.01; and

- (v) in respect of Floating Rate Notes, the Rate of Interest for any subsequent Interest Period shall be determined by the Calculation Agent on the basis of provisions which it determines, in its sole and absolute discretion, reflect the market practice in respect of internationally offered euro denominated securities.

11. Events of Default

If any one or more of the following events (each an "**Event of Default**") shall occur and be continuing in relation to a Series of Notes:

- (a) there is a default for more than 14 days in the repayment of any principal due on the Notes of such Series or any of them or in the payment of any interest due in respect of the Notes of such Series or any of them, **provided that** it shall not be such a default to withhold or refuse any such payment (1) in order to comply with any fiscal or other law or regulation or with the order of any court of competent jurisdiction, in each case applicable to such payment or (2) in cases of doubt as to the validity or applicability of any such law, regulation or order, in accordance with advice given at any time during the said period of 14 days by independent legal advisers acceptable to the Principal Paying Agent as to such validity or applicability; or
- (b) an order is made or an effective resolution is passed for the winding up of the Issuer in England (otherwise than in connection with a scheme of reconstruction or amalgamation the terms of which shall previously have been approved in writing by an Extraordinary Resolution of the Holders of the relevant Series of Notes),

then any Noteholder may, by written notice to the Issuer, effective upon the date of receipt thereof by the Issuer (such date the "**Early Redemption Date**"), declare the Note held by the Holder to be forthwith due and payable whereupon the same shall become forthwith due and payable at the Early Redemption Amount, as specified in the relevant Pricing Supplement, together with interest accrued and unpaid until the date of its redemption, without presentment, demand, protest or other notice of any kind.

12. Prescription

Notes and Coupons will become void unless presented for payment within a period of 10 years and five years, respectively, from the Relevant Date (as defined in Condition 8 (*Taxation*)) in respect thereof. Any monies paid by the Issuer to the Principal Paying Agent for the payment of the principal or interest in respect of any Notes or Coupons and remaining unclaimed when such Notes or Coupons become void will then revert to the Issuer and all liability of the Principal Paying Agent with respect thereto will thereupon cease.

There shall not be included in any Coupon sheet issued in exchange for a Talon any Coupon the claim for payment in respect of which would be void pursuant to this Condition 12 (*Prescription*) or Condition 9 (*Payments*).

13. Replacement, Exchange and Transfer

Should any Note or Coupon be lost, stolen, mutilated, defaced or destroyed, it may be replaced at the specified office (in the case of a Bearer Note or Coupon) of the Issue Agent or (in the case of Registered Notes) of the Registrar or of the Transfer Agent upon payment by the claimant of such costs and expenses as may be incurred in connection therewith and on such terms as to evidence and indemnity as the Issuer may reasonably require. Mutilated or defaced Notes or Coupons must be surrendered before replacements will be issued.

Upon the terms and subject to the conditions set out in the Issuing and Paying Agency Agreement and the relevant Pricing Supplement, a Registered Note may be exchanged for a Registered Note or Notes of equal aggregate principal amount in such different authorised denominations as may be requested by the Noteholder by surrender of such Registered Note at the specified office of the Registrar or of the Transfer Agent, together with a written request for the exchange.

Part B - Information relating to the Notes Generally – Terms and Conditions of the Notes

Upon the terms and subject to the conditions set out in the Issuing and Paying Agency Agreement, a Registered Note, in definitive form, may be transferred in whole or in part only (**provided that** such part is, or is an appropriate multiple of, the minimum denomination set out in the Pricing Supplement) by the Holder or Holders surrendering the Registered Note for registration of transfer at the specified office of the Registrar or the Transfer Agent, duly endorsed by, or accompanied by a written instrument to transfer in form satisfactory to the Issuer and the Registrar or the Transfer Agent, duly executed by the Holder or Holders thereof or his or their attorney duly authorised in writing. A new Registered Note will be issued to the transferee and, in the case of a transfer of part only of a Registered Note, a new Registered Note in respect of the balance not transferred will be issued to the transferor.

If so set out in the relevant Pricing Supplement, the Holder of Bearer Notes may exchange the same for the same aggregate principal amount of Registered Notes upon the terms and subject to the conditions set forth in the Issuing and Paying Agency Agreement. In order to exchange a Bearer Note for a Registered Note, the Holder thereof shall surrender such Bearer Note at the specified office outside the United States of the Principal Paying Agent or of the Registrar or the Transfer Agent, together with a written request for the exchange. Each Bearer Note so surrendered must be accompanied by all unmatured Coupons appertaining thereto other than the Coupon in respect of the next payment of interest falling due after the exchange date (as defined below) where the exchange date would, but for the provisions of this paragraph, occur between the Record Date (as defined in Condition 9(b) (*Payments - Registered Notes*)) for such payment of interest and the date on which such payment of interest falls due.

Each new Registered Note to be issued upon the transfer of a Registered Note or the exchange of a Bearer Note for a Registered Note will, within three Relevant Banking Days of the transfer date or, as the case may be, the exchange date be available for delivery at the specified office of the Registrar or the Transfer Agent, or, at the option of the Holder requesting such exchange or transfer be mailed (by uninsured post at the risk of the Holder(s) entitled thereto) to such address(es) as may be specified by such Holder.

The costs and expenses of effecting any exchange or registration of transfer pursuant to the foregoing provisions, except for the expenses of delivery by other than regular mail or insurance charges that may be imposed in relation hereto, shall be borne by the Issuer.

The Registrar or the Transfer Agent, as the case may be, shall not be required to register the transfer or exchange of Registered Notes for a period of 15 days preceding the due date for any payment of principal or interest in respect of such Notes.

Part B - Information relating to the Notes Generally – Summary of Provisions Relating to the Notes While in Global Form

SUMMARY OF PROVISIONS RELATING TO THE NOTES WHILE IN GLOBAL FORM

Notes may, subject to all applicable legal and regulatory requirements, be issued in Tranches or Series comprising either Bearer Notes, Registered Notes or Uncertificated Registered Notes as specified in the relevant Pricing Supplement. No single Tranche or Series of Notes offered in reliance on Rule 144A may include Bearer Notes.

All Bearer Notes will be issued in either (i) new global note form (a "**New Global Note**" or "**NGN**"), as set out in Part A and Part B of Schedule 1 to the Issuing and Paying Agency Agreement or, (ii) if not intended to be issued in NGN form, will be issued in classic global note form (a "**Classic Global Note**" or "**CGN**"), as set out in Part A and Part B of Schedule 2 to the Issuing and Paying Agency Agreement, as specified in the relevant Pricing Supplement or in such other form as the relevant parties may agree.

The NGN form has been introduced to allow for the possibility of Notes being issued and held in a manner which will permit them to be recognised as eligible collateral for monetary policy of the central banking system for the euro (the "**Eurosystem**") and intra-day credit operations by the Eurosystem either upon issue or at any or all times during their life. However in any particular case such recognition will depend upon satisfaction of the Eurosystem eligibility criteria at the relevant time.

On 13 June 2006 the European Central Bank (the "**ECB**") announced that Notes in NGN form are in compliance with the "Standards for the use of EU securities settlement systems in ESCB credit operations" of the Eurosystem, **provided that** certain other criteria are fulfilled. At the same time the ECB also announced that arrangements for Notes in NGN form were to be offered by Euroclear and Clearstream, Luxembourg as of 30 June 2006 and that debt securities in global bearer form issued through Euroclear and Clearstream, Luxembourg after 31 December 2006 would only be eligible as collateral for Eurosystem operations if the NGN form was used.

Registered Notes may be issued under the new safekeeping structure (the "**New Safekeeping Structure**" or "**NSS**") or, if not intended to be issued under the NSS, will be issued under the classic safekeeping structure or such other structure as the relevant parties may agree.

Following the introduction of the NGN form in June 2006, the Eurosystem required the ICSDs to review the custody arrangements for international debt securities in global registered form. Further to this review, the NSS was introduced to allow for the possibility of Notes being issued and held in a manner which will permit them to be recognised as eligible collateral for monetary policy of the Eurosystem and intra-day credit operations by the Eurosystem either upon issue or at any or all times during their life. Each time that Bearer Notes are issued in NGN form or Registered Notes are issued under the NSS, the ICSDs shall be notified as to whether or not such Notes are to be held in a manner which will permit them to be recognised as eligible collateral for Eurosystem monetary policy and intra-day credit operations of the Eurosystem.

Part B - Information relating to the Notes Generally – Summary of Provisions Relating to the Notes While in Global Form

Regulation S Global Registered Notes

In the case of a Series or Tranche of Registered Notes offered and sold solely outside the United States (as defined in Regulation S) in reliance on Regulation S to non-US persons, such Series or Tranche of Registered Notes may be represented by a Global Registered Note without interest coupons (a "**Regulation S Global Registered Note**"), which will be deposited on or about the closing date (the "**Closing Date**") for the relevant Series or Tranche with the common depository for Euroclear and/or Clearstream, Luxembourg and registered in the name of a nominee for such common depository. Interests in any Regulation S Global Registered Note will be exchangeable (in circumstances described below under "*Exchange and Transfer of Global Registered Notes for Definitive Registered Notes*") for Definitive Registered Notes without any Rule 144A legend ("**Regulation S Definitive Registered Notes**").

Each Regulation S Global Registered Note will have an ISIN number and a CUSIP number.

Rule 144A Global Registered Notes

In the case of a Tranche of Registered Notes offered and sold solely within the United States or to US Persons (as defined in Regulation S) in reliance on Rule 144A, such Tranche of Registered Notes will be represented by a Global Registered Note without interest coupons (a "**Rule 144A Global Registered Note**"), which, will either be deposited on or about the Closing Date for the relevant Tranche with HSBC Bank USA, National Association as custodian (the "**Custodian**") for, and registered in the name of Cede & Co. as nominee for, DTC or will be deposited on or about such Closing Date with, and be registered in the names of the common depository for Euroclear and Clearstream, Luxembourg, as specified in the applicable Pricing Supplement. Interests in any Rule 144A Global Registered Note will be exchangeable (in the circumstances described below under "*Exchange and Transfer of Global Registered Notes for Definitive Registered Notes*") for Definitive Registered Notes bearing a Rule 144A legend ("**US Definitive Registered Notes**"). Rule 144A Global Registered Notes (and any US Definitive Registered Notes issued in exchange therefor) will be subject to certain restrictions on transfer contained in such Rule 144A legend appearing on the face of such Note as set out below under "*Transfer Restrictions*".

Each Rule 144A Global Registered Note will have an ISIN number and a CUSIP number.

Unrestricted and Restricted Global Registered Notes

In the case of a Tranche of Registered Notes offered and sold both pursuant to Regulation S and in reliance on Rule 144A such Tranche of Registered Notes will be represented by two Global Registered Notes, each without interest coupons (in the case of Registered Notes forming part of such Tranche which are sold pursuant to Regulation S, an "**Unrestricted Global Registered Note**" and, in the case of Registered Notes forming part of such Tranche which are sold in reliance on Rule 144A, a "**Restricted Global Registered Note**").

The Unrestricted Global Registered Note will be deposited on or about the issue date for the relevant Tranche with, and registered either in the name of the common depository for Euroclear and Clearstream, Luxembourg, or, in relation to Notes issued under the NSS, in the name of the common safekeeper (the "**Common Safekeeper**") (or its nominee). A beneficial interest in the Unrestricted Global Registered Note may at all times be held only through Euroclear and Clearstream, Luxembourg. The Restricted Global Registered Note will either be deposited on or about the issue date for the relevant Tranche with HSBC Bank USA, National Association as custodian for, and registered in the name of Cede & Co. as nominee for, DTC or will be deposited on or about such Closing Date with, and be registered in the names of HSBC Issuer Services Common Depository Nominee (UK) Limited as nominee for the common depository for Euroclear and Clearstream, Luxembourg. In the circumstances described below under "*Exchange and Transfer of Global Registered Notes for Definitive Registered Notes*", interests in any Unrestricted Global Registered Note will be exchangeable for Regulation S Definitive Registered Notes and interests in any Restricted Global Registered Note will be exchangeable for US Definitive Registered Notes and Regulation S Definitive Registered Notes. Restricted Global Registered Notes (and any US Definitive Registered Notes issued in exchange therefor) will be subject to certain restrictions on transfer contained in a legend appearing on the face of such Notes as set out below under "*Transfer Restrictions*".

Part B - Information relating to the Notes Generally – Summary of Provisions Relating to the Notes While in Global Form

Each Unrestricted Global Registered Note and each Restricted Global Registered Note will have an ISIN number and a CUSIP number.

Exchange of Interests in Unrestricted and Restricted Global Registered Notes; Transfers within and between DTC, Euroclear and Clearstream, Luxembourg

On or prior to the 40th day after the later of the commencement of the offering of the relevant Tranche and the issue date for that Tranche, a beneficial interest in the relevant Unrestricted Global Registered Note may be transferred to a person who wishes to take delivery of such beneficial interest through the relevant Restricted Global Registered Note only upon receipt by the Registrar (as defined in the Issuing and Paying Agency Agreement) of a written certification from the transferor (in the applicable form provided in the Issuing and Paying Agency Agreement) to the effect that such transfer is being made to a person who the transferor reasonably believes is a qualified institutional buyer within the meaning of Rule 144A, in a transaction meeting the requirements of Rule 144A and in accordance with any applicable securities laws of any state of the United States or any other relevant jurisdiction. After such 40th day, such certification requirements will no longer apply to such transfers, but such transfers will continue to be subject to the transfer restrictions contained in the legend appearing on the face of such Restricted Global Registered Note, as set out below under "*Transfer Restrictions*".

Beneficial interests in a Restricted Global Registered Note may be transferred to a person who wishes to take delivery of such beneficial interest through the relevant Unrestricted Global Registered Note, whether before, on or after such 40th day, only upon receipt by the Registrar of a written certification from the transferor (in the applicable form provided in the Issuing and Paying Agency Agreement) to the effect that such transfer is being made in accordance with Regulation S or Rule 144A under the Securities Act (if available) or to the Issuer or its affiliates.

Any beneficial interest in either the Restricted Global Registered Note or the Unrestricted Global Registered Note relating to any Series that is transferred to a person who takes delivery in the form of a beneficial interest in the other Global Registered Note relating to such Series will, upon transfer, cease to be a beneficial interest in such Global Registered Note and become a beneficial interest in the other Global Registered Note and, accordingly, will thereafter be subject to all transfer restrictions and other procedures applicable to a beneficial interest in such other Global Registered Note for as long as it remains such an interest.

Owner of Global Registered Notes and Payments

Subject to certain provisions of the Issuing and Paying Agency Agreement relating to directions, sanctions and consents of Holders of Registered Notes and to meetings of Holders of Notes, so long as DTC or its nominee or Euroclear, Clearstream, Luxembourg or the nominee of their common depository or the Common Safekeeper, as the case may be, is the registered owner or holder of a Global Registered Note, DTC, Euroclear, Clearstream, Luxembourg or such nominee, as the case may be, will be considered the sole owner or holder of the Notes represented by such Global Registered Note for all purposes under the Issuing and Paying Agency Agreement and the Notes. Payments of principal, interest and additional amounts, if any, pursuant to Condition 9 (*Payments*), on Global Registered Notes will be made to DTC, Euroclear, Clearstream, Luxembourg or such nominee thereof, or common service provider acting as agent for Euroclear and Clearstream, Luxembourg, as the case may be, or the registered holder thereof. None of the Issuer, the Registrar, or any Paying Agent or any affiliate of any of the above or any person by whom any of the above is controlled for the purposes of the Securities Act will have any responsibility or liability for any aspect of the records relating to or payments made on account of beneficial ownership interests in Global Registered Notes or for maintaining, supervising or reviewing any records relating to such beneficial ownership interests. Each such payment in respect of a Global Registered Note will be made to the person shown as the Holder thereof (or, in the case of joint Holders, the first-named) as appearing in the Register at the close of business (in the relevant clearing system) on the business day on which each clearing system for which the Global Registered Note is being held is open for business which is the business day of each such clearing system before the due date for such payment.

In the case of Rule 144A Global Registered Notes or Restricted Global Registered Notes held through DTC, beneficial interests in a Rule 144A Global Registered Note or a Restricted Global Registered Note will be exchangeable for US Definitive Registered Notes: (i) if DTC notifies the Issuer that it is no longer

willing or able to properly discharge its responsibilities as depositary with respect to the relevant Restricted Global Registered Note or ceases to be a clearing agency registered under the Exchange Act, or is at any time no longer eligible to act as such, and the Issuer is unable to locate a qualified successor within 90 days of receiving notice of such ineligibility on the part of such depositary; or (ii) if the Issuer, at its option, elects to terminate the book-entry system through DTC; or (iii) if an Event of Default occurs as set out in Condition 11 (*Events of Default*); or (iv) where the Issuer or any Paying Agent, by reason of any change in, or amendment to, the laws of the United Kingdom is or will be required to make any deduction or withholding from any payment under the Notes which would not be required if the Notes were in definitive form; or (v) unless otherwise provided in the Pricing Supplement, at the option of the Issuer, if the Issuer would suffer a material disadvantage in respect of the Notes as a result of a change in the laws or regulations (taxation or otherwise) of any jurisdiction which would not be suffered were the Notes in definitive form.

Beneficial interests in a Regulation S Global Registered Note or an Unrestricted Global Registered Note will be exchangeable, in whole but not in part, for Regulation S Definitive Registered Notes and, if held through Euroclear or Clearstream, Luxembourg, pursuant to the relevant Pricing Supplement, beneficial interests in a Rule 144A Global Registered Note or a Restricted Global Registered Note will be exchangeable for US Definitive Registered Notes: (i) if Euroclear or Clearstream, Luxembourg is closed for business for a continuous period of 14 days (other than by reason of legal holidays) or announces an intention permanently to cease business; or (ii) the Issuer, at its option, elects to terminate the book-entry system through Euroclear and Clearstream, Luxembourg; or (iii) the Notes become immediately repayable in accordance with Condition 11 (*Events of Default*); or (iv) where the Issuer or any Paying Agent, by reason of any change in, or amendment to, the laws of the United Kingdom, is or will be required to make any deduction or withholding from any payment under the Notes, which would not be required if the Notes were in definitive form; or (v) unless otherwise provided in the Pricing Supplement, at the option of the Issuer, if the Issuer would suffer a material disadvantage in respect of the Notes as a result of a change in the laws or regulations (taxation or otherwise) of any jurisdiction which would not be suffered were the Notes in definitive form.

In such circumstances, (a) the Registrar will be required to notify all Holders of interests in the relevant Global Registered Notes registered in the name of DTC or its nominee or Euroclear, Clearstream, Luxembourg or the nominee of their common depositary or the Common Safekeeper, as the case may be, of the availability of Definitive Registered Notes and (b) the Issuer will, at the cost of the Issuer, cause sufficient Regulation S Definitive Registered Notes and/or US Definitive Registered Notes, as the case may be, to be executed and delivered to the Registrar for completion, authentication and dispatch to the relevant Holders. A person having an interest in the relevant Global Registered Note must provide the Registrar with:

- (a) a written order containing instructions and such other information as the Issuer and the Registrar may require to complete, execute and deliver the relevant Definitive Registered Note; and
- (b) in the case of a Rule 144A Global Registered Note or a Restricted Global Registered Note only, a fully completed, signed certification substantially to the effect that the exchanging holder is not transferring its interest at the time of such exchange or, in the case of simultaneous sale pursuant to Rule 144A, a certification that the transfer is being made in compliance with the provisions of Rule 144A. US Definitive Registered Notes issued in exchange for a beneficial interest in a Rule 144A Global Registered Note or a Restricted Global Registered Note will bear the legends applicable to transfers pursuant to Rule 144A (as set out below under "*Transfer Restrictions*").

If an Unrestricted Global Registered Note relating to a Series or (if issued in Tranches) Tranche of Notes of which the Restricted Global Registered Note forms a part has, pursuant to its terms, been exchanged in whole, but not in part, for Regulation S Definitive Registered Notes, beneficial interests in the Restricted Global Registered Note may be transferred to a person who wishes to take delivery thereof in the form of a Regulation S Definitive Registered Note. Such Regulation S Definitive Registered Notes shall be registered in such name(s) as DTC, Euroclear or Clearstream, Luxembourg, as applicable, shall direct in writing.

Upon (i) notification to the Registrar by the Custodian (in the case of a Restricted Global Registered Note held in DTC) or the common depositary or Common Safekeeper for Euroclear and Clearstream, Luxembourg (in the case of a Restricted Global Registered Note held in Euroclear and Clearstream Luxembourg) that the appropriate debit entry has been made in the account of the relevant participant of

DTC and (ii) receipt by the Registrar of a certificate, in the form scheduled to the Issuing and Paying Agency Agreement, given by the transferee of the beneficial interest in the Restricted Global Registered Note and stating that the transfer of such interest has been made in compliance with the transfer restrictions applicable to the Notes, and pursuant to and in accordance with Regulation S under the Securities Act, the Issuer shall procure that the Registrar will (against presentation by DTC or HSBC Bank USA, National Association, as Custodian, or, (as the case may be) the common depositary (or HSBC Issuer Services Common Depositary Nominee (UK) Limited as its nominee) or the Common Safekeeper (or its nominee) of the Restricted Global Registered Note at the specified office of the Registrar or the Transfer Agent, all in accordance with the provisions of the Issuing and Paying Agency Agreement), decrease the aggregate principal amount of Notes registered in the name of the holder of, and represented by, the Restricted Global Registered Note and shall, without charge, procure, in exchange therefor, the delivery, within five Relevant Banking Days of the receipt by the Registrar of the Restricted Global Registered Note of the notification and certification referred to in paragraphs (i) and (ii) above, and registration information required to authenticate and deliver such Regulation S Definitive Registered Notes, of an equal aggregate principal amount of duly authenticated and completed Regulation S Definitive Registered Notes.

The holder of a Registered Note may transfer such Registered Note in accordance with the provisions of Condition 2 (*Form, Denomination and Title*) of the Conditions of the Notes.

The holder of a Definitive Registered Note may transfer such Note by surrendering it at the specified office of the Registrar or any Transfer Agent, together with the completed form of transfer thereon. Upon the transfer, exchange or replacement of US Definitive Registered Notes issued in exchange for beneficial interests in a Rule 144A Global Registered Note or a Restricted Global Registered Note bearing the legend as set out below under "*Transfer Restrictions*", or upon specific request for removal of the legend on a US Definitive Registered Note, the Issuer will only deliver US Definitive Registered Notes that bear such legend, or will refuse to remove such legend, as the case may be, unless there is delivered to the Issuer and the Registrar such satisfactory evidence, which may include an opinion of counsel, as may reasonably be required by the Issuer, that neither the legend nor the restriction on transfer set forth therein are required to ensure compliance with the provisions of the Securities Act.

The Registrar will not register the transfer of or exchange of interests in a Global Registered Note for Definitive Registered Notes for a period of 15 calendar days preceding the due date for any payment in respect of the Notes.

With respect to the registration of transfer of any US Definitive Registered Notes, the Registrar will register the transfer of any such US Definitive Registered Notes if the transferor, in the form of transfer on such US Definitive Registered Notes, has certified to the effect that such transfer is (i) to persons who the transferor reasonably believes to be qualified institutional buyers within the meaning of Rule 144A, in a transaction meeting the requirements of Rule 144A and in accordance with any applicable securities laws of any state of the United States or any other jurisdiction, (ii) in accordance with Regulation S, (iii) pursuant to an exemption from Rule 144 under the Securities Act (if available) or (iv) to the Issuer or its affiliates.

Regulation S Definitive Registered Notes may be exchangeable for or transferable to a person wanting to take delivery thereof in the form of interests in a Restricted Global Registered Note, and US Definitive Registered Notes may be transferable to a person wanting to take delivery thereof in the form of interests in an Unrestricted Global Registered Note, in each case, upon receipt by the Registrar of a duly completed certificate in the form of Schedule 7 to the Issuing and Paying Agency Agreement and in accordance with the requirements of the Issuing and Paying Agency Agreement.

Bearer Notes issued in accordance with TEFRA D will be represented upon issue by a temporary global note in bearer form without interest coupons (a "**Temporary Global Note**"). Bearer Notes issued in accordance with TEFRA C will be represented upon issue by a permanent global note in bearer form without interest coupons (a "**Permanent Global Note**") or by a Temporary Global Note. Each Temporary Global Note or, as the case may be, Permanent Global Note which is not intended to be issued in NGN form, as specified in the relevant Pricing Supplement, will be deposited on or around the issue date of the relevant Tranche of the Notes with a depositary or a common depositary for Euroclear Bank S.A./N.V. as operator of the Euroclear and/or Clearstream, Luxembourg and/or any other relevant clearing system. Each Temporary Global Note or, as the case may be, Permanent Global Note which is intended to be issued in NGN form, as specified in the relevant Pricing Supplement, will be deposited on or around the issue date of the relevant Tranche of the Notes with a common safekeeper for Euroclear and/or Clearstream, Luxembourg. Beneficial interests in a Temporary Global Note issued in accordance with TEFRA C will be exchangeable at any time and without any requirement for certification for Bearer Notes in definitive form ("**Definitive Bearer Notes**"), in accordance with the terms of such Temporary Global Note and as specified in the relevant Pricing Supplement. Interests in a Temporary Global Note issued in accordance with TEFRA D will be exchangeable either for Definitive Bearer Notes or for interests in a Permanent Global Note, on or after the date which is forty days after the date on which such Temporary Global Note is issued and upon certification as to non-U.S. beneficial ownership thereof or otherwise as required by U.S. Treasury Regulations, in accordance with the terms of such Temporary Global Note and as specified in the relevant Pricing Supplement.

For the purposes of complying with TEFRA D, Bearer Notes may not be offered or sold to a United States person. "**United States person**" means any person who is, for U.S. federal income tax purposes, (i) a citizen or resident of the United States, (ii) a corporation, partnership or other entity created or organised under the laws of the United States or any political subdivision thereof or therein or (iii) an estate or trust the income of which is subject to United States taxation regardless of its source.

**Part B - Information relating to the Notes Generally – Summary of Provisions Relating to the Notes
While in Global Form**

The forms of Temporary Global Note and Permanent Global Note (each, a "**Global Note**") will contain provisions applicable to the Notes represented thereby, some of which may modify the effect of the Conditions of the Notes. Certain of these are summarised in this section.

All payments, if any, in respect of Bearer Notes when represented by a Temporary Global Note or Permanent Global Note in CGN form or in NGN form, will be made against presentation and surrender or, as the case may be, presentation of the relevant Temporary Global Note or Permanent Global Note at the specified office of any of the Paying Agents. On each occasion on which a payment is so made, the Issuer shall procure that, in respect of a CGN, record of such payment is noted on a schedule to the relevant Global Note and, in respect of an NGN, the payment is entered *pro rata* in the records of Euroclear and Clearstream, Luxembourg.

In respect of Bearer Notes represented by Global Notes, each of the persons shown in the records of Euroclear and/or Clearstream, Luxembourg and/or any other relevant clearing system as being entitled to an interest in a Global Note (each an "**Accountholder**") must look solely to Euroclear and/or Clearstream, Luxembourg and/or such other relevant clearing system (as the case may be) for such Accountholder's share of each payment made by the Issuer to the bearer of such Global Note and in relation to all other rights arising under the Global Note. The extent to which, and the manner in which, Accountholders may exercise any rights arising under the Global Note will be determined by the respective rules and procedures of Euroclear and Clearstream, Luxembourg and any other relevant clearing system from time to time. For so long as the relevant Notes are represented by the Global Note, Accountholders shall have no claim directly against the Issuer in respect of payments due under the Notes.

The records of the relevant clearing systems which reflect the amount of Noteholders' interests in the Notes shall be conclusive evidence of the nominal amount of Notes represented by the Global Notes.

An exchange of a Temporary Global Note for Definitive Notes or, as the case may be, a Permanent Global Note will be made only on or after the Exchange Date (as set out in the relevant Pricing Supplement) and provided certification as to the beneficial ownership thereof as required by the US Treasury regulations (in substantially the form set out in the Temporary Global Note or in such other form as is customarily issued in such circumstances by the relevant clearing system or depository) has been received.

The bearer of any Temporary Global Note shall not (unless, upon due presentation of such Temporary Global Note for exchange (in whole or in part) for a Permanent Global Note or for delivery of Definitive Notes, such exchange or delivery is improperly withheld or refused and such withholding or refusal is continuing at the relevant payment date) be entitled to receive any payment in respect of the Notes represented by such Temporary Global Note which falls due on or after the Exchange Date or be entitled to exercise any option on a date after the Exchange Date.

If any date on which a payment of principal or interest is due on the Notes of a Tranche occurs whilst any of the Notes of that Tranche are represented by a Temporary Global Note, the related principal or interest payment will be made on the Temporary Global Note only to the extent that certification as to the beneficial ownership thereof as required by the US Treasury regulations (in substantially the form set out in the Temporary Global Note or in such other form as is customarily issued in such circumstances by the relevant clearing system or depository) has been received by Euroclear or Clearstream, Luxembourg or any other relevant clearing system or depository. Payments of amounts due in respect of a Permanent Global Note will be made through any of Euroclear or Clearstream, Luxembourg or any other relevant clearing system or depository without any requirement for certification.

Interests in a Permanent Global Note will be exchanged, at the cost and expense of the Issuer, by the Issuer in whole, for Definitive Notes (a) at the option of the holder of such Permanent Global Note, for Definitive Notes, (i) if the Notes of the relevant Series become immediately repayable in accordance with Condition 11 (*Events of Default*), or (ii) if any of Euroclear or Clearstream, Luxembourg or any other relevant clearing system or depository is closed for business for a continuous period of fourteen days (other than by reason of public holidays) or announces an intention to cease business permanently or in fact does so, or (b) at the option of the Issuer, (i) where the Issuer or any Paying Agent, by reason of any change in, or amendment to, the laws of the United Kingdom, is or will be required to make any deduction or withholding from any payment under the Notes, which would not be required if the Notes were in definitive form; or (ii) unless otherwise provided in the Pricing Supplement, at the option of the

While in Global Form**

Issuer, if the Issuer would suffer a material disadvantage in respect of the Notes as a result of a change in the laws or regulations (taxation or otherwise) of any jurisdiction which would not be suffered were the Notes in definitive form.

Where a Permanent Global Note is exchangeable for Definitive Notes, then such Notes shall be tradable only in principal amounts of at least the Denomination (or if there is more than one Denomination, the lowest Denomination).

The Issuer may, at any time in writing, waive or limit its right to exchange a Permanent Global Note for Definitive Notes in the circumstances described above, where the Issuer at its sole discretion considers such limitation or waiver to be desirable in respect of a particular Series of Notes.

Definitive Bearer Notes will, if interest-bearing and if so specified in the relevant Pricing Supplement, have Coupons and, if applicable, a talon for further Coupons attached. All Definitive Bearer Notes will, if the principal thereof is repayable by instalments, have endorsed thereon a grid for recording the payment of principal.

Following redenomination of the Notes pursuant to Condition 10 (*Redenomination*):

- (i) if Notes are required to be issued in definitive form, they shall be issued at the expense of the Issuer in the denominations of euro 0.01, euro 1,000, euro 10,000, euro 100,000 and such other denominations as the Principal Paying Agent shall determine and notify to the Noteholders; and
- (ii) the amount of interest due in respect of Notes represented by the Temporary Global Note and the Permanent Global Note will be calculated by reference to the aggregate principal amount of such Notes and the amount of such payment shall be rounded down to the nearest euro 0.01.

All notices to the Holders of Notes or the Coupons appertaining thereto will be valid, in the case of Notes in global form, if delivered to Euroclear and/or Clearstream, Luxembourg and/or any other relevant clearing system, depositary or common safekeeper (as may be agreed between the Issuer and the Dealer) for communication by them to the persons shown in their respective records as having interests therein; **provided that**, in each case, in the case of Notes that have been admitted to listing, trading and/or quotation by any listing authority, stock exchange and/or quotation system, the rules of such listing authority, stock exchange and/or quotation system have been complied with. Any such notice shall be deemed to have been given on the date of such delivery or, if the Notes are admitted to listing, trading and/or quotation and publication is required under the applicable rules of the relevant listing authority, stock exchange and/or quotation system, on the date of publication or, if published more than once, on the date of the first such publication (or, if required to be published in more than one newspaper, on the first date on which publication shall have been made in all the required newspapers).

Holders of any Coupons appertaining to Bearer Notes will be deemed for all purposes to have notice of the contents of any notice given to the Holders of such Bearer Notes in accordance herewith.

All transactions in relation to Uncertificated Registered Warrants (including transfers of Uncertificated Registered Warrants) in the open market or otherwise must be effected through an account at the Operator subject to and in accordance with the rules and procedures for the time being of the Operator.

No provision of these Conditions as amended in accordance with the applicable Pricing Supplement shall (notwithstanding anything contained therein) apply or have effect to the extent that it is in any respect inconsistent with (I) the holding of title to Uncertificated Registered Warrants in uncertificated form, (II) the transfer of title to Uncertificated Registered Warrants by means of a relevant system or (III) the Uncertificated Securities Regulations. - (ii) the Uncertificated Registered Warrants cease for any reason to be participating securities capable of being held in CREST,

then the Issuer shall, in accordance with the rules and procedures governing CREST, ensure that Registered Warrants are issued in exchange for the Uncertificated Registered Warrants and that such Registered Warrants are registered in such names as the Operator shall notify to the Issuer.

3. **Status of the Warrants**

For the avoidance of doubt, in relation to Physical Settlement, where the Settlement Disruption Event affects some but not all of the relevant underlying value to which the Warrants relate, the Settlement Date for such underlying value not affected by the Settlement Disruption Event will be the originally designated Settlement Date. In the event that a Settlement Disruption Event will result in the delivery on the Settlement Date of some but not all of the relevant underlying value to which the Warrants relate, the Calculation Agent shall determine the appropriate *pro rata* portion of the Transfer Expenses and/or Taxes to be paid by the relevant Warrantholder in respect of that partial settlement. In the event of an occurrence of a Settlement Disruption Event, the Calculation Agent shall give notice to the relevant Warrantholders as soon as reasonably practicable in accordance with Condition 11 (*Notices*). No Warrantholder shall be entitled to any payment in respect of the relevant Warrant in the event of any delay in the delivery of the relevant underlying value to which the Warrants relate due to the occurrence of a Settlement Disruption Event and no liability in respect thereof shall attach to the Issuer.

(k) ***Settlement within the United States***

- (A) in the case of Warrants specified in the relevant Pricing Supplement as being American Style Warrants, on any Business Day during the Exercise Period;
- (B) in the case of Warrants specified in the relevant Pricing Supplement as being European Style Warrants, on the Expiry Date, subject to Condition 4(b) ("*European Style Exercise*"); or
- (C) in the case of Warrants specified in the relevant Pricing Supplement as being Bermudan Style Warrants, on a Potential Exercise Date, and/or the Expiry Date, subject to Condition 4(c) ("*Bermudan Style Exercise*").

Subject to Condition 4(h) (*Warrants Void on Expiry*), any Exercise Notice delivered after 10.00 a.m. (local time in the place where the Clearing System through which such Warrants are exercised) shall (a) in the case of European Style Warrants and Bermudan Style Warrants, be null and void and (b) in the case of American Style Warrants, be deemed to have been delivered on the next succeeding Business Day.

Each Exercise Notice shall:

- (i) specify the name, address, telephone and facsimile details of the Warrantholder in respect of the Warrants being exercised;
- (ii) specify the number of Warrants of each Tranche being exercised (which must be not less than the Minimum Exercise Number (as defined in Condition 6) (*Minimum Number of Warrants Exercisable*));
- (iii) specify the number of the Warrantholder's account at the relevant Clearing System to be debited with the Warrants being exercised and irrevocably instruct, or, as the case may be, confirm that the Warrantholder has irrevocably instructed, the relevant Clearing System to debit the Warrantholder's account with the Warrants being exercised and to credit the same to the account of the Principal Warrant Agent;
- (iv) where applicable, specify the number of the Warrantholder's account at the relevant Clearing System to be credited with the Cash Settlement Amount for the Warrants being exercised; and
- (v) include an irrevocable undertaking to pay any applicable stamp duty, stamp duty reserve tax and/or other taxes or duties ("**Taxes**") and/or Transfer Expenses due by reason of the exercise of the Warrants and an authority to the Issuer and the relevant Clearing System to deduct an amount in respect thereof from any Cash Settlement Amount due to such Warrantholder or otherwise (on, or at any time after, the Cash Settlement Payment Date) to debit a specified account of the Warrantholder at the relevant Clearing System with an amount or amounts in respect thereof, all as provided in the Warrant Agency Agreement.

In addition, if in respect of the Warrants Physical Settlement is specified in the relevant Pricing Supplement as being applicable or if Condition 4(f) (*Optional Physical Settlement*) is specified in the relevant Pricing Supplement as being applicable, the Exercise Notice shall also:

- (aa) in the case of Warrants offered and sold in reliance on Regulation S, and to which Physical Settlement applies, either (a) certify that each person exercising such Warrants is not a US person, that such Warrants are not beneficially owned by or on behalf of US persons or persons within the United States, that such Warrants are not being exercised

within the US or by or on behalf of US persons or persons within the United States, and that no cash, securities, commodities or other property have been or will be delivered within the United States or to or for the account or benefit of a US person in connection with the exercise of the Warrants and authorise the production of such certification in applicable administrative or legal proceedings, or (b) be accompanied by a written opinion of counsel to the effect that the Warrant and the securities delivered upon exercise thereof have been registered under the U.S. Securities Act of 1933, as amended, or are exempt from registration thereunder (the terms "**United States**" and "**US person**" used in this paragraph having the meaning given to them in Regulation S);

- (bb) in the case of Warrants offered and sold in reliance on Rule 144A, and to which Physical Settlement applies, (a) certify that each person exercising such Warrants is either (1) a "**qualified institutional buyer**" (as defined in Rule 144A);) which is acquiring such securities for its own account and not with a view to the distribution thereof, in a transaction not involving a public offering, or (2) is not a US person, that such Warrants are not beneficially owned by or on behalf of US persons or persons within the United States, that such Warrants are not being exercised within the US or by or on behalf of US persons or persons within the United States, and that no cash, securities, commodities or other property have been or will be delivered within the United States or to or for the account or benefit of a US person in connection with the exercise of the Warrants and authorise the production of such certification in applicable administrative or legal proceedings, or (b) be accompanied by a written opinion of counsel to the effect that the Warrant and the securities delivered upon exercise thereof have been registered under the U.S. Securities Act of 1933, as amended, or are exempt from registration thereunder;
- (cc) irrevocably instruct the relevant Clearing System to debit on the Strike Price Payment Date a specified account of the Warrantholder with the aggregate Strike Price in respect of the Warrants being exercised (together with any applicable Taxes) and/or Transfer Expenses and to transfer such amount to such account as shall have been specified by the Issuer to the relevant Clearing System for that purpose;
- (dd) include an irrevocable undertaking to pay any applicable Taxes and/or Transfer Expenses due by reason of the transfer (if any) of the underlying value to which the Warrants relate to the account at the relevant Clearing System specified, or as otherwise specified, by the Warrantholder and an authority to the Issuer and the relevant Clearing System to debit a specified account of the Warrantholder with an amount in respect thereof; and
- (ee) specify the number of the Warrantholder's account with the relevant Clearing System to be credited with the relevant underlying value to which the Warrants relate or, as the case may be, the delivery details for such underlying value.

(b) ***Verification of Warrantholder***

To exercise Warrants, the Holder must duly complete an Exercise Notice and must have Warrants in the amount being exercised in its securities account with the relevant Clearing System on the Exercise Date. The relevant Clearing System will, in accordance with its normal operating procedures, verify that each person exercising such Warrants is the Holder thereof according to the records of such Clearing System and that such Holder has an account at the relevant Clearing System which contains an amount equal to the number of Warrants or, if applicable, the aggregate Strike Price in respect of the Warrants being exercised. If the Exercise Notice is, in the determination of the relevant Clearing System, improperly completed, or sufficient Warrants or sufficient funds equal the number of Warrants or, if applicable, to the aggregate Strike Price are not available in the specified account(s) with the relevant Clearing System on the Exercise Date, the Exercise Notice will be treated as null and void and a new duly completed Exercise Notice must be submitted if exercise of the Holder's Warrants is still desired.

On or prior to the Cash Settlement Payment Date or the Settlement Date, as the case may be, the relevant Clearing System will debit the Warrantholder's account with the Warrants being exercised.

(c) ***Notification to Principal Warrant Agent***

The relevant Clearing System shall notify the Principal Warrant Agent in writing (with a copy to the Issuer) not later than 11.00 a.m. (local time in the place where the Clearing System through which such Warrants are exercised is located) on the Business Day immediately following the Exercise Date of the number of the account with such Clearing System to which the Cash Settlement Amount or, in the case of Physical Settlement, the underlying value to which the relevant Warrants relate are to be credited for the benefit of the Warrantholder.

(d) ***Debit of Warrantholder's Account***

The relevant Clearing System will on or before the Cash Settlement Payment Date or the Settlement Date, as the case may be, debit the relevant account of the Warrantholder and credit the relevant account of the Principal Warrant Agent (in favour of the Issuer) with the Warrants being exercised and, if in respect of the Warrants, Physical Settlement is specified in the relevant Pricing Supplement as being applicable or if the Issuer has elected for optional Physical Settlement in accordance with Condition 4(f) (*Optional Physical Settlement*), with the aggregate Strike Price, in the case of a Call Warrant, or the relevant number or amount of the relevant underlying value to which the relevant Warrants relate, in the case of a Put Warrant, in respect of the Warrants being exercised together in each case with any applicable Taxes and/or Transfer Expenses. If in respect of the Warrants, Physical Settlement is specified in the relevant Pricing Supplement as being applicable or if the Issuer has elected for optional Physical Settlement in accordance with Condition 4(f) (*Optional Physical Settlement*) and the aggregate Strike Price, in the case of a Call Warrant, or the relevant number or amount of the relevant underlying value to which the relevant Warrants relate, in the case of a Put Warrant, in respect of the Warrants being exercised together in each case with any applicable Taxes and/or Transfer Expenses is not so credited, then the Issuer shall be under no obligation to transfer such underlying value or make payment of any nature to the relevant Warrantholder in respect of the Warrants being exercised, and the Exercise Notice delivered in respect of such Warrants shall thereafter be null and void for all purposes.

If Condition 4(f) (*Optional Physical Settlement*) or Condition 4(g) (*Optional Cash Settlement*) is specified in the relevant Pricing Supplement as being applicable, the Issuer will, by the close of business (London time) on the Business Day following the relevant Determination Date, notify the relevant Clearing System, the Principal Warrant Agent and the relevant Warrantholder, if it has elected for Cash Settlement or Physical Settlement, as the case may be. Notice to the relevant Warrantholder shall be given by facsimile to the number specified in the relevant Exercise Notice and any notice so sent shall be deemed received by the relevant Warrantholder.

(e) ***Payment***

In respect of Warrants which have been exercised, the Calculation Agent shall by close of business or such other time as is specified in the relevant Pricing Supplement on the date specified therefor in the relevant Pricing Supplement determine the Cash Settlement Amount (if any) to be paid on the relevant Cash Settlement Payment Date in respect of the relevant Warrants **provided that** the Calculation Agent has received notification from the relevant Clearing System specifying the number of Warrants which have been exercised in accordance with Condition 5(a) (*Exercise Notice*) and, shall notify the Issuer and the Principal Warrant Agent of such amounts on the Business Day following the date so specified.

Unless, in respect of the Warrants, Physical Settlement is specified in the relevant Pricing Supplement as being applicable and the Issuer has not elected for optional Cash Settlement in accordance with Condition 4(g) (*Optional Cash Settlement*) or the Issuer has elected for optional Physical Settlement in accordance with Condition 4(f) (*Optional Physical Settlement*), the Issuer will transfer to the Principal Warrant Agent the Cash Settlement Amount in respect of the Warrants being exercised, less any amount in respect of Taxes and/or Transfer Expenses which the Issuer is authorised to deduct therefrom, for value on the Cash Settlement Payment Date, and the Principal Warrant Agent will cause the Warrantholder's account with the relevant Clearing System to be credited with such amount for value on the Cash Settlement Payment Date.

If, however, in respect of the Warrants, Physical Settlement is specified in the relevant Pricing Supplement as being applicable (and the Issuer has not elected for optional Cash Settlement in accordance with Condition 4(g) (*Optional Cash Settlement*)) or if the Issuer elects for optional Physical Settlement in accordance with Condition 4(f) (*Optional Physical Settlement*), then:

- (i) in the case of a Call Warrant, subject to the debit of the relevant account of the Warrantholder with the Strike Price and any applicable Taxes and/or Transfer Expenses and the credit thereof to the relevant account of the Principal Warrant Agent (in favour of the Issuer) as aforesaid, the Issuer will, on the relevant Settlement Date, procure the credit of the relevant Securities to the account specified, or as may otherwise be specified, in the relevant Exercise Notice; and
- (ii) in the case of a Put Warrant, the Issuer will, on the Settlement Date in respect of such Warrant, procure the transfer for value to the Principal Warrant Agent of the Strike Price in respect of the Warrant being exercised, less any amount in respect of Taxes and/or Transfer Expenses which the Issuer is authorised to deduct therefrom, and the Principal Warrant Agent will, on the relevant Settlement Date, procure the credit of the relevant Strike Price to the account specified, or as may otherwise be specified, in the relevant Exercise Notice.

The Issuer shall pay or cause to be paid when due payments in respect of Uncertificated Registered Warrants to the relevant Warrantholder's cash memorandum account (as shown in the records of the Operator), such payment to be made in accordance with the rules of the Operator. Each of the persons shown in the Operator register of corporate securities as holder of a particular principal amount of Uncertificated Registered Warrants must look solely to the settlement bank or institution at which its cash memorandum account is held for its share of each such payment so made by or on behalf of the Issuer.

(f) ***Payment of Alternative Payment Currency Equivalent***

If "Payment of Alternative Payment Currency Equivalent" is specified as applicable in the relevant Pricing Supplement, then if by reason of a FX Disruption Event, a Clearing System Currency Eligibility Event or any other event specified in the relevant Pricing Supplement as an Additional Alternative Payment Currency Event, the Issuer is not able to satisfy any payment in respect of the Warrants when due in the Settlement Currency, the Issuer may settle any such payment in U.S. dollars or any other currency specified as the Alternative Payment Currency in the relevant Pricing Supplement on the due date at the Alternative Payment Currency Equivalent of any such amount due.

All notifications, opinions, determinations, certificates, calculations, quotations and decisions given, expressed, made or obtained for the purposes of the provisions of this Condition 5(f) (*Payments – Payment of Alternative Payment Currency Equivalent*) by the Calculation Agent, will (in the absence of wilful default, bad faith or manifest error) be binding on the Issuer, the Warrant Agents and all Warrantholders. By acceptance thereof, purchasers of the Warrants will be deemed to have acknowledged and agreed and to have waived any and all actual or potential conflicts of interest that may arise as a result of the calculation of the Alternative Payment Currency Equivalent by the Calculation Agent.

(g) ***Price Source Disruption and FX Disruption***

If "Price Source Disruption" is specified as being applicable in the relevant Pricing Supplement, then, if on any day on which the Calculation Agent is required to determine a Relevant Rate (a "**Scheduled FX Fixing Day**"):

- (i) a Price Source Disruption occurs, (other than as a result of an Unscheduled Holiday) and no Alternative Payment Currency Exchange Rate Fall-Back provisions or Underlying Currency Pair Exchange Rate Fall-Back provisions, as applicable, are specified in the relevant Pricing Supplement, then the Calculation Agent shall:
 - (A) determine the Relevant Rate by reference to the rate of exchange published by available recognised financial information vendors (as selected by the

Calculation Agent acting in good faith and in a commercially reasonable manner) on the Scheduled FX Fixing Day (the “**Fall-Back Reference Price**”); or

- (B) unless the Pricing Supplement specifies Dealer Poll as not applicable, in the event that the Calculation Agent is unable to determine a Fall-Back Reference Price in accordance with paragraph (A) above or the Calculation Agent determines in its sole and absolute discretion that the Fall-Back Reference Price so determined does not accurately represent the rate which the Calculation Agent determines (in its sole and absolute discretion) that the Issuer would be able to obtain in the general foreign exchange market, the Calculation Agent will on the Scheduled FX Fixing Day request four Reference Dealers to provide a quotation of their rate for the Relevant Rate on such day. If at least two quotations are provided, the Relevant Rate will be the arithmetic mean of such quotations; and
- (C) if (i) the Pricing Supplement specifies Dealer Poll as not applicable and the Calculation Agent is unable to determine a Fall-Back Reference Price in accordance with paragraph (A) above or the Calculation Agent determines in its sole and absolute discretion that the Fall-Back Reference Price so determined does not accurately represent the rate which the Calculation Agent determines (in its sole and absolute discretion) that the Issuer would be able to obtain in the general foreign exchange market; (ii) the Calculation Agent determines, in its sole and absolute discretion, that the Relevant Rate determined in accordance with paragraph (B) above does not accurately represent the rate which the Calculation Agent determines (in its sole and absolute discretion) that the Issuer would be able to obtain in the general foreign exchange market; or (iii) fewer than 2 quotations are provided by Reference Dealers following the Calculation Agent’s request pursuant to paragraph (B) above, the Calculation Agent will determine the Relevant Rate on the first succeeding Business Day on which the Price Source Disruption ceases to exist; **provided, however, that** if the Price Source Disruption continues for thirty consecutive calendar days (or such other number of calendar days as may be specified in the relevant Pricing Supplement) after the Scheduled FX Fixing Day (the “**FX Cut-off Date**”, the Calculation Agent shall determine its good faith estimate of the Relevant Rate on that FX Cut-off Date; or
- (ii) an Unscheduled Holiday occurs (whether or not a Price Source Disruption also occurs), the Scheduled FX Fixing Day for such Relevant Rate and all other Relevant Rates which have the same Scheduled FX Fixing Day shall be postponed to the first succeeding Relevant Currency Business Day; **provided, however that** in the event that the Scheduled FX Fixing Day is postponed as a result of the occurrence of an Unscheduled Holiday (a “**Postponed FX Fixing Day**”), and if the Postponed FX Fixing Day has not occurred on or before the thirtieth consecutive calendar day (or such other number of calendar days as may be specified in the relevant Pricing Supplement) after the Scheduled FX Fixing Day (any such period being a “**Deferral Period**”), then the next day after the Deferral Period that is or would have been a Relevant Currency Business Day but for an Unscheduled Holiday, shall be deemed to be the Postponed FX Fixing Day and the Calculation Agent, acting in a commercially reasonable manner, shall determine its good faith estimate of the Relevant Rate on that Postponed FX Fixing Day.

If at any time, a FX Disruption Event occurs, the Issuer, in its sole and absolute discretion, may elect to either:

- (i) having given not less than five days’ notice to the Warrantholders in accordance with Condition 11 (*Notices*), terminate all, but not some only, of the Warrants at their Fair Market Value (and, if the FX Disruption Event occurs on a Scheduled FX Fixing Day on which there is a Price Source Disruption or Unscheduled Holiday, for the purposes of determining such Fair Market Value the Calculation Agent shall first determine any Relevant Rate in accordance with sub-paragraph (i) or (ii), as applicable, of Condition

5(g) (*Price Source Disruption and FX Disruption*)) on the date notified to the Warrantholders; or

- (ii) instruct the Calculation Agent to make such adjustment(s) to the Conditions as it, acting in good faith and in a commercially reasonable manner, determines to be necessary or desirable to reflect or account for any market practice that develops in respect of the FX Disruption Event,

provided, however that in relation to (i) and (ii) above, if as a result of the FX Disruption Event the Issuer is not able to satisfy payments in respect of the Warrants when due in the Settlement Currency, the Issuer may settle any such payment pursuant to the provisions of Condition 5(f) (*Payment of Alternative Payment Currency Equivalent*);

(h) ***Exercise Risk***

Exercise of the Warrants, payment by the Issuer and the Principal Warrant Agent and any transfer of the underlying value to which the Warrants relate by the Issuer or the Principal Warrant Agent, will be subject in all cases to all applicable fiscal and other laws, regulations and practices in force at the relevant time (including, without limitation, any relevant exchange control laws or regulations and the rules and procedures of the relevant Clearing System) and neither the Issuer nor the Principal Warrant Agent shall incur any liability whatsoever if it is unable to effect the transactions contemplated, after using all reasonable efforts, as a result of any such laws, regulations and practices. Neither the Issuer nor the Principal Warrant Agent shall under any circumstances be liable for any acts or defaults of any Clearing System in the performance of its duties in relation to the Warrants.

(i) ***Determinations***

Any determination as to whether an Exercise Notice is duly completed and in proper form shall be made by the relevant Clearing System, in consultation with the Principal Warrant Agent, and shall be conclusive and binding on the Issuer, the Warrant Agents and the relevant Warrantholder. Any Exercise Notice so determined to be incomplete or not in proper form or which is not copied to the Principal Warrant Agent immediately after being sent to the relevant Clearing System, shall be null and void. If such Exercise Notice is subsequently corrected to the satisfaction of the relevant Clearing System, it shall be deemed to be a new Exercise Notice submitted at the time such correction is delivered to the relevant Clearing System.

(j) ***Effect of Exercise Notice***

Delivery of an Exercise Notice shall constitute an irrevocable election and undertaking by the Warrantholder to exercise the Warrants specified therein, **provided that** the person exercising and delivering such Exercise Notice is the person then appearing in the books of the relevant Clearing System as the Holder of the relevant Warrants. If the person exercising and delivering the Exercise Notice is not the person so appearing, such Exercise Notice shall for all purposes become null and void and shall be deemed not to have been so delivered.

After the delivery of an Exercise Notice (other than an Exercise Notice which shall become void pursuant to Condition 5(a) (*Exercise Notice*)), the Warrantholder specified in such Exercise Notice may not otherwise transfer such Warrants. Notwithstanding this, if any Warrantholder does so transfer or attempt to transfer such Warrants, the Warrantholder will be liable to the Issuer for any losses, costs and expenses suffered or incurred by the Issuer including those suffered or incurred as a consequence of it having terminated any related hedging operations in reliance on the relevant Exercise Notice and subsequently (i) entering into replacement hedging operations in respect of such Warrants or (ii) paying any amount on the subsequent exercise of such Warrants without having entered into any replacement hedging operations.

(k) ***Fractions***

No fraction of any underlying value to which the relevant Warrants relate will be transferred on exercise of any Warrant pursuant to Conditions 4(e) (*Physical Settlement*) or 4(f) (*Optional Physical Settlement*), **provided that** all Warrants exercised at the same time by the same

Warrantholder shall be aggregated for the purpose of determining whether any (and if so what) fraction of any such underlying value arises. Instead the Issuer shall make a cash refund of the corresponding fraction (rounded down to the nearest minimum unit of the Settlement Currency) of the aggregate Strike Price in respect of the relevant Warrants. Such refund shall be made by transfer by the Issuer to the account of the Principal Warrant Agent whereupon the Principal Warrant Agent shall transfer such amount to the account at the relevant Clearing System specified in the relevant Exercise Notice as the account to be credited with the relevant Cash Settlement Amount or, if none, then to the relevant Clearing System for credit by it to the account of the relevant Warrantholder with that Clearing System from which the Strike Price was originally debited.

(l) ***LBMA Physical Settlement***

The following provisions apply where LBMA Physical Settlement is specified as being applicable in the relevant Pricing Supplement.

A. ***LBMA Transfer Notice***

- (i) Each Warrantholder shall, on or before 4:00 pm (London time) on the date falling 5 Underlying Currency Pair Business Days (as applicable) before the relevant Cash Settlement Payment Date (or such earlier date as the Issuer shall determine is necessary for the Issuer, the Warrant Agents, the relevant Clearing System to perform their respective obligations hereunder and notify to the Warrant Agents and the Warrantholders accordingly) send to the relevant Clearing System, in accordance with its then applicable operating procedures, and copied to the Principal Warrant Agent, an irrevocable notice (an "**LBMA Transfer Notice**") in the form from time to time approved by the Issuer, which must:
- (A) specify the name and address of the Warrantholder;
 - (B) specify the number of Warrants in respect of which he is the Warrantholder;
 - (C) specify the number of the Warrantholder's account at the relevant Clearing System, to be debited with such Warrants;
 - (D) irrevocably instruct and authorise the relevant Clearing System, (1) to debit the Warrantholder's account with such Warrants on the relevant Cash Settlement Payment Date and (2) that no further transfers of the Warrants specified in the LBMA Transfer Notice may be made;
 - (E) contain a representation and warranty from the Warrantholder to the effect that the Warrants to which the LBMA Transfer Notice relates are free from all liens, charges, encumbrances and other third party rights;
 - (F) specify the number and account name of the account in London with a member of the LBMA where the relevant amount of Cash Settlement Amount and/or any other amount in respect of the Warrants shall be credited;
 - (G) contain an irrevocable undertaking to pay the Transfer Expenses (if any) and an irrevocable instruction to the relevant Clearing System, to debit on or after the relevant Cash Settlement Payment Date the cash or other account of the Warrantholder with the relevant Clearing System, specified in the LBMA Transfer Notice with such Transfer Expenses; and
 - (H) authorise the production of the LBMA Transfer Notice in any applicable administrative or legal proceedings.
- (ii) A LBMA Transfer Notice, once delivered to the relevant Clearing System, shall be irrevocable and may not be withdrawn without the consent in writing of the Issuer. A Warrantholder may not transfer any Warrant which is the subject of a LBMA Transfer Notice following delivery of such LBMA Transfer Notice to the relevant Clearing System. A LBMA Transfer Notice shall only be valid to the extent that the relevant

Clearing System have not received conflicting prior instructions in respect of the Warrants which are the subject of the LBMA Transfer Notice.

- (iii) Failure properly to complete and deliver a LBMA Transfer Notice may result in such notice being treated as null and void with the consequence set out in subparagraph (C). Any determination as to whether such notice has been properly completed and delivered as provided shall be made by the relevant Clearing System, after consultation with the Principal Warrant Agent and shall be conclusive and binding on the Issuer and the Warrantholder.
- (iv) The Principal Warrant Agent shall promptly on the local banking day following receipt of a LBMA Transfer Notice send a copy thereof to the Issuer or such person as the Issuer may previously have specified.

B. *Delivery obligation*

Subject to the other provisions of this Condition 5(1), if the LBMA Physical Settlement provisions are specified in the relevant Pricing Supplement as being applicable, the Issuer shall discharge its obligation to deliver the relevant amount of Cash Settlement Amount and/or any other amount in respect of the Warrants by crediting, or procuring the credit of, the same on the relevant Cash Settlement Payment Date of the Warrants to the account in London with a member of the LBMA specified in the LBMA Transfer Notice of the relevant Warrantholder.

C. *LBMA Physical Settlement Fall-Back Settlement Amount*

In the event that any Warrantholder fails to deliver a valid LBMA Transfer Notice by 4:00 pm on the day falling 5 Underlying Currency Pair Business Days (as applicable) before the relevant Cash Settlement Payment Date (or such earlier date as the Issuer shall determine is necessary for the Issuer, the Paying Agents, the relevant Clearing System to perform their respective obligations hereunder and notify to the Warrant Agents and the Warrantholders accordingly), the Calculation Agent shall determine the LBMA Physical Settlement Fall-Back Settlement Amount and the Issuer shall pay the LBMA Physical Settlement Fall-Back Settlement Amount in respect of each Warrant held by such Warrantholder on the Cash Settlement Payment Date of the Warrants.

D. *Disruption*

(i) *LBMA Physical Settlement Market Disruption Event*

If a LBMA Physical Settlement Market Disruption Event occurs or exists on any date on which the Underlying Currency Pair Exchange Rate is to be determined, the Underlying Currency Pair Exchange Rate shall be the rate determined by the Calculation Agent taking into consideration the latest available Underlying Currency Pair Exchange Rate as of a date on which no LBMA Physical Settlement Market Disruption Event occurred or existed and any other information which the Calculation Agent considers relevant.

(ii) *Settlement Disruption of LBMA Physical Settlement*

The Calculation Agent shall determine whether or not at any time a LBMA Physical Settlement Disruption Event has occurred and where it determines such an event has occurred and has prevented any delivery on the original day that but for such LBMA Physical Settlement Disruption Event would have been the relevant Cash Settlement Payment Date of the Warrants then such date will be the first succeeding day on which the relevant delivery can take place unless a LBMA Physical Settlement Disruption Event prevents settlement on each of the ten (10) Business Days immediately following the original date that, but for the LBMA Physical Settlement Disruption Event, would have been the relevant Cash Settlement Payment Date. In that case, (a) if the relevant delivery can be effected in any other commercially reasonable manner, then the relevant Cash Settlement Payment Date will be that tenth (10th) Business Day with delivery being effected in such manner, and (b) if such delivery cannot be effected in any other

commercially reasonable manner, then the relevant Cash Settlement Payment Date will be postponed until delivery can be effected in another commercially reasonable manner.

6. **Minimum Number of Warrants Exercisable**

The Warrants are exercisable in the minimum number (the "**Minimum Exercise Number**") specified in the relevant Pricing Supplement and integral multiples thereof (or, if a "**Permitted Multiple**" is specified in the relevant Pricing Supplement, integral multiples of the Permitted Multiple) on any particular occasion or such lesser Minimum Exercise Number or other Permitted Multiple as the Issuer may from time to time notify to the Warrantholders in accordance with Condition 11 (*Notices*).

7. **Effects of European Economic and Monetary Union**

- (a) Following the occurrence of an EMU Event (as defined below), the Calculation Agent may make such adjustment (and determine the effective date of such adjustment) as it, in its sole and absolute discretion, determines appropriate, if any, to the Strike Price (if any), the formula for the Cash Settlement Amount, the Final Price, the number of Securities to which each Warrant relates, the number of securities comprised in a Security Basket Warrant, the amount, the number of or type of shares, bonds, other securities or other property which may be delivered in respect of such Warrants and/or any other adjustment and, in any case, any other variable relevant to the exercise, settlement or payment terms of the relevant Warrants which in the sole and absolute discretion of the Calculation Agent have been or may be affected by such EMU Event.
- (b) Following the occurrence of an EMU Event, without prejudice to the generality of the foregoing, the Issuer shall be entitled to: (i) make such conversions between amounts denominated in the National Currency Units of the member states of the European Union that have adopted the single currency in accordance with the Treaty and the euro, and the euro and the National Currency Units, in each case, in accordance with the conversation rates and rounding rules established by the council of the European Union pursuant to the Treaty as it, in its sole and absolute discretion, considers appropriate; (ii) make all payments in respect of the Warrants solely in euro as though references in the Warrants to the relevant National Currency Units were to euro and (iii) make such adjustments as it, in its sole and absolute discretion considers necessary to the Strike Price (if any), the formula for the Cash Settlement Amount, Final Price and any other amount as it determines, in its sole and absolute discretion, to be appropriate.
- (c) None of the Issuer, a Warrant Agent or the Calculation Agent will be liable to any Warrantholder or other person for any commissions, costs, losses or expenses in relation to or resulting from any currency conversion or rounding effected in connection therewith.
- (d) For the purposes hereof, "**EMU Event**" means the occurrence of any of the following, as determined by the Calculation Agent, acting in a commercially reasonable manner:
 - (i) the withdrawal from legal tender of any currency that, before the introduction of the euro, was lawful currency in one of the member states;
 - (ii) the redenomination of any Security into euro;
 - (iii) any change in the currency of denomination of any index;
 - (iv) any change in the currency in which some or all the securities or other property contained in any index is denominated;
 - (v) the disappearance or replacement of a relevant rate option or other price source for the national currency of any member state, or the failure of the agreed sponsor (or successor sponsor) to publish or display a relevant rate, index, price, page or screen; or
 - (vi) the change by any organised market, exchange or clearance, payment or settlement system in the unit of account of its operating procedures to the euro.

8. **Warrant Agents and Calculation Agent**

(a) ***Appointment of Agents***

The Issuer reserves the right at any time to vary or terminate the appointment of the Principal Warrant Agent or the Calculation Agent or the Authentication Agent or the Warrant Registrar or the Warrant Transfer Agent and to appoint another Principal Warrant Agent or a substitute Calculation Agent or a substitute Authentication Agent or a substitute Warrant Registrar or a substitute Warrant Transfer Agent, **provided that** so long as any Warrant is outstanding, the Issuer will maintain a Principal Warrant Agent and a Calculation Agent and an Authentication Agent. Notice of any termination of appointment and of any change in the specified office of the Principal Warrant Agent or a Calculation Agent or an Authentication Agent or a Warrant Registrar or a Warrant Transfer Agent and of any appointment of a Warrant Agent or a Calculation Agent or an Authentication Agent or a Warrant Registrar or a Warrant Transfer Agent will be given to Warrantheolders in accordance with Condition 11 (*Notices*). In acting under the Warrant Agency Agreement, the Principal Warrant Agent acts solely as agent of the Issuer and does not assume any obligation or duty to, or any relationship of agency or trust for or with, the Warrantheolders.

(b) ***Calculation Agent***

The Calculation Agent shall not act as an agent for the Warrantheolders but shall be the agent of the Issuer. All calculation functions required of the Calculation Agent under these Conditions may be delegated to any such person as the Calculation Agent, in its absolute discretion, may decide.

Neither the Issuer nor the Calculation Agent shall have any responsibility for any errors or omissions in the calculation and dissemination of any variables used in any calculation made pursuant to these Conditions or in the calculation or determination of any Cash Settlement Amount or of any entitlement to Physical Settlement.

(c) ***Notifications***

All notifications, opinions, determinations, certificates, calculations, quotations and decisions given, expressed, made or obtained for the purposes of the Warrants by the Principal Warrant Agent or the Calculation Agent shall (in the absence of manifest error or wilful misconduct) be binding on the Issuer and the Warrantheolders and (subject as aforesaid) no liability to the Warrantheolders (or any of them) shall attach to the Principal Warrant Agent or the Calculation Agent in connection with the exercise or non-exercise by either of them of their powers, duties and discretions for such purposes.

(d) All calculations and determinations made by the Calculation Agent pursuant to the Conditions for the purposes of the Warrants shall be made in good faith.

9. **Taxes**

All payments by the Issuer in respect of the Warrants will be made without withholding or deduction for or on account of any taxes, duties, assessments or governmental charges of whatever nature, present or future, as are imposed or levied by or on behalf of the United Kingdom unless the Issuer is required by law to withhold or deduct any such taxes, duties, assessments or governmental charges.

In the event that the Issuer is so required by law to withhold or deduct, it shall not be obliged to pay any additional amounts to the Warrantheolders.

A Warrantheolder subscribing for, purchasing or exercising Warrants shall be responsible for paying all Taxes and securities transfer taxes and any other charges, if any, payable in connection with the subscription, purchase or exercise of such Warrants and the Issuer shall not be liable for or otherwise obliged to pay any tax, duty, withholding or other payment which may arise as a result of the ownership, transfer or exercise of any Warrants.

In any case where the Issuer is obliged to pay any such tax, duty or charge, the relevant Warrantheolder shall promptly reimburse the Issuer therefor.

If the Issuer becomes resident for tax purposes in any taxing jurisdiction other than the United Kingdom, references in this Condition 9 (*Taxes*) to the United Kingdom shall be construed as references to the United Kingdom and/or such other jurisdiction.

Notwithstanding any other provision in these Conditions, the Issuer shall be permitted to withhold or deduct any amounts required by the rules of U.S. Internal Revenue Code Sections 1471 through 1474 (or any amended or successor provisions), pursuant to any inter governmental agreement, or implementing legislation adopted by another jurisdiction in connection with these provisions, or pursuant to any agreement with the U.S. Internal Revenue Service ("**FATCA withholding**"). The Issuer will have no obligation to pay additional amounts or otherwise indemnify a holder for any FATCA withholding deducted or withheld by the Issuer, a Paying Agent or any other party as a result of any person (other than an agent of the Issuer) not being entitled to receive payments free of FATCA withholding.

10. **Illegality**

The Issuer shall have the right to terminate its obligations under the Warrants, if the Calculation Agent shall have determined in its absolute discretion, that the performance of such obligations under the Warrants (or the Issuer's designated affiliates' obligations under any hedging or funding arrangement established in connection therewith) shall have become unlawful or impracticable in whole or in part, including, without limitation, as a result of compliance with any applicable present or future law, rule, regulation, judgment, order or directive or with any requirement or request of any governmental, administrative, legislative or judicial authority or power. In such circumstances the Issuer will, however, pay to each Warrantholder in respect of each Warrant held by it an amount determined by the Calculation Agent representing the Fair Market Value of such Warrant immediately prior to such termination. Payment will be made in such manner as shall be notified to the Warrantholders in accordance with Condition 11 (*Notices*).

11. **Notices**

All notices to Warrantholders will be deemed to have been duly given (a) in the case of Registered Warrants if notified to the relevant Clearing System or (b) in the case of Uncertificated Registered Warrants, if sent by first class mail or (if posted to an address overseas) by airmail to the holders at their respective addresses appearing in the Record and will be deemed to have been given on the fourth day after mailing and, in addition, for so long as any Uncertificated Registered Warrants are listed by or on a competent authority or stock exchange and, if the rules of that competent authority or stock exchange so require, such notice will be published in a daily newspaper of general circulation in the places or places required by that competent authority or stock exchange and, in the case of Warrants admitted to the Official List of the Irish Stock Exchange and admitted to trading on its Global Exchange Market (or which have been admitted to listing, trading and/or quotation by any listing authority, stock exchange and/or quotation system), if copies of such notifications are forwarded in final form to the Irish Stock Exchange no later than the date of dispatch (or, in the case of Warrants admitted to listing, trading and/or quotation by any other listing authority, stock exchange, and/or quotation system published in any publication required by such other listing authority, stock exchange and/or quotation system). Any such notice shall be deemed to have been given on the date of such notification or, in the case of any of Warrants listed on any other listing authority, stock exchange and/or quotation system, the date of such publication or, if notified or published more than once or on different dates, on the date of the first such notification or publication (or if required to be published in more than one newspaper, on the first date on which publication shall have been made in all required newspapers).

12. **Further Issues**

The Issuer shall be at liberty from time to time without the consent of the Warrantholders to create and issue further warrants of any particular Series so as to form a single Series with the Warrants.

13. **Purchase by the Issuer**

The Issuer may at any time purchase Warrants at any price in the open market or by tender or private treaty. Any Warrants so purchased may, at the discretion of the Issuer, be held, resold, reissued or surrendered for cancellation, and Warrants so reissued or resold shall for all purposes be deemed to form part of the original Series of the Warrants.

14. **Modification**

Subject in case of the Master Warrant Issuance Agreement or the Warrant Agency Agreement (as applicable) to the agreement of the other parties thereto, the Issuer may agree, without consent of the Warrantholders, to:

- (a) any modification (except as mentioned above) of the Master Warrant Issuance Agreement, the Warrant Agency Agreement or the Conditions which is not materially prejudicial to the interests of the Warrantholders as a whole;
- (b) any modification of the Conditions, the Master Warrant Issuance Agreement or the Warrant Agency Agreement which is of a formal, minor or technical nature or is made to correct a manifest error or to comply with mandatory provisions of the law of the jurisdiction in which the Issuer is incorporated; or
- (c) any modification of the Warrants which is made to correct an inconsistency between the pricing supplement and the conditions of the Warrant issue (comprising these Conditions as completed by the relevant Pricing Supplement) and the relevant termsheet relating to the Warrants.

Any such modification shall be binding on the Warrantholders and any such modification shall be notified to the Warrantholders in accordance with Condition 11 (*Notices*) as soon as practicable thereafter.

15. **Substitution**

The Issuer shall be entitled at any time and from time to time, without the consent of the Warrantholders, to the substitution of a subsidiary or holding company of the Issuer or any subsidiary of any such holding company (the "**New Issuer**") in place of the Issuer as principal debtor under the Warrants of any Series, **provided that** such Warrants are irrevocably guaranteed by the Issuer. In the event of any such substitution, any reference in these Conditions to the Issuer shall be construed as a reference to the New Issuer. Any such substitution shall be promptly notified to the relevant Warrantholders in accordance with Condition 11 (*Notices*). In connection with such right of substitution the Issuer shall not be obliged to have regard to the consequences of the exercise of such right for individual Warrantholders resulting from their being for any purpose domiciled or resident in, or otherwise connected with, or subject to the jurisdiction of, any particular territory, and no Warrantholder shall be entitled to claim from the Issuer any indemnification or payment in respect of any tax consequence of any such substitution upon such Warrantholder.

16. **Governing Law**

(a) ***Governing law***

The Warrants and any non contractual obligations arising out of or in connection with the Warrants are governed by and shall be construed in accordance with English law.

(b) ***English courts***

The courts of England have exclusive jurisdiction to settle any dispute (a "**Dispute**"), arising out of or in connection with the Warrants (including any Dispute regarding the existence, validity or termination of the Warrants or the consequence of their nullity).

17. **Third Party Rights**

No person shall have any right to enforce any term or condition of the Warrants under the Contracts (Rights of Third Parties) Act 1999.

SUMMARY OF PROVISIONS RELATING TO THE WARRANTS WHILE IN GLOBAL FORM

Warrants may, subject to all applicable legal and regulatory requirements, be issued in Tranches or Series and will be (as specified in the relevant Pricing Supplement) either (i) if not offered in reliance on Rule 144A, Uncertificated Registered Warrants or (ii) if and only if offered in reliance on Rule 144A, Registered Warrants represented by Global Registered Warrants.

Registered Warrants

Global Registered Warrants

Unless specified otherwise in the Pricing Supplement, Registered Warrants will be issued in the form of Global Registered Warrants and the Issuer will deliver:

- (a) a Rule 144A Global Registered Warrant; or
- (b) an Unrestricted Global Registered Warrant and a Restricted Global Registered Warrant

(as each such term is defined below), subject to the Master Warrant Issuance Agreement (as defined herein) in accordance with their respective terms and as specified in the relevant Pricing Supplement.

Rule 144A Global Registered Warrant

In the case of a Tranche of Registered Warrants offered and sold solely within the United States or to US Persons (as defined in Regulation S) in reliance on Rule 144A, such Tranche of Registered Warrants will be represented by a Global Registered Warrant (a "**Rule 144A Global Registered Warrant**"), which will be deposited on or about the Closing Date for such Tranche with, and be registered in the name of the common depositary for Euroclear and Clearstream, Luxembourg, as specified in the applicable Pricing Supplement. Interests in any Rule 144A Global Registered Warrant will be exchangeable (in the circumstances described below under "*Exchange and Transfer of Global Registered Warrants for Definitive Registered Warrants*") for Definitive Registered Warrants bearing a Rule 144A legend ("**US Definitive Registered Warrants**"). Rule 144A Global Registered Warrants (and any US Definitive Registered Warrants offered in exchange therefor) will be subject to certain restrictions on transfer contained in such Rule 144A legend appearing on the face of such Warrant as set out below under "*Transfer Restrictions*".

Each Rule 144A Global Registered Warrant will have an ISIN number and a CUSIP number.

Unrestricted and Restricted Global Registered Warrants

In the case of a Tranche of Registered Warrants offered and sold both pursuant to Regulation S and in reliance on Rule 144A, such Tranche of Registered Warrants will be represented by two Global Registered Warrants (in the case of Registered Warrants forming part of such Tranche which are sold pursuant to Regulation S, an "**Unrestricted Global Registered Warrant**" and, in the case of Registered Warrants forming part of such Tranche which are sold in reliance on Rule 144A, a "**Restricted Global Registered Warrant**").

The Unrestricted Global Registered Warrant will be deposited on or about the issue date for the relevant Tranche with, and registered in the name of the common depositary for, Euroclear and Clearstream, Luxembourg. A beneficial interest in the Unrestricted Global Registered Warrant may at all times be held only through Euroclear and Clearstream, Luxembourg. The Restricted Global Registered Warrant will be deposited on or about the issue date for the relevant Tranche with HSBC Bank USA, National Association as custodian (the "**Custodian**") for, and registered in the name of Cede & Co. as nominee for, DTC. In the circumstances described below under "*Exchange and Transfer of Global Registered Warrants for Definitive Registered Warrants*", interests in any Unrestricted Global Registered Warrant will be exchangeable for Regulation S Definitive Registered Warrants and interests in any Restricted Global Registered Warrant will be exchangeable for US Definitive Registered Warrants and Regulation S Definitive Registered Warrants. Restricted Global Registered Warrants (and any US Definitive Registered Warrants issued in exchange therefor) will be subject to certain restrictions on transfer contained in a legend appearing on the face of such Warrants as set out below under "*Transfer Restrictions*".

Each Unrestricted Global Registered Warrant and each Restricted Global Registered Warrant will have an ISIN number and a CUSIP number.

Exchange of Interests in Unrestricted and Restricted Global Registered Warrants; Transfers within and between DTC, Euroclear and Clearstream, Luxembourg

On or prior to the 40th day after the later of the commencement of the offering of the relevant Tranche and the issue date for that Tranche, a beneficial interest in the relevant Unrestricted Global Registered Warrant may be transferred to a person who wishes to take delivery of such beneficial interest through the relevant Restricted Global Registered Warrant only upon receipt by the Warrant Registrar (as defined in the Warrant Issuance Agreement) of a written certification from the transferor (in the applicable form provided in the Warrant Issuance Agreement) to the effect that such transfer is being made to a person who the transferor reasonably believes is a qualified institutional buyer within the meaning of Rule 144A, in a transaction meeting the requirements of Rule 144A and in accordance with any applicable securities laws of any state of the United States or any other relevant jurisdiction. After such 40th day, such certification requirements will no longer apply to such transfers, but such transfers will continue to be subject to the transfer restrictions contained in the legend appearing on the face of such Restricted Global Registered Warrant, as set out below under "*Transfer Restrictions*".

Beneficial interests in a Restricted Global Registered Warrant may be transferred to a person who wishes to take delivery of such beneficial interest through the relevant Unrestricted Global Registered Warrant, whether before, on or after such 40th day, only upon receipt by the Warrant Registrar of a written certification from the transferor (in the applicable form provided in the Warrant Issuance Agreement) to the effect that such transfer is being made in accordance with Regulation S or Rule 144A under the Securities Act (if available) or to the Issuer or its affiliates.

Any beneficial interest in either the Restricted Global Registered Warrant or the Unrestricted Global Registered Warrant relating to any Series that is transferred to a person who takes delivery in the form of a beneficial interest in the other Global Registered Warrant relating to such Series will, upon transfer, cease to be a beneficial interest in such Global Registered Warrant and become a beneficial interest in the other Global Registered Warrant and, accordingly, will thereafter be subject to all transfer restrictions and other procedures applicable to a beneficial interest in such other Global Registered Warrant for as long as it remains such an interest.

Owner of Global Registered Warrants and Payments

Subject to certain provisions of the Warrant Issuance Agreement relating to directions, sanctions and consents of Holders of Registered Warrants and to meetings of Holders of Warrants, so long as DTC or its nominee or Euroclear, Clearstream, Luxembourg or the nominee of their common depository, as the case may be, is the registered owner or holder of a Global Registered Warrant, DTC, Euroclear, Clearstream, Luxembourg or such nominee, as the case may be, will be considered the sole owner or holder of the Warrants represented by such Global Registered Warrant for all purposes under the Warrant Issuance Agreement and the Warrants. Payments on Global Registered Warrants will be made to DTC, Euroclear, Clearstream, Luxembourg or such nominee, as the case may be, as the registered holder thereof. None of the Issuer, the Warrant Registrar, or any Warrant Agent or any affiliate of any of the above or any person by whom any of the above is controlled for the purposes of the Securities Act will have any responsibility or liability for any aspect of the records relating to or payments made on account of beneficial ownership interests in Global Registered Warrants or for maintaining, supervising or reviewing any records relating to such beneficial ownership interests. Each such payment in respect of a Global Registered Warrant will be made to the person shown as the Holder thereof (or, in the case of joint Holders, the first-named) as appearing in the Register at the close of business (in the relevant clearing system) on the business day on which each clearing system for which the Global Registered Warrant is being held is open for business which is the business day of each such clearing system before the due date for such payment.

Exchange and Transfer of Global Registered Warrants for Definitive Registered Warrants

In the case of Rule 144A Global Registered Warrants or Restricted Global Registered Warrants held through DTC, beneficial interests in a Rule 144A Global Registered Warrant or a Restricted Global Registered Warrant will be exchangeable for US Definitive Registered Warrants: (i) if DTC notifies the Issuer that it is no longer willing or able to properly discharge its responsibilities as depository with

respect to the relevant Restricted Global Registered Warrant or ceases to be a clearing agency registered under the Exchange Act, or is at any time no longer eligible to act as such, and the Issuer is unable to locate a qualified successor within 90 days of receiving notice of such ineligibility on the part of such depository; or (ii) if the Issuer, at its option, elects to terminate the book-entry system through DTC; or (iii) at the option of the Issuer, if the Issuer, any Warrant Agent or the Warrant Registrar, by reason of any change in, or amendment to, the laws of the United Kingdom, is or will be required to make any deduction or withholding from any payment under the Warrants; or (iv) at the option of the Issuer, if the Issuer would suffer a material disadvantage in respect of the Warrants as a result of a change in the laws or regulations (taxation or otherwise) of any Jurisdictions which would not be required if such Warrants were in definitive form.

Beneficial interests in a Regulation S Global Registered Warrant or an Unrestricted Global Registered Warrant will be exchangeable, in whole but not in part, for Regulation S Definitive Registered Warrants and, if held through Euroclear or Clearstream, Luxembourg, pursuant to the relevant Pricing Supplement, beneficial interests in a Rule 144A Global Registered Warrant or a Restricted Global Registered Warrant will be exchangeable for US Definitive Registered Warrants: (i) if Euroclear or Clearstream, Luxembourg is closed for business for a continuous period of 14 days (other than by reason of legal holidays) or announces an intention permanently to cease business; or (ii) the Issuer, at its option, elects to terminate the book-entry system through Euroclear and Clearstream, Luxembourg; or (iii) at the option of the Issuer, if the Issuer would suffer a material disadvantage in respect of the Warrants as a result of a change in the laws or regulations (taxation or otherwise) of any jurisdiction or (iv) at the option of the Issuer, if the Issuer, any Warrant Agent or the Warrant Registrar, by reason of any change in, or amendment to, the laws of the United Kingdom, is or will be required to make any deduction or withholding from any payment under the Warrants which would not be suffered were the Warrants in definitive form.

In such circumstances, (a) the Warrant Registrar will be required to notify all Holders of interests in the relevant Global Registered Warrants registered in the name of DTC or its nominee or Euroclear, Clearstream, Luxembourg or the nominee of their common depository, as the case may be, of the availability of Definitive Registered Warrants and (b) the Issuer will, at the cost of the Issuer, cause sufficient Regulation S Definitive Registered Warrants and/or US Definitive Registered Warrants, as the case may be, to be executed and delivered to the Warrant Registrar for completion, authentication and dispatch to the relevant Holders. A person having an interest in the relevant Global Registered Warrant must provide the Warrant Registrar with:

- (i) a written order containing instructions and such other information as the Issuer and the Warrant Registrar may require to complete, execute and deliver the relevant Definitive Registered Warrant; and
- (ii) in the case of a Rule 144A Global Registered Warrant or a Restricted Global Registered Warrant only, a fully completed, signed certification substantially to the effect that the exchanging holder is not transferring its interest at the time of such exchange or, in the case of simultaneous sale pursuant to Rule 144A, a certification that the transfer is being made in compliance with the provisions of Rule 144A. US Definitive Registered Warrants issued in exchange for a beneficial interest in a Rule 144A Global Registered Warrant or a Restricted Global Registered Warrant will bear the legends applicable to transfers pursuant to Rule 144A (as set out below under "*Transfer Restrictions*").

If an Unrestricted Global Registered Warrant relating to a Series or (if issued in Tranches) Tranche of Warrants of which the Restricted Global Registered Warrant forms a part has, pursuant to its terms, been exchanged in whole, but not in part, for Regulation S Definitive Registered Warrants, beneficial interests in the Restricted Global Registered Warrant may be transferred to a person who wishes to take delivery thereof in the form of a Regulation S Definitive Registered Warrant. Such Regulation S Definitive Registered Warrants shall be registered in such name(s) as DTC, Euroclear or Clearstream, Luxembourg, as applicable, shall direct in writing.

Upon (i) notification to the Warrant Registrar by the Custodian that the appropriate debit entry has been made in the account of the relevant participant of DTC and (ii) receipt by the Warrant Registrar of a certificate, in the form scheduled to the Warrant Issuance Agreement, given by the transferee of the beneficial interest in the Restricted Global Registered Warrant and stating that the transfer of such interest has been made in compliance with the transfer restrictions applicable to the Warrants, and pursuant to and in accordance with Regulation S under the Securities Act, the Issuer shall procure that the Warrant

Registrar will (against presentation by DTC or HSBC Bank USA, National Association, as custodian, of the Restricted Global Registered Warrant at the specified office of the Warrant Registrar or the Warrant Transfer Agent, all in accordance with the provisions of the Warrant Issuance Agreement), decrease the aggregate principal amount of Warrants registered in the name of the holder of, and represented by, the Restricted Global Registered Warrant and shall, without charge, procure, in exchange therefor, the delivery, within five Relevant Banking Days of the receipt by the Warrant Registrar of the Restricted Global Registered Warrant of the notification and certification referred to in paragraphs (i) and (ii) above, and registration information required to authenticate and deliver such Regulation S Definitive Registered Warrants, of an equal aggregate principal amount of duly authenticated and completed Regulation S Definitive Registered Warrants.

As used herein, "**Relevant Banking Day**" means a day on which commercial banks are open for general business (including dealings in foreign exchange and foreign currency deposits) in the place where the specified office of the Registrar is located.

The holder of a Registered Warrant may transfer such Registered Warrant in accordance with the provisions of Condition 1 (*Form and Transfer*) of the Terms and Conditions of the Warrants.

The holder of a Definitive Registered Warrant may transfer such Warrant by surrendering it at the specified office of the Warrant Registrar or any Warrant Transfer Agent, together with the completed form of transfer thereon. Upon the transfer, exchange or replacement of US Definitive Registered Warrants issued in exchange for beneficial interests in a Rule 144A Global Registered Warrant or a Restricted Global Registered Warrant bearing the legends as set out below under "*Transfer Restrictions*", or upon specific request for removal of the legend on a US Definitive Registered Warrant, the Issuer will only deliver US Definitive Registered Warrants that bear such legend, or will refuse to remove such legend, as the case may be, unless there is delivered to the Issuer and the Warrant Registrar such satisfactory evidence, which may include an opinion of counsel, as may reasonably be required by the Issuer, that neither the legend nor the restriction on transfer set forth therein are required to ensure compliance with the provisions of the Securities Act.

The Warrant Registrar will not register the transfer of or exchange of interests in a Global Registered Warrant for Definitive Registered Warrants for a period of 15 calendar days preceding the due date for any payment in respect of the Warrants.

With respect to the registration of transfer of any US Definitive Registered Warrants, the Warrant Registrar will register the transfer of any such US Definitive Registered Warrants if the transferor, in the form of transfer on such US Definitive Registered Warrants, has certified to the effect that such transfer is (i) to persons who the transferor reasonably believes to be qualified institutional buyers within the meaning of Rule 144A, in a transaction meeting the requirements of Rule 144A and in accordance with any applicable securities laws of any state of the United States or any other jurisdiction, (ii) in accordance with Regulation S, (iii) pursuant to an exemption from Rule 144 under the Securities Act (if available) or (iv) to the Issuer or its affiliates.

Regulation S Definitive Registered Warrants may be exchangeable for or transferable to a person wanting to take delivery thereof in the form of interests in a Restricted Global Registered Warrant, and US Definitive Registered Warrants may be transferable to a person wanting to take delivery thereof in the form of interests in an Unrestricted Global Registered Warrant, in each case, upon receipt by the Warrant Registrar of a duly completed certificate in the form of Schedule 6 to the Warrant Issuance Agreement and in accordance with the requirements of the Warrant Issuance Agreement.

If the Issuer has not prepared a KID in relation to any Series of Notes or Warrants, this will be stated in the related Pricing Supplement and any offer or sale of such Notes or Warrants to retail investors in the EEA may be unlawful once the PRIIPs Regulation applies. Persons purchasing such Notes or Warrants will be deemed to represent, warrant and undertake to the Issuer and the Dealer(s) that they have not offered and sold, and that they will not offer or sell, any such Notes or Warrants to retail investors in the EEA and that they have complied and will comply with the PRIIPs Regulation in relation to such Notes or Warrants. The distribution of this Part D and the offer, distribution or sale of Equity/Index-Linked Notes and Warrants or Preference Share-Linked Notes may be restricted by law in certain jurisdictions. The Issuer does not represent that this document may be lawfully distributed, or that the Equity/Index-Linked Notes and Warrants or Preference Share-Linked Notes may be lawfully offered, or assumes any responsibility for facilitating any such distribution or offering. In particular, action may be required to be taken to permit a public offering of the Equity/Index-Linked Notes and Warrants or Preference Share-Linked Notes or a distribution of this document in any jurisdiction. - (vii) contain an irrevocable undertaking to pay the Transfer Expenses (if any) and an irrevocable instruction to the relevant Clearing System to debit on or after the Settlement Date the cash or other account of the Noteholder with the relevant Clearing System specified in the Transfer Notice with such Transfer Expenses;
- (viii) include a certificate of non-US beneficial ownership in the form required by the Issuer; and
- (ix) authorise the production of the Transfer Notice in any applicable administrative or legal proceedings;

"Underlying Company" means the issuer of the Security as specified in the relevant Pricing Supplement and, if the Notes are DR-Linked Notes, each of the Depository and the issuer of the relevant Underlying Security, in each case subject to adjustment in accordance with Condition 22(g);

"Underlying Index", in relation to a Fund, has the meaning given to it in the relevant Pricing Supplement;

"Underlying Security" means, with respect to DR-Linked Notes and a Depository Receipt, the security and any other property to which such Depository Receipt relates;

"Unit", in relation to a Fund, has the meaning given to it in the relevant Pricing Supplement;

"Valid Date" means a Scheduled Trading Day that is not a Disrupted Day and on which another Averaging Date in respect of the relevant Valuation Date does not or is not deemed to occur;

"Valuation Date" means each date specified or otherwise determined as provided in the relevant Pricing Supplement (or, if such date is not a Scheduled Trading Day, the next following Scheduled Trading Day), in each case subject to Condition 22(e); and

"Valuation Time" means (a) in relation to each Security to be valued or each Index the level of which falls to be determined on any date, the time on such date specified as such in the relevant Pricing Supplement or, if no such time is specified, the Scheduled Closing Time on the relevant Exchange on such date in relation to such Security or Index, as applicable or such scheduled time as set out in the Index Rules. If the relevant Exchange closes prior to its Scheduled Closing Time and the specified Valuation Time is after the actual closing time for its regular trading session, then the Valuation Time shall be such actual closing time; or (b) in relation to a Multiple Exchange Index, for the purposes of determining whether a Market Disruption Event has occurred: (i) in respect of any Component Security, the Scheduled Closing Time on the Exchange in respect of such Component Security, and (ii) in respect of any options contracts or future contracts on the Index, the close of trading on the Related Exchange; and (c) in all other circumstances, the time at which the official closing level of the Index is calculated and published by the Index Sponsor.

(b) *Physical Delivery*

In relation to Equity-Linked Notes which are to be redeemed by the delivery of a Securities Transfer Amount, and subject to the other provisions of these Conditions and the relevant Pricing Supplement:

- (i)
- (A) Each Noteholder shall, on or before the date five calendar days before the Maturity Date or the date of early termination or redemption (or such earlier date as the Issuer shall determine is necessary for the Issuer, the Paying Agents, the relevant Clearing System to perform their respective obligations in relation to the Notes and notify to the Paying Agents and the Noteholders) send to the relevant Clearing System, in accordance with its then applicable operating procedures, and copied to the Principal Paying Agent, a duly completed Transfer Notice.
 - (B) A Transfer Notice, once delivered to the relevant Clearing System, shall be irrevocable and may not be withdrawn without the consent in writing of the Issuer. A Noteholder may not transfer any Note which is the subject of a Transfer Notice following delivery of such Transfer Notice to the relevant Clearing System. A Transfer Notice shall only be valid to the extent that the relevant Clearing System have not received conflicting prior instructions in respect of the Notes which are the subject of the Transfer Notice.
 - (C) Failure properly to complete and deliver a Transfer Notice may result in such notice being treated as null and void. Any determination as to whether such notice has been properly completed and delivered as provided shall be made by the Principal Paying Agent and shall be conclusive and binding on the Issuer and the Noteholder.
 - (D) The Principal Paying Agent shall promptly on the local banking day following receipt of a Transfer Notice send a copy thereof to the Issuer or such person as the Issuer may previously have specified.
 - (E) Delivery of the Securities will be via the relevant Clearing System. The delivery or transfer of Securities to each Noteholder is at the relevant Noteholder's risk and if delivery occurs later than the earliest possible date for delivery, no additional amounts will be payable by the Issuer.
 - (F) The Issuer shall discharge its obligation to redeem the relevant proportion of the Notes by delivering, or procuring the delivery of, the Securities Transfer Amount on the Settlement Date to the Clearing System for credit to the account with the Clearing System specified in the Transfer Notice of the relevant Noteholder.
 - (G) The amount of Securities to be delivered to or for the account of each Noteholder shall be an amount of Securities equal to the number of Notes in respect of which such Noteholder is the holder as specified in the relevant Transfer Notice multiplied by the Securities Transfer Amount **provided, however, that** if a Noteholder would become entitled to a number of Securities which is not equal to a board lot of the Securities at such time, as determined by the Calculation Agent, or an integral multiple thereof, then the Noteholder's entitlement to delivery of Securities shall be rounded down to the nearest whole Security.
 - (H) In relation to each Noteholder, the Calculation Agent shall calculate the Residual Amount and the Residual Cash Amount. The Residual Cash Amount shall be paid by the Issuer to the relevant Noteholder on the Settlement Date.

- (I) Each Noteholder shall be required as a condition of its entitlement to delivery of Securities in respect of any Notes to pay all Transfer Expenses in respect of such Notes.
 - (J) After delivery to or for the account of a Noteholder of the relevant Securities Transfer Amount and for such period of time as the transferor or its agent or nominee shall continue to be registered in any clearing system as the owner of the Securities comprised in such Securities Transfer Amount (the "**Intervening Period**"), none of such transferor or any agent or nominee for the Issuer or such transferor shall (i) be under any obligation to deliver to such Noteholder or any other person any letter, certificate, notice, circular, dividend or any other document or payment whatsoever received by the Issuer or such transferor, agent or nominee in its capacity as holder of such Securities, (ii) be under any obligation to exercise any rights (including voting rights) attaching to such Securities during the Intervening Period, or (iii) be under any liability to such Noteholder or any other person in respect of any loss or damage which the Noteholder or any other person may sustain or suffer as a result, whether directly or indirectly, of the Issuer or such transferor, agent or nominee being registered in such clearing system during such Intervening Period as legal owner of such Securities.
 - (K) All dividends on Securities to be delivered will be payable to the party that would receive such dividends according to market practice for a sale of the Securities executed on the Notional Sale Date to be delivered in the same manner as such Securities. Any such dividends will be paid to or for credit to the account specified by the Noteholder in the relevant Transfer Notice. No right to dividends on the Securities will accrue to Noteholders prior to the Notional Sale Date.
- (ii) The Calculation Agent shall determine, in its sole and absolute discretion, whether or not at any time a Settlement Disruption Event has occurred and where it determines such an event has occurred and so has prevented delivery of Securities on the original day that but for such Settlement Disruption Event would have been the Settlement Date, then the Settlement Date will be the first succeeding day on which delivery of such Securities can take place through the relevant Clearing System unless a Settlement Disruption Event prevents settlement on each of the eight relevant Clearing System Business Days immediately following the original date (or during such other period (the "**Disruption Period**") specified in the relevant Pricing Supplement) that, but for the Settlement Disruption Event, would have been the Settlement Date. In that case, if the Securities are debt securities, the Issuer shall use reasonable efforts to deliver such Securities promptly thereafter in a commercially reasonable manner (as determined by the Calculation Agent in its sole and absolute discretion) outside the Clearing System and in all other cases (a) if such Securities can be delivered in any other commercially reasonable manner (as determined by the Calculation Agent in its sole and absolute discretion), then the Settlement Date will be the first Business Day on which settlement of a sale of Securities executed on that eighth relevant Clearing System Business Day, or during such other period specified in the relevant Pricing Supplement, customarily would take place using such other commercially reasonable manner (as determined by the Calculation Agent in its sole and absolute discretion) of delivery (which other manner of delivery will be deemed the relevant Clearing System for the purposes of delivery of the relevant Securities), and (b) if such Securities cannot be delivered in any other commercially reasonable manner (as determined by the Calculation Agent in its sole and absolute discretion), then the Settlement Date will be postponed until delivery can be effected through the relevant Clearing System or in any other commercially reasonable manner.

For the avoidance of doubt, where a Settlement Disruption Event affects some but not all of the Securities comprised in a basket, the Settlement Date for

Securities not affected by the Settlement Disruption Event will be the first day on which settlement of a sale of such Securities executed on the Maturity Date customarily would take place through the relevant Clearing System.

- (iii) If the Calculation Agent determines, in its sole and absolute discretion, that a Delivery Disruption Event has occurred, it shall notify the Issuer who shall promptly notify the relevant Noteholder(s) and the Issuer may then:
 - (A) determine, in its sole and absolute discretion, that the obligation to deliver the relevant Securities Transfer Amount will be terminated and the Issuer will pay such amount as in the opinion of the Calculation Agent (such opinion to be made in its sole and absolute discretion) is fair in the circumstances by way of compensation for the non-delivery of the Securities Transfer Amount, in which event the entitlements of the respective Noteholder(s) to receive the relevant Securities Transfer Amount shall cease and the Issuer's obligations under the Notes shall be satisfied in full upon payment of such amount; or
 - (B) deliver on the Settlement Date such amount of the Securities Transfer Amount (if any) as it can deliver on that date and pay such amount as in the opinion of the Calculation Agent (such opinion to be made in its sole and absolute discretion) is fair in the circumstances by way of compensation for the non-delivery of the remainder of the Securities Transfer Amount, in which event the entitlements of the respective Noteholder(s) to receive the relevant Securities Transfer Amount shall cease and the Issuer's obligations under the Notes shall be satisfied in full upon payment of such amount.

Where this Condition 22(b)(iii) fails to be applied, insofar as the Calculation Agent determines in its sole and absolute discretion to be practical, the same shall be applied as between the Noteholders on a *pro rata* basis, but subject to such rounding down (whether of the amount of a payment or of a number of Securities to be delivered) and also to such other adjustments as the Calculation Agent determines, in its sole and absolute discretion, to be appropriate to give practical effect to such provisions.

(c) ***Automatic Early Redemption***

This Condition 22(c) is applicable only if Automatic Early Redemption Event is indicated as applicable in relevant Pricing Supplement.

If on any Automatic Early Redemption Valuation Date, the Automatic Early Redemption Event occurs, then unless previously redeemed or purchased and cancelled, the Notes will be automatically redeemed in whole, but not in part, on the Automatic Early Redemption Date immediately following such Automatic Early Redemption Valuation Date and the Redemption Amount payable by the Issuer on such date upon redemption of each Note shall be an amount in the relevant currency equal to the relevant Automatic Early Redemption Amount.

(d) ***Knock-in and Knock-out Provisions***

This Condition 22(d) is applicable only if "Knock-in Event" or "Knock-out Event" is specified as applicable in the relevant Pricing Supplement. If on a Knock-in Determination Day or Knock-out Determination Day, a Knock-in Event or Knock-out Event (respectively) occurs, then a Knock-in Amount or Knock-out Amount (respectively) becomes payable on the relevant Knock-in Amount Payment Date or Knock-out Amount Payment Date (respectively), all as specified as such in the relevant Pricing Supplement.

(e) *Consequences of Disrupted Days*

For the purposes of this Condition 22(e) "**Limit Valuation Date**" shall mean, if any Valuation Date in respect of a Note is a Disrupted Day, the Specified Maximum Number of Disrupted Days following such Valuation Date, notwithstanding the fact that such day is a Disrupted Day.

(i) If any Valuation Date is a Disrupted Day, then:

(A) in the case of an Equity-Linked Note, or an Index-Linked Note which, in each case, relates to a single Security or Index, the Valuation Date shall be the first succeeding Scheduled Trading Day that is not a Disrupted Day, **provided that** the Valuation Date shall not fall after the Limit Valuation Date. In that case:

(1) in respect of an Index Linked Note, the Limit Valuation Date will be deemed to be the Valuation Date, notwithstanding the fact that such day is a Disrupted Day, and the Calculation Agent shall determine the level of the Index as of the Valuation Time on the Limit Valuation Date determined in accordance with the formula for and method of calculating the Index last in effect prior to the occurrence of the first Disrupted Day using the Exchange traded or quoted price as of the Valuation Time on the Limit Valuation Date of each security or other property comprised in the Index (or, if an event giving rise to a Disrupted Day has occurred in respect of the relevant security or other property on the Limit Valuation Date, its good faith estimate of the value for the relevant security or other property as of the Valuation Time on the Limit Valuation Date); and

(2) in respect of an Equity Linked Note, the Limit Valuation Date shall be deemed to be the Valuation Date, notwithstanding the fact that such day is a Disrupted Day and the Calculation Agent shall determine its good faith estimate of the value for the relevant Security as of the Valuation Time on that Limit Valuation Date;

(B) in the case of an Index Linked Note which relates to a basket of Indices, the Valuation Date for each Index not affected by the occurrence of a Disrupted Day shall be the Scheduled Valuation Date and the Valuation Date for each Index affected by the occurrence of a Disrupted Day shall be the first succeeding Scheduled Trading Day which is not a Disrupted Day relating to that Index, unless each of the succeeding Scheduled Trading Days (up to and including the Limit Valuation Date) immediately following the Scheduled Valuation Date is a Disrupted Day relating to that Index. In that case, the Limit Valuation Date shall be deemed to be the Valuation Date for the relevant Index notwithstanding the fact that such day is a Disrupted Day relating to that Index and the Calculation Agent shall determine, in its sole and absolute discretion, the level of that Index, as of the Valuation Time on the Limit Valuation Date in accordance with the formula for and method of calculating that Index last in effect prior to the occurrence of the first Disrupted Day using the Exchange traded or quoted price as of the Valuation Time on the Limit Valuation Date of each security or other property comprised in the relevant Index (or, if an event giving rise to a Disrupted Day has occurred in respect to the relevant security or other property on the Limit Valuation Date, its good faith estimate of the value for the relevant security or other property as of the Valuation Time on the Limit Valuation Date); and

- (C) in the case of an Equity Linked Note which relates to a basket of Securities, the Valuation Date for each Security not affected by the occurrence of a Disrupted Day shall be the Scheduled Valuation Date, and the Valuation Date for each Security affected by the occurrence of a Disrupted Day shall be the first succeeding Scheduled Trading Day that is not a Disrupted Day relating to that Security, unless each of the Scheduled Trading Days (up to and including the Limit Valuation Date) immediately following the Scheduled Valuation Date is a Disrupted Day relating to that Security. In that case, (1) the Limit Valuation Date shall be deemed to be the Valuation Date for the relevant Security, notwithstanding the fact that such day is a Disrupted Day, and (2) the Calculation Agent shall determine, in its sole and absolute discretion, its good faith estimate of the value for that Security as of the Valuation Time on the Limit Valuation Date.
- (ii) If Averaging Dates are specified in the relevant Pricing Supplement, then notwithstanding any other provisions of these Conditions, the following provisions will apply to the valuation of the relevant Index or Securities:
 - (A) The Final Price or Final Index Level will be, in relation to any Valuation Date:
 - (1) in respect of an Index-Linked Note or an Equity-Linked Note settled by way of Cash Settlement which, in each case, relates to a single Security or Index (as the case may be), the arithmetic mean of the Reference Price of the Security or (as the case may be) of the Reference Level of the Index on each Averaging Date;
 - (2) in respect of an Index-Linked Note settled by way of Cash Settlement which relates to a basket of indices, the arithmetic mean of the amounts for such basket determined by the Calculation Agent in its sole and absolute discretion as provided in the relevant Pricing Supplement as of the relevant Valuation Time(s) on each Averaging Date or, if no means for determining the Final Index Level is so provided, the arithmetic mean of the amounts for such basket calculated on each Averaging Date as the sum of the Reference Level of each Index comprised in such basket (weighted or adjusted in relation to each Index as provided in the relevant Pricing Supplement); and
 - (3) in respect of an Equity-Linked Note settled by way of Cash Settlement which relates to a basket of Securities, the arithmetic mean of the prices for such basket determined by the Calculation Agent in its sole and absolute discretion as provided in the relevant Pricing Supplement as of the relevant Valuation Time(s) on each Averaging Date or, if no means for determining the Final Price is so provided, the arithmetic mean of the prices for such basket calculated on each Averaging Date as the sum of the values calculated for the Securities of each Underlying Company as the product of (aa) the Reference Price of such Security and (bb) the number of such Securities comprised in such basket (weighted or adjusted in relation to each Security as provided in the relevant Pricing Supplement).

(B) If any Averaging Date is a Disrupted Day, then, if the consequence specified in the relevant Pricing Supplement in relation to "**Averaging Date Market Disruption**" is:

(1) "**Omission**", then such Averaging Date will be deemed not to be a relevant Averaging Date for purposes of determining the relevant Final Price or Final Index Level, as applicable, **provided that**, if through the operation of this provision no Averaging Date would occur with respect to the relevant Valuation Date, then Condition 22(e)(i) will apply for purposes of determining the relevant level, price or amount on the final Averaging Date in respect of that Valuation Date as if such final Averaging Date were a Valuation Date that was a Disrupted Day. If any Averaging Dates in relation to a Valuation Date occur after that Valuation Date as a result of the occurrence of a Disrupted Day, then (i) the relevant Maturity Date, Automatic Early Redemption Date, Instalment Date, Optional Redemption Date (Call Option), Optional Redemption Date (Put Option) or any other early redemption date in accordance with the Conditions or the relevant Settlement Date, as the case may be, or (ii) the occurrence of an Extraordinary Event or a Potential Adjustment Event shall be determined by reference to the last such Averaging Date as though it were that Valuation Date;

(2) "**Postponement**", then Condition 22(e)(i) will apply for purposes of determining the relevant level, price or amount on that Averaging Date as if such Averaging Date were a Valuation Date that was a Disrupted Day irrespective of whether, pursuant to such determination, that deferred Averaging Date would fall on a day that already is or is deemed to be an Averaging Date for the relevant Notes. If any Averaging Dates in relation to a Valuation Date occur after that Valuation Date as a result of the occurrence of a Disrupted Day, then (i) the relevant Maturity Date, Instalment Date, Automatic Early Redemption Date, Optional Redemption Date (Call Option), Optional Redemption Date (Put Option) or any other early redemption date in accordance with the Conditions or the relevant Settlement Date, as the case may be, or (ii) the occurrence of an Extraordinary Event or a Potential Adjustment Event shall be determined by reference to the last such Averaging Date as though it were that Valuation Date; or

(3) "**Modified Postponement**", then:

(aa) in the case of an Index Linked Note or an Equity Linked Note which relates to a single Index or Security, the Averaging Date shall be the first succeeding Valid Date. If the first succeeding Valid Date has not occurred as of the Valuation Time on the Limit Valuation Date immediately following the original date that, but for the occurrence of another Averaging Date or Disrupted Day, would have been the final Averaging Date (the "**Scheduled Final Averaging Date**") in relation to the relevant Scheduled Valuation Date, then the Limit Valuation Date shall be deemed to be the Averaging Date, notwithstanding the fact that such day is a Disrupted Day (irrespective of whether that Limit Valuation Date is already an Averaging Date) and:

- (i) in respect of an Index Linked Note, the Calculation Agent shall determine the relevant level for that Averaging Date in accordance with Condition 22(e)(i)(A)(1); and
 - (ii) in respect of an Equity Linked Note, the Calculation Agent shall determine, in its sole and absolute discretion, the relevant price for that Averaging Date in accordance with Condition 22(e)(i)(A)(2); and
- (bb) in the case of an Index Linked Note or an Equity-Linked Note which relates to a basket of Indices or Securities, the Averaging Date for each Index or Security not affected by the occurrence of a Disrupted Day shall be the day specified in the relevant Pricing Supplement as an Averaging Date in relation to the relevant Valuation Date (the "Scheduled Averaging Date") and the Averaging Date for an Index or Security affected by the occurrence of a Disrupted Day shall be the first succeeding Valid Date in relation to such Index or Security. If the first succeeding Valid Date in relation to such Index or Security has not occurred as of the Valuation Time on the Limit Valuation Date immediately following the Scheduled Final Averaging Date, then the Limit Valuation Date shall be deemed to be the Averaging Date (irrespective of whether that Limit Valuation Date is already an Averaging Date) and:
 - (i) in respect of an Index Linked Note, the Calculation Agent shall determine the relevant level for that Averaging Date in accordance with Condition 22(e)(i)(B); and
 - (ii) in respect of an Equity Linked Note or a Cash Equity Note, the Calculation Agent shall determine, in its sole and absolute discretion, the relevant amount for that Averaging Date in accordance with Condition 22(e)(i)(C).

If any Averaging Dates in relation to a Valuation Date occur after that Valuation Date as a result of the occurrence of a Disrupted Day, then (i) the relevant Maturity Date, Automatic Early Redemption Date, Instalment Date, an Optional Redemption Date (Call Option), an Optional Redemption Date (Put Option) or other early redemption date or Settlement Date, as the case may be, or (ii) the occurrence of an Extraordinary Event or Potential Adjustment Event shall be determined by reference to the last such Averaging Date as though it were that Valuation Date.

If a Valuation Date is postponed pursuant to this Condition 22(e) (*Consequences of Disrupted Days*), the Scheduled FX Fixing Date falling on or immediately following the Scheduled Valuation Date may, in the Calculation Agent's sole and absolute discretion (i) be postponed such that the Scheduled FX Fixing Date will be deemed to occur the number of days following the Valuation Date as the Scheduled FX Fixing Date would have occurred following the Scheduled Valuation

Date had it not been for the postponement pursuant to this Condition 22(e) (*Consequences of Disrupted Days*) or (ii) if the Scheduled Valuation Date and Scheduled FX Fixing Date are the same date, be postponed to the Valuation Date, provided, in each case, that if the postponed Scheduled FX Fixing Date would, as a result of this paragraph, occur on a day which is not a Relevant Currency Business Day, it will be postponed to the immediately following Relevant Currency Business Day.

If a Valuation Date is postponed in accordance with this Condition 22(e) (*Consequences of Disrupted Days*), any Disrupted Day Related Payment Date will also be postponed, if needed, such that the Disrupted Day Related Payment Date shall fall at least three (3) local banking days (or such other number of local banking days as may be specified in the Pricing Supplement) following the later of (i) the postponed Valuation Date or, if later, the Limit Valuation Date, as applicable and (ii) the postponed Scheduled FX Fixing Date or, if later, the FX Cut-off Date or Postponed FX Fixing Date, as applicable.

(f) ***Adjustments to Indices***

This Condition 22(f) is applicable only in relation to Index-Linked Notes other than Inflation Rate-Linked Notes in relation to which Condition 22(j) shall apply.

(i) ***Successor Index***

If a relevant Index is (A) not calculated and announced by the Index Sponsor but is calculated and published by a successor to the Index Sponsor acceptable to the Calculation Agent, or (B) replaced by a successor index using, in the determination of the Calculation Agent, the same or a substantially similar formula for and method of calculation as used in the calculation of that Index, then in each case that Index (the "**Successor Index**") will be deemed to be the Index.

(ii) ***Index Modification***

If on or prior to any Valuation Date or Averaging Date, a relevant Index Sponsor announces that it will make a material change in the formula for or the method of calculating that Index or in any other way materially modifies that Index (other than a modification prescribed in that formula or method to maintain that Index in the event of changes in constituent stock and capitalisation or other routine events) (an "**Index Modification**"), then the Calculation Agent shall determine, in its sole and absolute discretion, whether such Index Modification has a material effect on the Notes, and if so, shall make such adjustment(s) (if any) as it determines appropriate to account for the economic effect of the Index Modification and determine the effective date of any such modification or adjustment.

(iii) ***Index Cancellation***

If on or prior to the Valuation Date or Averaging Date (A) the Index Sponsor fails to calculate and announce a relevant Index, (B) the Index Sponsor announces that it suspends the calculation and publication of the level of a relevant Index, or (C) the Index Sponsor permanently cancels the Index and no Successor Index exists (each an "**Index Cancellation**"), then:

- (1) the Issuer shall as soon as is reasonably practicable after determining the same give notice (an "**Index Cancellation Notice**") of such Index Cancellation to the Noteholders (with a copy to the Calculation Agent) in accordance with Condition 14 (*Notices*);
- (2) if Index Substitution is specified as being applicable in the relevant Pricing Supplement, the Issuer shall, in its sole and absolute discretion

(acting in good faith and a commercially reasonable manner), determine whether or not and the date as of which the Index is to be substituted with a Substitute Index and, if it so determines, it shall give an Index Substitution Notice to the Noteholders (with a copy to the Calculation Agent) in accordance with Condition 14 (*Notices*) and, with effect from the date so determined, the Substitute Index shall be deemed to be the Index; and

- (3) if no Substitute Index has been identified within ten Business Days of the giving of such Index Cancellation Notice or if Index Substitution has not been specified as being applicable in the relevant Pricing Supplement, the Issuer shall, in its sole and absolute discretion (acting in good faith and a commercially reasonable manner), determine whether or not the relevant Notes shall continue and:
- (A) if it determines that the Notes shall continue, then the Calculation Agent shall determine, in its sole and absolute discretion, the Final Index Level for such Valuation Date or the Reference Level for such Averaging Date, as the case may be using, in lieu of a published level of that Index, the level for that Index as at that Valuation Date or Averaging Date (as applicable) as determined by the Calculation Agent in its sole and absolute discretion in accordance with the formula for and method of calculating that Index last in effect prior to the Index Cancellation, but using only those components that comprised that Index immediately prior to that Index Cancellation; and
- (B) if it determines that the Notes shall not continue, the Issuer shall terminate the relevant Notes as of the date selected by the Issuer and give notice thereof to the Noteholders (with a copy to the Calculation Agent) in accordance with Condition 14 (*Notices*), specifying the early redemption amount and early redemption date, and the entitlements of the relevant Noteholders to receive the Final Redemption Amount (or any other payment to be made by the Issuer, as the case may be) shall cease and the Issuer's obligations under the relevant Notes shall be satisfied in full upon payment of such amount as is determined by the Calculation Agent to be the fair market value of the Notes immediately prior to such early redemption, adjusted to account fully for any reasonable expenses, costs or proceeds, as the case may be, to the Issuer and/or any affiliate of the Issuer of unwinding any underlying and/or related hedging and funding arrangements.

For these purposes:

"Index Substitution Notice" means a notice specifying a Substitute Index to be substituted for the Index and the date as of which such substitution is to take effect; and

"Substitute Index" means a successor index identified by the Calculation Agent using commercially reasonable efforts, with characteristics, objectives and rules similar to the Index in effect immediate prior to the occurrence of the Index Cancellation.

- (iv) *Correction of Index Levels*

If the level of an Index published by the Index Sponsor at any time and used or to be used by the Calculation Agent for any calculation or determination under the Notes is subsequently corrected and the correction is published by the Index Sponsor after the original publication, the Calculation Agent will make such

adjustment as it in its sole and absolute discretion determines to be appropriate, if any, to the settlement or payment terms of the Notes to account for such correction **provided that** if any amount has been paid in an amount which exceeds the amount that would have been payable if the correction had been taken into account, no further amount in an amount at least equal to the excess is payable in respect of the Notes and the Calculation Agent determines that it is not practicable to make such an adjustment to account fully for such correction, the Issuer shall be entitled to reimbursement of the relevant excess payment (or, as the case may be, the proportion thereof not accounted for by an adjustment made by the Calculation Agent) by the relevant Noteholder, together with interest on that amount for the period from and including the day on which payment was originally made to (but excluding) the day of payment of reimbursement by the Noteholder (all as calculated by the Calculation Agent in its sole and absolute discretion). Any such reimbursement shall be effected in such manner as the Issuer shall determine.

(g) *Adjustments and Events affecting Securities*

This Condition 22(g) is applicable only in relation to Equity-Linked Notes.

(i) *Potential Adjustment Events*

The Calculation Agent shall determine, in its sole and absolute discretion, whether or not at any time a Potential Adjustment Event has occurred and where it determines such an event has occurred, the Calculation Agent will, in its sole and absolute discretion, determine whether such Potential Adjustment Event has a diluting or concentrative effect on the theoretical value of the relevant Securities and, if so, will make such adjustment(s) as it in its sole and absolute discretion determines to be appropriate, if any, to the formula for the Final Redemption Amount or any amount of interest set out in the relevant Pricing Supplement, the number of Securities to which each Note relates, the number of Securities comprised in a basket, the amount, the number of or type of shares, other securities or other property which may be delivered pursuant to such Notes and/or any other adjustment(s) and, in any case, any other variable relevant to the settlement or payment terms of the relevant Notes as the Calculation Agent determines, in its sole and absolute discretion, to be appropriate to account for that diluting or concentrative effect and determine, in its sole and absolute discretion, the effective date(s) of such adjustment(s). In addition, in relation to China Connect Underlying only, in making such determinations, the Calculation Agent may (but need not) take into account any requirement, adjustment and/or limitation that may be imposed by the China Connect Service or any action or inaction by any one or more of the Exchange, SEHK, CSDCC and HKSCC in relation to such Potential Adjustment Event in respect of Securities held through the China Connect Service.

(ii) *Extraordinary Events*

Following the occurrence of any Extraordinary Event, the Issuer will, in its sole and absolute discretion, determine whether or not the relevant Notes shall continue and, if so, determine, in its sole and absolute discretion, any adjustments to be made. If the Issuer determines that the relevant Notes shall continue, the Calculation Agent may make such adjustment(s) as it, in its sole and absolute discretion, determines to be appropriate, if any, to the formula for the Final Redemption Amount or any amount of interest set out in the relevant Pricing Supplement, the number of Securities to which each Note relates, the number of Securities comprised in a basket, the amount, the number of or type of shares, other securities or other property which may be delivered pursuant to such Notes and, in any case, any other variable relevant to the settlement or payment terms of the relevant Notes and/or any other adjustment which change or adjustment shall be effective on such date selected by the Calculation Agent in its sole and absolute discretion. If the Issuer determines in its sole and

absolute discretion that the relevant Notes shall be terminated, then the Notes shall be terminated as of the date selected by the Calculation Agent in its sole and absolute discretion and the entitlements of the relevant Noteholders to receive the relevant Securities Transfer Amount or Final Redemption Amount (or any other payment to be made by the Issuer) as the case may be, shall cease and the Issuer's obligations under the relevant Notes shall be satisfied in full upon payment of such amount as in the opinion of the Calculation Agent (such opinion to be made in its sole and absolute discretion) is fair in the circumstances by way of compensation for the termination of the Notes. In relation to China Connect Underlying only, in making such determinations, the Calculation Agent may (but need not) take into account any requirement, adjustment and/or limitation that may be imposed by the China Connect Service or any action or inaction by any one or more of the Exchange, SEHK, CSDCC and HKSCC in relation to such Merger Event or Tender Offer in respect of Securities held through the China Connect Service.

(iii) *Conversion*

In respect of an Equity-Linked Note, following the occurrence of any Conversion, the Calculation Agent will, in its sole and absolute discretion, determine whether or not the Notes will continue and, if so, determine, in its sole and absolute discretion, any adjustment(s) to be made. If the Calculation Agent determines that the Notes shall continue, it may make such adjustment(s) as it, in its sole and absolute discretion, determines to be appropriate to the formula for the Final Redemption Amount or any amount of interest set out in the relevant Pricing Supplement, the number of Securities to which each Note relates, the number of Securities comprised in a basket, the amount, number of or type of shares, other securities or other property which may be delivered under such Notes and, in any case, any other variable relevant to the settlement or payment terms of the relevant Notes and/or any other adjustment and determine, in its sole and absolute discretion, the effective date(s) of such adjustment(s). If the Calculation Agent determines in its sole and absolute discretion that the Notes shall be terminated, then the Notes shall be terminated as of the date selected by the Calculation Agent in its sole and absolute discretion and the entitlements of the relevant Noteholders to receive the relevant Securities Transfer Amount or Final Redemption Amount (or any other payment to be made by the Issuer), as the case may be, shall cease and the Issuer's obligations under the relevant Notes shall be satisfied in full upon payment of such amount as, in the opinion of the Calculation Agent (such opinion to be made by the Calculation Agent in its sole and absolute discretion) is fair in the circumstances by way of compensation for the termination of the Notes.

(iv) *Correction of Prices*

In the event that any price published or announced on a given day and utilised or to be utilised for the purpose of any calculation or determination under the Notes is subsequently corrected and the correction is published or announced by the Exchange within one Settlement Cycle after the original publication, the Calculation Agent will make such adjustment(s) as it in its sole and absolute discretion determines to be appropriate, if any, to the amount payable in respect of the Notes and their terms to account for such correction and the Calculation Agent shall determine, in its sole and absolute discretion, the effective date(s) of such adjustment(s) **provided that** if any amount has been paid in an amount which exceeds the amount that would have been payable if the correction had been taken into account, no further amount in an amount at least equal to the excess is payable in respect of the Notes and the Calculation Agent determines that it is not practicable to make such an adjustment to account fully for such correction, the Issuer shall be entitled to reimbursement of the relevant excess payment (or, as the case may be, the proportion thereof not accounted for by an adjustment made by the Calculation Agent) by the relevant Noteholder, together

with interest on that amount for the period from and including the day on which payment was originally made to (but excluding) the day of payment of reimbursement by the Noteholder (all as calculated by the Calculation Agent in its sole and absolute discretion). Any such reimbursement shall be effected in such manner as the Issuer shall determine.

(h) ***Additional Disruption Events***

Following the occurrence of any Additional Disruption Event, the Issuer will, in its sole and absolute discretion, determine whether or not the relevant Notes shall continue and, if so, determine, in its sole and absolute discretion, any adjustments to be made. If the Issuer determines that the relevant Notes shall continue, the Calculation Agent may make such adjustment(s) as it, in its sole and absolute discretion, determines to be appropriate, if any, to the formula for the Final Redemption Amount or any amount of interest set out in the relevant Pricing Supplement, the number of Securities to which each Note relates, the number of Securities comprised in a basket, the amount, the number of or type of shares, other securities or other property which may be delivered pursuant to such Notes and, in any case, any other variable relevant to the settlement or payment terms of the relevant Notes and/or any other adjustment which change or adjustment shall be effective on such date selected by the Calculation Agent in its sole and absolute discretion. If the Issuer determines in its sole and absolute discretion that the relevant Notes shall be terminated, then the Notes shall be terminated as of the date selected by the Calculation Agent in its sole and absolute discretion and the entitlements of the relevant Noteholders to receive the relevant Securities Transfer Amount or Final Redemption Amount (or any other payment to be made by the Issuer), as the case may be, shall cease and the Issuer's obligations under the relevant Notes shall be satisfied in full upon payment of such amount as in the opinion of the Calculation Agent (such opinion to be made in its sole and absolute discretion) is fair in the circumstances by way of compensation for the termination of the Notes.

(i) ***Adjustments where the Securities are Units in a Fund***

Where the Securities are specified in the relevant Pricing Supplement as being Units in a Fund, in the case of the occurrence at any time on or prior to the Valuation Date of any Extraordinary Event affecting the Fund or the value of the Units, the Calculation Agent may make any adjustment as provided in the preceding provisions of this Condition 22 or:

- (i) if the Calculation Agent determines that no adjustment that it could make under the preceding provisions of this Condition 22 would produce a commercially reasonable result:
 - (a) the Calculation Agent will use commercially reasonable efforts to identify a new underlying asset with characteristics, investment objectives and policies similar to those in effect for the Affected Units immediately prior to the occurrence of the relevant Extraordinary Event and any substitution of the new underlying asset for the Affected Units shall be effected at such time and in such manner as determined by the Calculation Agent in its sole and absolute discretion; and
 - (b) if necessary, the Calculation Agent will adjust any relevant terms, including, but not limited to, adjustments to account for changes in volatility, investment strategy or liquidity relevant to the Units or the Notes; or
- (ii) if the Calculation Agent determines in its sole and absolute discretion that the relevant Notes shall be terminated, then the Notes shall be terminated as of the date selected by the Calculation Agent in its sole and absolute discretion and the entitlements of the relevant Noteholders to receive the relevant Securities Transfer Amount or Final Redemption Amount any accrued interest, as the case may be, shall cease and the Issuer's obligations under the relevant Notes shall be satisfied in full upon payment of an amount as in the opinion of the Calculation Agent (such opinion to be made in its sole and absolute discretion) is fair in the circumstances by way of compensation for the termination of the Notes.

In this Condition 22(i) "**Affected Unit(s)**" means each Unit subject to an applicable Extraordinary Event.

(j) ***Adjustments to Indices for Inflation Rate-Linked Notes***

With respect to Inflation Rate-linked Notes, the following provisions shall apply in lieu of Condition 22(f) (*Adjustments to Indices*):

(A) *Definitions*

In this Condition:

"**Affected Payment Date**" has the meaning given in (B) below;

"**Fallback Bond**" means a bond selected by the Calculation Agent and issued by the government or one of the governments (but not any government agency) of the country (or countries) to whose level of inflation the relevant Index relates and which pays a coupon and/or redemption amount which is calculated by reference to the level of inflation in such country (or countries), with a maturity date which falls on the same day as the Maturity Date or the Settlement Date, as the case may be, or such other date as the Calculation Agent shall select if there is no such bond maturing on the Maturity Date or Settlement Date, as the case may be. If any bond so selected is redeemed, the Calculation Agent will select a

new Fallback Bond on the same basis, but selected from all eligible bonds in issue at the time the original Fallback Bond is redeemed (including any bond for which the redeemed bond is exchanged);

"**Reference Month**" means the calendar month for which the level of the Index was reported, regardless of when this information is published or announced. If the period for which the level of the Index was reported is a period other than a month, the Reference Month is the period for which the level of the Index was reported;

"**Related Bond**" means, if specified as applicable in the relevant Pricing Supplement, means the bond specified as such in the relevant Pricing Supplement or, if specified as applicable in the relevant Pricing Supplement and no bond is specified therein, the Fallback Bond, and the Calculation Agent shall use the Fallback Bond for any Related Bond determination; and

"**Substitute Index Level**" means the level of the Index, determined by the Calculation Agent pursuant to (C) below, in respect of an Affected Payment Date.

(B) *Delay of Publication*

If any level of the Index for a Reference Month relevant to the calculation of a payment of interest has not been published or announced by the day that is five Business Days prior to the relevant Interest Payment Date, Automatic Early Redemption Date, Instalment Date, Optional Redemption Date (Call Option), Optional Redemption Date (Put Option), other early redemption date or Maturity Date, as the case may be (the "**Affected Payment Date**"), the Calculation Agent shall determine the relevant level of the Index using the following methodology:

- (i) If Related Bond is specified as applicable in the relevant Pricing Supplement, the Calculation Agent will take the same action to determine the Substitute Index Level for the Affected Payment Date as that taken by the calculation agent pursuant to the terms and conditions of the Related Bond;
- (ii) If (A) Related Bond is specified as not applicable in the relevant Pricing Supplement; or (B) the Calculation Agent is unable to determine the Substitute Index Level under (i) above for any reason, then the Calculation Agent shall determine the Substitute Index Level as follows:

$$\text{Substitute Index Level} = \text{Base Level} \times (\text{Latest Level} / \text{Reference Level})$$

where:

"**Base Level**" means the level of the Index (excluding any "flash" estimates) published or announced by the Index Sponsor in respect of the month which is 12 calendar months prior to the month for which the Substitute Index Level is being determined;

"**Latest Level**" means the latest level of the Index (excluding any "flash" estimates) published or announced by the Index Sponsor prior to the month in respect of which the Substitute Index Level is being calculated; and

"**Reference Level**" means the level of the Index (excluding any "flash" estimates) published or announced by the Index Sponsor in respect of the month that is 12 calendar months prior to the month referred to in "Latest Level" above. For the avoidance of doubt, any Reference Level published or announced at any time after the day that is five Business

Days prior to the next Interest Payment Date, Automatic Early Redemption Date, Instalment Date, Optional Redemption Date (Call Option), Optional Redemption Date (Put Option), other early redemption date and/or the Maturity Date, as the case may be, will not be used in any calculations and the Substitute Index Level so determined pursuant to this sub-paragraph (B) will be the definitive level.

(C) *Cessation of Publication*

If a level for the Index has not been published or announced for two consecutive months or the Index Sponsor announces that it will no longer continue to publish or announce the Index, then the Calculation Agent shall determine a Successor Index (in lieu of any previously applicable Index) for the purposes of the Notes by using the following methodology:

- (i) If at any time a successor index has been designated by the calculation agent pursuant to the terms and conditions of the Related Bond, such successor index shall be designated a "**Successor Index**" for the purposes of all subsequent determinations of interest payable and/or of an Early Redemption Amount or of the Final Redemption Amount, notwithstanding that any other Successor Index may previously have been determined.
- (ii) If a Successor Index has not been determined under (i) above, and a notice has been given or an announcement has been made by the Index Sponsor, specifying that the Index will be superseded by a replacement index specified by the Index Sponsor, and the Calculation Agent determines that such replacement index is calculated using the same or substantially similar formula or method of calculation as used in the calculation of the previously applicable Index, such replacement index shall be the Successor Index from the date that such replacement Index comes into effect.
- (iii) If a Successor Index has not been determined under (i) or (ii) above, the Calculation Agent (acting in its sole and absolute discretion) will determine an appropriate alternative index for such Affected Payment Date, and such index will be deemed a "Successor Index".
- (iv) If the Calculation Agent determines that there is no appropriate alternative index, then the Notes shall be redeemed on the date selected by the Calculation Agent in its sole and absolute discretion and the entitlements of the relevant Noteholders to receive any remaining payments of interest and the relevant Early Redemption Amount or the Final Redemption Amount (as applicable) shall cease and the Issuer's obligations under the relevant Notes shall be satisfied in full upon payment of such amount as in the opinion of the Calculation Agent (such opinion to be made in its sole and absolute discretion) is fair in the circumstances by way of compensation for the early redemption of the Notes.

(D) *Rebasing of the Index*

If the Calculation Agent determines that the Index has been or will be rebased at any time, the Index as so rebased (the "**Rebased Index**") will be used for purposes of determining the level of an Index from the date of such rebasing; **provided, however, that** the Calculation Agent shall make such adjustments as are made by the calculation agent pursuant to the terms and conditions of the Related Bond, if any, to the levels of the Rebased Index so that the Rebased Index levels reflect the same rate of inflation as the Index before it was rebased. If there is no Related Bond, the Calculation Agent shall make adjustments to the

levels of the Rebased Index so that the Rebased Index levels reflect the same rate of inflation as the Index before it was rebased. Any such rebasing shall not affect any prior payments made under the Notes.

(E) *Material Modification*

If, on or prior to the day that is five Business Days before the next date which is an Interest Payment Date, the relevant Automatic Early Redemption Date, an Instalment Date, the relevant Optional Redemption Date (Call Option), the relevant Optional Redemption Date (Put Option), any other early redemption date or the Maturity Date (as the case may be), an Index Sponsor announces that it will make a material change to an Index, then the Calculation Agent shall make any such adjustments to the Index consistent with adjustments made to the Related Bond, or, if there is no Related Bond, only those adjustments necessary for the modified Index to continue as the Index.

(F) *Manifest Error in Publication*

If, within thirty days of publication and prior to the relevant Automatic Early Redemption Date, an Instalment Date, the relevant Optional Redemption Date (Call Option), the relevant Optional Redemption Date (Put Option), any other early redemption date or the Maturity Date, as the case may be, the Calculation Agent determines that the Index Sponsor has corrected the level of the Index to remedy a manifest error in its original publication, the Calculation Agent will take such action as it may deem necessary and practicable to give effect to such correction.

(k) *Events relating to DR-Linked Notes*

In relation to DR-Linked Notes only, if a Delisting of the Securities occurs or the Depository announces that the Deposit Agreement is (or will be) (or is at any time, whether or not announced by the Depository) terminated, then the Calculation Agent will, in its sole and absolute discretion, determine whether or not the Notes shall continue. If the Calculation Agent determines that:

- (i) the Notes shall continue, it shall elect whether the Security shall thereafter be (x) the Replacement DRs or the Underlying Security and it may make such adjustment(s) as it, in its sole and absolute discretion, determines to be appropriate, if any, to the terms of the Notes (including, without limitation, any change to the notional number of Securities or/or the formula for the Final Redemption Amount), and which change or adjustment(s) shall be effective on such date selected by the Calculation Agent in its sole and absolute discretion; or
- (ii) the Notes shall not continue, then the Notes shall be redeemed as of the date selected by the Calculation Agent in its sole and absolute discretion and the entitlements of the relevant Noteholders to receive the relevant Final Redemption Amount (or any other payment to be made by the Issuer) as the case may be, shall cease and the Issuer's obligations under the relevant Notes shall be satisfied in full upon payment of an amount which in the opinion of the Calculation Agent (such opinion to be made in its sole and absolute discretion) is fair in the circumstances by way of compensation for the termination of the Notes.

¹⁶ Not required for debt securities with a denomination per unit of at least EUR 100,000.

¹⁷ Under current ECB requirements, in order to be eligible as collateral a security must, amongst other things, be denominated in Euros and listed on a regulated market or certain non-regulated markets such as STEP and Luxembourg EUR MTF. The Offering Memorandum does not comprise (i) a prospectus for the purposes of Part VI of the Financial Services and Markets Act 2000 (as amended) or (ii) a base prospectus for the purposes of Directive 2003/71/EC as amended (the "Prospectus Directive"). The Offering Memorandum has been prepared solely with regard to Notes that are not to be admitted to listing or trading on any regulated market for the purposes of Directive 2004/39/EC and not to be offered to the public in a Member State (other than pursuant to one or more of the exemptions set out in Article 3.2 of the Prospectus Directive).

HSBC Bank plc as Issuer and Dealer expressly disclaims any responsibility for sales of Notes to retail investors in breach of the PRIIPs Regulation.]²⁰

[The following alternative language applies if (i) the first tranche of an issue which is being increased was issued under an offering document with an earlier date; or (ii) Notes which are being issued under this offering document are subject to terms and conditions as originally set out in an offering document with an earlier date.]

[Terms used herein shall be deemed to be defined as such for the purposes of the [2005/2006/2007/2008/2009/2010/2011/2012/2013/2014/2015] Conditions (the "[2005]/[2006]/[2007]/[2008]/[2009]/[2010]/[2011]/[2012]/[2013]/[2014]/[2015] Conditions"), which are defined in, and incorporated by reference into, the Offering Memorandum and which are applicable to the Notes. Investors should consider carefully the risk factors set forth under "Risk Factors" in the Offering Memorandum.

⁸ Not required for debt securities with a denomination per unit of at least EUR 100,000.

⁹ Under current ECB requirements, in order to be eligible as collateral a security must, amongst other things, be denominated in Euros and listed on a regulated market or certain non-regulated markets such as STEP and Luxembourg EUR MTF. Accordingly, choose "No" if the Notes are not denominated in Euro or not listed on regulated market or any of the relevant non-regulated market as specified in Chapter 6 of the ECB's February 2011 "The Implementation of Monetary Policy in the Euro Area - General Documentation on Eurosystem monetary policy instruments and procedures" brochure.

[Whilst the designation is specified as "No" at the date of this Pricing Supplement, should the Eurosystem eligibility criteria be amended in the future such that the Notes are capable of meeting them, then the Issuer may (in its absolute discretion) elect to deposit the Notes with one of the ICSDs as common safekeeper [(and registered in the name of a nominee of one of the ICSDs acting as common safekeeper,)]*[include this text for registered notes]*. Note that this does not necessarily mean that the Notes will then be recognised as eligible collateral for Eurosystem monetary policy and intra day credit operations by the Eurosystem at any time during their life. - (1) in respect of an Index-Linked Warrant or Cash Settlement Equity-Linked Warrant, the arithmetic mean of the Reference Price of the Securities or (as the case may be) of the Reference Level of the Index on each Averaging Date;
 - (2) in respect of an Index Basket Warrant, the arithmetic mean of the amounts for the Basket determined by the Calculation Agent in its sole and absolute discretion as provided in the relevant Pricing Supplement as of the relevant Valuation Time(s) on each Averaging Date or, if no means for determining the Final Index Level is so provided, the arithmetic mean of the amounts for such basket calculated on each Averaging Date as the sum of the Reference Levels of each Index comprised in the Basket (weighted or adjusted in relation to each Index as provided in the relevant Pricing Supplement); and
 - (3) in respect of a Cash Settlement Security Basket Warrant, the arithmetic mean of the prices for the Basket determined by the Calculation Agent in its sole and absolute discretion as provided in the relevant Pricing Supplement as of the relevant Valuation Time(s) on each Averaging Date or, if no means for determining the Final Price is so provided, the arithmetic mean of the prices for the Basket calculated on each Averaging Date as the sum of the values calculated for the Securities of each Underlying Company as the product of (aa) the Reference Price of such Security and (bb) the number of such Securities comprised in such basket (weighted or adjusted in relation to each Security as provided in the relevant Pricing Supplement).

(B) If any Averaging Date is a Disrupted Day, then, if the consequence specified in the relevant Pricing Supplement in relation to "**Averaging Date Market Disruption**" is:

(1) "**Omission**", then such Averaging Date will be deemed not to be a relevant Averaging Date for purposes of determining the relevant Final Price **provided that**, if through the operation of this provision no Averaging Date would occur with respect to the relevant Valuation Date, then Condition 18(b)(i) will apply for purposes of determining the relevant level, price or amount on the final Averaging Date in respect of that Valuation Date as if such final Averaging Date were a Valuation Date that was a Disrupted Day. If any Averaging Dates in relation to a Valuation Date occur after that Valuation Date as a result of the occurrence of a Disrupted Day, then (i) the relevant Cash Settlement Payment Date or the relevant Settlement Date, as the case may be, or (ii) the occurrence of an Extraordinary Event or a Potential Adjustment Event shall be determined by reference to the last such Averaging Date as though it were that Valuation Date;

(2) "**Postponement**", then Condition 18(b)(i) will apply for purposes of determining the relevant level, price or amount on that Averaging Date as if such Averaging Date were a Valuation Date that was a Disrupted Day irrespective of whether, pursuant to such determination, that deferred Averaging Date would fall on a day that already is or is deemed to be an Averaging Date for the Warrant. If any Averaging Dates in relation to a Valuation Date occur after that Valuation Date as a result of the occurrence of a Disrupted Day, then (i) the relevant Cash Settlement Payment Date or the relevant Settlement Date, as the case may be, or (ii) the occurrence of an Extraordinary Event or a Potential Adjustment Event shall be determined by reference to the last such Averaging Date as though it were that Valuation Date; or

(3) "**Modified Postponement**", then:

(aa) in the case of an Index-Linked Warrant or Equity-Linked Warrant, the Averaging Date shall be the first succeeding Valid Date. If the first succeeding Valid Date has not occurred as of the Valuation Time on the Limit Valuation Date immediately following the original date that, but for the occurrence of another Averaging Date or Disrupted Day, would have been the final Averaging Date (the "**Scheduled Final Averaging Date**") in relation to the relevant Scheduled Valuation Date, then the Limit Valuation Date shall be deemed to be the Averaging Date, notwithstanding the fact that such day is a Disrupted Day (irrespective of whether that Limit Valuation Date is already an Averaging Date), and:

(i) in respect of an Index Warrant, the Calculation Agent shall determine the relevant level for that Averaging Date in accordance with Condition 18(b)(i)(A)(1); and

(ii) in respect of a Equity-Linked Warrant, the Calculation Agent shall determine, in its sole and absolute discretion, the relevant price for

that Averaging Date in accordance with Condition 18(b)(i)(A)(2); and

- (bb) in the case of an Index Basket Warrant or a Security Basket Warrant, the Averaging Date for each Index or Security not affected by the occurrence of a Disrupted Day shall be the day specified in the relevant Pricing Supplement as an Averaging Date in relation to the relevant Valuation Date (the "**Scheduled Averaging Date**") and the Averaging Date for an Index or Security affected by the occurrence of a Disrupted Day shall be the first succeeding Valid Date in relation to such Index or Security. If the first succeeding Valid Date in relation to such Index or Security has not occurred as of the Valuation Time on the Limit Valuation Date immediately following the Scheduled Final Averaging Date, then the Limit Valuation Date shall be deemed to be the Averaging Date (irrespective of whether that Limit Valuation Date is already an Averaging Date) and:
- (i) in respect of an Index Basket Warrant, the Calculation Agent shall determine the relevant level for that Averaging Date in accordance with Condition 18(b)(i)(B); and
 - (ii) in respect of a Security Basket Warrant, the Calculation Agent shall determine, in its sole and absolute discretion, the relevant amount for that Averaging Date in accordance with Condition 18(b)(i)(C).

If any Averaging Dates in relation to a Valuation Date occur after that Valuation Date as a result of the occurrence of a Disrupted Day, then (i) the relevant Cash Settlement Payment Date or Settlement Date, as the case may be, or (ii) the occurrence of an Extraordinary Event or Potential Adjustment Event shall be determined by reference to the last such Averaging Date as though it were that Valuation Date.

If a Valuation Date is postponed pursuant to this Condition 18(b) (*Consequences of Disrupted Days*), the Scheduled FX Fixing Date falling on or immediately following the Scheduled Valuation Date may, in the Calculation Agent's sole and absolute discretion, be postponed (i) such that the Scheduled FX Fixing Date will be deemed to occur the number of days following the Valuation Date as the Scheduled FX Fixing Date would have occurred following the Scheduled Valuation Date or (ii) if the Scheduled Valuation Date and Scheduled FX Fixing Date are the same date, to the Valuation Date, provided, in each case, that if the postponed Scheduled FX Fixing Date would, as a result of this paragraph, occur on a day which is not a Relevant Currency Business Day, it will be postponed to the immediately following Relevant Currency Business Day.

(c) ***Adjustments to Indices***

This Condition 18(c) is applicable only in relation to Index-Linked Warrants and Index Basket Warrants other than Inflation Rate-Linked Warrants in relation to which Condition 18(i) shall apply.

(i) *Successor Index*

If a relevant Index is (A) not calculated and announced by the Index Sponsor but is calculated and published by a successor to the Sponsor acceptable to the Calculation Agent, or (B) replaced by a successor index using, in the determination of the Calculation Agent, the same or a substantially similar formula for and method of calculation as used in the calculation of that Index, then in each case that Index (the "**Successor Index**") will be deemed to be the Index.

(ii) *Index Modification*

If on or prior to any Valuation Date or Averaging Date, a relevant Index Sponsor announces that it will make a material change in the formula for or the method of calculating that Index or in any other way materially modifies that Index (other than a modification prescribed in that formula or method to maintain that Index in the event of changes in constituent stock and capitalisation or other routine events) (an "**Index Modification**"), then the Calculation Agent shall determine, in its sole and absolute discretion, whether such Index Modification has a material effect on the Warrants, and if so, shall make such adjustment(s) (if any) as it determines appropriate to account for the economic effect of the Index Modification and determine the effective date of any such modification or adjustment.

(iii) *Index Cancellation*

If on or prior to the Valuation Date or Averaging Date (A) the Index Sponsor fails to calculate and announce a relevant Index, (B) the Index Sponsor announces that it suspends the calculation and publication of the level of a relevant Index, or (C) the Index Sponsor permanently cancels the Index and no Successor Index exists (each an "**Index Cancellation**"), then:

- (1) the Issuer shall as soon as is reasonably practicable after determining the same give notice (an "**Index Cancellation Notice**") of such Index Cancellation to the Warrantholders (with a copy to the Calculation Agent) in accordance with Condition 11 (*Notices*);
- (2) if Index Substitution is specified as being applicable in the relevant Pricing Supplement, the Issuer shall, in its sole and absolute discretion (acting in good faith and a commercially reasonable manner), determine whether or not and the date as of which the Index is to be substituted with a Substitute Index and, if it so determines, it shall give an Index Substitution Notice to the Warrantholders (with a copy to the Calculation Agent) in accordance with Condition 11 (*Notices*) and, with effect from the date so determined, the Substitute Index shall be deemed to be the Index; and
- (3) if no Substitute Index has been identified within ten Business Days of the giving of such Index Cancellation Notice or if Index Substitution has not been specified as being applicable in the relevant Pricing Supplement, the Issuer shall, in its sole and absolute discretion (acting in good faith and a commercially reasonable manner), determine whether or not the relevant Warrants shall continue and:
 - (A) if it determines that the Warrants shall continue, then the Calculation Agent shall determine, in its sole and absolute discretion, the Final Index Level for such Valuation Date or the Reference Level for such Averaging Date, as the case may be using, in lieu of a published level of that Index, the level for that Index as at that Valuation Date or Averaging Date (as applicable) as determined by the Calculation Agent in its sole

and absolute discretion in accordance with the formula for and method of calculating that Index last in effect prior to the Index Cancellation, but using only those components that comprised that Index immediately prior to that Index Cancellation; and

- (B) if it determines that the Warrants shall not continue, the Issuer shall terminate the relevant Warrants as of the date selected by the Issuer and give notice thereof to the Warrantholders (with a copy to the Calculation Agent) in accordance with Condition 11 (*Notices*), specifying the early redemption amount and early redemption date, and the entitlements of the relevant Warrantholders to receive the Cash Settlement Amount (or any other payment to be made by the Issuer, as the case may be) shall cease and the Issuer's obligations under the relevant Warrants shall be satisfied in full upon payment of such amount as is determined by the Calculation Agent to be the fair market value of the Warrants immediately prior (and ignoring the circumstances leading) to such early redemption, adjusted to account fully for any reasonable expenses, costs or proceeds, as the case may be, to the Issuer and/or any affiliate of the Issuer of unwinding any underlying and/or related hedging and funding arrangements.

For these purposes:

"Index Substitution Notice" means a notice specifying a Substitute Index to be substituted for the Index and the date as of which such substitution is to take effect; and

"Substitute Index" means a successor index identified by the Calculation Agent using commercially reasonable efforts, with characteristics, objectives and rules similar to the Index in effect immediate prior to the occurrence of the Index Cancellation.

- (iv) *Correction of Index Levels*

If, in respect of an Index Warrant or an Index Basket Warrant, the level of an Index published by the Index Sponsor at any time and used or to be used by the Calculation Agent for any calculation or determination under the Warrants is subsequently corrected and the correction is published by the Index Sponsor after the original publication, the Calculation Agent will make such adjustment as it in its sole and absolute discretion determines to be appropriate, if any, to the settlement or payment terms of the Warrants to account for such correction **provided that** if any amount has been paid or delivered in an amount or value which exceeds the amount that would have been payable or deliverable if the correction had been taken into account, no further amount in an amount at least equal to the excess is payable or deliverable in respect of the Warrants and the Calculation Agent determines that it is not practicable to make such an adjustment to account fully for such correction, the Issuer shall be entitled to reimbursement (or, in the case of a delivery, payment of the value) of, the relevant excess payment or delivery (or, as the case may be, the proportion thereof not accounted for by an adjustment made by the Calculation Agent) by the relevant Warrantholder, together with interest on that amount for the period from and including the day on which payment or delivery was originally made to (but excluding) the day of payment of reimbursement (or value) by the Warrantholder (all as calculated by the Calculation Agent in its sole and absolute discretion). Any such reimbursement shall be effected in such manner as the Issuer shall determine.

(d) ***Delivery Disruption of Physical Settlement Warrants***

This Condition 18(d) is applicable only in relation to Warrants specified in the relevant Pricing Supplement as being Physical Settlement Warrants and to Warrants in relation to which the Issuer has elected for optional Physical Settlement in accordance with Condition 4(f).

If the Calculation Agent determines, in its sole and absolute discretion, that a Delivery Disruption Event has occurred, it shall notify the Issuer who shall promptly notify the relevant Warrantholder(s) and the Issuer may then:

- (A) determine, in its sole and absolute discretion, that the obligation to deliver the relevant Securities Transfer Amount will be terminated and the Issuer will pay such amount as in the opinion of the Calculation Agent (such opinion to be made in its sole and absolute discretion) is fair in the circumstances by way of compensation for the non-delivery of the Securities Transfer Amount, in which event the entitlements of the respective Warrantholder(s) to receive the relevant Securities Transfer Amount shall cease and the Issuer's obligations under the Warrants shall be satisfied in full upon payment of such amount; or
- (B) deliver on the Settlement Date such amount of the Securities Transfer Amount (if any) as it can deliver on that date and pay such amount as in the opinion of the Calculation Agent (such opinion to be made in its sole and absolute discretion) is fair in the circumstances by way of compensation for the non-delivery of the remainder of the Securities Transfer Amount, in which event the entitlements of the respective Warrantholder(s) to receive the relevant Securities Transfer Amount shall cease and the Issuer's obligations under the Warrants shall be satisfied in full upon payment of such amount.

Where this Condition 18(d) fails to be applied, insofar as the Calculation Agent determines in its sole and absolute discretion to be practical, the same shall be applied as between the Warrantholders on a *pro rata* basis, but subject to such rounding down (whether of the amount of a payment or of a number of Securities to be delivered) and also to such other adjustments as the Calculation Agent determines, in its sole and absolute discretion, to be appropriate to give practical effect to such provisions.

(e) ***Settlement Disruption of Physical Settlement Warrants***

This Condition 18(e) is applicable only in relation to Warrants specified in the relevant Pricing Supplement as being Physical Settlement Warrants.

The Calculation Agent shall determine, in its sole and absolute discretion, whether or not at any time a Settlement Disruption Event has occurred and where it determines such an event has occurred and so has prevented delivery of Securities on the original day that but for such Settlement Disruption Event would have been the Settlement Date, then the Settlement Date will be the first succeeding day on which delivery of such Securities can take place through the relevant Clearing System unless a Settlement Disruption Event prevents settlement on each of the eighth relevant Clearing System Business Days immediately following the original date (or during such other period (the "**Disruption Period**") specified in the relevant Pricing Supplement) that, but for the Settlement Disruption Event, would have been the Settlement Date. In that case, if the Securities are debt securities, the Issuer shall use reasonable efforts to deliver such Securities promptly thereafter in a commercially reasonable manner (as determined by the Calculation Agent in its sole and absolute discretion) outside the Clearing System and in all other cases (a) if such Securities can be delivered in any other commercially reasonable manner (as determined by the Calculation Agent in its sole and absolute discretion), then the Settlement Date will be the first Business Day on which settlement of a sale of Securities executed on the eighth relevant Clearing System Business Day, or during such other period specified in the relevant Pricing Supplement, customarily would take place using such other commercially reasonable manner (as determined by the Calculation Agent in its sole and absolute discretion) of delivery (which other manner of delivery will be

deemed the relevant Clearing System for the purposes of delivery of the relevant Securities), and (b) if such Securities cannot be delivered in any other commercially reasonable manner (as determined by the Calculation Agent in its sole and absolute discretion), then the Settlement Date will be postponed until delivery can be effected through the relevant Clearing System or in any other commercially reasonable manner.

For the avoidance of doubt, where a Settlement Disruption Event affects some but not all of the Securities comprised in a basket, the Settlement Date for Securities not affected by the Settlement Disruption Event will be the first day on which settlement of a sale of such Securities executed on the Settlement Date customarily would take place through the relevant Clearing System.

(f) *Adjustments and Events affecting Securities*

This Condition 18(f) is applicable only in relation to Security Warrants and Security Basket Warrants.

(i) *Potential Adjustment Events*

The Calculation Agent shall determine, in its sole and absolute discretion, whether or not at any time a Potential Adjustment Event has occurred and where it determines such an event has occurred, the Calculation Agent will, in its sole and absolute discretion, determine whether such Potential Adjustment Event has a diluting or concentrative effect on the theoretical value of the relevant Securities and, if so, will make such adjustment as it in its sole and absolute discretion determines to be appropriate, if any, to the Strike Price, the number of Securities to which each Warrant relates and to any other exercise, settlement, payment or other term of the relevant Warrants, including without limitation the amount, number or type of cash, Securities, other securities or other property which may be transferred under such Warrants and determine the effective date(s) of such adjustment(s). In addition, in relation to China Connect Underlying only, in making such determinations, the Calculation Agent may (but need not) take into account any requirement, adjustment and/or limitation that may be imposed by the China Connect Service or any action or inaction by any one or more of the Exchange, SEHK, CSDCC and HKSCC in relation to such Potential Adjustment Event in respect of Securities held through the China Connect Service.

(ii) *Extraordinary Events*

Following the occurrence of any Extraordinary Event, the Calculation Agent will, in its sole and absolute discretion, determine whether or not the Warrants shall continue and, if so, determine, in its sole and absolute discretion, any adjustments to be made. If the Calculation Agent determines that the relevant Warrants shall continue, it may make such adjustment as it, in its sole and absolute discretion, determines to be appropriate, if any, to the amount, number or type of Securities, other property or securities which may be transferred under the Warrants, including, without limitation, the Strike Price, the formula for the Cash Settlement Amount set out in the relevant Pricing Supplement and, in any case, any other variable relevant to the settlement or payment terms of the relevant Warrants and/or any other adjustment which change or adjustment shall be effective on such date selected by the Calculation Agent in its sole and absolute discretion determine. If the Calculation Agent determines in its sole and absolute discretion that the relevant Warrants shall be terminated, then the Warrants shall cease to be exercisable (or, in the case of Warrants which have been exercised, the entitlements of the respective exercising Warrantholders to receive Securities or the Cash Settlement Amount, as the case may be, pursuant to such exercise shall cease) and the Issuer's obligations under the relevant Warrants shall be satisfied in full upon payment of such amount as in the opinion of the Calculation Agent (such opinion to be made in its sole and absolute discretion) is fair in the circumstances by way of compensation for the

termination of the Warrants. In relation to China Connect Underlying only, in making such determinations, the Calculation Agent may (but need not) take into account any requirement, adjustment and/or limitation that may be imposed by the China Connect Service or any action or inaction by any one or more of the Exchange, SEHK, CSDCC and HKSCC in relation to such Merger Event or Tender Offer in respect of Securities held through the China Connect Service.

(iii) *Conversion*

In respect of a Security Warrant or a Security Basket Warrant which relates to debt securities, following the occurrence of any Conversion, the Calculation Agent will, in its sole and absolute discretion, determine whether or not the Warrants will continue and, if so, determine, in its sole and absolute discretion, any adjustments to be made. If the Calculation Agent determines that the Warrants shall continue, it may make such adjustment as it, in its sole and absolute discretion, determines to be appropriate to the amount, number or type of Securities (including the number of Securities comprised in the Basket), other property or securities which may be transferred under the Warrants, including without limitation the Strike Price, the formula for the Cash Settlement Amount set out in the relevant Pricing Supplement and, in any case, any other variable relevant to the settlement or payment terms of the relevant Warrants and/or any other adjustment and determine, in its sole and absolute discretion, the effective date(s) of such adjustment. If the Calculation Agent determines, in its sole and absolute discretion, that the Warrants shall be terminated, then the Warrants shall cease to be exercisable (or, in the case of any Warrants which have been exercised, the entitlements of the respective exercising Warrantholders to receive Securities or the Cash Settlement Amount, as the case may be, pursuant to such exercise shall cease) as of the date selected by the Calculation Agent in its sole and absolute discretion and the Issuer's obligations under the Warrants shall be satisfied in full upon payment of such amount as, in the opinion of the Calculation Agent (such opinion to be made by the Calculation Agent in its sole discretion) is fair in the circumstances by way of compensation for the termination of the Warrants.

(iv) *Correction of Prices*

In the event that any price published or announced on a given day and utilised or to be utilised for the purpose of any calculation or determination under the Warrants is subsequently corrected and the correction is published or announced by the Exchange within one Settlement Cycle after the original publication, the Calculation Agent will make such adjustment(s) as it in its sole and absolute discretion determines to be appropriate, if any, to the settlement or payment terms of the Warrants to account for such correction and the Calculation Agent shall determine, in its sole and absolute discretion, the effective date(s) of such adjustment(s) **provided that** if any amount has been paid or delivered in an amount or value which exceeds the amount that would have been payable or deliverable if the correction had been taken into account, no further amount in an amount at least equal to the excess is payable or deliverable in respect of the Warrants and the Calculation Agent determines that it is not practicable to make such an adjustment to account fully for such correction, the Issuer shall be entitled to reimbursement (or, in the case of a delivery, payment of the value) of, the relevant excess payment or delivery (or, as the case may be, the proportion thereof not accounted for by an adjustment made by the Calculation Agent) by the relevant Warrantholder, together with interest on that amount for the period from and including the day on which payment or delivery was originally made to (but excluding) the day of payment of reimbursement (or value) by the Warrantholder (all as calculated by the Calculation Agent in its sole and absolute discretion). Any such reimbursement shall be effected in such manner as the Issuer shall determine.

(g) *Additional Disruption Events*

Following the occurrence of any Additional Disruption Event, the Calculation Agent will, in its sole and absolute discretion, determine whether or not the Warrants shall continue and, if so, determine, in its sole and absolute discretion, any adjustments to be made. If the Calculation Agent determines that the relevant Warrants shall continue, the Calculation Agent may make such adjustment as it, in its sole and absolute discretion, determines to be appropriate, if any, to the amount, number or type of Securities (including the number of Securities comprised in the Basket), other property or securities which may be transferred under the Warrants, including, without limitation, the Strike Price, the formula for the Cash Settlement Amount set out in the relevant Pricing Supplement and, in any case, any other variable relevant to the settlement or payment terms of the relevant Warrants, and/or any other adjustment which change or adjustment shall be effective on such date selected by the Calculation Agent in its sole and absolute discretion determine. If the Calculation Agent determines in its sole and absolute discretion that the relevant Warrants shall be terminated, then the Warrants shall cease to be exercisable (or, in the case of Warrants which have been exercised, the entitlements of the respective exercising Warrantheolders to receive Securities or the Cash Settlement Amount, as the case may be, pursuant to such exercise shall cease) and the Issuer's obligations under the relevant Warrants shall be satisfied in full upon payment of such amount as in the opinion of the Calculation Agent (such opinion to be made in its sole and absolute discretion) is fair in the circumstances by way of compensation for the termination of the Warrants.

For the purposes of each Series of Warrants, "**Additional Disruption Event**" means any event specified as such in the relevant Pricing Supplement, and for such purpose the following terms if so specified shall be deemed to have the following meanings unless otherwise provided in the relevant Pricing Supplement:

- (i) "**Change in Law**" means, in relation to any Warrants, on or after the Issue Date, (A) due to the adoption of or any change in any applicable law or regulation (including without limitation, any tax law), or (B) due to the promulgation of or any change in the interpretation by any court, tribunal or regulatory authority with competent jurisdiction of any applicable law or regulation (including any action taken by a taxing authority), the Issuer determines in its sole and absolute discretion that (x) it will, or there is a substantial likelihood that it will, with the passing of time, or has become illegal for the Issuer or any of its designated affiliates to hold, acquire or dispose of or realise, recover or remit the proceeds of the sale of disposal of, Securities, Component Securities or other components comprised in the Index relating to such Warrants or any transaction(s) or asset(s) it deems necessary to hedge the equity price risk or any other relevant price risk including, without limitation, any currency risk, of the Issuer issuing and performing its obligations with respect to the Warrants (y) it has become illegal for the Issuer or any of its designated affiliates to hold, acquire, purchase, sell or maintain one or more (i) positions or contracts in respect of any securities, options, futures, derivatives or foreign exchange in relation to such Warrants, or in relation to the Issuer's hedging activities in connection with the Warrants or in relation to the hedging activities of the Issuer or any of its designated affiliates in connection with the Warrants, (ii) stock loan transactions in relation to such Warrants or (iii) other instruments or arrangements (howsoever described) held by the Issuer or any of its designated affiliates in order to hedge, individually or on a portfolio basis, such Warrants or (z) the Issuer or any of its designated affiliates will incur a materially increased cost in performing its obligations under the Warrants (including, without limitation, due to any increase in tax liability, decrease in tax benefit or other adverse effect on its tax position);

(h) ***Adjustments where the Securities are Units in a Fund***

Where the Securities are specified in the relevant Pricing Supplement as being Units in a Fund, in the case of the occurrence at any time on or prior to the Valuation Date of any Extraordinary Event affecting the Fund or the value of the Units, the Calculation Agent may make any adjustment as provided in the preceding provisions of this Condition 18 or:

- (i) if the Calculation Agent determines that no adjustment that it could make under the preceding provision of this Condition 18 would produce a commercially reasonable result:
 - (a) the Calculation Agent will use commercially reasonable efforts to identify a new underlying asset with characteristics, investment objectives and policies similar to those in effect for the Affected Units immediately prior to the occurrence of the relevant Extraordinary Event and any substitution of the new underlying asset for the Affected Units shall be effected at such time and in such manner as determined by the Calculation Agent in its sole and absolute discretion; and
 - (b) if necessary, the Calculation Agent will adjust any relevant terms, including, but not limited to, adjustments to account for changes in volatility, investment strategy or liquidity relevant to the Units or the Warrants; or
- (ii) if the Calculation Agent determines in its sole and absolute discretion that the relevant Warrants shall be terminated, then the Warrants shall be terminated as of the date selected by the Calculation Agent in its sole and absolute discretion and the entitlements of the relevant Warrantholders to receive the relevant Securities Transfer Amount or Cash Settlement Amount, as the case may be, shall cease and the Issuer's obligations under the relevant Warrants shall be satisfied in full upon payment of an amount as in the opinion of the Calculation Agent (such opinion to be made in its sole and absolute discretion) is fair in the circumstances by way of compensation for the termination of the Warrants.

In this Condition 18(i) "**Affected Unit(s)**" means each Unit subject to an applicable Extraordinary Event.

(i) ***Adjustments to Indices for Inflation Rate-Linked Warrants***

With respect to Inflation Rate-Linked Warrants, the following provisions shall apply in lieu of Condition 18(c) (*Adjustments to Indices*).

(A) *Definitions*

In this Condition:

"**Affected Payment Date**" has the meaning given in (B) below;

"**Fallback Bond**" means a bond selected by the Calculation Agent and issued by the government or one of the governments (but not any government agency) of the country (or countries) to whose level of inflation the relevant Index relates and which pays a coupon and/or redemption amount which is calculated by reference to the level of inflation in such country (or countries), with a maturity date which falls on the same day as the Cash Settlement Payment Date or such other date as the Calculation Agent shall select if there is no such bond maturing on the Cash Settlement Payment Date. If any bond so selected is redeemed, the Calculation Agent will select a new Fallback Bond on the same basis, but selected from all eligible bonds in issue at the time the original Fallback Bond is redeemed (including any bond for which the redeemed bond is exchanged);

"Reference Month" means the calendar month for which the level of the Index was reported, regardless of when this information is published or announced. If the period for which the level of the Index was reported is a period other than a month, the Reference Month is the period for which the level of the Index was reported;

"Related Bond" means, if specified as applicable in the relevant Pricing Supplement, means the bond specified as such in the relevant Pricing Supplement or, if specified as applicable in the relevant Pricing Supplement and no bond is specified therein, the Fallback Bond, and the Calculation Agent shall use the Fallback Bond for any Related Bond determination;

"Substitute Index Level" means the level of the Index, determined by the Calculation Agent pursuant to (C) below, in respect of an Affected Payment Date; and

(B) *Delay of Publication*

If any level of the Index for a Reference Month relevant to the calculation of a payment of interest has not been published or announced by the day that is five Business Days prior to the relevant Cash Settlement Payment Date (the **"Affected Payment Date"**), the Calculation Agent shall determine the relevant level of the Index using the following methodology:

- (i) If Related Bond is specified as applicable in the relevant Pricing Supplement, the Calculation Agent will take the same action to determine the Substitute Index Level for the Affected Payment Date as that taken by the calculation agent pursuant to the terms and conditions of the Related Bond;
- (ii) If (A) Related Bond is specified as not applicable in the relevant Pricing Supplement; or (B) the Calculation Agent is unable to determine the Substitute Index Level under (i) above for any reason, then the Calculation Agent shall determine the Substitute Index Level as follows:

$$\text{Substitute Index Level} = \text{Base Level} \times (\text{Latest Level} / \text{Reference Level})$$

where:

"Base Level" means the level of the Index (excluding any "flash" estimates) published or announced by the Index Sponsor in respect of the month which is 12 calendar months prior to the month for which the Substitute Index Level is being determined;

"Latest Level" means the latest level of the Index (excluding any "flash" estimates) published or announced by the Index Sponsor prior to the month in respect of which the Substitute Index Level is being calculated; and

"Reference Level" means the level of the Index (excluding any "flash" estimates) published or announced by the Index Sponsor in respect of the month that is 12 calendar months prior to the month referred to in "Latest Level" above. For the avoidance of doubt, any Reference Level published or announced at any time after the day that is five Business Days prior to the next Cash Settlement Payment Date, will not be used in any calculations and the Substitute Index Level so determined pursuant to this sub-paragraph (B) will be the definitive level.

(C) *Cessation of Publication*

If a level for the Index has not been published or announced for two consecutive months or the Index Sponsor announces that it will no longer continue to publish or announce the Index, then the Calculation Agent shall determine a Successor Index (in lieu of any previously applicable Index) for the purposes of the Warrants by using the following methodology:

- (i) If at any time a successor index has been designated by the calculation agent pursuant to the terms and conditions of the Related Bond, such successor index shall be designated a "**Successor Index**" for the purposes of the determination of the Cash Settlement Amount or any other adjustment in respect of the Warrants, notwithstanding that any other Successor Index may previously have been determined.
- (ii) If a Successor Index has not been determined under (i) above, and a notice has been given or an announcement has been made by the Index Sponsor, specifying that the Index will be superseded by a replacement index specified by the Index Sponsor, and the Calculation Agent determines that such replacement index is calculated using the same or substantially similar formula or method of calculation as used in the calculation of the previously applicable Index, such replacement index shall be the Successor Index from the date that such replacement Index comes into effect.
- (iii) If a Successor Index has not been determined under (i) or (ii) above, the Calculation Agent (acting in its sole and absolute discretion) will determine an appropriate alternative index for such Affected Payment Date, and such index will be deemed a "Successor Index".
- (iv) If the Calculation Agent determines that there is no appropriate alternative index, then the Warrants shall be terminated as of the date selected by the Calculation Agent in its sole and absolute discretion and the entitlements of the relevant Warrantholders to receive the relevant Cash Settlement Amount (or any other payment to be made by the Issuer), as the case may be, shall cease and the Issuer's obligations under the relevant Warrants shall be satisfied in full upon payment of such amount as in the opinion of the Calculation Agent (such opinion to be made in its sole and absolute discretion) is fair in the circumstances by way of compensation for the early termination of the Warrants.

(D) *Rebasing of the Index*

If the Calculation Agent determines that the Index has been or will be rebased at any time, the Index as so rebased (the "**Rebased Index**") will be used for purposes of determining the level of an Index from the date of such rebasing; **provided, however, that** the Calculation Agent shall make such adjustments as are made by the calculation agent pursuant to the terms and conditions of the Related Bond, if any, to the levels of the Rebased Index so that the Rebased Index levels reflect the same rate of inflation as the Index before it was rebased. If there is no Related Bond, the Calculation Agent shall make adjustments to the levels of the Rebased Index so that the Rebased Index levels reflect the same rate of inflation as the Index before it was rebased. Any such rebasing shall not affect any prior payments made under the Warrants.

(E) *Material Modification*

If, on or prior to the day that is five Business Days before the next date which is a Cash Settlement Payment Date (as the case may be), an Index Sponsor announces that it will make a material change to an Index, then the Calculation Agent shall make any such adjustments to the Index consistent with adjustments

made to the Related Bond, or, if there is no Related Bond, only those adjustments necessary for the modified Index to continue as the Index.

(F) *Manifest Error in Publication*

If, within thirty days of publication and prior to the Cash Settlement Payment Date, the Calculation Agent determines that the Index Sponsor has corrected the level of the Index to remedy a manifest error in its original publication, the Calculation Agent will take such action as it may deem necessary and practicable to give effect to such correction.

(j) *Events relating to DR-Linked Warrants*

In relation to DR-Linked Warrants only, if a Delisting of the Securities occurs or the Depository announces that the Deposit Agreement is (or will be) (or is at any time, whether or not announced by the Depository) terminated, then the Calculation Agent will, in its sole and absolute discretion, determine whether or not the Warrants shall continue. If the Calculation Agent determines that:

- (i) the Warrants shall continue, it shall elect whether the Security shall thereafter be (x) the Replacement DRs or the Underlying Security and it may make such adjustment(s) as it, in its sole and absolute discretion, determines to be appropriate, if any, to the terms of the Warrants (including, without limitation, any change to the notional number of Securities or/or the formula for the Cash Settlement Amount), and which change or adjustment(s) shall be effective on such date selected by the Calculation Agent in its sole and absolute discretion; or
- (ii) the Warrants shall not continue, then the Warrants shall cease to be exercisable (or, in the case of Warrants which have been exercised, the entitlements of the respective exercising Warrantholders to receive the Cash Settlement Amount, as the case may be, pursuant to such exercise shall cease) and the Issuer's obligations under the relevant Warrants shall be satisfied in full upon payment of an amount which in the opinion of the Calculation Agent (such opinion to be made in its sole and absolute discretion) is fair in the circumstances by way of compensation for the termination of the Warrants.

1. Introduction

(a) Overview

This document constitutes the Base Terms Module, which applies to certain indices (each an "**Index**") which are sponsored, developed and promoted by the Index Sponsor. The provisions set out in the Base Terms Module apply to each Index irrespective of the asset class (or assets classes) to which such Index relates. The Index Description for any Index consists of this Base Terms Module and the Asset Terms Module(s) and the Index Terms Module applicable to such Index.

(b) Structure of the Index Description

The Index Description of any Index is composed of three constituent parts, as follows:

- (i) Base Terms Module: this document, setting out the rules and other details which apply to all Indices;
- (ii) Asset Terms Module: setting out the rules and other provisions which apply to the asset class or asset classes (such as equities or foreign exchange) referenced by a specific Index (each, an "**Asset Terms Module**"); and
- (iii) Index Terms Module: setting out the rules and other provisions which apply to a particular Index (each, an "**Index Terms Module**").

The Index Rules for any Index are contained in the Index Description for that Index. Each of the three Modules that make up an Index Description should be read together to provide a full description of the Index Rules for that Index. Each Module contains important information about each Index. None of the Modules should be read or interpreted separately from the other Modules that form part of the Index Description.

The Index Description of any Index may be amended, modified or supplemented from time to time pursuant to Section 4 (*Index maintenance*), Section 5 (*Correction of manifest error*) and Section 6 (*Amendments to the Base Terms Module*) below and otherwise as permitted by the Index Rules of that Index. The latest version of the Index Description of any Index will be made available by the Index Sponsor upon request. Users of any Index are responsible for obtaining the latest version of the Index Description.

The modular structure of each Index Description is illustrated in the following diagram:

* Multiple Investment Products may reference the performance of a single Index

2. Management Responsibilities

(a) Index Committee

The Index Sponsor has established the Index Committee to oversee the HSBC Global Markets Indices. Among other things, the Index Committee will be responsible for approving new Indices, approving certain amendments and modifications to existing Indices, determining the effects on the Indices of certain exceptional events and periodically reviewing each Index.

The Index Committee is not responsible for assessing the suitability of Indices for Investment Products or for investors in those Investment Products.

The Index Committee comprises core representatives from various functions within HSBC Group. Additional representatives will be appointed in respect of each asset class represented by one or more Indices. Such representatives shall be entitled to vote only in respect of the Indices in the relevant asset class.

The Index Committee meets annually to periodically review the Indices. The Index Committee is also available to meet more frequently to consider new Indices or amendments and modifications to existing Indices. The Index Committee may meet to consider exceptional events that may have an effect on one or more Indices.

(b) Index Sponsor

Each Index is sponsored, developed and promoted by the Index Sponsor and is a proprietary Index of the Index Sponsor.

In certain circumstances, the Index Sponsor may be entitled to make certain amendments or modifications to an Index or the terms of any Module. In making any such amendments or modifications, the Index Sponsor will, acting

in good faith and a commercially reasonable manner, ensure that such amendments or modifications will result in a methodology that, in the Index Sponsor's determination, is consistent in its intended commercial purpose with the methodology described in the relevant Index Description. Following the amendment or modification of the Index Rules, the Index Sponsor will make available on request a revised version of the Index Description for the related Index. Unless otherwise provided, all calculations and determinations made by the Index Sponsor and/or the Index Calculation Agent will be made by it by reference to such factors as the Index Sponsor and/or the Index Calculation Agent deem appropriate.

To the extent permitted by applicable law, the Index Sponsor shall not be liable (whether in negligence or otherwise) to any person for any direct, indirect, special, punitive, consequential or any other losses or damages incurred by such person that arise out of or in connection with error in the Index and the Index Sponsor is under no obligation to advise any person of any error therein.

The Index Sponsor owns intellectual property rights in each Index and in any Index Description, or any part of an Index Description, which has been supplied by the Index Sponsor. No use or publication may be made of any Index or any related provision without the prior written approval of the Index Sponsor. None of the Index Sponsor, the Index Calculation Agent and any HSBC Group entity will have any responsibility for use of any Index without the express written consent of the Index Sponsor.

(c) Index Calculation Agent

The role of the Index Calculation Agent is to provide independent calculation of the periodic value of each Index and make various determinations and adjustments, in each case in accordance with the Index Rules, as set out in the relevant Index Description.

The Index Calculation Agent is responsible for obtaining information for inclusion or use in the calculation of the Indices. The Index Calculation Agent will not independently verify such information and does not guarantee the accuracy or completeness of any Index or any data included therein.

To the extent permitted by applicable law, the Index Calculation Agent shall not be liable (whether in negligence or otherwise) to any person for any direct, indirect, special, punitive, consequential or any other losses or damages incurred by such person that arise out of or in connection with error in the Index and the Index Calculation Agent is under no obligation to advise any person of any error therein.

The Index Calculation Agent in respect of an Index will be the entity specified in the relevant Index Terms Module. If the Index Calculation Agent is not specified in the relevant Index Terms Module for an Index, then the Index Calculation Agent for that Index is, as of 1 October 2013, Euromoney Trading Limited. Prior to this date, the role of the Default Index Calculation Agent was performed by a division of HSBC.

3. Index calculations and data sources

(a) Calculations and determinations

The level of each Index will be calculated by the Index Calculation Agent in accordance with the terms of the relevant Index Terms Module and will be published on the sources specified in the relevant Index Terms Module if any such sources are specified. Unless otherwise provided, all calculations and determinations made by the Index Sponsor and/or the Index Calculation Agent will be made by it in good faith and a commercially reasonable manner by reference to such factors as the Index Sponsor and/or the Index Calculation Agent deem appropriate. The Index Sponsor and the Index Calculation Agent will, as far as practicable, exercise any discretion with the aim of preserving the intended commercial purpose of the index. Neither the Index Sponsor nor the Index Calculation Agent is required to consider the interest of any investor in Investment Products in exercising such discretion.

In addition, in exercising its discretion, the Index Sponsor may take into account the effects of any positions, contracts, transactions or other instruments or arrangements (howsoever described) that the Index Sponsor reasonably believes a provider of any Investment Product referencing the relevant Index may reasonably hold in order to hedge its obligations in respect of the performance of the relevant Index in respect of that Investment Product ("**Investment Product Hedging**"). In exercising its discretion, the Index Calculation Agent may also take into account the effects of any such Investment Product Hedging as notified to it by the Index Sponsor, which may have a positive or negative impact on the level of the relevant Index.

The calculations and determinations of each of the Index Sponsor and the Index Calculation Agent in relation to each Index and/or any Index Constituent shall be final and binding on all parties in the absence of manifest error.

The term "manifest error" as used in this document shall mean an error that is plain and obvious and can be identified from the results of the calculation or determination itself without: (i) recourse to any underlying data; or (ii) any application or re-application of any formulae.

(b) Index calculation and maintenance of data sources

As necessary, the Index Calculation Agent may obtain prices or quotes used for both calculation and maintenance of the level of an Index on any day from the sources and at the times specified in the relevant Index Terms Module. The Index Calculation Agent may supplement data from such sources with other sources as it determines appropriate. The Index Calculation Agent does not guarantee the accuracy of the data from its data vendors nor independently verify such data.

(c) Data error

If, in respect of any information which is used by the Index Calculation Agent to make any determination or calculation relevant to an Index, the Index Calculation Agent determines at any time subsequent to such determination

or calculation that the source of such information has issued a correction, or has otherwise amended or modified the relevant information in a way that would have materially affected the relevant determination or calculation, the Index Calculation Agent may in its discretion make such redetermination or recalculation in respect of the relevant Index and retrospectively adjust the level of such Index in respect of the period from the original determination or calculation to the time of such redetermination or recalculation to take account of such redetermination or recalculation.

(d) **Data disruption**

In the event of a Data Disruption, the Index Calculation Agent shall use reasonable endeavours to source data from alternative sources with the aim of publishing the level of an Index as soon as reasonably practicable. The Index Calculation Agent will not publish the level of an Index until the relevant Data Disruption is over or until it acquires the required data from an alternative source.

(e) **Construction**

The provisions of each Index Description (including any non-contractual obligations arising in connection therewith) shall be governed by and construed in accordance with English law.

4. Index maintenance

Each Index Description specifies various disruption, modification and termination events relating to the relevant Index, as well as the consequences of the occurrence of such events. Such provisions may be set out in the Asset Terms Module or the Index Terms Module of the relevant Index and are supplemental to the provisions set out below. The provisions set out below may also be amended, modified or supplemented for any Index by the provisions of the applicable Asset Terms Module or Index Terms Module.

(a) **Amendments and modifications to the Index Rules**

Subject to Section 2(b) above, the Index Sponsor may make such amendments or modifications to the Index Rules of any Index for any reason, including without limitation:

- (i) to preserve the intended commercial purpose of any Index, where such amendment or modification is of a formal, minor or technical nature;
- (ii) to ensure the continuation of an Index following the Index Calculation Agent ceasing, or advising that it will cease, for any reason, to calculate the relevant Index; or
- (iii) if:
 - A. market, regulatory, juridical, financial or fiscal circumstances arise,
 - B. such circumstances have not been deliberately caused by the Index Sponsor, and

- C. in the determination of the Index Sponsor, such amendments or modifications would assist in maintaining the intended commercial purpose of the Index or would ensure that that Index can continue to be calculated and determined by the Index Sponsor and the Index Calculation Agent.

Following the amendment or modification of the Index Rules, the Index Sponsor will prepare a revised version of the Index Description for the related Index and such revised version will be made available by the Index Sponsor upon request.

(b) **Suspension and termination of an Index**

The publication and maintenance of each Index is discretionary. The Index Sponsor may suspend or terminate the publication of an Index at any time including, without limitation, in accordance with the terms of the relevant Asset Terms Module or Index Terms Module. In the event that an Index is suspended or terminated, the Index Sponsor accepts no responsibility for any losses incurred by any party whether incidental or consequential which arise out of any reliance on the continued existence and publication of that Index.

(c) **Index Restrictions**

If either HSBC and/or any of HSBC Group entities in respect of an Index Constituent (whether or not as a holder of such Index Constituent) or an Index, either:

- (i) is or becomes or would become, as the case may be, subject to any legal and/or regulatory reporting and/or disclosure requirements and/or any legal and/or regulatory restrictions; or
- (ii) is or becomes or would become, as the case may be, subject to the imposition of any taxes, duty, withholding, deduction or other charge; or
- (iii) is or becomes or would become, as the case may be, at any time and in the absence of any available exemptions, restricted from dealing in such Index Constituent pursuant to regulatory or legal obligations or internal policies which policies are designed to comply with regulatory or legal obligations applicable to HSBC and/or any of HSBC Group entities,

then, if the Index Sponsor determines at any time that the circumstance described in (i), (ii) or (iii) is material, such Index Constituent shall be a "**Restricted Index Constituent**" and no Restricted Index Constituent shall be an Index Constituent. The Index Sponsor may make such amendments or modifications to the Index Rules for an Index in its discretion as it deems appropriate as a result, including excluding the Restricted Index Constituent from the relevant Index. The Index Sponsor shall also be entitled to make such other consequential amendments or modifications to the Index Rules for an Index as it deems appropriate.

In determining what is "material", the Index Sponsor may have regard to such circumstances as it deems appropriate including, but not limited to, how the relevant circumstance described in (i), (ii) or (iii) above which has occurred

would impair or have an impact on the ability of HSBC and/or any of HSBC Group entities to enter into hedging transactions in relation to any Investment Product, if any such entity were to do so.

In the event that the Index Sponsor determines at any time that the circumstance described in (i), (ii) or (iii) above has ceased to be material in relation to any Restricted Index Constituent, then the Index Sponsor will determine that such Index Constituent shall cease to be a Restricted Index Constituent.

The Index Sponsor shall be entitled to make its determinations in respect of an Index Constituent by reference to the relevant circumstances at that time and the Index Sponsor shall not be bound by any previous determination.

5. Correction of Manifest Error

Subject to Section 2(b) above, the Index Sponsor may make such amendments or modifications to the Index Rules of any Index to correct any manifest error or proven error or to cure, correct or supplement any ambiguity or defective provision contained in the relevant Index Description. Following the amendment or modification of the Index Rules, the Index Sponsor will prepare a revised version of the Index Description for the related Index and such revised version will be made available by the Index Sponsor upon request.

6. Amendments to the Base Terms Module

In addition to the provisions of Section 4 (*Index maintenance*) above and any additional provisions set out in the Index Terms Module for a particular Index, the Index Sponsor anticipates that this Base Terms Module may be amended or modified from time to time to, among other things:

- (a) reflect amendments or modifications to the methodology by which determinations and publications may be made in respect of the Indices;
- (b) clarify the role of the Index Committee to ensure that the Index Rules comply with policies and procedures of the Index Sponsor and appropriately manage conflicts of interests within the HSBC Group; and
- (c) clarify the mode of publication and communication of the Index Rules and any amendment of and communication in relation to the Index Rules.

Following any amendment or modification of the Base Terms Module, the Index Sponsor will prepare a revised version of the Base Terms Module and such revised version will be made available by the Index Sponsor upon request.

Any amendments or modifications to the Base Terms Module that have been approved by the Index Sponsor shall be deemed to be incorporated into the Index Rules for each of the Indices and Investment Products which reference one or more Index shall continue to reference such Index subject to such amendments or modifications to the Base Terms Module.

7. Further information about the Indices

Appendix 2: Risk factors

Prior to making an investment decision in respect of any Investment Product, prospective investors should carefully consider all of the information set out in this Base Terms Module, including these risk factors. This Appendix 2 is intended to describe various risk factors associated with an Investment Product which the Index Sponsor believes represent the principal risks relating to an Index. There may be other risks that a prospective investor should consider that are relevant to its particular circumstances, the terms of the Investment Product itself or generally whether arising from market factors or otherwise. Additional risk factors relating to an Index may be set out in the relevant Asset Terms Module(s) or Index Terms Module for that Index and should be carefully considered in conjunction with the risk factors set out below.

(a) **General**

When considering any Investment Product, prospective investors should be aware that the level of an Index (as determined pursuant to the provisions of the relevant Asset Terms Module(s) and Index Terms Module) can go down as well as up and that the performance of an Index in any future period may not track its past performance. Investment Products may include financial products which take a short position in the relevant Index, in which case the return and/or value of such Investment Products may be adversely affected by increases in the level of the relevant Index. In making any determination in respect of an Index, neither the Index Sponsor nor the Index Calculation Agent are required to take into account the long or short exposure that investors in Investment Products may have to such Index.

Without limiting any of the foregoing and without prejudice to their respective obligations under applicable law and/or under the regulatory system to which they are subject, in no event shall the Index Committee, Index Sponsor or Index Calculation Agent be liable (whether directly or indirectly, in contract, in tort, or otherwise) to any person for any direct, indirect, special, punitive, consequential or any other losses or damages incurred by such person that arise out of or in connection with an Index, including in relation to the performance by the Index Sponsor or the Index Calculation Agent of any part of their respective roles as Index Sponsor or the Index Calculation Agent under the Index Rules even if notified of the possibility of such damages. Notwithstanding the foregoing, nothing shall relieve the Index Sponsor or the Index Calculation Agent from any liability arising by reason of acts or omissions constituting fraudulent misrepresentation.

(b) **Research**

Research teams within HSBC may issue research reports on any Index Constituent. These reports are entirely independent of the Index Sponsor's obligations hereunder and are issued without regard to the potential impact on the level of an Index or on any Investment Product.

(c) **Discretions**

The terms of each Index as set out in the relevant Index Description confer on each of the Index Sponsor and the Index Calculation Agent a degree of discretion in making determinations and, in the case of the Index Sponsor, in changing the methodology of calculations. Whilst the Index Sponsor and the Index Calculation Agent are required to act in good faith and a commercially reasonable manner by reference to such factors as they deem appropriate in exercising their respective

discretions with the aim of preserving the intended commercial purpose of the index, there can be no assurance that the exercise (or the absence of exercise, as the case may be) of any such discretion will not have an impact on the level of any Index. Neither the Index Sponsor nor the Index Calculation Agent is required to consider the interest of any investor in Investment Products in exercising its discretion.

In addition, in exercising its discretion, the Index Sponsor may take into account the effects of any Investment Product Hedging. In exercising its discretion, the Index Calculation Agent may also take into account the effects of any such Investment Product Hedging as notified to it by the Index Sponsor, which may have a positive or negative impact on the level of the relevant Index.

The discretions conferred on the Index Sponsor include permitting it to make amendments to and/or to modify the methodology for calculating the level of each Index, as described in Section 4 (*Index maintenance*) of this Base Terms Module and in the relevant Asset Terms Module(s) and Index Terms Module for an Index.

As a consequence, save as expressly provided in the relevant Index Description, there can be no assurance as to what the Index Constituents will be or the composition of an Index in respect of any future period or their suitability for the investment requirements of any prospective investor in an Investment Product. Changes to the Index Constituents may operate to reduce or increase the level of an Index in respect of any period, which may have an adverse effect on the value or return on an Investment Product.

(d) **Reliance on information and data sources**

Although the Index Calculation Agent will obtain information and data for inclusion in or for use in the calculation of each Index from sources which the Index Calculation Agent considers reliable, the Index Calculation Agent will not independently verify such information and data and does not guarantee the accuracy or the completeness of an Index or any data included therein.

While any inaccuracy in such sources may have an adverse effect on the level of any Index, neither the Index Sponsor nor the Index Calculation Agent accepts any liability for loss or damage of any kind arising from the use of such information in any such calculation or determination.

(e) **Adjustments and cancellation of an Index**

Prospective investors should note carefully the provisions of Section 4 (*Index maintenance*) of this Base Terms Module and the provisions of the relevant Asset Terms Module or Index Terms Module of an Index. Pursuant to these provisions, amongst others, an Index Constituent may be affected or replaced and/or other determinations and/or adjustments may be made as the Index Sponsor considers appropriate and the method of determining the level of an Index may be amended or modified as a result. In addition, pursuant to Section 4 (*Index maintenance*) of this Base Terms Module or any relevant provisions of the relevant Asset Terms Module(s) or Index Terms Module, the Index Sponsor or the Index Calculation Agent may determine that a disruption event has occurred and, in such circumstances, the Index Sponsor or the Index Calculation Agent may determine that the level of an Index shall not be determined and published on such day, or that an Index shall be cancelled altogether. If either HSBC and/or any of HSBC Group entities becomes subject to legal or regulatory restrictions, the imposition of tax or any restrictions on dealing in respect of any Index Constituent then the Index Sponsor may determine

that that Index Constituent is a Restricted Index Constituent and may no longer be an Index Constituent for the purposes of the relevant Index and the Index Sponsor may make such amendments or modifications to the Index Rules for an Index as it deems appropriate. Adjustments to the provisions of an Index may operate to reduce or increase the level of an Index in respect of any period, which may have an adverse effect on the value or return on an Investment Product.

(f) **Change in methodology of an Index**

If any market, regulatory, judicial, financial, fiscal or other circumstances arise that would, in the view of the Index Sponsor necessitate or make desirable an amendment or modification of the calculation methodology, the Index Sponsor shall, in accordance with the terms of the Index Rules, be entitled to make such amendment or modification. The Index Sponsor may also make amendments or modifications to the terms of an Index and/or the method of calculating the level of an Index in any manner that it may deem necessary or desirable to correct any manifest error or proven error or to cure, correct or supplement any ambiguity or defective provision contained in the relevant Index Description. The Index Sponsor may also from time to time amend or modify the Base Terms Module to reflect amendments and modifications to the methodology by which determinations may be made in respect of all of the Indices. In particular, the role of the Index Committee shall be reviewed periodically to ensure that the Index Rules comply with policies and procedures of the Index Sponsor and appropriately manage conflicts of interests within the HSBC Group.

The Index Sponsor will, acting in good faith and a commercially reasonable manner, ensure that such amendments and modifications will result in a methodology that, in the Index Sponsor's sole determination, is consistent in its intended commercial purpose with the methodology described in the relevant Index Description. However, no assurance is given that such amendments and modifications will not have an effect on the level of the relevant Index.

(g) **Conflicts of interest**

Conflicts of interest may exist or arise between the Index Sponsor and HSBC Group entities acting in other capacities, including as issuer, obligor, dealer, sponsor or calculation agent of Investment Products linked to an Index and/or one or more of any of the Index Constituents, or performing research roles including roles similar to that described in any Index Description. Each relevant HSBC Group entity will pursue actions and take steps that it deems appropriate to protect its interests without regard to the consequences for investors in any Investment Products or otherwise. HSBC Group entities may be in possession at any time of information in relation to one or more Index Constituents which may not be available to investors in any Investment Products. There is no obligation on any HSBC Group entity to disclose to any investor in any Investment Products any such information except as provided by law or regulation.

HSBC Group entities shall be entitled to receive fees or other payments pursuant to Investment Products or otherwise and to exercise all rights, including rights of termination or resignation, which they may have, even though so doing may have a detrimental effect on investors in any Investment Products.

Any research carried out by the Index Sponsor or the Index Calculation Agent for the purposes of developing an Index and calculating its levels may or may not be considered by HSBC when HSBC is deciding to buy or sell proprietary positions.

These, or other transactions in which HSBC engages for its account, may be conducted in a manner inconsistent with the research and the administration of an Index and/or any Index Constituent.

The Index Sponsor and/or any member of the HSBC Group may, as an issuer of, or counterparty to, Investment Products or otherwise, engage in hedging activities that may impact, directly or indirectly, the level of an Index Constituent (and consequently the terms of an Index) on any day meaning such level may be different from the level which it would otherwise have been. While the Index Sponsor believes that such activity will not have a material impact on the level of an Index Constituent or an Index on any day, no assurance can be given that market, financial or other circumstances will not arise which result in the level of an Index Constituent or an Index being negatively impacted.

(h) Investment Products linked to an Index

The Index Sponsor is not obliged to enter into or promote Investment Products that are linked to an Index or any Index Constituent and the Index Sponsor makes no express or implied representations or warranties as to: (i) the advisability of purchasing or assuming any risk in connection with any such transaction; (ii) the levels at which any Index stands at any particular time on any particular date; (iii) the results to be obtained by the issuer of any security or any counterparty or any such issuer's security holders or customers or any such counterparty's counterparties or customers or any other person or entity from the use of an Index or any data used or published in connection with that Index.

(i) Fiduciary duties

Subject always to the regulatory obligations of any member of the HSBC Group in performing each or any of the roles of issuer, obligor, dealer, sponsor or calculation agent of Investment Products linked to an Index and/or one or more of any of the Index Constituents or performing research roles including roles similar to that described in any Index Description, members of the HSBC Group do not act on behalf of, or accept any duty of care or any fiduciary duty to any investors in any Investment Product or any other person.

(j) Currency risks

Each Index is calculated in the currency specified in the relevant Index Terms Module for an Index by converting where necessary the prices of the relevant Index Constituents into that currency.

Where the currency of an Index Constituent is not the same as the currency specified in the relevant Index Terms Module, the rate of exchange at which the price of an Index Constituent is converted into the relevant currency will likely change from time to time. This may affect the level of the relevant Index. Accordingly, any investment linked to an Index may involve exchange rate risks.

(k) Past performance

No historic performance data may be available for certain newly-created indices. Back-tested data may be available but does not represent actual performance nor is it an indication of future performance.

The methodology of each Index and the strategy for each Index were developed with the advantage of hindsight. In reality, it is not possible to invest with the advantage of hindsight and therefore any comparison is purely theoretical. Past performance is not indicative of future returns.

1. Introduction

(a) General

This Index Terms Module, together with the Base Terms Module, and the Index Terms Module of the HSBC Uniform EUR Core Index and the Index Terms Module of the HSBC Uniform USD Core Index and the HSBC Uniform GBP Core Index, forms the Index Description for the HSBC Uniform GBP Basket Core Index (the "**Index**").

The HSBC Uniform EUR Core Index, the HSBC Uniform USD Core Index and the HSBC Uniform GBP Core Index are each referred to as an "**Underlying Core Index**" and together, the "**Underlying Core Indices**".

This Index Terms Module must be read, and must be interpreted, in conjunction with the Base Terms Module and the Index Terms Modules for the Underlying Core Indices. This is not a stand alone document and should not be read or interpreted separately from the other parts of the Index Description for the Index. If there is any inconsistency between the terms of this Index Terms Module, the Base Terms Module or any other part of the Index Description, the terms of this Index Terms Module shall prevail.

(b) Definitions

Any capitalised term not defined in Appendix 1 (*Definitions*) of this Index Terms Module shall have the meaning given to such term in the Base Terms Module or the other Index Terms Modules which are part of the Index Description, as applicable.

(c) Index Parameters

Certain parameters for the Index, which are used to determine the Index Level for the Index as described herein, are set out in the Parameters Table in Appendix 2 (*Parameters Table*).

2. Overview of the Index

The Index has been developed as an index aiming to benefit from moves in the Underlying Core Indices which form part of it. The Index aims to provide the generated returns in GBP but retains some exposure to the changes in the exchange rate between GBP and USD, as well as between GBP and EUR. The values for the Index Level of the Index are available for each Index Valuation Date from the Base Date, at which time the Index Level was set at the Initial Index Level.

3. Index publication

- (a) The "**Index Valuation Date**" means each day which is an Index Valuation Date in each of the Underlying Core Indices and which is a business day in accordance with the Target Calendar.

Subject to the occurrence of any disruption in respect of any of the Underlying Core Indices (as further described in Section 4(a) below), the Index Level for the Index is calculated on each Index Valuation Date (following the Base

Date). The Index Level is normally released by 5 p.m. London time on the relevant Index Valuation Date.

- (b) The Index Level is calculated in GBP only. The calculation method for the Index does not incorporate any deductions for transaction costs, taxes or fees.
- (c) The Index Level is published on the pages specified in the Parameters Table.
- (d) The "**Observation Time**" is 4 p.m. London time. For the purposes of calculating the historic data in respect of the back-testing period (i.e. between the Base Date and 17th of February 2012), the Index Calculation Agent may have used a different Observation Time than 4 p.m.

4. Disruption Events

(a) Underlying Core Index Disruption

If, in respect of any Index Valuation Date, no level of one or multiple of the Underlying Core Indices is determined for such Index Valuation Date then the level of the Index will not be determined for such Index Valuation Date and determination of the level of the Index shall be suspended until such time as the level of all Underlying Core Indices is determined. If the Index Sponsor determines that it will terminate the publication of any of the Underlying Core Indices, publication of the Index may also be terminated.

(b) FX Price Source Disruption

If the Index Calculation Agent determines that a FX Price Source Disruption has occurred in respect of the exchange rate from USD to GBP or the exchange rate from EUR to GBP then the Index Calculation Agent may determine the relevant value in respect of any relevant currency pair which becomes unavailable as a result of such disruption by seeking quotes from three Reference Banks selected by the Index Calculation Agent for such currency pair. If three such quotations are provided, the relevant value for that Index Valuation Date will be the arithmetic mean of such quotations. If fewer than three such quotations are provided then the FX Price Source Disruption shall be deemed to be a Disruption Event and Section (c) (*FX Disruption*) shall apply accordingly.

(c) FX Disruption

If the Index Sponsor determines that an FX Disruption Event has occurred or is likely to occur in the exchange rate of USD to GBP or in the exchange rate of EUR to GBP, then the Index Sponsor may, in its discretion, either:

- (i) Suspend the calculation and publication of the Index Level for the Index, or
- (ii) cease to calculate and publish the Index Level and cancel the Index,

in which event the Index Level on any Business Day following the occurrence of an FX Disruption Event shall remain static and shall be equal to the Index Level determined by the Index Calculation Agent immediately prior to the occurrence of such FX Disruption Event.

5. Calculation of the Index Level

The Index Calculation Agent shall calculate the Index Level on each Index Valuation Date by reference to:

- (a) the Index Level in respect of the immediately preceding Index Valuation Date;
- (b) the Return of the Underlying Core Indices from the preceding Index Valuation Date to the relevant Index Valuation Date (as determined pursuant to Section 6 (*Calculation of the Underlying Core Index Return*) below); and
- (c) the Foreign Currency Return from the preceding Index Valuation Date to the relevant Index Valuation Date (as determined pursuant to Section 7 (*Calculation of Foreign Currency Return*) below) for the Foreign Currencies USD and GBP.

The mathematical expression for calculating the Index Level in respect of Index Valuation Date t is as follows:

$$\text{GBPBasket}(t) = \text{GBPBasket}(t-1) \times [1 + 1/3 * \text{RUSD}(t-1,t) * (1 + \text{FXUSD}(t-1,t) + 1/3 * \text{RGBP}(t-1,t) + 1/3 * \text{REUR}(t-1,t) * (1 + \text{FXEUR}(t-1,t)))]$$

Where:

GBPBasket(t)	means the Index Level in respect of Index Valuation Date t ,
GBPBasket(t-1)	means the Index Level in respect of the Index Valuation Date immediately preceding Index Valuation Date t ,
FXUSD(t-1,t)	means the Foreign Currency Return from Index Valuation Date $t-1$ to t of USD (the Foreign Currency)
FXEUR(t-1, t)	means the Foreign Currency Return from Index Valuation Date $t-1$ to t of EUR (the Foreign Currency)
RGBP(t-1, t)	means the Underlying Core Index Return from Index Valuation Date $t-1$ to t where the Underlying Core Index is the HSBC Uniform GBP Core Index
REUR(t-1, t)	means the Underlying Core Index Return from Index Valuation Date $t-1$ to t where the Underlying Core Index is the HSBC Uniform EUR Core Index
RUSD(t-1,t)	means the Underlying Core Index Return from Index Valuation Date $t-1$ to t where the Underlying Core Index is the HSBC Uniform USD Core Index.

6. Calculation of the Underlying Core Index Return

The Index Calculation Agent shall calculate the Underlying Core Index Return in respect of an Underlying Core Index from Index Valuation Date $t-1$ to Index Valuation Date t by reference to:

- (a) The relevant Underlying Core Index Level in respect of the immediately preceding Index Valuation Date $t-1$; and
- (b) the relevant Underlying Core Index Level in respect of the relevant Index Valuation Date t .

The mathematical expression for calculating the Underlying Core Index Return from Index Valuation Date $t-1$ to Index Valuation Date t is as follows:

$$R(t) = \frac{BI(t) - BI(t-1)}{BI(t-1)}$$

Where:

R(t-1,t) means the Underlying Core Index Return from Index Valuation Date $t-1$ to t ,

BI(t) means the Underlying Core Index Level in respect of Index Valuation Date t , and

BI(t-1) means the Underlying Core Index Level in respect of the Index Valuation Date immediately preceding Index Valuation Date t , which is the Index Valuation Date $t-1$.

7. Calculation of the Foreign Currency Return

The Index Calculation Agent shall calculate the “**Foreign Currency Return**” in respect of a Foreign Currency from Index Valuation Date $t-1$ to Index Valuation Date t on each Index Valuation Date t by reference to:

- (a) The exchange rate for the relevant Foreign Currency into GBP on the immediately preceding Index Valuation Date, which is Index Valuation Date ($t-1$); and
- (b) the exchange rate for the relevant Foreign Currency into GBP on the relevant Index Valuation Date t

The mathematical expression for calculating the Foreign Currency Return from Index Valuation Date $t-1$ to Index Valuation Date t is as follows:

$$FXR(t) = \frac{FX(t)}{FX(t-1)} - 1$$

Where:

FXR(t-1,t) means the Foreign Currency's Return from Index Valuation Date $t-1$ to Index

Valuation Date t ;

FX(t) means the Foreign Currency Exchange Rate in respect of Index Valuation Date t

FX($t-1$) means the Foreign Currency Exchange Rate on the immediately preceding Index Valuation Date $t-1$

HSBC Uniform EUR Core Index

Index Summary

HSBC Global Markets Indices

Version 2.0

May 2014

SUMMARY OF THE RULES OF THE HSBC UNIFORM EUR CORE INDEX

*This is a summary of the technical index rules (the "**Index Rules**") for the HSBC Uniform EUR Core Index (the "**Index**"). The Index Rules include, among other things, further information about HSBC index governance, disruption and adjustment events, amendments and modifications of the Index Rules and detailed calculations followed by the Index Calculation Agent to determine the level of the Index. The Index Rules comprise a base terms module and an index terms modules, each of which may be amended or supplemented from time to time in accordance with the terms of the Index Rules. The Index Rules will be made available upon request to the Issuer and subject to confidentiality undertakings. If there is any conflict between the Index Rules and this summary, the Index Rules shall prevail.*

1. OVERVIEW

The Index has been designed by the Index Sponsor to benefit from price movements in the three month EURIBOR future contract (the "**EURIBOR Future**") traded on London International Financial Futures and Options Exchange ("**LIFFE**").

The Core Index was first calculated on 10 March 2000, at which time their respective levels were set at 100. The level of the Index (the "**Core Index Level**") is released by 5 p.m. (London time) on each date on which commercial banks and foreign exchange markets settle payments and are open for general business (including dealings in foreign exchange and foreign currency) in London and Frankfurt (each, an "**Index Valuation Date**") and is calculated in Euro only. The calculation methods do not incorporate any deductions for transaction costs, taxes or fees. The Core Index is published on Bloomberg page HSUNEU00.

2. MANAGEMENT RESPONSIBILITIES

(a) Index Sponsor

The index sponsor is the Global Markets division (the "**Index Sponsor**") of HSBC Bank plc ("**HSBC**"). The Index is sponsored, developed and promoted by the Index Sponsor and is a proprietary index of the Index Sponsor. In certain circumstances, the Index Sponsor may be entitled to make certain amendments or modifications to the Index. In making any such amendments or modifications, the Index Sponsor will, acting in good faith and a commercially reasonable manner, ensure that such amendments or modifications will result in a methodology that, in the Index Sponsor's determination, is consistent in its intended commercial purpose with the methodology originally set out in the terms of the Index.

(b) Index Calculation Agent

The index calculation agent is Euromoney Trading Limited (the "**Index Calculation Agent**"). The role of the Index Calculation Agent is to provide independent calculation of the Index Level and make various determinations and adjustments. The Index Calculation Agent is responsible for obtaining information for inclusion or use in the calculation of the Index. The Index Calculation Agent will not independently verify such information and does not guarantee the accuracy or completeness of the Index or any data included therein.

(c) Index Committee

The HSBC Global Markets Indices and Strategies Governance Committee (the "**Index Committee**") has been established by the Index Sponsor and comprises core representatives from various functions within the Index Sponsor. The Index Committee is responsible for approving new indices and making certain amendments to existing indices (including the Index), determining the effects on the indices of certain exceptional events and periodically reviewing each index. The

Index Committee is not responsible for assessing the suitability of indices for any index-linked investment product or for investors in such investment product.

(d) **Limitation of liability**

To the extent permitted by applicable law, neither the Index Sponsor nor the Index Calculation Agent shall be liable (whether in negligence or otherwise) to any person for any direct, indirect, special, punitive, consequential or any other losses or damages incurred by such person that arise out of or in connection with any error in the Index and neither the Index Sponsor nor the Index Calculation Agent is under any obligation to advise any person of any error therein.

3. **CALCULATION OF INDEX LEVEL**

(a) **Duties and discretions of Index Sponsor and Index Calculation Agent**

All calculations and determinations made by the Index Sponsor and/or the Index Calculation Agent will be made in good faith and a commercially reasonable manner by reference to such factors as the Index Sponsor and/or the Index Calculation Agent deem appropriate. The Index Sponsor and the Index Calculation Agent will, as far as practicable, exercise any discretion with the aim of preserving the intended commercial purpose of the Index. Neither the Index Sponsor nor the Index Calculation Agent is required to consider the interest of any investor in Index-linked investment products in exercising such discretion.

In addition, in exercising its discretion, the Index Sponsor may take into account the effects of any positions, contracts, transactions or other instruments or arrangements (howsoever described) that the Index Sponsor reasonably believes a provider of any Index-linked investment product may reasonably hold in order to hedge its obligations in respect of the performance of the Index in respect of that Index-linked investment product ("**Investment Product Hedging**"). In exercising its discretion, the Index Calculation Agent may also take into account the effects of any such Investment Product Hedging as notified to it by the Index Sponsor, which may have a positive or negative impact on the level of the Index.

The calculations and determinations of each of the Index Sponsor and the Index Calculation Agent in relation to the Index and/or any constituent thereof shall be final and binding on all parties in the absence of manifest error.

(b) **Calculation methodology**

The level of the Core Index, "**Core Index Level**", $BI(t)$, is determined in accordance with the following formula on each Index Valuation Date t by reference to: the level of the Core Index on the immediately preceding Rebalancing Date, $BI(n)$, and the "**Futures Return**" on such Index Valuation Date, $F(t)$, (which represents a long or a short position in respect of the price for the Fourth EURIBOR Future (as defined below) on that Index Valuation Date and on the immediately preceding Rebalancing Date):

$$BI(t) = BI(n) \times [1 + (10 \times F(t))]$$

The Core Index is rebalanced as of each third Index Valuation Date prior to the third Wednesday in each calendar month, each a "**Rebalancing Date**".

(c) **Calculation of the Futures Return**

The Futures Return, $F(t)$, is determined in accordance with the following formula on each Index Valuation Date t by reference to: the value of the Indicator (which determines whether the Core Index assumes a long or a short position in respect of the Fourth EURIBOR Future), *Indicator (t)*,

and the price of the Fourth EURIBOR Future in respect of (i) that Index Valuation Date t , $EF(t)$, and (ii) the immediately preceding Rebalancing Date n , $EF(n)$:

$$F(t) = \frac{EF(t) - EF(n)}{100} \times Indicator(t)$$

The "**Fourth EURIBOR Future**" in respect of an Index Valuation Date is the EURIBOR Future which expires in the month of the fifth future expiry date on or after that Index Valuation Date. The price of the Fourth EURIBOR Future in respect of any Rebalancing Date is calculated as an arithmetic average of the relevant prices at five different observation points on such date.

(d) **Determination of the Indicator and the Trading Strategy**

The "**Indicator**", $Indicator(t)$, is determined on each Index Valuation Date t as either:

- (i) number "1", if the Trading Strategy is to buy the Fourth EURIBOR Future, or
- (ii) number "-1", if the Trading Strategy is to sell the Fourth EURIBOR Future.

The Index Calculation Agent determines the answer to the following questions on the second Index Valuation Date prior to each Rebalancing Date in order to determine the "**Trading Strategy**":

Question 1: Is the ratio of the TwosTens Spread over the TwosTens Volatility greater than a specified level?

Question 2: Is the ratio of the TwosTens Spread over the TwosTens Volatility less than a specified level?

Question 3: Is the Rates Trend Indicator greater than the Rates Level Barrier?

Question 4: Is the Spread Trend Indicator less than the Spread Level Barrier?

The "**TwosTens Spread**" means, in respect of the relevant Index Valuation Date, the difference between the rates for the EURIBOR swap rate (a "**EURIBOR Swap Rate**") with the designated maturity of ten and two years, each as calculated by reference to relevant public sources, whereas the "**TwosTens Volatility**" represents the volatility of such spread.

The "**Rates Trend Indicator**" means, in respect of the relevant Index Valuation Date, a trend indicator relating to a 3-month EURIBOR rate (a "**EURIBOR Rate**"), as calculated by reference to relevant public sources, whereas the "**Rate Level Barrier**" is determined by reference to the volatility of the absolute returns on such rate.

The "**Spread Trend Indicator**" means, in respect of the relevant Index Valuation Date, a trend indicator relating to the TwosTens Spread, whereas the "**Spread Level Barrier**" is determined by reference to the volatility of the absolute returns on such spread.

The Index Calculation Agent uses the following diagram to determine whether the Trading Strategy is to buy or to sell the Fourth EURIBOR Future:

4. **DISRUPTION EVENTS**

From time to time the Index Calculation Agent and/or the Index Sponsor may determine that the Index is affected by certain disruption events including (but not limited to) the inability of the Index Calculation Agent to obtain the necessary data for calculating the Index, any suspension or limitation on trading the constituents of the Index, any cancellation, suspension or substitution of the Core Index, any changes in

laws or regulations affecting the Index or any constituents thereof or any rate used in the determination of the Index not reflecting the relevant costs of funding of the Index Sponsor. In the event of any such disruption the Index Sponsor and/or the Index Calculation Agent have certain powers to amend or modify the Index or to suspend or terminate the calculation or publication of the Index. Further detail on disruption events is set out below.

(a) **Data disruption**

In the event of a disruption relating to the manner that the Index Calculation Agent receives or otherwise acquires information necessary to make any determination or calculation relevant to the Index ("**Data Disruption**"), the Index Calculation Agent shall use reasonable endeavours to source data from alternative sources with the aim of publishing the level of the Index as soon as reasonably practicable. The Index Calculation Agent will not publish the level of the Index until the relevant Data Disruption is over or until it acquires the required data from an alternative source.

(b) **Market Disruption Event**

"**Market Disruption Events**" means, in respect of any Index Valuation Date and as determined in its discretion by the Index Calculation Agent, any rate or any other value relevant to the determination of the level of the Index is not available or does not accurately reflect the relevant market, any other disruption which disrupts the ability of market participants to effect transactions or obtain quotes in respect of the relevant rate or value or prevents the Index Calculation Agent from calculating or disseminating the Index Level, including but not limited to:

- (i) any relevant futures exchange not opening for business or severely curtailing its hours of business; or
- (ii) trading on a relevant futures exchange being conducted without timely dissemination of closing price data.

If the Index Calculation Agent determines that a Market Disruption Event has occurred in respect of any Index Valuation Date, then no level of the Index shall be determined for such Index Valuation Date and determination of the level of the Index shall be suspended until such time as the Index Calculation Agent determines that the Market Disruption Event no longer exists. If the Market Disruption Event continues for eight Index Valuation Dates, then the Index Sponsor may determine that it will terminate the publication of the Index.

(c) **Liquidity Disruption Event**

"**Liquidity Disruption Event**" means, in respect of any Index Valuation Date and as determined in its discretion by the Index Calculation Agent, a material reduction in the liquidity of the EURIBOR Future on LIFFE such that the prices quoted on the relevant Reuters page for such rate do not adequately reflect the price at which a market participant may enter into a position in respect of the EURIBOR Future. Factors which may indicate a Liquidity Disruption Event include, without limitation, a material reduction in the volume of trades in the EURIBOR Future, a material widening of the bid-offer spread in respect of the EURIBOR Future or a material increase in the volatility of the price of the EURIBOR Future, in each case when compared to historic averages.

If the Index Calculation Agent determines that a Liquidity Disruption Event has occurred in respect of any Index Valuation Date, then the Index Sponsor may determine that it will terminate the publication of the Index. Any event that the Index Calculation Agent determines would constitute a Market Disruption Event and a Liquidity Disruption Event shall be considered to be a Liquidity Disruption Event and the provisions of this paragraph (c) shall apply.

(d) **Indicator Disruption Event**

If a EURIBOR Swap Rate or a EURIBOR Rate does not appear on the relevant Reuters screen on any Index Valuation Date, the relevant rate for that Index Valuation Date will be determined by the Index Calculation Agent on the basis of either (i) mid-market semi-annual swap rate quotations, in respect of a EURIBOR Swap Rate, or (ii) the mid-market quarterly money market rate quotations, in respect of a EURIBOR Rate, provided by five leading swap dealers in the London interbank market, as selected by the Index Calculation Agent, at approximately 11 a.m. Frankfurt time on the relevant Index Valuation Date. If the Index Calculation Agent is unable to obtain any relevant rate, then there shall be deemed to be a Market Disruption Event and the provisions of paragraph (b) above shall apply.

(e) **Index Restrictions**

If any EURIBOR Future referenced the Index, causes or would cause HSBC and/or certain HSBC group entities to become:

- (i) subject to any legal and/or regulatory reporting and/or disclosure requirements and/or any legal and/or regulatory restrictions; or
- (ii) subject to the imposition of any taxes, duty, withholding, deduction or other charge; or
- (iii) restricted from dealing in such Index constituent pursuant to regulatory or legal obligations or internal policies,

then, if the Index Sponsor determines at any time that the circumstance described in (i), (ii) or (iii) is material, such EURIBOR Future shall be a "**Restricted Index Constituent**" and no Restricted Index Constituent shall be an Index constituent. The Index Sponsor may make such amendments or modifications to the Index Rules for the Index in its discretion as it deems appropriate as a result, including excluding the Restricted Index Constituent from the Index.

In the event that the Index Sponsor determines at any time that the circumstance described in (i), (ii) or (iii) above has ceased to be material in relation to any Restricted Index Constituent, then the Index Sponsor will determine that such Index constituent shall cease to be a Restricted Index Constituent.

5. **SUSPENSION AND TERMINATION OF THE INDEX**

The publication and maintenance of the Index is discretionary. The Index Sponsor may suspend or terminate the publication of the Index at any time, notwithstanding the fact whether any one or more of the disruption events set out in Section 5 (*Disruption Events*) has occurred or not.

In the event that the Index is suspended or terminated, the Index Sponsor accepts no responsibility for any losses incurred by any party whether incidental or consequential which arise out of any reliance on the continued existence and publication of the Index.

6. **RISK FACTORS RELATING TO THE INDEX**

In addition to the Risk Factors set forth in the Base Terms Module of the Index Rules and risk factors relating to the Index, investment in the product involves substantial risks including but not limited to the following:

Investment in the product entails significant risk

An investment in the product entails significant risks that are not generally associated with similar investments in conventional fixed rate or floating rate instruments. Calculation of the return on the product is linked to the change in the level of the Index, which may decline as well as rise. Although the investor has the opportunity to receive a high return, the investor risks a lower return than investing in conventional

debt instruments. As such, the investment may not be suitable for persons who are unfamiliar with the Index and its individual components, or unwilling or unable to bear the risk attendant with an investment in the product.

Independent appraisal of product

The investor should conduct such independent appraisal of the Index and the rules relating to the Index as it determines appropriate to evaluate the merits and risks of an investment in products linked to the Index. The investor will have no direct interest or right in any asset comprising the Index.

Effects of interest rates underlying the Index

The index is exposed to interest rates. Investors in the product are exposed to the risk that subsequent changes in interest rates may adversely affect the market value of the product. Investment in the product may involve interest rate risk with respect to the settlement currency of the product. A variety of factors influence interest rates such as macro economic, governmental, speculative and market sentiment factors. Such fluctuations may have an impact on the market value of the product.

Volatility in interest rates underlying the Index

The index is exposed to interest rates. Interest rates can be volatile and unpredictable. Investors should be aware of the possibility of significant changes in interest rates resulting in a decrease in the market value of the product.

Index Calculation Agent

The Index to which the product is linked is calculated by the Index Calculation Agent. None of the Index Calculation Agent or Index Sponsor makes any representations, warranties or guarantees whatsoever as to the performance of the Index or the product.

Conflicts of interest between the Issuer and the Index Sponsor

The Index to which the product is linked is sponsored, developed and promoted by the Issuer which is the Index Sponsor. The role of the Issuer as Index Sponsor will be performed by the Global Banking and Markets division of the Issuer. The roles of these various divisions within the Issuer may give rise to various potential and actual conflicts of interest.

No investment or professional advice

The Issuer makes no representation whatsoever, including as Index Sponsor, whether express or implied, as to the advisability of purchasing or assuming any risk in connection with an investment in the product.

Index Sponsor

As at the date hereof, HSBC Bank plc acts as Index Sponsor with respect to the Index. In such capacity, HSBC Bank plc may have economic interests adverse to those of the investors, including with respect to certain determinations and judgments that the Index Sponsor may be required to make pursuant to the terms of the Index, any of which may affect payments in respect of the product. HSBC Bank plc may act in its own interests in such capacities and need not have regard to the interests of the investors.

No advisory or fiduciary relationship

In its capacity as the Index Sponsor, the Issuer does not act as fiduciary for or an advisor to the investor in respect of any determination or judgment or otherwise.

The Issuer and its affiliates are under no obligations to the investor in respect of roles of any such person with respect to the Index

None of the Issuer or any of its affiliates is under any obligation to the investor in respect of any of the roles of any such person with respect to the Index. No such person is under any obligation to monitor whether or not any event or circumstance has occurred unless it is explicitly and positively stated that such person will do so. No such person will be required to (or will be responsible for any failure to) make any determination, waiver, declaration or decision whatsoever in relation to the Index on behalf of or in the interests of the investor.

The Index has a limited operating history and may perform in unanticipated ways

The Index was established in July 2011. There is no historic performance data. Back tested data may be available but it does not represent actual performance achieved nor is it an indication of future performance.

Termination or suspension of Index

Under the rules of the Index, the Index Sponsor may, at any time, terminate the Index or suspend the publication of its level. None of the Issuer, the Calculation Agent, Index Sponsor or the Index Calculation Agent accepts any responsibility for any losses incurred by any party whether incidental or consequential which arise out of any reliance on the continued existence any publication of the Index.

Index Summary

HSBC Global Markets Indices

Version 2.0

May 2014

SUMMARY OF THE RULES OF THE HSBC UNIFORM GBP CORE INDEX

*This is a summary of the technical index rules (the "**Index Rules**") for the HSBC Uniform GBP Core Index (the "**Index**"). The Index Rules include, among other things, further information about HSBC index governance, disruption and adjustment events, amendments and modifications of the Index Rules and detailed calculations followed by the Index Calculation Agent to determine the level of the Index. The Index Rules comprise a base terms module and an index terms modules, each of which may be amended or supplemented from time to time in accordance with the terms of the Index Rules. The Index Rules will be made available upon request to the Issuer and subject to confidentiality undertakings. If there is any conflict between the Index Rules and this summary, the Index Rules shall prevail.*

1. OVERVIEW

The Index has been designed by the Index Sponsor to benefit from price movements in the three month GBP Libor future contract (the "**Short Sterling Future**") traded on London International Financial Futures and Options Exchange ("**LIFFE**").

The Core Index was first calculated for 14th of January 1992, for which time their respective levels were set at 100. The level of the Index (the "**Core Index Level**") is released by 5 p.m. (London time) on each date on which commercial banks and foreign exchange markets settle payments and are open for general business (including dealings in foreign exchange and foreign currency) in London (each, an "**Index Valuation Date**") and is calculated in GBP only. The calculation methods do not incorporate any deductions for transaction costs, taxes or fees. The Core Index is published on Bloomberg page HSUNBP00.

2. MANAGEMENT RESPONSIBILITIES

(a) Index Sponsor

The index sponsor is the Global Markets division (the "**Index Sponsor**") of HSBC Bank plc ("**HSBC**"). The Index is sponsored, developed and promoted by the Index Sponsor and is a proprietary index of the Index Sponsor. In certain circumstances, the Index Sponsor may be entitled to make certain amendments or modifications to the Index. In making any such amendments or modifications, the Index Sponsor will, acting in good faith and a commercially reasonable manner, ensure that such amendments or modifications will result in a methodology that, in the Index Sponsor's determination, is consistent in its intended commercial purpose with the methodology originally set out in the terms of the Index.

(b) Index Calculation Agent

The index calculation agent is Euromoney Trading Limited (the "**Index Calculation Agent**"). The role of the Index Calculation Agent is to provide independent calculation of the Index Level and make various determinations and adjustments. The Index Calculation Agent is responsible for obtaining information for inclusion or use in the calculation of the Index. The Index Calculation Agent will not independently verify such information and does not guarantee the accuracy or completeness of the Index or any data included therein.

(c) Index Committee

The HSBC Global Markets Indices and Strategies Governance Committee (the "**Index Committee**") has been established by the Index Sponsor and comprises core representatives from various functions within the Index Sponsor. The Index Committee is responsible for approving new indices and making certain amendments to existing indices (including the Index), determining the effects on the indices of certain exceptional events and periodically reviewing each index. The

Index Committee is not responsible for assessing the suitability of indices for any index-linked investment product or for investors in such investment product.

(d) **Limitation of liability**

To the extent permitted by applicable law, neither the Index Sponsor nor the Index Calculation Agent shall be liable (whether in negligence or otherwise) to any person for any direct, indirect, special, punitive, consequential or any other losses or damages incurred by such person that arise out of or in connection with any error in the Index and neither the Index Sponsor nor the Index Calculation Agent is under any obligation to advise any person of any error therein.

3. **CALCULATION OF INDEX LEVEL**

(a) **Duties and discretions of Index Sponsor and Index Calculation Agent**

All calculations and determinations made by the Index Sponsor and/or the Index Calculation Agent will be made in good faith and a commercially reasonable manner by reference to such factors as the Index Sponsor and/or the Index Calculation Agent deem appropriate. The Index Sponsor and the Index Calculation Agent will, as far as practicable, exercise any discretion with the aim of preserving the intended commercial purpose of the Index. Neither the Index Sponsor nor the Index Calculation Agent is required to consider the interest of any investor in Index-linked investment products in exercising such discretion.

In addition, in exercising its discretion, the Index Sponsor may take into account the effects of any positions, contracts, transactions or other instruments or arrangements (howsoever described) that the Index Sponsor reasonably believes a provider of any Index-linked investment product may reasonably hold in order to hedge its obligations in respect of the performance of the Index in respect of that Index-linked investment product ("**Investment Product Hedging**"). In exercising its discretion, the Index Calculation Agent may also take into account the effects of any such Investment Product Hedging as notified to it by the Index Sponsor, which may have a positive or negative impact on the level of the Index.

The calculations and determinations of each of the Index Sponsor and the Index Calculation Agent in relation to the Index and/or any constituent thereof shall be final and binding on all parties in the absence of manifest error.

(b) **Calculation methodology**

The level of the Core Index, "**Core Index Level**", $BI(t)$, is determined in accordance with the following formula on each Index Valuation Date t by reference to: the level of the Core Index on the immediately preceding Rebalancing Date, $BI(n)$, and the "**Futures Return**" on such Index Valuation Date, $F(t)$, (which represents a long or a short position in respect of the price for the Fourth Short Sterling Future (as defined below) on that Index Valuation Date and on the immediately preceding Rebalancing Date):

$$BI(t) = BI(n) \times [1 + (10 \times F(t))]$$

The Core Index is rebalanced as of each first Index Valuation Date prior to the third Wednesday in each calendar month, each a "**Rebalancing Date**".

(c) **Calculation of the Futures Return**

The Futures Return, $F(t)$, is determined in accordance with the following formula on each Index Valuation Date t by reference to: the value of the Indicator (which determines whether the Core Index assumes a long or a short position in respect of the Fourth Short Sterling Future), *Indicator*

(*t*), and the price of the Fourth Short Sterling Future in respect of (i) that Index Valuation Date *t*, $EF(t)$, and (ii) the immediately preceding Rebalancing Date *n*, $EF(n)$:

$$F(t) = \frac{EF(t) - EF(n)}{100} \times Indicator(t)$$

The "**Fourth Short Sterling Future**" in respect of an Index Valuation Date is the Short Sterling Future which expires in the month of the fifth future expiry date on or after that Index Valuation Date. The price of the Fourth Short Sterling Future in respect of any Rebalancing Date is calculated as an arithmetic average of the relevant prices at five different observation points on such date.

(d) **Determination of the Indicator and the Trading Strategy**

The "**Indicator**", $Indicator(t)$, is determined on each Index Valuation Date *t* as either:

- (i) number "1", if the Trading Strategy is to buy the Fourth Short Sterling Future, or
- (ii) number "-1", if the Trading Strategy is to sell the Fourth Short Sterling Future.

The Index Calculation Agent determines the answer to the following questions on the second Index Valuation Date prior to each Rebalancing Date in order to determine the "**Trading Strategy**":

Question 1: Is the ratio of the TwosTens Spread over the TwosTens Volatility greater than a specified level?

Question 2: Is the ratio of the TwosTens Spread over the TwosTens Volatility less than a specified level?

Question 3: Is the Rates Trend Indicator greater than the Rates Level Barrier?

Question 4: Is the Spread Trend Indicator less than the Spread Level Barrier?

The "**TwosTens Spread**" means, in respect of the relevant Index Valuation Date, the difference between the rates for the GBP 6M Libor swap rate (a "**GBP Swap Rate**") with the designated maturity of ten and two years, each as calculated by reference to relevant public sources, whereas the "**TwosTens Volatility**" represents the volatility of such spread.

The "**Rates Trend Indicator**" means, in respect of the relevant Index Valuation Date, a trend indicator relating to a 3-month GBP Libor rate (a "**GBP Libor Rate**"), as calculated by reference to relevant public sources, whereas the "**Rate Level Barrier**" is determined by reference to the volatility of the absolute returns on such rate.

The "**Spread Trend Indicator**" means, in respect of the relevant Index Valuation Date, a trend indicator relating to the TwosTens Spread, whereas the "**Spread Level Barrier**" is determined by reference to the volatility of the absolute returns on such spread.

The Index Calculation Agent uses the following diagram to determine whether the Trading Strategy is to buy or to sell the Fourth Short Sterling Future:

4. **DISRUPTION EVENTS**

From time to time the Index Calculation Agent and/or the Index Sponsor may determine that the Index is affected by certain disruption events including (but not limited to) the inability of the Index Calculation Agent to obtain the necessary data for calculating the Index, any suspension or limitation on trading the

constituents of the Index, any cancellation, suspension or substitution of the Core Index, any changes in laws or regulations affecting the Index or any constituents thereof or any rate used in the determination of the Index not reflecting the relevant costs of funding of the Index Sponsor. In the event of any such disruption the Index Sponsor and/or the Index Calculation Agent have certain powers to amend or modify the Index or to suspend or terminate the calculation or publication of the Index. Further detail on disruption events is set out below.

(a) **Data disruption**

In the event of a disruption relating to the manner that the Index Calculation Agent receives or otherwise acquires information necessary to make any determination or calculation relevant to the Index ("**Data Disruption**"), the Index Calculation Agent shall use reasonable endeavours to source data from alternative sources with the aim of publishing the level of the Index as soon as reasonably practicable. The Index Calculation Agent will not publish the level of the Index until the relevant Data Disruption is over or until it acquires the required data from an alternative source.

(b) **Market Disruption Event**

"**Market Disruption Events**" means, in respect of any Index Valuation Date and as determined in its discretion by the Index Calculation Agent, any rate or any other value relevant to the determination of the level of the Index is not available or does not accurately reflect the relevant market, any other disruption which disrupts the ability of market participants to effect transactions or obtain quotes in respect of the relevant rate or value or prevents the Index Calculation Agent from calculating or disseminating the Index Level, including but not limited to:

- (i) any relevant futures exchange not opening for business or severely curtailing its hours of business; or
- (ii) trading on a relevant futures exchange being conducted without timely dissemination of closing price data.

If the Index Calculation Agent determines that a Market Disruption Event has occurred in respect of any Index Valuation Date, then no level of the Index shall be determined for such Index Valuation Date and determination of the level of the Index shall be suspended until such time as the Index Calculation Agent determines that the Market Disruption Event no longer exists. If the Market Disruption Event continues for eight Index Valuation Dates, then the Index Sponsor may determine that it will terminate the publication of the Index.

(c) **Liquidity Disruption Event**

"**Liquidity Disruption Event**" means, in respect of any Index Valuation Date and as determined in its discretion by the Index Calculation Agent, a material reduction in the liquidity of the Short Sterling Future on LIFFE such that the prices quoted on the relevant Reuters page for such rate do not adequately reflect the price at which a market participant may enter into a position in respect of the Short Sterling Future. Factors which may indicate a Liquidity Disruption Event include, without limitation, a material reduction in the volume of trades in the Short Sterling Future, a material widening of the bid-offer spread in respect of the Short Sterling Future or a material increase in the volatility of the price of the Short Sterling Future, in each case when compared to historic averages.

If the Index Calculation Agent determines that a Liquidity Disruption Event has occurred in respect of any Index Valuation Date, then the Index Sponsor may determine that it will terminate the publication of the Index. Any event that the Index Calculation Agent determines would constitute a Market Disruption Event and a Liquidity Disruption Event shall be considered to be a Liquidity Disruption Event and the provisions of this paragraph (c) shall apply.

(d) **Indicator Disruption Event**

If a GBP Swap Rate or a GBP Libor Rate does not appear on the relevant Reuters screen on any Index Valuation Date, the relevant rate for that Index Valuation Date will be determined by the Index Calculation Agent on the basis of either (i) mid-market semi-annual swap rate quotations, in respect of a GBP Swap Rate, or (ii) the mid-market quarterly money market rate quotations, in respect of a GBP Libor Rate, provided by five leading swap dealers in the London interbank market, as selected by the Index Calculation Agent, at approximately 11 a.m. London time on the relevant Index Valuation Date. If the Index Calculation Agent is unable to obtain any relevant rate, then there shall be deemed to be a Market Disruption Event and the provisions of paragraph (b) above shall apply.

(e) **Index Restrictions**

If any Short Sterling Future referenced the Index, causes or would cause HSBC and/or certain HSBC group entities to become:

- (i) subject to any legal and/or regulatory reporting and/or disclosure requirements and/or any legal and/or regulatory restrictions; or
- (ii) subject to the imposition of any taxes, duty, withholding, deduction or other charge; or
- (iii) restricted from dealing in such Index constituent pursuant to regulatory or legal obligations or internal policies,

then, if the Index Sponsor determines at any time that the circumstance described in (i), (ii) or (iii) is material, such Short Sterling Future shall be a "**Restricted Index Constituent**" and no Restricted Index Constituent shall be an Index constituent. The Index Sponsor may make such amendments or modifications to the Index Rules for the Index in its discretion as it deems appropriate as a result, including excluding the Restricted Index Constituent from the Index.

In the event that the Index Sponsor determines at any time that the circumstance described in (i), (ii) or (iii) above has ceased to be material in relation to any Restricted Index Constituent, then the Index Sponsor will determine that such Index constituent shall cease to be a Restricted Index Constituent.

5. **SUSPENSION AND TERMINATION OF THE INDEX**

The publication and maintenance of the Index is discretionary. The Index Sponsor may suspend or terminate the publication of the Index at any time, notwithstanding the fact whether any one or more of the disruption events set out in Section 5 (*Disruption Events*) has occurred or not.

In the event that the Index is suspended or terminated, the Index Sponsor accepts no responsibility for any losses incurred by any party whether incidental or consequential which arise out of any reliance on the continued existence and publication of the Index.

6. **RISK FACTORS RELATING TO THE INDEX**

In addition to the Risk Factors set forth in the Base Terms Module of the Index Rules and risk factors relating to the Index, investment in the product involves substantial risks including but not limited to the following:

Investment in the product entails significant risk

An investment in the product entails significant risks that are not generally associated with similar investments in conventional fixed rate or floating rate instruments. Calculation of the return on the product

is linked to the change in the level of the Index, which may decline as well as rise. Although the investor has the opportunity to receive a high return, the investor risks a lower return than investing in conventional debt instruments. As such, the investment may not be suitable for persons who are unfamiliar with the Index and its individual components, or unwilling or unable to bear the risk attendant with an investment in the product.

Independent appraisal of product

No ownership rights

The investor will have no direct interest or right in any asset comprising the Index.

Effects of interest rates underlying the Index

The index is exposed to interest rates. Investors in the product are exposed to the risk that subsequent changes in interest rates may adversely affect the market value of the product. Investment in the product may involve interest rate risk with respect to the settlement currency of the product. A variety of factors influence interest rates such as macro economic, governmental, speculative and market sentiment factors. Such fluctuations may have an impact on the market value of the product.

Volatility in interest rates underlying the Index

The index is exposed to interest rates. Interest rates can be volatile and unpredictable. Investors should be aware of the possibility of significant changes in interest rates resulting in a decrease in the market value of the product.

Index Calculation Agent

The Index to which the product is linked is calculated by the Index Calculation Agent. None of the Index Calculation Agent or Index Sponsor makes any representations, warranties or guarantees whatsoever as to the performance of the Index or the product.

Conflicts of interest between the Issuer and the Index Sponsor

The Index to which the product is linked is sponsored, developed and promoted by the Issuer which is the Index Sponsor. The role of the Issuer as Index Sponsor will be performed by the Global Banking and Markets division of the Issuer. The roles of these various divisions within the Issuer may give rise to various potential and actual conflicts of interest.

No investment or professional advice

The Issuer makes no representation whatsoever, including as Index Sponsor, whether express or implied, as to the advisability of purchasing or assuming any risk in connection with an investment in the product.

Index Sponsor

As at the date hereof, HSBC Bank plc acts as Index Sponsor with respect to the Index. In such capacity, HSBC Bank plc may have economic interests adverse to those of the investors, including with respect to certain determinations and judgments that the Index Sponsor may be required to make pursuant to the terms of the Index, any of which may affect payments in respect of the product. HSBC Bank plc may act in its own interests in such capacities and need not have regard to the interests of the investors.

No advisory or fiduciary relationship

In its capacity as the Index Sponsor, the Issuer does not act as fiduciary for or an advisor to the investor in respect of any determination or judgment or otherwise.

The Issuer and its affiliates are under no obligations to the investor in respect of roles of any such person with respect to the Index

None of the Issuer or any of its affiliates is under any obligation to the investor in respect of any of the roles of any such person with respect to the Index. No such person is under any obligation to monitor whether or not any event or circumstance has occurred unless it is explicitly and positively stated that such person will do so. No such person will be required to (or will be responsible for any failure to) make any determination, waiver, declaration or decision whatsoever in relation to the Index on behalf of or in the interests of the investor.

The Index has a limited operating history and may perform in unanticipated ways

The Index was established in July 2011. There is no historic performance data. Back tested data may be available but it does not represent actual performance achieved nor is it an indication of future performance.

Termination or suspension of Index

Under the rules of the Index, the Index Sponsor may, at any time, terminate the Index or suspend the publication of its level. None of the Issuer, the Calculation Agent, Index Sponsor or the Index Calculation Agent accepts any responsibility for any losses incurred by any party whether incidental or consequential which arise out of any reliance on the continued existence any publication of the Index.

The Index Rules include, among other things, further information about HSBC index governance, disruption and adjustment events, amendments and modifications of the Index Rules and detailed calculations followed by the Index Calculation Agent to determine the level of the Index. 1. OVERVIEW

The Index has been designed by the Index Sponsor to benefit from price movements in the three month USD Libor future contract (the "**Eurodollar Future**") traded on the Chicago Merchantile Exchange ("**CME**").

The Core Index was first calculated for 11th of May 1990, for which time their respective levels were set at 100. The level of the Index (the "**Core Index Level**") is released by 5 p.m. (London time) on each date on which commercial banks and foreign exchange markets settle payments and are open for general business (including dealings in foreign exchange and foreign currency) in London and New York (each, an "**Index Valuation Date**") and is calculated in USD only. The calculation methods do not incorporate any deductions for transaction costs, taxes or fees. The Core Index is published on Bloomberg page HSUNUS00.

2. MANAGEMENT RESPONSIBILITIES

(a) Index Sponsor

The index sponsor is the Global Markets division (the "**Index Sponsor**") of HSBC Bank plc ("**HSBC**"). The Index is sponsored, developed and promoted by the Index Sponsor and is a proprietary index of the Index Sponsor. In certain circumstances, the Index Sponsor may be entitled to make certain amendments or modifications to the Index. In making any such amendments or modifications, the Index Sponsor will, acting in good faith and a commercially reasonable manner, ensure that such amendments or modifications will result in a methodology that, in the Index Sponsor's determination, is consistent in its intended commercial purpose with the methodology originally set out in the terms of the Index.

(b) Index Calculation Agent

The index calculation agent is the Euromoney Trading Limited (the "**Index Calculation Agent**"). The role of the Index Calculation Agent is to provide independent calculation of the Index Level and make various determinations and adjustments. The Index Calculation Agent is responsible for obtaining information for inclusion or use in the calculation of the Index. The Index Calculation Agent will not independently verify such information and does not guarantee the accuracy or completeness of the Index or any data included therein.

(c) Index Committee

The HSBC Global Markets Indices and Strategies Governance Committee (the "**Index Committee**") has been established by the Index Sponsor and comprises core representatives from various functions within the Index Sponsor. The Index Committee is responsible for approving

new indices and making certain amendments to existing indices (including the Index), determining the effects on the indices of certain exceptional events and periodically reviewing each index. The Index Committee is not responsible for assessing the suitability of indices for any index-linked investment product or for investors in such investment product.

(d) **Limitation of liability**

To the extent permitted by applicable law, neither the Index Sponsor nor the Index Calculation Agent shall be liable (whether in negligence or otherwise) to any person for any direct, indirect, special, punitive, consequential or any other losses or damages incurred by such person that arise out of or in connection with any error in the Index and neither the Index Sponsor nor the Index Calculation Agent is under any obligation to advise any person of any error therein.

3. **CALCULATION OF INDEX LEVEL**

(a) **Duties and discretions of Index Sponsor and Index Calculation Agent**

All calculations and determinations made by the Index Sponsor and/or the Index Calculation Agent will be made in good faith and a commercially reasonable manner by reference to such factors as the Index Sponsor and/or the Index Calculation Agent deem appropriate. The Index Sponsor and the Index Calculation Agent will, as far as practicable, exercise any discretion with the aim of preserving the intended commercial purpose of the Index. Neither the Index Sponsor nor the Index Calculation Agent is required to consider the interest of any investor in Index-linked investment products in exercising such discretion.

In addition, in exercising its discretion, the Index Sponsor may take into account the effects of any positions, contracts, transactions or other instruments or arrangements (howsoever described) that the Index Sponsor reasonably believes a provider of any Index-linked investment product may reasonably hold in order to hedge its obligations in respect of the performance of the Index in respect of that Index-linked investment product ("**Investment Product Hedging**"). In exercising its discretion, the Index Calculation Agent may also take into account the effects of any such Investment Product Hedging as notified to it by the Index Sponsor, which may have a positive or negative impact on the level of the Index.

The calculations and determinations of each of the Index Sponsor and the Index Calculation Agent in relation to the Index and/or any constituent thereof shall be final and binding on all parties in the absence of manifest error.

(b) **Calculation methodology**

The level of the Core Index, "**Core Index Level**", $BI(t)$, is determined in accordance with the following formula on each Index Valuation Date t by reference to: the level of the Core Index on the immediately preceding Rebalancing Date, $BI(n)$, and the "**Futures Return**" on such Index Valuation Date, $F(t)$, (which represents a long or a short position in respect of the price for the Fourth Eurodollar Future (as defined below) on that Index Valuation Date and on the immediately preceding Rebalancing Date):

$$BI(t) = BI(n) \times [1 + (10 \times F(t))]$$

The Core Index is rebalanced as of each third Index Valuation Date prior to the third Wednesday in each calendar month, each a "**Rebalancing Date**".

(c) **Calculation of the Futures Return**

The Futures Return, $F(t)$, is determined in accordance with the following formula on each Index Valuation Date t by reference to: the value of the Indicator (which determines whether the Core

Index assumes a long or a short position in respect of the Fourth Eurodollar Future), *Indicator (t)*, and the price of the Fourth Eurodollar Future in respect of (i) that Index Valuation Date *t*, *EF(t)*, and (ii) the immediately preceding Rebalancing Date *n*, *EF(n)*:

$$F(t) = \frac{EF(t) - EF(n)}{100} \times Indicator(t)$$

The "**Fourth Eurodollar Future**" in respect of an Index Valuation Date is the Eurodollar Future which expires in the month of the fifth future expiry date on or after that Index Valuation Date. The price of the Fourth Eurodollar Future in respect of any Rebalancing Date is calculated as an arithmetic average of the relevant prices at five different observation points on such date.

(d) **Determination of the Indicator and the Trading Strategy**

The "**Indicator**", *Indicator(t)*, is determined on each Index Valuation Date *t* as either:

- (i) number "1", if the Trading Strategy is to buy the Fourth Eurodollar Future, or
- (ii) number "-1", if the Trading Strategy is to sell the Fourth Eurodollar Future.

The Index Calculation Agent determines the answer to the following questions on the second Index Valuation Date prior to each Rebalancing Date in order to determine the "**Trading Strategy**":

Question 1: Is the ratio of the TwosTens Spread over the TwosTens Volatility greater than a specified level?

Question 2: Is the ratio of the TwosTens Spread over the TwosTens Volatility less than a specified level?

Question 3: Is the Rates Trend Indicator greater than the Rates Level Barrier?

Question 4: Is the Spread Trend Indicator less than the Spread Level Barrier?

The "**TwosTens Spread**" means, in respect of the relevant Index Valuation Date, the difference between the rates for the USD 6M Libor swap rate (a "**USD Swap Rate**") with the designated maturity of ten and two years, each as calculated by reference to relevant public sources, whereas the "**TwosTens Volatility**" represents the volatility of such spread.

The "**Rates Trend Indicator**" means, in respect of the relevant Index Valuation Date, a trend indicator relating to a 3-month USD Libor rate (a "**USD Libor Rate**"), as calculated by reference to relevant public sources, whereas the "**Rate Level Barrier**" is determined by reference to the volatility of the absolute returns on such rate.

The "**Spread Trend Indicator**" means, in respect of the relevant Index Valuation Date, a trend indicator relating to the TwosTens Spread, whereas the "**Spread Level Barrier**" is determined by reference to the volatility of the absolute returns on such spread.

The Index Calculation Agent uses the following diagram to determine whether the Trading Strategy is to buy or to sell the Fourth Eurodollar Future:

4. **DISRUPTION EVENTS**

From time to time the Index Calculation Agent and/or the Index Sponsor may determine that the Index is affected by certain disruption events including (but not limited to) the inability of the Index Calculation Agent to obtain the necessary data for calculating the Index, any suspension or limitation on trading the

constituents of the Index, any cancellation, suspension or substitution of the Core Index, any changes in laws or regulations affecting the Index or any constituents thereof or any rate used in the determination of the Index not reflecting the relevant costs of funding of the Index Sponsor. In the event of any such disruption the Index Sponsor and/or the Index Calculation Agent have certain powers to amend or modify the Index or to suspend or terminate the calculation or publication of the Index. Further detail on disruption events is set out below.

(a) **Data disruption**

In the event of a disruption relating to the manner that the Index Calculation Agent receives or otherwise acquires information necessary to make any determination or calculation relevant to the Index ("**Data Disruption**"), the Index Calculation Agent shall use reasonable endeavours to source data from alternative sources with the aim of publishing the level of the Index as soon as reasonably practicable. The Index Calculation Agent will not publish the level of the Index until the relevant Data Disruption is over or until it acquires the required data from an alternative source.

(b) **Market Disruption Event**

"**Market Disruption Events**" means, in respect of any Index Valuation Date and as determined in its discretion by the Index Calculation Agent, any rate or any other value relevant to the determination of the level of the Index is not available or does not accurately reflect the relevant market, any other disruption which disrupts the ability of market participants to effect transactions or obtain quotes in respect of the relevant rate or value or prevents the Index Calculation Agent from calculating or disseminating the Index Level, including but not limited to:

- (i) any relevant futures exchange not opening for business or severely curtailing its hours of business; or
- (ii) trading on a relevant futures exchange being conducted without timely dissemination of closing price data.

If the Index Calculation Agent determines that a Market Disruption Event has occurred in respect of any Index Valuation Date, then no level of the Index shall be determined for such Index Valuation Date and determination of the level of the Index shall be suspended until such time as the Index Calculation Agent determines that the Market Disruption Event no longer exists. If the Market Disruption Event continues for eight Index Valuation Dates, then the Index Sponsor may determine that it will terminate the publication of the Index.

(c) **Liquidity Disruption Event**

"**Liquidity Disruption Event**" means, in respect of any Index Valuation Date and as determined in its discretion by the Index Calculation Agent, a material reduction in the liquidity of the Eurodollar Future on CME such that the prices quoted on the relevant Reuters page for such rate do not adequately reflect the price at which a market participant may enter into a position in respect of the Eurodollar Future. Factors which may indicate a Liquidity Disruption Event include, without limitation, a material reduction in the volume of trades in the Eurodollar Future, a material widening of the bid-offer spread in respect of the Eurodollar Future or a material increase in the volatility of the price of the Eurodollar Future, in each case when compared to historic averages.

If the Index Calculation Agent determines that a Liquidity Disruption Event has occurred in respect of any Index Valuation Date, then the Index Sponsor may determine that it will terminate the publication of the Index. Any event that the Index Calculation Agent determines would constitute a Market Disruption Event and a Liquidity Disruption Event shall be considered to be a Liquidity Disruption Event and the provisions of this paragraph (c) shall apply.

(d) **Indicator Disruption Event**

If a USD Swap Rate or a USD Libor Rate does not appear on the relevant Reuters screen on any Index Valuation Date, the relevant rate for that Index Valuation Date will be determined by the Index Calculation Agent on the basis of either (i) mid-market semi-annual swap rate quotations, in respect of a USD Swap Rate, or (ii) the mid-market quarterly money market rate quotations, in respect of a USD Libor Rate, provided by five leading swap dealers in the London interbank market, as selected by the Index Calculation Agent, at approximately 11 a.m. London time on the relevant Index Valuation Date. If the Index Calculation Agent is unable to obtain any relevant rate, then there shall be deemed to be a Market Disruption Event and the provisions of paragraph (b) above shall apply.

(e) **Index Restrictions**

If any Eurodollar Future referenced the Index, causes or would cause HSBC and/or certain HSBC group entities to become:

- (i) subject to any legal and/or regulatory reporting and/or disclosure requirements and/or any legal and/or regulatory restrictions; or
- (ii) subject to the imposition of any taxes, duty, withholding, deduction or other charge; or
- (iii) restricted from dealing in such Index constituent pursuant to regulatory or legal obligations or internal policies,

then, if the Index Sponsor determines at any time that the circumstance described in (i), (ii) or (iii) is material, such Eurodollar Future shall be a "**Restricted Index Constituent**" and no Restricted Index Constituent shall be an Index constituent. The Index Sponsor may make such amendments or modifications to the Index Rules for the Index in its discretion as it deems appropriate as a result, including excluding the Restricted Index Constituent from the Index.

In the event that the Index Sponsor determines at any time that the circumstance described in (i), (ii) or (iii) above has ceased to be material in relation to any Restricted Index Constituent, then the Index Sponsor will determine that such Index constituent shall cease to be a Restricted Index Constituent.

5. **SUSPENSION AND TERMINATION OF THE INDEX**

The publication and maintenance of the Index is discretionary. The Index Sponsor may suspend or terminate the publication of the Index at any time, notwithstanding the fact whether any one or more of the disruption events set out in Section 5 (*Disruption Events*) has occurred or not.

In the event that the Index is suspended or terminated, the Index Sponsor accepts no responsibility for any losses incurred by any party whether incidental or consequential which arise out of any reliance on the continued existence and publication of the Index.

6. **RISK FACTORS RELATING TO THE INDEX**

In addition to the Risk Factors set forth in the Base Terms Module of the Index Rules and risk factors relating to the Index, investment in the product involves substantial risks including but not limited to the following:

Investment in the product entails significant risk

An investment in the product entails significant risks that are not generally associated with similar investments in conventional fixed rate or floating rate instruments. Calculation of the return on the product

is linked to the change in the level of the Index, which may decline as well as rise. Although the investor has the opportunity to receive a high return, the investor risks a lower return than investing in conventional debt instruments. As such, the investment may not be suitable for persons who are unfamiliar with the Index and its individual components, or unwilling or unable to bear the risk attendant with an investment in the product.

Independent appraisal of product

The investor should conduct such independent appraisal of the Index and the rules relating to the Index as it determines appropriate to evaluate the merits and risks of an investment in products linked to the Index. The Issuer (including in its capacity as Index Sponsor) accepts no responsibility whatsoever in respect of the merits or risks of the product or the Index and makes no representation, warranty or guarantee (express or implied) regarding the condition (financial or otherwise) of any assets comprising the Index or the performance of the Index.

No ownership rights

The investor will have no direct interest or right in any asset comprising the Index.

Effects of interest rates underlying the Index

The index is exposed to interest rates. Investors in the product are exposed to the risk that subsequent changes in interest rates may adversely affect the market value of the product. Investment in the product may involve interest rate risk with respect to the settlement currency of the product. A variety of factors influence interest rates such as macro economic, governmental, speculative and market sentiment factors. Such fluctuations may have an impact on the market value of the product.

Volatility in interest rates underlying the Index

The index is exposed to interest rates. Interest rates can be volatile and unpredictable. Investors should be aware of the possibility of significant changes in interest rates resulting in a decrease in the market value of the product.

Index Calculation Agent

The Index to which the product is linked is calculated by the Index Calculation Agent. None of the Index Calculation Agent or Index Sponsor makes any representations, warranties or guarantees whatsoever as to the performance of the Index or the product.

Conflicts of interest between the Issuer and the Index Sponsor

The Index to which the product is linked is sponsored, developed and promoted by the Issuer which is the Index Sponsor. The role of the Issuer as Index Sponsor will be performed by the Global Banking and Markets division of the Issuer. The roles of these various divisions within the Issuer may give rise to various potential and actual conflicts of interest.

No investment or professional advice

The Issuer makes no representation whatsoever, including as Index Sponsor, whether express or implied, as to the advisability of purchasing or assuming any risk in connection with an investment in the product.

Index Sponsor

As at the date hereof, HSBC Bank plc acts as Index Sponsor with respect to the Index. In such capacity, HSBC Bank plc may have economic interests adverse to those of the investors, including with respect to certain determinations and judgments that the Index Sponsor may be required to make pursuant to the terms of the Index, any of which may affect payments in respect of the product. HSBC Bank plc may act in its own interests in such capacities and need not have regard to the interests of the investors.

No advisory or fiduciary relationship

In its capacity as the Index Sponsor, the Issuer does not act as fiduciary for or an advisor to the investor in respect of any determination or judgment or otherwise.

The Issuer and its affiliates are under no obligations to the investor in respect of roles of any such person with respect to the Index

None of the Issuer or any of its affiliates is under any obligation to the investor in respect of any of the roles of any such person with respect to the Index. No such person is under any obligation to monitor whether or not any event or circumstance has occurred unless it is explicitly and positively stated that such person will do so. No such person will be required to (or will be responsible for any failure to) make any determination, waiver, declaration or decision whatsoever in relation to the Index on behalf of or in the interests of the investor.

The Index has a limited operating history and may perform in unanticipated ways

The Index was established in July 2011. There is no historic performance data. Back tested data may be available but it does not represent actual performance achieved nor is it an indication of future performance.

Termination or suspension of Index

Under the rules of the Index, the Index Sponsor may, at any time, terminate the Index or suspend the publication of its level. None of the Issuer, the Calculation Agent, Index Sponsor or the Index Calculation Agent accepts any responsibility for any losses incurred by any party whether incidental or consequential which arise out of any reliance on the continued existence any publication of the Index.

HSBC Uniform EUR Volatility Budgeted Index

Index Summary
HSBC Global Markets Indices

Version 2.0
May 2014

SUMMARY OF THE RULES OF THE HSBC UNIFORM EUR VOLATILITY BUDGETED INDEX

*This is a summary of the technical index rules (the "**Index Rules**") for the HSBC Uniform EUR Volatility Budgeted Index (the "**Index**"). The Index Rules include, among other things, further information about HSBC index governance, disruption and adjustment events, amendments and modifications of the Index Rules and detailed calculations followed by the Index Calculation Agent to determine the level of the Index. The Index Rules comprise a base terms module and two index terms modules, each of which may be amended or supplemented from time to time in accordance with the terms of the Index Rules. The Index Rules will be made available upon request to the Issuer and subject to confidentiality undertakings. If there is any conflict between the Index Rules and this summary, the Index Rules shall prevail.*

1. OVERVIEW

The Index has been designed by the Index Sponsor to benefit from price movements in the three month EURIBOR future contract (the "**EURIBOR Future**") traded on London International Financial Futures and Options Exchange ("**LIFFE**"). It uses the HSBC Uniform EUR Core Index (the "**Core Index**") as the basis, but it modifies its level by applying a "volatility budget" mechanism. That mechanism aims to control the volatility of the daily returns of the Core Index, as explained further in Section 3 (*Calculation of the Index Level*) below.

Each of the Index and the Core Index was first calculated on 10 March 2000, at which time their respective levels were set at 100. The level of the Index (the "**Index Level**") and the level of the Core Index (the "**Core Index Level**") are released by 5 p.m. (London time) on each date on which commercial banks and foreign exchange markets settle payments and are open for general business (including dealings in foreign exchange and foreign currency) in London and Frankfurt (each, an "**Index Valuation Date**") and are calculated in Euro only. Their respective calculation methods do not incorporate any deductions for transaction costs, taxes or fees. The Index is published on Bloomberg page HSUNEU01, whereas the Core Index is published on Bloomberg page HSUNEU00.

2. MANAGEMENT RESPONSIBILITIES

(a) Index Sponsor

The index sponsor is the Global Markets division (the "**Index Sponsor**") of HSBC Bank plc ("**HSBC**"). The Index is sponsored, developed and promoted by the Index Sponsor and is a proprietary index of the Index Sponsor. In certain circumstances, the Index Sponsor may be entitled to make certain amendments or modifications to the Index. In making any such amendments or modifications, the Index Sponsor will, acting in good faith and a commercially reasonable manner, ensure that such amendments or modifications will result in a methodology that, in the Index Sponsor's determination, is consistent in its intended commercial purpose with the methodology originally set out in the terms of the Index.

(b) Index Calculation Agent

The index calculation agent is Euromoney Trading Limited (the "**Index Calculation Agent**"). The role of the Index Calculation Agent is to provide independent calculation of the Index Level and make various determinations and adjustments. The Index Calculation Agent is responsible for obtaining information for inclusion or use in the calculation of the Index. The Index Calculation Agent will not independently verify such information and does not guarantee the accuracy or completeness of the Index or any data included therein.

(c) Index Committee

The HSBC Global Markets Indices and Strategies Governance Committee (the "**Index Committee**") has been established by the Index Sponsor and comprises core representatives from various functions within the Index Sponsor. The Index Committee is responsible for approving new indices and making certain amendments to existing indices (including the

Index), determining the effects on the indices of certain exceptional events and periodically reviewing each index. The Index Committee is not responsible for assessing the suitability of indices for any index-linked investment product or for investors in such investment product.

(d) **Limitation of liability**

To the extent permitted by applicable law, neither the Index Sponsor nor the Index Calculation Agent shall be liable (whether in negligence or otherwise) to any person for any direct, indirect, special, punitive, consequential or any other losses or damages incurred by such person that arise out of or in connection with any error in the Index and neither the Index Sponsor nor the Index Calculation Agent is under any obligation to advise any person of any error therein.

3. **CALCULATION OF INDEX LEVEL**

(a) **Duties and discretions of Index Sponsor and Index Calculation Agent**

All calculations and determinations made by the Index Sponsor and/or the Index Calculation Agent will be made in good faith and a commercially reasonable manner by reference to such factors as the Index Sponsor and/or the Index Calculation Agent deem appropriate. The Index Sponsor and the Index Calculation Agent will, as far as practicable, exercise any discretion with the aim of preserving the intended commercial purpose of the Index. Neither the Index Sponsor nor the Index Calculation Agent is required to consider the interest of any investor in Index-linked investment products in exercising such discretion.

In addition, in exercising its discretion, the Index Sponsor may take into account the effects of any positions, contracts, transactions or other instruments or arrangements (howsoever described) that the Index Sponsor reasonably believes a provider of any Index-linked investment product may reasonably hold in order to hedge its obligations in respect of the performance of the Index in respect of that Index-linked investment product ("**Investment Product Hedging**"). In exercising its discretion, the Index Calculation Agent may also take into account the effects of any such Investment Product Hedging as notified to it by the Index Sponsor, which may have a positive or negative impact on the level of the Index.

The calculations and determinations of each of the Index Sponsor and the Index Calculation Agent in relation to the Index and/or any constituent thereof shall be final and binding on all parties in the absence of manifest error.

(b) **Calculation methodology**

The level of the Index is calculated by the Index Calculation Agent in accordance with the terms of the Index.

The "**Index Level**", $S(t)$, is determined in accordance with the following formula on each Index Valuation Date t by reference to: the level of the Index on the immediately preceding Index Valuation Date, $S(t-1)$, the "**Target Volatility Factor**" for the immediately preceding Index Valuation Date, $TVF(t-1)$ (which represents the volatility-budgeted element of the Index) and the "**Core Index Return**", $R(t)$, (which represents a return on the Core Index, which in turn reflects the application of a defined strategy in respect of the EURIBOR futures market, as further described in Section 4(c) (*Determination of the Indicator and the Trading Strategy*) below):

$$S(t) = S(t-1) \times [1 + TVF(t-1) \times R(t)]$$

(c) **Calculation of the Core Index Return**

The "**Core Index Return**", $R(t)$, is determined in accordance with the following formula on each Index Valuation Date t by reference to: the level of the Core Index, $BI(t)$, and the level of the Core Index on the immediately preceding Index Valuation Date, $BI(t-1)$:

$$R(t) = \frac{BI(t) - BI(t-1)}{BI(t-1)}$$

(d) **Calculation of the Target Volatility Factor**

The "**Target Volatility Factor**", $TVF(t)$, is determined in accordance with the following formula on each Index Valuation Date t to be equal to the lower of: (1) 200% and (2) the ratio of (i) the target volatility of 8%, σ_{Target} , and (ii) the Realised Volatility in respect of the Core Index, $\sigma_{Realized}(t)$:

$$TVF(t) = \text{Minimum} \left(\frac{\sigma_{Target}}{\sigma_{Realized}(t)}, 200\% \right)$$

The "**Realised Volatility**" in respect of an Index Valuation Date t is a value representing the highest volatility of the Core Index in a defined period preceding Index Valuation Date t .

4. **CALCULATION OF THE LEVEL OF THE CORE INDEX**

(a) **Calculation methodology**

The level of the Core Index, "**Core Index Level**", $BI(t)$, is determined in accordance with the following formula on each Index Valuation Date t by reference to: the level of the Core Index on the immediately preceding Rebalancing Date, $BI(n)$, and the "**Futures Return**" on such Index Valuation Date, $F(t)$, (which represents a long or a short position in respect of the price for the Fourth EURIBOR Future (as defined below) on that Index Valuation Date and on the immediately preceding Rebalancing Date):

$$BI(t) = BI(n) \times [1 + (10 \times F(t))]$$

The Core Index is rebalanced as of each third Index Valuation Date prior to the third Wednesday in each calendar month, each a "**Rebalancing Date**".

(b) **Calculation of the Futures Return**

The Futures Return, $F(t)$, is determined in accordance with the following formula on each Index Valuation Date t by reference to: the value of the Indicator (which determines whether the Core Index assumes a long or a short position in respect of the Fourth EURIBOR Future), $Indicator(t)$, and the price of the Fourth EURIBOR Future in respect of (i) that Index Valuation Date t , $EF(t)$, and (ii) the immediately preceding Rebalancing Date n , $EF(n)$:

$$F(t) = \frac{EF(t) - EF(n)}{100} \times Indicator(t)$$

The "**Fourth EURIBOR Future**" in respect of an Index Valuation Date is the EURIBOR Future which expires in the month of the fifth future expiry date on or after that Index Valuation Date. The price of the Fourth EURIBOR Future in respect of any Rebalancing Date is calculated as an arithmetic average of the relevant prices at five different observation points on such date.

(c) **Determination of the Indicator and the Trading Strategy**

The "**Indicator**", $Indicator(t)$, is determined on each Index Valuation Date t as either:

- (i) number "1", if the Trading Strategy is to buy the Fourth EURIBOR Future, or

(ii) number "-1", if the Trading Strategy is to sell the Fourth EURIBOR Future.

The Index Calculation Agent determines the answer to the following questions on the second Index Valuation Date prior to each Rebalancing Date in order to determine the "**Trading Strategy**":

Question 1: Is the ratio of the TwosTens Spread over the TwosTens Volatility greater than a specified level?

Question 2: Is the ratio of the TwosTens Spread over the TwosTens Volatility less than a specified level?

Question 3: Is the Rates Trend Indicator greater than the Rates Level Barrier?

Question 4: Is the Spread Trend Indicator less than the Spread Level Barrier?

The "**TwosTens Spread**" means, in respect of the relevant Index Valuation Date, the difference between the rates for the EURIBOR swap rate (a "**EURIBOR Swap Rate**") with the designated maturity of ten and two years, each as calculated by reference to relevant public sources, whereas the "**TwosTens Volatility**" represents the volatility of such spread.

The "**Rates Trend Indicator**" means, in respect of the relevant Index Valuation Date, a trend indicator relating to a 3-month EURIBOR rate (a "**EURIBOR Rate**"), as calculated by reference to relevant public sources, whereas the "**Rate Level Barrier**" is determined by reference to the volatility of the absolute returns on such rate.

The "**Spread Trend Indicator**" means, in respect of the relevant Index Valuation Date, a trend indicator relating to the TwosTens Spread, whereas the "**Spread Level Barrier**" is determined by reference to the volatility of the absolute returns on such spread.

The Index Calculation Agent uses the following diagram to determine whether the Trading Strategy is to buy or to sell the Fourth EURIBOR Future:

5. **DISRUPTION EVENTS**

From time to time the Index Calculation Agent and/or the Index Sponsor may determine that the Index is affected by certain disruption events including (but not limited to) the inability of the Index Calculation Agent to obtain the necessary data for calculating the Index, any suspension or limitation on trading the constituents of the Index, any cancellation, suspension or substitution of the Core Index, any changes in laws or regulations affecting the Index or any constituents thereof or any rate used in the determination of the Index not reflecting the relevant costs of funding of the Index Sponsor. In the event of any such disruption the Index Sponsor and/or the Index Calculation Agent have certain powers to amend or modify the Index or to suspend or terminate the calculation or publication of the Index. Further detail on disruption events is set out below.

(a) **Data disruption**

In the event of a disruption relating to the manner that the Index Calculation Agent receives or otherwise acquires information necessary to make any determination or calculation relevant to the Index ("**Data Disruption**"), the Index Calculation Agent shall use reasonable endeavours to source data from alternative sources with the aim of publishing the level of the Index as soon as reasonably practicable. The Index Calculation Agent will not publish the level of the Index until the relevant Data Disruption is over or until it acquires the required data from an alternative source.

(b) **Market Disruption Event**

"**Market Disruption Events**" means, in respect of any Index Valuation Date and as determined in its discretion by the Index Calculation Agent, any rate or any other value relevant to the determination of the level of the Index is not available or does not accurately reflect the relevant market, any other disruption which disrupts the ability of market participants to effect transactions or obtain quotes in respect of the relevant rate or value or prevents the Index Calculation Agent from calculating or disseminating the Index Level, including but not limited to:

- (i) any relevant futures exchange not opening for business or severely curtailing its hours of business; or
- (ii) trading on a relevant futures exchange being conducted without timely dissemination of closing price data.

If the Index Calculation Agent determines that a Market Disruption Event has occurred in respect of any Index Valuation Date, then no level of the Index shall be determined for such Index Valuation Date and determination of the level of the Index shall be suspended until such time as the Index Calculation Agent determines that the Market Disruption Event no longer exists. If the Market Disruption Event continues for eight Index Valuation Dates, then the Index Sponsor may determine that it will terminate the publication of the Index.

(c) **Liquidity Disruption Event**

"**Liquidity Disruption Event**" means, in respect of any Index Valuation Date and as determined in its discretion by the Index Calculation Agent, a material reduction in the liquidity of the EURIBOR Future on LIFFE such that the prices quoted on the relevant Reuters page for such rate do not adequately reflect the price at which a market participant may enter into a position in respect of the EURIBOR Future. Factors which may indicate a Liquidity Disruption Event include, without limitation, a material reduction in the volume of trades in the EURIBOR Future, a material widening of the bid-offer spread in respect of the EURIBOR Future or a material increase in the volatility of the price of the EURIBOR Future, in each case when compared to historic averages.

If the Index Calculation Agent determines that a Liquidity Disruption Event has occurred in respect of any Index Valuation Date, then the Index Sponsor may determine that it will terminate the publication of the Index. Any event that the Index Calculation Agent determines would constitute a Market Disruption Event and a Liquidity Disruption Event shall be considered to be a Liquidity Disruption Event and the provisions of this paragraph (c) shall apply.

(d) **Indicator Disruption Event**

If a EURIBOR Swap Rate or a EURIBOR Rate does not appear on the relevant Reuters screen on any Index Valuation Date, the relevant rate for that Index Valuation Date will be determined by the Index Calculation Agent on the basis of either (i) mid-market semi-annual swap rate quotations, in respect of a EURIBOR Swap Rate, or (ii) the mid-market quarterly money market rate quotations, in respect of a EURIBOR Rate, provided by five leading swap dealers in the London interbank market, as selected by the Index Calculation Agent, at approximately 11 a.m. Frankfurt time on the relevant Index Valuation Date. If the Index Calculation Agent is unable to obtain any relevant rate, then there shall be deemed to be a Market Disruption Event and the provisions of paragraph (b) above shall apply.

(e) **Disruption of the Core Index**

If, in respect of any Index Valuation Date, no level of the Core Index is determined for such Index Valuation Date then the level of the Index will not be determined for such Index Valuation Date and determination of the level of the Index shall be suspended until such time as the level of the Core Index is determined. If the Index Sponsor determines that it will terminate the publication of the Core Index, publication of the Index may also be terminated.

(f) **Index Restrictions**

If any EURIBOR Future referenced the Index, causes or would cause HSBC and/or certain HSBC group entities to become:

- (i) subject to any legal and/or regulatory reporting and/or disclosure requirements and/or any legal and/or regulatory restrictions; or
- (ii) subject to the imposition of any taxes, duty, withholding, deduction or other charge; or
- (iii) restricted from dealing in such Index constituent pursuant to regulatory or legal obligations or internal policies,

then, if the Index Sponsor determines at any time that the circumstance described in (i), (ii) or (iii) is material, such EURIBOR Future shall be a "**Restricted Index Constituent**" and no Restricted Index Constituent shall be an Index constituent. The Index Sponsor may make such amendments or modifications to the Index Rules for the Index in its discretion as it deems appropriate as a result, including excluding the Restricted Index Constituent from the Index.

In the event that the Index Sponsor determines at any time that the circumstance described in (i), (ii) or (iii) above has ceased to be material in relation to any Restricted Index Constituent, then the Index Sponsor will determine that such Index constituent shall cease to be a Restricted Index Constituent.

6. **SUSPENSION AND TERMINATION OF THE INDEX**

The publication and maintenance of the Index is discretionary. The Index Sponsor may suspend or terminate the publication of the Index at any time, notwithstanding the fact whether any one or more of the disruption events set out in Section 5 (*Disruption Events*) has occurred or not.

In the event that the Index is suspended or terminated, the Index Sponsor accepts no responsibility for any losses incurred by any party whether incidental or consequential which arise out of any reliance on the continued existence and publication of the Index.

7. **RISK FACTORS RELATING TO THE INDEX**

In addition to the Risk Factors set forth in the Base Terms Module of the Index Rules and risk factors relating to the Index, investment in the product involves substantial risks including but not limited to the following:

Investment in the product entails significant risk

An investment in the product entails significant risks that are not generally associated with similar investments in conventional fixed rate or floating rate instruments. Calculation of the return on the product is linked to the change in the level of the Index, which may decline as well as rise. Although the investor has the opportunity to receive a high return, the investor risks a lower return than investing in conventional debt instruments. As such, the investment may not be suitable for persons who are unfamiliar with the Index and its individual components, or unwilling or unable to bear the risk attendant with an investment in the product.

Independent appraisal of product

The investor should conduct such independent appraisal of the Index and the rules relating to the Index as it determines appropriate to evaluate the merits and risks of an investment in products linked to the Index. HSBC Dynamic 5 ETF Index

Index Summary
HSBC Global Markets Indices

Version 2.0
May 2014

1. Index Overview

The HSBC Dynamic 5 ETF Index (the “**Dynamic ETF Index**” or the “**Index**”) was developed and is maintained by the HSBC Global Markets businesses of HSBC Bank plc (the “**Index Sponsor**”). The Index is calculated by Euromoney Trading Limited (the “**Index Calculation Agent**”) in accordance with the rules for the Index (the “**Index Rules**”), as summarised in this Index Summary.

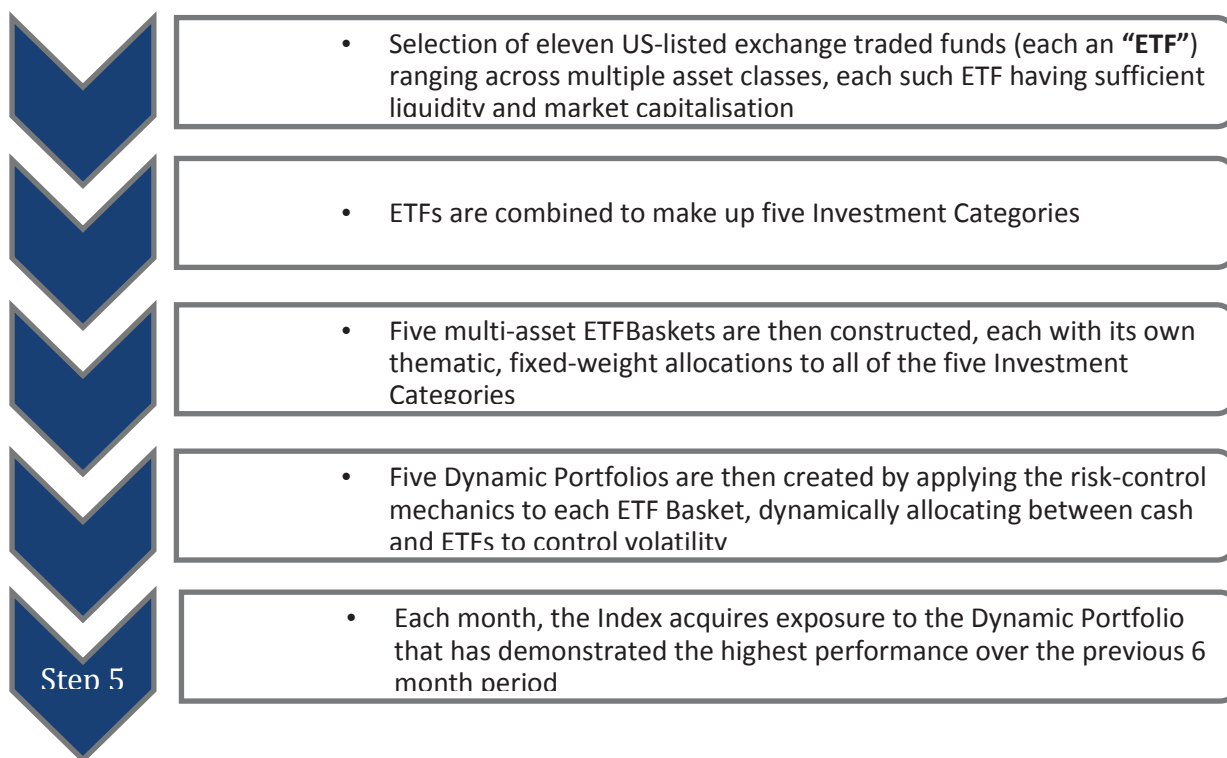

Please note that this Index Summary does not set out the entire methodology for the determination of the level of the Index, and the full Index Rules are available from the Index Sponsor upon request, subject to certain non-disclosure obligations. Please also note that publication and maintenance of the Index is discretionary, and the Index Sponsor may suspend or terminate the Index, or change the Index Rules, at any time, as further described in Section 3 (*Index maintenance and disruption events*).

The Dynamic ETF Index is a notional rules-based dynamic strategy that tracks the returns of a dynamic portfolio of eleven exchange-traded funds (each, an “**ETF Constituent**”). The ETF Constituents represent a diverse range of asset classes and geographic regions which are categorised into separate investment categories (each, an “**Investment Category**”), such as Developed Equities, Developed Bonds, Emerging Markets, Real Assets and Inflation, as further described below. The ETF Constituents are arranged into five baskets (the “**ETF Baskets**”), each with its own thematic, fixed-weight allocations to each Investment Category.

The Index uses the (annualised) volatility of daily returns of each of the five ETF Baskets over specified periods to create five corresponding risk-controlled portfolios (each, a “**Dynamic Portfolio**”). Each such Dynamic Portfolio is composed of the relevant ETF Basket and a notional cash investment, with the weights to each adjusted according to the volatility of the ETF Basket. The Dynamic ETF Index follows a “risk-controlled momentum strategy” approach by selecting, each month, the Dynamic Portfolio with the highest six-month risk-controlled return and using its value to calculate the Index level each day.

2. Construction of the Dynamic ETF Index

The Index is created by following the five steps below:

Step 1 – Selection of the ETF Constituents

The Index acquires exposure to eleven ETF Constituents, as set out in the table below. Each is listed on the New York Stock Exchange and has been selected due to its relatively high liquidity and significant market capitalisation.

The table below also sets out: (a) the average daily liquidity calculated using the average daily volume of shares traded; and (b) the market capitalisation as reported by the ETF Sponsor.

ETF Constituent	ETF Ticker	Description	Market Cap.	Avg. Daily Liquidity

iShares Barclays TIPS Bond ETF	TIP	The Fund tracks the Barclays Capital US Treasury Inflation Notes Index.	\$14B	\$130M

The information set out in the table above is accurate as at October 2013.

Step 2 – Creation of Investment Categories

The ETF Constituents are divided into five “thematic” Investment Categories, as set out below. A fixed weight (the “**Asset Class Weight**”) is allocated to each ETF Constituent such that the sum of the Asset Class Weights of the ETF Constituents in each Investment Category is equal to 100%.

Investment Category	ETF Constituent	Asset Class Weight
Developed Equities	SPDR S&P 500 ETF Trust	50%
	iShares Russell 2000 Index Fund	25%
	iShares MSCI EAFE Index Fund	25%
Developed Bonds	iShares Barclays 20+ Year Treasuries Bond Fund	55%
	iShares IBOXX Investment Grade Corporate Bond Fund	35%
	iShares IBOXX High Yield Corporate Bond Fund	15%
Emerging Markets	iShares MSCI Emerging Markets ETF	70%
	iShares JP Morgan Emerging Markets Bond Fund	30%
Real Assets	iShares DJ US Real Estate ETF	25%
	SPDR Gold Trust	75%
Inflation	iShares Barclays TIPS Bond ETF	100%

Step 3 – Creation of ETF Baskets

The five Investment Categories above are combined to make five multi-asset ETF Baskets. Each ETF Basket is intended to track a specific investment theme and it is created by allocating fixed exposures to each of the Investment Categories, as set out below:

Consequently, the Asset Class Weights of the ETF Constituents in each of the ETF Baskets are as follows:

ETF Constituent	Event Risk / Defensive Focus ETF Basket	Fixed Income Focus ETF ETF Basket	Equity Focus ETF Basket	Developed Market Focus ETF Basket	Emerging Market Focus ETF Basket
SPDR S&P 500 ETF Trust (SPY)	5%	10%	20%	15%	2.5%
iShares Russell 2000 Index Fund (IWM)	2.5%	5%	10%	7.5%	1.25%
iShares MSCI EAFE Index Fund (EFA)	2.5%	5%	10%	7.5%	1.25%
iShares Barclays 20+ Year Treasury Bond Fund (TLT)	17.5%	20%	10%	15%	10%
iShares iBoxx \$ Investment Grade Corporate Bond Fund (LQD)	12.25%	14%	7%	10.5%	7%
iShares iBoxx \$ High Yield Corporate Bond Fund (HYG)	5.25%	6%	3%	4.5%	3%
iShares MSCI Emerging Markets Index (EEM)	7%	3.5%	10.5%	14%	35%
iShares JP Morgan USD Emerging Markets Bond Fund (EMB)	3%	1.5%	4.5%	6%	15%
iShares Dow Jones U.S. Real Estate Index Fund (IYR)	6.25%	5%	5%	2.5%	3.75%
SPDR Gold Trust (GLD)	18.75%	15%	15%	7.5%	11.25%
iShares Barclays US Treasury Inflation Protected Securities Fund (TIP)	20%	15%	5%	10%	10%

By way of example, the ETF Basket with a focus on Developed Markets will consist of the following ETF Constituents:

Step 4 – Applying risk control to each ETF Basket to create a Dynamic Portfolio

The risk control methodology aims to improve the risk-adjusted returns of the Index by allocating between each ETF Basket and cash to target a specific level of maximum volatility. A portfolio combining an ETF Basket and the level of cash determined pursuant to the methodology set out below is referred to as a Dynamic Portfolio. There is one Dynamic Portfolio for each ETF Basket.

On a daily basis, the Calculation Agent determines the realised volatilities of each ETF Basket over 20-day and 120-day time windows. Depending on the level of volatilities, the Index Calculation Agent determines the allocation to the ETF Basket in the corresponding Dynamic Portfolio in accordance with the table below:

Band	Max Short Vol Window (20 day)	Max Long Vol Window (120 Day)	Portfolio allocation to the ETF Basket
1	5.00%	7.00%	100%

2	5.56%	7.78%	90%
3	6.25%	8.75%	80%
4	7.14%	10.00%	70%
5	8.33%	11.67%	60%
6	10.00%	14.00%	50%
7	12.50%	17.50%	40%
8	16.67%	23.33%	30%
9	25.00%	35.00%	20%
10	50.00%	70.00%	10%
11	>50%	>70%	0%

The allocation to the ETF Basket in each Dynamic Portfolio will correspond to the band closest to, but not greater than, the relevant realised volatility. If the 20-day realised volatility does not indicate the same band as the 120-day realised volatility, then the lower allocation of the two will apply.

For example, if the 20-day realised volatility in respect of the Equity Focus ETF Basket is 9%, but its 120-day realised volatility is 7.5%, then:

- (a) the 20-day realised volatility of 9% corresponds to band 6 and a 50% allocation; and
- (b) the 120 day realised volatility of 7.5% corresponds to band 2 and a 90% allocation.

The Dynamic Portfolio corresponding to the Equity Focus ETF Basket will be composed as follows:

- (a) as 50% is lower than 90%, the allocation to the Equity Focus ETF Basket will be equal to 50%; and
- (b) the remaining 50% of that Dynamic Portfolio will be allocated to a notional cash investment determined by reference to the 1 month USD LIBOR rate (the “**Cash Asset Rate**”).

Step 5 – Allocation to a single best performing Dynamic Portfolio

At the end of each month, the Index Calculation Agent will select the best performing Dynamic Portfolio over the previous rolling six-month period. The level of the Index on each date in the following month will be determined only by reference to that best performing Dynamic Portfolio (and the levels in respect of the other four Dynamic Portfolios will be disregarded).

If another Dynamic Portfolio has had a better performance over the relevant six-month period in the following month, then the Index will be rebalanced to track the performance only of that other Dynamic Portfolio.

3. Index maintenance and disruption events

(a) Index maintenance

The Index Sponsor has a right to make amendments or modifications to the Index Rules in certain circumstances, as set out in the Index Rules. Following any such amendment or modification, the Index Sponsor will revise the Index Rules, which will continue to be available upon request.

The publication and maintenance of the Index is discretionary. The Index Sponsor may suspend or terminate the publication of the Index at any time including, without limitation, following any relevant regulatory changes or the occurrence of any of the disruption events summarised below. In the event that the Index is suspended or terminated, the Index Sponsor accepts no responsibility for any losses incurred by any party whether incidental or consequential which arise out of any reliance on the continued existence and publication of that Index.

(b) Extraordinary Fund Event

If an Extraordinary Fund Event (as described below) has occurred and is continuing with respect to any ETF Constituent (an “**Affected ETF**”), the Index Sponsor may either: (A) terminate the Index; or (B) direct the Index Calculation Agent to make any of the following modifications:

- (i) replace the Affected ETF with a successor ETF;
- (ii) replace the Affected ETF with an alternative ETF;
- (iii) remove the Affected ETF from the Index and reallocate the remaining ETF Constituents.

An “**Extraordinary Fund Event**” includes the occurrence of any of the following circumstances with respect to an ETF Constituent: any breach, violation or modification of the constitutional documents of the relevant ETF Constituent; any insolvency, regulatory or similar proceedings relating to the ETF Constituent or its administrator, manager, advisor or any other relevant service provider; any material modification to its investment strategy or operations; non-compliance by the ETF Constituent, its administrator, manager, advisor or any other relevant service provider with any relevant legal or regulatory obligations; any material modification to its investment strategy or operations any material disruption relating to its trading, listing, liquidity, capitalisation or amount of assets under management; any default by a counterparty with which the ETF Constituent has a material position; any relevant merger event or tender offer; any event relating to one of the jurisdictions to which the ETF Constituent is exposed; or any other relevant events, each as determined by the Index Calculation Agent.

(c) Cash Asset Rate Disruption

If the Index Calculation Agent determines that a disruption has occurred in respect of the Cash Asset Rate, then the Index Calculation Agent may:

- (i) replace the Cash Asset Rate with an alternative cash asset rate that has been announced by the relevant sponsor of such alternative cash asset rate as constituting a successor to the Cash Asset Rate;

- (ii) replace the Cash Asset Rate with an alternative cash asset rate;
- (iii) postpone: (A) the determination of the Cash Asset Rate; and (B) the determination and publication of the levels of the Index; or
- (iv) if the Index Calculation Agent decides that none of the steps in (i) to (iii) is appropriate, it may terminate the Index.

(d) Corporate Actions

If a Share Adjustment Event (as described below) has occurred with respect to an ETF Constituent, the Index Calculation Agent may, in accordance with the Index Rules, make modifications to the calculation of the Index by adjusting the level of the relevant ETF Constituent and, if necessary, adjusting its weight in one or more affected ETF Baskets. In certain circumstances, the Index Calculation Agent may determine that a Share Adjustment Event is deemed to be an Extraordinary Fund Event, in which case the Extraordinary Fund Event provisions will apply (as summarised in Section 3(b) (*Extraordinary Fund Event*) above).

A “**Share Adjustment Event**” includes the occurrence of any of the following circumstances with respect to an ETF Constituent: a subdivision or reclassification of units in that ETF Constituent; a distribution or issue of any extraordinary dividend or distribution; a repurchase of units in that ETF Constituent; any other event that may have, in the opinion of the Index Calculation Agent, a dilutive, concentrative or other effect on the theoretical value of the units in that ETF Constituent.

(e) Index Market Disruption Events

If the Index Calculation Agent determines that an Index Market Disruption Event (as described below) has occurred on any day, then:

- (i) if rebalancing of the Index would occur on such day or on the following day (each, an “**Index Rebalancing Date**”), the Index Calculation Agent shall, following consultation with the Index Sponsor, either:
 - (i) determine that such day shall still be the Index Rebalancing Day, and make any relevant determinations or adjustments in its discretion; or
 - (ii) determine that the Index Rebalancing Day shall be postponed; and
- (ii) if such day is not an Index Rebalancing Day, the Index Calculation Agent shall, following consultation with the Index Sponsor, either:
 - (i) determine the level of the Index on such day by making any relevant determinations or adjustments in its discretion; or
 - (ii) determine that no level of that Index shall be determined for such day.

An “**Index Market Disruption Event**” includes the occurrence of any of the following circumstances with respect to an ETF Constituent or a unit in an ETF Constituent: any relevant suspension or limitation imposed on trading in that ETF Constituent (or any instrument, such as a futures or an option, in respect of that ETF Constituent) or otherwise any relevant disruption; the closure or an early closure of any relevant trading venue on which either the ETF Constituent or any instrument, such as a futures or an option in respect of that ETF Constituent, is listed or traded; or a

general moratorium is declared in respect of banking activities in the country in which any relevant exchange is located.

(f) Data error or data disruption

If the Index Calculation Agent determines that, at any time, the source of any information relevant to the determination of the level of the Index has amended or modified any such information, the Index Calculation Agent may in, its discretion, make any re-determination or re-calculation in respect of the Index and retrospectively adjust the level of the Index accordingly.

If there is any disruption to the manner in which the Index Calculation Agent acquires information necessary to make any determination relevant to the Index, the Index Calculation Agent will use reasonable endeavours to source data from alternative sources with the aim of publishing the level of the Index as soon as reasonably practicable. The Index Calculation Agent will not publish the level of an Index until the relevant disruption is over or until it acquires the required data from an alternative source.

Risk Factors relating to the Index

In addition to the risk factors relating to the Index set out in the Base Terms Module of the Index Rules and risk factors relating to the Index which may be set out in the relevant Asset Terms Module or Index Terms Module, prospective investors should consider the following:

The Index may not be successful, and may not outperform any alternative strategy that might be employed in respect of the exchange traded funds (“ETFs”) or achieve its target volatility

The Index follows a notional rules-based proprietary strategy that operates on the basis of pre-determined rules. No assurance can be given that the investment strategy on which the Index is based will be successful or that the Index will outperform any alternative strategy that might be employed in respect of the ETFs. Furthermore, no assurance can be given that the Index will achieve its target maximum volatility of 5%. The actual realized volatility of the Index may be greater or less than 5%.

The Index comprises notional assets and liabilities

The exposure to the ETF Basket and any cash investment are purely notional and will exist solely in the records maintained by or on behalf of the Index Calculation Agent. There is no actual portfolio of assets to which any person is entitled or in which any person has any ownership interest. Consequently, an investor will not have any claim against any of the reference assets that comprise the Index. The strategy tracks the excess return of a notional dynamic basket over the 1-month USD LIBOR interest rate (calculated daily) and, as such, any allocation to a cash investment within the Index, which also accrues at the 1-month USD LIBOR interest rate, will not affect the level of the Index.

Changes in the market value of the ETFs may not be reflected in the level of the Index

Changes in the market values of the ETFs may not result in a comparable change in the level of the Index.

The Index has a limited operating history and may perform in unanticipated ways

The Index was established on 9 May 2013 and therefore has a limited operating history. Back tested data may be available but it does not represent actual performance achieved nor is it an indication of future performance.

The Index is subject to market risks

The performance of the index is dependent on the performance of the eleven ETFs, as constructed as available in the five Portfolios over 1-month USD LIBOR. As a consequence, the Index is exposed to the price performance and credit performance of the ETFs, as well as fluctuations in the 1-month USD LIBOR interest rate. As a result, any increase in the level of the Index may be offset by increases in the 1-month USD LIBOR.

Risks associated with the Index’s momentum investment strategy

The Index is constructed using what is generally known as a momentum investment strategy. Momentum investing generally seeks to capitalize on positive trends in the price of assets. As such, the weights of the ETFs in the Index are based on the performance of the ETFs from the immediately preceding six month period. However, there is no guarantee that trends existing in the preceding six month period will continue in the future. A momentum strategy is different from a strategy that seeks long-term exposure to a portfolio consisting of constant components with

fixed weights. The Index may fail to realize gains that could occur as a result of being exposed to assets that experienced price declines, but after which experience a sudden price spike. As a result, if market conditions do not represent a continuation of prior observed trends, the level of the Index, which is rebalanced based on prior trends, may decline. Additionally, even when the closing prices or levels of the ETFs are trending downwards, the Index will continue to be composed of the eleven ETFs. Due to the “long- only” construction of the Index, the weight of each ETF will not fall below zero in respect of each Rebalancing Calculation Date (as defined in the Index Summary) even if the relevant ETF displayed a negative performance over the relevant six month period. No assurance can be given that the investment strategy used to construct the Index will outperform any alternative index that might be constructed from the ETFs.

The Index may perform poorly during periods characterized by short-term volatility

The Index’s strategy is based on momentum investing. Momentum investing strategies are effective at identifying the current market direction in trending markets. However, in non-trending, sideways markets momentum investment strategies are subject to “whipsaws”. A whipsaw occurs when the market reverses and does the opposite of what is indicated by the trend indicator, resulting in a trading loss during the particular period. Consequently, the Index may perform poorly in non-trending, “choppy” markets characterized by short-term volatility.

The Index may be partially un-invested

The weight of a cash investment (if any) for a Portfolio at any given time represents the portion of the synthetic portfolio that is un-invested in the applicable ETF Basket at that time. The Index will reflect no return for any un-invested portion (i.e., any portion represented by a cash investment).

The ETFs composing the Index may be replaced by a substitute ETF or index in certain extraordinary events

Following the occurrence of certain Extraordinary Fund Events with respect to an ETF as described under “Annex 1: Index Summary - The HSBC Dynamic 5 ETF Excess Return Index — Extraordinary Fund Event,” the affected ETF may be replaced by a substitute ETF or index. Investors should realize that the changing of an ETF may affect the performance of the Index as the replacement ETF may perform significantly better or worse than the affected ETF.

Any of the ETFs may be replaced by an index under extraordinary circumstances, in which case the risks relating to indices will affect the level of the Index

Under certain extraordinary circumstances, any ETF may be replaced by a substitute index that possesses substantially similar characteristics or provides a substantially similar exposure as the ETF being replaced, as determined by the index calculation agent in its discretion. Investors in investment products linked to the Index will not have rights that holders of the assets underlying a substitute index would have such as, if applicable, voting rights or rights to dividends or other distributions. If the substitute index is an equity index that is not a total return index, the value of the substitute index will not reflect dividends on the equity securities included in such equity index.

Moreover, the policies of the sponsor of the substitute index concerning the methodology and calculation of the substitute index, including decisions regarding additions, deletions or substitutions of the assets underlying the substitute index could affect the level of the successor index. The Index could also be affected if the sponsor of the substitute index discontinues or suspends calculation or dissemination of the substitute index, in which case it may become difficult to determine the level of the Index. The index sponsor of the substitute index will have

no obligation to consider your interests in calculating or revising such substitute index.

If the assets included in the substitute index are denominated in currencies other than U.S. dollars, then the value of the Index will be subject to currency exchange risk. If the assets underlying a substitute index have been issued by non-U.S. companies or non-U.S. governments, the level of the substitute index and therefore the value of the Index will be affected by political, economic, financial and social factors in the relevant countries, including changes in a relevant country's government, economic and fiscal policies, currency exchange laws and other foreign laws or restrictions.

Correlation of performances among the ETFs may reduce the performance of the Index

Performances of the ETFs may become highly correlated from time to time, including, but not limited to, a period in which there is a substantial decline in a particular sector or asset type represented by the ETFs and which has a higher weighting in the Index relative to any of the other sectors or asset types, as determined by the Index's strategy. High correlation during periods of negative returns among ETFs representing any one sector or asset type and which ETFs have a substantial percentage weighting in the Index could have an adverse effect on any payments on, and the value of, investment products linked to the Index.

Changes in the value of the ETFs may offset each other

Because the Index is linked to the performance of the ETFs, which collectively represent a diverse range of asset classes and geographic regions, price movements between the ETFs representing different asset classes or geographic regions may not correlate with each other. At a time when the value of an ETF representing a particular asset class or geographic region increases, the value of other ETFs representing a different asset class or geographic region may not increase as much or may decline. Therefore, in calculating the level of the Index, increases in the value of some of the ETFs may be moderated, or more than offset, by lesser increases or declines in the level of other ETFs.

The level of the Index will include the deduction of the 1-month USD LIBOR interest rate and a fee

One way in which the Index may differ from a typical index is that its level will include a deduction from the performance of the applicable portfolio of both the 1-month USD LIBOR interest rate and a fee of 0.50% per annum. This fee will be deducted daily. As a result of the deduction of this fee, the level of the Index will trail the value of a hypothetically identically construed synthetic portfolio from which no such fee is deducted.

ETFs

Neither the Index Sponsor nor the Calculation Agent have undertaken any investigation of any of the ETFs. Neither the Index Summary nor the Index Rules provide information with respect to the ETFs. No investigation has been made of the financial condition or the creditworthiness of the ETFs. An investor should obtain and evaluate the same information concerning the ETFs as it would if it were to invest directly in the ETFs. In particular, investors should carefully investigate and consider any risks associated with (i) Equity/Bond ETFs, (ii) real estate investment trusts and the SPDR Gold Trust.

Risks relating to the 1-month USD LIBOR

The 1-month USD LIBOR will be affected by a number of factors, including, but not limited to changes in, or perceptions about, future rates, general economic conditions, prevailing interest rates and the policy of the Federal Reserve Board. There can be no assurance that the method

by which the 1-month USD LIBOR is calculated will not change. Such changes in the method of calculation could reduce the level of the 1-month USD LIBOR and consequently, the return on the cash investment.

The 1-month USD LIBOR is subject to volatility due to a variety of factors affecting interest rates generally, including sentiment regarding underlying strength in the US, European and global economics, expectation regarding the level of price inflation, sentiment regarding credit quality in the US, European and global credit markets, central bank policy regarding interest rates and performance of capital markets. Decreases in the 1-month LIBOR will have a negative impact on the performance of the cash investment, while increases in the 1-month USD LIBOR will have a negative impact on the overall performance of the Index, which measure the performance of the applicable Portfolio over 1-month USD LIBOR.

DISCLAIMERS

Notional Index and Index Rules

No assurance can be given that the investment strategy used to construct the Dynamic ETF Index will be successful or that the Dynamic ETF Index will outperform any alternative basket or strategy that might be constructed from the ETF Constituents. Furthermore, no assurance can be given that the Dynamic ETF Index will achieve its target volatility of 5%. The actual realised volatility of the Dynamic ETF Index may be greater or less than 5%.

The Index is described as a “notional” or synthetic portfolio or basket of assets because there is no actual portfolio of assets to which any person is entitled or in which any person has any ownership interest. The Index merely references certain assets, the performance of which will be used as a reference point for calculating the level of the Index.

The description of the Index and methodology included in this Index Summary is based on the Index Rules formulated by HSBC Bank plc. The Index Rules, and not this Index Summary, will govern the calculation and constitution of the Index and other decisions and actions related to its maintenance. The Index Rules in effect as of the date of this Index Summary are available upon request. The Index is the intellectual property of HSBC Bank plc, and HSBC Bank plc reserves all rights with respect to its ownership of the Index. The Index is reported by Bloomberg L.P. under the ticker symbol “HSIED5UE”.

The role of the Issuer as Index Sponsor will be performed by the Global Banking and Markets division of the Issuer. The analysts of the Research Provider producing research is a division of HSBC Global Research which is also a division of the Issuer. The roles of these various divisions within the Issuer may give rise to various potential and actual conflicts of interest.

No investment or professional advice

In such capacity, HSBC Bank plc may have economic interests adverse to those of the investors, including with respect to certain determinations and judgments that the Index Sponsor may be required to make pursuant to the terms of the Index, any of which may affect payments in respect of the product. HSBC Bank plc may act in its own interests in such capacities and need not have regard to the interests of the investors.

No advisory or fiduciary relationship

In its capacity as the Index Sponsor or Research Provider, the Issuer does not act as fiduciary for or an advisor to the investor in respect of any determination or judgment or otherwise.

The Issuer and its affiliates are under no obligations to the investor in respect of roles of any such person with respect to the Index

The description of the Index and methodology included in this Index Summary is based on the Index Rules formulated by HSBC Bank plc. The Index Rules, and not this Index Summary, will govern the calculation and constitution of the Index and other decisions and actions related to its maintenance.

Risk Factors relating to the Index

In addition to the Risk Factors set forth in the Base Terms Module of the Index Rules and risk factors relating to the Index, investment in the product involves substantial risks including but not limited to the following:

Investment in the product entails significant risk

An investment in the product entails significant risks that are not generally associated with similar investments in conventional fixed rate or floating rate debt securities. Calculation of the return on the product is linked to the change in the level of the Index, which may decline as well as rise. Although the investor has the opportunity to receive a high return, the investor risks a lower return than investing in conventional debt instruments. As such, the investment may not be suitable for persons who are unfamiliar with the Index and its individual components, or unwilling or unable to bear the risk attendant with an investment in the product.

Independent appraisal of product

The investor should conduct such independent appraisal of the Index and the rules relating to the Index as it determines appropriate to evaluate the merits and risks of an investment in product linked to the Index. The Issuer (including in its capacities as Research Provider and Index Sponsor) accepts no responsibility whatsoever in respect of the merits or risks of the product or the Index and makes no representation, warranty or guarantee (express or implied) regarding the condition (financial or otherwise) of any assets comprising the Index or the performance of the Index.

No ownership rights

The investor will have no direct interest or right in any asset comprising the Index.

Risks in relation to assets underlying the Index

The Index is exposed to a basket of shares which may be denominated in foreign currencies and as such involves substantial foreign exchange risk.

Risks in relation to exposure to emerging market currencies

The Index may be exposed to emerging market currencies. Emerging market currencies may be more volatile and risks relating to foreign exchange controls, settlement disruption, tax, accounting, regulation and law change including nationalisation or expropriation of assets or general political unrest or war may be greater with respect to emerging markets currencies.

Prospective purchasers are advised to consider carefully the special risks of investing in emerging market currencies. Emerging market economies generally are heavily dependent upon international trade and, accordingly, have been and may continue to be affected adversely by trade barriers, exchange controls, managed adjustments in relative currency values and other protectionist measures imposed or negotiated by the countries with which they trade. Emerging market economies and their currencies also have been and may continue to be affected adversely by economic conditions in the countries in which they trade.

The risk exists that an emergency situation may arise in one or more developing markets as a result of which trading in currencies may cease or may be substantially curtailed.

Index Calculation Agent

The Index to which the product is linked is calculated by the Index Calculation Agent using research produced by the Research Provider. The Research Provider does not produce such research for the purposes of the Index or the product; rather, such research is made available to third parties through distribution channels. Consequently, none of the Research Provider, Index Calculation Agent or Index Sponsor makes any representations, warranties or guarantees whatsoever as to the performance of the Index or the product.

Conflicts of interest between the Issuer and the Index Sponsor

The Index to which the product is linked is sponsored, developed and promoted by the Issuer which is the Index Sponsor. The role of the Issuer as Index Sponsor will be performed by the Global Banking and Markets division of the Issuer. The analysts of the Research Provider producing research is a division of HSBC Global Research which is also a division of the Issuer. The roles of these various divisions within the Issuer may give rise to various potential and actual conflicts of interest.

No investment or professional advice

The Issuer makes no representation whatsoever, including as Research Provider and Index Sponsor, whether express or implied, as to the advisability of purchasing or assuming any risk in connection with an investment in the product.

Index Sponsor

As at the date hereof, HSBC Bank plc acts as Index Sponsor with respect to the Index. In such capacity, HSBC Bank plc may have economic interests adverse to those of the investors, including with respect to certain determinations and judgments that the Index Sponsor may be required to make pursuant to the terms of the Index, any of which may affect payments in respect of the product. HSBC Bank plc may act in its own interests in such capacities and need not have regard to the interests of the investors.

No advisory or fiduciary relationship

In its capacity as the Index Sponsor or Research Provider, the Issuer does not act as fiduciary for or an advisor to the investor in respect of any determination or judgment or otherwise.

The Issuer and its affiliates are under no obligations to the investor in respect of roles of any such person with respect to the Index

None of the Issuer or any of its affiliates is under any obligation to the investor in respect of any of the roles of any such person with respect to the Index. No such person is under any obligation to monitor whether or not any event or circumstance has occurred unless it is explicitly and positively stated that such person will do so. No such person will be required to (or will be responsible for any failure to) make any determination, waiver, declaration or decision whatsoever in relation to the Index on behalf of or in the interests of the investor.

The index has a limited history and may perform in unanticipated ways

The Index was established in July 2012. Back tested data may be available but it does not represent actual performance achieved nor is it an indication of future performance.

<p>Determination of Target Weighting and Rebalancing</p>	<p>Each "Index Rebalancing" is triggered upon the release of a new research publication from the Research Provider on any relevant date (the "Research Publication Date"), as determined by the Index Calculation Agent.</p> <p>Target Weights for new Index Constituents are announced on the London Business Day immediately following the Research Publication Date (the "Announcement Date").</p> <p>Changes to each Index are effected on the date (the "Rebalance Calculation Date") that occurs on the first Index Valuation Date that is (i) at least three Index Valuation Dates following the Research Publication Date and (ii) the first Index Valuation Date on which the exchanges in respect of each incoming, outgoing or unchanged Index Constituent has traded for at least two regular trading sessions following the Announcement Date.</p> <p>On each Announcement Date, the Index Calculation Agent shall test each stock in the Research Portfolio against the following Liquidity Constraints to determine whether such stock qualifies as an Index Constituent:</p> <ul style="list-style-type: none"> a) Minimum Available Foreign Investor Amount b) Minimum Free Float Market Capitalisation c) Minimum Average Daily Transacted Value <p>The Target Weight in respect of each Rebalance Calculation Date for each Constituent will be determined first by assigning a Liquidity Factor to each Constituent. Calculation of Rebalancing Amount	On the Rebalance Calculation Date, the Rebalancing Amount for each Index Constituent will be equal to the difference between its current Weighting and its Target Weighting, expressed in index points. The Transaction Costs (as defined below), if any, are then applied to this Rebalancing Amount and deducted from the Index Level accordingly.

Prospective purchasers are advised to consider carefully the special risks of investing in emerging market currencies. Emerging market economies generally are heavily dependent upon international trade and, accordingly, have been and may continue to be affected adversely by trade barriers, exchange controls, managed adjustments in relative currency values and other protectionist measures imposed or negotiated by the countries with which they trade. Emerging market economies and their currencies also have been and may continue to be affected adversely by economic conditions in the countries in which they trade.

The risk exists that an emergency situation may arise in one or more developing markets as a result of which trading in currencies may cease or may be substantially curtailed.

HSBC Volatility Futures Index Family

Index Summary
HSBC Global Markets Indices

Version 1.0
May 2015

1. Overview

Each index in the HSBC Volatility Futures Index Family (each, an "**Index**") was developed and is maintained by the HSBC Global Markets businesses of HSBC Bank plc (the "**Index Sponsor**"). Each Index is calculated by S&P Opco, LLC (a subsidiary of S&P Dow Jones Indices LLC), or any successor thereto (the "**Index Calculation Agent**") in accordance with the rules for the Index (the "**Index Rules**") as summarised in this Index Summary.

The methodology for each Index reflects the performance of objective, systematic investment strategies that dynamically switch between a combination of long, short or flat futures positions on the SPX Volatility Index, as sponsored by the Chicago Board Options Exchange (the "**VIX Index**").

The Indices in the HSBC Volatility Futures Index Family can be divided into base indices (each, a "**Base Index**") and volatility control indices (each, a "**Volatility Control Index**"). The Base Indices are calculated first and they take a full unconstrained notional exposure to VIX Index futures. They are then used as building blocks for the Volatility Control Indices.

Each Volatility Control Index is a risk control version of the relevant Base Index and is constructed by applying volatility control mechanics to such Base Index. Each Volatility Control Index aims to manage the level of risk exposure by investing notionally in:

- a volatility futures base index, and
- a hypothetical cash investment linked to a cash index, where necessary.

The rebalancing strategy applied to each Volatility Control Index aims to deliver the volatility-control by adjusting the exposure between the relevant cash index and the Base Index with reference to the realised volatility, which is calculated over a one-month and a three-month time period.

2. Indices within the HSBC Volatility Futures Index Family

The HSBC Volatility Futures Index Family comprises four separate Base Indices and four separate Volatility Control Indices, each calculated in total return and excess return versions, as set out in the table below. The level of each Index (each, an "**Index Level**") is published on the Bloomberg page specified below.

(a) Total Return Indices

Total Return Indices	Bloomberg Code
HSBC US Volatility Alpha Base TR Index	HSIEVABT
HSBC US Volatility Alpha 10% Risk Control TR Index	HSIEVA1T
HSBC US Volatility Premium Base TR Index	HSIEVPBT
HSBC US Volatility Premium 10% Risk Control TR Index	HSIEVP1T

(b) Excess Return Indices

Excess Return Indices	Bloomberg Code
HSBC US Volatility Alpha Base ER Index	HSIEVABE
HSBC US Volatility Alpha 10% Risk Control ER Index	HSIEVA1E
HSBC US Volatility Premium Base ER Index	HSIEVPBE
HSBC US Volatility Premium 10% Risk Control ER Index	HSIEVP1E

3. Steps in the calculation of each Index

In order to calculate the level of each Index on each day, the Index Calculation Agent performs the following steps:

1. Step 1 - Calculation of the Rolling Futures Underlying

First, the Index Calculation Agent determines the level of the rolling futures strategy (the "**Rolling Futures Underlying**"), which is used as a building block for each Base Index. The objective of the Rolling Futures Underlying is to calculate and track the value of a weighted-average one-month constant maturity volatility futures position in respect of the VIX Index.

2. Step 2 – Calculation of the Volatility Surprise Indicator

Second, the Index Calculation Agent determines the value of an indicator (the "**Volatility Surprise Indicator**") which gauges the level of volatility expectations for a particular period against the actual realised volatility for the same period. The indicator seeks to identify whether markets are performing as expected or whether there have been any surprises resulting in higher volatility expectations.

The value of the Volatility Surprise Indicator is either zero (0) or one (1) and this determines the investment position of each Base Index in relation to the Rolling Futures Underlying. This means that, depending on the value of the Volatility Surprise Indicator, the relevant Base Index will assume a long or short position in respect of that Rolling Futures Underlying, or it will not be exposed to the Rolling Futures Underlying at all, depending on the index variant, as further explained below.

3. Step 3 – Calculation of the Base Indices

The Index Calculation Agent then determines the level of each Base Index. There are two Base Indices in the HSBC Volatility Futures Index Family:

- **HSBC US Volatility Alpha Base ER Index**

The HSBC Volatility Alpha Base ER Index assumes either a long or short position in respect of the Rolling Futures Underlying depending on the value of the Volatility Surprise Indicator.

- **HSBC US Volatility Premium Base ER Index**

The HSBC Volatility Premium Base ER Index either assumes a short position in relation to the Rolling Futures Underlying, or has no exposure to that underlying, depending on the value of the Volatility Surprise Indicator.

4. Step 4 – Calculation of Volatility Control Indices

The Index Calculation Agent also determines the volatility control versions of each Base Index using the HSBC Volatility Control Methodology by reference to: (a) the level of the relevant Base Index, and (b) the value of a notional cash investment, where required.

These Volatility Control Indices are as follows:

- **HSBC US Volatility Alpha 10% Risk Control ER Index**
- **HSBC US Volatility Premium 10% Risk Control ER Index**

Each Volatility Control Index has an in-built mechanism which aims to ensure that its volatility does not exceed 10% over a specified period.

5. Step 5 – Calculation of the total return variants of the Base Indices and Volatility Control Indices

Finally, total return versions of the Indices are calculated by accruing the Federal Funds Effective Rate on the Index Level for each of the four excess return Indices listed above.

Further details as to the calculation of each step are set out below.

4. Determination of the underlying components

(a) Determination of the Rolling Futures Underlying

Each Base Index invests dynamically into a rolling futures underlying, the objective of which is to track a weighted average constant maturity of one month. This strategy rolls a fraction of its position each day in even proportions between the two one-month Volatility Index futures relating to the VIX Index that are closest to expiry.

Specifically, each Base Index reflects the change in value between:

- (i) **First-to-Expire VIX Futures Contract** - the 'front month' volatility index futures contract relating to the VIX Index expiring on the Wednesday that is thirty days prior to the third Friday of the following calendar month (each such Wednesday, a "**Futures Contract Expiration Date**"); and
- (ii) **Second-to-Expire VIX Futures Contract** - the futures contract relating to the VIX Index expiring on the immediately following Futures Contract Expiration Date.

The start date for this strategy is 30 June 2005.

(b) Determination of the Volatility Surprise Indicator

In respect of any day, the Volatility Surprise Indicator gauges the level of volatility expectations for a period of the immediately preceding 22 business days against the actual realised volatility for that same period. The indicator seeks to identify whether markets are performing as expected or whether there have been any surprises resulting in unexpected market moves.

The Volatility Surprise Indicator compares the spread between the exponentially weighted realised volatility of the S&P 500 Index (i.e. an equities index) and the implied volatility for the S&P 500 Index using the VIX Index (i.e. a volatility index). The indicator, whether positive or negative, is used to determine the investment position of each Base Index, as explained below.

5. Calculation of the level of each Base Index

(a) Calculation of the HSBC Volatility Alpha Base ER Index

The HSBC Volatility Alpha Base ER Index is calculated by reference to the long or short return of the Rolling Futures Underlying, depending on the value of the Volatility Surprise Indicator. This Base Index assumes: (i) a long position in respect of the Rolling Futures Underlying if the Volatility Surprise Indicator determines that the actual realised volatility of the S&P 500 Index is greater than the implied volatility of the VIX Index, or (ii) a short position if the Volatility Surprise Indicator determines that the implied volatility of the VIX Index is greater than the actual realised volatility of the S&P 500 Index. This value is then reduced by the Total Transaction Cost VA incurred in respect of each day on which this Base Index is determined.

The "**Total Transaction Cost VA**" is determined by reference to the proportion of the HSBC Volatility Alpha Base ER Index rolled on each day, provided that the costs are double if there is a change in the Volatility Surprise Indicator. This is to account for the cost of closing a long position and opening a short position, or vice versa. The calculation method of Total Transaction Cost VA is transparent and replicable, and is described fully in the Index Rules.

The start date for the HSBC Volatility Alpha Base ER Index is 30 June 2005.

(b) Calculation of the HSBC US Volatility Premium Base Index

The HSBC Volatility Premium Base ER Index is calculated by reference to the short return of the Rolling Futures Underlying return as long as the Volatility Surprise Indicator shows that the implied volatility of the VIX Index is greater than the actual realised volatility of the S&P 500 Index. If the actual realised volatility of the S&P 500 Index is greater than the implied volatility of the VIX Index, then this Base Index assumes no position in relation to the Rolling Futures Underlying. This value is then reduced by the Total Transaction Cost VP incurred in respect of each day on which this Base Index is determined.

The "**Total Transaction Cost VP**" is determined by reference to either (i) the proportion of this Base Index rolled on the relevant date of determination (if there is no change in the value of the Volatility Surprise Indicator), or (ii) the entire Base Index (in case of a change in the Volatility Surprise Indicator), to account

for the cost of closing or opening a short position. The calculation method of Total Transaction Cost VP is transparent and replicable, and is described fully in the Index Rules.

The start date for the HSBC Volatility Premium Base ER Index is 30 June 2005.

6. Calculation of the Volatility Control Indices

Two Volatility Control Indices are calculated, as follows:

- **HSBC US Volatility Alpha 10% Risk Control ER Index**

The risk control variant is based on the HSBC US Volatility Alpha Base ER Index, but has been adjusted such that the realised volatility of the level of the HSBC US Volatility Alpha Base ER Index would not exceed 10%.

- **HSBC US Volatility Premium 10% Risk Control ER Index**

The risk control variant is based on the HSBC US Volatility Premium Base ER Index, but has been adjusted such that the realised volatility of the level of the HSBC US Volatility Premium Base ER Index would not exceed 10%.

Each Volatility Control Index has been created using the HSBC Volatility Control Methodology, which has been developed to seek improved risk-adjusted returns that are higher than the returns on the relevant underlying indices.

The value of each Volatility Control Index is then reduced by the Index Fee of 0.75% per annum in respect of each day on which the Index is determined.

The methodology reflects the performance of an objective, systematic investment strategy that rebalances exposures through adjustments in notional investments between:

- (i) the relevant underlying Base Index (each, an "**Underlying Index**"); and
- (ii) a hypothetical non-interest bearing risk-free investment

The rebalancing strategy adjusts the exposure of the relevant Volatility Control Index to the relevant Underlying Index by reference to the realised volatility of such Underlying Index. When the volatility of the Underlying Index rises, the exposure to the Underlying Index decreases, and the exposure to the risk-free investment increases. Conversely, when the volatility of the Underlying Index decreases, the exposure to the Underlying Index increases, and the exposure to the risk-free investment decreases.

7. Calculation of the total return versions of the Indices

Each of the Base Indices and Volatility Control Indices listed in Sections 5 and 6 of this Index Summary (each, an "**Excess Return Index**") is calculated on an excess return basis.

Total return versions of each of the Excess Return Indices (each, a "**Total Return Index**") are derived from the values of: (a) the relevant Base Index or a Volatility

Control Index, as applicable, and (b) the US Cash Return Deposit Index, as set out in the following table:

Total Return Index	Excess Return Index	Deposit Index
HSBC US Volatility Alpha Base TR Index	HSBC Volatility Alpha Base ER Index	The US Cash Return Deposit Index
HSBC US Volatility Alpha 10% Risk Control TR Index	HSBC US Volatility Alpha 10% Risk Control ER Index	
HSBC US Volatility Premium Base TR Index	HSBC US Volatility Premium Base ER Index	
HSBC US Volatility Premium 10% Risk Control TR Index	HSBC US Volatility Premium 10% Risk Control ER Index	

Each such Total Return Index is created by accruing the rate of the US Cash Return Deposit Index on the Index Level of the relevant underlying Excess Return Index.

The "**US Cash Return Deposit Index**" is an index whose value is determined by reference to the Federal Funds Effective Rate (Bloomberg code: FEDL01 Index).

8. Index maintenance and disruption events

(a) Index maintenance

The Index Sponsor has a right to make amendments or modifications to the Index Rules in certain circumstances, as set out in the Index Rules. Following any such amendment or modification, the Index Sponsor will revise the Index Rules, which will continue to be available upon request.

The publication and maintenance of the Index is discretionary. The Index Sponsor may suspend or terminate the publication of the Index at any time, including, without limitation, following any relevant regulatory changes or the occurrence of any of the disruption events summarised below. In the event that the Index is suspended or terminated, the Index Sponsor accepts no responsibility for any losses incurred by any party whether incidental or consequential which arise out of any reliance on the continued existence and publication of that Index.

(b) Market Disruption Events

If the Index Calculation Agent determines that an Index Market Disruption Event has occurred, then:

- (i) if such day would otherwise be a rebalancing date in relation to an Index (each, an "**Index Rebalancing Date**"), the Index Calculation Agent shall, following consultation with the Index Sponsor, either:
 - (A) determine that such day shall still be the Index Rebalancing Day, in which case the Index Calculation Agent shall determine the level of the relevant Index on such day (1) by making any determinations and/or adjustments to the Index Rules for an Index as the Index Calculation Agent determines appropriate by reference to the prevailing market conditions and such other factors as the Index Calculation Agent determines appropriate in order to rebalance or reconstitute the relevant Index and (2) by taking into account any amendments or modifications (if any) to the Index Rules for an Index as the Index Sponsor determines appropriate and as notified to the Index Calculation Agent by the Index Sponsor; or
 - (B) determine that such day shall not be the Index Rebalancing Day, but it shall be such other day as the Index Calculation Agent shall select, in which case no rebalancing or reconstituting (however described) of the relevant Index or determination of the level of a Index shall be made on what would otherwise have been that Index Rebalancing Day; and
- (ii) if such day is not an Index Rebalancing Day, the Index Calculation Agent shall, following consultation with the Index Sponsor either:
 - (A) determine the level of the Index on such day (1) by making any determinations and/or adjustments to the Index Rules for an Index as the Index Calculation Agent determines appropriate by reference to the prevailing market conditions and such other factors as the Index Calculation Agent determines appropriate in

order to rebalance or reconstitute the relevant Index and (2) by taking into account any amendments or modifications (if any) to the Index Rules for an Index as the Index Sponsor determines appropriate and as notified to the Index Calculation Agent by the Index Sponsor; or

- (B) determine that no level of that Index shall be determined for such day.

For the purposes of this section:

"Exchange" means the New York Stock Exchange.

"Futures Exchange" means the Chicago Board Options Exchange.

"Index Market Disruption Event" means, with respect to the VIX Index or the S&P 500 Index (each, a **"Relevant Index"**):

- (i) the occurrence or existence on any Trading Day either (x) during the one half hour period before the Scheduled Closing Time for the Exchange in respect of such Relevant Index is listed, as determined by the Index Calculation Agent, or (y) at any time during the regular trading session on the Exchange or the Futures Exchange without regard to after hours trading or any other trading outside of the regular trading session hours on such day:
 - (A) of any suspension of or limitation imposed on trading (whether by reason of movements in price exceeding limits permitted by the Exchange or the Futures Exchange or otherwise):
 1. on the Exchange as a whole; or
 2. on the Futures Exchange of any options contracts or futures contracts on, or relating to, that Relevant Index; or
 - (B) of any event that disrupts or impairs (as determined by the Index Calculation Agent) the ability of market participants in general to effect transactions in relation to or to obtain market values on the Exchange or to effect transactions in relation to or to obtain market values for options contracts or futures contracts on or relating to that Relevant Index on the Futures Exchange;
- (ii) the closure on any Trading Day of the Exchange or the Futures Exchange prior to its Scheduled Closing Time unless such earlier closing time is announced by the Exchange or the Futures Exchange, as the case may be, at least one hour prior to the earlier of:
 - (A) the actual closing time for the regular trading session on the Exchange or the Futures Exchange on such Trading Day; and
 - (B) the submission deadline (if applicable) for orders to be entered into the Exchange or the Futures Exchange system for execution at the Relevant Time on such Trading Day; or

- (iii) a general moratorium is declared in respect of banking activities in the country in which the Exchange or the Futures Exchange is located,

in each case, if, in the determination of the Index Calculation Agent, any of the foregoing is material.

"Scheduled Closing Time" means, in relation to an Exchange or Futures Exchange and a Trading Day, the scheduled weekday closing time of such Exchange or Futures Exchange on such Trading Day, without regard to after hours or any other trading outside of the regular trading session hours.

"Trading Day" means, as determined by the Index Calculation Agent:

- (i) for the purposes of determining what should be an Index Rebalancing Day, a day on which all the relevant Exchange(s) are scheduled to be open for trading for its/their regular trading sessions; and
- (ii) for all other purposes, a day on which any Exchange and/or any Futures Exchange is scheduled to be open for its regular trading session.

(c) Futures Disruption

(i) Futures Contract or Successor Futures Exchange

- (A) If at any relevant time the Index Calculation Agent determines, following consultation with the Index Sponsor, that any Futures Contract is not calculated and quoted by the Futures Exchange (as defined above), but it is calculated and published by a successor exchange (the **"Successor Futures Exchange"**) acceptable to the Index Sponsor, the Futures Contract will be deemed to be such Futures Contract so calculated and published by that Successor Futures Exchange.
- (B) If at any relevant time the Index Calculation Agent determines, following consultation with the Index Sponsor, that any Futures Contract is replaced by a successor futures contract using, in the determination of the Index Sponsor, the same or a substantially similar formula for and method of calculation as used in the calculation of that Futures Contract (a **"Successor Futures Contract"**), then the Futures Contract will be deemed to be that Successor Futures Contract.

(ii) Futures Extraordinary Events

If the Index Calculation Agent determines that a Futures Extraordinary Event has occurred, then:

- (A) on day on which the Index Level for an Index is determined, the Index Calculation Agent may, in its discretion, either (1) publish the level of the Index on such day, following consultation with the Index Sponsor, by making any determinations and/or adjustments to the Index Rules for an Index as the Index Calculation Agent determines appropriate by reference to the prevailing market conditions and such other factors as the Index Calculation Agent determines appropriate to account for economic effect of the relevant Futures Extraordinary Event, or (2) decide that it shall not publish the level of the relevant Index on such

date and shall postpone the publication of the level of the Index until the Index Sponsor makes any determinations pursuant to (B) below;

- (B) the Index Sponsor may make any amendments or modifications (if any) to the Index Rules for an Index as the Index Sponsor determines appropriate to account for the economic effect of the relevant Futures Extraordinary Event (including substituting the Index with another index) that, in the commercially reasonable determination of the Index Sponsor, preserve the intended commercial purpose of the Index and determine the effective date of any such amendment or modification; or
- (C) if the Index Sponsor decides that it is impossible or impracticable to make changes to the Index Rules for an Index that would preserve its intended commercial purpose under (B) above, it can terminate such Index and cease publishing its level.

For the purposes of this section:

"Futures Contract" means each volatility index futures contract used by the Index Calculation Agent to determine the Rolling Futures Underlying Level on any day.

"Futures Extraordinary Event" means that, at any relevant time with respect to any Futures Contract and as determined by the Index Calculation Agent:

- (i) the Futures Exchange makes or announces that it will make any material change in the formula for or the method of calculating the Futures Contract or in any way materially modifies the Futures Contract (other than a modification prescribed in that formula or method to maintain the Futures Contract);
- (ii) the Futures Exchange permanently cancels that Futures Contract;
- (iii) the Futures Exchange fails to calculate and/or publish the level of the Futures Contract on the day on which the level of such Futures Contract was scheduled to be published;
- (iv) the Futures Exchange announces changes relating to the modification, exclusion, inclusion or substitution of any Futures Contracts or material legal or regulatory impediments develop in the ability of market participants to establish or maintain a position in the Futures Contract; or
- (v) a material ongoing decrease in the trading liquidity of the relevant Futures Contract or a material disruption or error in the pricing or publication of the Futures Contract has occurred.

(d) Disruption relating to the US Cash Return Deposit Index

If the Index Calculation Agent determines that a Cash Asset Disruption Event has occurred in respect of the Cash Asset Rate (the "**Affected CAR**"), then the Index Calculation Agent may, at the direction of the Index Committee:

- (i) replace the Affected CAR with an alternative cash asset rate that has been announced by the respective sponsor of such alternative cash asset rate as constituting a successor to the Affected CAR, provided that such alternative cash asset rate: (A) is comprised of identical or substantially similar

underlying components as the Affected CAR and (B) uses similar formulas and methods of calculation as the Affected CAR (any such alternative, a "**Successor CAR**");

- (ii) replace the Affected CAR with an alternative cash asset rate that, although not a Successor CAR, (A) is intended to provide a substantially similar investment exposure as the Affected CAR; and (B) uses similar formulas and methods of calculation as the Affected CAR (any such alternative rate, a "**Substitute CAR**");
- (iii) postpone: (A) the determination of the Cash Asset Rate; and (B) the determination and publication of the levels of the relevant Volatility Control Index; or
- (iv) if the Index Calculation Agent decides that none of the steps in (i) to (iii) above is appropriate, it may terminate any Volatility Control Index.

In the event that a Successor CAR or a Substitute CAR has been identified as described in paragraphs (i) or (ii) above, the Index Calculation Agent shall make such adjustments in calculating the level of the relevant Volatility Control Index as are necessary to avoid distortive effects on the level of such Volatility Control Index caused by a different calculation methodology of the Successor CAR or the Substitute CAR.

For the purposes of this section:

"**Cash Asset Disruption Event**" means that, in respect of the relevant date of determination and as determined by the Index Calculation Agent:

- (i) the Cash Asset Rate is not available for any reason;
- (ii) as a result of lack of liquidity in the relevant interbank market or otherwise, the Cash Asset Rate does not reflect the relevant costs of funding of the Index Sponsor; or
- (iii) there is any other disruption which disrupts the ability of market participants to effect transactions or obtain quotes in respect of the Cash Asset Rate.

"**Cash Asset Rate**" is a rate equal to the Federal Funds Effective Rate, as set out on Bloomberg screen FEDL01 Index.

"**Index Committee**" means the HSBC Global Markets Indices and Strategies Governance Committee, a committee established by the Global Markets division of HSBC Bank plc.

(e) Base Index Disruption

If (1) the level of a Base Index falls to zero, has a negative value on any date of determination, or (2) a Base Index is terminated by the Index Sponsor, (each such Base Index, the "**Affected Base Index**"), the Index Sponsor may elect, at the direction of the Index Committee, to either:

- (i) replace the Affected Base Index with any other Base Index, or another index that otherwise most closely replicates the profile of the Affected Base Index, in each case, for the purposes of any related Volatility Control Index; or

- (ii) terminate the Affected Base Index and/or any Volatility Control Index related to such Affected Base Index and cease publishing their level.

(f) Cancellation of licence

If, in respect of the VIX Index or the S&P 500 Index, any licence granted to the Index Sponsor or Index Calculation Agent to use any such indices (each an "**Affected Index**") for the purposes of any Index terminates, or is otherwise disputed, impaired or ceases (for any reason), the Index Calculation Agent may remove such Affected Index from the index calculation and may amend the Index Rules as it determines in good faith to be appropriate to account for such a change.

(g) Data error or data disruption

If, in respect of any information which is used by the Index Calculation Agent to make any determination or calculation relevant to an Index, the Index Calculation Agent determines at any time subsequent to such determination or calculation that the source of such information has issued a correction, or has otherwise amended or modified the relevant information in a way that would have materially affected the relevant determination or calculation, the Index Calculation Agent may in its discretion make such redetermination or recalculation in respect of the relevant Index and retrospectively adjust the level of such Index in respect of the period from the original determination or calculation to the time of such redetermination or recalculation to take account of such redetermination or recalculation.

In the event of a Data Disruption, the Index Calculation Agent shall use reasonable endeavours to source data from alternative sources with the aim of publishing the level of an Index as soon as reasonably practicable. The Index Calculation Agent will not publish the level of an Index until the relevant Data Disruption is over or until it acquires the required data from an alternative source.

"**Data Disruption**" means any disruption relating to the manner that the Index Calculation Agent receives or otherwise acquires information which is necessary to make any determination or calculation relevant to an Index, including, without limitation, a failure of electronic data delivery by data providers which normally send such data to the Index Calculation Agent, unavailability of electronic or internet access to data obtained from an online source, or a disruption of any of the Index Calculation Agent's data systems rendering data inaccessible to processes which are required to calculate the level of any Index or otherwise make any relevant determinations.

Risk Factors relating to the Indices

In addition to the risk factors relating to the Indices set out in the Base Terms Module of the Index Rules, prospective investors should consider the following:

The Indices may not be successful, and may not outperform any alternative strategy that might be employed in respect of the futures contracts on the VIX Index ("VIX Futures") or achieve its target volatility

Each Index follows a notional rules-based proprietary strategy that operates on the basis of pre-determined rules. No assurance can be given that the investment strategy on which that Index is based will be successful or that such Index will outperform any alternative strategy that might be employed in respect of the VIX Futures. Furthermore, no assurance can be given that any Index will achieve its target maximum volatility of 10%. The actual realized volatility of an Index may be greater or less than 10%.

The Indices comprises notional assets and liabilities

The exposure to the VIX Futures and any cash investment are purely notional and will exist solely in the records maintained by or on behalf of the Index Calculation Agent. There is no actual portfolio of assets to which any person is entitled or in which any person has any ownership interest. Consequently, an investor will not have any claim against any of the reference assets that comprise an Index. The strategy tracks the return of an amount calculated by reference to the VIX Futures and, in the case of Total Return Indices, the Federal Funds Effective Rate interest rate ("**Fed Funds Rate**") (calculated daily). As Excess Return Indices are not exposed to the Fed Funds Rate, any change in such rate will not affect the their Index Level.

Changes in the market value of the VIX Futures may not be reflected in the level of an Index

Changes in the market values of the VIX Futures may not result in a comparable change in the level of an Index as a consequence of the risk control mechanism.

The Indices have a limited operating history and may perform in unanticipated ways

Each Index was established on 30 September 2014 and backtested to 31 December 2005 and therefore has a limited operating history. Backtested data is available but it does not represent actual performance achieved nor is it an indication of future performance.

The Indices are subject to market risks

The performance of each Index is dependent on the performance of the VIX Futures and influenced by the S&P 500 PR Index (the "**S&P 500**") and the VIX Index. As a consequence, each Index is exposed to the movements of the VIX Index, VIX Futures and the S&P 500, as well as (for Total Return Indices) fluctuations in the Fed Funds Rate. These factors are interrelated and any one factor may enhance or offset the performance of another.

The VIX Index is a theoretical calculation and is not a tradable index

The VIX Index is a theoretical calculation and cannot be traded on a spot price basis. The settlement price at maturity of the VIX Futures contained in an Index is based on this theoretically derived calculation. As a result the behaviour of the futures contracts may be different from futures contracts whose settlement price is based on a tradable asset.

Each Index is based upon holding a rolling long or short position in futures on the VIX Index. These futures will not necessarily track the performance of the VIX Index.

Changing prices of the VIX Futures will affect each Index

Each Index is composed of VIX Futures. Unlike equities, which typically entitle the holder to a continuing stake in a corporation, futures contracts normally specify a certain date for delivery of the underlying asset or for settlement in cash based on the level of the underlying asset. As the futures contracts that comprise each Index approach expiration, they are replaced by similar contracts that have a later expiration.

The policies of the S&P Dow Jones Indices and the Futures Exchange and changes that affect the composition and valuation of the S&P 500 or the VIX Index could affect each Index

The policies of the S&P Dow Jones Indices and the Futures Exchange concerning the calculation of the level of the S&P 500 and the VIX Index, respectively, and any additions, deletions or substitutions of equity securities or options contracts and the manner in which changes affecting the equity securities, options contracts or futures contracts are reflected in the S&P 500 or the VIX Index, respectively, could affect the value of each Index.

If events such as these occur, or if the value of a Base Index is not available or cannot be calculated because of a market disruption event or for any other reason, the Index Calculation Agent may be required to make a good faith estimate in its sole discretion of the value of the relevant Index on the relevant dates or it could postpone its publication. The circumstances in which the Index Calculation agent will be required to make such a determination are described more fully in Section 8(b) (*Market Disruption Events*) of this Index Summary.

Risks associated with the momentum investment strategy of each Index

Each Index is constructed using what is generally known as a momentum investment strategy. Momentum investing generally seeks to capitalize on trends in the price of assets. As such, the exposure to the VIX Futures in an Index is based on the volatility indicator which compares the realized volatility of the S&P 500 against the implied volatility represented by the VIX Index during the preceding 22 days (the "**Observation Period**"). However, there is no guarantee that trends existing in the Observation Period will continue in the future. If market conditions do not represent a continuation of prior observed trends, the level of the relevant Index, which is rebalanced based on prior trends, may decline. No assurance can be given that the investment strategy used to construct such Index will outperform any alternative index that might be constructed from the VIX Futures.

An Index may perform poorly during periods characterized by short-term volatility

The strategy of each Index is based on momentum investing. Momentum investing strategies are effective at identifying the current market direction in trending markets. However, in non-trending, sideways markets momentum investment strategies are subject to "whipsaws". A whipsaw occurs when the market reverses and does the opposite of what is indicated by the trend indicator, resulting in a trading loss during the particular period. Consequently, the Indices may perform poorly in non-trending, "choppy" markets characterized by short-term volatility.

Each Index may assume a long or short position in respect of the VIX Futures and can be volatile

Depending on the value of the volatility indicator, each Index may assume a long or short position in respect of the VIX Futures. This means that if either: (a) an Index has long exposure to the VIX Futures and the value of the VIX Futures declines or (b) an Index has short exposure to the VIX Futures and the value of the VIX Futures rises, this is likely to have a negative effect on the level of such Index and the index value can fall to zero in an unprecedented change in sentiment. Futures contracts on the VIX can be volatile and move significantly on unexpected market sentiment, leading to possible large short-term losses.

An Index may be partially un-invested due to the risk control mechanism

The weight of a cash investment (if any) for an Index at any given time represents the portion of the synthetic portfolio that is un-invested in the VIX Futures at that time due to the risk control mechanism. In the case of any Excess Return Indices, they will reflect no return for any un-invested portion (i.e., any portion represented by a cash investment), but will continue to be affected by the index fee. (The components of the index fee are further explained below).

The Index Rules may be modified, and an Index may be cancelled, in certain circumstances

Following the occurrence of certain Futures Extraordinary Events, the Index Sponsor may make any amendments or modifications to the Index Rules to account for the economic effect of any such events, as described in Section 7(c) (*Futures Disruption*) of this Index Summary. If it is impossible or impracticable to make appropriate change, any relevant Index may be cancelled in the sole discretion of the Index Sponsor.

If the Base Index underlying a Volatility Control Index falls to zero, it may be replaced by another Base Index, or the Volatility Control Index may be cancelled

If the Base Index underlying a Volatility Control Index falls to zero or has a negative value, or if this Index Sponsor terminates such Base Index, the Index Sponsor may elect, in its discretion, to either replace that Base Index with another Base Index, or terminate the relevant Volatility Control Index and cease publishing its value.

The level of each Index will include the deduction of a fee

The calculation of each Index will incorporate a deduction for an index fee and also for transaction costs. The deduction of the index fee and transaction costs will serve to reduce the level of such Index. The index fee is 0.75% per annum. The transaction costs are not a per annum amount but are an adjustment made in order to account for the synthetic costs (bid-ask spread, slippage and brokerage) that would be incurred by a professional investor seeking to replicate the futures contracts positions. The transaction costs are calculated in accordance with Section 8 (*Base Index Parameters Tables*) of the Index Rules, available upon request. The transaction costs do not incorporate any broker-dealer spread, commission or other fee. Both the index fee and the transaction costs are deducted from the level of each Index and act as a drag on such Index.

Risks relating to the Fed Funds Rate

The Fed Funds Rate will be affected by a number of factors, including, but not limited to changes in, or perceptions about, future rates, general economic conditions, prevailing

interest rates and the policy of the Federal Reserve Board. There can be no assurance that the method by which the Fed Funds Rate is calculated will not change. Such changes in the method of calculation could reduce the level of the Fed Funds Rate and consequently, the return on the cash investment.

The Fed Funds Rate is subject to volatility due to a variety of factors affecting interest rates generally, including sentiment regarding underlying strength in the US, European and global economics, expectation regarding the level of price inflation, sentiment regarding credit quality in the US, European and global credit markets, central bank policy regarding interest rates and performance of capital markets. Decreases in the Fed Funds Rate will have a negative impact on the performance of the cash investment.

If the Fed Funds Rate is not available or if there is any market disruption relating to such rate (including lack of liquidity in the relevant market), the Index Sponsor may, in its discretion, replace the Fed Funds Rate with any other suitable rate, postpone the determination of the level of an Index, or terminate any affected Index.

Rebalancing activity in respect of the Indices may impact the prices and trading of the underlying futures contracts

Hedging transactions entered into due to the rebalancing mechanics in respect of each Index will contribute to the trading volume of the underlying futures contracts and may adversely affect the market price of such underlying futures contracts and in turn the level of the applicable Index.

The Indices are calculated and traded once a day

The Indices and the direction signal, which determines the investment position, are calculated daily using official close prices. Investors are therefore exposed to large intraday changes in market sentiment as any required rebalancing takes place only at market close.

The Volatility Target of the Indices may not be achieved:

Whilst each Index aims to maintain realised volatility below 10%, sudden rises in the movement of VIX futures may cause the realised volatility to temporarily exceed this target.

PROGRAMME FOR THE ISSUANCE OF NOTES AND WARRANTS

COMMODITY/COMMODITY INDEX-LINKED NOTES AND WARRANTS

This product supplement in relation to Commodity/Commodity Index-Linked Notes and Warrants constitutes Part E ("**Part E**") of the offering memorandum dated 10 June 2016 (the "**Offering Memorandum**") prepared by HSBC Bank plc (the "**Issuer**") in relation to the Programme for the Issuance of Notes and Warrants (the "**Programme**") described therein in connection with the application made for Notes to be admitted to listing on the Irish Stock Exchange, and to trading on its Global Exchange Market.

This Offering Memorandum does not comprise (i) a prospectus for the purposes of Part VI of the Financial Services and Markets Act 2000 (as amended) or (ii) a base prospectus for the purposes of Directive 2003/71/EC as amended (the "**Prospectus Directive**"). This Offering Memorandum has been prepared solely with regard to Notes and Warrants that are (i) not to be admitted to listing or trading on any regulated market for the purposes of Directive 2004/39/EC and not to be offered to the public in a Member State (other than pursuant to one or more of the exemptions set out in Article 3.2 of the Prospectus Directive).

To the extent that there is any inconsistency between any statement in this Part E and any other statement in, or incorporated by reference in, other parts of this Offering Memorandum, the statements in this Part E will prevail for the purposes of Part E.

Notes and Warrants issued pursuant to the Programme may include: "**Commodity/Commodity Index-Linked Notes**" and "**Commodity/Commodity Index-Linked Warrants**", being Notes and Warrants in relation to which the interest rate and/or redemption amount or exercise amount (as applicable) payable at maturity or expiry or exercise (as applicable) is linked to a commodity, basket of commodities or one or more commodity indices. The purpose of this Part E is to provide information in relation to Commodity/Commodity Index-Linked Notes and Warrants. This Supplement should be read together with Parts A and B of this Offering Memorandum (in relation to Commodity/Commodity Index-Linked Notes) and Parts A and C of this Offering Memorandum (in relation to Commodity/Commodity Index-Linked Warrants).

An investment in Commodity/Commodity Index-Linked Notes and Commodity/Commodity Index-Linked Warrants involves risks. See Part A of this Offering Memorandum under the heading "Risk Factors" (beginning on page A-1).

No person is or has been authorised to give any information or to make any representation not contained in or not consistent with this Part E or any other information supplied in connection with the Commodity/Commodity Index-Linked Notes and Warrants and, if given or made, such information or representation must not be relied upon as having been authorised by the Issuer.

Neither this Part E nor any further information supplied in connection with the Commodity/Commodity Index-Linked Notes and Warrants (i) is intended to provide the basis of any credit or other evaluation or (ii) should be considered as a recommendation or as constituting an invitation or offer by the Issuer that any recipient of this Part E or any other information supplied in connection with the Commodity/Commodity Index-Linked Notes and Warrants should subscribe for or purchase the Commodity/Commodity Index-Linked Notes and Warrants. Each investor contemplating subscribing for or purchasing the Commodity/Commodity Index-Linked Notes and Warrants should make its own independent investigation of the affairs, and its own appraisal of the creditworthiness, of the Issuer. Neither this Part E nor any other information supplied in connection with the Commodity/Commodity Index-Linked Notes and Warrants constitutes an offer by or on behalf of the Issuer to subscribe for or purchase the Commodity/Commodity Index-Linked Notes and Warrants.

Notes and Warrants issued under the Programme may include securities that are PRIIPs under Regulation (EU) No 1286/2014 of the European Parliament and of the Council of 26 November 2014 on key information documents for packaged retail and insurance-based investment products (PRIIPs) (the "**PRIIPs Regulation**"). From the date that the PRIIPs Regulation applies, such securities may only be sold to retail investors (as defined in the PRIIPs Regulation) in the European Economic Area ("**EEA**") if a key information document prepared in accordance with the PRIIPs Regulation (a "**KID**") is made available to such investors. The Issuer only intends to prepare KIDs in relation to those Notes and Warrants that it intends to be distributed to such retail investors. If the Issuer has not prepared a KID in relation to any Series of Notes or Warrants, this will be stated in the related Pricing Supplement and any offer or sale of such Notes or Warrants to retail investors in the EEA may be unlawful once the PRIIPs Regulation applies. Persons purchasing such Notes or Warrants will be deemed to represent, warrant and undertake to the Issuer and the Dealer(s) that they have not offered and sold, and that they will not offer or sell, any such Notes or Warrants to retail investors in the EEA and that they have complied and will comply with the PRIIPs Regulation in relation to such Notes or Warrants. HSBC Bank plc as Issuer and Dealer expressly disclaims any responsibility for offers and sales of Notes and Warrants to retail investors in circumstances where it is stated in the relevant Pricing Supplement that such Notes or Warrants are not intended to be sold to retail investors in the EEA and that no KID has been prepared.

The distribution of this Part E and the offer, distribution or sale of Commodity/Commodity Index-Linked Notes and Warrants may be restricted by law in certain jurisdictions. The Issuer does not represent that this document may be lawfully distributed, or that the Commodity/Commodity Index-Linked Notes and Warrants may be lawfully offered, in compliance with any applicable registration or other requirements in any such jurisdiction, or pursuant to an exemption available thereunder, or assumes any responsibility for facilitating any such distribution or offering. In particular, action may be required to be taken to permit a public offering of the Commodity/Commodity Index-Linked Notes and Warrants or a distribution of this document in any jurisdiction where action for that purpose is required. Accordingly, no Commodity/Commodity Index-Linked Notes and Warrants may be offered or sold, directly or indirectly, and neither this Part E nor any advertisement or other offering material may be distributed or published in any jurisdiction, except under circumstances that will result in compliance with any applicable laws and regulations. Persons into whose possession this Part E or the Commodity/Commodity Index-Linked Notes and Warrants come must inform themselves about, and observe, any such restrictions.

Part E - Product Supplement for Commodity/Commodity Index-Linked Notes and Warrants

Commodity/Commodity Index-Linked Notes and Warrants have not been and will not be registered under the United States Securities Act of 1933, as amended (the "**Securities Act**"), the state securities laws of any state of the United States or the securities laws of any other jurisdiction, and may not be offered or sold within the United States or to, or for the account or benefit of, US persons (as defined in Regulation S under the Securities Act) except pursuant to an exemption from, or in a transaction not subject to, the registration requirements of the Securities Act.

The Calculation Agent shall give notice as soon as practicable to Noteholders in accordance with Condition 13 of the occurrence of a Market Disruption Event and the action proposed to be taken in relation thereto.

(c) ***Consequences of a Market Disruption Event and Disruption Fallbacks***

Upon a Market Disruption Event occurring or continuing on any Pricing Date (or, if different, the day on which prices/or that Pricing Date would, in the ordinary course, be published by the Price Source), the Calculation Agent shall apply the applicable Disruption Fallback in respect of the relevant Market Disruption Event in determining the consequence of the Market Disruption Event, or, if in the sole and absolute discretion of the Calculation Agent, it is not possible to apply the specified Disruption Fallback, the Calculation Agent shall apply the next applicable Disruption Fallback as specified in the relevant Pricing Supplement. A Disruption Fallback is

applicable if it is specified in the relevant Pricing Supplement and shall apply in the order so specified. If no Disruption Fallback is specified, the Calculation Agent shall take the relevant actions specified below:

(i) *Disappearance of Commodity Reference Price, a Material Change in Formula, or a Material Change in Content*

If, with respect to the relevant Pricing Date, the Calculation Agent considers that there is in existence (i) a Disappearance of Commodity Reference Price, or (ii) a Material Change in Formula, or (iii) a Material Change in Content, then:

- (A) the Calculation Agent shall determine if such event has a material effect on the Notes and, if so, shall calculate the relevant Interest Amount and/or make another relevant calculation using, in lieu of a published price for that Commodity or Component, as the case may be, the price for that Commodity or Component, as the case may be, as at the time specified on that Pricing Date as determined by the Calculation Agent taking into consideration the latest available quotation for such Commodity or Component, as the case may be, and any other information that in good faith it deems relevant; or
- (B) unless Delayed Redemption on Occurrence of Market Disruption Event is specified as being applicable in the relevant Pricing Supplement, on giving notice to Noteholders in accordance with Condition 14, the Issuer shall redeem all but not some only of the Notes, each Note being redeemed by payment of an amount equal to the fair market value of such Note, less any Associated Hedging Costs, all as determined by the Calculation Agent in its sole and absolute discretion. Payment shall be made in such manner as shall be notified to the Noteholders in accordance with Condition 14; or
- (C) if Delayed Redemption on Occurrence of Market Disruption Event is specified as being applicable in the relevant Pricing Supplement, the Calculation Agent shall calculate the fair market value of each Note, taking into account the Market Disruption Event, less any Associated Hedging Costs (the "**Calculated Market Disruption Amount**") as soon as practicable following the occurrence of the Market Disruption Event (the "**Calculated Market Disruption Amount Determination Date**") and on the Maturity Date shall redeem each Note at an amount calculated by the Calculation Agent equal to the Calculated Market Disruption Amount plus interest accrued from and including the Calculated Market Disruption Amount Determination Date to but excluding the Maturity Date at a rate equal to the Issuer's funding cost at such time.

(ii) *Consequences of a Tax Disruption*

If the Calculation Agent determines in good faith that a Tax Disruption has occurred or exists in respect of a Pricing Date, the Calculation Agent shall determine if such Tax Disruption has a material effect on the Notes and if so (i) shall effect any adjustments that it deems in good faith necessary to the terms and conditions of the Notes or, (ii) if it determines that such adjustments cannot be made on giving notice to Noteholders in accordance with Condition 14, the Issuer shall redeem all but not some only of the Notes, each Note being redeemed by payment of an amount equal to the fair market value of a Note, less any Associated Hedging Costs, all as determined by the Calculation Agent in its sole and absolute discretion.

(iii) *Consequences of a Price Source Disruption, Trading Disruption and Price Fixation Event*

If, with respect to the relevant Pricing Date, a Price Source Disruption, Trading Disruption or a Price Fixation Event has been in existence in excess of the Specified Maximum Days of Disruption, then the Calculation Agent shall apply the Commodity

Fallback Value in order to determine the Relevant Price for that Pricing Date and each subsequent Pricing Date (if any).

(iv) *Consequences of an Index Component Disruption*

If the Calculation Agent determines that, on a Pricing Date (or, if different, the day on which prices for that Pricing Date would, in the ordinary course, be published or announced by the Price Source) an Index Component Disruption Event has occurred or exists then the Calculation Agent shall determine the Relevant Price (or a method for determining the Relevant Price) for that Pricing Date and each subsequent Pricing Date (if any).

(d) *Consequences of an Additional Disruption Event*

Following the occurrence of any Additional Disruption Event, the Calculation Agent will, in its sole and absolute discretion, determine whether or not the relevant Notes shall continue and, if so, determine, in its sole and absolute discretion, any adjustments to be made. If the Calculation Agent determines that the relevant Notes shall continue, it may make such adjustment(s) as it, in its sole and absolute discretion, determines to be appropriate, if any, to the formula for the Final Redemption Amount set out in the relevant Pricing Supplement and any other variable relevant to the payment terms of the relevant Notes and/or any other adjustment which change or adjustment shall be effective on such date selected by the Calculation Agent in its sole and absolute discretion. If the Calculation Agent determines in its sole and absolute discretion that the relevant Notes shall be terminated, then the Notes shall be terminated as of the date selected by the Calculation Agent in its sole and absolute discretion and the entitlements of the relevant Noteholders to receive the relevant Final Redemption Amount (or any other payment to be made by the Issuer), as the case may be, shall cease and the Issuer's obligations under the relevant Notes shall be satisfied in full upon payment of such amount, less any Associated Hedging Costs, as in the opinion of the Calculation Agent (such opinion to be made in its sole and absolute discretion) is fair in the circumstances by way of compensation for the termination of the Notes.

(e) *Correction of Commodity Reference Price*

With the exception of any corrections published after the day which is three Commodity Business Days prior to the due date for any payment under the Notes, if the Commodity Reference Price published on a given day and used or to be used by the Calculation Agent to make any determination under the Notes is subsequently corrected and the correction published by the relevant Exchange or any other person responsible for the publication or announcement of the Commodity Reference Price within 30 calendar days of the original publication, the price to be used shall be the price of the relevant Commodity as so corrected. Corrections published after the day which is three Commodity Business Days prior to a due date for payment under the Notes will be disregarded by the Calculation Agent for the purposes of determining the relevant amount.

(f) *Knock-in Event and Knock-out Event*

- (i) If "Knock-in Event" is specified as applicable in the Pricing Supplement, then, unless otherwise specified in such Pricing Supplement, any payment under the relevant Notes which is expressed in the relevant Pricing Supplement to be subject to a Knock-in Event, shall be conditional upon the occurrence of such Knock-in Event.
- (ii) If "Knock-out Event" is specified as applicable in the Pricing Supplement, then, unless otherwise specified in such Pricing Supplement, any payment under the relevant Notes which is expressed in the relevant Pricing Supplement to be subject to a Knock-out Event, shall be conditional upon the occurrence of such Knock-out Event.
- (iii) If the Knock-in Valuation Time or the Knock-out Valuation Time specified in the relevant Pricing Supplement is any time or period of time during the regular trading hours on the relevant Exchange and if on any Knock-in Determination Day or Knock-out Determination Day and at any time during the one-hour period that begins or ends at the time on which the Commodity Reference Price triggers the Knock-in Level or the

Knock-out Level, a Market Disruption Event occurs or exists, then, unless otherwise specified in the relevant Pricing Supplement, the Knock-in Event or the Knock-out Event shall be deemed not to have occurred.

- (iv) If the Knock-in Valuation Time or the Knock-out Valuation Time specified in the applicable Pricing Supplement is the Valuation Time and if any Knock-in Determination Day or Knock-out Determination Day is a Disrupted Day, then, unless otherwise specified in the applicable Pricing Supplement, such Knock-in Determination Day or Knock-out Determination Day will be deemed not to be a Knock-in Determination Day or Knock-out Determination Day for the purposes of determining the occurrence of a Knock-in Event or a Knock-out Event.

Payment shall be made in such manner as shall be notified to the Warrantholders in accordance with Condition 11; or
- (C) if Delayed Cancellation on the occurrence of a Market Disruption Event is specified as being applicable in the relevant Pricing Supplement, the Calculation Agent shall calculate the fair market value of each Warrant, taking into account the Market Disruption Event, less any Associated Hedging Costs (the "**Calculated Market Disruption Amount**") as soon as practicable following the occurrence of the Market Disruption Event (the "**Calculated Market Disruption Amount Determination Date**") and on the date selected by the Calculation Agent in its sole and absolute discretion (the "**Termination and Cancellation Date**") shall terminate and cancel each Warrant at an amount calculated by the Calculation Agent equal to the Calculated Market Disruption Amount plus interest accrued from and including the Calculated Market Disruption Amount Determination Date to but excluding the Termination and Cancellation Date at a rate equal to the Issuer's funding cost at such time.

(ii) *Consequences of a Tax Disruption*

If the Calculation Agent determines in good faith that a Tax Disruption has occurred or exists in respect of a Pricing Date, the Calculation Agent shall determine if such Tax Disruption has a material effect on the Warrants and if so (i) shall effect any adjustments that it deems in good faith necessary to the terms and conditions of the Warrants or, (ii) if it determines that such adjustments cannot be made on giving notice to Warrantholders in accordance with Condition 11, the Issuer shall cancel all but not some only of the Warrants, each Warrant being cancelled by payment of an amount equal to the fair market value of a Warrant, less any Associated Hedging Costs, all as determined by the Calculation Agent in its sole and absolute discretion.

(iii) *Consequences of a Price Source Disruption, Trading Disruption and Price Fixation Event*

If, with respect to the relevant Pricing Date, a Price Source Disruption, Trading Disruption or a Price Fixation Event has been in existence in excess of the Specified

Maximum Days of Disruption, then the Calculation Agent shall apply the Commodity Fallback Value in order to determine the Relevant Price for that Pricing Date and each subsequent Pricing Date (if any).

(iv) *Consequences of an Index Component Disruption Event*

If the Calculation Agent determines that, on a Pricing Date (or, if different, the day on which prices for that Pricing Date would, in the ordinary course, be published or announced by the Price Source) an Index Component Disruption Event has occurred or exists then the Calculation Agent shall determine the Relevant Price (or a method for determining the Relevant Price) for that Pricing Date and each subsequent Pricing Date (if any).

(d) *Consequences of an Additional Disruption Event*

Following the occurrence of any Additional Disruption Event, the Calculation Agent will, in its sole and absolute discretion, determine whether or not the relevant Warrants shall continue and, if so, determine, in its sole and absolute discretion, any adjustments to be made. If the Calculation Agent determines that the relevant Warrants shall continue, it may make such adjustment(s) as it, in its sole and absolute discretion, determines to be appropriate, if any, to the formula for the Cash Settlement Amount set out in the relevant Pricing Supplement and any other variable relevant to the payment terms of the relevant Warrants and/or any other adjustment which change or adjustment shall be effective on such date selected by the Calculation Agent in its sole and absolute discretion. If the Calculation Agent determines in its sole and absolute discretion that the relevant Warrants shall be terminated, then the Warrants shall be terminated as of the date selected by the Calculation Agent in its sole and absolute discretion and the entitlements of the relevant Warrantholders to receive the relevant Cash Settlement Amount (or any other payment to be made by the Issuer), as the case may be, shall cease and the Issuer's obligations under the relevant Warrants shall be satisfied in full upon payment of such amount, less any Associated Hedging Costs, as in the opinion of the Calculation Agent (such opinion to be made in its sole and absolute discretion) is fair in the circumstances by way of compensation for the termination of the Warrants.

(e) *Correction of Commodity Reference Price*

With the exception of any corrections published after the day which is three Commodity Business Days prior to the due date for any payment under the Warrants, if the Commodity Reference Price published on a given day and used or to be used by the Calculation Agent to make any determination under the Warrants is subsequently corrected and the correction published by the relevant Exchange or any other person responsible for the publication or announcement of the Commodity Reference Price within 30 calendar days of the original publication, the price to be used shall be the price of the relevant Commodity as so corrected. Corrections published after the day which is three Commodity Business Days prior to a due date for payment under the Warrants will be disregarded by the Calculation Agent for the purposes of determining the relevant amount.

(f) *Knock-in Event and Knock-out Event*

- (i) If "Knock-in Event" is specified as applicable in the Pricing Supplement, then, unless otherwise specified in such Pricing Supplement, any payment under the relevant Warrants which is expressed in the relevant Pricing Supplement to be subject to a Knock-in Event, shall be conditional upon the occurrence of such Knock-in Event.
- (ii) If "Knock-out Event" is specified as applicable in the Pricing Supplement, then, unless otherwise specified in such Pricing Supplement, any payment under the relevant Warrants which is expressed in the relevant Pricing Supplement to be subject to a Knock-out Event, shall be conditional upon the occurrence of such Knock-out Event.
- (iii) If the Knock-in Valuation Time or the Knock-out Valuation Time specified in the relevant Pricing Supplement is any time or period of time during the regular trading hours on the relevant Exchange and if on any Knock-in Determination Day or Knock-out

Determination Day and at any time during the one-hour period that begins or ends at the time on which the Commodity Reference Price triggers the Knock-in Level or the Knock-out Level, a Market Disruption Event occurs or exists, then, unless otherwise specified in the relevant Pricing Supplement, the Knock-in Event or the Knock-out Event shall be deemed not to have occurred.

- (iv) If the Knock-in Valuation Time or the Knock-out Valuation Time specified in the relevant Pricing Supplement is the Valuation Time and if any Knock-in Determination Day or Knock-out Determination Day is a Disrupted Day, then, unless otherwise specified in the applicable Pricing Supplement, such Knock-in Determination Day or Knock-out Determination Day will be deemed not to be a Knock-in Determination Day or Knock-out Determination Day for the purposes of determining the occurrence of a Knock-in Event or a Knock-out Event.

PROGRAMME FOR THE ISSUANCE OF NOTES AND WARRANTS

Credit-Linked Warrants

This product supplement in relation to Credit-Linked Warrants constitutes Part F ("**Part F**") of the offering memorandum dated 10 June 2016 (the "Offering Memorandum") prepared by HSBC Bank plc (the "**Issuer**") in relation to the Programme for the Issuance of Notes and Warrants (the "**Programme**") described therein in connection with the application made for Notes or Warrants to be admitted to listing on the Irish Stock Exchange, and to trading on its Global Exchange Market and applies in relation to Credit Linked Warrants for which "Part F - Product Supplement for Credit Linked Warrants" is specified as applicable in the relevant Pricing Supplement.

This Offering Memorandum does not comprise (i) a prospectus for the purposes of Part VI of the Financial Services and Markets Act 2000 (as amended) or (ii) a base prospectus for the purposes of Directive 2003/71/EC as amended (the "Prospectus Directive"). This Offering Memorandum has been prepared solely with regard to Warrants that are not to be admitted to listing or trading on any regulated market for the purposes of Directive 2004/39/EC and not to be offered to the public in a Member State (other than pursuant to one or more of the exemptions set out in Article 3.2 of the Prospectus Directive).

To the extent that there is any inconsistency between any statement in this Part F and any other statement in, or incorporated by reference in, other parts of this Offering Memorandum, the statements in this Part F will prevail for the purposes of this Part F.

Warrants issued pursuant to the Programme may include "**Credit-Linked Warrants**", being Warrants in relation to which the amount payable on exercise (if any) is dependent upon the performance of a reference entity or reference obligation, or a portfolio of reference entities or reference obligations. The purpose of this Part F is to provide information in relation to such Credit-Linked Warrants. This Part F should be read together with Parts A and C of the Offering Memorandum.

An investment in Credit-Linked Warrants involves risks. See Part A of the Offering Memorandum under the heading "Risk Factors" (beginning on page A-1).

No person is or has been authorised to give any information or to make any representation not contained in or not consistent with this Part F or any other information supplied in connection with the Credit-Linked Warrants and, if given or made, such information or representation must not be relied upon as having been authorised by the Issuer.

Neither this Part F nor any further information supplied in connection with the Credit-Linked Warrants should be considered as a recommendation or as constituting an invitation or offer by the Issuer that any recipient of this Part F or any other information supplied in connection with the Credit-Linked Warrants should subscribe for or purchase the Credit-Linked Warrants. Each investor contemplating subscribing for or purchasing the Credit-Linked Warrants should make its own independent investigation of the affairs, and its own appraisal of the creditworthiness, of the Issuer. Neither this Part F nor any other information supplied in connection with the Credit-Linked Warrants constitutes an offer by or on behalf of the Issuer to subscribe for or purchase the Credit-Linked Warrants.

The distribution of this Part F and the offer, distribution or sale of Credit-Linked Warrants may be restricted by law in certain jurisdictions. The Issuer does not represent that this document may be lawfully distributed, or that the Credit-Linked Warrants may be lawfully offered, or assumes any responsibility for facilitating any such distribution or offering. In particular, action may be required to be taken to permit a public offering of the Credit-Linked Warrants or a distribution of this document in any jurisdiction. Accordingly, no Credit-Linked Warrants may be offered or sold, directly or indirectly, and neither this Part F nor any advertisement or other offering material may be distributed or published in any jurisdiction, except under circumstances that will result in compliance with any applicable laws and regulations. Persons into whose possession this Part F or the Credit-Linked Warrants come must inform themselves about, and observe, any such restrictions.

Warrants issued under the Programme may include securities that are PRIIPs under Regulation (EU) No 1286/2014 of the European Parliament and of the Council of 26 November 2014 on key information documents for packaged retail and insurance-based investment products (PRIIPs) (the "**PRIIPs Regulation**"). From the date that the PRIIPs Regulation applies, such securities may only be sold to retail investors (as defined in the PRIIPs Regulation) in the European Economic Area ("**EEA**") if a key information document prepared in accordance with the PRIIPs Regulation (a "**KID**") is made available to such investors. The Issuer only intends to prepare KIDs in relation to those Warrants that it intends to be distributed to such retail investors. If the Issuer has not prepared a KID in relation to any Series of Warrants, this will be stated in the related Pricing Supplement and any offer or sale of such Warrants to retail investors in the EEA may be unlawful once the PRIIPs Regulation applies. Persons purchasing such Warrants will be deemed to represent, warrant and undertake to the Issuer and the Dealer(s) that they have not offered and sold, and that they will not offer or sell, any such Warrants to retail investors in the EEA and that they have complied and will comply with the PRIIPs Regulation in relation to such Warrants. HSBC Bank plc as Issuer and Dealer expressly disclaims any responsibility for offers and

sales of Warrants to retail investors in circumstances where it is stated in the relevant Pricing Supplement that such Warrants are not intended to be sold to retail investors in the EEA and that no KID has been prepared.

Credit-Linked Warrants have not been and will not be registered under the United States Securities Act of 1933, as amended (the "**Securities Act**"), the state securities laws of any state of the United States, and may not be offered or sold within the United States or to, or for the account or benefit of, US persons (as defined in Regulation S under the Securities Act) except pursuant to an exemption from, or in a transaction not subject to, the registration requirements of the Securities Act.

ADDITIONAL TERMS AND CONDITIONS RELATING TO CREDIT-LINKED WARRANTS	F-2
PRO FORMA PRICING SUPPLEMENT FOR CREDIT-LINKED WARRANTS	F-55

IMPORTANT NOTICES

Given the highly specialised nature of Credit-Linked Warrants, the Issuer considers that they are only suitable for highly sophisticated investors who are willing to take considerable risks, who are able to determine for themselves the risk of an investment linked to the credit risk of the particular reference entity or entities and who can absorb a substantial or total loss of their investment.

Consequently, investors who do not fall within the description above should not consider purchasing the Credit-Linked Warrants without taking detailed advice from a specialised professional adviser.

ADDITIONAL TERMS AND CONDITIONS RELATING TO CREDIT-LINKED WARRANTS

The section headed "*Terms and Conditions of the Warrants*" of this Offering Memorandum shall be supplemented and modified by the following "*Additional Terms and Conditions Relating to Credit-Linked Warrants*" (the "**Credit Linked Conditions**" and, together with the Terms and Conditions of the Warrants, the "**Base Conditions**") in respect of any issue of Credit-Linked Warrants as amended or supplemented by the terms of each Tranche of Warrants set out in the Pricing Supplement for which "Part F - Product Supplement for Credit-Linked Warrants" is specified as applicable therein. In the event of any inconsistency between the "*Terms and Conditions of the Warrants*" and the "*Additional Terms and Conditions Relating to Credit-Linked Warrants*", such "*Additional Terms and Conditions Relating to Credit-Linked Warrants*" shall prevail and the "*Terms and Conditions of the Warrants*" shall be amended accordingly.

Unless otherwise stated in these Credit Linked Conditions or in the relevant Pricing Supplement, in the event that any day specified in the section "*Credit Linked Terms*" in the relevant Pricing Supplement or the last day of any period calculated by reference to calendar days falls on a day that is not a Business Day, such day or last day shall be subject to adjustment in accordance with the applicable Business Day Convention.

In the case of Credit Linked Warrants for which more than one Reference Entity is specified in the relevant Pricing Supplement, all references to "the Reference Entity" herein shall be construed to refer to the Reference Entity in respect of which the relevant determination falls to be made at any relevant time and all related provisions and determinations will be construed accordingly. In addition, where an event, date, determination or circumstance relates to a Reference Entity, only those Business Centre(s) specified in relation to that Reference Entity will be deemed to apply for the purposes of the definition of "Business Day" in relation thereto and otherwise all of the Business Centre(s) specified in the relevant Pricing Supplement (including those for all Reference Entities) will apply for the purposes of the definition of "Business Day".

References in these Credit Linked Conditions to a Credit Linked Warrant or Warrant are to a single Credit Linked Warrant. Any payment of a "*pro rata*" amount in respect of a Warrant will be determined by reference to the proportion that Warrant bears to the number of Warrants then outstanding.

For the avoidance of doubt no Credit Linked Warrants will be considered frustrated, or otherwise void or voidable (whether for mistake or otherwise) solely because:

- (a) any relevant Reference Entity does not exist on, or ceases to exist on or following, the Trade Date; and/or
- (b) Obligations, Deliverable Obligations, Valuation Obligations or the Reference Obligation do not exist on, or cease to exist on or following, the Trade Date.

For the avoidance of doubt, the application of any of Credit Linked Conditions 3, 4, 5, 6 or 7 below shall not preclude the application of any other such Credit Linked Condition either contemporaneously or subsequently and in the event that any such Credit Linked Conditions are inconsistent or the Calculation Agent becomes entitled to exercise a discretion under one or more of such Credit Linked Conditions, the Calculation Agent may elect in its discretion which Credit Linked Condition shall apply and under which Credit Linked Condition or Credit Linked Conditions it shall exercise its discretion.

Credit Linked Warrants may take the form of Single Reference Entity Credit Linked Warrants or Basket Credit Linked Warrants. Credit Linked Warrants will be Cash Settlement European Style Put Warrants to which Automatic Exercise applies. The "**Minimum Exercise Number**" for the purposes of Condition 6 (*Minimum Number of Warrants Exercisable*) is all of the outstanding Warrants.

The relevant Pricing Supplement shall specify (depending upon the particular Credit Linked Warrants), amongst other things:

- (a) the type of Credit Linked Warrants;
- (b) the Reference Entity or Reference Entities in respect of which a Credit Event may occur;

- (c) the Reference Obligation(s) (if any) in respect of each Reference Entity;
- (d) the Trade Date and the Scheduled Cut-Off Date;
- (e) the Reference Entity Notional Amount in respect of each Reference Entity; and
- (f) the Original Notional Amount.

1. **Amendments to the Terms and Conditions of the Warrants**

- (a) The definition of Fair Market Value in Condition 1 (*Definitions*) will be amended by the deletion of the words "less any reasonable costs and expenses of the Issuer and/or any affiliate of the Issuer of unwinding any underlying and/or related hedging and/or funding arrangements" therein and the substitution of the following therefor:

"less Unwind Costs (as defined in Credit Linked Condition 8 (*Definitions applicable to Credit Linked Warrants*))."

- (b) Condition 4(b) (*"European Style" Exercise*) will be amended by the deletion of the words "the Warrants are exercisable only on the Expiry Date" therein and the substitution of the following therefor:

"the Warrants are exercisable only on the Expiry Date or, in the case of Basket Credit Linked Warrants, only on each Expiry Date".

- (c) Condition 4(d) (*Cash Settlement*) will be amended by the deletion of the words "each such Warrant, upon exercise, entitles the Holder thereof to receive from the Issuer on the Cash Settlement Payment Date (as specified in the relevant Pricing Supplement)" therein and the substitution of the following therefor:

"each such Warrant, upon exercise, entitles the Holder thereof to receive from the Issuer on the Cash Settlement Payment Date or, in the case of Basket Credit Linked Warrants, the relevant Cash Settlement Payment Date (in each case as specified in the relevant Pricing Supplement)".

- (d) Condition 4(i) (*Automatic Exercise*) will be deleted and the following substituted therefor:

"(i) *Automatic Exercise*

Notwithstanding Condition 4(h) (*Warrants Void on Expiry*), each Warrant shall be deemed to be automatically exercised on each Expiry Date and the provisions of Condition 5(h) (*Exercise Risk*) shall apply and in these Conditions the expression "exercise" and any related expressions shall be construed to apply to any such Warrants which are deemed to be automatically exercised in accordance with this Condition 4(i)."

- (e) Condition 5(b) (*Verification of Warrantholder*) will be amended by the deletion of the final paragraph thereof and the substitution of the following therefor:

"On or prior to the last occurring Cash Settlement Payment Date, the relevant Clearing System will debit the Warrantholder's account with the Warrants being exercised."

- (f) Condition 5(c) (*Notification to Principal Warrant Agent*) will be amended by:

- (i) the deletion of the words "the Exercise Date" therein and the substitution of the words "the relevant Exercise Date" therefor; and

- (ii) the deletion of the words "the Cash Settlement Amount" therein and the substitution of the words "the relevant Cash Settlement Amount" therefor.

- (g) Condition 5(d) (*Debit of Warrantholder's Account*) will be amended by the deletion of the words "the Cash Settlement Payment Date" therein and the substitution of the words "the last occurring Cash Settlement Payment Date" therefor.
- (h) Condition 5(e) (*Payment*) will be amended by:
 - (i) the deletion of the first paragraph thereof and the substitution of the following therefor:

"In respect of Warrants which have been exercised, the Calculation Agent shall by close of business or such other time as is specified in the relevant Pricing Supplement on the date specified therefor in the relevant Pricing Supplement determine the relevant Cash Settlement Amount (if any) to be paid on the relevant Cash Settlement Payment Date in respect of the relevant Warrants and, shall notify the Issuer and the Principal Warrant Agent of such amounts on the Business Day following the date so specified.";
 - (ii) the deletion of the words "the Cash Settlement Payment Date" therein and the substitution of the words "the relevant Cash Settlement Payment Date" therefor; and
 - (iii) the deletion of the words "the Cash Settlement Amount" therein and the substitution of the words "the relevant Cash Settlement Amount" therefor.
- (i) The following will be added as a new Condition 18 (*Adjustments on Purchase and Cancellation or Further Issue*):

"18. Adjustments on Purchase and Cancellation or Further Issue

If any purchase and cancellation of Warrants occurs under Condition 13 or any further issue under Condition 12, the Calculation Agent will make such adjustments to the relevant Pricing Supplement and/or these Conditions and/or the Credit Linked Conditions as it determines appropriate (including Reference Entity Notional Amounts and/or the Original Notional Amount, as applicable) to ensure the Warrants continue to reflect economic intentions."

2. Provisions relating to Basket Credit Linked Warrants

- (a) A Credit Event Determination Date may occur more than once except that, subject as provided in Credit Linked Condition 9 and the definition of Credit Event Determination Date in Credit Linked Condition 8, a Credit Event Notice (if applicable) may only be delivered on one occasion and a Credit Event Determination Date may occur once only, with respect to any Reference Entity (unless subsequent to the occurrence of a Credit Event Determination Date with respect to any Reference Entity, that Reference Entity becomes the Successor to one or more other Reference Entities in respect of which a Credit Event Determination Date has not occurred, in which case a Credit Event Determination Date may occur again).
- (b) If a Credit Event Determination Date occurs in respect of more than one Reference Entity on the same date, the Calculation Agent shall determine the order in which such Credit Event Determination Dates arose on such date.
- (c) Notwithstanding anything to the contrary herein, if at any time the Credit Outstanding Notional Amount is equal to zero, each Warrant will terminate at the final Cash Settlement Amount on the final Cash Settlement Payment Date.

3. Repudiation/Moratorium Extension

If "Repudiation/Moratorium" is specified as a Credit Event in the relevant Pricing Supplement, the provisions of this Credit Linked Condition 3 shall apply.

Where a Credit Event Determination Date has not occurred on or prior to the Scheduled Cut-Off Date but the Repudiation/Moratorium Extension Condition has been satisfied on or prior to the Scheduled Cut-Off Date or, if Credit Linked Condition 6(y) applies, the Postponed Cut-off Date and the Repudiation/Moratorium Evaluation Date in respect of such Potential Repudiation Moratorium may, in the sole opinion of the Calculation Agent, fall after the Scheduled Cut-Off Date, then the Calculation Agent shall notify the Warrantholders in accordance with Condition 11 (*Notices*) that a Potential Repudiation/Moratorium has occurred and accordingly the last day of the Notice Delivery Period and thereby (in the case of Basket Credit Linked Warrants, final) exercise and expiry of the Warrants will fall later than would otherwise be the case.

Any failure to provide notice of any such delay to Warrantholders will not affect the validity of any of the above provisions.

4. **Grace Period Extension**

If "Grace Period Extension" is specified as applicable in the relevant Pricing Supplement, the provisions of this Credit Linked Condition 4 shall apply.

Where a Credit Event Determination Date has not occurred on or prior to the Scheduled Cut-Off Date but, in the determination of the Calculation Agent, a Potential Failure to Pay has occurred with respect to one or more Obligation(s) in respect of which a Grace Period is applicable on or prior to the Scheduled Cut-Off Date (and such Grace Period(s) is/are continuing as at the Scheduled Cut-Off Date), then the Calculation Agent shall notify the Warrantholders in accordance with Condition 11 (*Notices*) that a Potential Failure to Pay has occurred and accordingly the last day of the Notice Delivery Period and thereby (in the case of Basket Credit Linked Warrants, final) exercise and expiry of the Warrants will fall later than would otherwise be the case.

Any failure to provide notice of any such delay to Warrantholders will not affect the validity of any of the above provisions.

5. **Credit Derivatives Determinations Committee Extension**

In the event of any such Suspension Period, the Calculation Agent may make (x) such consequential or other adjustment(s) or determination(s) to or in relation to the Conditions and these Credit Linked Conditions as may be desirable or required either during or following any relevant Suspension Period to account for or reflect such suspension and (y) determine the effective date of such adjustment(s) or determination(s).

- (a) The Calculation Agent shall identify the Substitute Reference Obligation in accordance with paragraphs (c), (d) and (e) below to replace the Non-Standard Reference Obligation; provided that the Calculation Agent will not identify an obligation as the Substitute Reference Obligation if, at the time of the determination, such obligation has already been rejected as the Substitute Reference Obligation by the relevant Credit Derivatives Determinations Committee and such obligation has not changed materially since the date of the relevant DC Resolution.
- (b) If any of the events set forth under paragraphs (a) or (b)(ii) of the definition of Substitution Event have occurred with respect to the Non-Standard Reference Obligation, the Non-Standard Reference Obligation will cease to be the Reference Obligation (other than for purposes of the "Not Subordinated" Obligation Characteristic or "Not Subordinated" Deliverable Obligation Characteristic and paragraph (c)(ii)).  - II. is a Loan (other than a Private-side Loan) which constitutes a Deliverable Obligation determined in accordance with the definition of Deliverable Obligation above;

The Calculation Agent will notify the Warrantholders in accordance with Condition 11 (*Notices*) of the Substitute Reference Obligation as soon as reasonably practicable after it has been identified in accordance with paragraph (c) above and the Substitute Reference Obligation shall replace the Non-Standard Reference Obligation. For the avoidance of doubt any failure to provide such a notice to the Warrantholders will not affect the validity of any of the foregoing provisions.
- (e) If a Substitution Event has occurred with respect to the Non-Standard Reference Obligation and the Calculation Agent determines that no Substitute Reference Obligation is available for the Non-Standard Reference Obligation then, subject to paragraph (a) above and notwithstanding the fact that the Non-Standard Reference Obligation may have ceased to be the Reference Obligation in accordance with paragraph (b) above, the Calculation Agent shall continue to attempt to identify the Substitute Reference Obligation.

further related successions in respect of such Steps Plan, or (ii) the occurrence of a Credit Event Determination Date in respect of the Reference Entity or any entity which would constitute a Successor.

 - (v) if one or more entities succeed directly as a provider of a Relevant Guarantee, to a portion of the Relevant Obligations of the Reference Entity, but no entity succeeds to more than twenty-five per cent. of the Relevant Obligations of the Reference Entity and the Reference Entity continues to exist, there will be no Successor and the Reference Entity will not be changed in any way as a result of such succession;
 - (vi) if one or more entities succeed, either directly or indirectly, as a provider of a Relevant Guarantee, to a portion of the Relevant Obligations of the Reference Entity, but no entity succeeds to more than twenty-five per cent. of the Relevant Obligations of the Reference Entity and the Reference Entity ceases to exist, the entity which succeeds to the greatest percentage of Relevant Obligations will be the Successor (provided that if two or more entities succeed to an equal percentage of Relevant Obligations, each such entity will be a Successor and the Base Conditions and/or the relevant Pricing Supplement will be adjusted as provided below); and
 - (vii) in respect of a Reference Entity which is not a Sovereign, if one entity assumes all of the obligations (including at least one Relevant Obligation) of the Reference Entity, and at the time of the determination either (A) the Reference Entity has ceased to exist, or (B) the Reference Entity is in the process of being dissolved (howsoever described) and the Reference Entity has not issued or incurred any Borrowed Money obligation at any time since the legally effective

date of the assumption, such entity (the "**Universal Successor**") will be the sole Successor; and

- (b) An entity may only be a Successor if:
 - (i) either (A) the related Succession Date occurs on or after the Successor Backstop Date, or (B) such entity is a Universal Successor in respect of which the Succession Date occurred on or after 1 January 2014;
 - (ii) the Reference Entity had at least one Relevant Obligation outstanding immediately prior to the Succession Date and such entity succeeds to all or part of at least one Relevant Obligation of the Reference Entity; and
 - (iii) where the Reference Entity is a Sovereign, such entity succeeded to the Relevant Obligations by way of a Sovereign Succession Event.

The Calculation Agent will be responsible for determining, as soon as reasonably practicable after delivery of a Successor Notice and with effect from the Succession Date, any Successor or Successors under paragraph (a) above, Provided That the Calculation Agent will not make any such determination if, at the time of determination, the DC Secretary has publicly announced that the relevant Credit Derivatives Determinations Committee has Resolved that there is no Successor based on the relevant succession to Relevant Obligations.

The Calculation Agent may, if it determines appropriate, select an alternative Transaction Type for any Successor to a Reference Entity and adjust such of the Base Conditions and/or the relevant Pricing Supplement as it determines appropriate to reflect such new Transaction Type and determine the effective date of any such change and adjustment. The Calculation Agent shall be deemed to be acting in a commercially reasonable manner if any such Transaction Type and adjustment reflects any adjustment to any credit derivative transaction(s) related to or underlying the Credit Linked Warrants incorporating the provisions of the 2014 ISDA Credit Derivatives Definitions (the "**2014 Definitions**"). Upon the Calculation Agent making such adjustment, the Issuer shall give notice as soon as practicable to Warrantheolders in accordance with Condition 11 (*Notices*) stating the new Transaction Type and the adjustment to the Base Conditions and/or the relevant Pricing Supplement (if any). For the avoidance of doubt any failure to provide such a notice to Warrantheolders will not affect the validity of any of the foregoing provisions.

The Calculation Agent will make all calculations and determinations required to be made under this definition of Successor on the basis of Eligible Information and will, as soon as practicable after such calculation or determination, make such calculation or determination available for inspection by Warrantheolders at the specified office of the Principal Warrant Agent. In calculating the percentages used to determine whether an entity qualifies as a Successor under paragraph (a) above, if there is a Steps Plan, the Calculation Agent shall consider all related successions in respect of such Steps Plan in aggregate as if forming part of a single succession.

Where pursuant to paragraph (a)(iii), (a)(iv) or (a)(vi) above, more than one Successor has been identified, the Calculation Agent shall adjust such of the Base Conditions and/or the relevant Pricing Supplement as it shall determine to be appropriate (including, without limitation, the Reference Entity Notional Amount and (if applicable) the Transaction Type) to reflect that the Reference Entity has been succeeded by more than one Successor and shall determine the effective date of that adjustment. The Calculation Agent shall be deemed to be acting in a commercially reasonable manner if it adjusts such of the Base Conditions and/or the relevant Pricing Supplement in such a manner as to reflect the adjustment to and/or division of any credit derivative transaction(s) related to or underlying the Credit Linked Warrants under the provisions of the 2014 Definitions.

Upon the Calculation Agent making such adjustment, the Issuer shall give notice as soon as practicable to Warrantheolders in accordance with Condition 11 (*Notices*) stating the adjustment to the Base Conditions and/or the relevant Pricing Supplement and giving brief details of the relevant Successor event. For the avoidance of doubt any failure to provide such a notice to Warrantheolders will not affect the validity of any of the foregoing provisions.

If two or more entities (each, a "**Joint Potential Successor**") jointly succeed to a Relevant Obligation (the "**Joint Relevant Obligation**") either directly or as a provider of a Relevant Guarantee, then (i) if the Joint Relevant Obligation was a direct obligation of the Reference Entity, it shall be treated as having been succeeded to by the Joint Potential Successor (or Joint Potential Successors, in equal parts) which succeeded to such Joint Relevant Obligation as direct obligor or obligors, or (ii) if the Joint Relevant Obligation was a Relevant Guarantee, it shall be treated as having been succeeded to by the Joint Potential Successor (or Joint Potential Successors, in equal parts) which succeeded to such Joint Relevant Obligation as guarantor or guarantors, if any, or otherwise by each Joint Potential Successor in equal parts.

For the purposes of this definition of "Successor", "**succeed**" means, with respect to the Reference Entity and its Relevant Obligations, that an entity other than the Reference Entity (i) assumes or becomes liable for such Relevant Obligations whether by operation of law or pursuant to any agreement (including, with respect to a Reference Entity that is a Sovereign, any protocol, treaty, convention, accord, concord, entente, pact or other agreement), or (ii) issues Bonds or incurs Loans (the "**Exchange Bonds or Loans**") that are exchanged for Relevant Obligations, and in either case the Reference Entity is not thereafter a direct obligor or a provider of a Relevant Guarantee with respect to such Relevant Obligations or such Exchange Bonds or Loans, as applicable. For purposes of this definition of "Successor", "succeeded" and "succession" shall be construed accordingly. In the case of an exchange offer, the determinations required pursuant to paragraph (a) of this definition of "Successor" shall be made on the basis of the outstanding principal balance of Relevant Obligations exchanged and not on the basis of the outstanding principal balance of the Exchange Bonds or Loans.

Notwithstanding the provisions above and sub-paragraphs (a) and (b)(ii) of the definition of Reference Entity, where a Reference Entity is determined as a Successor to another Reference Entity pursuant to the above provisions, then it will be deemed to be a Reference Entity only once hereunder, and from and including the date of such determination the Reference Entity Notional Amount with respect to such Reference Entity will be the sum of the Reference Entity Notional Amounts that would otherwise be applicable to it.

Each such form of Credit Derivatives Auction Settlement Terms shall set out, *inter alia*, definitions of "Auction", "Auction Cancellation Date", "Auction Covered Transaction" and "Auction Final Price Determination Date" in relation to the relevant Credit Event. The Transaction Auction Settlement Terms for purposes of the Credit Linked Warrants shall be the relevant form of Credit Derivatives Auction Settlement Terms for which the Reference Transaction would be an Auction Covered Transaction (as such term will be set out in the relevant Credit Derivatives Auction Settlement Terms).  - (3) for purposes of the application of the Valuation Obligation Characteristics, only the Underlying Obligation must satisfy on the relevant date or dates each of the applicable Valuation Obligation Characteristics, if any, specified in the relevant Pricing Supplement from the following list: "Listed", "Not Domestic Issuance", "Assignable Loan", "Consent Required Loan", "Direct Loan Participation", "Transferable", "Maximum Maturity", "Accelerated" or "Matured" and "Not Bearer"; and
 - (4) for purposes of the application of the Valuation Obligation Characteristics to an Underlying Obligation, references to the Reference Entity shall be deemed to refer to the Underlying Obligor.
- (D) For purposes of the application of the Valuation Obligation Characteristic "Maximum Maturity", remaining maturity shall be determined on the basis of the terms of the Valuation Obligation in effect at the time of making such determination and, in the case of a Valuation Obligation that is due and payable, the remaining maturity shall be zero.
- (E) If "Financial Reference Entity Terms" and "Governmental Intervention" are specified as applicable in the relevant Pricing Supplement, if an obligation would otherwise satisfy a particular Valuation Obligation Characteristic, the existence of any terms in the relevant obligation in effect at the time of making the determination which permit the Reference Entity's obligations to be altered, discharged, released or suspended in circumstances which would constitute a Governmental Intervention, shall not cause such obligation to fail to satisfy such Valuation Obligation Characteristic.
- (F) For purposes of determining the applicability of Valuation Obligation Characteristics and the requirements specified in the paragraphs commencing "If "Mod R" ..." and "If "Mod Mod R" ..." below to a Prior Deliverable Obligation or a Package Observable Bond, any such determination shall be made by reference to the terms of the relevant obligation in effect immediately prior to the Asset Package Credit Event.
- (G) If "Subordinated European Insurance Terms" is specified as applicable in the relevant Pricing Supplement, if an obligation would otherwise satisfy the "Maximum Maturity" Valuation Obligation Characteristic, the existence of any Solvency Capital Provisions in such obligation

shall not cause it to fail to satisfy such Valuation Obligation Characteristic.

If "Mod R" is specified as applicable in the relevant Pricing Supplement and Restructuring is the only Credit Event specified in a Credit Event Notice, then unless the Valuation Obligation is a Prior Deliverable Obligation and Asset Package Delivery applies due to a Governmental Intervention, a Valuation Obligation may be specified in a Valuation Obligation Notification only if it (i) is a Fully Transferable Obligation and (ii) has a final maturity date not later than the applicable Restructuring Maturity Limitation Date, in each case, as of each such date as the Calculation Agent determines relevant for purposes of the Hedging Arrangements or, if none at the relevant time, the date of delivery of the Valuation Obligation Notification.

If "Mod Mod R" is specified as applicable in the relevant Pricing Supplement and Restructuring is the only Credit Event specified in a Credit Event Notice, then unless the Valuation Obligation is a Prior Deliverable Obligation and Asset Package Delivery applies due to a Governmental Intervention, a Valuation Obligation may be specified in a Valuation Obligation Notification only if it (i) is a Conditionally Transferable Obligation and (ii) has a final maturity date not later than the applicable Modified Restructuring Maturity Limitation Date, in each case, as of each such date as the Calculation Agent determines relevant for purposes of the Hedging Arrangements or, if none at the relevant time, the date of delivery of the Valuation Obligation Notification. For the purposes of this paragraph only and notwithstanding the foregoing, in the case of a Restructured Bond or Loan with a final maturity date on or prior to the 10-year Limitation Date, the final maturity date of such Bond or Loan shall be deemed to be the earlier of such final maturity date or the final maturity date of such Bond or Loan immediately prior to the relevant Restructuring.

For the purposes of making a determination pursuant to the two prior paragraphs or the definition of Restructuring Maturity Limitation Date, the final maturity date shall, subject as provided in the prior paragraph, be determined on the basis of the terms of the Valuation Obligation in effect at the time of making such determination and, in the case of a Valuation Obligation that is due and payable, the final maturity date shall be deemed to be the date on which such determination is made.

The Valuation Obligation Notification shall describe the selected Valuation Obligation(s) in reasonable detail and shall specify the relevant title(s) or designation(s), maturity date(s) and coupon rate(s) and, unless the Quotation Amount is specified in the relevant Pricing Supplement, the applicable Quotation Amount in respect of each such Valuation Obligation (Provided That the aggregate of the Quotation Amounts in respect of the Valuation Obligations shall not exceed the relevant Reference Entity Notional Amount). The Issuer may at any time after delivering a Valuation Obligation Notification but prior to the Valuation Time on the Valuation Date deliver a further Valuation Obligation Notification which shall replace all prior Valuation Obligation Notifications in relation to any additional or replacement Valuation Obligation(s) specified therein.

For the avoidance of doubt the Issuer shall be entitled to select any Valuation Obligations for the purposes of calculating the Final Price irrespective of their market value and, provided that (in the case of a Valuation Obligation selected pursuant to sub-paragraph (a) above) the selected obligation satisfies the applicable Valuation Obligation Category and Valuation Obligation Characteristics on the relevant date, such obligation(s) may constitute the Valuation Obligation(s) for the purposes hereof notwithstanding that this is not the case subsequent to such date.

"Valuation Time" means the time specified as such in the relevant Pricing Supplement or, if no time is so specified, 11.00 a.m. in the principal trading market for the Valuation Obligation.

"Weighted Average Quotation" means in accordance with the Quotation Method, the weighted average of firm quotations obtained from Quotation Dealers at the Valuation Time, to the extent reasonably practicable, each for an amount of the Valuation Obligation with an Outstanding Principal Balance or Due and Payable Amount, as applicable, of as large a size as available but less than the Quotation Amount (but, of a size at least equal to the Minimum Quotation Amount) that in aggregate are approximately equal to the Quotation Amount.

9. **Credit Event Notice after Restructuring Credit Event**

Notwithstanding anything to the contrary in these Credit Linked Conditions, upon the occurrence of an M(M)R Restructuring:

- (a) The Calculation Agent may deliver multiple Credit Event Notices in respect of such M(M)R Restructuring, each such Credit Event Notice setting forth an amount of the relevant Reference Entity Notional Amount to which such Restructuring Credit Event applies (the "**Partial Exercise Amount**") that may be less than the relevant Reference Entity Notional Amount to which such Restructuring Credit Event applies immediately prior to the delivery of such Credit Event Notice. In such circumstances the Credit Linked Conditions and related provisions shall be deemed to apply to the Partial Exercise Amount only and each such Credit Linked Warrant shall be exercised in part (in a proportion equal to the proportion that the Partial Exercise Amount bears to the relevant Reference Entity Notional Amount).
- (b) For the avoidance of doubt (A) the part of each Credit Linked Warrant not so exercised in part shall remain outstanding and the Reference Entity Notional Amount shall be reduced by the Partial Exercise Amount, (B) the Credit Linked Conditions and related provisions shall apply to such Credit Linked Warrant in the event that subsequent Credit Event Notices are delivered in respect of the Reference Entity that was the subject of the Restructuring Credit Event and (C) if, following a Restructuring Credit Event, different Credit Event Determination Dates have been determined with respect to different portions of amounts payable to Warrantholders under the relevant Series, the Calculation Agent will (x) determine such adjustment(s) to the Base Conditions as may be required to achieve as far as practicable the same economic effect as if each such portion was a separate series or otherwise reflect or account for the effect of the above provisions of this Credit Linked Condition 9 and (y) the effective date of such adjustment(s).
- (c) If the provisions of this Credit Linked Condition 9(c) apply in respect of the Credit Linked Warrants, on exercise in part of each such Credit Linked Warrant the relevant Credit Linked Warrant or, if the Credit Linked Warrants are represented by a Global Registered Warrant, such Global Registered Warrant, shall be endorsed to reflect such partial exercise.

10. **Provisions relating to Multiple Holder Obligation**

Unless this Credit Linked Condition 10 is specified as not applicable in the relevant Pricing Supplement, then, notwithstanding anything to the contrary in the definition of Restructuring and related provisions, the occurrence of, agreement to, or announcement of, any of the events described in sub-paragraphs (a) to (e) of the definition of "**Restructuring**" shall not be a Restructuring unless the Obligation in respect of any such events is a Multiple Holder Obligation.

"**Multiple Holder Obligation**" means an Obligation that (i) at the time of the event which constitutes a Restructuring Credit Event is held by more than three holders that are not Affiliates of each other and (ii) with respect to which a percentage of holders (determined pursuant to the terms of the Obligation as in effect on the date of such event) at least equal to sixty-six and two-thirds is required to consent to the event which constitutes a Restructuring Credit Event, provided that any Obligation that is a Bond shall be deemed to satisfy the requirement in paragraph (ii).

11. **Calculation Agent, Calculation Agent Notices and Timings**

- (a) Whenever any state of affairs, circumstance, event or other matter falls to be determined, considered or otherwise decided upon, or any discretion is required to be exercised, by the Calculation Agent or any other person (including where a matter is to be decided by reference to the Calculation Agent's or such other person's opinion), unless otherwise stated (including in respect of discretions as set out in paragraph (b) below), that matter shall be determined, considered or otherwise decided upon, or that discretion shall be exercised, by the Calculation Agent or such other person, as the case may be, acting in its sole and absolute discretion and shall in the absence of manifest error) be final and

binding on the Issuer and the Warrantholders. Whenever the Calculation Agent is required to make any determination it may, *inter alia*, decide issues of construction and legal interpretation. Any delay, deferral or forbearance by the Calculation Agent in the performance or exercise of any of its obligations or its discretion under the Warrants including, without limitation, the giving of any notice by it to any person, shall not affect the validity or binding nature of any later performance or exercise of such obligation or discretion. Neither the Calculation Agent nor the Issuer shall be liable for any loss, liability, cost, claim, action, demand or expense (including without limitation, all costs, charges and expenses paid or incurred in disputing or defending any of the foregoing) arising out of or in relation to or in connection with the Calculation Agent's appointment or the exercise of its functions (including, without limitation, any such delay, deferral or forbearance), except in the case of the Calculation Agent such as may result from its own wilful default, negligence or bad faith or that of its officers or agents.

- (b) Unless otherwise stated herein, when exercising discretions under the Credit Linked Warrants (including, without limitation, with respect to the determination of Credit Events and the delivery of Credit Event Notices and Notices of Publicly Available Information for the purposes of a Credit Event Determination Date and (if Mod R or Mod Mod R is applicable) the exercise of the Movement Option for the purposes of the Relevant Final Price) the Calculation Agent and the Issuer, as applicable, will act in good faith and in a commercially reasonable manner and will take into account (or, in the case of the Movement Option, follow) the position under or in respect of any Hedging Arrangements at the relevant time.
- (c) Any notice to be delivered by the Calculation Agent to the Issuer pursuant to these Credit Linked Conditions may be given in writing (including by facsimile and/or email) and/or by telephone. Any such notice will be effective when given, regardless of the form in which it is delivered. A notice given by telephone will be deemed to have been delivered at the time the telephone conversation takes place. If the notice is delivered by telephone, a written confirmation will be executed and delivered confirming the substance of that notice within one Calculation Agent City Business Day of that notice. Failure to provide that written confirmation will not affect the effectiveness of that telephonic notice.
- (d) Any notice to be delivered by the Issuer to the Calculation Agent pursuant to these Credit Linked Conditions may be given in writing (including by facsimile and/or email) and/or by telephone. Any such notice will be effective when given, regardless of the form in which it is delivered. A notice given by telephone will be deemed to have been delivered at the time the telephone conversation takes place. If the notice is delivered by telephone, a written confirmation will be executed and delivered confirming the substance of that notice within one Calculation Agent City Business Day of that notice. Failure to provide that written confirmation will not affect the effectiveness of that telephonic notice.
- (e) For the purposes of determining the day on which an event occurs for purposes of these Credit Linked Conditions, the Calculation Agent will determine the demarcation of days by reference to Greenwich Mean Time (or, if the Reference Entity has a material connection to Japan for these purposes, Tokyo time) irrespective of the time zone in which such event occurred. Any event occurring at midnight shall be deemed to have occurred immediately prior to midnight.
- (f) In addition, if a payment is not made by the Reference Entity on its due date or, as the case may be, on the final day of the relevant Grace Period, then such failure to make a payment shall be deemed to have occurred on such day prior to midnight Greenwich Mean Time (or, if the Reference Entity has a material connection to Japan for these purposes, Tokyo time), irrespective of the time zone of its place of payment.

12. **Amendment of Credit Linked Conditions**

The Calculation Agent may from time to time amend any provision of these Credit Linked Conditions (i) to incorporate and/or reflect further or alternative documents or protocols from time to time published by ISDA with respect to the settlement of credit derivative transactions and/or the operation or application of determinations by Credit Derivatives Determinations Committees, including without limitation, in relation to settlement, credit events and successors and/or (ii) in any manner which the Calculation Agent determines in a commercially reasonable manner is necessary or desirable to reflect or account for market practice for credit derivative transactions. Any amendment made in accordance with this Credit Linked Condition 12 shall be notified to the Warrantheolders in accordance with Condition 11 (*Notices*). Any failure to provide notice of any such amendment to Warrantheolders will not affect the validity of any of the foregoing provisions.

13. **Early termination of Reference Obligation Only Warrants following a Substitution Event**

If the Warrants are Reference Obligation Only Warrants relating to a single Reference Entity and the event set out in paragraph (a) of the definition of Substitution Event above occurs with respect to the Reference Obligation, then each Credit Linked Warrant will be cancelled forthwith and the Issuer's obligations in respect of the Credit Linked Warrants will be discharged and the Issuer will have no further liability in respect thereof.

14. **DC Resolution Adjustment Events**

If following the publication of a DC Resolution (the "**Prior DC Resolution**"), a further DC Resolution (the relevant "**Further DC Resolution**") is published the effect of which would be to reverse all or part of the Prior DC Resolution or if any DC Resolution would reverse any determination made by the Calculation Agent and/or the occurrence of a Credit Event Determination Date, notwithstanding any other provisions of these Credit Linked Conditions the Calculation Agent may, in its sole and absolute discretion, make any adjustment(s) that the Calculation Agent determines is necessary or desirable to the Conditions or these Credit Linked Conditions to reflect the publication of such Further DC Resolution or DC Resolution, including, without limitation, as a result of the impact or effect of such Further DC Resolution or DC Resolution on the Hedging Arrangements (if any at the relevant time).

15. **Asset Package Delivery**

Asset Package Delivery will apply if an Asset Package Credit Event occurs, unless (i) such Asset Package Credit Event occurs prior to the Credit Event Backstop Date determined in respect of the Credit Event specified in the Credit Event Notice or DC Credit Event Announcement applicable to the Credit Event Determination Date, or (ii) if the Reference Entity is a Sovereign, no Package Observable Bond exists immediately prior to such Asset Package Credit Event. Notwithstanding the foregoing, if Sovereign No Asset Package Delivery is specified as applicable in the relevant Pricing Supplement, it shall be deemed that no Package Observable Bond exists with respect to a Reference Entity that is a Sovereign (even if such a Package Observable Bond has been published by ISDA) and accordingly, Asset Package Delivery shall not apply thereto.

16. **Amendments to the Index Annex**

For the purposes of Basket Credit Linked Warrants for which iTraxx® Europe is specified as applicable in the relevant Pricing Supplement, the Index Annex will be deemed amended from time to time to reflect any modifications resulting from the application of the definitions of Reference Entity, Reference Obligation, Standard Reference Obligation and/or Substitute Reference Obligation above.

TRANSFER RESTRICTIONS

Because of the following restrictions, purchasers of Warrants offered in the United States in reliance on Rule 144A are advised to consult legal counsel prior to making any offer, resale, pledge or transfer of such Warrants.

Each prospective purchaser of Warrants offered in reliance on Rule 144A (a "**144A Offeree**"), by accepting delivery of the Pricing Supplement and this Offering Memorandum, will be deemed to have represented and agreed with respect to such Warrants as follows:

- (a) such 144A Offeree acknowledges that this Pricing Supplement and the accompanying Offering Memorandum is personal to such 144A Offeree and does not constitute an offer to any other person or to the public generally to subscribe for or otherwise acquire Warrants other than pursuant to Rule 144A or in offshore transactions in accordance with Regulation S. Distribution of this Pricing Supplement and the accompanying Offering Memorandum, or disclosure of any of its contents, to any person other than such 144A Offeree and those persons, if any, retained to advise such 144A Offeree with respect thereto and other persons meeting the requirements of Rule 144A or Regulation S is unauthorised, and any disclosure of any of its contents, without the prior written consent of the Issuer, is prohibited; and
- (b) such 144A Offeree agrees to make no photocopies of this Pricing Supplement and the accompanying Offering Memorandum or any documents referred to herein.

Each purchaser of Warrants sold in reliance on Rule 144A ("**Restricted Warrants**"), and (where applicable) each person causing such purchaser to purchase or hold any interest in the Warrants (such as an investment manager), will be deemed to have represented and agreed as follows (terms used in this paragraph that are defined in Rule 144A are used herein as defined therein):

- (2) The purchaser understands that the Rule 144A Warrants are being offered only in a transaction not involving any public offering in the United States within the meaning of the Securities Act, and the Warrants offered hereby have not been and will not be registered under the Securities Act and may not be reoffered, resold, pledged or otherwise transferred except in accordance with the legend set forth below.
- (3) The purchaser, and each person causing such purchaser to purchase or hold any interest in the Warrants (such as an investment manager), understands that certificates representing Restricted Warrants will bear a legend to the following effect, unless the Issuer determines otherwise in accordance with applicable law:

PROGRAMME FOR THE ISSUANCE OF NOTES AND WARRANTS

Credit-Linked Notes

This product supplement in relation to Credit-Linked Notes constitutes Part G ("**Part G**") of the offering memorandum dated 10 June 2016 (the "**Offering Memorandum**") prepared by HSBC Bank plc (the "**Issuer**") in relation to the Programme for the Issuance of Notes and Warrants (the "**Programme**") described therein in connection with the application made for Notes or Warrants to be admitted to listing on the Irish Stock Exchange, and to trading on its Global Exchange Market and applies in relation to Credit-Linked Notes for which "Part G – Product Supplement for Credit-Linked Notes" is specified as applicable in the relevant Pricing Supplement.

This Offering Memorandum does not comprise (i) a prospectus for the purposes of Part VI of the Financial Services and Markets Act 2000 (as amended) or (ii) a base prospectus for the purposes of Directive 2003/71/EC as amended (the "Prospectus Directive"). This Offering Memorandum has been prepared solely with regard to Notes that are (i) not to be admitted to listing or trading on any regulated market for the purposes of Directive 2004/39/EC and not to be offered to the public in a Member State (other than pursuant to one or more of the exemptions set out in Article 3.2 of the Prospectus Directive).

To the extent that there is any inconsistency between any statement in this Part G and any other statement in, or incorporated by reference in, other parts of this Offering Memorandum, the statements in this Part G will prevail for the purposes of Part G.

Notes issued pursuant to the Programme may include "**Credit-Linked Notes**", being Notes in relation to which the interest and/or the amount payable and/or the value of the assets deliverable on redemption reflect the performance of a reference entity or reference obligation, or a portfolio of reference entities or reference obligations and the credit-linked terms of which include terms based on the 2014 ISDA Credit Derivatives Definitions. The purpose of this Part G is to provide information in relation to such Credit-Linked Notes. This Part G should be read together with Parts A and B of this Offering Memorandum.

An investment in Credit-Linked Notes involves risks. See Part A of this Offering Memorandum under the heading "Risk Factors" (beginning on page A-1).

No person is or has been authorised to give any information or to make any representation not contained in or not consistent with this Part G or any other information supplied in connection with the Credit-Linked Notes and, if given or made, such information or representation must not be relied upon as having been authorised by the Issuer.

Neither this Part G nor any further information supplied in connection with the Credit-Linked Notes should be considered as a recommendation or as constituting an invitation or offer by the Issuer that any recipient of this Part G or any other information supplied in connection with the Credit-Linked Notes should subscribe for or purchase the Credit-Linked Notes. Each investor contemplating subscribing for or purchasing the Credit-Linked Notes should make its own independent investigation of the affairs, and its own appraisal of the creditworthiness, of the Issuer. Neither this Part G nor any other information supplied in connection with the Credit-Linked Notes constitutes an offer by or on behalf of the Issuer to subscribe for or purchase the Credit-Linked Notes.

The distribution of this Part G and the offer, distribution or sale of Credit-Linked Notes may be restricted by law in certain jurisdictions. The Issuer does not represent that this document may be lawfully distributed, or that the Credit-Linked Notes may be lawfully offered, or assumes any responsibility for facilitating any such distribution or offering. In particular, action may be required to be taken to permit a public offering of the Credit-Linked Notes or a distribution of this document in any jurisdiction. Accordingly, no Credit-Linked Notes may be offered or sold, directly or indirectly, and neither this Part G nor any advertisement or other offering material may be distributed or published in any jurisdiction, except under circumstances that will result in compliance with any applicable laws and regulations. Persons into whose possession this Part G or the Credit-Linked Notes come must inform themselves about, and observe, any such restrictions.

Notes issued under the Programme may include securities that are PRIIPs under Regulation (EU) No 1286/2014 of the European Parliament and of the Council of 26 November 2014 on key information documents for packaged retail and insurance-based investment products (PRIIPs) (the "**PRIIPs Regulation**"). From the date that the PRIIPs Regulation applies, such securities may only be sold to retail investors (as defined in the PRIIPs Regulation) in the European Economic Area ("**EEA**") if a key information document prepared in accordance with the PRIIPs Regulation (a "**KID**") is made available to such investors. The Issuer only intends to prepare KIDs in relation to those Notes that it intends to be distributed to such retail investors. If the Issuer has not prepared a KID in relation to any Series of Notes, this will be stated in the related Pricing Supplement and any offer or sale of such Notes to retail investors in the EEA may be unlawful once the PRIIPs Regulation applies. Persons purchasing such Notes will be deemed to represent, warrant and undertake to the Issuer and the Dealer(s) that they have not offered and sold, and that they will not offer or sell, any such Notes to retail investors in the EEA and that they have complied and will comply with the PRIIPs Regulation in relation to such Notes. HSBC Bank plc as Issuer and Dealer expressly disclaims any responsibility for offers and sales of Notes to

retail investors in circumstances where it is stated in the relevant Pricing Supplement that such Notes are not intended to be sold to retail investors in the EEA and that no KID has been prepared.

Credit-Linked Notes have not been and will not be registered under the United States Securities Act of 1933, as amended (the "**Securities Act**"), the state securities laws of any state of the United States, and may not be offered or sold within the United States or to, or for the account or benefit of, US persons (as defined in Regulation S under the Securities Act) except pursuant to an exemption from, or in a transaction not subject to, the registration requirements of the Securities Act.

IMPORTANT NOTICES

Given the highly specialised nature of Credit-Linked Notes, the Issuer considers that they are only suitable for highly sophisticated investors who are willing to take considerable risks, who are able to determine for themselves the risk of an investment linked to the credit risk of the particular reference entity or entities and who can absorb a substantial or total loss of principal.

Consequently, investors who do not fall within the description above should not consider purchasing the Credit-Linked Notes without taking detailed advice from a specialised professional adviser.

ADDITIONAL TERMS AND CONDITIONS RELATING TO CREDIT-LINKED NOTES

The section headed "*Terms and Conditions of the Notes*" of this Offering Memorandum shall be supplemented and modified by the following "*Additional Terms and Conditions Relating to Credit-Linked Notes*" (the "**Credit Linked Conditions**") and, together with the Terms and Conditions of the Notes, the "**Base Conditions**") in respect of any issue of Credit-Linked Notes as amended or supplemented by the terms of each Tranche of Notes set out in the Pricing Supplement for which "Part G – Product Supplement for Credit-Linked Notes" is specified as applicable therein. In the event of any inconsistency between the "*Terms and Conditions of the Notes*" and the "*Additional Terms and Conditions Relating to Credit-Linked Notes*", such "*Additional Terms and Conditions Relating to Credit-Linked Notes*" shall prevail and the "*Terms and Conditions of the Notes*" shall be amended accordingly.

Unless otherwise stated in these Credit Linked Conditions or in the relevant Pricing Supplement, in the event that any day specified in the section "*Credit Linked Redemption*" in the relevant Pricing Supplement or the last day of any period calculated by reference to calendar days falls on a day that is not a Business Day, such day or last day shall be subject to adjustment in accordance with the applicable Business Day Convention.

In the case of Credit Linked Notes for which more than one Reference Entity is specified in the relevant Pricing Supplement, all references to "**the Reference Entity**" herein shall be construed to refer to the Reference Entity in respect of which the relevant determination falls to be made at any relevant time and all related provisions and determinations will be construed accordingly. In addition, where an event, date, determination or circumstance relates to a Reference Entity, only those Business Centre(s) specified in relation to that Reference Entity will be deemed to apply for the purposes of the definition of "Business Day" in relation thereto and otherwise all of the Business Centre(s) specified in the relevant Pricing Supplement (including those for all Reference Entities) will apply for the purposes of the definition of "Business Day".

For the avoidance of doubt no Credit Linked Notes will be considered frustrated, or otherwise void or voidable (whether for mistake or otherwise) solely because:

- (a) any relevant Reference Entity does not exist on, or ceases to exist on or following, the Trade Date; and/or
- (b) Obligations, Deliverable Obligations, Valuation Obligations or the Reference Obligation do not exist on, or cease to exist on or following, the Trade Date.

For the avoidance of doubt, the application of any of Credit Linked Conditions 7, 8, 9, 10 or 12 below shall not preclude the application of any other such Credit Linked Condition either contemporaneously or subsequently and in the event that any such Credit Linked Conditions are inconsistent or the Calculation Agent becomes entitled to exercise a discretion under one or more of such Credit Linked Conditions, the Calculation Agent may elect in its discretion which Credit Linked Condition shall apply and under which Credit Linked Condition or Credit Linked Conditions it shall exercise its discretion.

Credit Linked Notes may take the form of Single Reference Entity Credit Linked Notes or Basket Credit Linked Notes (which may be Index Basket Credit Linked Notes). The Settlement Method for Single Reference Entity Credit Linked Notes may be Auction Settlement or Physical Settlement. The Settlement Method for Basket Credit Linked Notes may be Auction Settlement or, in the case of Index Basket Credit Linked Notes, Cash Settlement (for which purposes the Final Price will be fixed) or Zero Recovery. The relevant Pricing Supplement shall specify, amongst other things:

- (a) the type of Credit Linked Notes;
- (b) the Settlement Method and (if applicable) the Final Price;
- (c) the Reference Entity or Reference Entities in respect of which a Credit Event may occur;
- (d) the Reference Obligation(s) (if any) in respect of each Reference Entity;

- (e) the Trade Date and the Scheduled Maturity Date; and
- (f) the Reference Entity Notional Amount in respect of each Reference Entity.

1. Redemption of Credit Linked Notes

- (a) Unless previously redeemed or purchased and cancelled and subject as provided in Credit Linked Condition 2, Credit Linked Condition 3, Credit Linked Condition 4 and Credit Linked Condition 5, the Issuer shall redeem each Credit Linked Note on the Maturity Date by payment of the Final Redemption Amount. The Final Redemption Amount will be rounded to the nearest sub-unit of the Settlement Currency (half a sub-unit being rounded upwards).

In the case of Instalment Notes, subject as provided in Credit Linked Condition 2, Credit Linked Condition 3 or Credit Linked Condition 4, as applicable, the Issuer shall redeem each Credit Linked Note in such number of instalments and in such amounts ("**Instalment Amounts**") as may be specified in, or determined herein or in accordance with the provisions of, the relevant Pricing Supplement.

If a Credit Event Determination Date has occurred in respect of any Reference Entity, the Issuer shall redeem each Credit Linked Note as described below.

References in these Credit Linked Conditions to a Credit Linked Note or Note are to a nominal amount of Credit Linked Notes equal to the Calculation Amount. Any payment of a "*pro rata*" amount in respect of a Note will be determined by reference to its nominal amount relative to the then aggregate nominal amount of Notes. For the avoidance of doubt, Condition 7(a) and Condition 7(i) will not apply.

- (b) Where the Notes are Single Reference Entity Credit Linked Notes, if a Credit Event Determination Date has occurred in relation to the Reference Entity, then the Notes will be settled in accordance with Credit Linked Condition 2, Credit Linked Condition 3 or Credit Linked Condition 4, as applicable.
- (c) Where the Notes are Basket Credit Linked Notes, if a Credit Event Determination Date has occurred in respect of any specified Reference Entity, then the provisions of Credit Linked Condition 5 will apply.
- (d) Where any Credit Event Redemption Amount is or would be zero then, other than for the payment of accrued interest or any other due but unpaid amounts, the Notes will be cancelled as of the Credit Event Redemption Date with no payment being due other than any final amount of accrued interest or any other due but unpaid amounts. The Issuer will have no further obligations in respect of the Credit Linked Notes.
- (e) If any purchase and cancellation of Notes occurs under Condition 7(g) (*Purchases*) or any further issue under Condition 8 (*Further Issues*), the Calculation Agent will make such adjustments to the relevant Pricing Supplement and/or these Credit Linked Conditions as it determines appropriate (including Reference Entity Notional Amounts) to ensure the Notes continue to reflect economic intentions.

2. Auction Settlement

- (a) Where (i) Auction Settlement is specified as the applicable Settlement Method in the relevant Pricing Supplement for Single Name Credit Linked Notes and a Credit Event Determination Date occurs on or prior to the Auction Final Price Determination Date or (ii) Credit Linked Condition 4(b) applies and the Issuer does not give a Notice of Physical Settlement, the Issuer shall give notice (such notice an "**Auction Settlement Notice**") to the Noteholders in accordance with Condition 4 (*Notices*), and,

subject to these Credit Linked Conditions, in particular Credit Linked Condition 1, redeem all but not some only of the Credit Linked Notes, each Credit Linked Note being redeemed by the Issuer at the Credit Event Redemption Amount on the Credit Event Redemption Date. Any delay in the delivery of an Auction Settlement Notice or failure by the Issuer to deliver an Auction Settlement Notice shall not affect the validity of a Credit Event Determination Date.

- (b) Unless settlement has occurred in accordance with the paragraph above, if:
- (i) an Auction Cancellation Date occurs;
 - (ii) a No Auction Announcement Date occurs (and in circumstances where such No Auction Announcement Date occurs pursuant to paragraphs (b) or (c)(ii) of the definition of No Auction Announcement Date, the Issuer has not exercised the Movement Option);
 - (iii) a DC Credit Event Question Dismissal occurs;
 - (iv) a Credit Event Determination Date was determined pursuant to paragraph (a)(i) of the definition of Credit Event Determination Date or paragraph (a) of the definition of Non-Standard Credit Event Determination Date and no Credit Event Resolution Request Date has occurred on or prior to the date falling three Business Days after such Credit Event Determination Date; or
 - (v) the Calculation Agent determines that it is otherwise reasonably likely that the Reference Transaction would be settled in accordance with the Fallback Settlement Method and gives notice of such to the Issuer (the date on which the Calculation Agent gives such notice, the "**Calculation Agent Fallback Settlement Determination Date**"),

then the Issuer shall redeem the Credit Linked Notes in accordance with Credit Linked Condition 3 below.

If a Credit Event Determination Date has occurred and the Notes become redeemable in accordance with this Credit Linked Condition 2, upon payment of the Credit Event Redemption Amounts in respect of the Notes, the Issuer shall have discharged its obligations in respect of the Notes and shall have no other liability or obligation whatsoever in respect thereof. The Credit Event Redemption Amount may be less than the nominal amount of a Credit Linked Note. Any shortfall shall be borne by the Noteholders and no liability shall attach to the Issuer.

3. Cash Settlement

If a Credit Event Determination Date has occurred and Credit Linked Condition 2(b) above applies, the Issuer shall give notice (such notice a "**Cash Settlement Notice**") to the Noteholders in accordance with Condition 14 (*Notices*), and, subject to these Credit Linked Conditions, in particular Credit Linked Condition 1, redeem all but not some only of the Credit Linked Notes, each Credit Linked Note being redeemed by the Issuer at the Credit Event Redemption Amount on the Credit Event Redemption Date. Any delay in the delivery of a Cash Settlement Notice or failure by the Issuer to deliver a Cash Settlement Notice shall not affect the validity of a Credit Event Determination Date.

If a Credit Event Determination Date has occurred and the Notes become redeemable in accordance with this Credit Linked Condition 3, upon payment of the Credit Event Redemption Amounts in respect of the Notes, the Issuer shall have discharged its obligations in respect of the Notes and shall have no other liability or obligation whatsoever in respect thereof. The Credit Event Redemption Amount may be less than the nominal amount of a Credit Linked Note. Any shortfall shall be borne by the Noteholders and no liability shall attach to the Issuer.

4. Physical Settlement

- (a) A Series of Credit Linked Notes for which the Settlement Method is Physical Delivery may only comprise one Note and therefore be issued with a specified denomination and Calculation Amount equal to the Aggregate Principal Amount and these Credit Linked Conditions will be construed accordingly. Condition 18 (*Further Issues*) shall not apply to such Credit Linked Notes.
- (b) If a Credit Event Determination Date has occurred, then where Physical Delivery is specified as the applicable Settlement Method in the relevant Pricing Supplement, the Issuer shall give notice (such notice a "**Notice of Physical Settlement**") to the Noteholders in accordance with Condition 14 (*Notices*), and, subject to these Credit Linked Conditions, in particular Credit Linked Condition 1, redeem each Credit Linked Note by the Delivery of the Deliverable Obligations comprising the Entitlement on or prior to the Credit Settlement Date, subject to and in accordance with the Conditions and these Credit Linked Conditions, unless in the determination of the Issuer in its sole and absolute discretion in its opinion (i) it would not have any Deliverable Obligations to so Deliver or (ii) all of the Deliverable Obligations would be Undeliverable Obligations, in which case the provisions of Credit Linked Condition 2 above shall apply as if Auction Settlement were thereafter the Settlement Method and these Credit Linked Conditions and the relevant Pricing Supplement will be construed accordingly and the Issuer shall redeem the Credit Linked Notes in accordance with Credit Linked Condition 2. Any delay in the delivery of a Notice of Physical Settlement or failure by the Issuer to deliver a Notice of Physical Settlement shall not affect the validity of a Credit Event Determination Date.

In the Notice of Physical Settlement, the Issuer shall specify the Deliverable Obligations comprising the Entitlement that it reasonably expects to Deliver and the Outstanding Principal Balance or Due and Payable Amount, as applicable, or the equivalent amount in the Credit Settlement Currency (in each case the relevant "**Outstanding Amount**") and, if different, the face amount, of each such Deliverable Obligation and the aggregate Outstanding Amount of such Deliverable Obligations (the "**Aggregate Outstanding Amount**"). For the avoidance of doubt, the Issuer shall be entitled to select any of the Deliverable Obligations to constitute the Entitlement, irrespective of their market value.

The Issuer may, from time to time, amend a Notice of Physical Settlement by delivering a notice to Noteholders in accordance with Condition 14 (*Notices*), (each such notification, a "**Physical Settlement Amendment Notice**") that the Issuer is replacing, in whole or in part, one or more Deliverable Obligations specified in the Notice of Physical Settlement or a prior Physical Settlement Amendment Notice, as applicable, (to the extent the relevant Deliverable Obligation has not been Delivered as of the date such Physical Settlement Amendment Notice is effective). A Physical Settlement Amendment Notice shall specify each replacement Deliverable Obligation that the Issuer will Deliver (each, a "**Replacement Deliverable Obligation**") and shall also specify the Outstanding Amount of each Deliverable Obligation identified in the Notice of Physical Settlement or a prior Physical Settlement Amendment Notice, as applicable, that is being replaced (with respect to each such Deliverable Obligation, the "**Replaced Deliverable Obligation Outstanding Amount**"). The Outstanding Amount of each Replacement Deliverable Obligation identified in the Physical Settlement Amendment Notice shall be determined by applying the Revised Currency Rate to the relevant Replaced Deliverable Obligation Outstanding Amount. The Outstanding Amount of the Replacement Deliverable Obligation(s) specified in any Physical Settlement Amendment Notice in aggregate with the Outstanding Amount of the Deliverable Obligation(s) specified in the Notice of Physical Settlement or any earlier Physical Settlement Amendment Notice which, in each case, are not being replaced must not be greater than the Aggregate Outstanding Amount. Each such Physical Settlement Amendment Notice must be effective on or prior to the Credit Settlement Date (determined without reference to any change resulting from such Physical Settlement Amendment Notice). Notwithstanding the foregoing, (i) the Issuer may correct any errors or inconsistencies contained in the Notice of Physical Settlement or any Physical Settlement Amendment Notice, as applicable, by notice to Noteholders in accordance with Condition 14 (*Notices*), prior to the relevant Delivery Date; and (ii) if Asset Package Delivery is applicable, the Issuer shall on the PSN Effective

Date, or as soon as reasonably practicable thereafter (but in any case, prior to the Delivery Date), notify the Noteholders (in accordance with Condition 14 (*Notices*)) of the detailed description of the Asset Package, if any, that the Issuer will Deliver in lieu of the Prior Deliverable Obligation or Package Observable Bond, if any, specified in the Notice of Physical Settlement or Physical Settlement Amendment Notice, as applicable, it being understood in each case that any such notice shall not constitute a Physical Settlement Amendment Notice.

If "Mod R" is specified as applicable in the relevant Pricing Supplement and Restructuring is the only Credit Event specified in a Credit Event Notice, then unless the Deliverable Obligation falls within paragraph (e) of the definition thereof or the Deliverable Obligation or Valuation Obligation, as applicable, is a Prior Deliverable Obligation and Asset Package Delivery applies due to a Governmental Intervention, a Deliverable Obligation may be included in the Entitlement only if it (i) is a Fully Transferable Obligation and (ii) has a final maturity date not later than the applicable Restructuring Maturity Limitation Date, in each case, as of each such date as the Calculation Agent determines relevant for purposes of the Hedging Arrangements or, if none at the relevant time, both the PSN Effective Date and the Delivery Date.

If "Mod Mod R" is specified as applicable in the relevant Pricing Supplement and Restructuring is the only Credit Event specified in a Credit Event Notice, then unless the Deliverable Obligation falls within paragraph (e) of the definition thereof or the Deliverable Obligation is a Prior Deliverable Obligation and Asset Package Delivery applies due to a Governmental Intervention, a Deliverable Obligation may be included in the Entitlement only if it (i) is a Conditionally Transferable Obligation and (ii) has a final maturity date not later than the applicable Modified Restructuring Maturity Limitation Date, in each case, as of each such date as the Calculation Agent determines relevant for purposes of the Hedging Arrangements or, if none at the relevant time, both the PSN Effective Date and the Delivery Date. For the purposes of this paragraph only and notwithstanding the foregoing, in the case of a Restructured Bond or Loan with a final maturity date on or prior to the 10-year Limitation Date, the final maturity date of such Bond or Loan shall be deemed to be the earlier of such final maturity date or the final maturity date of such Bond or Loan immediately prior to the relevant Restructuring.

For the purposes of making a determination pursuant to the two prior paragraphs or the definition of Restructuring Maturity Limitation Date, the final maturity date shall, subject as provided in the prior paragraph, be determined on the basis of the terms of the Deliverable Obligation in effect at the time of making such determination and, in the case of a Deliverable Obligation that is due and payable, the final maturity date shall be deemed to be the date on which such determination is made.

Asset Package Delivery will apply if an Asset Package Credit Event occurs, unless (i) such Asset Package Credit Event occurs prior to the Credit Event Backstop Date determined in respect of the Credit Event specified in the Credit Event Notice or DC Credit Event Announcement applicable to the Credit Event Determination Date, or (ii) if the Reference Entity is a Sovereign, no Package Observable Bond exists immediately prior to such Asset Package Credit Event. Notwithstanding the foregoing, if Sovereign No Asset Package Delivery is specified as applicable in the relevant Pricing Supplement, it shall be deemed that no Package Observable Bond exists with respect to a Reference Entity that is a Sovereign (even if such a Package Observable Bond has been published by ISDA) and accordingly, Asset Package Delivery shall not apply thereto.

Where Asset Package Delivery applies, the Calculation Agent may make any adjustment in relation to provisions for physical delivery and determination of the Entitlement to take account of the relevant Asset Package.

If a Credit Event Determination Date has occurred and the Notes become redeemable in accordance with this Credit Linked Condition 4, upon Delivery of the Deliverable Obligations and/or payment of the Partial Cash Settlement Amounts, as the case may be, the Issuer shall have discharged its obligations in respect of the Notes and shall have no other liability or obligation

whatsoever in respect thereof. The value of such Deliverable Obligations and/or the Partial Cash Settlement Amount, as the case may be, may be less than the nominal amount of a Credit Linked Note. Any shortfall shall be borne by the Noteholders and no liability shall attach to the Issuer.

(c) Terms relating to Physical Delivery

(i) Asset Transfer Notices

In relation to a Credit Linked Note to be redeemed by Delivery of the Entitlement(s), in order to obtain Delivery of the Entitlement in respect of any Note, the relevant Noteholder must:

- (A) if such Note is in global form, deliver to the relevant Clearing System and (in the case of Registered Notes) the Registrar, with a copy to the Principal Paying Agent, the Issuer and any entity appointed by the Issuer to Deliver the Entitlement on its behalf (the "**Delivery Agent**") no later than the close of business in each place of reception on the Cut-off Date, a duly completed asset transfer notice (the "**Asset Transfer Notice**") substantially in the form set out in "Part G – Product Supplement for Credit-Linked Notes" of the Offering Memorandum dated 10 June 2016 prepared by the Issuer in relation to the Programme for the Issuance of Notes and Warrants described therein; and
- (B) if such Note is in definitive form, deliver (i) if such Note is a Bearer Note, to any Paying Agent or (ii) if such Note is a Registered Note, to the Registrar or any Paying Agent, in each case, with a copy to the Principal Paying Agent, the Issuer and the Delivery Agent (as defined above) no later than the close of business in each place of reception on the Cut-Off Date, a duly completed Asset Transfer Notice.

For the purposes hereof, "**Cut-Off Date**" means the date specified as such in the Notice of Physical Settlement or Physical Settlement Amendment Notice, as applicable.

A form of Asset Transfer Notice may be obtained during normal business hours from the specified office of the Registrar or any Paying Agent.

An Asset Transfer Notice may only be delivered (i) if such Note is in global form, in such manner as is acceptable to the relevant Clearing System or (ii) if such Note is in definitive form, in writing.

If a Note is in definitive form, it must be delivered together with the duly completed Asset Transfer Notice.

The Asset Transfer Notice shall:

- (1) specify the name, address and contact telephone number of the relevant Noteholder and the person from whom the Issuer or Delivery Agent may obtain details for the Delivery of the Entitlement;
- (2) specify the series number of the Notes;
- (3) in the case of a Note in global form, specify the number of the Noteholder's account at the relevant Clearing System to be debited with the Note and irrevocably instruct and authorise the relevant Clearing System to debit the relevant Noteholder's account with such Note on or before the Credit Settlement Date;

- (4) include an undertaking to pay all Expenses and, in the case of a Note in global form, an authority to the relevant Clearing System to debit a specified account of the Noteholder with the relevant Clearing System in respect thereof and to pay such Expenses;
- (5) include such details as are required for Delivery of the Entitlement which may include account details and/or the name and address of any person(s) into whose name evidence of the Entitlement is to be registered and/or any bank, broker or agent to whom documents evidencing the Entitlement are to be Delivered and/or any other Delivery instructions and specify the name and number of the Noteholder's account to be credited with any cash payable by the Issuer, (including, where applicable, pursuant to Credit Linked Condition 11, in respect of any cash amount constituting the Entitlement); and
- (6) authorise the production of such certification in any applicable administrative or legal proceedings,

all as provided therein.

(ii) Verification of the Noteholder

In the case of a Note in global form, upon receipt of an Asset Transfer Notice, the relevant Clearing System shall verify that the person delivering the Asset Transfer Notice is the holder of the Note described therein according to its records. Subject thereto, the relevant Clearing System will confirm to the Principal Paying Agent the series number of the Note the subject of such notice, the relevant account details and the details for the Delivery of the Entitlement of such Note. Upon receipt of such confirmation, the Principal Paying Agent will inform the Issuer and any Delivery Agent thereof. The relevant Clearing System will on or before the Credit Settlement Date debit the securities account of the relevant Noteholder with the relevant Note.

(iii) Determination and Delivery

Any determination as to whether an Asset Transfer Notice is duly completed and in proper form shall be made by the relevant Paying Agent or the Registrar, as the case may be, in each case in consultation with the Principal Paying Agent, and shall be conclusive and binding on the Issuer, the Principal Paying Agent, any Delivery Agent and the relevant Noteholder. Subject as set out below, any Asset Transfer Notice so determined to be incomplete or not in proper form, or which is not copied to the Principal Paying Agent, the Issuer and any Delivery Agent immediately after being delivered or sent as provided in paragraph (i) above, shall be null and void.

If such Asset Transfer Notice is subsequently corrected to the satisfaction of, in the case of Notes in global form, the relevant Clearing System, or, in the case of a Note in definitive form, by the relevant Paying Agent or the Registrar, as the case may be, in each case in consultation with the Principal Paying Agent, it shall be deemed to be a new Asset Transfer Notice submitted at the time such correction was delivered as provided above.

The relevant Clearing System or the relevant Registrar or the Paying Agent, as applicable, shall use its reasonable efforts as soon as reasonably practicable to notify the Noteholder submitting an Asset Transfer Notice, if, in consultation with the Principal Paying Agent and the Issuer, it has determined that such Asset Transfer Notice is incomplete or not in proper form. In the absence of negligence or wilful misconduct on its part, none of the Issuer, the Paying Agents, the Registrar or the relevant Clearing System shall be liable to any person with respect to any action taken or omitted to be taken by it in connection with such determination or the notification of such determination to a Noteholder.

No Asset Transfer Notice may be withdrawn after receipt thereof by the relevant Clearing System, the Registrar or a Paying Agent, as the case may be, as provided above. After delivery of an Asset Transfer Notice, the relevant Noteholder may not transfer the Note which is the subject of such notice.

In relation to each Deliverable Obligation comprising an Entitlement the Issuer will Deliver or procure the Delivery of the relevant Deliverable Obligation on or prior to the Credit Settlement Date at the risk of the relevant Noteholder in the manner provided below and **provided that** the Asset Transfer Notice is duly delivered as provided above not later than the close of business in each place of reception on the Cut-Off Date, **provided that** if all or some of the Deliverable Obligations included in such Entitlement are Undeliverable Obligations and/or Hedge Disruption Obligations as of the Credit Settlement Date, then the provisions of Credit Linked Condition 11 below will apply.

If a Noteholder fails to give an Asset Transfer Notice as provided herein with a copy to each relevant party prior to the close of business in each place of reception on the Cut-Off Date, then the Deliverable Obligations comprising the relevant Entitlement will be treated as Hedge Disruption Obligations and the provisions of Credit Linked Condition 11 below will apply.

The Issuer (or any Delivery Agent on its behalf) shall, at the risk of the relevant Noteholder, Deliver (or procure the Delivery) of the Entitlement for a Note, in such commercially reasonable manner as the Calculation Agent shall in its sole discretion determine and notify to the person designated by the Noteholder in the relevant Asset Transfer Notice or in such manner as is specified in the relevant Pricing Supplement. All Expenses shall be for the account of the relevant Noteholder and no Delivery of the Entitlement shall be made until all Expenses have been paid by the relevant Noteholder to the satisfaction of the Issuer.

(iv) General

The Entitlement will be rounded down to the nearest whole unit of the Deliverable Obligation or each of the Deliverable Obligations, as the case may be, in such manner as the Calculation Agent shall determine. Fractions of the Deliverable Obligation or of each of the Deliverable Obligations, as the case may be, will not be delivered and in lieu thereof a cash adjustment calculated by the Calculation Agent in its sole and absolute discretion shall be paid to the Noteholder.

For such period of time after Delivery of the Entitlement and for the Intervening Period, none of the Issuer, the Paying Agents, the Registrar, any Delivery Agent or any other person shall at any time (i) be under any obligation to deliver or procure delivery to any Noteholder any letter, certificate, notice, circular or any other document or, except as provided herein, payment whatsoever received by that person in respect of the securities or obligations included in such Entitlement, (ii) be under any obligation to exercise or procure exercise of any or all rights attaching to such securities or obligations or (iii) be under any liability to a Noteholder in respect of any loss or damage which such Noteholder may sustain or suffer as a result, whether directly or indirectly, of that person being registered during such Intervening Period as legal owner of such securities or obligations.

(d) Rights of Noteholders and calculations

None of the Issuer, the Calculation Agent, any Delivery Agent and the Agents shall have any responsibility for any errors or omissions in any calculation or determination in respect of a Note.

The purchase of a Note does not confer on any holder of such Note any rights (whether in respect of voting, distributions or otherwise) attaching to any Deliverable Obligation.

5. Consequences of a Credit Event Determination Date for Basket Credit Linked Notes

- (a) (1) Basket Credit Linked Notes other than Zero Recovery Index Basket Credit Linked Notes

If a Credit Event Determination Date has occurred in respect of any specified Reference Entity (i) the Issuer shall give notice in each case that a Credit Event Determination Date has occurred (such notice a "Settlement Notice") to the Noteholders in accordance with Condition 14 (*Notices*) and (ii) in respect of each Basket Credit Linked Note:

- (A) the Issuer shall pay as an Instalment Amount for the purposes of Credit Linked Condition 1(a) above an amount equal to the relevant Credit Event Amount (for which purposes, subject as provided below, the Settlement Method shall apply), if any, on the relevant Credit Event Payment Date which will be the relevant Instalment Date;
- (B) the interest calculation basis described in paragraph (b) below will apply; and
- (C) notwithstanding anything to the contrary herein and subject to the following sentence, if on any date on or prior to the Maturity Date the Adjusted Credit Outstanding Nominal Amount is equal to zero, each Credit Linked Note will be redeemed at the final Credit Event Amount on the final Credit Event Payment Date. If such final Credit Event Amount is zero, then the Credit Linked Notes will be cancelled as of the final Credit Event Payment Date, with no payment being due in respect thereof and the Issuer will have no further liability in respect of the Notes.

Unless settlement has occurred in accordance with part (A) above, if the Settlement Method is Auction Settlement and:

- (i) an Auction Cancellation Date occurs;
- (ii) a No Auction Announcement Date occurs (and in circumstances where such No Auction Announcement Date occurs pursuant to paragraphs (b) or (c)(ii) of the definition of No Auction Announcement Date, the Issuer has not exercised the Movement Option);
- (iii) a DC Credit Event Question Dismissal occurs;
- (iv) a Credit Event Determination Date was determined pursuant to paragraph (a)(i) of the definition of Credit Event Determination Date or paragraph (a) of the definition of Non-Standard Credit Event Determination Date and no Credit Event Resolution Request Date has occurred on or prior to the date falling three Business Days after such Credit Event Determination Date; or
- (v) a Calculation Agent Fallback Settlement Determination Date occurs,

then the Fallback Settlement Method shall apply for the purposes of the Credit Event Amount.

For the avoidance of doubt parts (A) and (B) of this provision will apply and part (C) of this provision will continue to apply in relation to each Reference Entity in respect of which a Credit Event Determination Date has occurred.

Any delay in the delivery of a Settlement Notice or failure by the Issuer to deliver a Settlement Notice shall not affect the validity of the Credit Event Determination Date in respect of the affected Reference Entity.

A Credit Event Determination Date may occur more than once except that, subject as provided in Credit Linked Condition 14 and the definition of Credit Event Determination Date in Credit Linked

Condition 13, a Credit Event Notice (if applicable) may only be delivered on one occasion and a Credit Event Determination Date may occur once only, with respect to any Reference Entity (unless subsequent to the occurrence of a Credit Event Determination Date with respect to any Reference Entity, that Reference Entity becomes the Successor to one or more other Reference Entities in respect of which a Credit Event Determination Date has not occurred, in which case a Credit Event Determination Date may occur again).

(2) Zero Recovery Index Basket Credit Linked Notes

If a Credit Event Determination Date has occurred in respect of any specified Reference Entity (i) the Issuer shall give notice in each case that a Credit Event Determination Date has occurred (such notice a "**Settlement Notice**") to the Noteholders in accordance with Condition 14 (*Notices*) (ii) the Adjusted Credit Outstanding Nominal Amount will be reduced as provided therein with no amounts being payable in respect of such reduction and (iii) in respect of each Basket Credit Linked Note:

- (A) the interest calculation basis described in paragraph (b) below will apply; and
- (B) notwithstanding anything to the contrary herein, if on any date on or prior to the Maturity Date the Adjusted Credit Outstanding Nominal Amount is equal to zero, each Credit Linked Note will be cancelled forthwith with no payment being due in respect thereof and the Issuer will have no further liability in respect of the Notes.

For the avoidance of doubt the provisions above will apply, or continue to apply as applicable, in relation to each Reference Entity in respect of which a Credit Event Determination Date has occurred.

Any delay in the delivery of a Settlement Notice or failure by the Issuer to deliver a Settlement Notice shall not affect the validity of the Credit Event Determination Date in respect of the affected Reference Entity.

Credit Linked Condition 12 will not apply to the Credit Linked Notes.

A Credit Event Determination Date may occur more than once except that, subject as provided in Credit Linked Condition 14 and the definition of Credit Event Determination Date in Credit Linked Condition 13, a Credit Event Notice (if applicable) may only be delivered on one occasion and a Credit Event Determination Date may occur once only, with respect to any Reference Entity (unless subsequent to the occurrence of a Credit Event Determination Date with respect to any Reference Entity, that Reference Entity becomes the Successor to one or more other Reference Entities in respect of which a Credit Event Determination Date has not occurred, in which case a Credit Event Determination Date may occur again).

- (b) Each Note will bear interest pursuant to, and in accordance with, Condition 4 (*Fixed Rate Note Provisions*) or Condition 5 (*Floating Rate Note, Index-Linked Note and other variable-linked interest Note Provisions*), as applicable, **provided that** (i) for the purposes of determining the interest amounts payable, the provisions set out in Credit Linked Condition 6 will not apply and instead the Calculation Amount shall be deemed to be each Note's *pro rata* share of the Interest Adjusted Credit Outstanding Nominal Amount in respect of the relevant Interest Period and (ii) without duplication to any adjustment pursuant to the final paragraph of "Credit Event Determination Date" below, if one or more Interest Payment Dates has occurred between the Credit Event Determination Date and its determination, the Issuer may elect in its sole and absolute discretion to instigate the clawback of any overpaid interest in respect of such Interest Payment Date(s).
- (c) The "**Final Redemption Amount**" will be, unless otherwise specified in the relevant Pricing Supplement, an amount calculated by the Calculation Agent equal to a Note's *pro rata* share of the Adjusted Credit Outstanding Nominal Amount as of the Maturity Date. The Final Redemption Amount will be rounded to the nearest sub-unit of the Settlement Currency (half a sub-unit being

rounded upwards). For the avoidance of doubt, if the Adjusted Credit Outstanding Nominal Amount as of the Maturity Date is zero, then the Final Redemption Amount will be zero and no amounts will be payable in respect thereof.

- (d) For the purposes of Basket Credit Linked Notes:

"Adjusted Credit Outstanding Nominal Amount" means, on any date, (i) the Aggregate Principal Amount minus (ii) the aggregate Reference Entity Notional Amounts of Reference Entities in respect of which a Credit Event Determination Date has occurred on or prior to the relevant date minus (iii) the aggregate of (x) any Shortfall Amounts in respect of the aggregate of the Credit Event Amounts in respect of the Notes for each Reference Entity in respect of which a Credit Event Determination Date has occurred on or prior to the relevant date or (y) in the case of Zero Recovery Index Basket Credit Linked Notes, any Unwind Costs in respect of each Credit Event Determination Date that has occurred on or prior to the relevant date, **provided that** in no event shall the Adjusted Credit Outstanding Nominal Amount be less than zero;

"Interest Adjusted Credit Outstanding Nominal Amount" means, in respect of an Interest Period, the arithmetic average of the Adjusted Credit Outstanding Nominal Amounts for each day in such Interest Period, calculated without the deduction of any Shortfall Amounts or Unwind Costs, as applicable; and

"Shortfall Amount" means, in respect of a Credit Event Amount, (a) (i) the relevant Unwind Costs minus (ii) the relevant Recovery Value or, if greater, (b) zero.

If a Credit Event Determination Date occurs the Adjusted Credit Outstanding Nominal Amount will be reduced in accordance with this Credit Linked Condition 5 proportionately to the weighting of the relevant Reference Entity in the portfolio and to reflect the relevant Shortfall Amount or Unwind Costs, as applicable, and in the case of Zero Recovery Index Basket Credit Linked Notes no amounts will be payable to Noteholders in this respect. In the event that the Adjusted Credit Outstanding Nominal Amount is reduced to zero, the Issuer's obligations in respect of the Credit Linked Notes will be discharged (after payment of any Credit Event Amount(s) in the case of Credit Linked Notes other than Zero Recovery Index Basket Credit Linked Notes) and the Issuer will have no further liability in respect of the Notes.

6. Accrual of Interest

Notwithstanding Condition 4(b) (*Accrual of Interest*) and Condition 5(b) (*Accrual of Interest*), as applicable, other than in the case of Basket Credit Linked Notes, where Credit Linked Condition 5(b) will apply, if:

- (i) "Accrual of Interest upon Credit Event" is specified as not applicable in the relevant Pricing Supplement, no interest shall be payable (and accordingly will be deemed not to have accrued) in respect of a Note in respect of which the relevant date for payment thereof (as may be adjusted pursuant to these Credit Linked Conditions) has not occurred on or prior to the Credit Event Determination Date or, if the Credit Event Determination Date falls prior to the first such payment date, no interest shall accrue on the Notes; or
- (ii) "Accrual of Interest upon Credit Event" is specified as applicable in the relevant Pricing Supplement, each Note shall cease to bear interest from the Credit Event Determination Date or, if earlier, the last day of the Interest Period ending on (but excluding) the Scheduled Maturity Date,

Provided That, if:

- (A) (1) Credit Linked Condition 7, Credit Linked Condition 8 or Credit Linked Condition 9 applies in respect of the Notes and, in the case of Credit Linked Condition 7, a Repudiation/Moratorium has not occurred on or prior to the Repudiation/Moratorium Evaluation Date or, in the case of Credit Linked Condition 8, a Failure to Pay has not

occurred on the Grace Period Extension Date or, in the case of Credit Linked Condition 9, a Credit Event has not occurred on or prior to the DC Determination Cut-off Date, as the case may be; and/or

- (2) Credit Linked Condition 10 applies in respect of the Notes and a Credit Event Determination Date or the Repudiation/Moratorium Extension Condition, as applicable, has not occurred or is not satisfied on or prior to the Postponed Cut-off Date,

then interest will accrue as provided in Credit Linked Condition 7, Credit Linked Condition 8, Credit Linked Condition 9 or Credit Linked Condition 10, as the case may be; and

- (B) without duplication to any adjustment pursuant to the final paragraph of "Credit Event Determination Date" below, if one or more Interest Payment Dates has occurred between the Credit Event Determination Date and its determination, the Issuer may elect in its sole and absolute discretion to instigate the clawback of any overpaid Interest Amount(s) paid in respect of such Interest Payment Date(s).

7. Repudiation/Moratorium Extension

If "Repudiation/Moratorium" is specified as a Credit Event in the relevant Pricing Supplement, the provisions of this Credit Linked Condition 7 shall apply.

Where a Credit Event Determination Date has not occurred on or prior to the Scheduled Maturity Date but the Repudiation/Moratorium Extension Condition has been satisfied on or prior to the Scheduled Maturity Date or, if Credit Linked Condition 10(y) applies, the Postponed Cut-off Date and the Repudiation/Moratorium Evaluation Date in respect of such Potential Repudiation Moratorium may, in the sole opinion of the Calculation Agent, fall after the Scheduled Maturity Date, then the Calculation Agent shall notify the Noteholders in accordance with Condition 14 (*Notices*) that a Potential Repudiation/Moratorium has occurred and the maturity of the Notes will be delayed and:

- (a) where (1) a Repudiation/Moratorium has not occurred on or prior to the Repudiation/Moratorium Evaluation Date or (2) a Repudiation/Moratorium has occurred on or prior to the Repudiation/Moratorium Evaluation Date but a Credit Event Determination Date has not occurred:
- (i) each nominal amount of Credit Linked Notes equal to the Calculation Amount will be redeemed by the Issuer at the Final Redemption Amount on the fifth Business Day following the Repudiation/Moratorium Evaluation Date or, if later, the Postponed Cut-off Date; and
- (ii) in the case of interest bearing Credit Linked Notes, the Issuer shall be obliged to pay interest (if any) calculated as provided herein, accruing from (and including) the Interest Payment Date immediately preceding the Scheduled Maturity Date or, if none, the Interest Commencement Date to (but excluding) the Scheduled Maturity Date but shall only be obliged to make such payment of interest on the fifth Business Day following the Repudiation/Moratorium Evaluation Date or, if later, the Postponed Cut-off Date and no further or other amount in respect of interest shall be payable and no additional amount shall be payable in respect of such delay; or

Any failure to provide notice of any such delay to Noteholders will not constitute an Event of Default under the Notes and will not affect the validity of any of the above provisions.

8. Grace Period Extension

If "Grace Period Extension" is specified as applicable in the relevant Pricing Supplement, the provisions of this Credit Linked Condition 8 shall apply.

Where a Credit Event Determination Date has not occurred on or prior to the Scheduled Maturity Date but, in the determination of the Calculation Agent, a Potential Failure to Pay has occurred with respect to one or more Obligation(s) in respect of which a Grace Period is applicable on or prior to the Scheduled Maturity Date (and such Grace Period(s) is/are continuing as at the Scheduled Maturity Date), then the Calculation Agent shall notify the Noteholders in accordance with Condition 14 (*Notices*) that a Potential Failure to Pay has occurred and the maturity of the Notes will be delayed and:

- (a) where (1) a Failure to Pay has not occurred on the Grace Period Extension Date or (2) a Failure to Pay has occurred on the Grace Period Extension Date but a Credit Event Determination Date has not occurred:

9. Credit Derivatives Determinations Committee Extension

If, in the determination of the Calculation Agent, a Potential Credit Event has occurred and following a Credit Event Resolution Request Date the Credit Derivatives Determinations Committee has not made its determination on or prior to the Scheduled Maturity Date or any Interest Payment Date then the Calculation Agent shall notify Noteholders in accordance with Condition 14 (*Notices*) that the Maturity Date or the relevant interest payment has been postponed to a date (the "**DC Determination Postponed Date**") being the day falling five Business Days after (a) if the Credit Derivatives Determinations Committee Resolves that a Credit Event has occurred, fifteen (15) Business Days following the relevant DC Credit Event Announcement or (b) if the Credit Derivatives Determinations Committee Resolves that a Credit Event has not occurred, the second Business Day following the relevant DC No Credit Event Announcement or, as applicable, (c) fifteen (15) Business Days following the DC Credit Event Question Dismissal (the date of the relevant DC Credit Event Announcement, DC No Credit Event Announcement or DC Credit Event Dismissal, as applicable, the "**DC Determination Cut-off Date**"), and:

In this case where (i) a Credit Event has not occurred on or prior to the DC Determination Cut-off Date then the relevant amount of interest shall be payable on the relevant DC Determination Postponed Date but no additional interest will be payable in respect of the relevant delay and for the avoidance of doubt no amendment will be made to any Interest Period or basis of calculation of the relevant amount of interest, other than as described above; or (ii) where a Credit Event has occurred on or prior to the DC Determination Cut-off Date and a Credit Event Determination Date has occurred thereafter, the relevant amount of interest will be adjusted accordingly and may be zero and (if any) will be payable on the relevant DC Determination Postponed Date.

where:

- (a) in the case of Credit Linked Condition 10(x), a Credit Event Determination Date has not occurred on or prior to the Postponed Cut-off Date or, in the case of Credit Linked Condition 10(y), the Repudiation/Moratorium Extension Condition is not satisfied on or prior to the Postponed Cut-off Date:

"Postponed Maturity Date" means the fifth (5th) Business Day after the Postponed Cut-off Date.

11. Partial Cash Settlement

If all or a portion of the Obligations comprising the Entitlement are Undeliverable Obligations and/or Hedge Disruption Obligations, the Issuer shall give notice (a **"Partial Cash Settlement Notice"**) to the Noteholders in accordance with Condition 14 (*Notices*) and the Issuer shall pay in respect of each Undeliverable Obligation and/or Hedge Disruption Obligation, as the case may be, the Partial Cash Settlement Amount on the Partial Cash Settlement Date. Any failure to provide a Partial Cash Settlement Notice will not constitute an Event of Default under the Notes and will not affect the validity of any of the foregoing provisions.

In the Partial Cash Settlement Notice, the Issuer must give details of why it is unable to deliver the relevant Undeliverable Obligations or Hedge Disruption Obligation, as the case may be.

Unless otherwise specified in the relevant Pricing Supplement, for the purposes of this Credit Linked Condition 11 only the following terms shall be defined as follows and such definitions will apply notwithstanding other definitions of such terms in Credit Linked Condition 13:

"Indicative Quotation" means, in accordance with the Quotation Method, each quotation obtained from a Quotation Dealer at the Valuation Time for (to the extent reasonably practicable) an amount of the Undeliverable Obligation or Hedge Disruption Obligations, as the case may be, equal to the Quotation

Amount, which reflects such Quotation Dealer's reasonable assessment of the price of such Undeliverable Obligation or Hedge Disruption Obligation, as the case may be, based on such factors as such Quotation Dealer may consider relevant, which may include historical prices and recovery rates.

"Market Value" means, with respect to an Undeliverable Obligation or Hedge Disruption Obligation, as the case may be, on a Valuation Date, (i) if more than three Full Quotations are obtained, the arithmetic mean of such Full Quotations, disregarding the Full Quotations having the highest and lowest values (and, if more than one such Full Quotations have the same highest or lowest value, then one of such highest or lowest Full Quotations shall be disregarded); (ii) if exactly three Full Quotations are obtained, the Full Quotation remaining after disregarding the highest and lowest Full Quotations (and, if more than one such Full Quotations have the same highest value or lowest value, then one of such highest or lowest Full Quotations shall be disregarded); (iii) if exactly two Full Quotations are obtained, the arithmetic mean of such Full Quotations; (iv) if fewer than two Full Quotations are obtained and a Weighted Average Quotation is obtained, such Weighted Average Quotation; (v) if Indicative Quotations are specified as applying in the relevant Pricing Supplement and exactly three Indicative Quotations are obtained, the Indicative Quotation remaining after disregarding the highest and lowest Indicative Quotations (and, if more than one such Indicative Quotations have the same highest or lowest value, then one of such highest or lowest Indicative Quotations shall be disregarded); (vi) if fewer than two Full Quotations are obtained and no Weighted Average Quotation is obtained (and, if Indicative Quotations are applicable, fewer than three Indicative Quotations are obtained) then, subject to paragraph (b) of the definition of "Quotation" below, an amount as determined by the Calculation Agent on the next Business Day on which at least two Full Quotations or a Weighted Average Quotation or, if applicable, three Indicative Quotations are obtained; and (vii) if fewer than two Full Quotations are obtained and no Weighted Average Quotation is obtained (and, if Indicative Quotations are applicable, fewer than three Indicative Quotations are obtained) on the same Business Day on or prior to the tenth Business Day following the Valuation Date the Market Value shall be any Full Quotation obtained from a Quotation Dealer at the Valuation Time on such tenth Business Day or, if no Full Quotation is obtained, the weighted average of any firm quotations (or, if applicable, Indicative Quotations) for the Undeliverable Obligation or Hedge Disruption Obligation, as the case may be, obtained from Quotation Dealers at the Valuation Time on such tenth Business Day with respect to the aggregate portion of the Quotation Amount for which such quotations were obtained and a quotation deemed to be zero for the balance of the Quotation Amount for which firm quotations (or, if applicable, Indicative Quotations) were not obtained on such day.

"Partial Cash Settlement Amount" is deemed to be, for an Undeliverable Obligation or a Hedge Disruption Obligation, as the case may be, an amount calculated by the Calculation Agent equal to the greater of:

- (i) (A) the Outstanding Principal Balance, the Due and Payable Amount or the Currency Amount, as applicable, of each Undeliverable Obligation or Hedge Disruption Obligation, as the case may be; multiplied by
 - (B) (x) the Final Price with respect to such Undeliverable Obligation or Hedge Disruption Obligation, determined as provided in this Credit Linked Condition or (y) in the case of a Hedge Disruption Obligation, if a Hedging Auction has been held on or prior to the Credit Settlement Date, the Hedging Auction Final Price; less if applicable
 - (C) Unwind Costs, if any (but excluding any Unwind Costs already taken into account in calculating the relevant Entitlement); less
 - (D) Expenses, if any (but excluding any Expenses already taken into account in calculating the relevant Entitlement); and
- (ii) zero,

provided that where the relevant Undeliverable Obligation or Hedge Disruption Obligation forms part of the Asset Package and (in the case of (x) above) the Calculation Agent determines in its sole discretion that a Final Price cannot reasonably be determined in respect of such Undeliverable Obligation or Hedge Disruption

Obligation, then the Partial Cash Settlement Amount will be an amount calculated by the Calculation Agent in its sole discretion equal to the fair market value of the relevant Undeliverable Obligation or Hedge Disruption Obligation less Unwind Costs if any (but excluding any Unwind Costs already taken into account in calculating the relevant Entitlement) and less Expenses, if any (but excluding any Expenses already taken into account in calculating the relevant Entitlement).

"Partial Cash Settlement Date" is deemed to be the date falling five Business Days after the calculation of the Final Price or, if the Hedging Auction Final Price applies, the Credit Settlement Date.

"Quotation" means each Full Quotation, the Weighted Average Quotation and, if Indicative Quotations are specified as applying in the relevant Pricing Supplement, each Indicative Quotation obtained and expressed as a percentage of the Outstanding Principal Balance or Due and Payable Amount, as applicable, of the relevant Undeliverable Obligation or Hedge Disruption Obligation with respect to a Valuation Date in the manner that follows:

- (a) The Calculation Agent shall attempt to obtain Full Quotations with respect to each Valuation Date from five or more Quotation Dealers. If the Calculation Agent is unable to obtain two or more such Full Quotations on the same Business Day within three Business Days of a Valuation Date, then on the next following Business Day (and, if necessary, on each Business Day thereafter until the tenth Business Day following the relevant Valuation Date) the Calculation Agent shall attempt to obtain Full Quotations from five or more Quotation Dealers, and, if two or more Full Quotations are not available, a Weighted Average Quotation. If two or more such Full Quotations or a Weighted Average Quotation are not available on any such Business Day and Indicative Quotations are specified as applying in the relevant Pricing Supplement, the Calculation Agent shall attempt to obtain three Indicative Quotations from five or more Quotation Dealers.
- (b) If the Calculation Agent is unable to obtain two or more Full Quotations or a Weighted Average Quotation (or, if Indicative Quotations are specified as applying in the relevant Pricing Supplement, three Indicative Quotations) on the same Business Day on or prior to the tenth Business Day following the Valuation Date, the Quotations shall be deemed to be any Full Quotation obtained from a Quotation Dealer at the Valuation Time on such tenth Business Day or, if no Full Quotation is obtained, the weighted average of any firm quotations (or, if applicable, Indicative Quotations) for the Undeliverable Obligation or the Hedge Disruption Obligation, as the case may be, obtained from Quotation Dealers at the Valuation Time on such tenth Business Day with respect to the aggregate portion of the Quotation Amount for which such quotations were obtained and a quotation deemed to be zero for the balance of the Quotation Amount for which firm quotations (or, if applicable, Indicative Quotations) were not obtained on such day.
- (c) The Calculation Agent shall determine, based on the then current market practice in the market of the relevant Undeliverable Obligation or Hedge Disruption Obligations, as the case may be, whether such Quotations shall include or exclude accrued but unpaid interest. All Quotations shall be obtained in accordance with this determination.

"Quotation Amount" is deemed to be, with respect to each type or issue of Undeliverable Obligation or Hedge Disruption Obligation, as the case may be, an amount equal to at least the Outstanding Principal Balance or Due and Payable Amount (or, in either case, its equivalent in the relevant Obligation Currency converted by the Calculation Agent by reference to exchange rates in effect at the time that the relevant Quotation is being obtained), as applicable, of such Undeliverable Obligation or Hedge Disruption Obligations, as the case may be.

"Quotation Method" is deemed to be Bid.

"Valuation Date" is the fifth Business Day following the Credit Settlement Date.

"**Valuation Obligation**" is deemed to be each Undeliverable Obligation or Hedge Disruption Obligation, as the case may be.

"**Valuation Time**" is the time specified as such in the relevant Pricing Supplement, or, if no time is so specified, 11:00 a.m. in the principal trading market for the Undeliverable Obligation or the Hedge Disruption Obligation, as the case may be.

"**Weighted Average Quotation**" means, in accordance with the Quotation Method, the weighted average of firm quotations obtained from Quotation Dealers at the Valuation Time, to the extent reasonably practicable, each for an amount of the Undeliverable Obligation or the Hedge Disruption Obligation, as the case may be, with an Outstanding Principal Balance or Due and Payable Amount, as applicable, of as large a size as available but less than the Quotation Amount that in aggregate are approximately equal to the Quotation Amount.

- (e) If a Substitution Event has occurred with respect to the Non-Standard Reference Obligation and the Calculation Agent determines that no Substitute Reference Obligation is available for the Non-Standard Reference Obligation then, subject to paragraph (a) above and notwithstanding the fact that the Non-Standard Reference Obligation may have ceased to be the Reference Obligation in accordance with paragraph (b) above, the Calculation Agent shall continue to attempt to identify the Substitute Reference Obligation.

If an event described in paragraphs (a) or (b)(i) above has occurred on or prior to the Trade Date, then a Substitution Event shall be deemed to have occurred pursuant to paragraphs (a) or (b)(i) above as the case may be, on the Trade Date.

"Successor" means:

- (a) subject to paragraph (b) below, the entity or entities, if any, determined as follows:

 - (iii) if more than one entity each succeeds directly as a provider of a Relevant Guarantee, to more than twenty-five per cent. of the Relevant Obligations of the Reference Entity, and not more than twenty-five per cent. of the Relevant Obligations of the Reference Entity remain with the Reference Entity, the entities that succeed to more than twenty-five per cent. of the Relevant Obligations will each be a Successor and the Base Conditions and/or the relevant Pricing Supplement will be adjusted as provided below;
 - (iv) if one or more entity each succeed directly as a provider of a Relevant Guarantee, to more than twenty-five per cent. of the Relevant Obligations of the Reference Entity, and more than twenty-five per cent. of the Relevant Obligations of the Reference Entity remain with the Reference Entity, each such entity and the Reference Entity will each be a Successor and the Base Conditions and/or the relevant Pricing Supplement will be adjusted as provided below;
 - (v) if one or more entities succeed directly as a provider of a Relevant Guarantee, to a portion of the Relevant Obligations of the Reference Entity, but no entity succeeds to more than twenty-five per cent. of the Relevant Obligations of the Reference Entity and the Reference Entity continues to exist, there will be no Successor and the Reference Entity will not be changed in any way as a result of such succession;
 - (vi) if one or more entities succeed, either directly or indirectly, as a provider of a Relevant Guarantee, to a portion of the Relevant Obligations of the Reference Entity, but no entity succeeds to more than twenty-five per cent. of the Relevant Obligations of the Reference Entity and the Reference Entity ceases to exist, the entity which succeeds to the greatest percentage of Relevant Obligations will be the Successor (**provided that** if two or more entities succeed to an equal percentage of Relevant Obligations, each such entity will be a Successor and the Base Conditions and/or the relevant Pricing Supplement will be adjusted as provided below); and
 - (vii) in respect of a Reference Entity which is not a Sovereign, if one entity assumes all of the obligations (including at least one Relevant Obligation) of the Reference Entity, and at the time of the determination either (A) the Reference Entity has ceased to exist, or (B) the Reference Entity is in the process of being dissolved (howsoever described) and the Reference Entity has not issued or incurred any Borrowed Money obligation at any time since the legally effective date of the assumption, such entity (the "**Universal Successor**") will be the sole Successor; and
- (b) an entity may only be a Successor if:
- (i) either (A) the related Succession Date occurs on or after the Successor Backstop Date, or (B) such entity is a Universal Successor in respect of which the Succession Date occurred on or after 1 January 2014;
 - (ii) the Reference Entity had at least one Relevant Obligation outstanding immediately prior to the Succession Date and such entity succeeds to all or part of at least one Relevant Obligation of the Reference Entity; and

The Calculation Agent will be responsible for determining, as soon as reasonably practicable after delivery of a Successor Notice and with effect from the Succession Date, any Successor or Successors under paragraph (a) above, **provided that** the Calculation Agent will not make any such determination if, at the time of determination, the DC Secretary has publicly announced that the relevant Credit Derivatives Determinations Committee has Resolved that there is no Successor based on the relevant succession to Relevant Obligations.

The Calculation Agent may, if it determines appropriate, select an alternative Transaction Type for any Successor to a Reference Entity and adjust such of the Base Conditions and/or the relevant Pricing Supplement as it determines appropriate to reflect such new Transaction Type and determine the effective date of any such change and adjustment. The Calculation Agent shall be deemed to be acting in a commercially reasonable manner if any such Transaction Type and adjustment reflects any adjustment to any credit derivative transaction(s) related to or underlying the Credit Linked Notes incorporating the provisions of the 2014 ISDA Credit Derivatives Definitions (the "**2014 Definitions**"). Upon the Calculation Agent making such adjustment, the Issuer shall give notice as soon as practicable to Noteholders in accordance with Condition 14 (*Notices*) stating the new Transaction Type and the adjustment to the Base Conditions and/or the relevant Pricing Supplement (if any). For the avoidance of doubt any failure to provide such a notice to Noteholders will not constitute an Event of Default under the Notes and will not affect the validity of any of the foregoing provisions.

The Calculation Agent will make all calculations and determinations required to be made under this definition of Successor on the basis of Eligible Information and will, as soon as practicable after such calculation or determination, make such calculation or determination available for inspection by Noteholders at the specified office of the Principal Paying Agent. In calculating the percentages used to determine whether an entity qualifies as a Successor under paragraph (a) above, if there is a Steps Plan, the Calculation Agent shall consider all related successions in respect of such Steps Plan in aggregate as if forming part of a single succession.

Where pursuant to paragraph (a)(iii), (a)(iv) or (a)(vi) above, more than one Successor has been identified, the Calculation Agent shall adjust such of the Base Conditions and/or the relevant Pricing Supplement as it shall determine to be appropriate (including, without limitation, the Reference Entity Notional Amount and (if applicable) the Transaction Type) to reflect that the Reference Entity has been succeeded by more than one Successor and shall determine the effective date of that adjustment. The Calculation Agent shall be deemed to be acting in a commercially reasonable manner if it adjusts such of the Base Conditions and/or the relevant Pricing Supplement in such a manner as to reflect the adjustment to and/or division of any credit derivative transaction(s) related to or underlying the Credit Linked Notes under the provisions of the 2014 Definitions.

Upon the Calculation Agent making such adjustment, the Issuer shall give notice as soon as practicable to Noteholders in accordance with Condition 14 (*Notices*) stating the adjustment to the Base Conditions and/or the relevant Pricing Supplement and giving brief details of the relevant Successor event. For the avoidance of doubt any failure to provide such a notice to Noteholders will not constitute an Event of Default under the Notes and will not affect the validity of any of the foregoing provisions.

If two or more entities (each, a "**Joint Potential Successor**") jointly succeed to a Relevant Obligation (the "**Joint Relevant Obligation**") either directly or as a provider of a Relevant Guarantee, then (i) if the Joint Relevant Obligation was a direct obligation of the Reference Entity, it shall be treated as having been succeeded to by the Joint Potential Successor (or Joint Potential Successors, in equal parts) which succeeded to such Joint Relevant Obligation as direct obligor or obligors, or (ii) if the Joint Relevant Obligation was a Relevant Guarantee, it shall be treated as having been succeeded to by the Joint Potential Successor (or Joint Potential Successors, in equal parts) which succeeded to such Joint Relevant Obligation as guarantor or guarantors, if any, or otherwise by each Joint Potential Successor in equal parts.

For the purposes of this definition of "Successor", "**succeed**" means, with respect to the Reference Entity and its Relevant Obligations, that an entity other than the Reference Entity (i) assumes or becomes liable for such Relevant Obligations whether by operation of law or pursuant to any agreement (including, with respect to a Reference Entity that is a Sovereign, any protocol, treaty, convention, accord, concord, entente, pact or other

For purposes of this definition of "Successor", "succeeded" and "succession" shall be construed accordingly. In the case of an exchange offer, the determinations required pursuant to paragraph (a) of this definition of "Successor" shall be made on the basis of the outstanding principal balance of Relevant Obligations exchanged and not on the basis of the outstanding principal balance of the Exchange Bonds or Loans.

Notwithstanding the provisions above and sub-paragraph (b) of the definition of Reference Entity, where a Reference Entity is determined as a Successor to another Reference Entity pursuant to the above provisions, then it will be deemed to be a Reference Entity only once hereunder, and from and including the date of such determination the Reference Entity Notional Amount with respect to such Reference Entity will be the sum of the Reference Entity Notional Amounts that would otherwise be applicable to it.

The Transaction Auction Settlement Terms for purposes of the Credit Linked Notes shall be the relevant form of Credit Derivatives Auction Settlement Terms for which the Reference Transaction would be an Auction Covered Transaction (as such term will be set out in the relevant Credit Derivatives Auction Settlement Terms). - (5) "**Maximum Maturity**" means an obligation that has a remaining maturity of not greater than the period specified in the relevant Pricing Supplement (or if no such period is specified, thirty years);
- (6) "**Accelerated or Matured**" means an obligation under which the principal amount owed, whether by reason of maturity, acceleration, termination or otherwise, is due and payable in full in accordance with the terms of such obligation, or would have been but for, and without regard to, any limitation imposed under any applicable insolvency laws; and
- (7) "**Not Bearer**" means any obligation that is not a bearer instrument unless interests with respect to such bearer instrument are cleared via Euroclear, Clearstream International or any other internationally recognised clearing system.

(ii) *Interpretation of Provisions*

- (A) If (i) any of the Valuation Obligation Characteristics "Listed", "Not Domestic Issuance" or "Not Bearer" is specified in the relevant Pricing Supplement, the relevant Pricing Supplement shall be construed as though such Valuation Obligation Characteristic had been specified as a Valuation Obligation Characteristic only with respect to Bonds; (ii) the Valuation Obligation Characteristic "Transferable" is specified in the relevant Pricing Supplement, the relevant Pricing Supplement shall be construed as though such Valuation Obligation Characteristic had been specified as a Valuation Obligation Characteristic only with respect to Valuation Obligations that are not Loans; or (iii) any of the Valuation Obligation Characteristics "Assignable Loan", "Consent Required Loan" or "Direct Loan Participation" is specified in the relevant Pricing Supplement, the relevant Pricing Supplement shall be construed as though such Valuation Obligation Characteristic had been specified as a Valuation Obligation Characteristic only with respect to Loans.
- (B) If more than one of "Assignable Loan", "Consent Required Loan" and "Direct Loan Participation" are specified as Valuation Obligation Characteristics in the relevant Pricing Supplement, the Valuation Obligations may include any Loan that satisfies any one of such Valuation Obligation Characteristics specified and need not satisfy all such Valuation Obligation Characteristics.
- (C) If a Valuation Obligation is a Relevant Guarantee, the following will apply:
- (1) for purposes of the application of the Valuation Obligation Category, the Relevant Guarantee shall be deemed to satisfy the same category or categories as those that describe the Underlying Obligation;
- (2) for purposes of the application of the Valuation Obligation Characteristics, both the Relevant Guarantee and the Underlying Obligation must satisfy on the relevant date or dates each of the applicable Valuation Obligation Characteristics, if any, specified in the relevant Pricing Supplement from the

following list: "Not Subordinated", "Specified Currency", "Not Sovereign Lender", "Not Domestic Currency" and "Not Domestic Law";

- (3) for purposes of the application of the Valuation Obligation Characteristics, only the Underlying Obligation must satisfy on the relevant date or dates each of the applicable Valuation Obligation Characteristics, if any, specified in the relevant Pricing Supplement from the following list: "Listed", "Not Domestic Issuance", "Assignable Loan", "Consent Required Loan", "Direct Loan Participation", "Transferable", "Maximum Maturity", "Accelerated" or "Matured" and "Not Bearer";
 - (4) for purposes of the application of the Valuation Obligation Characteristics to an Underlying Obligation, references to the Reference Entity shall be deemed to refer to the Underlying Obligor;
- (D) For purposes of the application of the Valuation Obligation Characteristic "Maximum Maturity", remaining maturity shall be determined on the basis of the terms of the Valuation Obligation in effect at the time of making such determination and, in the case of a Valuation Obligation that is due and payable, the remaining maturity shall be zero;
- (E) If "Financial Reference Entity Terms" and "Governmental Intervention" are specified as applicable in the relevant Pricing Supplement, if an obligation would otherwise satisfy a particular Valuation Obligation Characteristic, the existence of any terms in the relevant obligation in effect at the time of making the determination which permit the Reference Entity's obligations to be altered, discharged, released or suspended in circumstances which would constitute a Governmental Intervention, shall not cause such obligation to fail to satisfy such Valuation Obligation Characteristic;
- (F) For purposes of determining the applicability of Valuation Obligation Characteristics and the requirements specified in the paragraphs commencing "If "Mod R"..." and "If "Mod Mod R"..." below to a Prior Deliverable Obligation or a Package Observable Bond, any such determination shall be made by reference to the terms of the relevant obligation in effect immediately prior to the Asset Package Credit Event; and
- (G) If "Subordinated European Insurance Terms" is specified as applicable in the relevant Pricing Supplement, if an obligation would otherwise satisfy the "Maximum Maturity" Valuation Obligation Characteristic, the existence of any Solvency Capital Provisions in such obligation shall not cause it to fail to satisfy such Valuation Obligation Characteristic.

If "Mod R" is specified as applicable in the relevant Pricing Supplement and Restructuring is the only Credit Event specified in a Credit Event Notice, then unless the Valuation Obligation is a Prior Deliverable Obligation and Asset Package Delivery applies due to a Governmental Intervention, a Valuation Obligation may be specified in a Valuation Obligation Notification only if it (i) is a Fully Transferable Obligation and (ii) has a final maturity date not later than the applicable Restructuring Maturity Limitation Date, in each case, as of each such date as the Calculation Agent determines relevant for purposes of the Hedging Arrangements or, if none at the relevant time, the date of delivery of the Valuation Obligation Notification.

If "Mod Mod R" is specified as applicable in the relevant Pricing Supplement and Restructuring is the only Credit Event specified in a Credit Event Notice, then unless the Valuation Obligation is a Prior Deliverable Obligation and Asset Package Delivery applies due to a Governmental Intervention, a Valuation Obligation may be specified in a Valuation Obligation Notification only if it (i) is a Conditionally Transferable Obligation and (ii) has a final maturity date not later than the applicable Modified Restructuring Maturity Limitation Date, in each case, as of each such date as the Calculation Agent determines relevant for purposes of the Hedging Arrangements or, if none at the relevant time, the date of delivery of the Valuation Obligation Notification.

For the purposes of this paragraph only and notwithstanding the foregoing, in the case of a Restructured Bond or Loan with a final maturity date on or prior to the 10-year Limitation Date, the final maturity date of such Bond or Loan shall be deemed to be the earlier of such final maturity date or the final maturity date of such Bond or Loan immediately prior to the relevant Restructuring.

For the purposes of making a determination pursuant to the two prior paragraphs or the definition of Restructuring Maturity Limitation Date, the final maturity date shall, subject as provided in the prior paragraph, be determined on the basis of the terms of the Valuation Obligation in effect at the time of making such determination and, in the case of a Valuation Obligation that is due and payable, the final maturity date shall be deemed to be the date on which such determination is made.

Asset Package Delivery will apply if an Asset Package Credit Event occurs, unless (i) such Asset Package Credit Event occurs prior to the Credit Event Backstop Date determined in respect of the Credit Event specified in the Credit Event Notice or DC Credit Event Announcement applicable to the Credit Event Determination Date, or (ii) if the Reference Entity is a Sovereign, no Package Observable Bond exists immediately prior to such Asset Package Credit Event. Notwithstanding the foregoing, if Sovereign No Asset Package Delivery is specified as applicable in the relevant Pricing Supplement, it shall be deemed that no Package Observable Bond exists with respect to a Reference Entity that is a Sovereign (even if such a Package Observable Bond has been published by ISDA) and accordingly, Asset Package Delivery shall not apply thereto.

The Valuation Obligation Notification shall describe the selected Valuation Obligation(s) in reasonable detail and shall specify the relevant title(s) or designation(s), maturity date(s) and coupon rate(s) and, unless the Quotation Amount is specified in the relevant Pricing Supplement, the applicable Quotation Amount in respect of each such Valuation Obligation (**Provided That** the aggregate of the Quotation Amounts in respect of the Valuation Obligations shall not exceed the relevant Reference Entity Notional Amount). The Issuer may at any time after delivering a Valuation Obligation Notification but prior to the Valuation Time on the Valuation Date deliver a further Valuation Obligation Notification which shall replace all prior Valuation Obligation Notifications in relation to any additional or replacement Valuation Obligation(s) specified therein.

For the avoidance of doubt the Issuer shall be entitled to select any Valuation Obligations for the purposes of calculating the Final Price irrespective of their market value and, **provided that** (in the case of a Valuation Obligation selected pursuant to sub-paragraph (a) above) the selected obligation satisfies the applicable Valuation Obligation Category and Valuation Obligation Characteristics on the relevant date, such obligation(s) may constitute the Valuation Obligation(s) for the purposes hereof notwithstanding that this is not the case subsequent to such date.

"Valuation Time" means the time specified as such in the relevant Pricing Supplement or, if no time is so specified, 11.00 a.m. in the principal trading market for the Valuation Obligation.

"Weighted Average Quotation" means in accordance with the Quotation Method, the weighted average of firm quotations obtained from Quotation Dealers at the Valuation Time, to the extent reasonably practicable, each for an amount of the Valuation Obligation with an Outstanding Principal Balance or Due and Payable Amount, as applicable, of as large a size as available but less than the Quotation Amount (but, of a size at least equal to the Minimum Quotation Amount) that in aggregate are approximately equal to the Quotation Amount.

"Zero Recovery Index Basket Credit Linked Notes" means Index Basket Credit Linked Notes for which the Settlement Method is Zero Recovery.

14. **Credit Event Notice after Restructuring Credit Event**

Notwithstanding anything to the contrary in these Credit Linked Conditions, upon the occurrence of an M(M)R Restructuring:

- (a) The Calculation Agent may deliver multiple Credit Event Notices in respect of such M(M)R Restructuring, each such Credit Event Notice setting forth an amount of the relevant Reference Entity Notional Amount to which such Restructuring Credit Event applies (the "**Partial Redemption Amount**") that may be less than the Reference Entity Notional Amount immediately prior to the delivery of such Credit Event Notice. In such circumstances the Credit Linked Conditions and related provisions shall be deemed to apply to the Partial Redemption Amount only and each such Credit Linked Note shall be redeemed in part (such redeemed part being equal to the Partial Redemption Amount).
- (b) For the avoidance of doubt (A) the nominal amount of each Credit Linked Note not so redeemed in part shall remain outstanding, the Reference Entity Notional Amount shall be reduced by the Partial Redemption Amount and interest shall accrue in respect of each Credit Linked Note as provided in Condition 4 (*Fixed Rate Note Provisions*) or Condition 5 (*Floating Rate Note, Index-Linked Note and other variable-linked interest Note Provisions*), and Credit Linked Condition 5(b), as applicable, (adjusted in such manner as the Calculation Agent determines to be appropriate), (B) the Credit Linked Conditions and related provisions shall apply to such Credit Linked Note in the event that subsequent Credit Event Notices are delivered in respect of the Reference Entity that was the subject of the Restructuring Credit Event and (C) if, following a Restructuring Credit Event, different Credit Event Determination Dates have been determined with respect to different portions of amounts payable or deliverable to Noteholders under the relevant Series, the Calculation Agent will (x) determine such adjustment(s) to the Base Conditions as may be required to achieve as far as practicable the same economic effect as if each such portion was a separate series or otherwise reflect or account for the effect of the above provisions of this Credit Linked Condition 14 and (y) the effective date of such adjustment(s).
- (c) If the provisions of this Credit Linked Condition 14(c) apply in respect of the Credit Linked Notes, on redemption of part of each such Credit Linked Note the relevant Credit Linked Note or, if the Credit Linked Notes are represented by a Global Note, such Global Note, shall be endorsed to reflect such part redemption.

15. Provisions relating to Multiple Holder Obligation

Unless this Credit Linked Condition 15 is specified as not applicable in the relevant Pricing Supplement, then, notwithstanding anything to the contrary in the definition of Restructuring and related provisions, the occurrence of, agreement to, or announcement of, any of the events described in sub-paragraphs (a) to (e) of the definition of "**Restructuring**" shall not be a Restructuring unless the Obligation in respect of any such events is a Multiple Holder Obligation.

"**Multiple Holder Obligation**" means an Obligation that (i) at the time of the event which constitutes a Restructuring Credit Event is held by more than three holders that are not Affiliates of each other and (ii) with respect to which a percentage of holders (determined pursuant to the terms of the Obligation as in effect on the date of such event) at least equal to sixty-six and two-thirds is required to consent to the event which constitutes a Restructuring Credit Event, **provided that** any Obligation that is a Bond shall be deemed to satisfy the requirement in paragraph (ii).

16. Calculation Agent, Calculation Agent Notices and Timings

- (a) Whenever any state of affairs, circumstance, event or other matter falls to be determined, considered or otherwise decided upon, or any discretion is required to be exercised, by the Calculation Agent or any other person (including where a matter is to be decided by reference to the Calculation Agent's or such other person's opinion), unless otherwise stated, that matter shall be determined, considered or otherwise decided upon, or that discretion shall be exercised, by the Calculation Agent or such other person, as the case may be, acting in its sole and absolute discretion and shall in the absence of manifest error) be final and binding on the Issuer and the Noteholders. Whenever the Calculation Agent is required to make any determination it may, *inter alia*, decide issues of construction and legal

interpretation. Any delay, deferral or forbearance by the Calculation Agent in the performance or exercise of any of its obligations or its discretion under the Notes including, without limitation, the giving of any notice by it to any person, shall not affect the validity or binding nature of any later performance or exercise of such obligation or discretion. Neither the Calculation Agent nor the Issuer shall be liable for any loss, liability, cost, claim, action, demand or expense (including without limitation, all costs, charges and expenses paid or incurred in disputing or defending any of the foregoing) arising out of or in relation to or in connection with the Calculation Agent's appointment or the exercise of its functions (including, without limitation, any such delay, deferral or forbearance), except in the case of the Calculation Agent such as may result from its own wilful default, negligence or bad faith or that of its officers or agents.

- (b) Any notice to be delivered by the Calculation Agent to the Issuer pursuant to these Credit Linked Conditions may be given in writing (including by facsimile and/or email) and/or by telephone. Any such notice will be effective when given, regardless of the form in which it is delivered. A notice given by telephone will be deemed to have been delivered at the time the telephone conversation takes place. If the notice is delivered by telephone, a written confirmation will be executed and delivered confirming the substance of that notice within one Calculation Agent City Business Day of that notice. Failure to provide that written confirmation will not affect the effectiveness of that telephonic notice.
- (c) Any notice to be delivered by the Issuer to the Calculation Agent pursuant to these Credit Linked Conditions may be given in writing (including by facsimile and/or email) and/or by telephone. Any such notice will be effective when given, regardless of the form in which it is delivered. A notice given by telephone will be deemed to have been delivered at the time the telephone conversation takes place. If the notice is delivered by telephone, a written confirmation will be executed and delivered confirming the substance of that notice within one Calculation Agent City Business Day of that notice. Failure to provide that written confirmation will not affect the effectiveness of that telephonic notice.
- (d) For the purposes of determining the day on which an event occurs for purposes of these Credit Linked Conditions, the Calculation Agent will determine the demarcation of days by reference to Greenwich Mean Time (or, if the Reference Entity has a material connection to Japan for these purposes, Tokyo time) irrespective of the time zone in which such event occurred. Any event occurring at midnight shall be deemed to have occurred immediately prior to midnight.
- (e) In addition, if a payment is not made by the Reference Entity on its due date or, as the case may be, on the final day of the relevant Grace Period, then such failure to make a payment shall be deemed to have occurred on such day prior to midnight Greenwich Mean Time (or, if the Reference Entity has a material connection to Japan for these purposes, Tokyo time), irrespective of the time zone of its place of payment.

17. Amendment of Credit Linked Conditions

The Calculation Agent may from time to time amend any provision of these Credit Linked Conditions (i) to incorporate and/or reflect further or alternative documents or protocols from time to time published by ISDA with respect to the settlement of credit derivative transactions and/or the operation or application of determinations by Credit Derivatives Determinations Committees, including without limitation, in relation to settlement, credit events and successors and/or (ii) in any manner which the Calculation Agent determines in a commercially reasonable manner is necessary or desirable to reflect or account for market practice for credit derivative transactions and/or reflect or account for a Hedge Disruption Event. Any amendment made in accordance with this Credit Linked Condition 17 shall be notified to the Noteholders in accordance with Condition 14 (*Notices*). Any failure to provide notice of any such amendment to Noteholders will not constitute an Event of Default under the Notes and will not affect the validity of any of the foregoing provisions.

18. Early redemption of Reference Obligation Only Notes following a Substitution Event

If the Notes are Reference Obligation Only Notes relating to a single Reference Entity and the event set out in paragraph (a) of the definition of Substitution Event above occurs with respect to the Reference Obligation, then:

- (a) interest (if any) shall cease to accrue on the Credit Linked Notes from and including the Interest Payment Date immediately preceding the relevant Substitution Event Date or, if no Interest Payment Date has occurred, no interest will accrue on the Credit Linked Notes; and
- (b) each Credit Linked Note will be redeemed by the Issuer at its relevant Reference Obligation Only Termination Amount specified in, or determined in the manner specified in, the relevant Pricing Supplement on the Maturity Date, which for the purposes of this Credit Linked Condition 18 shall be the day falling five Business Days following the relevant Substitution Event Date.

19. DC Resolution Adjustment Events

If following the publication of a DC Resolution (the "**Prior DC Resolution**"), a further DC Resolution (the relevant "**Further DC Resolution**") is published the effect of which would be to reverse all or part of the Prior DC Resolution or if any DC Resolution would reverse any determination made by the Calculation Agent and/or the occurrence of a Credit Event Determination Date, notwithstanding any other provisions of these Credit Linked Conditions the Calculation Agent may, in its sole and absolute discretion, make any adjustment(s) that the Calculation Agent determines is necessary or desirable to the Conditions or these Credit Linked Conditions to reflect the publication of such Further DC Resolution or DC Resolution, including, without limitation, as a result of the impact or effect of such Further DC Resolution or DC Resolution on the Hedging Arrangements (if any at the relevant time).

20. Payments

Condition 9(d) (*Payments – General Provisions*) shall be amended by including the following sentence as the last sentence therein:

"Notwithstanding anything contained in these Conditions, if any relevant Condition requires any amounts in relation to a Note to be rounded as part of any calculations or determinations, then in the case of Notes which are for the time being represented by a Global Note, such calculation or determination shall be carried out in relation to the aggregate principal amount of the Notes so represented. Any rounding shall be carried out to the result thereof and the rounding shall not be carried out in relation to any calculations or determinations made on a *pro rata* or per Note basis."

- (4) In addition, each purchaser of, and each person causing such purchaser to purchase or hold any interests in, Restricted Notes acknowledges that the Issuer, the Registrar, the Dealers and their affiliates, and others will rely upon the truth and accuracy of the foregoing acknowledgements, representations and agreements. If the purchaser is acquiring any Restricted Notes for the account of one or more qualified institutional buyers it represents that it has sole investment discretion with respect to each such account and that it has full power to make the foregoing acknowledgements, representations and agreements on behalf of each such account.
- (5) If the Pricing Supplement in relation to a Tranche of Notes specifies "ERISA prohibited", then each purchaser or transferee, and each person causing such purchaser or transferee (as applicable) to purchase or hold any interest in the Notes (such as an investment manager), by such purchase or holding of any Note (or any interest therein) will be deemed to represent (the latter in its fiduciary and individual capacity), on each day from the date on which the purchaser or transferee (or any party on whose behalf it is acting) acquires any interest in any offered Note through and including the date on which the purchaser or transferee (or any party on whose behalf it is acting) disposes of its interest in such offered Note, that such purchaser or transferee shall not acquire, hold or subsequently dispose of such Note for, or on behalf of, or with the assets of: (x) any Benefit Plan Investor (as defined in Section 3(42) of ERISA), or (y) any governmental, church or non-U.S. plan which is subject to Similar Law whose acquisition, holding or disposition of such Note or an interest therein would result in a violation of any Similar Law. The capitalised terms in this paragraph are as defined in section headed "*Certain ERISA Considerations*" in this Offering Memorandum.
- (6) If the Pricing Supplement in relation to a Tranche of Notes specifies "ERISA terms apply", then each purchaser or transferee, and each person causing such purchaser or transferee (as applicable) to purchase or hold any interest in the Notes (such as an investment manager), by such purchase or holding of any Note (or any interest therein) will be deemed to represent (the latter in its fiduciary and individual capacity), on each day from the date on which the purchaser or transferee (or any party on whose behalf it is acting) acquires any interest in any offered Note through and including the date on which the purchaser or transferee (or any party on whose behalf it is acting) disposes of its interest in such offered Note, either that (a) such purchaser or transferee is not (and for so long as it holds such Notes or any interests therein will not be), and is not (and for so long as it holds such Notes or interests therein will not be) acting on behalf of a Benefit Plan Investor as defined in Section 3(42) of ERISA or a governmental, church or non-U.S. plan which is subject to any Similar Law, including any entity whose underlying assets include the assets of any Benefit Plan Investor or Similar Law Plan, the inclusion of which for purposes of ERISA or any Similar Law, as the case may be, would result in such entity being deemed a Benefit Plan Investor or Similar Law Plan or (b)(i) such purchaser or transferee's acquisition, holding and disposition of this Note or an interest therein does not and will not constitute a non-exempt prohibited transaction in violation of Section 406 of ERISA or Section 4975 of the Code as a result of satisfying all of the applicable conditions of one or more of the following Prohibited Transaction Class

Exemption ("**PTCE**") 84-14, PTCE 90-1, PTCE 91-38, PTCE 95-60 or PTCE 96-23 issued by the U.S. Department of Labor, or such other prohibited transaction exemption for which the purchaser or transferee (and, if applicable, any person or entity acting on behalf of such purchaser or transferee) demonstrates to the satisfaction of the Issuer that all applicable conditions are satisfied (or, in the case of a governmental, church plan or non-U.S. plan, will not result in a violation of any Similar Law), and (ii) neither Issuer nor its affiliates has (A) provided any advice or recommendation with respect to the management of any interest in the Note or the advisability of acquiring, holding, disposing or exchanging any interest in the Note, (B) directed any such advice specifically to, or rendered any such advice based on the particular needs of, any purchaser or transferee, or (C) taken any other action with respect to the acquisition, holding, or disposition of the Note that would make the Issuer or an affiliate a 'fiduciary' within the meaning of Section 3(21) of ERISA and Section 4975(e)(3) of the Code. The capitalised terms in this paragraph are as defined in section headed "*Certain ERISA Considerations*" in this Offering Memorandum.

- (7) Before any interest in a Note represented by a Restricted Global Registered Note may be offered, sold, pledged or otherwise transferred to a person who takes delivery in the form of an interest in an Unrestricted Global Registered Note, the transferor will be required to provide the Registrar with written certification as to compliance with the transfer restrictions referred to in items (B) or (C) of the second paragraph of the legend set forth above. See "*Summary of Provisions relating to the Notes While in Global Form*" in the accompanying Offering Memorandum.]

ADDITIONAL TERMS AND CONDITIONS RELATING TO EMERGING MARKET CREDIT-LINKED NOTES

The section headed "*Terms and Conditions of the Notes*" of this Offering Memorandum shall be supplemented and modified by the following "*Additional Terms and Conditions Relating to Emerging Market Credit-Linked Notes*" in respect of any issue of Credit-Linked Notes as amended or supplemented by the terms of each Tranche of Notes set out in the Pricing Supplement which are specified as being "Emerging Market Credit-Linked Notes" in the relevant Pricing Supplement. In the event of any inconsistency between the "*Terms and Conditions of the Notes*" and the "*Additional Terms and Conditions Relating to Emerging Market Credit-Linked Notes*", such "*Additional Terms and Conditions Relating to Emerging Market Credit-Linked Notes*" shall prevail and the "*Terms and Conditions of the Notes*" shall be amended accordingly.

1. Interest Amounts

On each Interest Payment Date, subject to no Early Redemption Event or Credit Event having occurred or subsisting, the Issuer will pay an amount of interest in respect of each Calculation Amount, in the Settlement Currency, equal to the quotient of:

- (i) (A) the amount actually received in the Reference Obligation Currency by the Notional Holder of the Reference Obligation Principal Amount of the Reference Obligation on the immediately preceding Reference Obligation Coupon Payment Date (such amount, the "**Reference Obligation Coupon**") less (B) an amount equal to any applicable taxes and/or incidental transaction costs incurred in connection with the Notional Holder's holding and/or the payment of interest on such Reference Obligation and/or any conversion of any amounts received in connection with the Reference Obligation in the Reference Obligation Currency to the Settlement Currency, for the avoidance of doubt, without any double counting in respect of any Adjustment Event; and
- (ii) the aggregate of all the Calculation Amounts in respect of all Notes outstanding on such day,

converted by the Calculation Agent from the Reference Obligation Currency at the Exchange Rate on the related Exchange Rate Calculation Date, (each an "**Interest Amount**").

2. Final Redemption

Subject to no Early Redemption Event or Credit Event having occurred or subsisting (in respect of which the Issuer intends to elect to redeem the Notes pursuant to paragraph 3 or paragraph 4, as applicable), on the Maturity Date the Issuer will pay an amount in respect of each Calculation Amount, in the Settlement Currency, equal to the quotient of:

- (i) (A) the amount actually received in the Reference Obligation Currency by a Notional Holder of the Reference Obligation Principal Amount of the Reference Obligation on the Reference Obligation Redemption Date (the "**Reference Obligation Redemption Amount**") less (B) an amount equal to any applicable taxes and or transaction costs incurred in connection with the Notional Holder's holding and/or the redemption of such Reference Obligation and/or any conversion of any amounts received in connection with the Reference Obligation in the Reference Obligation Currency to the Settlement Currency, for the avoidance of doubt, without any double counting in respect of any Adjustment Event; and
- (ii) the aggregate of all the Calculation Amounts in respect of all Notes outstanding on such day,

converted by the Calculation Agent from the Reference Obligation Currency at the Exchange Rate on the related Exchange Rate Calculation Date.

3. Early Redemption as a result of a Credit Event

As soon as reasonably practicable following the occurrence of a Credit Event, and:

- (a) if "Issuer Option" is specified as being applicable in the relevant Pricing Supplement, the Issuer will notify the Noteholders:
 - (i) of the occurrence of such Credit Event; and

- (ii) whether the Issuer will redeem all (but not some only) of the Notes as a result of the occurrence of such Credit Event.

If the Issuer elects to redeem the Notes, the Issuer will notify the Noteholders whether such redemption will be by way of Physical Settlement or Cash Settlement on or before the tenth Business Day following the occurrence of such Credit Event (such notice being either a "Notice of Cash Settlement" or "Notice of Physical Settlement"); or

- (b) if "Physical Settlement" is specified as being applicable in the relevant Pricing Supplement, the Notes will be redeemed by way of Physical Settlement and the Issuer will deliver a Notice of Physical Settlement on or before the tenth Business Day following the occurrence of such Credit Event.

4. **Early Redemption as a result of an Early Redemption Event**

As soon as reasonably practicable following the occurrence of an Early Redemption Event, and:

- (a) if "Issuer Option" is specified as being applicable in the relevant Pricing Supplement, the Issuer will notify the Noteholders:
 - (i) of the occurrence of such Early Redemption Event; and
 - (ii) whether the Issuer will redeem all (but not some only) of the Notes as a result of the occurrence of such Early Redemption Event.

If the Issuer elects to redeem the Notes, the Issuer will deliver a Notice of Cash Settlement or Notice of Physical Settlement (as applicable) to the Noteholders on or before the tenth Business Day following the occurrence of such Early Redemption Event; or

- (b) if "Physical Settlement" is specified as being applicable in the relevant Pricing Supplement, the Notes will be redeemed by way of Physical Settlement and the Issuer will deliver a Notice of Physical Settlement on or before the tenth Business Day following the occurrence of such Early Redemption Event.

5. **Physical Settlement**

If Physical Settlement applies, the Issuer shall redeem all the Notes by Delivery (or procuring Delivery on its behalf) on or prior to the Physical Settlement Date to each Noteholder of such Noteholder's *pro rata* share (rounded down as necessary pursuant to the following paragraph) of an amount of Deliverable Obligations with an aggregate outstanding principal amount equal to (i) the Reference Obligation Principal Amount less (ii) an outstanding principal amount of Deliverable Obligations the sale proceeds of which the Calculation Agent (acting in a commercially reasonable manner) determines are required to cover all taxes, costs and expenses incurred by the Issuer (or its designated agent or affiliate) in relation to such Delivery. If it is illegal, impossible or impracticable to Deliver Deliverable Obligations to a Noteholder, Cash Settlement shall be deemed to apply in respect of the relevant Notes, *mutatis mutandis* and the Physical Settlement Date shall be deemed to be the date of the Notice of Cash Settlement.

If the nominal amount of the Deliverable Obligations to be Delivered in respect of each Note to be redeemed is not equal to an authorised denomination (or integral multiple thereof) of such Deliverable Obligations then the nominal amount of Deliverable Obligations to be Delivered will be rounded down to the nearest authorised denomination or multiple thereof, or, if none, zero. In such circumstances (a "**Partial Cash Settlement Event**"), the Issuer shall in addition pay an amount in respect of each Note on the Physical Settlement Date equal to such Note's *pro rata* share of an amount equal to the product of (i) the principal amount of such Deliverable Obligations and (ii) the Final Price (for which purposes the Valuation Process shall be construed accordingly and the Valuation Date shall be two Business Days following the date of the Notice of Physical Settlement), less an amount equal to all taxes, costs and expenses incurred by the Issuer or its designated agent or affiliate in relation to such settlement, as determined by the Calculation Agent, acting in a commercially reasonable manner, converted into the Settlement Currency at the Exchange Rate on the day that is the number of days preceding the Physical Settlement Date in order for such conversion to settle on the Physical Settlement Date and rounded down to the nearest sub-unit of the Settlement Currency.

If the Calculation Agent determines, that it is unlawful, impossible, or otherwise impracticable to convert such amount, including but not limited to as a result of an Inconvertibility Event, notwithstanding the above, the Issuer may pay the relevant amount in the Reference Obligation Currency, rounded down to the nearest sub-unit of the Reference Obligation Currency.

6. **Cash Settlement**

If Cash Settlement applies, the Issuer shall redeem all the Notes on the Cash Settlement Date by payment (or procuring payment on its behalf) to each Noteholder of such Noteholder's *pro rata* share of an amount equal to the product of (i) the Reference Obligation Principal Amount and (ii) the Final Price, less an amount equal to all taxes, costs and expenses incurred by the Issuer or its designated agent or affiliate in relation to such settlement, as determined by the Calculation Agent, acting in a commercially reasonable manner converted into the Settlement Currency at the Exchange Rate on the day that is the number of days preceding the Cash Settlement Date in order for such conversion to settle on the related Cash Settlement Date and rounded down to the nearest sub-unit of the Settlement Currency (the "**Cash Settlement Amount**").

If the Calculation Agent determines, that it is unlawful, impossible, or otherwise impracticable to redeem any outstanding Note by payment of the Cash Settlement Amount, including but not limited to as a result of an Inconvertibility Event, notwithstanding the above, the Issuer may redeem such Note by payment of the relevant amount in the Reference Obligation Currency, rounded down to the nearest sub-unit of the Reference Obligation Currency.

7. **Adjustment Provisions**

Upon the occurrence of an Adjustment Event, notwithstanding anything to the contrary in the Conditions of the Notes, any amounts payable (or which subsequently become due and payable) by the Issuer in respect of each Note shall be reduced by such Note's *pro rata* share of any loss suffered, or costs or expenses incurred, by the Issuer (or its agents or affiliates) in connection with the Notes as a result of the occurrence of the Adjustment Event, so as to put the Issuer, its agents or affiliates, as the case may be, in the same position in which a Notional Holder of the Reference Obligation Principal Amount of the Reference Obligation would have been but for the occurrence of the Adjustment Event, as determined by the Calculation Agent acting, acting in a commercially reasonable manner, and for the avoidance of doubt, without any double counting.

8. **Local Settlement Provisions**

Each Noteholder must deliver a written notice (the "**Notice of Noteholder's Details**") to the Paying Agent and to Euroclear or Clearstream, Luxembourg, with a copy to the Issuer, no later than three Business Days following the delivery of the Notice of Cash Settlement or Notice of Physical Settlement, as the case may be. The Notice of Noteholder's Details must:

- (1) specify (i) all the "KYC Information" requested by the Issuer in the Notice of Cash Settlement or Notice of Physical Settlement, including the name and address of the relevant Noteholder; (ii) a valid local account in the specified Financial Centre ("**Noteholder's Local Account**") to be used by the Issuer to effect Cash Settlement or Physical Settlement, as the case may be, and (iii) a contact person from whom the Issuer may obtain any additional details for such Cash Settlement or Physical Settlement;
- (2) specify the nominal amount of Notes which are the subject of the Notice of Noteholder's Details and the number of the Noteholder's account at Euroclear or Clearstream, Luxembourg to be debited with such Notes and irrevocably instruct and authorise Euroclear or Clearstream, Luxembourg, as the case may be, to debit the relevant Noteholder's account with such Notes on or before the redemption date;
- (3) authorise the production of such Notice of Noteholder's Details in any applicable administrative or legal proceedings; and
- (4) attach a screenshot from the relevant clearing system verifying that the Noteholder is the legal owner of the Notes and confirming that transfer of such Notes is blocked.

No Notice of Noteholder's Details may be withdrawn after receipt thereof by Euroclear, Clearstream, Luxembourg or a Paying Agent, as the case may be. After delivery of a Notice of Noteholder's Details, the relevant Noteholder may not sell, transfer or assign the Notes which are the subject of such Notice for settlement purposes.

Failure to properly complete and deliver a Notice of Noteholder's Details may result in such notice being treated as null and void.

Provided that the Issuer has received a valid Notice of Noteholder's Details (and any additional information that the Issuer in its sole and absolute discretion, acting in a commercially reasonable manner, deems necessary to verify the ownership of the Notes), the Issuer shall redeem (or appoint an affiliate or agent to settle on its behalf) the Notes pursuant to paragraph 5 (*Physical Settlement*) and/or paragraph 6 (*Cash Settlement*) (as applicable) by paying and/or delivering to the Noteholder's Local Account on the redemption date.

Neither the Issuer nor its agent(s) or affiliate(s) shall be responsible for any delay in payment that is caused as a result of it or any agent or representative of it, taking reasonable steps to verify that the person delivering the notice is a Noteholder holding through Euroclear and shall pay no interest or other payment in respect of any such delay.

The Issuer is not obliged to effect Cash Settlement or Physical Settlement, as the case may be, through the relevant clearing system.
