What are the key risks that are specific to the Issuer?

All references to "Group" refer to the Issuer and its subsidiary undertakings.

Current economic and market conditions may adversely affect the Group's results

The Group's earnings are affected by global and local economic and market conditions. In particular, the Group has faced and may continue to face the following challenges to its operations and operating model in connection with these factors: market developments may continue to depress consumer and business confidence; significant uncertainties remain in assessing the duration and impact of the ongoing the Russia-Ukraine war; the impact of the Covid-19 pandemic on global economies; the demand for borrowing from creditworthy customers may diminish during periods of recession or where economic activity slows or remains subdued and the Group's ability to borrow from other financial institutions or to engage in funding transactions may be adversely affected by market disruption. The occurrence of any of these events or circumstances could have a material adverse effect on the Group's business, financial condition, results of operations, prospects and customers.

The Group is subject to political, social and other risks in the countries in which it operates

The Group's operations are subject to potentially unfavourable political, social, environmental and economic developments in the jurisdictions in which the Group operates, which may include; coups, wars or acts of terrorism; political and/or social instability; geopolitical tensions; climate change, acts of God, including epidemics and pandemics and natural disasters; and infrastructure issues, such as transportation and power failures. Each of the above could impact credit risk-weighted assets, and the financial losses caused by any of these risk events or developments could impair asset values and the creditworthiness of customers.

These risk events or developments could also give rise to disruption to the Group's services and some could result in physical damage to its operations and/or risks to the safety of its personnel and customers. Geopolitical tensions could have significant ramifications for the Group and its customers and could have a material adverse impact on the Group's business, financial condition, results of operations, prospects, strategy and reputation, as well as on the Group's customers.

Risks to the Group's strategy

The Group's strategy has been supported by the global economic, geopolitical, legal and regulatory environment. The Group has taken into consideration global trends such as technology, customer needs and competition. The development and implementation of the Group's strategy requires difficult, subjective and complex judgements, including forecasts of economic conditions in various parts of the region. The Group may fail to correctly identify the relevant factors in making decisions as to capital deployment and cost reduction. The Group may also encounter unpredictable changes in the external environment that are unfavourable to its strategy, such as the Russia-Ukraine war. The Group's ability to execute strategic change may be limited by its operational capacity, effectiveness of its change management controls and the potential for unforeseen changes in the market and/or regulatory environment in which it operates. The European economic outlook continues to remain uncertain due to the likelihood of economic recession, heightened inflation, changes in legislation and geopolitical tensions. Therefore, there remains a risk that, in the absence of an improvement in economic conditions, the Group's cost and investment actions may not be sufficient to achieve the expected benefits. The failure to successfully deliver or achieve the expected benefits of these key strategic initiatives could have a material adverse effect on the Group's customers, business, financial condition, results of operations, prospects, operational resilience and reputation.

The Group is subject to financial and non-financial risks associated with Environmental, Social and Governance ('ESG') related matters, such as climate change, nature-related and human rights issues

ESG-related matters such as climate change, society's impact on nature and human rights issues bring risks to the Group's business, customers and wider society. If any of these risks materialise, this could have financial and non-financial impacts for the Group which could, in turn, have a material adverse effect on its business, financial condition, results of operations, reputation, prospects and strategy.

The Group relies on recruiting, retaining and developing appropriate senior management and skilled personnel

Meeting the demand to recruit, retain and develop appropriate senior management and skilled personnel remains subject to a number of challenges. If one of the Group's business units fails to staff its operations appropriately or loses one or more of their key senior executives and fails to successfully replace them in a satisfactory and timely manner, or fails to implement successfully the organisational changes required to support the Group's strategy, the Group's business, financial condition, results of operations, reputation and prospects, including control and operational risks, could be materially adversely affected.

The Group could incur losses or be required to hold additional capital as a result of model limitations or failure

The Group uses models for a range of purposes in managing its business, including regulatory capital calculations, stress testing, credit approvals, calculation of ECLs on an IFRS 9 basis, financial crime and fraud risk management and financial reporting. HSBC Bank plc could face adverse consequences as a result of decisions that may lead to actions by management based on models that are poorly developed, implemented or used, or as a result of the modelled outcome being misunderstood, or the use of such information for purposes for which it was not designed, or by inherent limitations arising from the uncertainty inherent in predicting or estimating future outcomes. If key capital models significantly underestimate risks or do not meet critical regulatory requirements, the Group could be required to hold additional capital. Risks arising from the use of models, could have a material adverse effect on the Group's business, financial condition, results of operations, prospects and capital position and reputation.

The Group is subject to numerous new and existing legislative and regulatory requirements, and to the risk of failure to comply with applicable regulations

The Group's businesses are subject to ongoing regulation, policies, voluntary codes of practice and interpretations in the UK, the EU and the other markets in which the Group operates. A number of regulatory changes impacting the Group's business have effects beyond the country in which they are enacted. In recent years, regulators and governments have focused on reforming both the prudential regulation of the financial services industry and the ways in which the business of financial services is conducted. Measures taken include enhanced capital, liquidity and funding requirements, the separation or prohibition of certain activities by banks, changes in the operation of capital markets activities, the introduction of tax levies and transaction taxes and changes in compensation practices. The Group is also seeing more detailed requirements on how business is conducted, with a focus on protecting vulnerable customers. Such regulatory changes could have a material effect on the Group's business, financial condition, results of operations, prospects, capital position, reputation and strategy.

SECTION C – KEY INFORMATION ON THE WARRANTS

What are the main features of the Warrants?

- (a) The Warrants do not bear interest.
- (b) The Warrants are "**Underlying Security-Linked Warrants**" in relation to which payments are linked to an underlying security (the "**Underlying**").

Warrantholders will receive two types of payment in respect of the Warrants: the "Cash Settlement Amount" and any "Additional Payments", each as detailed below.

The **Cash Settlement Amount** will be **Net Realisable Sale Price** per Warrant minus the Strike Price (USD 0.000001). The Net Realisable Sale Price per Warrant shall be the Realisable Sale Price per Warrant less the Administration Fee. The Realisable Sale Price per Warrant will be equal to:

- (i) if the Issuer or any of its affiliate(s) hold Underlying Securities and dispose of them, the amount per Warrant received from such disposal;
- (ii) if neither the Issuer nor any of its affiliate(s) hold Underlying Securities but is party to a hedge or other arrangement relating to the Warrants being redeemed, the effective price at which such hedge or other arrangement was realised or unwound; or
- (iii) if neither the Issuer nor any of its affiliate(s) hold Underlying Securities nor are party to a hedge or other arrangement relating to the Warrants being redeemed, the amount per Warrant a notional, direct holder of Underlying Securities would receive from disposing of them,

If, during the period from and including the Issue Date to but including the final valuation date in relation to the Warrants, the Underlying Securities are marked on the relevant exchange as ex-dividend or ex-distribution, then, where in the determination of the Calculation Agent, such dividend or distribution is to be paid, the Issuer shall make an **Additional Payment** per Warrant calculated as follows:

- (i) if the Issuer or its affiliate(s) hold such Underlying Securities, the aggregate amount of the net cash dividend or distribution received;

- (ii) if the Issuer or its affiliate(s) hold a hedge or other arrangement for the purposes of performing its obligations under the Warrants, the net cash dividend or distribution equivalent payment received under the hedge or other arrangement;
- (iii) if the Issuer or its affiliate(s) do not hold such Underlying Securities or are not party to a hedge or other arrangement relating to the Warrants, the net amount a notional, direct holder of Underlying Securities would receive by way of cash dividend or distribution; or
- (iv) if a non-cash dividend or distribution is made, the Issuer may in its absolute discretion, pay to the Warrantholders the net cash value of such non-cash dividend or distribution or, if the Issuer or its affiliate(s) holds a hedge or other arrangement relating to the Warrants, the net cash adjustment or settlement received in respect of such non-cash dividend or distribution under such hedge or other arrangement, in respect of the underlying securities, such as an issue of warrants or preference shares,

in each case, less any costs and converted into the currency of the Warrants (if applicable).

Adjustments in respect of the Underlying

The occurrence of a Potential Adjustment Event or an Extraordinary Event in relation to the Underlying may result in adjustments to the conditions of the Warrants or termination of the Warrants.

- (b) The Warrants are series APAC 1937, tranche 1 and will be represented by a combined global registered warrant deposited with and registered in the name of a common depository (or its nominee) for Euroclear Bank SA/NV ("**Euroclear**") and/or Clearstream Banking, S.A. ("**Clearstream, Luxembourg**"). The ISIN of the Warrants is GB00BS3KMW83.
- (c) The settlement currency of the Warrants is USD (the "**Settlement Currency**"). The number of Warrants to be issued is 15,385,00. The face value of each Warrant is USD 1.9500. The expiry date in respect of the Warrants is 24 April 2025 (the "**Expiry Date**"). The Warrants are "**American Style Warrants**" and are therefore exercisable on any Business Day during the period beginning on (and including) the Issue Date and ending on (and including) the Expiry Date.
- (d) Rights attaching to the Warrants:

Early termination for illegality - If the Calculation Agent determines that the performance of the Issuer's obligations has become unlawful or impracticable in whole or in part for any reason, the Issuer will be entitled to terminate the Warrants and pay the relevant investor an amount per Warrant equal to the fair market value of such Warrant or such other amount specified in the Final Terms.

Modification and substitution - Modifications to the Conditions may be made without the consent of any holders of Warrants to cure any ambiguity or manifest error or correct or supplement any Conditions **provided that**: (i) the modification is not materially prejudicial to the interest of holders of Warrants; (ii) the modification is of a formal, minor or technical nature or is to correct a manifest error or is to comply with mandatory provisions of the law of the Issuer's jurisdiction of incorporation; or (iii) the modification corrects inconsistency between the Conditions and the relevant termsheet relating to the Warrants. The Warrants permit the substitution of the Issuer with its affiliates without the consent of any holders of Warrants where the Issuer provides an irrevocable guarantee of the affiliate's obligations.

Meetings of Warrantholders - The Conditions of the Warrants contain provisions for calling meetings of Warrantholders to consider matters affecting their interests generally. These provisions permit defined majorities to bind all Warrantholders including Warrantholders who did not attend and vote at the relevant meeting and Warrantholders who voted in a manner contrary to the majority.

Taxation - All payments by the Issuer in respect of the Warrants will be made without deduction of any taxes, duties and other similar charges, including United Kingdom taxes, unless the Issuer is required by law to withhold or deduct any such taxes. Therefore, Warrantholders may be liable for and/or subject to any taxes, duties and other similar charges, including withholding tax, stamp duty, stamp duty reserve tax and/or similar transfer taxes, payable in respect of the Warrants.

- (e) The Warrants will be direct, unsecured and unsubordinated obligations of the Issuer and will rank equally and without preference among themselves and, at their date of issue, with all other unsecured and unsubordinated obligations of the Issuer (unless preferred by law). The exercise by HM Treasury, the Bank of England, the Prudential Regulation Authority and the United Kingdom Financial Conduct Authority (as applicable) of any powers under the Banking Act 2009 (including especially the bail-in power) could lead to the holders of the

Warrants losing some or all of their investment or may adversely affect the rights of holders of the Warrants, the market value thereof or the Issuer's ability to satisfy its obligations thereunder.

- (f) The Warrants are freely transferable. However, there are restrictions on the offer and sale of the Warrants. The Issuer and HSBC Bank plc (the "**Dealer**") have agreed restrictions on the offer, sale and delivery of the Warrants and on distribution of offering materials in Australia, Brazil, the Dubai International Financial Centre, the European Economic Area, France, Hong Kong, India, Indonesia, Italy, Japan, the Kingdom of Bahrain, Korea, Malaysia, Mexico, the People's Republic of China, Pakistan, Philippines, Russia, Saudi Arabia, Singapore, Spain, Sri Lanka, Switzerland, Taiwan, Thailand, The Netherlands, the United Arab Emirates (excluding the Dubai International Financial Centre), the United Kingdom, the United States of America and Vietnam.

In addition, investors of the Warrants, by their purchase of the Warrants, will be deemed to have given certain representations, warranties, undertakings, acknowledgements and agreements

Where will the Warrants be traded?

Application will be made to admit the Warrants to the Official List of the United Kingdom Financial Conduct Authority and to trading on the regulated market of the London Stock Exchange plc.

What are the key risks specific to the Warrants

The Warrants are direct, unsubordinated and unsecured obligations of the Issuer and not of any other person. If the Issuer's financial position were to deteriorate, there could be a risk that the Issuer would not be able to meet its obligations under the Warrants (the Issuer's credit risk), and investors would not be able to enforce security as a method of recouping payments due under the Warrant. In a worst case scenario, investors in the Warrants could lose all of their invested amounts.

The Warrants are not ordinary debt securities. The Warrants do not pay interest and, depending on the performance of the Underlying as well as certain other factors (including changes in currency exchange rates, changes in interest rates, time remaining to expiry, dividend rates on the Underlying or the Component Securities or, where applicable, the number and type of Underlyings included in a basket to which the relevant Warrants relate), may upon expiry or exercise return less than the amount invested or nothing.

An investment in the Warrants is not equivalent to an investment in the Underlying. Ownership of the Warrants does not confer any legal or beneficial interest or any voting or dividend rights in the Underlying or the Component Securities and the value of the Warrants may not exactly correlate with the value of the Underlying to which the Warrants relate.

Consequences of Disruption. The occurrence of certain events (including but not limited to disruption in relation to the Underlying and/or the exchange on which the Underlying is traded, increased cost of the hedging arrangements and/or currency exchange restriction or disruptions may lead to suspension or postponement of payments, postponement or adjustment of valuations, adjustment of terms agreed to by the holders of Warrants or exercise of the Warrants which may have an adverse effect on the value of the Warrants and the position of Warrantholders.

Illegality may cause the Warrants to be terminated early. In such circumstances, the Issuer may pay a sum representing the fair market value of such Warrants. As a result holders of Warrants will forgo any future appreciation in the relevant Underlying and may suffer a loss of some or all of their investments.

Commission, cost of hedging and taxes may be borne by Warrantholders. The Issue Price of the Warrants may include fees, commission and hedging costs, or such amounts may be deducted from the Cash Settlement Amount. Payments under the Warrants may be decreased to take into account the effect of taxes, duties or other similar charges and Warrantholders will bear the cost of all taxes, duties or other similar charges payable in connection with the subscription, purchase or holding of such Warrant and any payments under the Warrants (in each case including any taxes or duties imposed or increased by a change of tax law or practice).

Currency and Settlement Risks. Amounts payable under the Warrants will be payable in the Settlement Currency. Following the imposition or modification of exchange restrictions and controls, the Issuer may suspend its obligations to make any payment under any Warrants and holders shall not be entitled to any interest or other compensation in respect of any such suspension. As the Underlying is referenced in VND, amounts payable under the Warrants may be affected by multiple currency conversion costs which may be passed on to investors.

Emerging market risks: The Underlying in relation to the Warrants is located in or listed on an exchange in Vietnam. Investments in emerging markets, and specifically Vietnam, are subject to greater risks than well-developed western markets. Institutions relied upon for the efficient functioning of capital markets, such as stock exchanges, economic, legal

and regulatory institutions, systems for the clearing, settlement and registration of securities, may be less developed. Political conditions in certain geographic locations where the issuers of Underlyings may operate may be volatile or unstable, and there could be increased price volatility.

Use of Proceeds: The net proceeds from the issue of Warrants will be used by the Issuer for profit making or risk hedging purposes.

Conflicts of Interest: The Issuer or its affiliates may engage in hedging or other transactions involving the Underlying which may have a positive or negative effect on the value of the Underlying and therefore on the value of any Warrants to which they relate. Certain affiliates of the Issuer may also be the counterparty to the hedge of the Issuer's obligations under an issue of Warrants and the Calculation Agent is responsible for making determinations and calculations in connection with the Warrants in its sole and absolute discretion acting in good faith. The Issuer or its affiliates may from time to time advise the issuer or obligors of, or publish research reports relating to, the Underlying. The views or advice may have a positive or negative effect on the value of the Underlying and may be inconsistent with purchasing or holding the Warrants relating to the Underlying.
