The following are the completed terms and conditions of the Preference Shares:

Preference Share terms and conditions to be inserted

Preference Share Terms and Conditions for Autocallable Redemption Notes

The following are the terms and conditions (the "**Conditions**") of the Series 1665 Index linked redeemable preference shares (the "**Preference Shares**") issued by Eukairos Investments Limited (the "**Company**") on 14 April 2020. Terms not otherwise defined have the meanings given in Condition 1 (*Definitions*) below. References to a numbered Condition shall be to such numbered section of the Conditions.

In the event of any inconsistency between the Articles and the Conditions, the Conditions shall prevail.

1. Definitions

"**Adjustment Provisions**" means all relevant provisions of these Conditions which provide for any adjustment, delay, modification, cancellation or determination in relation to an Index, the valuation procedure for an Index or the Preference Shares. This shall include the provisions of Condition 11 (*Calculation Agent Modifications*) and all subsequent Conditions.

"**Administrator/Benchmark Event**" means, in respect of any Series of Preference Shares and an Index, any authorisation, registration, recognition, endorsement, equivalence decision, approval or inclusion in any official register in respect of the Index or the administrator of the Index or the Index Sponsor has not been, or will not be, obtained or has been, or will be, rejected, refused, suspended or withdrawn by the relevant competent authority or other relevant official body, in each case as required under any applicable law or regulation in order for the Company, the Calculation Agent or any other entity to perform its or their respective obligations in respect of the Preference Shares or any Related Financial Product, all as determined by the Calculation Agent;

"**Administrator/Benchmark Event Determination Date**" means, in relation to any Index, the date on which the Calculation Agent determines that an Administrator/Benchmark Event has occurred;

"**Affected Index**" means the Index affected by an Administrator/Benchmark Event;

"**Affiliate**" means in relation to any entity (the "**First Entity**"), any entity controlled, directly or indirectly, by the First Entity, any entity that controls, directly or indirectly the First Entity, or any entity directly or indirectly under common control with the First Entity. For these purposes **control** means ownership of the majority of the voting power of an entity.

"**Articles**" means the Memorandum of Association and Articles of Association of the Company, as may be amended, supplemented or otherwise modified from time to time.

"**Associated Costs**" means, in respect of each Preference Share, an amount (subject to a minimum of zero) equal to its *pro rata* share (calculated on the basis of the proportion of the aggregate number of Preference Shares outstanding as at the Early Preference Share Valuation Date) as determined by the Calculation Agent of:

- (a) the total amount of any and all costs associated with or incurred by or to be incurred by the Company or the Calculation Agent in connection with or arising as a result of the redemption of the Preference Shares occurring on the Early Preference Share Redemption Date rather than the Final Preference Share Redemption Date, all as determined by the Calculation Agent;
- (b) without duplication, an amount which the Calculation Agent determines is appropriate in the context of any Related Financial Product to take into account the total amount of any and all actual and anticipated costs associated with or expected to be incurred by the issuer and/or Hedging Counterparty in relation to any Related Financial Product, in each case in connection with or arising as a result of the redemption of the Preference Shares occurring on the Early Preference Share Redemption Date rather than the Final Preference Share Redemption Date, including, without limitation, any funding related costs and any costs associated with unwinding the Related Financial Product and/or any hedge positions relating to such Related Financial Product, all as determined by the Calculation Agent by reference to such source(s) as it determines appropriate; and

- (c) without duplication, any other fees and expenses payable by the Company which are attributable to the Preference Shares, all as determined by the Calculation Agent.

"**Auto-Call Trigger Event**" means an event which occurs if, in the determination of the Calculation Agent, the Index Performance as of the Valuation Time on an Auto-Call Valuation Date is greater than or equal to the relevant Auto-Call Trigger Level.

"**Auto-Call Trigger Level**" means the level set out below for the relevant Auto-Call Valuation Date (i.e. as shown in the same row as that date):

Auto-Call Valuation Date	Auto-Call Trigger Level	Auto-Call Trigger Rate
31 March 2021	105.00%	108.00%
31 March 2022	100.00%	116.00%
31 March 2023	100.00%	124.00%
28 March 2024	95.00%	132.00%
31 March 2025	95.00%	140.00%
31 March 2026	90.00%	148.00%

"**Auto-Call Trigger Rate**" means the applicable percentage in respect of the relevant Auto-Call Valuation Date on which an Auto-Call Trigger Event has occurred as set out in the definition of Auto-Call Trigger Level above (i.e. as shown in the same row as that date).

"**Auto-Call Valuation Date**" means, in respect of an Index and subject to the Adjustment Provisions, each day specified as such in the definition of Auto-Call Trigger Level, or if any such day is not a Scheduled Trading Day for such Index, the next following Scheduled Trading Day in respect of such Index.

"**Barrier Level**" means 65 per cent.

"**Business Day**" means a day (other than a Saturday or Sunday) on which commercial banks are open for general business (including dealings in foreign exchange and foreign currency deposits) in London.

"**Calculation Agent**" means HSBC France.

"**Call and Put Period**" means the period commencing on and including the Issue Date to and including the day after 16 April 2020 or, if such date is not a Business Day, the next following Business Day.

"**Call and Put Redemption Amount**" means GBP 1 per Preference Share.

"**Clearing System Business Day**" means in relation to an Index, any day on which the principal domestic clearing systems customarily used for settling trades in securities comprising such Index is (or, but for the occurrence of an event beyond the control of the Company or the Hedging Counterparty as a result of which such clearing system cannot clear the transfer of such securities, would have been) open for the acceptance and execution of settlement instructions.

"**Component Security**" means with respect to an Index, each component security of that Index.

"**Disrupted Day**" means (a) in respect of an Index (other than a Multiple Exchange Index), any Scheduled Trading Day in respect of such Index on which a relevant Exchange or any Related Exchange fails to open for trading during its regular trading session or on which a Market Disruption Event in respect of such Index has occurred or (b) in respect of a Multiple Exchange Index, any Scheduled Trading Day in respect of such Index on which (i) the Index Sponsor fails to

publish the level of the Index; (ii) any Related Exchange fails to open for trading during its regular trading session; or (iii) a Market Disruption Event in respect of such Index has occurred.

"Early Closure" means (a), in respect of an Index (other than a Multiple Exchange Index), the closure on any Exchange Business Day of any relevant Exchange(s) relating to securities that comprise 20 per cent. or more of the level of the relevant Index or any Related Exchange(s) prior to its Scheduled Closing Time unless such earlier closing time is announced by such Exchange(s) or Related Exchange(s) at least one hour prior to the earlier of (i) the actual closing time for the regular trading session on such Exchange(s) or Related Exchange(s) on such Exchange Business Day and (ii) the submission deadline for orders to be entered into such Exchange(s) or Related Exchange(s) system for execution at the Valuation Time on such Exchange Business Day; or (b) in respect of a Multiple Exchange Index, the closure on any Exchange Business Day of the Exchange in respect of any Component Security or any Related Exchange prior to its Scheduled Closing Time unless such earlier closing is announced by such Exchange or Related Exchange (as the case may be) at least one hour prior to the earlier of: (i) the actual closing time for the regular trading session on such Exchange or Related Exchange (as the case may be) on such Exchange Business Day; and (ii) the submission deadline for orders to be entered into such Exchange or Related Exchange system for execution at the Valuation Time on such Exchange Business Day.

"Early Preference Share Redemption Amount" means, subject to the provisions of the Articles and the Conditions, in respect of each Preference Share, an amount expressed in the Settlement Currency calculated by the Calculation Agent as the fair market value (calculated without taking into account the creditworthiness of the Company) of a Preference Share as of the Early Preference Share Valuation Date taking into account such factor(s) as the Calculation Agent determines appropriate, including, but not limited to, the relevant Early Preference Share Redemption Event after deducting any Associated Costs (to the extent not already reflected in such fair market value).

"Early Preference Share Redemption Date" means the day falling ten Business Days after the Early Preference Share Valuation Date.

"Early Preference Share Redemption Event" means the event that occurs if:

- (a) the Calculation Agent determines that for reasons beyond the Company's control, the performance of the Company's obligations under the Preference Shares has become illegal or impractical in whole or in part for any reason; or
- (b) any event occurs in respect of which the Adjustment Provisions provide the Preference Shares may be cancelled or redeemed; or
- (c) a change in applicable law or regulation occurs that in the determination of the Calculation Agent results, or will result, by reason of the Preference Shares being outstanding, in the Company being required to be regulated by any additional regulatory authority, or being subject to any additional legal requirement or regulation or tax considered by the Company to be onerous to it; or
- (d) the Company is notified by any issuer or obligor of a Related Financial Product that such Related Financial Product has become subject to early redemption.

"Early Preference Share Redemption Notice" means a notice of early redemption of some or all of the Preference Shares given by or on behalf of the Company in accordance with Condition 6 (*Notices*).

"Early Preference Share Valuation Date" means the date specified as such in the relevant Early Preference Share Redemption Notice which shall fall not less than one day and not more than 180 days following the day such Early Preference Share Redemption Notice is given. The Early Preference Share Redemption Notice may provide that such date is subject to adjustment in accordance with certain disruption or adjustment events, as determined by the Calculation Agent.

"Exchange" means (a) in respect of an Index, the exchange or quotation system specified as such in relation to such Index in the definition of Indices below, any successor to such exchange or quotation system or any substitute exchange or quotation system to which trading in the components of such Index have temporarily relocated (**provided that** the Calculation Agent has

determined that there is comparable liquidity relative to such components as on the original Exchange); or (b) in respect of a Multiple Exchange Index and each relevant Component Security, the principal stock exchange on which such Component Security is principally traded, as determined by the Calculation Agent (which exchange or quotation system as of the Issue Date may be specified as such in the definition of Indices below).

"Exchange Business Day" means (a) in respect of an Index (other than a Multiple Exchange Index) any Scheduled Trading Day in respect of such Index on which the relevant Exchange and any relevant Related Exchange for such Index are open for trading during their respective regular trading session(s), notwithstanding any such Exchange or Related Exchange closing prior to its Scheduled Closing Time; or (b) in respect of a Multiple Exchange Index, any Scheduled Trading Day in respect of such Index on which (i) the Index Sponsor publishes the level of the Index and (ii) any relevant Related Exchange for such Index is open for trading during its regular trading session, notwithstanding the Related Exchange closing prior to its Scheduled Closing Time.

"Exchange Disruption" means (a) any event (other than an Early Closure) that disrupts or impairs (as determined by the Calculation Agent) the ability of market participants in general (i) to effect transactions in, or obtain market values, on any relevant Exchange(s) for securities that comprise 20 per cent. or more of the level of the Index, or (ii) to effect transactions in, or obtain market values for, futures or options contracts relating to the relevant Index on any relevant Related Exchange; or (b) with respect to a Multiple Exchange Index, any event (other than an Early Closure) that disrupts or impairs (as determined by the Calculation Agent) the ability of market participants in general to effect transactions in, or obtain market values for (i) any Component Security on the Exchange in respect of such Component Security or (ii) futures or options contracts relations to the Index on any relevant Related Exchange.

"Final Index Level" means in respect of an Index and subject to Adjustment Provisions, the Index Level of such Index on the Valuation Date for such Index, or for the purposes of determining whether an Auto-Call Trigger Event has occurred on any Auto-Call Valuation Date for such Index, the Index Level of such Index on the relevant Auto-Call Valuation Date for such Index.

"Final Preference Share Redemption Amount" means, subject to the provisions of the Articles and the Conditions, in respect of each Preference Share, an amount expressed in the Settlement Currency determined by the Calculation Agent equal to the Notional Amount multiplied by:

- (a) if an Auto-Call Trigger Event has occurred:
the relevant Auto-Call Trigger Rate; or
- (b) if an Auto-Call Trigger Event has not occurred, and:
 - (i) if the Index Performance on the Valuation Date is greater than or equal to the Final Trigger Level: 156.00%; or
 - (ii) if the Index Performance on the Valuation Date is less than the Final Trigger Level and:
 - (A) if the Final Index Level on the Valuation Date is greater than or equal to the product of (x) the Initial Index Level and (y) the Barrier Level: 100%; or
 - (B) if the Final Index Level on the Valuation Date is less than the product of (x) the Initial Index Level and (y) the Barrier Level: the Index Performance.

"Final Preference Share Redemption Date" means the date that falls twenty Business Days following the Valuation Date on which the Calculation Agent has determined the Final Preference Share Redemption Amount or, if earlier, the first Auto-Call Valuation Date on which an Auto-Call Trigger Event has occurred.

"Final Trigger Level" means 85 per cent.

"**Hedging Counterparty**" means HSBC Bank plc or any Affiliate of HSBC Bank plc or any other party (i) providing the Company directly or indirectly with hedging arrangements in relation to the Preference Shares and/or (ii) providing or entering into hedging arrangements in relation to any Related Financial Product (and which may, without limitation, be the principal obligor of a Related Financial Product).

"**Index Determination Date**" means, in relation to any Index, a date on which such Index falls to be determined in accordance with the Conditions;

"**Index Related Payment Date**" means, in relation to any Index and an Index Determination Date, any payment date under the Preference Shares for which the amount payable is calculated by reference to the Index as determined on such Index Determination Date;

"**Indices**" means, subject to Adjustment Provisions, the following indices (and each an **Index**)

Index	Exchange	Related Exchange
FTSE® 100 (Bloomberg Ticker Index: UKX)	London Stock Exchange	Each exchange or quotation system where trading has a material effect (as determined by the Calculation Agent) on the overall market for futures and options contracts relating to the Index

"**Index Level**" means, in respect of any day and subject to Adjustment Provisions: (a) in respect of an Index (other than a Multiple Exchange Index), the closing level of such Index at the Valuation Time on such day; and (b) in respect of an Index that is a Multiple Exchange Index, the official closing level of the Index on such day at the Valuation Time as calculated and published by the Index Sponsor each as rounded up to four decimal places (with 0.00005 being rounded up), all as determined by the Calculation Agent.

"**Initial Index Level**" means in respect of an Index and subject to Adjustment Provisions the Index Level of such Index on the Initial Valuation Date for such Index.

"**Index Performance**" means, in relation to an Index and an Auto-Call Valuation Date or the Valuation Date, as the case may be, a percentage calculated by the Calculation Agent in respect of such date in accordance with the following formula:

$$\text{Index Performance} = \frac{\text{Final Index Level}}{\text{Initial Index Level}} \times 100\%$$

"**Index Sponsor**" means, in respect of an Index, the corporation or other entity that (i) is responsible for setting and reviewing the rules and procedures and the methods of calculation and adjustments, if any, related to such Index and (ii) announces (directly or through an agent) the level of such Index on a regular basis during or at the end of each Scheduled Trading Day or any Successor Index Sponsor, as defined in Condition 13 (*Adjustments*).

"**Initial Valuation Date**" means, in respect of an Index and subject to the Adjustment Provisions, 31 March 2020 or, if such date is not a Scheduled Trading Day for such Index the next following Scheduled Trading Day for such Index.

"**Issue Date**" means 14 April 2020.

"**Market Disruption Event**" means (a) in respect of an Index, the occurrence or existence of (i) a Trading Disruption or (ii) an Exchange Disruption, which in either case the Calculation Agent determines is material, at any time during the one hour period that ends at the relevant Valuation Time or (iii) an Early Closure, **provided that** for the purposes of determining whether a Market Disruption Event in respect of such Index exists at any time, if a Market Disruption Event occurs

in respect of a component of such Index at any time, then the relevant percentage contribution of that security to the level of such Index shall be based on a comparison of (x) the portion of the level of such Index attributable to that security and (y) the overall level of such Index, in each case immediately before the occurrence of such Market Disruption Event or (b) with respect to a Multiple Exchange Index, either:

- (a) (1) the occurrence or existence, in respect of any Component Security, of (aa) a Trading Disruption, OR (bb) an Exchange Disruption, which in either case the Calculation Agent determines is material, at any time during the one hour period that ends at the relevant Valuation Time in respect of the Exchange on which such Component Security is principally traded, OR (cc) an Early Closure, AND (2) the aggregate of all Component Securities in respect of which a Trading Disruption, an Exchange Disruption or an Early Closure occurs or exists comprises 20 per cent. or more of the level of the Index; OR
- (b) the occurrence or existence, in respect of futures or options contracts relating to the Index of: (aa) a Trading Disruption, (bb) an Exchange Disruption, which in either case the Calculation Agent determines is material, at any time during the one hour period that ends at the relevant Valuation Time in respect of the Related Exchange; or (cc) an Early Closure;

For the purposes of determining whether a Market Disruption Event exists in respect of a Multiple Exchange Index at any time, if a Market Disruption Event occurs in respect of a Component Security at that time, then the relevant percentage contribution of that Component Security to the level of the Index shall be based on a comparison of (x) the portion of the level of the Index attributable to that Component Security to (y) the overall level of the Index, in each case using the official opening weightings as published by the Index Sponsor as part of the market "opening data".

"Multiple Exchange Index" means an Index identified or specified as such in the definition of Indices.

"Notional Amount" means GBP 1.00 per Preference Share.

"Related Exchange" means, in respect of an Index, the exchange or quotation system specified as such in respect of such Index in the definition of Indices or any successor to such exchange or quotation system or any substitute exchange or quotation system to which trading in futures or options contracts relating to such Index has temporarily relocated (**provided that** the Calculation Agent has determined that there is comparable liquidity relative to the futures or options contracts relating to such Index on such temporary substitute exchange or quotation system as on the original Related Exchange).

"Related Financial Product" means any financial product which references directly or indirectly the Preference Shares.

"Relevant Nominating Body" means, in respect of an Index:

- (a) the central bank for the currency in which the Index is denominated or any central bank or other supervisor which is responsible for supervising either the Index or the administrator of the Index; or
- (b) any working group or committee sponsored by, chaired or co-chaired by, or constituted at the request of (i) the central bank for the currency in which the Index is denominated, (ii) any central bank or other supervisor which is responsible for supervising either the Index or the administrator of the Index, (iii) a group of those central banks or other supervisors or (iv) the Financial Stability Board or any part thereof;

"Replacement Index" has the meaning given to it in Condition 13(c)(ii)(A) (*Consequences of an Administrator/Benchmark Event*);

"Scheduled Closing Time" means, in respect of an Exchange or Related Exchange and a Scheduled Trading Day, the scheduled weekday closing time of such Exchange or Related

Exchange on such Scheduled Trading Day, without regard to after hours or any other trading outside of the regular trading session hours.

"Scheduled Trading Day" means (a) in respect of an Index (other than a Multiple Exchange Index), any day on which the relevant Exchange and the relevant Related Exchange for such Index are scheduled to be open for trading during their respective regular trading sessions; or (b) in respect to a Multiple Exchange Index, any day on which (i) the Index Sponsor is scheduled to publish the level of the Index and (ii) each relevant Related Exchange for such Index is scheduled to be open for trading for its regular trading session.

"Scheduled Valuation Date" means any original date that, but for the occurrence of an event causing a Disrupted Day, would have been an Initial Valuation Date, an Auto-Call Valuation Date or a Valuation Date, as applicable.

"Settlement Cycle" means in respect of an Index, the period of Clearing System Business Days following a trade in the securities underlying the Index on the relevant Exchange in which settlement will customarily occur according to the rules of such Exchange (or, in respect of a Multiple Exchange Index, the longest of such period).

"Settlement Currency" means Pounds sterling ("**GBP**").

"Shareholder" means a holder of Preference Shares in accordance with the Articles.

"Specified Maximum Number of Disrupted Days" means eight Scheduled Trading Days;

"Trading Disruption" means (a) with respect to an Index (other than a Multiple Exchange Index), any suspension of or limitation imposed on trading by the relevant Exchange or Related Exchange or otherwise and whether by reason of movements in price exceeding limits permitted by the relevant Exchange or Related Exchange or otherwise (i) on any relevant Exchange(s) relating to securities that comprise 20 per cent. or more of the level of the relevant Index, or (ii) in futures or options contracts relating to the relevant Index on any relevant Related Exchange; or (b) with respect to a Multiple Exchange Index, any suspension of or limitation imposed on trading by the relevant Exchange or Related Exchange or otherwise and whether by reason of movements in price exceeding limits permitted by the relevant exchange or Related Exchange or otherwise (i) relating to any Component Security on the Exchange in respect of such Component Security, or (ii) in futures or options contracts relating to the relevant Index on any relevant Related Exchange.

"Valuation Date" means, in respect of an Index and subject to the Adjustment Provisions, 31 March 2027 or, if such date is not a Scheduled Trading Day for such Index the next following Scheduled Trading Day for such Index.

"Valuation Time" means:

- (a) in respect of an Index (other than a Multiple Exchange Index), the Scheduled Closing Time on the relevant Exchange on the Initial Valuation Date, Auto-Call Valuation Date, the Valuation Date or such other day as determined by the Calculation Agent, as the case may be. If the relevant Exchange closes prior to its Scheduled Closing Time and the specified Valuation Time is after the actual closing time for its regular trading session, then the Valuation Time shall be such actual closing time; or
- (b) in respect of a Multiple Exchange Index, (i) for the purposes of determining whether a Market Disruption Event has occurred: (x) in respect of any Component Security, the Scheduled Closing Time on the Exchange in respect of such Component Security, and (y) in respect of any options contracts or futures contracts on the Index, the close of trading on the Related Exchange; and (ii) in all other circumstances, the time at which the official closing level of the Index is calculated and published by the Index Sponsor.

2. **Redemption, Payment and Transfer**

The Preference Shares shall not be redeemed except as provided for in the Conditions and Article 48(a) (Redemption of Redeemable Preference Shares) of the Articles shall not apply.

The method for determining the Final Preference Share Redemption Amount or the Early Preference Share Redemption Amount shall be as set out in the Conditions and Article 48(d) (Redemption of Redeemable Preference Shares) of the Articles shall not apply.

The Final Preference Share Redemption Amount or Early Preference Share Redemption Amount, as the case may be, may not be less than GBP 0.0001 and will be rounded to the nearest two decimal places in the Settlement Currency, 0.00005 being rounded downwards, **provided that** in the case of Preference Shares redeemed at the same time by the same Shareholder, such rounding shall only occur following calculation of the aggregate amounts due in respect of such Preference Shares.

2.1 **Final Redemption**

If the Preference Shares have not been previously redeemed in accordance with Condition 2.3 (*Company Call*), Condition 2.4 (*Shareholder Put*) or Condition 3 (*Early Redemption if there is an Early Preference Share Redemption Event*), each Shareholder shall have the right exercisable from and including the last occurring Valuation Date or the first Auto-Call Valuation Date on which an Auto-Call Trigger Event has occurred, as applicable, to and including the Final Preference Share Redemption Date, by giving notice to the Company, to require the Company immediately to pay or cause to be paid, and if that right is not exercised, the Company will pay or cause to be paid on the Final Preference Share Redemption Date, the Final Preference Share Redemption Amount in respect of each Preference Share in the Settlement Currency, subject to applicable laws, the Articles and the Conditions. The provisions of Article 48(a), (b) and (c) (Redemption of Redeemable Preference Shares) shall not apply to the Preference Shares.

2.2 **Payment on a Winding Up or Return of Capital**

The provisions of Articles 46(a) (Capital) and 46(b) (Capital) shall apply to the Preference Shares.

2.3 **Company Call**

The Company shall have the right exercisable during the Call and Put Period to redeem compulsorily all of the then outstanding Preference Shares at the Call and Put Redemption Amount payable on the date that right is exercised in accordance with the Articles, the Conditions and in the manner determined by the Company.

Upon the Company exercising its right in accordance with this Condition 2.3 (*Company Call*), it shall give an Early Preference Share Redemption Notice as soon as practicable to Shareholders in accordance with Condition 6 (*Notices*) of the early redemption of each of the then outstanding Preference Shares.

2.4 **Shareholder Put**

If the Company has not given notice of its right to redeem compulsorily the Preference Shares in accordance with Condition 2.3 (*Company Call*), each Shareholder shall have the right exercisable during the Call and Put Period, by giving notice to the Company, to have all of its Preference Shares redeemed at the Call and Put Redemption Amount payable on the date that right is exercised in accordance with the Articles, the Conditions and in the manner determined by the Company.

Upon the occurrence of a Shareholder exercising its right in accordance with this Condition 2.4 (*Shareholder Put*), the Company shall give an Early Preference Share Redemption Notice as soon as practicable to Shareholders in accordance with Condition 6 (*Notices*) of the early redemption of each of the then outstanding Preference Shares.

2.5 **Transfer of Preference Shares**

The Preference Shares may only be transferred if all Preference Shares in issue are transferred together to the same transferee.

3. **Early Redemption if there is an Early Preference Share Redemption Event**

If the Company, or the Calculation Agent on behalf of the Company, determines that there is an Early Preference Share Redemption Event falling within paragraphs (a) to (c) of the definition of

Early Preference Share Redemption Event, the Company, or the Calculation Agent on behalf of the Company, may, but shall not be obliged to elect to redeem early the Preference Shares by giving an Early Preference Share Redemption Notice to Shareholders in accordance with Condition 6 (*Notices*) below, and if the Company, or the Calculation Agent on behalf of the Company, determines that there is an Early Preference Share Redemption Event falling within paragraph (d) of that definition then the Company, or the Calculation Agent on behalf of the Company, must redeem early the Preference Shares by giving an Early Preference Share Redemption Notice to Shareholders in accordance with Condition 6 (*Notices*) below.

For the purposes of this Condition 3 (*Early Redemption if there is an Early Preference Share Redemption Event*) only, following the delivery of an Early Preference Share Redemption Notice, each Shareholder shall have the right exercisable from and including the Early Preference Share Valuation Date to and including the Early Preference Share Redemption Date to require the Company to redeem the Preference Shares immediately (and if that right is not exercised the Company will redeem all of the Preference Shares on the Early Preference Share Redemption Date) at the Early Preference Share Redemption Amount in respect of each Preference Share, subject to applicable laws, the Articles and the Conditions.

4. **Dividends**

In accordance with the Articles, no dividends will be paid in respect of the Preference Shares.

5. **Further Preference Shares**

The Company shall be entitled to issue further Preference Shares from time to time to be consolidated and form a single class with the Preference Shares **provided that** the rights conferred upon the Shareholders shall not be varied, amended or abrogated by the creation, allotment or issue of any further Preference Shares of the same class as the Preference Shares or any different class.

6. **Notices**

Notices to Shareholders shall be delivered to Shareholders at the address for each Shareholder set out in the register of members of the Company with a copy to the Calculation Agent. Any such notice will become effective on the first calendar day after such delivery to such address. Where a notice is being delivered in accordance with Condition 3 (*Early Redemption if there is an Early Preference Share Redemption Event*), such notice shall specify the relevant Early Preference Share Valuation Date. A copy of any Early Preference Share Redemption Notice shall also be delivered to any Hedging Counterparty.

Notices to the Company shall be delivered to the Company at the address of the registered office of the Company with a copy to the Calculation Agent. Any such notice will become effective on the first calendar day after such delivery to such address.

7. **Calculations and Determinations**

Any calculations, determinations and adjustments to be made in relation to the Conditions shall, unless otherwise specified, be made by the Calculation Agent and in such a manner as the Calculation Agent determines is appropriate acting in good faith and in a commercially reasonable manner (having regard in each case to the criteria stipulated in the Conditions and the hedging arrangements entered into with any Hedging Counterparty).

Notwithstanding that certain calculations, determinations and adjustments in the Conditions may be expressed to be on a certain date, the Calculation Agent may make such calculations, determinations and adjustments in respect of that date on a date after that date determined by it acting in good faith and in a commercially reasonable manner.

Pursuant to the Conditions the Calculation Agent has a number of discretions. These are necessary since certain circumstances or the occurrence of certain events may materially affect the costs to the Company and/or a Hedging Counterparty (including in relation to any Related Financial Product) and/or any issuer or obligor of a Related Financial Product of maintaining the Preference Shares or a Related Financial Product or hedging arrangements for the Preference Shares or a Related Financial Product, in each case before and after the occurrence of such event in a way

which has not been reflected in the pricing of the Preference Shares and/or the Related Financial Product. In addition, certain circumstances may arise where it is not reasonably practicable or otherwise not appropriate for certain valuations to be carried out in relation to relevant Index or Indices and in these circumstances the Calculation Agent also may exercise certain discretions acting in good faith and in a commercially reasonable manner.

8. **Severability**

Should any one or more of the provisions contained in the Conditions be or become invalid, the validity of the remaining provisions shall not in any way be affected thereby.

9. **Governing Law And Jurisdiction**

The Conditions and all non-contractual obligations arising from or in connection with the Conditions shall be governed by and shall be construed in accordance with English law. The English courts shall have exclusive jurisdiction to deal with any dispute and all non-contractual obligations arising from or in connection with the Conditions.

10. **Contracts (Rights of Third Parties) Act 1999**

No person shall have any rights to enforce any terms or conditions of the Preference Shares under the Contracts (Rights of Third Parties) Act 1999, but this does not affect any right or remedy of any person which exists or is available apart from the Contracts (Rights of Third Parties) Act 1999.

11. **Calculation Agent Modifications**

The Calculation Agent will employ the methodology and comply with the provisions described in the Conditions to determine the amounts payable in respect of the Preference Shares. The Calculation Agent's determination in the application of such methodology and compliance with the provisions shall be final, conclusive and binding on the Company and Shareholders except in the case of manifest error.

The Calculation Agent shall be free to modify such methodology or provisions from time to time, acting in good faith and in a commercially reasonable manner, (1) as it deems appropriate in response to any market, regulatory, juridical, fiscal or other circumstances which may arise which, in the opinion of the Calculation Agent, necessitates or makes desirable (taking into account the interests of the Company and any obligor of a Related Financial Product) a modification or change of such methodology or provisions or (2) for the purposes of (i) preserving the intended economic terms of the Preference Shares or (ii) curing any ambiguity or correcting or supplementing any provision of the Conditions or (iii) accounting for any change in the basis on which any relevant values, levels or information is calculated or provided which would materially change the commercial effect of any provision or provisions of the Conditions or (iv) replacing any information provider or source or (v) making amendments to the provisions of a formal, minor or technical nature or (vi) correcting any manifest or proven errors or (vii) making such amendments to comply with mandatory provisions of any applicable laws, **provided that** no modification by the Calculation Agent constituting a variation (or deemed variation) of the rights of the Preference Shares (or any other class of shares of the Company) for the purposes of sections 630-640 of the Companies Act 2006 and/or the Articles shall have effect unless previously approved in accordance with the Companies Act 2006 and the Articles.

Other than with respect to payments, where the Company fails to exercise any discretion or take any action provided to it in the Conditions when the exercise of such discretion or action would be necessary or desirable (as determined by the Calculation Agent), the Calculation Agent may exercise such discretion on its behalf acting in good faith and in a commercially reasonable manner.

12. **Consequences of Disrupted Days**

If any Scheduled Valuation Date in respect of an Index is a Disrupted Day in respect of such Index, then the Initial Valuation Date, the Valuation Date or the Auto-Call Valuation Date, as the case may be, for such Index shall be the first succeeding Scheduled Trading Day for such Index that is not a Disrupted Day relating to that Index, unless each of the Specified Maximum Number of Disrupted Days for such Index immediately following the relevant Scheduled Valuation Date is a

Disrupted Day relating to that Index (the "**Limit Date**"). In that case, (a) that Limit Date shall be deemed to be the Initial Valuation Date, the Valuation Date or the Auto-Call Valuation Date, as the case may be, for the relevant Index notwithstanding the fact that such day is a Disrupted Day for such Index, and (b) the Calculation Agent shall determine the level of such Index as of the Valuation Time on that Limit Date in accordance with (subject to the Adjustment Provisions), the formula for and method of calculating that Index last in effect prior to the occurrence of the first Disrupted Day using the Exchange traded or quoted price as of the Valuation Time on that Limit Date of each security comprised in that Index (or, if an event giving rise to a Disrupted Day has occurred in respect of the relevant security on that Limit Date, its good faith estimate of the value for the relevant security as of the Valuation Time on that Limit Date).

13. **Adjustments**

(a) ***Successor Index***

If a relevant Index is (i) not calculated and announced by the Index Sponsor but is calculated and published by a successor to that Index Sponsor (the "**Successor Index Sponsor**") acceptable to the Calculation Agent or (ii) replaced by a successor index using, in the determination of the Calculation Agent, the same or a substantially similar formula for and method of calculation as used in the calculation of such Index, then in each case that Index (the "**Successor Index**") will be deemed to be the Index.

(b) ***Index Adjustment Events***

If (i) on or prior to the Initial Valuation Date, the Valuation Date or an Auto-Call Valuation Date the relevant Index Sponsor announces that it will make a material change in the formula for or the method of calculating the relevant Index or in any other way materially modifies the Index (other than a modification prescribed in the formula or method to maintain that Index in the event of changes in its constituent securities, capitalisation and other routine events) (an "**Index Modification**") or permanently cancels that Index and no Successor Index exists (an "**Index Cancellation**") or (ii) on the Initial Valuation Date, the relevant Auto-Call Valuation Date or the Valuation Date, as the case may be, such Index Sponsor or, if applicable, the Successor Index Sponsor, fails to calculate and announce the relevant Index Level (an "**Index Disruption**") or (iii) at any time an Administrator/Benchmark Event occurs (together with an Index Modification, an Index Cancellation and an Index Disruption, each an "**Index Adjustment Event**"), then (A) in the case of an Index Modification or an Index Disruption, the Calculation Agent shall determine if such Index Adjustment Event has a material effect on the Preference Shares and, if so, shall calculate any relevant adjustment to the Conditions which may include, without limitation (i) an adjustment to any value, date, variable or other provision to take into account the relevant Index Adjustment Event, (ii) delaying the Initial Valuation Date, the relevant Auto-Call Valuation Date or the Valuation Date, as the case may be, until the relevant Index Adjustment Event no longer exists or (iii) determining the Index Level for such Index for each date following such change, failure or cancellation on which the Index Level is required for the purposes of the Preference Shares, using, in lieu of a published level for that Index, the level for that Index on such date as determined by the Calculation Agent in accordance with the formula for and method of calculating that Index last in effect prior to the change, failure or cancellation, but using only those securities that comprised such Index immediately prior to that Index Adjustment Event and (B) in the case of an Index Cancellation or an Administrator/Benchmark Event, the Company may, at any time thereafter, determine that all but not some only of the Preference Shares shall be redeemed in accordance with Condition 3 (*Early Redemption if there is an Early Preference Share Redemption Event*).

(c) ***Consequences of an Administrator/Benchmark Event***

- (i) If the Calculation Agent determines that an Administrator/Benchmark Event has occurred in relation to a relevant Index, then the Calculation Agent shall do any of the following:

- (A) determine that references to such Index shall be deemed to be replaced by references to such index, benchmark or price source as the Calculation Agent determines would have the effect of placing the Company and/or the issuer of any Related Financial Product in an economically equivalent position to that which it would have been in had the Administrator/Benchmark Event not occurred (the "**Replacement Index**") (and in making such determination the Calculation Agent shall be entitled to take into account such facts and circumstances as it considers relevant including, without limitation, (i) any index, benchmark or other price source which measures the same market or economic reality as the Index and which is formally designated, nominated or recommended by the administrator or sponsor of the Index or (ii) any index, benchmark or other price source which is formally designated, nominated or recommended by any Relevant Nominating Body, in each case to replace the Index), in which case:
- (1) references to such Index shall be deemed to be replaced with references to such Replacement Index with effect from the Administrator/Benchmark Event Determination Date; and
 - (2) the Calculation Agent shall make such other adjustments to the Conditions as it determines are necessary to account for the effect on the Preference Shares of referencing the Replacement Index in place of such Index including, without limitation, to any variable, margin, calculation methodology, valuation, settlement, payment terms or any other terms of the Preference Shares; or
- (B) follow the steps for determining the relevant level of the Affected Index set out in Condition 13(b) (*Index Adjustment Events*) as if the Administrator/Benchmark Event were an Index Cancellation;
- (C) determine that the Preference Shares shall be redeemed in accordance with Condition 3 (*Early Redemption if there is an Early Preference Share Redemption Event*);

provided, however, that if (x) it is or would be unlawful at any time under applicable law or regulation or (y) it would contravene any applicable licensing requirements, in each case, for any of the above provisions or determinations to apply to the Preference Shares, then such provision shall not apply and the Calculation Agent shall not make such determination (as the case may be) and the Calculation Agent shall instead take any of the above actions that complies with the applicable law, regulation or licensing requirements.

- (ii) In making any determination under this Condition 13(c), the Calculation Agent shall take account of such facts and circumstances as it considers relevant, including, without limitation, any determinations made in respect of any hedging arrangements in relation to any Related Financial Product (including in respect of any termination or re-establishment of hedging arrangements) and the funding costs of the issuer of any Related Financial Product.
- (iii) If the Calculation Agent is not able to determine the Index in accordance with the provisions of this Condition 13(c) on any Index Determination Date, then the Index Determination Date shall be postponed to such date as it is able to make such determination and any Index Related Payment Date will also be postponed, if needed, such that the Related Payment Date shall fall at least three (3) Business Days] following the postponed Index Determination Date.
- (iv) No further payment on account of interest or otherwise shall be due in respect of any payment postponed pursuant to this Condition 13(c).

- (v) The Calculation Agent shall promptly following the determination of any replacement for an Index pursuant to this Condition 13(c) give notice thereof and of any changes pursuant to paragraph (i)(A)(2) to the Company and the holders of the Preference Shares.
- (vi) Without prejudice, in the case of any Index-Linked Preference Shares, to the provisions of Condition 13(b) (*Index Adjustment Events*) in relation to an Index Modification, if the definition, methodology or formula for an Index, or other means of calculating the Index, is changed, then references to such Index shall be to such Index as so changed.

14. **Additional Disruption Events**

- (a) Following the occurrence of an Additional Disruption Event, the Calculation Agent will determine whether or not the Preference Shares shall continue or be redeemed early.
- (b) If the Calculation Agent determines that the Preference Shares shall continue, the Calculation Agent may make such adjustment as it considers appropriate, if any, to any one or more of the Conditions to account for the Additional Disruption Event and determine the effective date of that adjustment.
- (c) If the Calculation Agent determines that the Preference Shares shall be redeemed early, then the Company shall redeem all but not some only of the Preference Shares in accordance with Condition 3 (*Early Redemption if there is an Early Preference Share Redemption Event*).
- (d) Upon the occurrence of an Additional Disruption Event, the Company, or the Calculation Agent on behalf of the Company, shall give notice as soon as practicable to the Shareholders stating the occurrence of the Additional Disruption Event, giving details thereof and the action proposed to be taken in relation thereto **provided that** any failure to give, or non-receipt of, such notice will not affect the validity of the Additional Disruption Event.

"Additional Disruption Event" means any of Change in Law, Hedging Disruption and/or Increased Cost of Hedging.

"Change in Law" means that on or after the Issue Date, (i) due to the adoption of or any change in any applicable law or regulation (including, without limitation, any tax law), or (ii) due to the promulgation of or any change in the interpretation by any court, tribunal or regulatory authority with competent jurisdiction of any applicable law or regulation (including any action taken by a taxing authority), the Company determines that (A) it has become illegal for the Company or the Hedging Counterparty to hold, acquire or dispose of any securities comprising any Index or it has become illegal for the Company or the Hedging Counterparty to hold, acquire, purchase, sell or maintain one or more (x) positions or contracts in respect of any securities, options, futures, derivatives or foreign exchange in relation to the Preference Shares, any Related Financial Product, or in relation to the Company's or the Hedging Counterparty's hedging activities in connection with the Preference Shares or any Related Financial Product (y) stock loan transactions in relation to the Preference Shares or any Related Financial Product or (z) other instruments or arrangements (howsoever described) held by the Company or the Hedging Company in order to hedge, individually or on a portfolio basis, the Preference Shares or any Related Financial Product relating to any Index or (B) the Company or any Hedging Counterparty will incur a materially increased cost in performing its obligations in relation to the Preference Shares or any Related Financial Product (including, without limitation, due to any increase in tax liability, decrease in tax benefit or other adverse effect on the tax position of the Company and/or any Hedging Counterparty).

"Hedging Disruption" means that the Company and/or any Hedging Counterparty is unable, after using commercially reasonable efforts, to (i) acquire, establish, re-establish, substitute, maintain, unwind or dispose of any transaction(s) or asset(s) it deems necessary to hedge the equity or other price risk of the Company issuing and performing its obligations with respect to the Preference Shares or of any obligor of a Related Financial Product issuing and performing its obligations with respect to a Related Financial Product, or (ii) realise, recover or remit the proceeds of any such transaction(s) or asset(s).

"Increased Cost of Hedging" means that the Company and/or any Hedging Counterparty would incur a materially increased (as compared with circumstances existing on the Issue Date) amount of tax, duty, expense or fee (other than brokerage commissions) to (i) acquire, establish, re-establish, substitute, maintain, unwind or dispose of any transaction(s) or asset(s) it deems necessary to hedge the equity or other price risk of the Company issuing and performing its obligations with respect to the Preference Shares or of any obligor of a Related Financial Product issuing and performing its obligations with respect to a Related Financial Product, or (ii) realise, recover or remit the proceeds of any such transaction(s) or asset(s), **provided that** any such materially increased amount that is incurred solely due to the deterioration of the creditworthiness of the Company and/or any Related Financial Product obligor shall not be deemed an Increased Cost of Hedging.

15. **Correction of Index Levels**

If the level of an Index published by the Index Sponsor at any time and used or to be used by the Calculation Agent for any calculation or determination under the Preference Shares is subsequently corrected and the correction is published by such Index Sponsor within one Settlement Cycle after the original publication, the Calculation Agent will make such adjustment as it determines to be appropriate, if any, to the settlement or payment terms of the Preference Shares to account for such correction **provided that** if any amount has been paid in an amount which exceeds the amount that would have been payable if the correction had been taken into account, no further amount in an amount at least equal to the excess is payable in respect of the Preference Shares and the Calculation Agent determines that it is not practicable to make such an adjustment to account fully for such correction, the Company shall be entitled to reimbursement of the relevant excess payment (or, as the case may be, the proportion thereof not accounted for by an adjustment made by the Calculation Agent) by the relevant Shareholder, together with interest on that amount for the period from and including the day on which payment was originally made to (but excluding) the day of payment of reimbursement by the Shareholder (all as calculated by the Calculation Agent). Any such reimbursement shall be effected in such manner as the Company shall determine.

CALCULATION AGENT DISCLAIMERS

The Calculation Agent makes no express or implied representations or warranties as to (a) the advisability of investing in or obtaining exposure to the Preference Shares, (b) the value of the Preference Shares at any particular time on any particular date, or (c) any amounts that may become payable in respect of the Preference Shares. The Calculation Agent shall not act as agent or trustee for the holders of the Preference Shares or any Related Financial Product.

Without limiting any of the foregoing, in no event shall the Calculation Agent have any liability (whether in negligence or otherwise) to any Shareholders or Related Financial Product investors for any direct, indirect, special, punitive, consequential or any other damages (including loss of profits) even if notified of the possibility of such damages.

In addition, to providing calculation agency services to the Company, the Calculation Agent or any of its Affiliates, may perform further or alternative roles relating to the Company and any series of Preference Shares. Furthermore, the Calculation Agent or any of its Affiliates may contract with the Company and/or enter into transactions which relate to the Company, the Preference Shares or the Indices and as a result the Calculation Agent may face a conflict between its obligations as Calculation Agent and its and/or its Affiliates' interests in other capacities. Subject to all regulatory obligations, neither the Company nor the Calculation Agent in respect of the Preference Shares owes any duty or responsibility to any Shareholder or Related Financial Product investor to avoid any conflict or to act in the interest of any Shareholder or Related Financial Product investor.

ISSUE SPECIFIC SUMMARY

This section provides an overview of information included in this Base Prospectus. It includes blank placeholders for options provided for under the Programme which will only be known at the time of each issuance of Notes. A completed summary of each individual issue will be annexed to the relevant Final Terms.

Summaries are made up of disclosure requirements known as "Elements". These elements are numbered in Sections A – E (A.1 – E.7).

This summary contains all the Elements required to be included in a summary for this type of securities and issuer. Because some Elements are not required to be addressed, there may be gaps in the numbering sequence of the Elements.

Even though an Element may be required to be inserted in the summary because of the type of securities and issuer, it is possible that no relevant information can be given regarding the Element. In this case a short description of the Element is included in the summary with the mention of "Not Applicable".

A.1	Introduction and Warnings:	<p>This summary must be read as an introduction to this prospectus and any decision to invest in the Notes should be based on a consideration of the prospectus as a whole by the investor, including any information incorporated by reference and read together with the relevant final terms.</p> <p>Where a claim relating to the information contained in the prospectus is brought before a court in a Member State of the European Economic Area, the claimant may, under the national legislation of the Member States, be required to bear the costs of translating the prospectus before the legal proceedings are initiated.</p> <p>Civil liability attaches only to those persons who have tabled this summary including any translation thereof, but only if this summary is misleading, inaccurate or inconsistent when read together with the other parts of the prospectus or it does not provide, when read together with the other parts of the prospectus, key information in order to aid investors when considering whether to invest in such Notes.</p>
A.2	Consent by the Issuer to the use of the prospectus in subsequent resale or final placement of the Notes, indication of offer period and conditions to consent for subsequent resale or final placement and warning:	<p>The Issuer expressly consents to the use of the prospectus in connection with an offer of Notes in circumstances where there is no exemption from the obligation under the Prospectus Directive to publish a prospectus (a "Public Offer") of the Notes by the Dealer and Meteor Asset Management Ltd (the "Authorised Offerors") during the period from and including 27 February 2020 to but excluding 31 March 2020 (the "Offer Period") and in the United Kingdom only (the "Public Offer Jurisdiction"), provided that the relevant Authorised Offeror is authorised to make such offers under the Markets in Financial Instruments Directive (Directive 2004/39/EC) and any other applicable laws. The Issuer also accepts responsibility for the content of the prospectus with respect to the subsequent resale or final placement of the Notes by the Authorised Offerors.</p> <p>The Authorised Offeror will provide information to investors on the terms and conditions of the Public Offer of the relevant Notes at the time such Public Offer is made by the Authorised Offeror to the investors.</p>
Section B – Issuer		
B.1	Legal and commercial name of the Issuer:	The legal name of the issuer is HSBC Bank plc (the " Issuer ") and, for the purposes of advertising, the Issuer uses an abbreviated version of its name, HSBC.
B.2	Domicile and legal form of the Issuer, the	The Issuer is a public limited company registered in England and Wales under registration number 14259. The liability of its members is limited. The Issuer was constituted by Deed of Settlement on 15 August 1836 and in 1873,

	<p>legislation under which the Issuer operates and its country of incorporation:</p>	<p>registered under the Companies Act 1862 as an unlimited company. It was re-registered as a company limited by shares under the Companies Acts 1862 to 1879 on 1 July 1880. On 1 February 1982 the Issuer re-registered under the Companies Acts 1948 to 1980 as a public limited company.</p> <p>The Issuer is subject to primary and secondary legislation relating to financial services and banking regulation in the United Kingdom, including, <i>inter alia</i>, the UK Financial Services and Markets Act 2000, as amended, for the purposes of which the Issuer is an authorised person carrying on the business of financial services provision. In addition, as a public limited company, the Issuer is subject to the UK Companies Act 2006.</p>
<p>B.4b</p>	<p>Known trends affecting the Issuer and the industries in which it operates:</p>	<p>Following the general election on 12 December 2019, the UK's political landscape has changed substantially. With a large majority in Parliament, the government presided over Brexit – the UK's withdrawal from the European Union ('EU') on 31 January 2020. After a transition period lasting until the end of 2020, the UK is set to move to a new trading relationship with the EU. The UK economy continues to face uncertainties. First, it remains to be seen what form the UK's future relationship with the EU, and other trading partners, will take. Second, the government has yet to outline its fiscal plans in detail – they will be set out at the Budget on 11 March 2020. Third, the economic data are sending mixed – and not always encouraging – signals. On the data, the economy saw zero growth in the final quarter of 2019, following a 0.5% increase in the third quarter. Annual retail sales growth in November dropped below 1% for the first time in more than a year and a half, and annual consumer price inflation sunk to 1.3% in December, well below the Bank of England's 2% target. Importantly though, these data refer to activity taking place around the time of the election, when political uncertainty was elevated. Business surveys point to a post-election boost to economic growth, but it is unclear how large and sustained that will be. Given these continued uncertainties, HSBC Research maintains a cautious outlook. Its forecast is for below-average GDP growth of 1.1% in 2020, then an acceleration to 1.4% in 2021, driven, in part, by looser fiscal policy. But this subdued outlook is unlikely to deliver much inflationary pressure. Given that, HSBC Research forecasts Bank Rate to be reduced from 0.75% to 0.50% in May this year, then to remain on hold until at least the end of 2021.</p> <p>Eurozone real economic growth saw a slight slowdown through the course of 2019. Having started the year at 1.4%, the annual pace of economic growth slowed to 1.0% in the fourth quarter. While the slowdown has been modest, it masks big divergences across sectors and countries. Household spending growth has picked up slightly and investment has been surprisingly resilient. But there has been significant weakness in trade and industry. This weakness has been felt most acutely in Germany, where the manufacturing sector has been in recession for more than a year. That said, there are early signs that the eurozone has left the worst of the manufacturing weakness behind it – having slumped earlier in the year, manufacturing indicators have broadly stabilised. Alongside the slowdown in economic growth, the annual 'core' rate of eurozone consumer price inflation, which strips out volatile energy and food prices, remains low, at 1.1% in the January 'flash' estimate. But of course, this is still materially below the European Central Bank's ('ECB') target of 'below, but close to, 2%'. Given the stabilisation in leading indicators, HSBC Research forecasts quarterly economic growth to pick up very gradually over the next two years. However, full-year eurozone economic growth in 2020 is expected to be soft, at 0.7%, while growth in 2021 is expected to be only a little firmer, at 1.0%. Fiscal policy is likely to be somewhat supportive, but a large scale stimulus package seems unlikely. Against this subdued growth backdrop, HSBC Research expects eurozone inflation to remain below the ECB's target through this year and next. Monetary policy is likely to remain highly accommodative – the ECB is expected to keep rates on hold through 2020 and 2021, with the deposit rate</p>

		at -0.50%. An openended Asset Purchase Programme (quantitative easing) is also set to continue.
B.5	The group and the Issuer's position within the group:	<p>The whole of the issued ordinary and preference share capital of the Issuer is beneficially owned by HSBC UK Holdings Limited. B.13	Recent events particular to the Issuer which are to a material extent relevant to the evaluation of the Issuer's solvency:	Not Applicable. There have been no recent events particular to the Issuer which are to a material extent relevant to the evaluation of its solvency.																																																																																								

B.14	Dependence upon other entities within the group:	The Issuer is an indirectly wholly owned subsidiary of HSBC Holdings. The Issuer and its subsidiaries form a UK head-quartered group (the " Group ") with subsidiaries in continental Europe and the UK. The Issuer conducts part of its business through its subsidiaries and is accordingly dependent upon those members of the Group as well as certain members of the wider HSBC Group, including HSBC Global Services (UK) Limited, which provides support services to the Issuer and to HSBC UK Bank plc.
B.15	The Issuer's principal activities:	The Group provides a comprehensive range of banking and related financial services. The Group divides its activities into four business segments: Retail Banking and Wealth Management; Commercial Banking; Global Banking and Markets; and Global Private Banking.
B.16	Controlling persons:	The whole of the issued ordinary and preference share capital of the Issuer is beneficially owned by HSBC UK Holdings Limited. HSBC UK Holdings Limited is a wholly and directly owned subsidiary of HSBC Holdings.
B.17	Credit ratings:	The Issuer has been assigned the following long term credit ratings: AA- by S&P Global Ratings Europe Limited (" Standard & Poor's "); Aa3 by Moody's Investors Service Limited (" Moody's "); and A+ by Fitch Ratings Limited (" Fitch "). The Notes to be issued have not been rated.
Section C – Securities		
C.1	Description of type and class of securities:	<p>Issuance in series:</p> <p>Notes will be issued in series ("Series") which may comprise one or more tranches ("Tranches"). Each Tranche issued under a Series will have identical terms, except that different Tranches may comprise Notes in bearer form ("Bearer Notes"), registered form ("Registered Notes") or uncertificated registered form ("Uncertificated Registered Notes"). The issue dates and issue prices of different Tranches may also vary.</p> <p>The Bearer Notes being issued are Tranche 1 Notes (the "Notes").</p> <p>Form of Notes:</p> <p><i>Bearer Notes in global form:</i></p> <p>Bearer Notes will initially be issued as temporary global Notes exchangeable for permanent global Notes which are exchangeable for definitive Bearer Notes.</p> <p>Bearer Notes will be issued in global note form and deposited with a common depository for Euroclear Bank SA/NV ("Euroclear") and/or Clearstream Banking, S.A. ("Clearstream, Luxembourg"). Changes in beneficial interests in such Bearer Notes will be recorded as book-entries in the accounts of Euroclear and/or Clearstream, Luxembourg.</p> <p>Security Identification Numbers:</p> <p>The Bearer Notes have been accepted for clearance through Euroclear and/or Clearstream, Luxembourg and will be allocated the following Security Identification Numbers:</p> <p>ISIN Code: XS2123356904 Common Code: 212335690 Other identifier/code: Not Applicable SEDOL: Not Applicable</p>
C.2	Currency of the securities issue:	The settlement currency of the Notes is GBP (the " Settlement Currency ").
C.5	Description of any restrictions	The Notes are freely transferable. However, there are restrictions on the offer and sale of the Notes and the Issuer and HSBC Bank Plc (the " Dealers ") have

	<p>on the free transferability of the securities:</p>	<p>agreed restrictions on the offer, sale and delivery of the Notes and on distribution of offering materials in the European Economic Area (including the United Kingdom), Guernsey, Isle of Man, Jersey and the United States of America.</p>
<p>C.8</p>	<p>The rights attaching to the securities, including ranking and limitations to those rights:</p>	<p>Status of the Notes: The Notes issued will be direct, unsecured and unsubordinated obligations of the Issuer and will rank equally and without preference among themselves and, at their date of issue, with all other unsecured and unsubordinated obligations of the Issuer (unless preferred by law).</p> <p>Interest Payments: The Notes will not be interest-bearing.</p> <p>Redemption of the Notes at Maturity: The Notes will be redeemed on their maturity date, unless they are subject to early redemption.</p> <p>Early redemption of the Notes: In addition the Notes may be redeemed prior to their stated maturity in the following circumstances:</p> <p><i>For illegality:</i> at the option of the Issuer if the Calculation Agent determines that the performance of the Issuer's obligations has become unlawful or impracticable in whole or in part for any reason.</p> <p><i>For taxation reasons:</i> at the option of the Issuer if the Issuer were required under the terms and conditions of the Notes (the "Conditions") to pay additional amounts in respect of tax.</p> <p><i>For a Preference Share Early Redemption Event:</i> following the receipt by the Issuer or any of its affiliates of a notice from Eukairos Investments Limited (the "Preference Share Issuer") that the relevant series of preference shares issued by the Preference Share Issuer (the "Preference Shares") are to be redeemed early.</p> <p><i>For an Extraordinary Event and/or Additional Disruption Event:</i> at the option of the Issuer if the Calculation Agent determines that a merger event, tender offer or insolvency (each, an "Extraordinary Event") and/or change in law or insolvency filing (each, an "Additional Disruption Event") has occurred in relation to the Preference Shares and/or the Preference Share Issuer.</p> <p><i>For an Event of Default:</i> at the option of the Noteholder in the following circumstances: (i) a continuing default in the repayment of any amount due on the Notes for more than 14 days, provided that the reason for non-payment is not compliance with any fiscal or other law or regulation or court order, or that there is doubt as to the validity of such law, regulation or order in accordance with independent legal advice from advisers which is acceptable to HSBC Bank plc, acting in its capacity as principal paying agent (the "Principal Paying Agent"); or (ii) the passing of a winding-up order in relation to the Issuer.</p> <p>Payments of Principal: Payments of principal in respect of Notes will in all cases be calculated by reference to the percentage change in value of one or more Preference Shares issued by the Preference Share Issuer in respect of the relevant series of Notes. The terms of each series of Preference Shares will be contained in the Articles of Eukairos Investments Limited and the Preference Share terms and conditions relating to such series, which will be annexed to the Final Terms.</p> <p>The redemption price of each class of Preference Shares will be calculated by reference to an index or a basket of indices (the "Underlying"). The Underlying for the Notes is an index.</p> <p>Modification and substitution: Modifications to the Conditions may be made without the consent of any Noteholders provided that: (i) the modification is not materially prejudicial to the interest of Noteholders; (ii) the modification is of a formal, minor or technical nature or is made to correct a manifest error or to comply with mandatory provisions of the law of the Issuer's jurisdiction of</p>

		<p>incorporation; or (iii) the modification corrects an inconsistency between the Final Terms and the relevant termsheet relating to the Notes. The Notes permit the substitution of the Issuer with an affiliate without the consent of any Noteholders where the Issuer provides an irrevocable guarantee of the affiliate's obligations.</p> <p>Meetings of Noteholders: The Conditions contain provisions for calling meetings of Noteholders to consider matters affecting their interests generally. These provisions permit defined majorities to bind all Noteholders including Noteholders who did not attend and vote at the relevant meeting and Noteholders who voted in a manner contrary to the majority.</p> <p>No guarantee or security: The Notes are the obligations of the Issuer only and are unsecured.</p> <p>Taxation: All payments by the Issuer of any amount in respect of the Notes will be made without deduction of any taxes, duties and other similar charges, including United Kingdom taxes unless the Issuer is required by law to withhold or deduct any such taxes. Noteholders may be liable for and/or subject to any taxes, duties and other similar charges, including withholding tax, stamp duty, stamp duty reserve tax and/or similar transfer taxes, payable in respect of the Notes.</p> <p>Governing Law: English law.</p>
C.9	<p>The rights attaching to the securities, the nominal interest rate, the date from which interest becomes payable and due dates for interest, where the rate is not fixed a description of the underlying on which it is based, maturity date and arrangements for amortisation of the loan including repayment procedures, an indication of yield and the name of the representative of debt security holders:</p>	<p>The Notes will be issued on 16 April 2020 (the "Issue Date") at 100 per cent. of their aggregate principal amount (the "Issue Price"). The Notes will not be interest-bearing.</p> <p>Representative of the Noteholders: Not Applicable. There is no representative appointed to act on behalf of the Noteholders.</p>
C.10	<p>Derivative components in interest payment:</p>	<p>Not Applicable. The Notes will not be interest-bearing.</p>
C.11	<p>Listing and trading:</p>	<p>Application will be made to admit the Notes to the Official List of the United Kingdom Financial Conduct Authority and to trading on the regulated market of the London Stock Exchange plc.</p>

C.15	<p>Description of how the value of the investment is affected by the value of the underlying instrument:</p>	<p>The performance of an Underlying determines the redemption price and final value of a series of Preference Shares issued by Eukairos Investments Limited, a company incorporated in England which is independent of the Issuer and whose business consists of the issuance of Preference Shares.</p> <p>The percentage change in the final value of the relevant Preference Share compared to its issue price is then used to calculate the value and return on the Notes.</p> <p>As a result, the potential effect of the value of the Underlying on the return on the Notes means that investors may lose some or all of their investment.</p> <p>For the avoidance of doubt, the Notes are not backed by or secured on the Preference Shares and, accordingly, only a nominal amount of the Preference Shares may be issued by Eukairos Investments Limited regardless of the principal amount of the Notes issued by the Issuer.</p> <p>In this section, for ease of explanation rather than refer to the Notes being linked to the value of the Preference Share which is in turn linked to the Underlying, the Notes (including the return on the Notes) are described as being linked to the Underlying.</p> <p>The redemption amount of the Notes is linked to the performance of the FTSE® 100 Index ("Index").</p> <p>A Noteholder will be entitled to the following cash amounts in respect of each Note, namely:</p> <ul style="list-style-type: none"> • if the Notes are redeemed on their stated maturity date, a "Final Redemption Amount"; or • as the Notes are "Autocallable Redemption Notes", if the Notes are redeemed prior to their stated maturity in the circumstances described below, an "Early Redemption Amount". <p>The basis for calculating the Final Redemption Amount is:</p> <p>"Autocallable Redemption Notes". Accordingly, a Noteholder is entitled to an amount per Note equal to the principal amount of the Note multiplied by the following:</p> <p>If Index Performance is equal to or greater than the Final Trigger Level, then 156.00%</p> <p>If Index Performance is less than the Final Trigger Level, and</p> <ul style="list-style-type: none"> • Final Index Level is equal to or greater than the product of the Initial Index Level and the Barrier Level, then 100% • Final Index Level is less than the product of the Initial Index Level and the Barrier Level, then Index Performance <p>For the purposes of the above:</p> <p>"Barrier Level" means 65%, being the percentage against which the performance of the Index will be measured in order to determine the Final Redemption Amount.</p> <p>"Final Trigger Level" means 85%, being a percentage against which the performance of the Index will be measured in order to determine the Final Redemption Amount.</p> <p>"Index Performance" means in respect of an Index the percentage appreciation or depreciation of level of such Index compared to the initial index level for such Index which is specified in the relevant Final Terms.</p> <p>"Initial Index Level" means in respect of an Index the initial level of such Index on the initial valuation date.</p>

C.17	Settlement procedure:	All payments to Noteholders will be paid through Euroclear and/or Clearstream, Luxembourg.	
C.18	Return on securities:	<p>The Notes do not bear interest.</p> <p>The Notes entitle holders to cash payments and do not entitle a Noteholder to physical delivery of Preference Shares.</p> <p>Unless redeemed early, the Notes will be automatically redeemed on the Maturity Date, at which time the Noteholder will be entitled to receive the Final Redemption Amount (if any).</p>	
C.19	Exercise price or final reference price of the underlying:	<p>The performance of an underlying index or the worst performing index in a basket of indices determines the redemption price of a series of Preference Shares. Such redemption price is used to calculate the final value of such Preference Shares. The percentage change in the final value of the Preference Shares compared to its issue price is then used to calculate the return on the Notes. As a result, the potential effect of the value of the Index or Indices on the return on the Notes means that investors may lose some or all of their investment.</p> <p>The calculations which are required to be made to calculate the Final Redemption Amount and any early redemption amount, will be based on the level of the Index or the level of the worst performing of the Indices comprised in a basket of Indices (the "Index Level") determined by the Calculation Agent being HSBC France. The Calculation Agent will determine the Index Level by reference to the level of the relevant Index quoted on a particular exchange or quotation system at a valuation time.</p>	
C.20	Type of the underlying:	<p>The underlying for the Notes is one index, namely the FTSE® 100 Index.</p> <p>Information on the Index can be found at the websites of the London Stock Exchange.</p> <p>In this section, for ease of explanation rather than refer to the Notes being linked to the value of the Preference Share which is in turn linked to the Index. Notes (including the return on the Notes) are described as being linked to the Index.</p>	
Section D – Risks			
D.2	Key risks specific to the Issuer:	<p><i>A description of the key risk factors relating to the Issuer that may affect the ability of the Issuer to fulfil its obligations to investors in relation to any of its debt or derivative securities is set out below. The occurrence of any of these events or circumstances could have a material adverse effect on the Issuer's business, financial condition, results of operations and prospects.</i></p>	
		<p><i>The UK's withdrawal from the EU may adversely affect the Issuer's operating model and financial results:</i></p> <p>The circumstances of the United Kingdom's ("UK") withdrawal from the European Union ("EU") will likely have a significant impact on general economic conditions in the UK and the EU. The UK's future relationship with the EU and its trading relationships with the rest of the world will likely take a number of years to resolve. This may result in a prolonged period of uncertainty, unstable economic conditions and market volatility, including currency fluctuations.</p> <p>The Issuer also expects the UK's withdrawal to have implications for the Issuer's London-based cross-border operations, to the extent they rely on unrestricted access to the European financial services market. The extent of these</p>	

	<p>implications will depend on the outcome of negotiations. To ensure continuity of service, independent of the outcome of negotiations, the Issuer assumes a scenario whereby the UK withdraws from the EU without the existing passporting or regulatory equivalence framework that supports cross-border business. This scenario would impact (i) the Group's legal entities in the UK and the EU, (ii) the Issuer's product offering, (iii) the Issuer's clients and (iv) the Issuer's employees.</p> <p>The Issuer is taking steps to prepare for the UK leaving the EU in 2019. This process involves execution risks, many of them linked to the uncertain outcome of negotiations and potentially tight timelines to implement significant changes to the Issuer's UK and European operating models. If these risks materialise, the Issuer's clients and employees are likely to be affected. The exact impact on the Issuer's clients will depend on their individual circumstances and, in a worst-case scenario, could include disruption to the provision of products and services.</p>
	<p><i>The Issuer is likely to be affected by global geopolitical trends, including the risk of government intervention:</i></p> <p>While economic globalisation appears to remain deeply embedded in the international system, it is increasingly challenged by nationalism and protectionism, and international institutions may be less capable of arresting this trend. In Europe, for example, there remains an uncertain economic and political outlook, particularly in light of the UK's anticipated withdrawal from the EU. A gradual shift in global power from the United States of America ("U.S.") and Europe towards China and emerging markets also appears to be occurring and may continue. Furthermore, sanctions targeting the Russian government, institutions and individuals have had (and are continuing to have) an adverse effect on the Russian economy, and further sanctions may be possible. A rise in nationalism and protectionism, including trade barriers, may be driven by populist sentiment and structural challenges facing developed economies. Similarly, if capital flows are disrupted, some emerging markets may impose protectionist measures that could affect financial institutions and their clients, and other emerging, as well as developed, markets, may be tempted to follow suit. This rise could contribute to weaker global trade, potentially affecting the Issuer's traditional lines of business.</p> <p>The Issuer's geographic coverage will make it and its customers susceptible to protectionist measures taken by national governments and authorities, including imposition of trade tariffs, restrictions on market access, restrictions on the ability to transact on a cross-border basis, expropriation, restrictions on international ownership, interest rate caps, limits on dividend flows and increases in taxation. There may be uncertainty as to the conflicting nature of such measures, their duration, the potential for escalation, and their potential impact on global economies. Whether these emerging trends are cyclical or permanent is hard to determine, and their causes are likely to be difficult to address.</p>
	<p><i>The Issuer remains susceptible to a wide range of cyber risks that impact and/or are facilitated by technology:</i></p> <p>The threat from cyber-attacks remains a concern for the Issuer's organisation, and failure to protect the Issuer's operations from internet crime or cyber-attacks may result in financial loss, business disruption and/or loss of customer services and data or other sensitive information that could undermine its reputation and its ability to attract and keep customers.</p> <p>Destructive malware (including ransomware), distributed denial of service attacks and organised cyber criminals targeting payments are increasingly dominant threats across the industry. Although cyber- attacks in 2018 had a negligible effect on the Issuer's customers, services or firm, due to the increasing sophistication of cyber-attacks there is the potential for future</p>

		attacks to have a material adverse effect on the Issuer's business, financial condition, results of operations, prospects and reputation.
		<p><i>The Issuer could incur losses or be required to hold additional capital as a result of model limitations or failure:</i></p> <p>The Issuer uses models for a range of purposes in managing its business, including regulatory capital calculations, stress testing, credit approvals, calculation of ECLs on an IFRS 9 basis, financial crime and fraud risk management and financial reporting.</p> <p>Regulatory scrutiny and supervisory concerns over banks' use of models is considerable, particularly the internal models and assumptions used by banks in the calculation of regulatory capital. If regulatory approval for key capital models is not achieved in a timely manner, the Issuer could be required to hold additional capital.</p> <p>Evolving regulatory requirements have resulted in changes to the Issuer's approach to model risk management, which poses execution challenges. The adoption of more sophisticated modelling approaches and technology by both the Issuer and the financial services industry could also lead to increased model risk.</p>
		<p><i>The Issuer's operations are highly dependent on HSBC Group's information technology systems:</i></p> <p>The reliability and security of the HSBC Group's information and technology infrastructure and customer databases are crucial to maintaining the service availability of banking applications and processes and to protecting the HSBC brand. The proper functioning of the HSBC Group's payment systems, financial control, risk management, credit analysis and reporting, accounting, customer service and other information technology systems, as well as the communication networks between the Issuer's branches and main data processing centres, are critical to the Issuer's operations.</p> <p>Critical system failure, any prolonged loss of service availability or any material breach of data security, particularly involving confidential customer data, could cause serious damage to the Issuer's ability to service its clients, could breach regulations under which it operates and could cause long-term damage to its business and brand that could have a material adverse effect on the Issuer's business, financial condition, results of operations, prospects and reputation.</p>
		<p><i>Third parties may use the Issuer as a conduit for illegal activities without the Issuer's knowledge:</i></p> <p>The Issuer is required to comply with applicable anti-money laundering ("AML") laws and regulations and has adopted various policies and procedures, including internal control and 'know-your-customer' procedures, aimed at preventing use of its products and services for the purposes of committing or concealing financial crime.</p> <p>A number of remedial actions have been taken as a result of the matters related to HSBC Holdings' expired U.S. deferred prosecution agreement with the U.S. Department of Justice, which are intended to ensure that the HSBC Group's businesses are better protected in respect of these risks. However, there can be no assurance that these will be completely effective. Moreover, in relevant situations and where permitted by regulation, the Issuer may rely upon certain counterparties to maintain and properly apply their own appropriate AML procedures. While permitted by regulation, such reliance may not be effective in preventing third parties from using the Issuer (and the Issuer's relevant counterparties) as a conduit for money laundering, including illegal cash operations, without the Issuer's knowledge (and that of the Issuer's relevant counterparties). Becoming a party to money laundering, association</p>

		with, or even accusations of being associated with, money laundering will damage the Issuer's reputation and could make it subject to fines, sanctions and/or legal enforcement.
		<p><i>The Issuer may suffer losses due to employee misconduct:</i></p> <p>The Issuer's businesses are exposed to risk from potential non-compliance with HSBC Group policies, including the "HSBC Values" (the HSBC Values describe how the Issuer's employees should interact with each other and with customers, regulators and the wider community) and related behaviours, and employee misconduct, such as fraud or negligence, all of which could result in regulatory sanctions and/or reputational or financial harm. In recent years, a number of multinational financial institutions have suffered material losses due to the actions of 'rogue traders' or other employees. It is not always possible to deter employee misconduct and the precautions the Issuer takes to prevent and detect this activity may not always be effective.</p>
		<p><i>The Issuer's data management policies and processes may not be sufficiently robust:</i></p> <p>Critical business processes across the Group rely on large volumes of data from a number of different systems and sources. If data governance (including data retention and deletion, data quality and data architecture policies and procedures) is not sufficiently robust, manual intervention, adjustments and reconciliations may be required to reduce the risk of error in the Group's external reports or in reporting to senior management or regulators. Inadequate policies and processes may also affect the Issuer's ability to use data within the Group to service customers more effectively and/or improve the Issuer's product offering. Moreover, financial institutions that fail to comply with in-country (local) and global regulatory and compliance requirements may face supervisory measures. In addition, failure to comply with emerging and recently implemented laws and regulations concerning data privacy and localisation in a number of jurisdictions across the globe may result in regulatory sanctions which could be significant.</p>
		<p><i>The Issuer relies on recruiting, retaining and developing appropriate senior management and skilled personnel:</i></p> <p>The demands being placed on the human capital of the Issuer are unprecedented. The cumulative workload arising from a regulatory reform programme that is often extra-territorial and regularly evolving consumes significant human resources, placing increasingly complex and conflicting demands on a workforce that operates in an employment market where expertise in key markets is often in short supply and mobile.</p> <p>The Issuer's continued success depends in part on the retention of key members of its management team and wider employee base. The ability to continue to attract, train, motivate and retain highly qualified professionals is a key element of the Issuer's strategy. The successful implementation of the Issuer's growth strategy depends on the availability of skilled management in each of its business units, which may depend on factors beyond the Issuer's control, including economic, market and regulatory conditions.</p>
		<p><i>Liquidity, or ready access to funds, is essential to the Issuer's businesses:</i></p> <p>The Issuer's ability to borrow on a secured or unsecured basis, and the cost of doing so, can be affected by increases in interest rates or credit spreads, the availability of credit, regulatory requirements relating to liquidity or the market perceptions of risk relating to the Issuer or the banking sector, including the Issuer's perceived or actual creditworthiness.</p>

	<p>If the Issuer is unable to raise funds through deposits and/or in the capital markets, the Issuer's liquidity position could be adversely affected and the Issuer might be unable to meet deposit withdrawals on demand or at their contractual maturity, to repay borrowings as they mature, to meet the Issuer's obligations under committed financing facilities and insurance contracts, or to fund new loans, investments and businesses. The Issuer may need to liquidate unencumbered assets to meet the Issuer's liabilities. In a time of reduced liquidity, the Issuer may be unable to sell some of the Issuer's assets, or the Issuer may need to sell assets at reduced prices, which in either case could materially adversely affect the Issuer's business, financial condition, results of operations and prospects.</p>
	<p><i>The Issuer may not manage risks associated with the replacement of benchmark indices effectively:</i></p> <p>The expected discontinuation of certain key inter-bank rates such as the London Interbank Offered Rate ("Libor"), and the adoption of alternative risk-free benchmark rates ("RFRs") by the market, introduces a number of risks for the Issuer, its clients, and the financial services industry more widely. These include, but are not limited to:</p> <ul style="list-style-type: none"> • Legal risks, as changes to documentation for new and existing transactions may be required; • Financial risks, arising from any changes in the valuation of financial instruments linked to RFRs; • Pricing risks, as changes to RFRs could impact pricing mechanisms on some instruments; • Operational risks, due to the potential need to adapt IT systems, trade reporting infrastructure, operational processes and controls to accommodate one or more RFRs; and • Conduct risks, through potentially material adverse impact on customers or financial markets. <p>The benchmark specifications, together with the timetable and mechanisms for discontinuation of existing inter-bank rates and implementation of RFRs, have not yet been agreed across the industry and regulatory authorities. Accordingly, it is not currently possible to determine whether, or to what extent, any such changes would affect the Issuer.</p>
	<p><i>The delivery of the Issuer's strategic actions is subject to execution risk:</i></p> <p>Effective management of transformation projects is required to effectively deliver the Issuer's strategic priorities, involving delivering both on externally driven programmes (e.g. regulatory), as well as key business initiatives to deliver revenue growth, product enhancement and operational efficiency outcomes. Additionally, the cumulative impact of the collective change initiatives underway within the HSBC Group is significant and has direct implications on resourcing. The magnitude, complexity and, at times, concurrent demands of the projects required to meet these can result in heightened execution risk, which the Issuer endeavours to manage through appropriate governance. The failure to successfully deliver these key strategic initiatives may have material adverse effect on the Issuer's business, financial condition, results of operations, prospects and reputation.</p>

		<p><i>The Issuer is subject to unfavourable legislative or regulatory developments and changes in the policy of regulators or governments and the Issuer may fail to comply with all applicable regulations, particularly any changes thereto:</i></p> <p>The Issuer's businesses are subject to on-going regulation and associated regulatory risks, including the effects of changes in the laws, regulations, policies, guidance, voluntary codes of practice and their interpretations in the UK, the EU and the other markets in which the Issuer operates. This is particularly so in the current environment, where the Issuer expects government and regulatory intervention in the banking sector to remain high for the foreseeable future.</p> <p>In recent years, regulators and governments have focused on reforming both the prudential regulation of the financial services industry and the ways in which the business of financial services is conducted. Measures include enhanced capital, liquidity and funding requirements, the separation or prohibition of certain activities by banks, changes in the operation of capital markets activities, the introduction of tax levies and transaction taxes, changes in compensation practices and more detailed requirements on how business is conducted. The governments and regulators in the UK, the EU or elsewhere may intervene further in relation to areas of industry risk already identified, or in new areas, which could adversely affect the Issuer.</p>
		<p><i>Any reduction in the credit rating assigned to the Issuer, any subsidiaries of the Issuer or any of their respective debt securities could increase the cost or decrease the availability of the Issuer's funding and materially adversely affect the Issuer's liquidity position and net interest margin:</i></p> <p>Credit ratings affect the cost and other terms upon which the Issuer is able to obtain market funding. Rating agencies regularly evaluate the Issuer, as well as its debt securities. There can be no assurance that the rating agencies will maintain the Issuer's current ratings or outlook. Any reductions in these ratings and outlook could increase the cost of the Issuer's funding, limit access to capital markets and require additional collateral to be placed and, consequently, materially adversely affect the Issuer's interest margins and/or its liquidity position.</p>
		<p><i>The Issuer is subject to the risk of current and future legal, regulatory or administrative actions and investigations, the outcomes of which are inherently difficult to predict:</i></p> <p>The Issuer faces significant legal, regulatory and administrative risks in its business. The volume and amount of damages claimed in litigation, regulatory proceedings, investigations, administrative actions and other adversarial proceedings against financial institutions are increasing for many reasons, including a substantial increase in the number of regulatory changes taking place globally, increased media attention and higher expectations from regulators and the public. In addition, criminal prosecutions of financial institutions for, among other things, alleged conduct breaches, breaches of anti-money laundering ("AML"), anti-bribery/corruption, sanctions and counter-terrorist financing regulations, antitrust violations, market manipulation, aiding and abetting tax evasion, and providing unlicensed cross-border banking services, have become more commonplace and may increase in frequency due to increased media attention and higher expectations from prosecutors and the public. Additionally, the Issuer's financial statements reflect provisioning for legal proceedings and regulatory matters. Provisions for legal proceedings and regulatory matters typically require a higher degree of judgement than other types of provisions, and the actual costs of any disciplinary action discussed above may exceed existing provisioning.</p>

		<p>In addition, the Issuer and its affiliates continue to be subject to a number of material legal proceedings, regulatory actions and investigations. An unfavourable result in one or more of these proceedings could have a material adverse effect on the Issuer's business, financial condition, results of operations, prospects and reputation.</p>
D.6	<p>Key risks specific to the securities and risk warning to investors:</p>	<p>Credit risk: The Notes are direct, unsecured and unsubordinated obligations of the Issuer and not of any other person. If the Issuer's financial position were to deteriorate, there could be a risk that the Issuer would not be able to meet its obligations under the Notes (the Issuer's credit risk). If the Issuer becomes insolvent or defaults on its obligations under the Notes, in the worst case scenario, investors in the Notes could lose all of their invested amounts. In addition, the Notes are also subject to the credit risk of the Preference Share Issuer. If the Preference Share Issuer becomes insolvent there could be a risk that the Preference Shares are redeemed worthless and therefore the value of the Notes would become zero as well. In such worst case scenario Noteholders would lose all of their invested amount.</p> <p>Unlike a savings account or similar investment, an investment in the Notes is not covered by the UK Financial Services Compensation Scheme.</p> <p>The Notes are unsecured obligations: The Notes are not secured over any asset. Therefore, the Noteholder will not be able to enforce security as a method of recouping payments due under the Notes if the Issuer were to become insolvent and cease to be able to pay such amounts.</p> <p>The Notes are not ordinary debt securities and investors are exposed to the risks relating to the Preference Shares and Index or Indices: The Notes do not pay interest, and, upon redemption, either the Notes may return less than the amount invested or nothing.</p> <p>No ownership rights: The Notes do not confer any legal or beneficial interest or any voting or dividend rights in the Preference Shares or the securities underlying the Index or Indices.</p> <p>There may be no active trading market or secondary market for liquidity for Notes: Any Series of Notes may not be widely distributed and there may not be an active trading market, nor is there assurance as to the development of an active trading market. If there is no liquid market, Noteholders may not be able to realise their investment in the Notes until maturity of such Notes or may not realise a return that equals or exceeds the purchase price of their Notes.</p> <p>Illegality or changes in tax law may cause the Issuer's obligations under the Notes to be redeemed early: If the Calculation Agent determines the performance of the Issuer's obligations under any Notes shall have become unlawful or impracticable, or if the Issuer determines that it has become liable for, or payments under the Notes have become subject to, any taxes, the Issuer may redeem the Notes and pay a sum determined by reference to the value of the Preference Shares at the time of such redemption. As a result, Noteholders will forgo any future performance in the underlying Index or Indices and may suffer a loss of some or all of their investments.</p> <p>Considerations regarding hedging: The value of the Notes may not exactly correlate with the value of the Index or Indices to which the Notes relate.</p> <p>Applicable Bank Resolution Powers: The Issuer is subject to the Banking Act 2009 which implements the BRRD in the UK and gives wide powers in respect of UK banks and their parent and other group companies to HM Treasury, the Bank of England, the Prudential Regulation Authority and the United Kingdom Financial Conduct Authority (each, a "relevant UKRA") in circumstances where a UK bank has encountered or is likely to encounter financial difficulties. These powers include a "bail-in" power, which gives the relevant UKRA the power to cancel all or a portion of the principal amount of, or interest on, certain unsecured liabilities (which could include the Notes) of a failing financial institution, to convert certain debt claims (which could be amounts payable</p>

under the Notes) into another security (including common shares), or alter the terms of such liabilities, including their maturity or the date on which interest becomes payable, including by suspending payments for a temporary period. The exercise by the relevant UKRA of any of its powers under the Banking Act 2009 (including especially the bail-in power) could lead to the holders of the Notes losing some or all of their investment or may adversely affect the rights of holders of the Notes, the market value thereof or the Issuer's ability to satisfy its obligations thereunder.

Taxation: All payments under the Notes will be made without deduction of United Kingdom taxes, duties or other similar charges unless otherwise required. Noteholders should therefore be aware that they may be subject to taxes, duties or other similar charges in respect of transactions involving Notes depending, amongst other things, upon the status of the potential purchaser and laws relating to transfer and registration taxes.

Capital risks relating to Notes: The Notes are not principal protected and accordingly the repayment of any amount invested in Notes and any return on investment is not guaranteed. As a result the investors' capital can fall below the amount initially invested. Unlike a savings account or similar investment, an investment in the Notes is not covered by the UK Financial Services Compensation Scheme.

Certain factors affecting the value and trading price of Notes: The value of the Notes (prior to maturity) is expected to depend on a number of factors including, without limitations: (i) the financial condition and funding costs of the Issuer, (ii) fluctuations in the value of the Preference Shares, the Index or securities underlying an Index, (iii) the volatility of the Index or Indices, (iv) any changes in interest rates and inflation rates, (v) any change in currency exchange rates, (vi) economic and market conditions, (vii) time remaining to maturity, (viii) dividend rates on the securities underlying an Index, and (ix) any related transaction costs.

Potential Conflicts of interest: The Issuer and/or its affiliates may enter into hedging or other transactions (i) relating to an Index or to securities underlying an Index or (ii) with issuers of securities underlying an Index. The Issuer or its affiliates may also publish research or other reports relating to Indices or securities underlying an Index. Any such activities may have a positive or negative effect on the value of Notes relating to such Indices. In undertaking any such activities, neither the Issuer nor any affiliate of the Issuer is under any obligation to consider the interests of the Noteholders. In addition, the Issuer may assume roles as hedging counterparty or calculation agent under the Notes. In respect of any of these roles the Issuer may have interests that conflict with the interests of Noteholders.

Furthermore, HSBC Bank plc or HSBC France is the calculation agent in respect of the Notes and also acts as calculation agent in respect of the Preference Shares. As a result of this relationship, potential conflicts of interest may arise for HSBC Bank plc and HSBC France in acting in their respective capacities. HSBC France or HSBC Bank plc may contract with the Preference Share Issuer and/or enter into transactions, including hedging transactions, which relate to the Preference Share Issuer or the Preference Shares. In respect of any of these roles HSBC Bank plc and HSBC France may have interests that conflict with the interests of Noteholders.

Calculation Agent's discretion and valuations: Calculation of amounts payable in respect of redemption of the Notes may be made by reference to levels published on exchanges or other quotation systems and, in the absence of such display, at an amount determined by the Calculation Agent acting in good faith and a commercially reasonable manner. The Calculation Agent may be permitted to use its proprietary models to set the terms of adjustments which

	<p>may be made under the Notes which may be difficult to verify without expertise in valuation models.</p> <p>[Fees, commission and cost of hedging: The Issue Price of the Notes may include the distribution commission or fee charged by Issuer and/or its affiliates and the cost or expected costs of hedging the Issuer's obligations under the Notes (if any). Accordingly, there is a risk that, upon issue the price of Notes in the secondary market would be lower than the original Issue Price of the Notes.]</p> <p>Exchange rate risks: The Issuer will pay amounts in respect of the Notes in the Settlement Currency. Where the Settlement Currency is not the same as the Noteholder's preferred currency, the realisable value of the investment in the Noteholder's preferred currency may be at risk from fluctuations in the exchange rate.</p> <p>Extraordinary Event: If the Calculation Agent determines that a Merger Event (as defined in the Conditions) or Tender Offer (as defined in the Conditions) has occurred in relation to the Preference Shares or Insolvency (as defined in the Conditions) has occurred in relation to the Company, the Issuer may elect to redeem the Notes. If the Issuer elects to redeem the Notes, Noteholders may suffer a loss of some or all of their investments.</p> <p>Market Disruption Events and Additional Disruption Events: A change in law or an insolvency filing in relation to the Preference Share Issuer may cause the Notes to be redeemed early and may have an adverse effect on the value of such Notes. As a result, Noteholders may suffer a loss of some or all of their investments.</p> <p>The value of the Notes is determined by reference to the performance of Preference Shares and any early redemption of the Preference Shares will result in the Notes being redeemed early. Therefore, in the case of early closure of the relevant exchange, disruption of such exchange or suspension of trading on such exchange ("Market Disruption Events") or a change in laws, hedging disruption or an increased cost of hedging ("Additional Disruption Events") or in case of an index cancellation or modification or disruption in the publication of the index (each, an "Index Adjustment Event"), postponement or adjustment of valuations (in the case of a Market Disruption Event) or adjustment of terms or redemption of the Preference Shares (in case of an Additional Disruption Event or Index Adjustment Event in respect of such Preference Shares) may have an adverse effect on the value of such Notes. As a result, Noteholders may suffer a loss of some or all of their investments.</p> <p>Preference Share Early Redemption Event: If the Preference Shares are redeemed early, the Issuer shall redeem all of the Notes. Accordingly, if the Notes are redeemed prior to the maturity date, the Noteholders may suffer a loss of some or all of their investment and will forego any future appreciation in the relevant Index or Indices that may occur following such redemption.</p> <p>Benchmarks Reform: Indices which are deemed "benchmarks" are the subject of recent national, international and other regulatory guidance and reform. Some of these reforms (including the new European regulation on indices used as benchmarks in financial instruments and financial contracts or to measure the performance of investment funds (the "Benchmarks Regulation")) are already effective whilst others are yet to apply. These reforms may cause such "benchmarks" to perform differently than in the past, or to disappear entirely, or have other consequences which cannot be predicted. Any such consequence could have a material adverse effect on any Notes which reference Preference Shares linked to a "benchmark".</p> <p>The Benchmarks Regulation and/or any other international, national or other reforms and/or the general increased regulatory scrutiny of "benchmarks" could have a material impact on any Notes which reference Preference Shares linked to a "benchmark" index, including in any of the following circumstances: (A) (i) certain "benchmarks" may be discontinued, or (ii) the administrator(s) of a</p>
--	--

		<p>rate or index which is a "benchmark" may not obtain authorisation/registration or not be able to rely on one of the regimes available to non-EU benchmarks. Depending on the particular "benchmark" and the applicable terms of the Preference Shares, the occurrence of such a circumstance may lead to such benchmark being deemed replaced with an alternative benchmark selected by the calculation agent in respect of the Preference Shares (or any Alternative Pre-nominated Index specified in the terms and conditions of the Preference Shares), adjustment to the terms and conditions of the Preference Shares, early redemption, discretionary valuation by the calculation agent in respect of the Preference Shares and, delisting or other consequences in relation to Notes which reference Preference Shares linked to such "benchmark"; or (B) the methodology or other terms of the "benchmark" could be changed in order to comply with the terms of the Benchmarks Regulation or other reforms, and such changes could have the effect of reducing or increasing the rate or level or affecting the volatility of the published rate or level and, depending on the particular "benchmark" and the applicable terms of the Preference Shares, could lead to adjustments to the terms of the Preference Shares, including determination by the calculation agent of the Preference Shares of the rate or level in its discretion. Any of the above consequences could have a material adverse effect on the value of and return on any Notes which reference Preference Shares linked to a "benchmark" index.</p> <p>Investors may lose the value of their entire investment or part of it, as the case may be.</p>
