4Q 2024

The financial information on which this supplement is based is unaudited and has been prepared in accordance with HSBC's significant accounting policies as described in the Annual Report and Accounts 2024. The financial information does not constitute financial statements prepared in accordance with International Financial Reporting Standards issued by the International Accounting Standards Board ('IFRS Accounting Standards'), is not complete and should be read in conjunction with the Annual Report and Accounts 2024, the Interim Report 2024, and other reports and financial information published by HSBC.

Unless stated otherwise, all information is on a reported basis. Where disclosed, constant currency performance information is computed by adjusting reported results for the effects of foreign currency translation differences, which distort period-on-period comparisons. We consider constant currency performance provides useful information for investors by aligning internal and external reporting, and reflects how management assesses period-on-period performance. Definitions and calculations of other alternative performance measures are included in our 'Reconciliation of alternative performance measures' on page 120 of our Annual Report and Accounts 2024. All alternative performance measures are reconciled to the closest reported financial measure.

We separately disclose 'notable items', which are components of our income statement which management would consider as outside the normal course of business and generally non-recurring in nature.

The quarterly comparatives are translated at average 4Q24 exchange rates for the income statement or at the prevailing rates of exchange on 31 December 2024 for the balance sheet. The yearly comparatives are translated at average FY24 exchange rates for the income statement or at the prevailing rates of exchange on 31 December 2024 for the balance sheet. The income statement for the 12 months to 31 December 2024 is translated at the average rate of exchange for the 12 months to 31 December 2024.

1 Nil balances since 31 December 2022 due to the reclassification of assets to held for sale relating to the sale of our banking business in Canada, which was completed on 28 March 2024.

2 Risk-weighted assets are non-additive across the entities, due to market risk diversification effects within the Group.

3 The remaining operational risk RWA balance at 30 June 24 and 30 September 24 in HSBC Bank Canada moved to 'holding companies, shared service centres and intra-group eliminations'.

4 Operational risk RWAs for HSBC Bank Canada are excluded past the PRA waiver permission granted in October 2024.
