# Important notice and forward-looking statements

## Important notice

The information set out in this presentation and subsequent discussion does not constitute a public offer for the purposes of any applicable law or an offer to sell or solicitation of any offer to purchase any securities or other financial instruments or any recommendation in respect of such securities or instruments.

## Forward-looking statements

This presentation and subsequent discussion may contain projections, estimates, forecasts, targets, opinions, prospects, results, returns and forward-looking statements with respect to the financial condition, results of operations, capital position and business of the Group (together, “forward-looking statements”). Any such forward-looking statements are not a reliable indicator of future performance, as they may involve significant assumptions and subjective judgements which may or may not prove to be correct and there can be no assurance that any of the matters set out in forward-looking statements are attainable, will actually occur or will be realised or are complete or accurate. Forward-looking statements are statements about the future and are inherently uncertain and generally based on stated or implied assumptions. The assumptions may prove to be incorrect and involve known and unknown risks, uncertainties, contingencies and other important factors, many of which are outside the control of the Group. Actual achievements, results, performance or other future events or conditions may differ materially from those stated, implied and/or reflected in any forward-looking statements due to a variety of risks, uncertainties and other factors (including without limitation those which are referable to general market conditions or regulatory changes). Any such forward-looking statements are based on the beliefs, expectations and opinions of the Group at the date the statements are made, and the Group does not assume, and hereby disclaims, any obligation or duty to update them if circumstances or management’s beliefs, expectations or opinions should change. For these reasons, recipients should not place reliance on, and are cautioned about relying on, any forward-looking statements. Additional detailed information concerning important factors that could cause actual results to differ materially is available in our 1Q15 Earnings Release.

This presentation contains non-GAAP financial information. The primary non-GAAP financial measure we use is ‘adjusted performance’ which is computed by adjusting reported results for the period-on-period effects of foreign currency translation differences and significant items which distort period-on-period comparisons. Significant items are those items which management and investors would ordinarily identify and consider separately when assessing performance in order to better understand the underlying trends in the business. Reconciliation of the difference between the non-GAAP financial measurements with the most directly comparable measures under GAAP is provided in the 1Q15 Earnings Release available at [www.hsbc.com](http://www.hsbc.com).

**Cover images: HSBC – then and now**

It is 150 years since HSBC was founded in Hong Kong to finance trade between Asia and Europe. Much has changed since then, as our cover photos demonstrate. The left photo shows Hong Kong harbour, with the HSBC office (extreme left) a few years after it was established in 1865. The right image shows the harbour today, with the HSBC building fifth from left (partially hidden).

Hong Kong has been transformed both physically and economically, from trading outpost to international financial centre. HSBC has mirrored Hong Kong's rise to global prominence, growing from a small regional trading bank into one of the world's largest banking and financial services organisations today.

HSBC's Hong Kong office is still at 1 Queen's Road Central, as it was in 1865. The current HSBC building is the fourth to occupy the site, but the values on which the bank was founded remain the same. HSBC still aims to be where the growth is, connecting customers to opportunities, enabling businesses to thrive and economies to prosper, and helping people to fulfil their hopes and realise their ambitions.

We are proud to have served our customers with distinction for 150 years.
